Spare Parts Replacement Guide

for Cisco Webex Room 55 Dual, Room 70, and Room 70 G2
Thank you for choosing Cisco!

Your Cisco product has been designed to give you many years of safe, reliable operation.

This part of the product documentation describes how to replace spare parts. Our main objective is to address your goals and needs. Please let us know how well we succeeded!

We recommend that you visit the Cisco website regularly for updated versions of this guide.

The user documentation can be found at https://www.cisco.com/go/roomkit-docs

How to use this guide
The top menu bar and the entries in the table of contents are all hyperlinks. You can click on them to go to the topic.

Introduction
Products covered in this guide:

- Cisco Webex Room 55 Dual
- Cisco Webex Room 70 Single
- Cisco Webex Room 70 Dual
- Cisco Webex Room 70 Single G2
- Cisco Webex Room 70 Dual G2

The products have three mounting options: free standing floor stand, floor stand secured to the wall, and wall mount.

About this guide

This guide describes how to replace spare parts for Cisco Webex Room 55 Dual, Cisco Webex Room 70, and Cisco Webex Room 70 G2.

The guide describes the steps required to remove the parts. In order to install the replacement part, you should follow the same steps in reverse order.

In addition to this Replacement guide, the following documents are particularly useful when replacing parts.

- Cable schema
- Spare parts list
- Installation guide(s)

These documents are available on the Cisco website. Go to https://www.cisco.com/go/roomkit-docs and select Maintain and Operate Guides or Install and Upgrade Guides.

Ordering information

To place an order, please contact your local Cisco representative or Cisco partner, and refer to part numbers as listed in this document.

Cisco service and support

Cisco and our partners provide a broad portfolio of smart, personalized services and support. For more information about these services, go to: https://www.cisco.com/go/telepresenceservices
Symbols and abbreviations

Abbreviations:

- Room 55D: Cisco Webex Room 55 Dual
- Room 70S: Cisco Webex Room 70 Single
- Room 70D: Cisco Webex Room 70 Dual
- Room 70S G2: Cisco Webex Room 70 Single G2
- Room 70D G2: Cisco Webex Room 70 Dual G2

Most of the illustrations in this guide show the Room 70 Dual, even though the procedure applies to the other products as well.

It is important to note that:

- Room 55 Dual has less speakers than the other products
- Room 70 Single and Room 70 Single G2 have only one screen
- Room 70 Single G2 and Room 70 Dual G2 have a different codec than the other products

The following symbols are used throughout the guide to indicate which products and mounting option(s) a procedure applies to:

The procedure applies to Room 55 Dual, Room 70 Dual, and Room 70 Dual G2 mounted on a floor stand (either free standing floor stand or floor stand secured to the wall).

The procedure applies to Room 55 Dual, Room 70 Dual, and Room 70 Dual G2 with wall mount option.

The procedure applies to Room 70 Single, and Room 70 Single G2 mounted on a floor stand (either free standing floor stand or floor stand secured to the wall).

The procedure applies to Room 70 Single, and Room 70 Single G2 with wall mount option.
Grilles and covers

Replace the textile grilles ..........................................................................................7
Replace the floor stand covers ....................................................................................8
Replace the side covers ..............................................................................................9
Replace the center top profile, top rear cover, and rear center cover .....................10
Replace the textile grilles

Wear gloves when handling the textile grilles to prevent staining the fabric.

Both the speaker grille and the lower grille are fastened with magnets.
Pull out gently to remove a grille, and lay it aside.

Re-assembly:
The grilles snap to the magnets when put back in place.

Spare parts:
- Grilles for Room 55D with floor stand: CS-ROOM55D-FS-GRK=
- Grilles for Room 55D with wall mount: CS-ROOM55D-WM-GRK=
- Grilles for Room 70S and Room 70S G2 with floor stand: CS-ROOM70S-FS-GRK=
- Grilles for Room 70D and Room 70D G2 with floor stand: CS-ROOM70D-FS-GRK=
- Grilles for Room 70S and Room 70S G2 with wall mount: CS-ROOM70S-WM-GRK=
- Grilles for Room 70D and Room 70D G2 with wall mount: CS-ROOM70D-WM-GRK=
**Replace the floor stand covers**

The center cover is click-fastened. Lift up to remove the cover.

