New Features

This release supports the new 90-series hardware models:

- M190
- M390
- M690

Supported Hardware

This release supports only the new 90-series hardware models.

Virtual appliances are not supported.

Upgrade Paths

Upgrades to this AsyncOS release are not supported.

Compatibility with Email and Web Security Releases

Compatibility with AsyncOS for Email Security and AsyncOS for Web Security releases is detailed in the Compatibility Matrix available from

<http://www.cisco.com/c/en/us/support/security/content-security-management-appliance/products-release-notes-list.html>.

Important Notes

Content Security Release Terminology

For an explanation of terms like LD, ED, GD, and MD that are used in labeling content security product releases, see <https://supportforums.cisco.com/blog/12309231/content-security-release-terminology>.

Installation Notes

- [Important Additional Reading, page 2](#)
- [Migrating from Older Hardware to x90 Hardware Appliances, page 2](#)

Important Additional Reading

You should also review the release notes for:

- Your associated Email security releases.
- Your associated Web security releases.

For links to this information, see [Related Documentation, page 4](#).

Migrating from Older Hardware to x90 Hardware Appliances

This release does not support x60, x70, or x80 hardware, and therefore configuration files cannot be migrated from those appliances. You must manually configure new appliances running this release.

Documentation Updates

The User Guide PDF may be more current than the online help. To obtain the User Guide PDF and other documentation for this product, click the **View PDF** button in the online help or visit the URL shown in [Related Documentation, page 4](#).

Information about other resources, including Tech Notes and the Cisco support community, is in the Additional Resources chapter in the online help and User Guide PDF.

Known and Fixed Issues

Use the Cisco Bug Search Tool to find information about known and fixed defects in shipping releases.

Note Known issues on Cisco Email Security Appliances and Cisco Web Security Appliances may appear in or impact functionality of Cisco Content Security Management Appliances.

Known issues in previous content security management releases may also affect this release.

- [Bug Search Tool Requirements, page 3](#)
- [Lists of Known and Fixed Issues, page 3](#)
- [Other Bug Searches, page 3](#)

Bug Search Tool Requirements

Register for a Cisco account if you do not have one. Go to <https://tools.cisco.com/RPF/register/register.do>.

Lists of Known and Fixed Issues

Note

Issues that were open in previous releases may also be open in this release.

Known issues first seen in this release	https://tools.cisco.com/bugsearch/search?kw=*&pf=prdNm&pfVal=282509131&rls=9.5.2&sb=af&sts=open&svr=3nH&srtBy=byRel&bt=custV
Fixed issues	https://tools.cisco.com/bugsearch/search?kw=*&pf=prdNm&pfVal=282509131&rls=9.5.2-023&sb=fr&svr=3nH&srtBy=byRel&bt=custV

Other Bug Searches

Procedure

- Step 1** Go to <https://tools.cisco.com/bugsearch/>.

Step 2 Log in with your Cisco account credentials.

Step 3 Enter search criteria.

For example, enter a bug number, or

a. Click **Select from list**, then navigate to and select your product:

Cisco Email Security Appliance

Cisco Web Security Appliance

Cisco Content Security Management Appliance

b. For **Releases**, enter the AsyncOS release number, such as 9.5.1.

Step 4 If you have questions or problems, click the **Help** or **Feedback** links at the top right side of the tool.

Related Documentation

In addition to the main documentation in the following table, information about other resources, including the Cisco support community, is in the Additional Information chapter in the online help and User Guide PDF.
