12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a

license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is

safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year>
<name of author>

This library is free software; you can redistribute it and/or
modify it under the terms of the GNU Library General Public
License as published by the Free Software Foundation; either
version 2 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
Library General Public License for more details.

You should have received a copy of the GNU Library General Public
License along with this library; if not, write to the Free
Software Foundation, Inc., 675 Mass Ave, Cambridge, MA 02139, USA.

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

1.741 gmbal-api-only 3.0.0-b023

1.741.1 Available under license :

As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from

or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not
allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain
that everyone understands that there is no warranty for this free
software. If the software is modified by someone else and passed on, we
want its recipients to know that what they have is not
the original, so
that any problems introduced by others will not reflect on the original
authors' reputations.

Finally, any free program is threatened constantly by software
patents. We wish to avoid the danger that redistributors of a free
program will individually obtain patent licenses, in effect making the
program proprietary. To prevent this, we have made it clear that any
patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and
modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains
a notice placed by the copyright holder saying it may be distributed
under the terms of this General Public License. The "Program", below,
refers to any such program or work, and a "work based on the Program"
means either the Program or any derivative work under copyright law:
that
is to say, a work containing the Program or a portion of it,
either verbatim or with modifications and/or translated into another
language. (Hereinafter, translation is included without limitation in
the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of
running the Program is not restricted, and the output from the Program
is covered only if its contents constitute a work based on the
Program (independent of having been made by running the Program).
Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's
source code as you receive it, in any medium, provided that you
conspicuously and appropriately publish on each copy an appropriate
copyright notice and disclaimer of warranty; keep intact all the
notices that refer to this License and to the absence of any warranty;
and give
any other recipients of the Program a copy of this License
along with the Program.

You may charge a fee for the physical act of transferring a copy, and

you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections

1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated
interface definition files, plus the scripts used to
control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under
this License.
However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise
of the rights granted herein.
You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.

This is free software, and you are welcome to redistribute it
under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate
parts of the General Public License. Of course, the commands you use may
be called something other than 'show w' and 'show c'; they could even be
mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work
as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program
'Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may
consider it more useful to permit linking proprietary applications with the
library. If this is what you want to do, use the GNU Lesser General
Public License instead of this License.

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.0

1. Definitions.

1.1. "Contributor" means each individual or entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Software, prior Modifications used by a Contributor (if any), and the Modifications made by that particular Contributor.

1.3. "Covered Software" means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.

1.4. "Executable" means the Covered Software in any form other than Source Code.

1.5. "Initial Developer" means the individual or entity that first makes Original Software available under this License.

1.6. "Larger Work" means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. "License" means this document.

1.8. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights

conveyed herein.

1.9. "Modifications" means the Source Code and Executable form of any of the following:

A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications;

B. Any new file that contains any part of the Original Software or previous Modification; or

C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. "Original Software" means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. "Source Code" means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You.
For purposes of this
definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide,

royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that

Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed by the terms of this License. You

represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients" rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient"s rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the

Initial Developer and every
Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works.

You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions.

Sun Microsystems, Inc. is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs

from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER
OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF
ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as "Participant") alleging that the Participant
Software (meaning the
Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with

Participant.

6.3. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY
TO LIABILITY FOR DEATH OR PERSONAL
INJURY RESULTING FROM SUCH PARTY"S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.

The Covered Software is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" (as that term is defined at 48 C.F.R. " 252.227-7014(a)(1)) and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR,
DFAR, or other clause or provision that addresses
Government rights in computer software under this License.

9. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the

extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction"s conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys"
fees and expenses. The
application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall
be deemed to constitute any admission
of liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each

Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

limitations under the License.

1.743 mail 1.6.2

1.743.1 Available under license :

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.1

1. Definitions.

1.1. "Contributor" means each individual or entity that creates or
contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original
Software, prior Modifications used by a Contributor (if any), and
the Modifications made by that particular Contributor.

1.3. "Covered Software" means (a) the Original Software, or (b)
Modifications, or (c) the combination of files containing Original
Software with files containing Modifications, in each case including
portions thereof.

1.4. "Executable" means the Covered Software in any form other than
Source Code.

1.5. "Initial Developer" means the individual or entity that first
makes Original Software available under this License.

1.6. "Larger Work" means a work which combines Covered Software or
portions thereof with code not governed by the terms of this License.

1.7. "License" means this document.

1.8. "Licensable" means having the right to grant, to the maximum
extent possible, whether at the time of the initial grant or
subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means the Source Code and Executable form of
any of the following:

A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications;

B. Any new file that contains any part of the Original Software or previous Modification; or

C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. "Original Software" means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. "Source Code" means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You
delete from the Original Software, or
(2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor
Version (or portions of such
combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third

party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients' rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or

liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient's rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works.

You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions.

Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available

under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License
if You: (a) rename the license and
remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED
HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as "Participant") alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly

infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

6.3. If You assert a patent infringement claim against Participant alleging that the Participant Software directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

6.4. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.

The Covered Software is a "commercial item," as that term is defined

in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" (as that term is defined at 48 C.F.R. 252.227-7014(a)(1)) and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer

software under this License.

9. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of
Goods is expressly excluded. Any law or
regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION

9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL)

The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

The GNU General Public License (GPL) Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor
Boston, MA 02110-1335
USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.
This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute

copies of such a program, whether gratis
or for a fee, you must give the recipients all the rights that you have.
You must make sure that they, too, receive or can get the source code.
And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and
(2) offer you this license which gives you legal permission to copy,
distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain
that everyone understands that there is no warranty for this free
software. If the software is modified by someone else and passed on, we
want its recipients to know that what they have is not the original, so
that any problems introduced by others will not reflect on the original
authors' reputations.

Finally, any free program is threatened constantly by software patents.
We wish to avoid the danger that redistributors of a free program will
individually obtain patent licenses, in effect making
the program
proprietary. To prevent this, we have made it clear that any patent must
be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and
modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a
notice placed by the copyright holder saying it may be distributed under
the terms of this General Public License. The "Program", below, refers
to any such program or work, and a "work based on the Program" means
either the Program or any derivative work under copyright law: that is
to say, a work containing the Program or a portion of it, either
verbatim or with modifications and/or translated into another language.
(Hereinafter, translation is included without limitation in the term
"modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not
covered by this
License; they are outside its scope. The act of running
the Program is not restricted, and the output from the Program is
covered only if its contents constitute a work based on the Program
(independent of having been made by running the Program). Whether that
is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source
code as you receive it, in any medium, provided that you conspicuously

and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise

to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works.
These actions are
prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License,
they do not
excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software
distribution system, which is implemented
by public license practices. Many people have made generous

contributions to the wide range of software distributed through that
system in reliance on consistent application of that system; it is up to
the author/donor to decide if he or she is willing to distribute
software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be
a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in
certain countries either by patents or by copyrighted interfaces, the
original copyright holder who places the Program under this License may
add an explicit geographical distribution limitation excluding those
countries, so that distribution is permitted only in or among countries
not thus excluded. In such case, this License incorporates the
limitation as if written in the body of this License.

