DOWNLOADING, INSTALLING, OR USING THE SOFTWARE CONSTITUTES ACCEPTANCE OF THE AGREEMENT, AND YOU ARE BINDING YOURSELF AND THE BUSINESS ENTITY THAT YOU REPRESENT (COLLECTIVELY, "CUSTOMER") TO THE AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THE AGREEMENT, THEN CISCO IS UNWILLING TO LICENSE THE SOFTWARE TO YOU AND (A) YOU MAY NOT DOWNLOAD, INSTALL OR USE THE SOFTWARE, AND (B) YOU MAY RETURN THE SOFTWARE (INCLUDING ANY UNOPENED CD PACKAGE AND ANY WRITTEN MATERIALS) FOR A FULL REFUND, OR, IF THE SOFTWARE AND WRITTEN MATERIALS ARE SUPPLIED AS PART OF ANOTHER PRODUCT, YOU MAY RETURN THE ENTIRE PRODUCT FOR A FULL REFUND. (b) Customer is responsible for obtaining all approvals required by any third parties in order for Cisco to perform any VMS Service under this Agreement. Cisco will not be responsible or otherwise liable for any failure to perform the VMS Services to the extent caused by Customer's failure to obtain such third party approvals or any third party otherwise prevents Cisco from performing the VMS Services.

(c) Customer will not resell the VMS Software or VMS Services or create or offer derivative versions of the VMS Software or VMS Services, either directly or indirectly through a third party.

If a defect or other issue is reported to Cisco and the defect or issue is determined to be with the Customer supplied software or Customer environment or networks or third party equipment or networks contracted for by Customer, then Cisco may invoice Customer, at Cisco's then current rates, for the work performed by Cisco isolating the defect or issue.
- (j) Customer is responsible for any catastrophic security events that result from any unauthorized configuration of the VMS Service components by Customer's personnel. The failure of Customer to comply with Customer's responsibilities set forth above may be deemed a material breach of the EULA and this SLA. Cisco reserves the right to suspend or terminate access to the VMS Services upon notice of a violation of such responsibilities.

Customer Warranties. Customer represents, warrants and covenants that (i) it shall only use the VMS Services and VMS Software to provide VMS Services to its End Users only as permitted by any Capacity limitations set forth in the Purchase Order. If Customer wishes to utilize the VMS Software beyond the Capacity set forth in the Purchase Order, Customer shall be obligated to place a Purchase Order with Cisco to procure such additional required Capacity as soon as is reasonably practical.

Content. Customer is and shall be solely responsible for the creation, renewal, updating, deletion, editorial content, control and all other aspects of any files, software, scripts, multimedia images, graphics, audio, video, text, data or other objects, including any third party content or materials, originating or transmitted from any location owned or operated by Customer, and/or uploaded or routed to, passed through and/or stored on or within the VMS Services, or otherwise provided to Cisco in any medium or transmitted or routed using the VMS Services ("Customer Content"). Customer owns all right, title, and interest in the Customer Content, or possesses or shall possess all legally valid rights in the Customer Content necessary for the uses of the Customer Content contemplated herein. Customer shall not transmit or route to Cisco or the VMS Services, or otherwise direct via the VMS Services, any Customer Content that (a) infringes any copyright, trade secret, or other intellectual property right, (b) contains libelous, defamatory, or obscene material under any applicable law, or (c) otherwise violates any laws or regulations relating to content or content distribution. Customer shall be responsible for utilizing VMS Services in accordance with the Documentation.

If Customer has actual knowledge that any Customer Content infringes the intellectual property or other rights of a third party or violates any applicable laws or regulations (including, without limitation, laws and regulations relating to indecency or obscenity), Customer shall remove such Customer Content from Customer's origin server. Customer shall be solely responsible for maintaining the availability of its networks, web site(s) and any other medium for the delivery of online video services, and all Customer Content, IP addresses, domain names, hyperlinks, databases, applications and other resources as necessary for Customer to operate and maintain its services to meet Customer's business purposes and objectives. During the Term, Customer grants to Cisco a limited, non exclusive license to use the Customer Content solely for all reasonable and necessary purposes contemplated herein and for Cisco to perform the VMS Services as contemplated hereunder.

Indemnities by Customer. Customer shall defend, indemnify, and hold Cisco harmless from and against any suit, proceeding, assertion, damages, cost, liability, and expenses (including court costs and reasonable attorneys' fees) incurred as a result of claims by any third party against Cisco and its Affiliates, licensors, suppliers, subcontractors, officers, directors, employees and agents arising from or connected with any Customer Content and any other materials provided by Customer to Cisco, Customer's services (including without limitation any activities or aspects thereof or commerce conducted thereon), Customer's misuse of the VMS Services or VMS Software, unauthorized modification of the VMS Services or VMS Software, or unauthorized combination of the VMS Services or VMS Software with any hardware, software, products, data or other materials not specified or provided by Cisco.

Additionally, in the case where at no material fault of Cisco, the VMS Services or VMS Software, a third party software component, including but not limited to, WMDRM Server or Windows Media Player ("WMP") or Microsoft PlayReady creates a digital rights management (DRM) security breach due to a failure or hacking of such component, Cisco shall notify Customer as soon as is practical after receiving a confirmed notice from the provider of such components or discovering such a DRM security breach itself. If, after receiving such DRM

breach notice, Customer continues to allow its content to be accessed with any software or services operated in conjunction with the VMS Services or VMS Software during the period where there is no fix for such DRM security breach, or Customer decides not to implement such fix (which may require restricting End

Users to using certain versions of third party applications), then Customer acknowledges and agrees Cisco will not have any liability to Customer for any costs, damages or legal fees related to a DRM security breach.

Customer shall defend, indemnify, and hold Cisco harmless from and against any suit, proceeding, assertion, damages, cost, liability, and expenses (including court costs and reasonable attorneys' fees) incurred as a result of claims by any third party against Cisco and its Affiliates, licensors, suppliers, subcontractors, officers, directors, employees and agents arising from or connected with or related to such DRM security breach.

Open Source Software. The VMS Software includes certain open source software. Despite anything to the contrary in the EULA or this supplement, the open source software is governed by the terms and conditions of the applicable open source license. The open source software, the applicable open source licenses and other open source notices may be identified in the Documentation, the VMS Software GUI or in a README file accompanying the VMS Software. Customer agrees to comply with all such licenses and other notices.

Neither this SLSA nor any rights or obligations under this SLSA shall be assigned by a party without the other's prior written consent, which will not be unreasonably withheld or delayed. Any attempted assignment shall be void and of no effect.
