Cisco Room Kit EQX

Earthquake security kit installation

Follow the installation instruction in the
[Cisco Room Kit EQX Floor Stand Installation Guide](#)

Install the earthquake security kit after completing the installation.

Maximum wire length: 3 m / 9.84 ft

Due to the size and mass of the product, it is important that security kit parts are securely fixed to the ceiling by qualified personnel. Follow current building regulations.

Due to the variety of ceiling constructions, the installer must determine the number and type of screws required for a safe installation. The installer has to bring the parts that are required to fix the product securely to the ceiling.

Adjust the wires so that they are not loose.