9. The Free Software Foundation
may publish revised and/or new
versions of the General Public License from time to time. Such new
versions will be similar in spirit to the present version, but may
differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and
conditions either of that version or of any later version published by
the Free Software Foundation. If the Program does not specify a version
number of this License, you may choose any version ever published by the
Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the
author to ask for permission. For software which is copyrighted by the
Free Software Foundation, write to the Free Software Foundation; we
sometimes make exceptions for this. Our decision will be
guided by the
two goals of preserving the free status of all derivatives of our free
software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO
WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR
OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,
EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED
WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE
ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH

YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL
DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

One line to give the program's name and a brief
idea of what it does.
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this

when it starts in an interactive mode:

Gnomovision version
69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type
`show w'. This is free software, and you are welcome to redistribute
it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the
appropriate parts of the General Public License. Of course, the commands
you use may be called something other than `show w' and `show c'; they
could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
program `Gnomovision' (which makes passes at compilers) written by
James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your
program
into proprietary programs. If your program is a subroutine library, you
may consider it more useful to permit linking proprietary applications
with the library. If this is what you want to do, use the GNU Library
General Public License instead of this License.

#

Certain source files distributed by Oracle America, Inc. and/or its
affiliates are subject to the following clarification and special
exception to the GPLv2, based on the GNU Project exception for its
Classpath libraries, known as the GNU Classpath Exception, but only
where Oracle has expressly included in the particular source file's
header the words "Oracle designates this particular file as subject to
the "Classpath" exception as provided by Oracle in the LICENSE file
that accompanied this code."

You should also note that Oracle includes multiple, independent
programs in this software package. Some of those programs are provided
under licenses deemed incompatible with the GPLv2 by the Free Software
Foundation and
others. For example, the package includes programs
licensed under the Apache License, Version 2.0. Such programs are

licensed to you under their original licenses.

Oracle facilitates your further distribution of this package by adding
the Classpath Exception to the necessary parts of its GPLv2 code, which
permits you to use that code in combination with other independent
modules not licensed under the GPLv2. However, note that this would
not permit you to commingle code under an incompatible license with
Oracle's GPLv2 licensed code by, for example, cutting and pasting such
code into a file also containing Oracle's GPLv2 licensed code and then
distributing the result. Additionally, if you were to remove the
Classpath Exception from any of the files to which it applies and
distribute the result, you would likely be required to license some or
all of the other code in that distribution under the GPLv2 as well, and
since the GPLv2 is incompatible with the license terms of some items
included
in the distribution by Oracle, removing the Classpath
Exception could therefore effectively compromise your ability to
further distribute the package.

Proceed with caution and we recommend that you obtain the advice of a
lawyer skilled in open source matters before removing the Classpath
Exception or making modifications to this package which may
subsequently be redistributed and/or involve the use of third party
software.

CLASSPATH EXCEPTION
Linking this library statically or dynamically with other modules is
making a combined work based on this library. Thus, the terms and
conditions of the GNU General Public License version 2 cover the whole
combination.

As a special exception, the copyright holders of this library give you
permission to link this library with independent modules to produce an
executable, regardless of the license terms of these independent
modules, and to copy and distribute the resulting executable under
terms of your choice, provided that you also meet,
for each linked
independent module, the terms and conditions of the license of that
module. An independent module is a module which is not derived from or
based on this library. If you modify this library, you may extend this
exception to your version of the library, but you are not obligated to
do so. If you do not wish to do so, delete this exception statement
from your version.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including

the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or

Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the

origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier

identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work

(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work

or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

12-07-25 pathprobe.c: fix read() loop to handle EINTR
12-06-28 vmalloc/malloc.c: use sbrk() unless VMALLOC_OPTIONS=mmap or asoinit(0,0,0)!=0 (workaround until

next malloc update)
12-06-28 aso/aso.c: asoinit(0,0,0): 0: no specific init, 1: app initialized
12-06-27 sfio/sfvprintf.c: allow { L* z* } aliases for I* -- posix will probably pick one
12-06-26 regex/regnexec.c: fix uninitialized variable reference
12-06-26 comp/setlocale.c: utf8_wctomb() now calls (the corrrect) wc2utf8()
12-06-25 string/chresc.c: accept \u[U+<hex>] and \u{U+<hex>}
12-06-24 regex/regcomp.c: mb [^...] must be marked "complicated"
12-06-20 port/astconf.c: increase DEBUG_astconf error debug levels (may leach into rt output)
12-06-18 sfio/_sfopen.c: add 'e' => O_CLOEXEC
12-06-18 features/fcntl.c: add #define O_CLOEXEC 0 if not defined
12-06-13 features/float: handle __mips c99 peculiarities
12-06-13 features/standards: handle __MACH__ posix peculiarities
12-06-08
sfio/sfclose.c,sfmode.c: sfclose() for sfopopen() stream returns sh-compatible $?
12-06-08 comp/strtold.c: fix header botch that missed ldexpl() prototype -- ouch
12-06-06 misc/proclib.h: partially undo <ast_standards.h> for leaked ancient bsd-isms
12-05-31 misc/proclib.h: <ast_standards.h> for linux undefined struct mmsghdr*
12-05-31 error.h: add ERROR_PIPE(errno) to handle EPIPE and ECONNRESET
12-05-31 Makefile: don't install $(INCLUDEDIR)/prototyped.h: src/cmd/INIT does it
12-05-31 regcomp.c: add (?V...) ~(V...) REG_REGEXP switch
12-05-28 regex: regoff_t in => ssize_t via api 20120528
12-05-21 features/asometh: split intrinsic and method tests so code only instantiated in aso.c
12-05-21 comp/strdup.c: use oldof() since mem overwritten by string copy
12-05-18 misc/stk.c: fix access of moved realloc() data
12-05-15 misc/optget.c: #? option with no value should have opt_info.num==0
12-05-11 misc/stk.c: fix memmove() read of 1 uninitialized byte
12-05-11 regex/regcoll.c:
avoid memcpy() to self
12-05-01 port/astconf.c: fix astconflist() to list standard minmax value if defined
12-04-26 sfio/sftmp.c: fix memory leak due to inadvertent SF_STATIC copy
12-04-26 sfio/sfwrite.c: fix subtle memory leak (with Vmlast or Vmpool or freeBSD malloc)
12-04-26 vmalloc/vmbest.c: SIGSEGV overcommit check for __linux__ only
12-04-25 vmalloc: add _vmfd() for private close-on-exec fds
12-04-23 sfio_t.h: change getr to 32 bits to prepare for UTF-8 delimiters
12-04-23 features/signal.c: add SIGSTKFLT
12-04-17 regex/regcomp.c: fix (E:...) vs (E)... scoping
12-04-11 features/sys: add aix's _LARGE_FILE_API to the _LARGEFILE(64)?_SOURCE mix -- anyone else?
12-04-11 include/cmdarg.h,misc/cmdarg.c: (finally!) add a discipline with Cmdrun_f
12-03-28 vmalloc: int vs [s]size_t cleanup
12-03-27 sfio: fix #if logic that caused syntax errors (on 64 bit uwin)
12-03-10 misc/optget.c: HELP_index for "PLUGIN" too
12-02-29 include/shcmd.h: PLUGIN_VERSION 20111111 for cdt disc/meth change
12-02-29
comp/spawnveg.c: fix sigcritical() to include waitpid() for internal child
12-02-29 malloc.c: make __malloc_hook initialization thread safe
12-02-24 comp/iconv.c: fix winix UTF-8 vs UCS-2 over-conversion
12-02-24 astsa/*.h: clean up header guards
12-02-24 astsa/astsa.omk: clean up standalone old make makefile interactions

