

Offer Description

Catalyst 8000V Permanent License Reservation (PLR)

This Offer Description is part of the [General Terms](#) or similar terms existing between You and Cisco (e.g., the End User License Agreement) (the “**Agreement**”). Capitalized terms, unless defined in this document, have the meaning in the Agreement. Any references to the Supplemental End User License Agreement or SEULA mean Offer Description.

1. Summary

This Offer Description applies to Catalyst 8000V Permanent License Reservation (PLR) and any Cisco Offers that reference this Offer Description (collectively, the “**Cisco Offer**”). The Cisco Offer is a virtual-form-factor router that delivers comprehensive WAN gateway and network services functions into virtual and cloud environments. Using familiar, industry-leading Cisco IOS® XE software networking capabilities, the Product enables enterprises to transparently extend their WANs into provider-hosted clouds. Similarly, cloud providers can use the Product to offer enterprise-class networking services to their customers. With a PLR license, customers can deploy the Product in classified networks, highly secure or air gap environments and remain in license compliance.

2. Support and Other Services

Your purchase of the Cisco Offer includes Embedded [Cisco Software Support Services](#).

3. Data Handling

The [Disclosure Documents](#) for Catalyst 8000V Permanent License Reservation (PLR) provide information about data handling practices, security controls, and other features specific to this Cisco Offer.

4. Special Terms

- 4.1 **PLR Licenses.** PLR licenses are companion licenses to a standard Digital Network Architecture (“DNA”) license and are used to deploy the Cisco Offer in classified networks, highly secure or air gap environments where there is no outbound connection. Your use of the Product is subject to the following: (1) the number of PLR licenses must not exceed the number of standard Cat8KV DNA licenses, (2) Your entitlement to the PLR license ends upon the expiration of Your DNA subscription, at which time if you do not renew your DNA subscription, You must promptly return the PLR license to Cisco, (3) You will not use any features that are entitled as part of the DNA license, unless you order additional Cat8KV DNA licenses that are separate from the PLR licenses.
- 4.2 **Solution Software Updates.** We recommend that You always (a) use the most recent version of the Cisco Offer and (b) install patches, security vulnerability fixes and/or bug fixes as soon as we make them available. You understand and agree that delaying updates to the latest Cisco Offer release may introduce security risks to Your environment and Cisco is not responsible for any security-related incidents that result from that delay.
- 4.3 **Cloud Service Provider Virtual Machine Image (VMI).** If You are using a cloud service provider VMI version of the Cisco Offer, You agree that (a) Cisco is not providing You with connectivity or transmission services as part of that use, and (b) You are solely responsible for ensuring that You perform any cross-border data transmissions in accordance with applicable laws and regulations, and You are responsible to Cisco for any failure to do so.
