

# Start or join a meeting in a space

**A space is a virtual meeting room**  
Only members of a space can use it to communicate using video, audio, screen share and chat

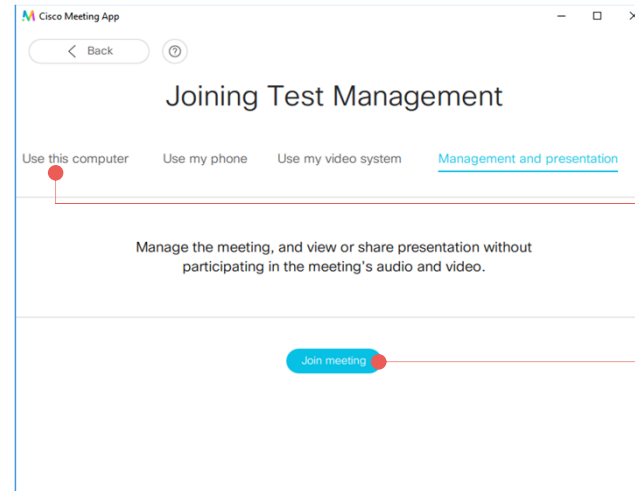

Select or search for a space where you want to start a meeting

Click here to modify audio video preferences before starting or joining a meeting

Click here to join the call directly with previously chosen audio and video preferences

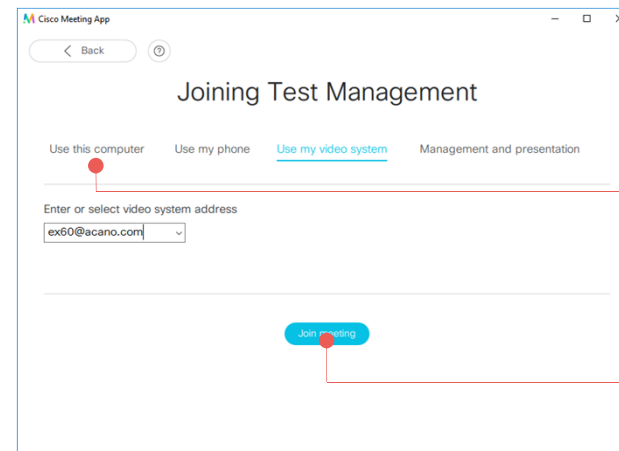

Shows list of spaces ordered by most recent activity (meetings or messages), call history for recent direct calls, SIP calls and spaces you joined as guests.

Click on each tab to select your camera, microphone and speakers for the call. You can also choose to mute or unmute your audio and video.

Click here from the **Management and Presentation** tab to join and monitor a meeting without participation

Enter or select a video system if you want to use one for your meeting

Click here to join the meeting
