# Supplemental Terms

# Software Innovation Access (SIA)

These Supplemental Terms form part of the General Terms or similar terms existing between You and Cisco (e.g., the End User License Agreement) (the "**Agreement**"). Capitalized terms, unless defined in this document, have the meaning in the Agreement.

## 1. Summary

A Cisco Software Innovation Access ("**SIA**") subscription provides access to the latest generally available Feature Releases (as defined below) of Your applicable Cisco Offer during the SIA subscription term set out in Your SIA Order ("**SIA Subscription Term**"). A SIA subscription is only available for certain Cisco Offers licensed on a perpetual basis.

## 2. Supplemental Terms

2.1 **Requirements**. For any Cisco Offer covered by a SIA subscription, You must have: (a) SIA subscription coverage for your entire deployment of the applicable Cisco Offer; (b) Cisco software support and maintenance contract coverage for your entire deployment of the applicable Cisco Offer for the duration of the SIA Subscription Term, including any renewals; and (c) corresponding licenses (e.g., Right-to-Use or RTU licenses) to Your entire deployment of the Cisco Offer licensed on a perpetual basis.

2.2 **Feature Releases**. Cisco will provide You with access to Major Releases and Minor Releases of the applicable Cisco Offer, if and when available during the SIA Subscription Term ("**Feature Releases**"). Feature Releases do not include Maintenance Releases. Your use of a Feature Release is limited to Your Use Rights to the applicable Cisco Offer. A SIA subscription does not include custom feature development. Features and functionality of a Feature Release are set out in its Documentation. You will not have access to new Feature Releases following the end of sale date of the applicable Cisco Offer. You may not download or activate a Feature Release following expiration or termination of Your SIA subscription. Even though Your deployment of a Cisco Offer is licensed on a perpetual basis, SIA is offered as a subscription for the specific SIA Subscription Term and only for the applicable licenses of the Cisco Offer that you have purchased as set out in Your Order for the Cisco Offer.

2.3 **Additional Responsibilities**. You must: (a) download and use only the Feature Releases that You are entitled to use based on Your Order; (b) cease using the previous releases of the Cisco Offer after successfully transitioning to a new Feature Release; (c) not transfer previous releases of the Cisco Offer; and (d) register and report license usage for the Cisco Offer via Cisco Smart Software Manager, with periodic license usage reporting enabled, if available for the Cisco Offer. For a more detailed overview on Cisco Smart Licensing, go to cisco.com/go/licensingguide.

2.4 **Expiration & Reinstatement**. At the expiration of the SIA Subscription Term, You may continue to use the last licensed Feature Release installed when the SIA Subscription Term expired, in accordance with the General Terms and any applicable Offer Description. If You wish to reinstate an available SIA subscription on the Cisco

Offer after expiration of the SIA Subscription Term, You must pay: (a) the amount You would have paid for the SIA subscription for the Cisco Offer between expiration and the date of reinstatement ("**Lapsed Period Fee**"); (b) a fee of 20% of the Lapsed Period Fee if Your reinstatement is over 30 days after expiration; and (c) the then-current fee for the new SIA Subscription Term.

2.5 **Definitions**

| Term | Meaning |
|------|---------|
| **Maintenance Release** | An incremental Software release that provides maintenance fixes and may provide additional Software functions. Cisco designates Maintenance Releases as a change in the digits to the right of the tenths digit or of the hundredths digit of the Software version number [x.x.(x) or x.x.x.(x)]. |
| **Major Release** | A release of Software that provides additional Software functions. Cisco designates Major Releases as a change in the ones digit of the Software version number [(x).x.x]. |
| **Minor Release** | An incremental release of Software that provides maintenance fixes and additional Software functions. Cisco designates Minor releases as a change in the tenths digit of the Software version number [x.(x).x]. |
