

## **MSLA Product Terms**

### **Virtual Adaptive Security Appliance (ASAv)**

---

#### **Additional Product Terms**

Service Provider's use of the ASAv covered by the MSLA Program Terms is subject to these Product Terms. These terms take precedence over any conflicting terms in the Program Terms. Capitalized terms used but not defined in these Product Terms are defined in the Program Terms or in the Master Agreement.

#### **Product Description**

The ASAv (Virtual Adaptive Security Appliance) is sold in bandwidth increment of 100 MBPS, 1 GBPS, 2 GBPS based on firewall performance.

#### **License Fees**

Each License Fee is based on the maximum throughput capable by the ASAv license activated by Service Provider during the previous month.