12-02-21 misc/cmdarg.c: fix bug that set argv[0]
12-02-10 sfvprintf.c: fix 1 byte too long buffer access
12-02-07 malloc.c/features/vmalloc: add gnu __malloc_hook tests
12-02-06 vmmopen.c: fix ALIGN vs sys/param.h macro conflict
12-02-02 astlicense.c: add license.component for component-specific licenses
12-01-31 spawnveg.c: fix transient bug that made invalid setpgid() call
12-01-27 pathpath.c: fix buffer size math when internal allocation requested
12-01-24 malloc.c: fix _vmkeep() bug that did not return previous state
12-01-23 malloc.c: add VMALLOC_OPTIONS=break to try sbrk() block allocator first
12-01-21 astlicense.c: option style only overrides default
license.type
12-01-18 malloc.c: disable multiple regions for tracing or !vmbest or ASO_SIGNAL
12-01-12 sfpkrd.c: add __sun I_PEEK+rsh runtime workaround
12-01-10 shcmd.h: void* => Shbltin_t*
12-01-10 tmxdate.c: handle { n>=1000 } TM_PARTS
11-12-21 plug up some memory links -- thanks mhlavink
11-12-21 vmprivate.c: enclose VM_NONMEM exception in CLRLOCK(vm,0) ... SETLOCK(vm,0)
11-12-13 aso: in -lposix for uwin, not -last -- just like vmalloc
11-12-13 sfpoll.c: all streams SF_IOINTR => don't ignore EINTR
11-12-13 sfdcslow.c: set SF_IOINTR
11-12-09 malloc.c: add _vmkeep() for setlocale() intercept _SYS_setlocale_free_OK
11-12-04 sfio: _Sfmaxr=0 (unlimited) by default; use ulimit -M|-d or SFIO_OPTIONS
11-12-01 aso: sync to new api
11-11-11 optget.c: move .TH to the top for --nroff to get our macros first
11-11-11 aso,cdt,vmalloc: resync with kpv
11-11-11 cdt: preserve bits and Dt_link_t for CDT_VERSION < 20111111
11-10-24 sfvprintf.c: %.-ns truncate from left to n chars
11-10-21 sfvprintf.c:
fix %0s (no width) core dump
11-10-10 aso: add _WIN32 support
11-09-26 vmalloc: sync with kpv
11-08-29 features/{dirent,wchar,wctype}: eliminate #include with no header
11-08-25 #pragma prototyped tweaks -- sun4 is dead, long live sun4
11-08-25 ftwalk.c: FTS_SLNONE => FTW_SL
11-08-11 features/wchar: fix #include _nxt_wchar for K&R C
11-08-04 optget.c: tweak --html rendering
11-07-24 mime.c: add %(default)[st] default if arg == ""
11-07-21 setlocale.c: fix debug locale to treat "<<" as two single byte chars
11-06-14 spawnveg.c: pgid -1: new session -2: setpgrp()&&tcsetpgid()
11-06-14 pathprog.c: add darwin _NSGetExecutablePath
11-05-14 features/common,features/align.c: { _X86_ _X64_ } conditionals for generic uwin
11-05-13 tm/tminit.c: tweak tzname[] prototype
11-05-09 astlicense.c: add ". file" parent-relative include and depth 4 input stack
11-05-05 cmdarg: update to cmdopen_20110505 api
11-05-03 sfio/sfclose.c: make sure close() errors propagate to sfclose() return value
11-04-20 port/astlicense.c:
add { id name } keys
11-04-15 fmtdev.c: fix to work for non-{blk,chr} special

11-04-12 stk: change size args to size_t and stseek() offset to ssize_t
11-04-12 sfio: sync with kpv to optimize large SF_STRING sfputr() buffer allocation
11-03-28 misc/fts.c: fix FTS_SLNONE logic to set it when it should!
11-03-17 misc/stk.c: fixed bug that could delete an active stack frame
11-03-10 sfio/sfvprintf.c: add %0<width>s to preserve <width> trailing chars in string arg
11-03-09 misc/magic.c: add %d...%s where if %d==1 then %s=="" else %s=="s"
11-03-09 misc/magic.tab: add windows ico
11-02-08 misc/stk.c: change STK_FSIZE to (1024*sizeof(char*)) for 64 bit normalization
11-02-02 sfio/sfmode.c: don't call sfsetbuf() on unbuffered stream to make it unbuffered
11-02-02 features/wchar: handle hp.ia64 va_list interactions
11-02-02 comp/omitted.c: fix mismatch between stat() vs _stat()
11-01-31 std/wctype,features/wctype: add to handle <wchar.h> interactions
11-01-28 add -lw for ancient
sunos
11-01-28 include/magic.h,misc/magic.c: add MAGIC_ALL
11-01-27 tm/tmxfmt.c,tmpoff.c: %_z for SHH:MM
11-01-25 features/wchar: change <wctype.h> <wchar.h> ordering
10-12-24 sfstrtof.h: fix thousand grouping bug that did not check last group
10-12-21 pathkey.c: add win32 { /32 /64 } preroot to hash
10-12-09 pathprog.c: handle intermediate path != '* and fix invalid pathpath() call
10-12-01 astconf.c: fix look.standard undefined variable reference
10-12-01 sfset.c: SF_LINE|SF_WCWIDTH => no need for sfsetbuf() to call isatty()
10-12-01 sfsetbuf.c: cache /dev/null <dev,ino> to cut down /dev/null stat()'s
10-12-01 optget.c: delay dictionary initialization until needed
10-11-30 malloc.c: drop { VMDEBUG VMETHOD VMPROFILE VMTRACE } env checks
10-11-30 port/astconf.c: eliminate esaccess() calls for OP_universe checks
10-11-24 regcomp.c: [[=]=]] must at least match itself in non-C locales
10-11-23 glob.h,glob.c: add GLOB_GROUP => REG_SHELL_GROUP
10-11-20 glob.c: handle mode switches across
/
10-11-19 regcomp.c: REG_SHELL => REG_CLASS_ESCAPE
10-11-16 vmalloc.h: add VMFL tracing to vmstrdup()
10-11-16 ast.h: simplify VMDEBUG _BLD_DEBUG and VMFL logic
10-11-12 tm/tmlocale.c: ast TM_* extensions default to C locale
10-11-10 regex/regnexec.c,vmalloc/vmstat.c: eliminate strict-aliasing puns
10-10-20 misc/translate.c: change debug translation to drop " in (a,b,c,"d")
10-10-10 misc/glob.c: drop ancient D_FILENO(d)!=0 test and trust readdir()
10-10-06 misc/translate.c: fix "debug" locale logic
10-10-04 misc/magic.c: fix magic() skip check to honor the continuation
10-10-04 regex/regcoll.c: add wchar_t* args to regcollate(), drop ucs name lookup
10-09-28 comp/setlocale.c: add utf8_wctomb()
10-09-28 string/chresc.c,regex/regcoll.c: fix \S[.X.] (\C[.X.] never worked!)
10-09-24 string/chresc.c: \Cc for control c, \S[.X.] for collating symbol X
10-09-24 string/chresc.c: { \cc \e } deprecated
10-09-22 regex/regcomp.c: fix off-by-one collation class allocation bug
10-09-20 regex/regclass.c:
fix CTYPES off-by-one bug
10-09-14 comp/conf.sh: const int conf_elements, prefix_elements;

