

## Offer Description: Cisco Data Control Module

This Offer Description (the “**Offer Description**”) describes Cisco Data Control Module (the “**Cloud Service**” or “**DCM**”). Your subscription is governed by this Offer Description and the Cisco Universal Cloud Agreement located at [www.cisco.com/go/uca](http://www.cisco.com/go/uca) (or similar terms existing between you and Cisco) (the “**Agreement**”). Capitalized terms used in this Offer Description and/or the Order not otherwise defined herein have the meaning given to them in the Agreement.

### Table of Contents

<b>1. Offer Description.....</b>	<b>1</b>	<b>2.2. Service Level Objectives.....</b>	<b>1</b>
<b>2. Supplemental Terms and Conditions ..</b>	<b>1</b>	<b>3. Support &amp; Maintenance.....</b>	<b>2</b>
<b>2.1. Geographic Restrictions.....</b>	<b>1</b>	<b>Definitions.....</b>	<b>4</b>

### 1. Offer Description

DCM is a cloud service that extracts data from your devices, normalizes the data, and sends the data, via application programming interfaces, to various applications of your choosing that are “northbound” from the Cloud Service. The Cloud Service provides components, accessible through a web-based user interface, that allow you to configure policies for data routing and rules for complex event processing.

### 2. Supplemental Terms and Conditions

#### 2.1. Geographic Restrictions

DCM is currently unavailable in China and Russia. If the Service is not available in a country, purchases will be restricted.

#### 2.2. Service Level Objectives.

The KPIs described in this Offer Description are used solely for the parties to monitor the performance of the Cloud Service. Cisco shall not be liable whatsoever if the KPIs fail to meet their KPI Targets.

**Performance Measurement.** Cisco will use its standard processes and tools for measuring and determining whether Cisco achieved the KPI Targets.

**Performance Reports.** Upon request but no less than thirty (30) days after the end of each Measurement Period, Cisco will provide a report on the KPIs for the relevant Measurement Period (“Performance Report”) to you.

#### Excused Events.

The following types of events are excluded from the KPI calculation:

- (i) a material act or omission of that You make in breach of the terms and conditions of Agreement;
- (ii) Your failure to comply with its obligations under the Customer Responsibilities listed below;
- (iii) problems outside of the applications and data centers that Cisco manages and controls;
- (iv) Maintenance or updates, as described in Section 2.2 (Maintenance and Updates);
- (v) Unscheduled availability due to incidents outside of Cisco's control, as described in Section 2.3 (Unscheduled Availability);
- (vi) any delays or faults caused by Your or a third party's (a) equipment, (b) services, (c) business logic (including, without limitation, all scripts, natural language, third party application integration, API logic, etc.), (d) applications, or (e) platform customizations that are outside of Cisco's direct control; or
- (vii) Your failure to implement the actions that Cisco recommends You take to remediate incidents.

### **Customer Responsibilities.**

Customer will:

- a. make available to Cisco a single point of contact to cooperate with Cisco and respond to any Cisco requests with respect to verifying an outage or KPI performance;
- b. provide such information as may be reasonably requested by Cisco to help Cisco in resolving an outage;
- c. provide Cisco with such cooperation and assistance as may be reasonably required to help verify the accuracy of Cisco's measurements and analysis of its performance consistent with the KPI Targets.

Cisco will use the KPIs listed below to monitor performance and each is described in a separate exhibit attached hereto and made part of this Offer Description by this reference:

KPI Name	Exhibit
<b>Service Availability</b>	A
<b>Recovery Point Objective</b>	B
<b>Recovery Time Objective</b>	B

## **3. Support & Maintenance**

The Cloud Service includes online support and phone support for both the Cloud Service itself and for Cisco IOx on premises software for which You have a valid license and that is running on any of the Supported Hardware that the Cloud Service manages for You. Cisco will respond as set forth in the table below and may require information from you to resolve service issues. You agree to provide the information requested and understand that a delay in providing the information to Cisco may delay resolution and response time.

Online Support allows access for support and troubleshooting via online tools, email and web case submission only. No telephone access is provided. Case severity or escalation guidelines are not applicable. Cisco will respond to a submitted case no later than the next business day during standard business hours.

You have access to Cisco Technical Assistance Center (TAC) access 24 hours per day, 7 days per week to assist by telephone, or web case submission and online tools with use and

troubleshooting issues. Cisco will respond within one (1) hour for Severity 1 and 2 calls received. For Severity 3 and 4 calls, Cisco will respond no later than the next business day.

You will also have access to Cisco.com, which provides helpful technical and general information about Cisco products, as well as access to Cisco's on-line knowledge base and forums. Please note that access restrictions identified by Cisco from time to time may apply.

