2. Additional Terms

End of Term (Perpetual Licenses). At the end of the Suite Term, You are required to provide Cisco a written report detailing the SPNA Software that is running on the Devices at the end of the Suite Term (including any activated devices, ports, features, functionality, or other applicable license metrics) and the associated perpetual SPNA Software licenses registered, activated, and deployed at the end of the Suite Term. Subject to Cisco's verification of such information, and in accordance with the End User Terms, You may continue to use solely the licensed release of the SPNA Software running on an Device, limited to the devices and ports activated and in use, at end of the Suite Term.