10-09-08 add features/sizeof => ast_sizeof.h
10-08-31 comp/getopt[l].c: export functions for dlls
10-08-25 port/lc.c: add features/locale check for canonical UTF-8 spelling
10-08-20 include/ast.h: add export plugin_version() prototype
10-08-20 comp/conf.tab: add SF_BUFSIZE
10-08-11 misc/conformance.c: conformance(0,0) => "standard"
10-08-11 misc/conformance.c: check ast_env_serial for dynamic astconf() changes
10-08-11 port/lcgen.c: remember to fudge Table_t.count for synthesized entries
10-08-04 include/ast.h,comp/setlocale.c: add { debug C.UTF-8 } mbalpha() mbwidth()
10-08-02 misc/translate.c: add NLSPATH message cache check
10-07-29 string/fmtint.c: fix nasty bug that rendered "1000" as "1"
10-07-27 setlocale,lsgen,localeconv: handle C vs C_EU decimal thousands sep
10-07-26 misc/optget.c: fix interaction with nested plugin/builtin calls
10-06-29 string/strtoi.h: strton() multiplier 1 =>
power of two suffix
10-06-28 features/wchar: handle systems that require __va_list => va_list
10-06-28 comp/conf.tab: another PID_MAX tweak -- default to 99999 for most
10-06-28 port/astconf.c: lone "CONFORMANCE = standard" => all defaults standard
10-06-25 misc/optget.c: avoid sfprints() call during initialization
10-06-01 features/api, ast_api.h: formalized forwards/backwards api compatibility
10-06-01 _AST_API=20100601: add size_t args for all path*() output buffers
10-06-01 comp/setlocale.c: handle C.UTF-8 test locale
10-06-01 include/mc.h: add size_t to mcfind() for result buffer (internal api)
10-06-01 use strlcpy() instead of strncpy()
10-05-28 include/ast_version.h: add AST_PLUGIN_VERSION for dllplugin()
10-05-28 include/shcmd.h: add SH_PLUGIN_VERSION for dllplugin()
10-05-28 misc/conformance.c: add conformance(3)
10-05-28 misc/optget.c: add [(id1|id2)...] conformance("id1|id2",0) conditionals
10-05-25 include/sfhdr.h: adjust SF_NMAP according to _ptr_bits
10-05-25 include/shcmd.h:
add sh_builtin() macro for lib_init() table initialization
10-05-21 misc/optget.c: --html \bfoo::bar([[:digit:]][[:upper:]]*) => foo-bar.html
10-05-15 include/proc.h,misc/procopen.c: add PROC_ORPHAN
10-05-09 misc/optget.c: add --???MAN[section] --???SECTION
10-05-07 sfio,stdio: fix all snprintf() variants to handle buf==0 and/or n==0
10-05-04 string/fmtesc.c: add mb iswsoace() and iswcntrl() quoting checks
10-05-03 fix LC_MESSAGES catalog lookup bugs, check for $set==3, accept $set==1
10-04-30 string/chresc.c: add chrexp() for FMT_EXP_*
10-04-30 string/stresc.c: add strexp() for FMT_EXP_*
10-04-30 string/chresc.c: fix \uXXXXY bug that consumed Y
10-04-22 misc/optget.c: check for html entities in <A name="...">
10-04-22 misc/getcwd.c: add features/syscall check for SYSGETCWD() { linux solaris }
10-04-22 string/stresc.c: wide chars absent locale guidance default to UTF-8
10-04-12 port/mnt.c: favor bsd getfsstat() over getmntinfo()
10-04-11 string/strtoi.h: k (1000) and ki (1024) now
differentiated
10-04-10 misc/recstr.c: fix 'd[delimiter]' parse
10-04-08 include/vmalloc.h,vmalloc/vmstat.c: add Vmstat_t.mode region mode bits

10-04-05 misc/fts.c: drop 1997-01-07 fts_open()=0 is one file and stat() fails
10-04-05 misc/optget.c,optlib.h: add Optpass_t.release for --nroff .TH
10-04-02 misc/optget.c: fix $'[-n?\n...]' --version bug
10-04-02 regex/regcomp.c: ~(X) => REG_EXTENDED|REG_AUGMENTED, ~(PU) instead of ~(U)
10-03-24 misc/procopen.c: add PROC_FD_CTTY(fd)
10-03-24 path/pathtemp.c: fix pointer => int casts
10-03-15 regex/regcache.c: fix 1 byte buffer overflow (didn't count trailing \0)
10-03-08 features/tvlib: fix utimensat probe to include all macros/structs
10-03-07 features/lib: change stream_peek to test pipes only
10-03-07 string/strelapsed.c: fix next char return overrun
10-03-06 tm/tvtouch.c: use runtime fallback if utimensat() fails with ENOSYS
10-03-05 path/pathtemp.c: add pfx /seed for regression testing
10-03-04 vmalloc/vmwalk.c: add user supplied handle
arg
10-03-04 path/pathtemp.c: properly handle mktemp()-style *+(X) templates
10-03-03 include/ast_getopt.h: remove NULL guard - _AST_GETOPT_H now handles it
10-02-24 comp/getopt.h: fix ast_std.h interactions
10-02-24 vmalloc/malloc.c: empty { VMALLOC_OPTION VMDEBUG ... } => no debug!
10-02-02 string/base64.c: fix corner case output buffer overflow
10-02-02 features/fs: sys/mnttab.h requires stdio.h on some systems!!
10-02-01 misc/optget.c: uppercase --html heading -- doh
10-01-29 misc/optget.c: [+NAME?...] overrides error_info.id for >= STYLE_man
10-01-25 vmalloc/vmprivate.c: fix seg ptr initialization bug (24 years old!!)
10-01-20 misc/optget.c: handle nested {...} rendering
10-01-20 misc/state.c: add ast.version for runtime api version
10-01-20 port/astconf.c: "_AST_VERSION" now returns ast.version
10-01-20 include/ast_std.h: add ast.version for runtime api version
10-01-19 astlicense.c: add epl
10-01-01 vmalloc: VMALLOC_OPTIONS env var for all runtime options
10-01-01 include: change
some <ast.h> refs to less intrusive <ast_*.h>
10-01-01 setlocale.c,translate.c,fmterror.c: AST_LC_internal retains prev state
10-01-01 comp/setlocale.c: AST_LC_setenv defers to LC_ALL (for sh)
10-01-01 ast_std.h: add { AST_LC_internal AST_LC_setenv }
09-12-24 comp/setlocale.c: fix setlocale(LC_ALL,"") when already initialized
09-12-17 misc/optget.c: handle mixed solaris usage="x:f:(in)yo:(out)"
09-12-11 regex/regcomp.c: posix semantics for [z-a]
09-12-11 regex/regcomp.c: fix BRE/ERE ^^ logic
09-12-11 regex/regcomp.c: fix regcomb() for REG_LEFT|REG_RIGHT
09-12-11 regex/regcomp.c: bm complete=0 if REX_END
09-12-11 comp/sigflag.c: add with npt check in features/sig.sh
09-12-11 tm/tminit.c: fix _tzset_environ logic
09-12-09 tm/tmlocale.c: include "ast_nl_types.h" to pull nl_langinfo in!
09-12-04 features/options: add "opt map-libc" check
09-12-03 tm/tmxdate.c: fix 'next month final day' for dec -> jan
09-11-21 misc/magic.tab: add gimp XCF
09-11-20 vmalloc/vmtrace.c: add pid to assertion

