Related Documents: This document should be read in conjunction with the following documents also posted at www.cisco.com/go/servicedescriptions/ : (1) Glossary of Terms; (2) List of Services Not Covered. All capitalized terms in this description have the meaning ascribed to them in the Glossary of Terms.

Direct Sale from Cisco. If you have purchased these Services directly from Cisco for your own internal use, this document is incorporated into your Master Services Agreement, Advanced Services Agreement, or other services agreement covering the purchase of Advanced Services-based services with Cisco ("Master Agreement") If no such Master Agreement exists, then this Service Description will be governed by the terms and conditions set forth in the Terms & Conditions Agreement posted at http://www.cisco.com/web/about/doing_business/legal/terms_conditions.html. If you have purchased these Services directly from Cisco for resale purposes, this document is incorporated into your System Integrator Agreement or other services agreement covering the resale of Advanced Services ("Master Resale Agreement"). If the Master Resale Agreement does not contain the terms for the Purchase and Resale of Cisco Advanced Services or equivalent terms and conditions, then this Service Description will be governed by the terms and conditions of the Master Resale Agreement and those terms and conditions set forth in the SOW Resale Terms & Conditions Agreement posted at:

http://www.cisco.com/web/about/doing_business/legal/terms_conditions.html. For purposes of the SOW Resale Terms and Conditions this Service Description shall be deemed as a Statement of Work ("SOW"). In the event of a conflict between this Service Description and the Master Agreement or equivalent services exhibit or agreement, this Service Description shall govern.

Sale via Cisco Authorized Reseller. If you have purchased these Services through a Cisco Authorized Reseller, this document is for description purposes only; is not a contract between you and Cisco. The contract, if any, governing the provision of this Service will be the one between you and your Cisco Authorized Reseller. Your Cisco Authorized Reseller should provide this document to you, or you can obtain a copy of this and other Cisco service descriptions at www.cisco.com/go/servicedescriptions/.

Cisco Data Center Deployment Service for Nexus 9000 Bundle

Service Summary

- Project Management Plan Development
- Basic Design and Topology Definition
- Implementation Support

Deliverables

- Project Management Plan
- Implementation and Migration Plan with deployment configurations

Location of Services

Services are delivered on site and remote. There will be a total of 2 – one day trips by Cisco.

Project Management

Remote Project management will be provided in conjunction with and is limited to the management of the Services and Deliverables as described herein.
Cisco Responsibilities

- Provide Customer with a list of designated Cisco personnel roles and responsibilities under this Service.

- Provide a Project Management Plan ("PMP"). PMP is a baseline document from which the Cisco PM can manage deliverables, assess progress, and manage change management issues and any on-going questions.

- Work with Customer to identify and document dependencies, risks and issues associated with the successful completion of the project.

- Participate in scheduled project review meetings or conference calls, if required.

- Provide Customer with the identity of personnel requiring access to Customer premises, at least five (5) Business Days prior to the scheduled date such personnel requires access.

- Deliver a weekly project status report to the Customer.

- Provide a handover; follow on actions, lessons learned, and exception reports (if necessary) upon project completion.

Customer Responsibilities

- Provide the Cisco PM with a list of designated Customer personnel roles and responsibilities under this Service.

- Ensure that key Customer personnel (such as architecture design and planning, network engineering, network operations personnel) are available to provide information and to participate in review sessions, workshops and other information gathering activities. The Customer PM will also ensure that Cisco is provided with all information, data and documentation as Cisco reasonably requires providing Services and complying with Cisco’s responsibilities in this Service. This information includes, but is not limited to: (i) information relating to Customer’s network, design, business and other applicable requirements; (ii) functional and/or technical documentation relating to such requirements; and (iii) topology maps, configuration information and existing and proposed network infrastructure.

- Identify primary and backup Customer authorized site contacts that shall provide necessary information, obtain access clearances and coordinate with other organizations/third parties with respect to Services at that site.

- Participate in scheduled project review meetings or conference calls, if required.

- Coordinate with any external third parties, such as in country Carrier/Telco activities, deliverables and schedules.

- Ensure that Cisco’s request for information or documentation needed for the project is provided within five (5) Business Days of Cisco’s request, unless the parties agree to another time period for response.

- Provide an authorized Customer signature for delivery of Cisco Products at Customer location, as it relates to this Service.

Basic Design and Topology Definition

The Basic Design and Topology Definition Service involve establishing the base requirements and developing the implementation design accordingly.
of design and configuration improvements for performance, scalability, security and availability; d) review of software recommendations for Cisco devices required.

