http://www.cisco.com/en/US/partner/products/ps11101/tsd_products_support_series_home.html

Release Notes

The Intelligent Automation for SAP 3.0 Release Notes describes the key features, enhancements, product requirements for the current release.

Intelligent Automation for SAP 3.0 Release Documentation

- **Intelligent Automation for SAP Process Automation Guides**—Provides information on importing and using Automation Packs in Cisco Process Orchestrator.

There are eight Process Automation Guides. They are as follows:

- Process Automation Guide for Assessment for SAP BWA
 - Process Automation Guide for Automation for SAP BOBJ Accelerator
 - Process Automation Guide for Automation for SAP BOBJ Enterprise
 - Process Automation Guide for Automation for SAP BW and BWA
 - Process Automation Guide for Incident Response for SAP
 - Process Automation Guide for IT Task Automation for SAP
 - Process Automation Guide for Automation for SAP HANA
 - Process Automation Guide for SAP Solution Manager E2E Response
- **Cisco Intelligent Automation for SAP 3.0 Installation Guide**—Provides information about installing the IA for SAP solution, importing the SAP automation packs, configuring the required extracted data, and configuring the objects in Process Orchestrator to run the processes.
