

## Offer Description

# Cisco Crosswork Automation Suite (CWAS)

This Offer Description is part of the [General Terms](#) or similar terms existing between You and Cisco (e.g., the End User License Agreement) (the “**Agreement**”). Capitalized terms, unless defined in this document, have the meaning in the Agreement. Any references to the Supplemental End User License Agreement or SEULA mean Offer Description.

### 1. Summary

This Offer Description applies to Cisco Crosswork Automation Suite (“**CWAS**”) and any Cisco Offers that reference this Offer Description (collectively, the “**Cisco Offer**”). The Cisco Offer is available packaged in two suite options: Crosswork Suite Essentials and Crosswork Suite Advantage. For more information see <https://www.cisco.com/c/en/us/products/collateral/cloud-systems-management/crosswork-network-automation/crosswork-essentials-adv-suites-ds.html>.

### 2. Support and Other Services

Your purchase of the Cisco Offer includes [Cisco Solution Support for Services Providers](#) for Software or other support as described in Your Order. Sample function packs that may be shipped with the Cisco Offer are not supported except as set forth in the Documentation.

### 3. Data Handling

The [Disclosure Documents](#) for Cisco Crosswork Automation Suite (CWAS) provide information about data handling practices, security controls, and other features specific to this Cisco Offer.

### 4. Special Terms

- 4.1 **Software Use Rights.** Crosswork Suite Essentials and Crosswork Suite Advantage include the individual Software components (with corresponding license meters and license duration) detailed in Your Order. The individual Software components constituting Crosswork Suite Essentials and Crosswork Suite will vary, as certain components may be replaced with the introduction of new Software components in the future. Any Cisco development, enhancement, maintenance, end-of-sale and end-of-support for components included within the Cisco Offer will be on a per-component basis.
- 4.2 **Additional Product Terms.** In addition to this Offer Description, the Software components purchased may have their own Offer Descriptions. In the event of a conflict between a component Offer Description and this Offer Description, this Offer Description shall govern.
- 4.3 **Required RTM Licenses.** In addition to the flat annual fee that grants You a RTU license to the base application for each Instance of the Server software included in the Cisco Offer, You must purchase corresponding Device RTM licenses for Crosswork Suite Essentials or Crosswork Suite Advantage, as the case may be. Device RTM licenses purchased must align with the CWAS Essentials or CWAS Advantage being used.
- 4.4 **License Compliance.** License consumption and entitlements are delivered on a per-product basis for each individual Software component bundled into the Cisco Offer. License consumption is measured by each individual Software product’s consumption. The quantity of licenses delivered for each Software component is measured separately and cannot be transferred or otherwise carried over to another Software component.
- 4.5 **Usage Limitation.** Any single purchase of the Cisco Offer is licensed to the end-user operating entity ordering the Cisco Offer in one country. You may not purchase one Instance of the Cisco Offer for use by multiple country locations or legal entities.
- 4.6 **Definitions**

Term	Meaning
Device	Hardware (e.g., routers, switches, and servers), hardware components (e.g., line cards and ports), or their virtual equivalents (e.g., virtual switch, virtual server, virtual appliance) that access, use, or are

Term	Meaning
	managed by the Cisco Offer.
<b>Instance</b>	The number of actual deployments of a specific product in a network.
<b>Network Element</b>	A virtual router, switch, server, or network function in Your network, as applicable.
<b>NED</b>	A Network Element Driver, which enables the management of Network Elements running the same embedded software type. For example, there is a NED for certain Cisco IOS Devices, another NED for certain IOS XR Devices, and NEDs for certain non-Cisco Devices.
<b>RTM</b>	The right to manage.
<b>RTU</b>	The right to use.
<b>Server</b>	A computing device that uses the Cisco Offer to manage and exchange data with other Devices.
