

### Share your screen wirelessly

- 1 Open the Cisco Webex Teams app on your computer (Windows or Mac). Automatic pairing starts.
- 2 Click the device name at the bottom. If you don't see it, try manually pairing. See *Pair manually* below.

- 3 Click **Share Screen** and select your screen or the application you'd like to share.

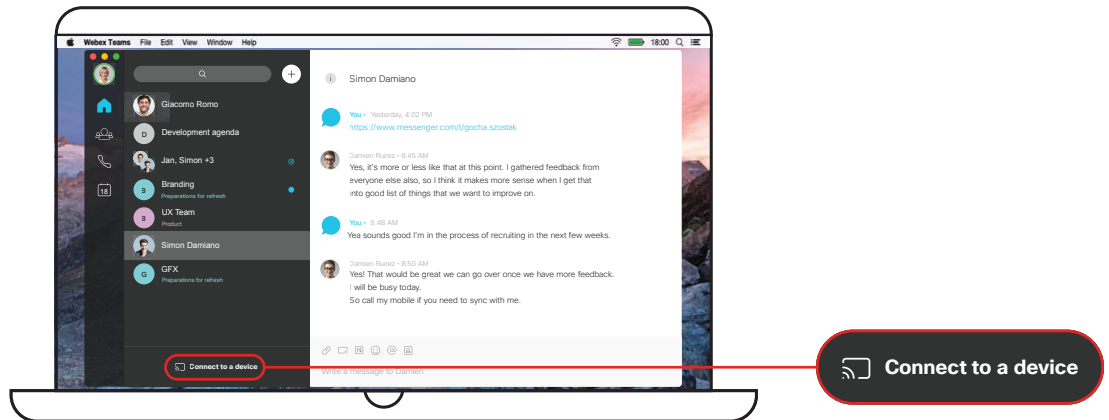

- 4 Click **Stop** to stop sharing.

# If automatic pairing fails

## Pair manually

Click **Connect to a device** at the bottom.

Click **Search for a device** and enter the device name (found at the top left of the TV screen). Select the device to pair.
