Upgrade Paths

You can upgrade to release 8.0.1-111 from the following versions:

- 8.0.1-023
- 8.0.1-110

Resolved Issues

Click a Defect ID in the table for more information about the defect.

Defect ID	Description
CSCuo76898	Cluster commits or resynchronizations take several minutes to complete and are prone to fail.
CSCuo97941	Emails are sent unencrypted when TLS Required - Verify Hosted Domains option is enabled for the destination domain and the destination MTA does not provide STARTTLS.

Additional Information

For additional information about Cisco AsyncOS for Email Security Appliances, see the Release Notes for your release at http://www.cisco.com/en/US/products/ps10154/prod_release_notes_list.html.

Service and Support

For service and support information for Cisco Content Security appliances, see:

- http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html
- http://www.cisco.com/en/US/products/ps11169/serv_group_home.html#~Support

If you purchased support through a reseller or another supplier, please contact that supplier directly with your product support issues.

For noncritical questions and issues, you can also submit a customer support request from the appliance. For instructions, see the User Guide or online help.
