## Resolved Caveats - Version 2.3

The following is a list of resolved caveats in Version 2.3. The caveat ID can be searched using the Cisco Bug Search Tool (<https://tools.cisco.com/bugsearch>), where you can find details about the caveat and workarounds.

- CSCuq90420  
A LEC database corruption occurs when a Program Name is greater than 150 characters. This results in a failure to start the LEC client.
- CSCuq90442  
A LEC database corruption occurs when a Button Name is greater than 25 characters. This results in a failure to start the LEC client.
