

## Offer Description

# Cisco Nexus Hyperfabric Cloud Service

This Offer Description is part of the [General Terms](#) or similar terms existing between You and Cisco (e.g. the End User License Agreement) (the “**Agreement**”). Capitalized terms, unless defined in this document, have the meaning in the Agreement. Any references to the Supplemental End User License Agreement or SEULA mean Offer Description.

### 1. Summary

This Offer Description applies to Cisco Nexus Hyperfabric Cloud Service and any Cisco Offer that references this Offer Description (collectively, the “**Cisco Offer**”). The Cisco Offer is a Subscription Offer consisting of a cloud-based controller (the “**Controller**”) with a dashboard (“**Dashboard**”) enabling customers to configure, manage and monitor associated Cisco Nexus Hyperfabric Hardware. Cisco “Nexus Hyperfabric Hardware” are network switching devices that work exclusively with the Cisco Offer and run Software that facilitates device management, health and performance monitoring.

### 2. Support and Other Services

Your purchase of the Cisco Offer includes [Cisco Success Tracks](#) as described in Your Order.

### 3. Performance Standards

The [Cisco Nexus Hyperfabric Cloud Service Service Level Objective](#) applies to the Cisco Offer.

### 4. Data Handling

The [Disclosure Documents](#) for Cisco Nexus Hyperfabric Cloud Service provide information about data handling practices, security controls, and other features specific to this Cisco Offer.

### 5. Special Terms

5.1 **Right to Use.** A subscription entitlement to the Cisco Offer is needed for every Cisco 6000 Series Switch that is deployed and used. For more information on the subscription models for the Cisco Offer, as well as applicable entitlements and restrictions for each model, please refer to the “Licensing” section of the Cisco Nexus Hyperfabric Data Sheet.

5.2 **Limits on Usage.** You agree to use the Cisco Offer only in accordance with the Cisco Offer Documentation. You (not Cisco) are solely responsible for maintaining administrative control over Your Cisco Nexus Hyperfabric Cloud Service Dashboard.
