1. Introduction to CSPC

This document provides information about what's new in the Collector 2.7.3.1. The new features and functionality benefit existing customers as well as new users who are just starting to install a new CSPC.

The CSPC software provides an extensive collection mechanism to collect various aspects of customer network information. CSPC connects to the discovered devices providing delivery of network information to network administrators and network engineers. Data collected by CSPC is used by several Cisco Advanced and Technical Service offers to provide detailed reports and analytics for both the hardware and software, such as inventory reports, product alerts, configuration best practices, network audits and so on.

Collector 2.7.3.1 is the Maintenance release on top of Collector 2.7.3 Feature release. To understand the 2.7.3 features, refer to the [Release notes 2.7.3](#)

CSPC Supported Browsers

- Firefox version 27 to 49
- Internet Explorer (IE) version 9 to 11

2. Upgrade Scenarios

Following are the recommended options for collector upgrades. Refer to the below sections or [Upgrade Guide](#) for details on performing the upgrade.

To upgrade a collector from versions less than CSPC 2.3.8, perform the following:

1. Install as a new collector with either version 2.7.3 OVA or 2.7 ISO. Refer to [Download Center](#) 2.7 available images.
2. Use the Software Updates tab in the CSPC UI to update the software to 2.7.3.1

To upgrade a collector from version 2.3.8, 2.4.x, or 2.5.x perform the following:

1. Upgrade directly to CSPC version 2.7 using admin shell CLI.
2. Use the Software Updates tab in the CSPC UI to update the software to 2.7.3.1

To upgrade a collector from 2.6.x, perform the following:

To upgrade a collector from 2.6, 2.6.1, 2.6.2, 2.6.4, and 2.6.5 perform the following:

Upgrade directly to CSPC version 2.7.3.1 using admin shell CLI.

To upgrade a collector from 2.6.3, perform the following:

1. Download the update file (jeos-20.1.2-0-lnx64.zip) from the software [download center](#) and install it on the collector (to enable the software update tab)
2. Use the Software Updates tab in the CSPC UI to update the software to 2.7.3.1

To upgrade a collector version from CSPC 2.7.x

1. Use the Software Updates tab in the CSPC UI to update the software to 2.7.3.1 Refer to [Upgrade Guide](#)

3. Resolved Defects/CVEs

Below are the defects addressed as part of Collector 2.7.3.1.

Bug ID	Description
CSCvh50640	Audit collection got stuck and never stops.
CSCvh47854	Nessus Security: Meltdown and Spectre - kernel update CVE-2017-5753, CVE-2017-5715, CVE-2017-5754

4. Available Resources

Additional information regarding installing and configuring the collector are covered in below documents:

- [CSPC Quick Start Guide](#)
- [CSPC Upgrade Guide](#)
- [CSPC Installation Guide](#)
- [CSPC User Guide](#)

Software Download

- [CSPC Image Download Center](#)