disgnostics
09-11-11 regex.h,regcomp.c: add REG_CLASS_ESCAPE, \ inside [...] literal by default
09-11-03 regex/regcache.c: change to variable length pattern strings
09-10-28 include/error.h: fix ERROR_translate() arg parens
09-10-26 port/lcgen.c,comp/setlocale.c: handle LANG init after LC_* already defined
09-10-05 _sfopen.c: add but ignore 'F' flags for stdio compatibility
09-09-28 fts.h,ftwalk.h,fts.c: promote { namelen pathlen level } to (s)size_t
09-09-28 locales: add AST_LC_LANG for $LANG
09-09-28 setlocale.c: fix logic for dynamic { LANG LC_ALL LC_* } changes
09-09-17 include/sfio.h,sfio/sfwalk.c: add sfwalk()
09-09-09 sfio/sfputr.c: add SIGPIPE hang fix
09-08-24 sfio/sfreserve.c: fix SF_UNBOUND logic with pushed streams
09-08-18 include/ast_std.h,ast.h: add ast.mb_sync to sync mbchar() after error
09-08-17 comp/setlocale.c: add AST_LC_utf8 and { utf8_mbtowc() utf8_mblen() }
09-08-11 comp/setlocale.c: treat "en"/"en_US" AST_LC_MESSAGES as "C"/"POSIX"
09-08-10 vmalloc/vmhdr.h: add
user-defined _AST_PAGESIZE and computed VMHEAPINCR
09-08-09 comp/conf.tab: add NPROCESSORS_MAX
09-07-29 astlicense.c: fix first name=value logic error
09-07-22 string/fmtip6.c: don't drop trailing 0 in 44::1:0:0
09-06-30 port/astconf.c: standard PATH_RESOLVE is "physical" (not "metaphysical")
09-06-19 vmalloc: sync with kpv
09-06-19 include/shcmd.h: add sh_context(p) cast
09-06-11 misc/magic.tab: differentiate pc 386 32/64 bit dll/exe/obj
09-06-06 port/astconf.c: fix look->name null pointer reference
09-06-05 port/astconf.c: fix 'UNIVERSE = value' synthesize logic
09-05-25 tm/tmxduration.c: add
09-05-08 comp/syslog.c: add _UWIN /var/log/syslog preference
09-05-01 comp/setlocale.c: fix _UWIN intercepts to return NiL on unknown locales
09-04-27 sfio/sfpool.c: fix bug that did not return pool on delete
09-04-22 include/regex.h,regex/regcomp.c: add REG_REGEXP <regexp.h> compatibility
09-04-15 tm/tmxdate.c: handle "4th thursday in november"
09-03-31 string/strvcmp.c,string/strnvcmp.c: add
version strcmp(3)
09-03-31 string/strpcmp.c,string/strnpcmp.c: add path prefix strcmp(3)
09-03-29 misc/optget.c: clean up num = number casts
09-03-04 tm/tmxmake.c: add tmxtm() with zone override
09-03-03 tm/tmxfmt.c: add %(...)<c>, specifically %(...)z for output zone
09-02-22 tm/tmxdate.c: add iso P... durations
09-02-02 path/pathprog.c: add
09-02-02 misc/opthdr.h,optget.c: fix flags mixup, handle old '-' as option
09-02-02 sfio/sfprints.c: fix sfvaprints() return value to not count trailing '\0'
09-02-02 misc/cmdarg.c: handle !defined(ARG_MAX)
09-02-02 port/astconf.c: fix UNIVERSE overwrite of null[] value!
09-01-31 features/sys: drop header sys/localedef.h
09-01-28 include/fs3d.h,misc/fs3d.c: mount() => fs3d_mount() for diff std prototypes
09-01-14 misc/fts_open.c: delay top list reorder until first fts_read()
09-01-14 include/ls.h: LS_W_INUMBER => 9 to accomodate large st_ino

09-01-14 misc/optget.c: expand STYLE_usage input text
09-01-09 features/uwin,stdio/_stdfun.c: iffe for _p__iob
and __p__iob
09-01-09 misc/magic.tab: add ISO filesystem image entries
09-01-07 string/strtoi.c: strtol() etc. do not consume [lLuU] suffix -- thanks jkf
09-01-07 sfio/sfstrtof.h: strtod() etc. do not consume [fFlL] suffix -- thanks jkf
09-01-05 string/strlcat.c: fix logic to match docs (not that easy)
08-12-30 tm/tmxdate.c,include/tm.h: add TM_WORK { "workday" "working" "work" }
08-12-28 sfio/sfcvt.c: fix 'a' format rounding
08-12-21 tm/tmdata.c: add 2008-12-31+23:59:60-0000 leap second event
08-12-19 tm/tmxdate.c: check for dates near the epoch rolling back to the future
08-12-19 tm/tmxfmt.c: change %s for now==0 to be the epoch
08-12-07 include/ast_std.h,misc/getenv.c: no _ast_getenv for uwin ast54 compatibility
08-12-07 tm/tmxfmt.c: add %[_][EO]K for [space pad] [full|long] iso
08-12-07 sfio/sfvscanf.c: fix ok[] short by one allocation
08-12-07 comp/setlocale.c: fix off by one composite initialition loop test
08-12-07 path/pathkey.c: fix off by one loop test
08-12-04 vmalloc/vmbest.c:
catch sbrk() wraparound
08-12-04 comp/spawnveg.c: clean up attrs on failure too
08-11-04 regex/regcomp.c: fix locale [!-...] and [^-...] re-initialization
08-11-04 stdio: add flockfile.c ftrylockfile.c funlockfile.c
08-10-24 port/astconf.c: handle multiple/trailing '/' in universe initialization
08-09-10 misc/magic.c: handle old vcodex() indices
08-09-10 sfio/sfvprintf.c: drop SF_WCWIDTH, use %Lc or %Ls instead
08-09-05 Makefile: ibm.risc joins the :NOOPTIMIZE: crowd
08-09-04 regex/regnexec.c: fix nested delimiter match beyond end of subject
08-08-20 misc/fts.c: fix st_nlink stat() optimization logic
08-08-19 sfio/sfpkrd.c: workaround macosx recv(PEEK) data consumption on non-socket
08-08-19 strn?tol?d: handle long double with smaller exponent range than double
08-08-18 sfio/sfcvt.c: eliminate excessive multiplies and integral overprecision
08-08-11 tm/tmxfmt.c: handle %10N and %010N
08-08-06 include/shcmd.h: add 'int invariant;' for builtin invariant arg count
08-08-05 features/ndbm:
favor sleepycat ndbm compatibility
08-07-21 include/glob.h,misc/glob.c: GLOB_STARSTAR only forces lstat on chdir
08-07-17 sfio: sync with kpv
08-07-17 misc/optget.c: call astwinsize() each time terminal width required
08-07-16 sfio/sfvscanf.c: fix %% to skip leading space per posix
08-07-16 vmalloc/vmbest.c: add VMCHECK=m, VM_mmap to favor mmap() alloc
08-07-16 features/stdio,stdio/f(read|write).c: size_t return value!! ouch
08-06-24 tm/tmxfmt.c: fix %z to handle tm_isdst -- doh
08-06-24 misc/astintercept.c,misc/getenv.c: split from misc/setenviron.c
08-06-17 misc/setenviron.c: add { astintercept() getenv() }
08-06-09 tm/tmlocale.c: use _DATE_FMT if defined for TM_DEFAULT
08-06-06 misc/optget.c: handle sub-component about details
08-06-04 misc/optget.c: fix [-n?\n...\n] version parse
08-06-04 include/debug.h,misc/debug.c: merge with kpvdebug.h