Your access to and use of the Cloud Services may be suspended for the duration of unanticipated or unscheduled downtime, including as a result of catastrophic events, external denial of service or other security breach, or operational incidents. You will also be notified of such events on the System Status Site.

The below table outlines Cisco's response objectives based on case severity. Cisco may adjust assigned case severity to align with the Severity definitions below.

Software Service	Support	Technical Coverage	Support	Response Objective for Severity 1 or 2	Time for Case	Response Objective for Severity 3 or 4	Time for Case
Basic Support	with Phone		24x7 via Phone & Web	Response within 1 hour		Response within next Business Day	
Basic Support	with Online		Web	Response to all cases within next Business Day during Standard Business Hours			

The following definitions apply to this Section.

“Response time” means the time between case submission in the case management system to support engineer contact.

“Severity 1” means the Cloud Service is unavailable or down or there is a critical impact to a significant impact to Case Submitter's business operation. Case Submitter and Cisco both will commit full-time resources to resolve the situation.

“Severity 2” means the Cloud Service is degraded or significant aspects of Case Submitter's business operation are negatively impacted by unacceptable software performance. Case Submitter and Cisco both will commit full-time resources during Standard Business Hours to resolve the situation.

“Severity 3” means the Cloud Service is impaired, although most business operations remain functional. Case Submitter and Cisco both are willing to commit resources during Standard Business Hours to resolve the situation.

“Severity 4” means minor intermittent functionality or performance issue, or information is required on the Cloud Service. There is little or no impact to Case Submitter's business operation. Case Submitter and Cisco both are willing to provide resources during Standard Business Hours to provide assistance or information as requested.

“Business Day” means the generally accepted days of operation per week within the relevant region where the Cloud Services will be performed, excluding local holidays as observed by Cisco.

“Local Time” means Central European Time for support provided in Europe, Middle East and Africa, Australia’s Eastern Standard Time for support provided in Australia, Japan’s Standard Time for support provided in Japan and Pacific Standard Time for support provided in all other locations.

“Standard Business Hours” means 8am to 5pm Local Time at the location of the respective Cisco TAC, on Business Days, for the handling of TAC calls.

## **Definitions.**

“KPI” means means means the key performance indicators that Cisco uses to assess and manage the performance of the Cloud Service.

“KPI Target” means means means the targeted values that Cisco seeks to attain or exceed for the KPIs.

## **Exhibit A: Service Availability KPI**

<b>Service Level Target</b>	The Availability Percentage will be 99.5% or greater for each Measurement Period (as defined below).
<b>Measurement Period</b>	One calendar month
<b>Service Level Business Objective</b>	To help maintain availability of the Cloud Services.
<b>Service Level Calculation and Related Definitions</b>	<p>“<b>Availability Percentage</b>” will be calculated as follows, converted to a percentage:</p> $\frac{\text{Total Service Minutes} - \text{Total Qualifying Outage Minutes}}{\text{Total Service Minutes}}$ <p>where:</p> <p>“<b>Total Service Minutes</b>” equals the total number of minutes in a Measurement Period (calculated by multiplying 60 (minutes) by 24 (hours) by the number of calendar days in the Measurement Period).</p> <p>“<b>Qualifying Outage</b>” means an outage that: (a) results in an outage of all of the Cloud Service; (b) is not excused under Exceptions Section of this Offer Description; (c) is directly attributable to a failure of the Cloud Service; and (d) is not due to any failure of the Cloud Services to interoperate with Your or any third-party components.</p> <p>“<b>Total Qualifying Outage Minutes</b>” equals the aggregate sum of the downtime minutes of time that are attributable to all Qualifying Outages during the Measurement Period. For the purposes of calculating Total Qualifying Outage Minutes, each Qualifying Outage will (i) commence upon the earlier of (a) Cisco’s detecting the outage or (b) Cisco’s logging an incident ticket upon Customer’s notice to Cisco of the outage with sufficient information for Cisco to confirm the outage; and (ii) end when the Core Cloud Services are fully restored. The duration of a Qualifying Outage will be rounded upward or downward to the nearest minute.</p> <p>The following will not be included in the calculation of Total Qualifying Outage Minutes: (a) outages during scheduled maintenance windows, (b) emergency operational changes or (c) Force Majeure Events.</p>

## Exhibit B: Disaster Recovery KPIs

### Recovery Point Objective (“RPO”):

RPO is defined as the maximum targeted period in which data might be lost from the Cloud Service due to a major incident. The commitment for the RPO for the Cloud Service is **4 hours**.

### Recovery Time Objective (“RTO”):

RTO is the targeted duration of time and a service level within which a the Cloud Service must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity. The commitment for the RTO for the Cloud Service is **4 hours**.
