

Cisco U.S. Office Entry

Updated November 16, 2021

U.S. will remain in Transition Phase until end of Jan. 2022

Cisco workers must be fully vaccinated or have an approved medical or religious accommodation to work at Cisco (including offsite workers).

Workers and visitors at all U.S. Cisco sites must wear masks regardless of vaccination status.

Cisco workers must be fully vaccinated to meet with customers or partners or go to their sites.

Travel is only for critical business needs and permitted only for fully vaccinated employees or those with an approved medical or religious accommodation.

Team gatherings (dinners, team meetings) are not permitted. Events will remain virtual for now.

There is no centralized mandate on number of days in-or out-of the office. Teams will decide based on business, team, and individual needs.

Cisco's Office Entry policies are guided by the safety and health of our workers, partners, and customers as our main priority.
