

Offer Description: Cisco Secure Application Cloud

This Offer Description (the “**Offer Description**”) describes Cisco Secure Application Cloud (the “**Cloud Service**”). Your subscription is governed by this Offer Description and the Cisco End User License Agreement located at www.cisco.com/go/eula (the “EULA”) (or similar terms existing between you and Cisco) (the “**Agreement**”). Capitalized terms used in this Offer Description and/or the Order not otherwise defined herein have the meaning given to them in the Agreement.

1. Description

Cisco Secure Application Cloud is a cloud-based application security solution that provides comprehensive Container, Serverless, API, Service Mesh and Kubernetes Security in a single platform as described in the Documentation (available at <https://eti.cisco.com/appsec>).

2. Supplemental Terms and Conditions

Beta Features and Functionality. The Cloud Service may, from time to time, include certain features or functionality in beta stage (“Beta Features”). Cisco will identify any such Beta Features as “beta,” and may or may not choose to commercialize them. Any Beta Features included with the generally available Cloud Service are governed by Section 2.3 (Beta and Trial Use) of the Agreement.

3. Data Protection

The Cisco Secure Application Privacy Data Sheet (available [here](#)) describes the Personal Data that Cisco collects and processes as part of the delivery of the Cloud Services. For further information on how Cisco processes, uses and protects all categories of data, please visit [Cisco’s Security and Trust Center](#).

4. Support & Maintenance

During the Usage Term, Cisco will provide support and maintenance for the Cisco Secure Application Cloud Enterprise offer as described at <https://eti.cisco.com/support/appsec>.
