With Cisco DNA Center, you can manage your network from a single pane of glass.

Get started right with a free Cisco DNA Center Appliance, plus free expert coaching focused on your specific use cases, goals, and objectives.

### Promotion details (Enterprise Agreement only)

Purchase at least \$100,000 Total Contract Value of eligible Cisco DNA software subscriptions and get a free Cisco DNA Center Appliance, plus free one-on-one expert services to fast-track your journey to intent-based networking.

#### One free Cisco DNA Appliance

Eligible subscriptions include any tier (Essential, Advantage, and Premier), any term (3, 5, 7 years), and any technology (wireless, switching, and routing subscriptions - excluding cloud based Cisco SD-WAN DNA subscriptions since physical appliance is not required).

#### Two free Cisco DNA Accelerators

These one-on-one remote coaching engagements with a certified Cisco specialist are customized to address your specific intent-based networking goals and challenges. Your coaches will advise, guide, and even build demos in your sandbox to help you and your team quickly and effectively use Cisco DNA Center in your environment. Accelerator engagements are typically 2 to 6 hours in scope and can be scheduled over several weeks.

#### Two free Ask the Expert sessions

Ask the Experts are one-to-many Webex sessions aligned to Cisco DNA Accelerator topics. Designed to provide the next level of support over standard self-help, these live one-hour sessions cover a variety of topics, including overviews and deep dives into common use cases, navigating the dashboard, design and deployment issues, and leveraging automation and traffic analysis. Certified experts are on hand to answer your trickiest questions.

**This offer is available globally and is valid until July 25, 2020.**

Products eligible for this promotion: Eligible subscriptions include any tier (Essential, Advantage, and Premier), any term (3, 5, 7 years), and any technology (wireless, switching, and routing subscriptions - excluding cloud based Cisco SD-WAN DNA subscriptions since physical appliance is not required).