The left and right covers are fastened with magnets. Pull out gently to remove the covers.

**Re-assembly:**

The left and right covers snap to the magnets when put back in place. The center cover click-fastens when put back in place.

**Spare parts:**

- Floor stand covers for Room 55D is part of: CS-ROOM55D-FSK
- Floor stand covers for Room 70S and Room 70S G2 is part of: CS-ROOM70S-FSK
- Floor stand covers for Room 70D and Room 70D G2 is part of: CS-ROOM70D-FSK
Replace the side covers

The covers are fastened with magnets.
Pull out gently to remove the covers.

Re-assembly:
The covers snap to the magnets when put back in place.

Spare parts:
- Side covers for Room 55D: CS-ROOM55-MON-SCV=
- Side covers for Room 70S, Room 70D, Room 70S G2, and Room 70D G2: CS-ROOM70-MON-SCV=
Replace the center top profile, top rear cover, and rear center cover

Step 1: Remove the center top profile
The center top cover is click-fastened. Pull out gently.

Step 2: Remove the top rear cover
The top rear cover is fastened with magnets. Pull up gently.

Step 3: Remove the rear center cover
The rear center cover is fastened with magnets. Tilt the cover out at the bottom, and slide it upward.

Re-assembly:
In order to replace the covers, follow the steps in reversed order.

Spare parts:
• Rear center cover kit for Room 55D: CS-ROOM55D-CAMCV=
• Rear center cover kit for Room 70D and Room 70D G2: CS-ROOM70D-CAMCV=
Speakers and camera

Replace a loudspeaker ................................................................. 12
Replace the camera ................................................................. 14
Replace a loudspeaker (page 1 of 2)

Step 1: Remove the speaker grille

Wear gloves when handling the textile grilles to prevent staining the fabric.

The speaker grille is fastened with magnets. Pull out gently and lay it aside.

Before proceeding to the next step, make sure to turn off the power.

Spare part:
- Speaker for all systems: CTS-MX700800-SPKR=
Replace a loudspeaker (page 2 of 2)

Step 2: Remove a loudspeaker

The same procedure applies for loudspeakers in all positions.

2a. Remove screw.
   PT4x10, Torx T20

2b. Pull out loudspeaker 10-15 cm (4-6 inch).

2c. Unplug the cable from the connector on the back of the loudspeaker.

Re-assembly:
In order to install the new loudspeaker, follow the steps in reversed order.
Replace the camera  (page 1 of 3)

Step 1: Remove speaker grille

Wear gloves when handling the textile grilles to prevent staining the fabric.

The speaker grille is fastened with magnets.
Pull out gently and lay it aside.

Before proceeding to the next step, make sure to turn off the power.

Spare part:
• Camera for all systems: CS-RQUADCAM=

Cisco Webex Room 55 Dual, Room 70, and Room 70 G2
Spare Parts Replacement Guide

© 2019 Cisco and/or its affiliates.  All rights reserved.
Replace the camera (page 2 of 3)

Step 2: Unlock and pull out the camera

2a Tilt the camera forward.

2b Unplug the cables.

2c Move the two release levers backward to unlock the camera.

2d Tilt the camera back to its normal position.

2e Pull out the camera.
Replace the camera (page 3 of 3)

Re-assembly:
In order to install the new camera, follow the steps in reversed order.

Make sure that the two release levers are in the locked position (moved fully forward) when you have inserted the camera.

Never leave the camera with the release levers in unlocked position.
Fans and antennas

Replace the fan unit.................................................................18
Replace the antenna modules...................................................21
Replace the fan unit (page 1 of 3)

Step 1: Remove speaker grille and camera
Follow the steps described in “Replace the camera” on page 14 and page 15. Leave the lower grille on.

Step 2: Remove loudspeakers
Room 55D, Room 70S, Room 70S G2:
• Remove the first loudspeaker closest to the camera, on the right.
Room 70D and Room 70D G2:
• Remove the two loudspeakers closest to the camera, on the right.
Follow the steps described in “Replace a loudspeaker (page 2 of 2)” on page 13.