08-06-02 features/ndbm: add to tame dbmlib.iffe replication
08-06-01 comp/resolvepath.c,realpath.c: fix resolvepath() return value type
08-05-22
tm/tmxdate.c: fix a few ordinal/last/this/next bugs
08-05-18 string/fmtre.c: fix omitted stack var initialization bug
08-05-14 regex/regcomp.c,regcoll.c: fix UTF-8 collation sequence logic
08-05-11 tm/tmxfmt.c: :NOOPTIMIZE:, otherwise %Q/../../ fails
08-05-01 tm/tmxdate.c: mon 1..12 => mon[13] -- doh
08-04-30 misc/glob.c,reegex/regcomp.c: ~(R) => ~(O) to avoid pcre clash
08-04-24 port/astconf.c: 'name = value' does assignment without system init
08-04-15 port/astconf.c: SC#N treated like 'SC(N)'
08-04-14 misc/optget.c: clean up nroff output
08-04-01 port/astconf.c: add RELEASE => /proc/version fallback
08-03-30 misc/optget.c: [-n]... to enable -number & +number options
08-03-06 misc/optget.c: ---* and +++* are now operands
08-03-06 misc/errorx.c: fix old error_info.translate workaround
08-02-05 regex/regcomp.c: allow REG_SHELL {,n}... => {0,n}...
08-02-27 misc/stk.c: top element during allocation relocated to top
08-02-18 include/ip6.h,string/strtoip6.c,fmtip6.c: add ipv6 addr
support
08-02-14 regex/regsubexec.c: fix null match (tricky)
08-02-14 regex/regsubcomp.c: fix SRE to match ksh
08-02-11 comp/spawnveg.c: return proper errno on [v]fork() failure
08-02-11 tm/tmxdate.c,tmdata.c: handle more ISO 8601:2000 forms
08-02-02 regex/reglib.h: add REGMULTIREF to REG_COMP
08-02-02 string/strmatch.c: fix str="" pat="" sub values
08-01-31 comp/conf.sh,conf.tab: handle /bin/sh \ in read data, redir subshell
08-01-18 misc/magic.tab: amd-x68, 64-bit => x86-64
08-01-18 string/strnton.c,strntonll.c: add
07-12-10 string/strelapsed.c: "0" is a valid elapsed time!
07-12-02 sfio/sfreserve.c: preserve SF_SHARE sfrd() via sfreserve(f,0,0)
07-11-21 comp/setlocale.c: add sjis_mbtowc() to work around [\~] translation
07-11-15 features/signal.c: RT(1) .. RT(MAX-1) => RTMIN+1 .. RTMAX-1
07-11-14 features/float: favor sscanf() due to gnu strto[l]d() nan bugs
07-10-31 regex/regcomp.c: fix REX_COLL_CLASS node allocation size
07-10-31 sfio/sfcvt.c: use signbit() if available
07-10-31
features/isoc99: _ISOC99_SOURCE tests
07-10-31 port/astmath.c: add -DN=8 for signbit()
07-10-31 sfio/sfstrtod.h: don't forget about -0.0
07-10-26 features/map.c: add { optopt optarg optind opterr }
07-10-26 features/stdio: add _filbuf => _ast__filbuf
07-10-26 comp/getsubopt.c: fix #undef that interfered with <ast_map.h>
07-10-26 regex/regcomp.c: fix bug that missed ')' in ~(F)...
07-10-12 port/astconf.c: fix CONF_ALLOC 16 bit overflow
07-10-12 misc/fts.c: fix fts_close() to free the handle -- doh
07-10-11 comp/setlocale.c: second and subsequent setlocale(*,"") reverts to previous
07-10-11 path/pathprobe.c: add vfs ST_NOSUID check

07-10-10 comp/conf.tab: add a few more xpg6 deferrals
07-09-28 astsa: update to share with mainline src via _PACKAGE_astsa
07-09-25 sfio/sfgetr.c: no limit on string stream line size
07-09-25 sfio/sfextern.c: increase _Sfmaxr to 256*1024
07-09-18 misc/procopen.c: tighten up SIGCHLD logic between parent/child
07-09-18 misc/signal.c: unblock SIG_DFL after setting
handler, sig<0 => don't unblock
07-09-13 misc/fs3d.c: no $LD_PRELOAD => no 3d and avoids invalid mount(2) call
07-09-11 vmalloc: vmstat(0,0)==1 => region in use, drop VM_primary|VM_secondary
07-09-05 misc/recstr.c: handle [lL] gobbled by strtol() -- ouch
07-08-17 path/pathprobe.c: handle '\r' in VERSION string
07-07-17 regex/regcache.c: regcache(0,n,0) extends cache to size n (no shrinking)
07-07-16 tm/tmdata.c: add 2005-12-31, drop 1999-12-31 (where did that come from?)
07-05-21 tm/tmxfmt.c,tmxscan.c: %F => %L (TM_DEFAULT); %F => %Y-%m-%d
07-05-15 sfio/sfvprintf.c: %h? and SFFMT_SHORT => raw bytes
07-05-09 features/signal.c,features/siglist: use kill -l & strsignal()
07-04-25 misc/optctx.c: add for opt_info switching
07-04-24 misc/cmdarg.c,include/cmdarg.h: add CMD_CHECKED, CMD_SILENT
07-04-24 misc/procopen.c,include/proc.h: add PROC_CHECK
07-04-24 misc/procrun.c: add flags arg (current use PROC_ARGMOD)
07-04-24 misc/cmdarg.c,include/cmdarg.h: move from src/cmd/tw
07-04-20 port/(lclang.h|lc.c|mc.c|lclib.h|lcgen.c):
separate lctab.c
07-04-20 comp/conf.sh: defer to systems without 'grep -q' -- sigh
07-04-20 comp/conf.sh: probe for LL integer constant initializer suffix
07-04-20 include/syslog.h: <namval.h> => <ast_namval.h> for win32
07-04-20 ast_namval.h: add as copy of include/namval.h for win32
07-04-19 comp/conf.tab: fix SVID SI entries to probe SI_* (not _SI_*)
07-04-13 tm/tmxdate.c,tm/tmzone.c: handle [-+]0000 UTC zone offset
07-04-11 sfio/sfvprintf.c: add %F, propagate SFFMT_UPPER
07-04-11 sfio/sfcvt.c: handle SFFMT_UPPER => nan/inf vs. NAN/INF
07-04-02 comp/conf.tab,comp/conf.sh: add C/POSIX <stdint.h> symbols
07-03-28 misc/optget.c: fix l10n --?-
07-03-25 features/common: fix { ast_std.h ast_map.h stdint.h } logic
07-03-21 error.h: move from error_info to (*_error_data_)
07-03-21 misc/error.c: add errorctx() for error_info switching
07-03-21 option.h: move from opt_info to (*_opt_data_)
07-03-19 regex/regdecomp.c: fix REX_ONECHAR escapes and add REX_KMP
07-03-11
tm/tmxscan.c,regex/regnexec.c: fix strict-alias transgressions
07-02-27 comp/conf.sh: handle native getconf invalid numeric values
07-02-21 comp/conf.sh,comp/conf.tab: handle SSIZE_MAX vs _POSIX_SSIZE_MAX
07-02-20 sfio/sfvprintf.c: handle SF_WCWIDTH justification
07-02-14 features/common: cover <stdint.h>, move to int_(bits)_t
07-02-14 include/int.h: drop
07-02-14 include/sfio.h: add SF_WCWIDTH
07-02-12 comp/conf.sh: fix CONF_LIMIT bug that missed ULONG_MAX etc.
07-02-12 comp/conf.tab: *LONGLONG* => *LLONG* to match posix

