What's New

Feature	Description
Duplicate Boundaries Verification	<p>Cisco Email Security appliance can now detect messages with duplicate MIME boundaries and perform actions on them.</p> <p>Use the Duplicate Boundaries Verification content filter condition or the <code>duplicate_boundaries</code> message filter rule to detect messages with duplicate MIME boundaries.</p> <p>Example</p> <p>The following message filter will quarantine all the messages that contain duplicate MIME boundaries.</p> <pre>DuplicateBoundaries: if (duplicate_boundaries) { quarantine("Policy"); }</pre>
Message Filter Rule to Detect Malformed MIME Headers	<p>You can now take actions on messages with malformed MIME headers using the new message filter rule: “<code>malformed-header</code>.” The following example shows how to quarantine all the messages with malformed MIME headers:</p> <pre>quarantine_malformed_headers: if (malformed-header) { quarantine("Policy"); }</pre>

Upgrade Paths

You can upgrade to release 8.5.7-104 from 8.5.7-043 version.

Known and Fixed Issues

Use the Cisco Bug Search Tool to find information about known and fixed defects in this release.

- [Bug Search Tool Requirements, page 2](#)
- [Lists of Known and Fixed Issues, page 3](#)
- [Finding Information about Known and Resolved Issues, page 3](#)

Bug Search Tool Requirements

Register for a Cisco account if you do not have one. Go to <https://tools.cisco.com/RPF/register/register.do>.

Lists of Known and Fixed Issues

Known Issues	https://bst.cloudapps.cisco.com/bugsearch/search?kw=*&pf=prdNm&pfVal=282509130&rls=8.5.7-104&sb=af&bt=custV
Fixed Issues	https://bst.cloudapps.cisco.com/bugsearch/search?kw=*&pf=prdNm&pfVal=282509130&rls=8.5.7-104&sb=fr&bt=custV

Finding Information about Known and Resolved Issues

Use the Cisco Bug Search Tool to find the most current information about known and resolved defects.

Before You Begin

Register for a Cisco account if you do not have one. Go to <https://tools.cisco.com/RPF/register/register.do>.

Procedure

-
- Step 1** Go to <https://tools.cisco.com/bugsearch/>.
- Step 2** Log in with your Cisco account credentials.
- Step 3** Click **Select from list > Security > Email Security > Cisco Email Security Appliance**, and click **OK**.
- Step 4** In Releases field, enter the version of the release, for example, 8.5.7-104.
- Step 5** Depending on your requirements, do one of the following:
- To view the list of resolved issues, select **Fixed in these Releases** from the Show Bugs drop down.
 - To view the list of known issues, select **Affecting these Releases** from the Show Bugs drop down and select **Open** from the Status drop down.
-

Note

If you have questions or problems, click the **Help** or **Feedback** links at the top right side of the tool. There is also an interactive tour; to view it, click the link in the orange bar above the search fields.

Additional Information

For additional information about AsyncOS for Cisco Email Security Appliances, see the Release Notes for your release at http://www.cisco.com/en/US/products/ps10154/prod_release_notes_list.html.

Service and Support

For service and support information for Cisco Content Security appliances, see:

- http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html
- http://www.cisco.com/en/US/products/ps11169/serv_group_home.html#~Support

If you purchased support through a reseller or another supplier, please contact that supplier directly with your product support issues.

For noncritical questions and issues, you can also submit a customer support request from the appliance. For instructions, see the User Guide or online help.