Spare part:
• Fan unit for all systems: FAN-ROOM70-2PK=
Replace the fan unit (page 2 of 3)

Step 4: Disconnect the two fan power cables

Note the position of the cables behind the support stud, so that you remember where to place the cables when installing the new fan.
Replace the fan unit (page 3 of 3)

Step 5: Remove the fan unit

5a Remove the bracket that holds the rubber-part of the fan unit. This is the only thing that holds the fan unit in place, so keep a hand on it so that it doesn’t fall down.

2 × M4x10 (pan), Hex, 2.5 mm

5b Pull out the fan with power cables.

You may have to cut the cable strip to loosen the cables.

Re-assembly:

In order to install a new fan unit, follow the steps in reversed order.
Replace the antenna modules (page 1 of 4)

There are two antenna modules: one for Bluetooth and one for Wi-Fi.

**Step 1: Remove speaker grille**
Remove the speaker grille as described in "Replace the textile grilles" on page 7. Leave the lower grille on.

**Step 2: Remove the leftmost loudspeakers**
Follow the steps described in "Replace a loudspeaker (page 2 of 2)" on page 13.
- Room 70S and Room 70S G2:
  - Remove the leftmost loudspeaker.
- Room 55D, Room 70D, and Room 70D G2:
  - Remove the two leftmost loudspeakers.

**Step 3: Remove left side cover**
Remove the left side cover as described in "Replace the side covers" on page 9.

Spare part:
- Antennas (2x) for all systems: ANT-ROOM70-KIT=
Replace the antenna modules (page 2 of 4)

Step 4: Room 55D, Room 70S, and Room 70D – Disconnect the antennas from the codec

Note how the antennas are guided upward, so that you remember how to place the new antennas.

You may have to cut the cable strip to loosen the cables.

The two antennas (Bluetooth and Wi-Fi) are not equal. Check the labels to make sure you connect the new antennas to the correct sockets on the codec.
Step 4: Room 70S G2 and Room 70D G2 - Disconnect the antennas from the codec

Note how the antennas are guided upward, so that you remember how to place the new antennas.

You may have to cut the cable strip to loosen the cables.

The two antennas (Bluetooth and Wi-Fi) are not equal. Check the labels to make sure you connect the new antennas to the correct sockets on the codec.
Replace the antenna modules (page 4 of 4)

Step 5: Remove the antenna modules

5a Unscrew three screws, and remove the Bluetooth antenna module.
   2 × M4x10 (pan), Hex, 2.5 mm
   1 × PT4x10, Torx T20

5b Unscrew four screws, and remove the Wi-Fi antenna module.
   4 × M4x10 (pan), Hex, 2.5 mm

Re-assembly:
In order to install the new antennas, follow the steps in reversed order.

The two antennas (Bluetooth and Wi-Fi) are not equal. Check the labels to make sure you connect them to the correct socket on the codec.
Codec and screens

Replace the codec .................................................................26
Replace the screen (mounted on a stand) ..............................30
Replace the screen (wall mounted) ......................................37
Replace the codec (page 1 of 4)

Step 1: Remove left side cover
The side cover is fastened with magnets.
Pull out gently and set aside.

Before proceeding to the next step, make sure to turn off the power.

Spare part:
- Normal codec for Room 55D, Room 70S, and Room 70D: CS-RCODPLUS-K9=
- Normal codec for Room 70S G2 and Room 70D G2: CS-RCODPRO-K9=
- No-radio codec for Room 55D, Room 70S, and Room 70D: CS-RCODPLUS-NR-K9=
- No-radio codec for Room 70S G2 and Room 70D G2: CS-RCODPRO-NR-K9=
- No-radio and no-encryption codec for Room 55D, Room 70S, and Room 70D: CS-RCODPLUS-NR-K7=
- No-radio and no-encryption codec for Room 70S G2 and Room 70D G2: CS-RCODPRO-NR-K7=
Replace the codec - Room 55D, Room 70S, and Room 70D (page 2 of 4)

Step 2: Disconnect all cables from codec
Make sure to remember the position of the cables.
Refer to cabling details in the Cable schema
and Spare parts list on our web site. Go to
http://www.cisco.com/go/roomkit-docs and select
Maintain and Operate Guides.
Step 2: Disconnect all cables from codec
Make sure to remember the position of the cables.
Refer to cabling details in the Cable schema and Spare parts list on our web site. Go to http://www.cisco.com/go/roomkit-docs and select Maintain and Operate Guides.