07-02-12 features/float: *LONGLONG* => *LLONG* to match posix
07-02-12 port/astconf.c: handle CONF_LIMITS_DEF with no deferral
07-02-12 stdio/vasprintf.c: add trailing '\0' -- doh
07-02-04 string/fmtelapsed.c: fix naive multi month/year logic
07-02-02 misc/optget.c: add --??posix for getopts(1)/getopt(3)
07-01-26 string/chresc.c: use mbchar()
07-01-26 misc/optget.c: handle "o:-:" usage for old-style long options
07-01-22 sfio/sfdisc.c,sfpool.c: handle push on
streams with pending peek
07-01-22 include/sfio.h: mv Sfieee_t to sfio/sfhdr.h
07-01-17 tm/tmxfmt.c: fix terminating nil logic which clobbered size-1
07-01-11 misc/stk.c: a 2 day marathon bug fix (can we release now dr ek?)
07-01-05 comp/spawnveg.c: posix_spawnattr_setflags(POSIX_SPAWN_SETPGROUP)
07-01-05 misc/error.c: fix multibyte vs. printable logic
07-01-01 comp/conf.sh: LC_ALL=C
06-12-26 tm/tmxdate.c: handle nn*.nnnn* == sec.ns
06-12-20 features/libpath.sh: generalize sol.* LIBPATH patterns
06-12-18 comp/setlocale.c: include ast_standards.h and ast_wchar.h !
06-12-12 string/strperm.c: octal modes are absolute!
06-12-11 comp/conf.tab: always defer ARG_MAX
06-12-07 Makefile: fix conftab.c generation CCFLAGS to match build - doh
06-12-04 sfio/sfcvt.c: fix (int) vs. (long) cast mismatches
06-12-01 comp/conf.tab: add changes to cover solaris { bin xpg4 xpg6 }
06-12-01 regex/reginit.c: adjust { SRE KRE } escaped (){}*? inside [...]
06-12-01 sfio/sfcvt.c: add signbit/copysign tests
06-11-22
comp/spawnveg.c: fix _real_vfork logic to work with 3d
06-11-20 features/common: bias _ast_int8_t "long long" before "__int64"
06-11-20 string/strperm.c: fix X to work with all ops (not just +)
06-11-15 astconf.c,conf.tab: add CONF_DEFER_* for variable constants
06-11-11 port/astconf.c: validate path arg w.r.t. underlying calls
06-11-11 comp/conf.sh: fix S CONF_STANDARD bug, add D to defer to native
06-11-11 comp/conf.tab: add D to defer to native
06-11-01 include/vmalloc.h: avoid VM_FLAGS sys/v*.h clash
06-11-01 include/ast.h: add FMT_PARAM for fmtquote()
06-10-31 disc/sfdcseekable.c: add SFSK_DISCARD for seekable window control
06-10-31 comp/spawnveg.c,features/lib: handle posix_spawn exit status 127
06-10-30 features/lib: fix posix_spawn() fork() prototype conflicts
06-10-30 string/fmtscale.c: fix 1024 rounding bugs
06-10-27 disc/sfkeyprintf.c: handle 'i' (=='d') -- oops
06-10-26 sfio/sfvprintf.c: %#d => fmtscale(1000), %#i => fmtscale(1024)
06-10-26 features/map.c: _map_libc cleanup
06-10-26
features/fcntl: add to the circle of trust
06-10-26 features/sys: add <sys/socket.h> socklen_t
06-10-26 include/regex.h: handle include before <ast_map.h>
06-10-25 astconf "SHELL" => "SH" to avoid _POSIX_SHELL conflict
06-10-25 comp/conf.*: drop no-op duplicate conftab.c entries

06-10-18 string/fmtscale.c: 1000: n[.]n[n](kMGTPE), 1024: n[.]n[n](KMGTPE)i
06-10-11 ast_std.h: now implies <sys/stat.h> (did on most before anyway)
06-10-11 strtoi.h: ignore sign for 0, validate scale shift
06-10-11 strdup.c,vmstrdup.c: handle 0 arg
06-10-11 add sfstruse()/sfstropen() error checks
06-10-10 misc/procopen.c: envv==environ => don't modify environ
06-10-10 misc/procclose.c: return valid exit(1) status
06-10-06 port/astconf.c,comp/conf.sh,comp/conf.tab: play nice with getconf(1)
06-10-01 comp/conf.tab: SHELL default checks { _CS_PATH } X { ksh ksh93 sh }
06-10-01 comp/conf.sh: export CONF_getconf to shell actions
06-10-01 comp/putenv.c: always enable setenv() for procopen()
06-10-01
 misc/procopen.c: use pathshell() or astconf("SHELL",0,0) if PARANOID
06-10-01 path/pathshell.c: localize the shell path patterns and accept ksh93
06-09-28 Makefile: avoid ast <stdio.h> vix iffe -X ast -- doh
06-09-27 regex/regdecomp.c: add
06-09-26 regex/regcomp.c: handle KRE ~(...)<invalid-kre>
06-09-25 reorganize to avoid native header intercepts
06-09-15 uwin/crypt.c: _UWIN only!
06-09-14 Makefile: tweak the ast_common.h bootstrap again (finally?)
06-09-14 misc/optget.c: noncommercial => OPT_proprietary
06-09-12 string/strelapsed.c: fix multi-char qualifier parse
06-09-12 string/strtoi.h: drop [cClLqQwW] multipliers
06-09-11 misc/optget.c: add numeric arg validity check
06-09-07 misc/optget.c,tm/tmfix.c: fix uninitialzed var refs
06-09-05 path/pathprobe.c: add version header verification
06-08-01 Makefile: handle iffe vs FEATURE/common vs ast_common.h
06-08-31 Makefile: add ast_map.h to the bootstrap list
06-08-30 misc/glob.c: fix ~(E)re bug that stripped ~(E) before regcomp
06-08-30
 include/ast.h: add { integralof(x) pointerof(x) }
06-08-27 string/strelapsed.c: fix off-by-one (too little) parse bug
06-08-25 misc/optget.c: 0*<n>.* numeric option args => <n>.*
06-08-22 misc/glob.c: handle ~(...) pattern options
06-08-16 string/strelapsed.c: fix off-by-one (too far) parse bug
06-08-16 regex/regcomp.c: accept but ignore ~(N)
06-08-14 features/libpath.sh: add solaris LD_LIBRARY_PATH_64 check
06-08-05 sfio/sfpool.c: pool SF_READ|SF_WRITE loop fix
06-08-02 misc/fts.c: fix FTS_NOSTAT optimization to check for ..
06-07-28 include/glob.h: add gl_extra for user globlist_t expansion
06-07-27 features/common: #include "ast_map.h"
06-07-26 comp/fnmatch.[ch]: allow <ast_map.h> to map fnmatch()
06-07-22 cdt: snarf from kpv
06-07-17 string/strperm.c: perm==-1 skips umask(1)
06-07-17 sfio/sfvprintf.c: handle format invalid mb seq
06-07-17 regex/regcomp.c: inline REG_SHELL => anchored, otherwise not
06-07-17 regex/regcomp.c: inline B|G:basic E:REG_EXTENDED F|L:REG_LITERAL
06-07-17

