

# What's Changed in Cisco Webex Meetings

## Video-Centric Experience for Meetings

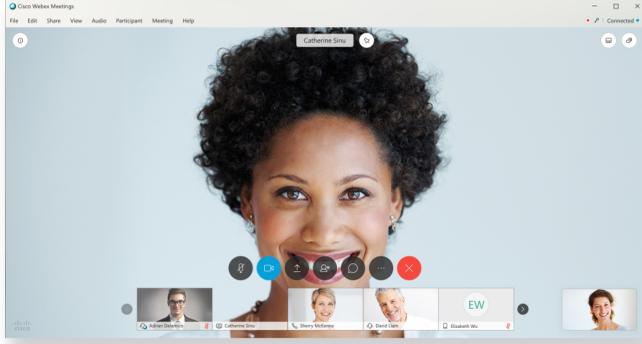

We've maximized real estate for video meetings, added new layouts, and simplified your meeting controls.

### Before

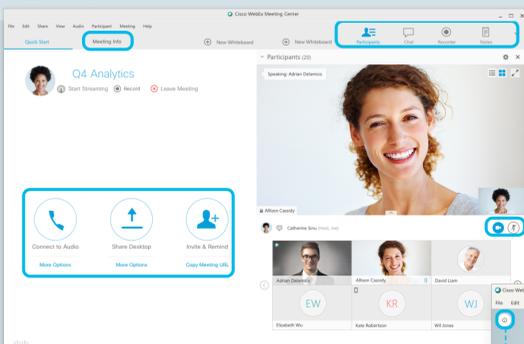

### After

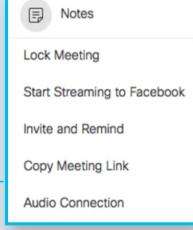

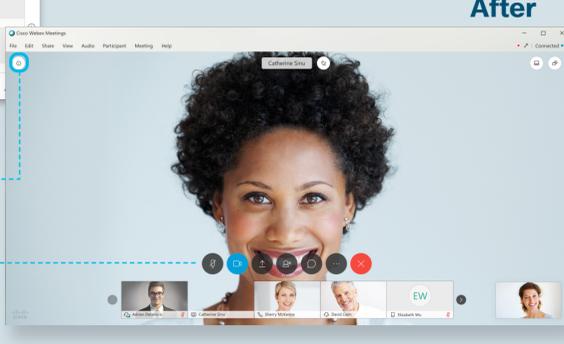

## Centralized Meeting Controls

Get easy access to all essential meeting controls in one place.

### Before

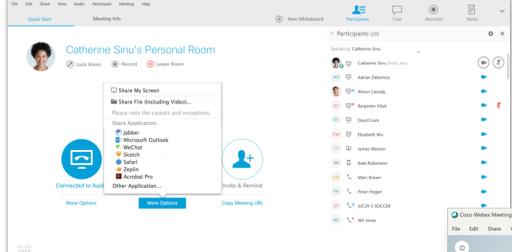

### After

## Sharing

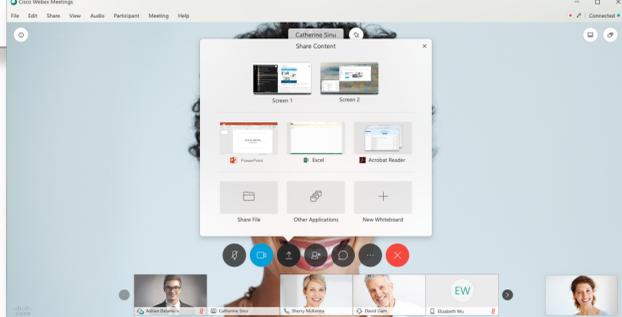

### Before

The Share Content dialog now shows thumbnail previews of your open screens and applications.

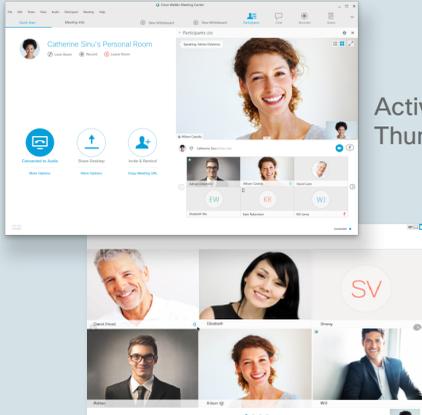

### After

## Video Layout Options

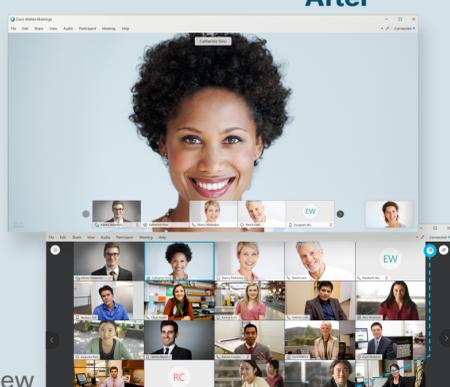

New layouts let you control how you view your meeting.

### Before

### Active Speaker and Thumbnail View

### After

### Grid View

Active Speaker Video View      Grid View

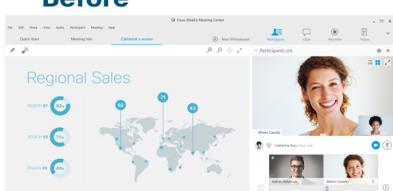

Active Speaker and Thumbnail View

## Video + Sharing Layouts

New sharing layouts let you choose how to view content.

### Before

### Active Speaker and Thumbnail View

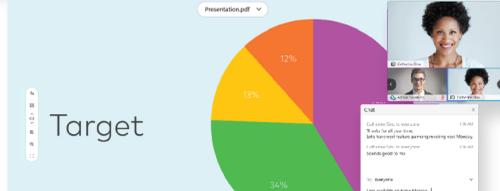

### After

### Side-by-Side View

### Floating View

Try out the new meeting experience.