- Develop an Implementation & Migration plan for deployment along with appropriate topology details pertaining to the agreed upon number of devices and associated components.
- Provide the Implementation & Migration plan for review and approval in accordance Document Deliverable Review and Approval Process.

## Customer Responsibilities

- Provide Customer’s final requirements only associated with the number of devices for deployment, to Cisco no later than five (5) Business Days following project kickoff.
- Participate in interviews and / or meetings with Cisco to review design documentation, as requested.
- Provide Cisco any existing LAN / WAN / L4-7 topology diagrams, functional and feature requirements, scalability considerations within five (5) Business Days of project kickoff, pertaining to the deployment hardware.
- Provide IP addressing and subnet masks, network physical and logical schematics, required security policies and any other necessary data to Cisco prior to or during the design workshop.
- If requested by Cisco, provide physical and logical network schematics for other network elements not included in the scope of this project but reasonably necessary for the provision of Services.
- Racking, cabling and powering up equipment in scope must be completed, and access information for the equipment provided to Cisco.

## Cisco Responsibilities

- Cisco will provide implementation support for one (1) on-site event of up to eight (8) hours.
- Implementation Support will consist of consultation support for the Customer’s execution of the implementation.

## Implementation Support

- Responsible for the racking, cabling, and power of all network devices.
- Responsible for the overall implementation in terms of scheduling, staffing, and coordination within different customer network and application groups
- Provide Cisco with Implementation schedule in advance
- Facilitate onsite accommodation for Cisco onsite engineers
- Provide remote network access if needed
- Schedule change window with at least ten (10) working days in advance

## General Customer Responsibilities

- All information (such as but not limited to: designs, topologies, requirements) provided by Customer is assumed to be up-to-date and valid for the Customer’s current environment. Cisco Services are based upon information provided to Cisco by Customer at the time of the Services.
- Customer acknowledges that the completion of Services is dependent upon Customer meeting its responsibilities as indicated herein.
- Identify Customer’s personnel and define their roles in the participation of the Services. Such personnel may include but is not limited to: architecture design and planning engineers, and network engineers.
- Ensure Customer’s personnel are available to participate during the course of the Services to provide information and to participate in scheduled information gathering sessions, interviews, meetings and conference calls.
- Support services provided by Cisco comprise technical advice, assistance and guidance only.
- Customer expressly understands and agrees that the Services shall take place and complete within ninety (90) calendar days from issuing a Purchase Order to Cisco for the Services herein.
- Customer understands that the following limitations will apply to the Service provided by Cisco:
  - VPC deployment only
  - Migration in scope for this engagement will be from a maximum of two (2) Cisco switches—Catalyst 6500 or similar.
  - No Multicast, VxLAN, custom QoS, or IPv6 configurations
  - Maximum of two (2) of the following dynamic routing protocols - OSPF, EIGRP, BGP
  - Maximum of 20 Access Switches (Layer 2 connected) to be connected to the target environment.
  - Maximum of 12 Non-Access (Layer 3 connected) network devices to be connected to the target environment, including, but not limited to Routers, Switches, Firewalls or Load Balancers

### Invoicing and Completion

#### Invoicing

Services will be invoiced upon completion of the Services.

#### Completion of Services

Cisco will provide written notification upon completion of the Services to Customer. The Customer shall within five (5) Business Days of receipt of such notification provide written acknowledgement of Cisco’s completion of the Services. Customer’s failure to acknowledge completion of the Services or to provide reasons for rejection of the Services within the five (5) Business Day periods signifies Customer’s acceptance of completion of the Services in accordance with this Service Description.

### Document Deliverable Review and Approval Process

For Document Deliverables that are subject to review and approval from Customer, the parties will adhere to the following review and approval process:

- Cisco will present the draft Document Deliverable to Customer when the document is ready for review and approval.
- Customer shall review the draft Document Deliverable with Cisco, providing written comment or approval of the Document Deliverable within two (2) business days immediately after completion of such review.
- If no comment or approval is received by Cisco within said time period, the Document Deliverable as provided by Cisco is deemed to be accepted by the Customer.
- If Customer provides comments, then Cisco shall address such comments in a timely manner and this process for review and approval will be repeated.
- No further Services will be performed until the Customer’s acceptance of Document Deliverables is received by Cisco.
- If Customer nevertheless insists on Cisco performing any further Services, the relevant Document Deliverable as presented by Cisco will be deemed accepted.
