Finding Information about Known and Resolved Issues

Use the Cisco Bug Search Tool to find the most current information about known and resolved defects.

Before You Begin

Register for a Cisco account if you do not have one. Go to https://identity.cisco.com/ui/tenants/global/v1.0/enrollment-ui.

Procedure

- **Step 1**  Go to https://bst.cloudapps.cisco.com/bugsearch/.
- **Step 2**  Log in with your Cisco account credentials.
- **Step 3**  Click Select from list > Security > Email Security > Cisco Email Security Appliance, and click OK.
- **Step 4**  In Releases field, enter the version of the release, for example, 12.5
- **Step 5**  Depending on your requirements, do one of the following:
  - To view the list of resolved issues, select **Fixed in these Releases** from the Show Bugs drop down.
  - To view the list of known issues, select **Affecting these Releases** from the Show Bugs drop down and select Open from the Status drop down.
Related Documentation

In addition to the main documentation in the following table, information about other resources, including the knowledge base and Cisco support community, is in the More Information chapter in the online help and User Guide PDF.
