Set Up Your Phone

You are prompted to set up your phone the first time that you turn the phone on. You will not be prompted for some or all of these steps if your administrator has set your phone up for you.

1. Select a wireless network, enter your credentials, and tap **Connect**.
2. Enter your TFTP server settings and tap **Continue**. If updated firmware is available, it is installed and your phone restarts.
3. On the Welcome screen, select **Get started**, and follow the prompts for self-provisioning, application setup, and selection of a PIN or Password.

Accessories

You can attach accessories to your phone, such as an external monitor through the HDMI port, a keyboard and mouse through the USB ports, and a headset or mobile phone through Bluetooth.

Unlock Screen

To unlock the screen, enter your PIN or password and press #.

Phone Modes

Your phone operates in different modes, as determined by your system administrator.

- Enhanced Mode—In Enhanced Mode, all features are available.
- Simple Mode—In Simple Mode, you have access only to the home screen, the Call application, and the Settings application.
- Public Mode—In Public Mode, you have access only to the Call application.
