

Jan Malek

Director, North American Life Science Internet Business Solutions Group

Jan Malek is a director in the Internet Business Solutions Group (IBSG), working with leaders of pharmaceutical, biotechnology, medical device, and diagnostics companies to help them use technology to transform the life science industry. Working on a nonfee basis, the group helps clients use technology, organizational, and business process innovation to transform their organizations and drive industry-leading change.

With over 15 years of experience in pharma, biotech, and healthcare delivery, Malek has advised clients on strategy, M&A, operations, technology, and the formation of innovative, new ventures.

Malek has advised leading pharma and biotechnology companies on a wide range of issues including R&D, portfolio management, marketing strategy, and mergers & acquisitions. He was a member of the management team of an international clinical research organization leading up to a successful IPO. Malek has also led the formation of the first End-Stage-Renal-Disease (ESRD) Management Company; advised life science companies and healthcare delivery systems on e-commerce strategy, including the formation of an innovative 2nd Medical Opinions venture; presented at and chaired industry conferences; and contributed to industry publications.

Malek holds a bachelor's degree from the University of Pennsylvania and an MBA from the Wharton School. He started his consulting career with McKinsey & Co., and was also a member of the life science practice at Deloitte Consulting and the healthcare practice at Ernst & Young.
