New Features

This section lists new features and enhancements for Cisco Videoscape Voyager Vantage Release 4.1.

For additional details on any of the features listed in this release note, visit www.cisco.com and search for "Vantage" to find white papers and data sheets, or, contact your account representative.

New Features

- Support is added for Explorer 9800 Series Video Gateway devices with up to 8 active tuners.
- Conflict Management for Explorer 9800 is provided to account for up to 8 active tuners.
- Support is added for Explorer 9800 Series Video Gateway devices in a multi-room DVR (MR-DVR) home network with existing G6 set-tops.
- Support is added for Closed Captioning that is compliant with new FCC requirements.
- Jump Back and Jump Forward functions are available using the PG- and PG+ buttons.
Note: The default increment of 3 minutes can be configured by the operator.
- Toggling between Slow and Normal Play modes is enabled by toggling the PLAY button while watching TSB and DVR content.
- "Save Until I Erase" is the default "Save Until" selection for single-instance and series recordings.
- Optimization resulting in sub 5-minute boot-up times and support for channel +/-, direct tune, and trick-play operation during set-top boot-up.
- The boot-up banner is redesigned so that does not distract from the video.
- The power-on channel is configurable with options.
- The DVS icon is supported in the Info banner and is selectable from the Tool banner.
- Support is added to hide or skip unsubscribed channels from the Guide.
- Operator-specific defaults can now be established on a hub basis.
- An enhancement allows for channel navigation by entering the channel number.
- Support is added for up to 10 days of Guide data.
- Support is added for 5x4 Cisco Blue theme; up to 2 hours of data can be displayed in the Guide grid.

Resolved Caveats

This section lists resolved caveats in Vantage 4.1.

Number	Summary
CSCug04582	Remove corrupted IpgDhctConfig file to prevent epg_client_init() failure.
CSCuh96648	STB does not get out of brick mode after reboot.
CSCuo17656	Set-tops are not booting with French themes.
CSCuo30465	French characters are not displayed in the long description.

Bug Toolkit

If you need information about a specific caveat that does not appear in this release note, you can use the Cisco Bug Toolkit to find caveats of any severity. Use the following URL to access the Bug Toolkit:

<http://tools.cisco.com/Support/BugToolKit/>

If you request a defect that cannot be displayed, the defect number might not exist, the defect might not yet have a customer-visible description, or the defect might be marked Cisco Confidential.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, using the Cisco Bug Search Tool (BST), submitting a service request, and gathering additional information, see *What's New in Cisco Product Documentation* at:

<http://www.cisco.com/c/en/us/td/docs/general/whatsnew/whatsnew.html>

Subscribe to *What's New in Cisco Product Documentation*, which lists all new and revised Cisco technical documentation, as an RSS feed and deliver content directly to your desktop using a reader application. The RSS feeds are a free service.
