1. Introduction

The CSPC software provides an extensive collection mechanism to collect various aspects of customer network information. CSPC connects to the discovered devices providing delivery of network information to network administrators and network engineers. Data collected by CSPC is used by several Cisco Advanced and TechnicalService offers to provide detailed reports and analytics for both the hardware and software, such as inventory reports, product alerts, configuration best practices, network audits and so on.

This document provides information about what's new in the Common Services Platform Collector (CSPC) 2.11.0.7. The changes in this release will benefit existing customers as well as new users by addressing security fix.

CSPC Supported Browsers

- Microsoft Edge 100 to 122
- Mozilla Firefox 27 to 123
- Google Chrome 57 to 122

CSPC Supported ESXi Versions

- ESXi 6.7 (20497097) and above
