Upgrade Paths

You can upgrade to release 8.0.1-110 from the following versions:

- 8.0.1-023
- 8.0.1-108

Resolved Issues

Click a Defect ID in the table for more information about the defect.

Defect ID	Description
CSCum77670	Emails to addresses with the same user name but different domain names are dropped as duplicates.

Known Issues

Click a Defect ID in the table for more information about the defect.

Defect ID	Description
CSCuo97941	Some messages are not encrypted as expected. This can occur if "TLS Required - Verify Hosted Domains" is enabled for the Destination Domain and the destination Mail Transfer Agent (MTA) does not offer STARTTLS. Workaround: Do not enable "TLS Required - Verify Hosted Domains."

Additional Information

For additional information about Cisco AsyncOS for Email Security Appliances, see the Release Notes for your release at http://www.cisco.com/en/US/products/ps10154/prod_release_notes_list.html.

Service and Support

For service and support information for Cisco Content Security appliances, see:

- http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html
- http://www.cisco.com/en/US/products/ps11169/serv_group_home.html#~Support

If you purchased support through a reseller or another supplier, please contact that supplier directly with your product support issues.

For noncritical questions and issues, you can also submit a customer support request from the appliance. For instructions, see the User Guide or online help.