Replace the codec - Room 70S G2 and Room 70D G2 (page 3 of 4)
Replace the codec (page 4 of 4)

Step 3: Unscrew and pull out the codec

4 × M6x12 (pan), Hex, 4 mm

Re-assembly:
In order to install the new codec, follow all the steps in reverse order.

The procedure is the same for the Codec Pro and the Codec Plus.
Replace the screen (mounted on a stand) (page 1 of 7)

The illustrations provided show how to replace the right screen of a dual screen system. Similar steps should be taken when replacing the left screen and when replaceting the screen of a single screen system.

Step 1: Remove speaker grille and lower grille
Follow the steps described in “Replace the textile grilles” on page 7.

Step 2: Remove loudspeakers
Remove all loudspeakers that are mounted on the screen that you are replacing.
Follow the steps described in “Replace a loudspeaker (page 2 of 2)” on page 13.

Step 3: Remove camera
Follow the steps described in “Replace the camera (page 2 of 3)” on page 15.

Step 4: Remove side covers
Remove the side cover(s) from the screen you are replacing. Follow the steps described in “Replace the side covers” on page 9.

Step 5: Remove codec
Only for Room 55D, Room 70D, and Room 70D G2 left screen, and Room 70S and Room 70S G2. Follow the steps described in “Replace the codec – Room 55D, Room 70S, and Room 70D (page 2 of 4)” on page 27 to page 29.

Step 6: Remove antennas
Only for Room 70S and Room 70S G2, and when replacing the Room 55D, Room 70D, and Room 70D G2 left screen.
Follow the steps described in “Replace the antenna modules (page 4 of 4)” on page 24.

Step 7 - Remove rear covers
Only for Room 55D, Room 70D, and room 70D G2. Follow the steps described in “Replace the center top profile, top rear cover, and rear center cover” on page 10.

Spare parts:
- Left screen for Room 55D: CS-ROOM55D-MON-L
- Right screen for Room 55D: CS-ROOM55D-MON-R
- Screen for Room 70S and Room 70S G2: CS-ROOM70S-MON-S
- Left screen for Room 70D and Room 70D G2: CS-ROOM70D-MON-L
- Right screen for Room 70D and Room 70D G2: CS-ROOM70D-MON-R

84 kg / 185 lb
The screen is heavy. We recommend four people working together to replace the screen.
Replace screen (mounted on a stand) (page 2 of 7)

Step 8: Remove the rating label
Applies only for the right screen of the Room 55 Dual.

Remove the 4 screws with a Torx T10.
Keep the rating label as you will have to insert it later on your new screen.
Replace screen (mounted on a stand) (page 3 of 7)

Step 9: Remove all cables

Only remove cables for the screen that you are replacing.

The fan module, including power cables for the fans, is included in the spare screen for Room 70S, Room 70S G2, and the spare right screen for Room 55D, Room 70D, and Room 7D G2. Therefore you don’t have to remove the old fan module when replacing those screens.

All the other cables that were shipped with the system remain in your property and should not be returned to the supplier.

You will not receive new cables with the replacement part.

For reconnecting the cables, refer to cabling details in the Cable schema and Spare parts list on our web site. Go to http://www.cisco.com/go/roomkit-docs and select Maintain and Operate Guides.
Replace screen (mounted on a stand) (page 4 of 7)

Step 10 - Remove joining bracket

Only for Room 55D, Room 70D, and Room 70D G2

10a Remove the screws

5 × M6x12 (pan)

10b Pull up the lever.

10c Remove the joining bracket from the channel.
Replace screen (mounted on a stand) (page 5 of 7)

Step 11: Remove screen screws and disconnect power cable

Secure the screen
We recommend four people working together to replace the screen. At least two people must hold the screen.

