

Cisco Prime Service Catalog Compatibility Matrix

Revised: November 2014

This document describes the version of the third-party software products that have been certified with Cisco Prime Service Catalog. This document also provides information about which browsers are compatible with which UI modules of Cisco Prime Service Catalog.

Review the Installation and Upgrade Guide for additional software requirements to make sure there are no conflicts when installing the prerequisites. While other possible functional combinations of technologies exist, only the items listed in this table have been tested and are supported for Cisco Prime Service Catalog.
