Use My Computer for Calls

You can tell Cisco Jabber for Mac to send calls to your computer or to your phone.

Procedure

1. From your hub window, open the Phone Controls drop-down menu.
2. Select your preference.

Forward Calls

To avoid missing calls when you are not at your desk, you can forward calls to another phone number.

Procedure

1. From your hub window, open the Phone Controls drop-down menu.
2. Select **Forward Calls to**.
3. Select your preference from the available list.

Use Call Controls

When you are on a call with a contact, you can use the call controls to:

- Mute or unmute the call
- Start or stop self video
- Adjust the call volume
- Show the dial pad
- Place the call on hold
- Transfer the call
- End the call

Set Up My Phone Accessories

You can change which microphone and speakers are used by the client when you have at least one phone accessory for call control.

Procedure

1. Select **Jabber > Preferences > Audio/Video**.
2. Select the audio and video options that you want the client to use to send and receive your audio. You can also test the sound to check that it is working.
3. Close the window to apply the changes.

Customize My Client

You can access your options and preferences for Cisco Jabber to customize how your client behaves.

Procedure

1. Select **Jabber > Preferences**.
2. Make your selections.
