

Gordon Falconer, AAPI MRICS

Director, Urban Innovation, Public Sector Practice Internet Business Solutions Group

Gordon Falconer is a director of the Urban Innovation Practice, Cisco Internet Business Solutions Group (IBSG) Public Sector Practice. He has more than 20 years experience in city strategic design, urban property development, project valuations, acquisitions, feasibility, property, infrastructure financial structuring, and cluster and innovation creation. He speaks frequently on urban innovation and smart cities at events held around the world, including Australia; the United Kingdom; The Netherlands; Singapore; China; Abu Dhabi, United Arab Emirates; Korea; and Washington D.C.

Falconer was formerly head of strategy and real estate for Masdar City, one of the world's most innovative greenfield and sustainable city projects in Abu Dhabi. During this time, he was heavily involved with strategy for both sustainable real estate and sustainable utility integration in the areas of clean energy, water, infrastructure, information and communications technology, (ICT), and ICT financing. In particular, he was involved with the development of Masdar City as a Cleantech Innovation Cluster to drive foreign direct investment and economic diversification.

Falconer was also vice president, Asset Management Real Estate, at The National Investor, a leading Abu Dhabi Investment Bank. He also held executive positions at Jones Lang Lasalle and CB Richard Ellis in Australia.

Based in Singapore, Falconer is also involved with the Cisco Smart +Connected Communities program and select key Urban Innovation engagements with cities, governments, and corporations in South East Asia, India, and internationally. He is a member of both The Australian Property Institute and the Royal Institute of Chartered Surveyors.
