- Chapter 6: View History
- Chapter 7: Orders (eDelivery)

GLOSSARY

| Term | Definition |
|----------------------|---|
| Smart Account (SA) | Type of an account that helps to easily view, store and manage ALL your assets and entitlements in one location across the entire organization. It also helps to consolidate user access management. |
| Virtual Account (VA) | A sub-folder within the SA that helps to internally organize your assets and entitlements. |
| Assets | Hardware/ devices, software, subscriptions and services. |
| Entitlement(s) | What Cisco Customers and Partners are entitled to: Right to Use, Right to Technical Support, Right to Software Download, Right to Manage Licenses, Right to Software Version Upgrade, Right to Hardware Replacement, Right to Content and more. |
| CCO ID | A CCO ID is your personal log in for the Cisco.com website. With a CCO ID you can register for trainings, events, programs and promotions and access additional tools and content. |
| Domain | Domain represents business or organizations on the internet. Example, for email address john@cisco.com , domain is 'cisco.com'. |
