What's Changed in the Pre-Meeting Experience

Cisco Webex Meetings

Try out the new pre-meeting experience.

Automatically Connect to Video Devices

The pre-meeting functionality of Productivity Tools is being merged into the desktop app.

Before
No pre-meeting to install two separate apps!

After
A single desktop app contains both the pre-meeting and in-meeting functionality.

Automatically discover nearby video devices and connect to them.

Try out the new pre-meeting experience.

Cisco Webex Meetings

Schedule and Join from a Single App

Start or Join Meetings Easily

The Webex Meetings desktop app includes additional integration features for Microsoft Outlook, IBM Lotus Notes, and other applications that were formerly a part of Webex Productivity Tools.

Before
Join and start meetings easily from here.

After
View upcoming meetings and join them when they're scheduled to start.

Other Integrations and Settings

Before
You can start and schedule Webex meetings directly from selected applications.

After
Start or Join Meetings Easily

Start or join meetings directly from your Microsoft Outlook and Webex Meetings calendar to show all of your Webex meetings as well as appointments with no Webex meetings added.

Automatically Connect to Video Devices

Before
Start a meeting in your Personal Room or join someone else's.

After
Same functionality you know and love from Productivity Tools is now provided in a seamless package that everyone will be able to benefit from when downloading the desktop app.

Integrated Calendar

Before
You can start and schedule Webex meetings directly from Microsoft Outlook and schedule a Webex meeting.

After
Click Schedule Meeting to open a calendar invite in Microsoft Outlook and schedule a Webex meeting.

Start a meeting in your Personal Room or join someone else's.
