

Start a call or see what's going on in your spaces

Meet button, search and spaces list replaces the tabs from version 1.9.x (Activity, People and Spaces)

Click help icon to get more information

Click here to customize the space details such as name, address or set a passcode for security

Invite guests or non-members to a space meeting

Click here to start a meeting with previously chosen audio video preferences

Click here to select audio, video preferences before joining the call, refer to Joining a call in a space for more details

Search for spaces or people

Select a space to join or start meetings, view the details such as members or activity

Click here to add someone to the space as a member. A space member can join meetings, invite guests and view chat conversations.

Read and exchange chat messages

The screenshot shows the Cisco Meeting App interface. The top bar includes a 'Meet' button, a help icon, and a settings icon. Below this is a search bar and a list of recent spaces. The selected space, 'Release Project Management', is shown in detail, including a list of members and a chat history. Annotations with red lines point to various UI elements and their functions.
