Finding Information about Known and Resolved Issues

Use the Cisco Bug Search Tool to find the most current information about known and resolved defects.

**Before You Begin**
Register for a Cisco account if you do not have one. Go to https://identity.cisco.com/ui/tenants/global/v1.0/enrollment-ui.

**Procedure**

2. Log in with your Cisco account credentials.
3. Click Select from list > Security > Email Security > Cisco Email Security Appliance, and click OK.
4. In Releases field, enter the version of the release, for example, 13.5.4
5. Depending on your requirements, do one of the following:
   - To view the list of resolved issues, select Fixed in these Releases from the Show Bugs drop down.
   - To view the list of known issues, select Affecting these Releases from the Show Bugs drop down and select Open from the Status drop down.

**Note**
If you have questions or problems, click the Help or Feedback links at the top right side of the tool. There is also an interactive tour; to view it, click the link in the orange bar above the search fields.

Additional Information

Service and Support

**Note**
To get support for virtual appliances, have your Virtual License Number (VLN) number ready when you call Cisco TAC.
For non-critical issues, you can also access customer support from the appliance. For instructions, see the User Guide or online help.