Unscrew the four M6x12 screws (countersunk) on the front of each side.
Use an Allen key, 4 mm

Unscrew the four M6x90 screws (countersunk), underneath each side.
Use an Allen key, 4 mm

Only for Room 55D, Room 70D, and Room 70D G2
You must reach the cable from below in order to disconnect the power cable between the screens if the system is close to the wall.
Replace screen (mounted on a stand)  

**Step 12: Lift screen**

**The screen is heavy**

We recommend four people working together to replace the screen.

At least two people should lift the screen using the lifting handles as described below; the other people must help stabilizing the screen.

**Use the lifting handles to avoid trapping your fingers**

There are four handles at the bottom of the screen.

**Plan ahead where to put down the screen**

Ideally, place it in the original shipping packaging.

12a Loosen the wing nuts on both sides. They are accessed from the sides of the screen.

12b Lift the screen off the frame, and keep it safe until it is securely placed.
Replace screen (mounted on a stand)  (page 7 of 7)

Re-assembly:
In order to install the new screen, follow all the steps in reverse order.

Make special note of the following:

Always use the lifting handles to avoid trapping your fingers
There are four handles at the bottom of the screen.

Lift the 2nd screen in place (only for Room 55D, Room 70D, and Room 7D G2)
When placing the screen onto the stand, lower the screen as horizontal as possible. The inner side must not be lowered first.

Make sure the wing nut screws fully enter the center slots.
Look in from the sides of the screen to see the wing nut screws. The wing nut screws must enter the center slot on both sides of the screen.
Replace the screen (wall mounted) (page 1 of 11)

The illustrations provided show how to replace the right screen of a dual screen system. The same steps should be taken when replacing the left screen and when replacing the screen of a single screen.

Step 1: Remove speaker grille and lower grille
Follow the steps described in "Replace the textile grilles" on page 7.

Step 2: Remove loudspeakers
Note that you have to remove all loudspeakers that are mounted on the screen that you are replacing. Follow the steps described in "Replace a loudspeaker (page 2 of 2)" on page 13.

Step 3: Remove camera
Follow the steps described in "Replace the camera (page 2 of 3)" on page 15.

Step 4: Remove side covers
Only remove the side cover(s) from the screen you are replacing. Follow the steps described in "Replace the side covers" on page 9.

Step 5: Remove codec
Only for Room 55D, Room 70D, and Room 70D G2 left screen and Room 70S, and Room 70S G2. Follow the steps described in “Replace the codec - Room 55D, Room 70S, and Room 70D (page 2 of 4)” on page 27 to page 29.

Step 6: Remove antennas
Only for Room 70S and Room 70S G2, and when replacing the Room 55D, Room 70D, and Room 70D G2 left screen. Follow the steps described in “Replace the antenna modules (page 4 of 4)” on page 24.

Step 7 - Remove center covers
Only for Room 55D, Room 70D, and Room 70D G2. Follow the steps described in “Replace the center top profile, top rear cover, and rear center cover” on page 10.

Spare parts:
- Screen for Room 70S and Room 70S G2: CS-ROOM70S-MON-S=  
- Left screen for Room 70D and Room 70D G2: CS-ROOM70D-MON-L=  
- Right screen for Room 70D and Room 70D G2: CS-ROOM70D-MON-R=  
- Left screen for Room 55D: CS-ROOM55D-MON-L=  
- Right screen for Room 55D: CS-ROOM55D-MON-R=
Replace screen (wall mounted) (page 2 of 11)

**Step 8: Remove the rating label**

Applies only for the right screen of the Room 55 Dual.

Remove the 4 screws with a Torx T10.

Keep the rating label as you will have to insert it later on your new screen.
Replace screen (wall mounted) (page 3 of 11)

Step 9: Remove cable bridge
Only for Room 55D, Room 70D, and Room 70D G2

 pedestals | 2 × M6x12 (pan) - Hex 4 mm

Screw positions. Front view without cable bridge
Replace screen (wall mounted) (page 4 of 11)

Step 10 - Remove the lower profile

Room 70S and Room 70S G2:
- The profile rest on the bottom frame on both sides, so you just have to lift it off.

