Introduction

Cisco TelePresence MCU Conference Director (Conference Director) is a tool for creating, scheduling and monitoring conferences on Cisco TelePresence MCUs. Version 1.3(1.0) of Cisco TelePresence MCU Conference Director is a maintenance release that rebrands the user interface, including graphical aspects such as the logo and icons, and the online help. It also fixes a number of issues which are listed in *Resolved issues* below.

New features in Version 1.3(1.0)

There is no new functionality in Version 1.3(1.0) of Conference Director, however, the user interface has been rebranded as a Cisco TelePresence product.

Resolved issues

The following issues were found in previous releases and were resolved in Version 1.2.

Internal identifier	CDETS identifier	Summary
104269	CSCts52406	In previous versions of the Cisco TelePresence MCU Conference Director, when moving a conference between MCUs in different time zones, the start/end time for the conference was not adjusted accordingly This has been resolved in this version.
108094	CSCts52393	In previous versions of the Cisco TelePresence MCU Conference Director, the permitted combinations for numeric IDs and pins for conferences were inconsistent with the MCU web interface This has been resolved in this version.

Internal identifier	CDETS identifier	Summary
111256	CSCtr80306	In previous versions of the Cisco TelePresence MCU Conference Director when the product had been running under heavy load for a prolonged period of time, some of the user options would not render correctly on the screen. This has been resolved in this version.
115869	CSCts52412	Previous versions of the Cisco TelePresence MCU Conference Director generated an authentication failure message for the first unsuccessful attempt to log in to an MCU, however, no error messages were generated for subsequent failed login attempts to the same MCU. This has been resolved in this version.

Updating to Version 1.3(1.0)

Upgrade instructions

To upgrade to Version 1.3(1.0) of Cisco TelePresence MCU Conference Director, double click the installation file and follow the instructions on your screen. You do not need to uninstall the earlier version.

Downgrade instructions

To downgrade to an earlier version of Cisco TelePresence MCU Conference Director, double click the installation file and follow the instructions on your screen. You do not need to uninstall Version 1.3(1.0).

Accessing Bug Toolkit

Bug Toolkit contains information about open and resolved issues for this release and previous releases, including descriptions of the problems and available workarounds.

1. Using a web browser, go to <http://tools.cisco.com/Support/BugToolkit/>.
2. Sign in with a Cisco.com username and password.

The identifiers listed in these release notes will take you directly to a description of each issue.

Getting help

If you experience any problems when configuring or using Cisco TelePresence MCU Conference Director, see the "Product documentation" section of these release notes. If you cannot find the answer you need in the documentation, check the web site at <http://www.cisco.com/cisco/web/support/index.html> where you will be able to:

- Make sure that you are running the most up-to-date software.
- Get help from the Cisco Technical Support team.

Make sure you have the following information ready before raising a case:

- Identifying information for your product, such as model number, firmware version, and software version (where applicable).
- Your contact email address or telephone number.
- A full description of the problem.
