

Use the Meet button to call or create a space

A space is a virtual meeting room
Use it to communicate using video, audio, screen share and chat

Cisco Meeting App

Click on the **Meet** button from the main screen

If you want to join a call:

- Search for people by name
- Search for a video address, or phone number (if enabled)
- Enter a space address
- Paste a meeting link to join a meeting as a guest

Enter a person's name

See spaces you currently share with the selected person only. You can use these to meet or chat.

See spaces that include you and the selected person. You can use these to meet or chat

Click here to create a new space, If no one is selected then you will be the only member by default. Members can be added later

Call the selected person directly
