1. Introduction

Breezometer partner uses sensors to get the Air Quality data. Cisco Kinetic for Cities (CKC) gets this data by using the Breezometer APIs.

This document communicates the features developed and released in the Integration Build of Breezometer Environment Extension of CKC 4.1.

2. Revision History

Date	Release version	Description
2019-05-10	1.1	Initial Development

3. New Features

This integration build of Breezometer Environment Extension, will result in

- updating Air Quality, Temperature, Pressure, Dew Point Temperature, and Humidity for each sensor.
- improving flexibility and performance of the system.

4. Resolved Defects

Not Applicable

5. Open Caveats

Not Applicable
