Phantom codes can be transmitted to the DTA50 adapter when a remote control's volume keys become locked to a TV. The DTA50 adapter uses these codes to reset its volume to an optimal setting.

Quick Reference TV Setup Codes

A-Mark 0003

(Programming Code 914)

1. TV power on and off
2. Access specific channels
3. Access last channel viewed
4. Scroll through channels
5. Display text information about the program
6. Change audio to different languages

A-Mark 0003

(Programming Code 914)

Exit menu

6. View closed-caption text*

Access support

1. Control the TV's volume, mute, and closed captioning keys

7. Adjust volume

12. Selected menu item*

8. Mute volume

13. Volume

9. Access the DTA50 menu +

10. View closed-caption text*

11. Enter menu +

12. Exit menu

13. Exit menu +

Notes:

• Do not press the PROG key for more than 30 seconds.
• On a few cable-ready TVs, the Power key is the only key that can be programmed successfully.

Troubleshooting

If there is no response when you press the keys on the remote, please check the following items before calling for service:

Check the Batteries

• Are the batteries inserted correctly?
• Check the battery condition for leakage.
• Replace with new batteries.

Check the DTA50

Is the DTA50's power cord connected to the power outlet?

By default, the volume and MUTE keys control the volume on the DTA50. After you have programmed the remote to control your TV, the volume and MUTE keys adjust the volume of your TV higher, lower, or temporarily switch the volume on and off (MUTE).

Controlling the DTA50 Volume

(Programming Code 9931)

To reset the volume and MUTE keys to control the volume on the DTA50, you can reset the volume and MUTE keys by pressing the numeric keys on the remote. The remote will be reset to the factory default settings.

Notes:

• Do not press the PROG key for more than 30 seconds.
• If any other key is pressed accept the numeric keys, the remote does not accept any changes or updates.
• If the remote times out before you complete the menu default reprogramming, the remote does not save the settings.

• If any other key is pressed accept the numeric keys, the remote does not accept any changes or updates.
• If the remote times out before you complete the menu default reprogramming, the remote does not save the settings.
Handling Disposables Batteries

This product may contain disposables batteries. Read the following warning and follow the Battery Safety and Battery Disposal instructions below.

Battery Disposal

• The batteries may contain substances that could be harmful to the environment.
• Recycle or dispose of batteries in accordance with the battery manufacturer’s instructions and local environmental regulations.

• The batteries may contain perchlorate, a known hazardous substance, so special handling and disposal of this product might be necessary. For more information, see www.dtsc.ca.gov/hazardouswaste/perchlorate

Battery Safety

• Insert batteries correctly. There may be a risk of explosion if the batteries are incorrectly inserted.
• Do not attempt to recharge "disposable" or "non-rechargeable" batteries.
• Please follow instructions provided for charging "rechargeable" batteries.
• Replace batteries with the same or equivalent type that we recommend.
• Do not expose batteries to excessive heat (such as sunlight or fire).
• Do not expose batteries to temperatures above 100°C (212°F).

Program Codes

If you program codes to control your TV, record your codes here for easy reference.
