About this guide
The purpose of this document is to describe the regulatory compliance and safety instructions for the product(s) listed below:

- Cisco TelePresence EX60
- Cisco TelePresence EX90

User documentation
The user documentation for the Cisco TelePresence EX series:

- Quick Reference Guide
- User guide
- Administrator guide
- Regulatory compliance and safety information guide
- Legal & license information for products using TC software

Other user documentation you might find useful:

- Video conference room primer guide
- Video conference room acoustics guidelines

Download the user documentation
Go to http://www.cisco.com/go/telepresence/docs and select your product to see the user documentation for your product.
Safety instructions

For your protection please read these safety instructions completely before you connect the equipment to the power source. Carefully observe all warnings, precautions and instructions both on the apparatus and in these operating instructions. Retain this manual for future reference.

User Environment

This product is for use in an indoor office environment. Protection against dust and moisture according to IP 20. Do not use this product at altitudes higher than 3000m asl. Do not use the product in ambient temperatures above 40°C (104°F) and below 0°C (32°F). Relative humidity (RH) must be between 10% to 90%.

Water and Moisture

Do not operate the apparatus under or near water—for example near a bathtub, kitchen sink, or laundry tub, in a wet basement, near a swimming pool or in other areas with high humidity.

- Never install jacks for communication cables in wet locations unless the jack is specifically designed for wet locations.
- Do not touch the product with wet hands.

Cleaning

Unplug the apparatus from communication lines, mains power-outlet or any power source before cleaning or polishing. Do not use liquid cleaners or aerosol cleaners. Use a lint-free cloth lightly moistened with water for cleaning the exterior of the apparatus.

Ventilation

Do not block any of the ventilation openings of the apparatus. Never cover the slots and openings with a cloth or other material. Never install the apparatus near heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

Small objects (like paper clips and staples) entering the ventilation openings may damage the product.

Do not place the product in direct sunlight or close to a surface directly heated by the sun.

Lightning

Never use this apparatus, or connect/disconnect communication cables or power cables during lightning storms.

Dust

Do not operate the apparatus in areas with a high concentration of dust.

Vibration

Do not operate the apparatus in areas with vibration or place it on an unstable surface.

Power Connection and Hazardous Voltage

The product may have a hazardous voltage inside.

- Never attempt to open this product, or any peripherals connected to the product, where this action requires a tool.
- This product should always be powered from an earthed power outlet.
- Never connect attached power supply cord to other products.
- In case any parts of the product has visual damage never attempt to connect main power, or any other power source, before consulting service personnel.
- The plug connecting the power cord to the product/power supply serves as the main disconnect device for this equipment. The power cord must always be easily accessible.
- Route the power cord so as to avoid it being walked on or pinched by items placed upon or against it. Pay particular attention to the plugs, receptacles and the point where the cord exits from the apparatus.
- Do not tug the power cord.
- If the provided plug does not fit into your outlet, consult an electrician.
- Never install cables, or any peripherals, without first unplugging the device from its power source.

Statement 371 - Power Cable and AC Adapter

接続ケーブル、電源コード、AC アダプタ、バッテリーなどの部品は、必ず添付品または指定品をご使用ください。添付品・指定品以外の部品をご使用になると故障や動作不良、火災の原因となります。また、電気用品安全法により、当該法の認定（PSE とコードに表記）でなく UL 認定（UL または CSA マークがコードに表記）の電源ケーブルは弊社が指定する製品以外の電気機器には使用できないためご注意ください。
Approvals

Cisco TelePresence System EX60

**EU/EEC**
- Directive 2006/95/EC (Low Voltage Directive)
- Standard EN 60950-1
- Standard EN 55022, Class A
- Standard EN 55024
- Standard EN 61000-3-2/-3-3

**USA**
Approved according to UL 60950-1
Complies with FCC15 Class A

**Canada**
Approved according to CAN/CSA C22.2 No. 60950-1

**Statement 191—VCCI Class A Warning for Japan**

**WARNING:** This is a Class A product based on the standard of the VCCI Council. If this equipment is used in a domestic environment, radio interference may occur, in which case, the user may be required to take corrective actions.

**EMC Class A declaration for China**

Applies to the systems that complies with the EMC Directive Standard EN 55022, Class A.

**WARNING:** This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Declaration of Conformity

The EX60 and EX90 are produced by Cisco Systems International B.V.. For a version of the Declaration of Conformity or relevant compliance information and documentation not mentioned above, contact your Cisco representative.

Other Markets
For relevant compliance information/documentation for markets not mentioned above, contact your Cisco representative.
China RoHS hazardous substance table

This product described in this guide complies with the Chinese RoHS.