Room 55D, Room 70D, and Room 70D G2:
- The profiles rest on the bottom frame on the outer side, and is fastened with a screw close to the center (see illustration). Hold the cover in place while you remove the screw.

![Diagram of Screw position for left profile and right profile](image)

M6x12 (pan), Hex 4 mm
Replace screen (wall mounted) (page 5 of 11)

Step 11: Remove all cables

Only remove cables for the screen that you are replacing.

The fan unit, including the power cables for the fans, is included in the spare screen for Room 70S and Room 70S G2, and the spare right screen for Room 70D, Room 70D G2, and Room 55D. Therefore, you do not need to remove the old fan unit when replacing a screen.

All the other cables that were shipped with the system remain in your property and should not be returned to the supplier.

You will not receive new cables with the replacement part.

For reconnecting the cables, refer to cabling details in the Cable schema and Spare parts list on our web site. Go to http://www.cisco.com/go/roomkit-docs and select Maintain and Operate Guides.
Step 12: Remove joining bracket
Only for Room 55D, Room 70D, and Room 70D G2

11a Remove the screws
5 × M6x12 (pan)

11b Pull up the lever.

11c Remove the joining bracket from the channel.
Replace screen (wall mounted) (page 7 of 11)

Step 13: Remove the screen screws and the security bracket, and disconnect the power cable

Secure the screen
We recommend four people working together to replace the screen. At least two people must hold the screen.

85 kg / 188 lb

Unscrew the four M6x12 screws (countersunk), on the front of each side.
Use an Allen key, 4 mm

Unscrew the two M6x90 screws (countersunk) underneath each side.
Use an Allen key, 4 mm

Unscrew the two M6x100 screws (pan), from underneath as illustrated, and remove the two security brackets.
Use an Allen key, 4 mm

Only for Room 55D, Room 70D, and Room 70D G2
Disconnect the power cable. It is located between the two screens at the rear, so you must reach the cable from below.
Replace screen (wall mounted) (page 8 of 11)

Step 14: Lift screen

The screen is heavy

We recommend four people working together to replace the screen.

At least two people should lift the screen using the lifting handles as described below; the other people must help stabilizing the screen.

Use the lifting handles to avoid trapping your fingers

There are four handles at the bottom of the screen.

Plan ahead where to put down the screen

Ideally, place it in the original shipping packaging.
Replace screen (wall mounted) (page 9 of 11)

Step 15: Move the clamp at the rear side to the new screen (page 1 of 2)

15a Make sure that the old screen is placed securely, so that it doesn’t fall over when you perform the next steps.

15b Loosen the screws that fasten the clamp. Do not remove the screws.
   Use an Allen key 2.5 mm.

15c Gently loosen the clamp from all mounting points and then remove the clamp.

Room 55 Dual
4 ×

Room 70D and Room 70D G2
6 ×
Replace screen (wall mounted) (page 10 of 11)

Step 15: Move the clamp at the rear side to the new screen (page 2 of 2)

Unpack the new screen, but leave it standing in the tray while you work with the clamp. Steps 14e to 14h shows how to mount the clamp on the new screen.

15d. Make sure the screws are loosened, but not removed.
15e. Gently put the clamp in place, making sure that all the clips enter the back plate.
15f. Slide the brackets tight against the back of the screen.
15g. Tighten the screws and check that the clamp is securely fastened.
Replace screen (wall mounted) (page 11 of 11)

Re-assembly:
In order to install the new screen, follow all the steps in reverse order.

Make special note of the following:

Always use the lifting handles to avoid trapping your fingers
There are four handles at the bottom of the screen.

Make sure the wing nut screws fully enter the center slots.
Look in from the sides of the screen to see the wing nut screws. The wing nut screws must enter the center slot on both sides of the screen.

Lift the 2nd screen in place (only for Room 55D, Room 70D, and Room 70D G2)
When placing the screen onto the stand, lower the inner side as horizontal as possible. The inner side must not be lowered first.
Make sure the clips slide fully onto the top bracket

Hold the screen close to the wall while lowering it onto the wall bracket. Check that the clips slide fully onto the top bracket.
