Join a Meeting from the Desktop App

To join a meeting from the desktop app, you need:

- An account on the Webex Meetings desktop app
- An entitlement to join a Webex Meetings meeting
- Access to a computer that can support the meeting features
- Connection to the Internet

1. Open the Webex Meetings desktop app on your computer.
2. Click on the Join button.
3. Enter the Meeting ID or URL, and then click Join.

If you don’t have an account, you can request entitlement or enroll to use Webex.

Connect to a Video Device

If you need a video device, you can connect to a video conferencing device or
video conferencing system.

1. Connect your video device to your computer.
2. Configure your video device to work with the Webex Meetings desktop app.
