1. Summary

Cisco Secure Cloud Analytics Private Network Monitoring and Cisco Secure Cloud Analytics Cloud Public Cloud Monitoring (the “**Product**”) are cloud security services that perform behavior anomaly detection on network connected devices and users in the data center and/or the cloud. Their cloud-native, machine learning techniques help You to identify insider and external threats through modeling algorithms that detect changes in behavior and identify policy violations, misconfigured cloud assets and user error and misuse.

2. Support and Other Services

Support. Your purchase of the Product includes Basic [Cisco Software Support Services](#).

3. Data Protection

Privacy Data Sheet. The [Cisco Stealthwatch Cloud Privacy Data Sheet](#) describes the Personal Data that Cisco collects and processes as part of delivering the Product.

4. Special Terms

Disclaimers. Cisco does not represent or warrant that the product will guarantee absolute security due to the continual development of new techniques for intruding upon and attacking files, networks, and endpoints. Cisco does not represent or warrant that the product will protect all your files, network, or endpoints from all malwares, viruses, or third-party malicious attacks. Cisco does not make any representations or warranties regarding any third-party system or service to which a product integrates or to any ongoing integration support. Integrations made accessible to you that are not a generally available product included on your order are provided on an “as is” basis.
