Offer Description: Cisco Webex Hardware as a Service

This Offer Description (the “Offer Description”) describes Cisco Webex Hardware as a Service (the “Cisco Technology”). Your use of the Cisco Technology is governed by this Offer Description and the Cisco End User License Agreement located at www.cisco.com/go/eula (the “EULA”) (or similar terms existing between You and Cisco) (the “Agreement”). If capitalized terms are not defined in this Offer Description, then they have the meaning given to them in the Agreement or Order(s).

1. Description

This offer is a hardware subscription program offering customers the option to purchase Webex-enabled devices and IP phones with subscription payments made monthly or annually.

2. Supplemental Terms and Conditions

2.1. Subscription*

<table>

* Your subscription includes the following:
  - Ownership of the Covered Hardware
  - Restricted rights to Software functionality during the Term as defined in 2.3 of this Offer Description;
  - Additional functionality of Covered Hardware, provided You maintain an active subscription to the Product;
  - Hardware and Software support for the Covered Hardware, provided You maintain an active subscription to the Product.

2.2. Definitions

“Covered Hardware” means Cisco-branded equipment or devices listed on the datasheet provided to you by Cisco or an Approved Source.

2.3. Transfer of Title and Restricted Functionality for Covered Hardware without a Subscription

Upon payment, title to the Covered Hardware is transferred to You according to Cisco standard terms of sale for hardware. However, Covered Hardware may only be used to place or receive calls or attend meetings (as applicable) when a subscription to the Covered Hardware is active.

2.4. Support for Covered Hardware

During your Product subscription, support for Covered Hardware will be provided under Cisco Base Level Service:

2.5. Geographic Restrictions

The Product is currently available for purchase and deployment only in the United States.
