

## Place a call

- 1 Tap the green **Call** button.

- 2 To search for someone in a specific list (Favorites, Directory, or Recents), tap that list and then scroll down to locate the entry to be called.

- 3 Tap that entry and then tap the green **Call** button, as shown.

- 4 To end the call, tap the red **End call** button.

## Join scheduled meetings

When you have a scheduled meeting, the **Join** button appears on your screen. Tap **Join** to participate in the meeting.

Meetings appear on your screen if your device is connected to a management system that supports it.

## Join Webex meetings

You can join Webex Meetings by tapping the **Join Webex** button on your screen. Enter the meeting number from your invite and tap **Join**.

## Share content in a call

- 1 In a call, tap **Sharing options**.

To view your computer screen locally, tap **Preview**. What you see on the screen when you do this, is not shown to the other participants.

- 2 Tap **Share in call** to share your computer screen in the call.

- 3 To stop sharing content, tap **Stop sharing**.

## Share content wirelessly

You can share content wirelessly from your computer to your Webex Desk or Desk Pro from these apps: Cisco Proximity, Webex App, and Webex Meetings.

These apps connect to your Webex Desk or Desk Pro with ultrasound. Make sure the sound is turned on on your computer for the connection to work.

On Proximity, Webex, and Meetings apps look for the option to connect to a device. Then select **Share screen**.

## Whiteboarding

Use your Desk Pro to visualize your ideas. To access the whiteboard function, go to the Home screen and tap **Whiteboard**.

You can use your finger or the stylus to draw.

The size of a whiteboard is as large as you want. You can pinch to zoom and use two fingers to move the whiteboard.

You can send your whiteboard or snapshot as PDF by email, if this option has been enabled by your support team.

## Forwarding calls and do not disturb

- 1 Tap the name in the upper left corner.

- 2 Activate/deactivate functions as required. Tap anywhere outside the menu when you're done.

## Add to a call

In a call tap **Add** and search or dial the person you want to add.

The new call is now added to the existing, creating a conference.

Repeat to add more people.

## Transfer an ongoing call

Tap the **Transfer** button. This causes the current call to be put on hold.

Search for whom to call in the usual way.

Tap the green **Call** button. Talk to the person to confirm that transfer is OK. The person to be transferred is still on hold.

Tap **Complete Transfer**.

## Use as an external screen

Use an HDMI cable to connect your computer to the HDMI socket **PC**, which is the socket with a PC symbol. You can also use a USB-C cable to connect your computer.

To view your computer screen, go to **Share screen** and tap **Preview**.

Incoming calls appear as usual, irrespective of mode (PC or video) unless Do not disturb is active.
