Other services: Visit the Cisco web site to find user guides and compliance and safety information for the video system, [http://www.cisco.com/go/mx-docs](http://www.cisco.com/go/mx-docs)
Installing Cisco TelePresence MX200 G2 - Wheel Base

- Wheel base
- Screws for the base
- Screwdriver

Accessories:
- Microphone(s)
- Cables
- Screws for mounting the monitor
- Gloves

The packaging may be slightly different for some shipments.
1 Mount the wheel base

Optional

It is possible to replace the wheels with rubber pads. The rubber pads are kept underneath the wheel base, and must be moved to their correct position.

M5x8 (Allen key, 3 mm)
2 Mount the monitor

Use gloves when handling the monitor.

Remove the cable channel lid for now. You need it in step 4.

The monitor may be tilting slightly forward. If you gently pull it to a vertical position, the screws enter more easily.

4 × M6x16
3 Connect the cables

Thread the cables up through the hole in the base.

Power switch

Power (100-240 VAC, 50/60 Hz)

Always use the provided power cable.

The wall socket outlet must be easily accessible after installation.

- Touch controller
- LAN
- Video output (e.g. 2nd display)
- Video input (e.g. PC)
- Microphone

Audio line output

Audio line input

USB, for future use

For maintenance only

Reset to factory settings

2nd microphone

Audio line output

2nd microphone, 3rd microphone

Audio line input

USB, for future use

For maintenance only

Reset to factory settings

1 Use the cable that is labeled with "for the Touch controller; use the cable that is labeled with " for the LAN
2 Optional
3 Always use the provided Cisco TelePresence Table Microphone 20
4 Snap on the cable channel lid

Snap on the cable channel lid for strain relief.

Lead the cables out at the front or back as appropriate.

5 Start up the system

- Connect to power and LAN/Ethernet.
- Switch on the system. The power switch is placed next to the power connector at the rear side of the system.
  Wait while the unit starts up. Normally this takes a few minutes. It may include automatic software upgrade and restart of the Touch controller.
- Follow the instructions on the Touch controller.
  Cisco Spark: To find more information on how to get started with Spark registered systems, visit http://help.ciscospark.com and look for Getting Started articles for room systems.
  
  Other services: For further information on set-up and configuration, download the Getting Started Guide from the Cisco web site, http://www.cisco.com/go/mx-docs

Never move the camera manually when power is switched on; always use the camera control function on the Touch controller to change the camera position.
Mount the back cover

Lift this handle to lock/unlock the back cover. Use both hands if required.

Wind up the cables on the hook on the back cover when rolling the unit. Also hang the Touch controller on the hook.