regex/regcomp.c: inline l:REG_LEFT r:REG_RIGHT
06-07-17 regex/regcomp.c: inline a:REG_LEFT|REG_RIGHT p:~REG_LENIENT
06-07-17 string/chresc.c: add \Uxxxxxxxx
06-07-17 sfio/sfstrtof.h: ignore thousands sep after decimal
06-07-17 string/tokline.c: splice() => spliceline() for bsd
06-06-27 features/float,sfio/sfcvt.c: fix Nan logic
06-06-27 port/astmath.c: fix long double isnan() test
06-06-27 features/map.c: _map_libc for std => _ast_std
06-06-25 string/strperm.c: handle posix = w.r.t. umask
06-06-19 port/mnt.c,features/fs: handle netbsd getmntent api change
06-06-18 regex/regstat.c: add REG_LITERAL check
06-06-11 cdt/dtview.c: update from kpv
06-05-31 sfio/sfhdr.h: fix _SFOPEN() typo
06-05-09 comp/conf.sh: add native getconf -a names to the mix
06-04-28 misc/optget.c: add solaris long option name compatibility
06-03-09 string/strmatch.c: add REG_ADVANCE => REG_* flags
06-02-14 comp/iconv.c: fix uwin iconv_list() /reg/ generator
06-02-10 port/astconf.c: relax standard prefix filter
06-02-08
sfrd.c,sfsync.c: lock logic bug fix
06-02-01 port/astlicense.c: add { parent incorporation }
06-01-26 port/astconf.c: fix { LIBPREFIX LIBSUFFIX } length
06-01-06 features/lib: change _UNIV_DEFAULT probe to use cross{...}
06-01-04 misc/stk.c: fix n**2 realloc behavior
06-01-01 include/sfio.h: export { _Sfi _Sfmaxr }
05-12-13 string/chresc.c: handle \C-X => control-X, \M- => ESC
05-11-22 regex/regcache.c: add, convert string/strmatch.c to regcache()
05-10-06 string/ccmap.c: update ebcdic-u to be idempotent
05-09-28 vmalloc: snarf from kpv; fixes large block brk() thrashing
05-09-26 misc/magic.c,misc/magic.tab: handle latest vcodex header
05-09-12 misc/optget.c: reset opt_info.offset on error
string/strtoi.h: strton() '.' multiplier only if m>1
string/fmtesc.c: add unadvertized FMT_PARM for FMT_SHELL
05-09-09 string/fmtesc.c: fix FMT_SHELL logic w.r.t. [$`]
05-08-11 string/strerror.c: fix { sys_errlist sys_nerr } prototypes
05-08-03 sfio: snarf sfvaprints sfaprints
05-07-21 port/astconf.c:
retain most recent synthesized lookup
05-07-20 sfio/sfsetbuf.c: default file io size now 64K on all systems
05-07-17 ccmap*: add microfocus cobol EBCDIC_U
05-06-29 regex/regcomp.c: fix the A & B inline flag logic
05-06-15 include/recfmt.h: add fs format flag to fmtrec()
05-06-14 error.c: add ERROR_OPTIONS { break count match }
05-06-07 features/stdio: drop FEATURE/limits to fix bootstrap circular dep
05-06-02 features/*,Makefile: drop vestigel iffeio.h bootstrap workaround
05-05-31 string/fmtbuf.c: unlock (spin) before each return -- doh
05-05-30 sfio/sfpkrd.c: work around macos 10.4 recv(MSG_PEEK) bug
05-05-27 regex: add REX_NEST (?%[S.][T.][OT])

magic.tab: ammend bsd db magic
05-05-23 regex: REX_NEST (?%[D.][E.][L.][Q.][oc]...)
05-05-21 regex: state.fold[] is now locale specific -- doh
05-05-19 regex: add REX_NEST (?%\\()<>[]""...) %(...) nested match
05-05-15 recfmt.h: add recstr() reclen() fmtrec()
05-05-13 optget.c: allow boolean options to take numeric values
05-05-12
recfmt.c: add to recfmt.h, adjust Recfmt_t encodings
05-04-30 sfio: add sfmaxr(), default 64K
05-04-22 comp/omitted.c: fix magic() logic for files < 512 bytes
05-04-20 cdt: snarf update from kpv; void* Dt_t.user added
misc/error.c: library => ERROR_LIBRARY
05-04-19 regex/regcomp.c: handle REG_SHELL [^...] == [!...]
05-04-11 tm/tmxscan.c: handle yyy.mm.dd[-+.]hh.mm.ss.nnnnnn
05-04-07 regex/regnexec.c: fix out of bounds boundary check -- ouch
features/align.c: add jmp_buf to the alignment mix (ia64)
vmalloc/vmhdr.h: add jmp_buf to the alignment mix (ia64)
05-03-31 misc/optget.c: fix option { - _ } separator matching
05-03-30 misc/glob.c: eliminate superfluous GLOB_NOMATCH stat() calls
05-03-24 port/astwinsize.c: include <sys/ioctl.h> if possible
05-03-23 string/ccmap.c: add ebcdic-m mvs cobol table
05-03-11 comp/omitted.c: handle utime[s](const,const)
comp/conf.tab: fix linux PID_MAX probe
05-03-10 comp/setlocale.c: LC_* value "" => unset -- doh
misc/optget.c: reorder _PACKAGE_astsa
code for msgcc
05-03-08 misc/optget.c: delete leading space in STYLE_nroff output
05-03-07 sfio/sfhdr.h: drop extern _sfdscan -- clashes with sfvscanf.c static
05-03-01 tm/tminit.c: add tmlocaltime() for tzset() getenv() override workaround
05-02-20 features/tvlib: tmsettimeofday only for systems that have settimeofday
features/float: fix mvs.s390 NaN tests
05-02-18 tm/tmxmake.c: fix <0 west of GMT bug that warped to 1800's -- wow
05-02-11 port/mnt.c: handle lynxos MOUNTED=/etc/fstab
05-02-08 features/float,sfio.h,sfcvt.c,sftable.c: add INF and fix NAN
05-02-04 features/lib: add _std_strtol (for lynxos)
include/ast_std.h: add _std_strtol tests
comp/strtod.c: #define S2F_function strtod
misc/signal.c: fix ancient bsd SV_INTERRUPT vs. SV_ABORT clash
05-01-11 sfio/sfmove.c: try to seek(fr) when fw==0
comp/omitted.c: intercept utimes() too
comp/omitted.c: add DOSPATHVARS env var path value conversions
features/tvlib,tm/tvtouch.c: check for utimets()
misc/optget.c: handle
'-' or '_' option word separators
sfio/_sfopen.c: allow stream mode changes after initialization
sfio: sync with kpv: SF_SYNCED fix for ksh input loss bug
05-01-09 tm/tmxfmt.c: fix %6N for n<100000000
05-01-08 regex/regcomp.c: conj() => con() to avoid C99 clash

05-01-05 tm/*: fix { %U %V %W } logic -- my head hurts
04-12-30 tm/tmxtime.c: fix tm_isdst<0 loop
04-12-23 vmalloc/vmbest.c: fix vmresize bug that didn't 0 new data
04-12-19 misc/optget.c: broaden - long option match
04-12-09 string/strtoi.h: fix terabyte 't' suffix math
  string/strmatch.c: flush cache on locale change
04-12-01 tm/tmsleep.c: add
  tv.h,tv*.c,tv.3: move from pax
  tmx.h,tmx*.c,tmx.3: add high resolution tm(3) counterparts
  features/lib: add *another* sgi linux.ia64 memccpy bug check
04-10-31 Makefile: __OBSOLETE__ now computed <6 months ago year>0101
  ccode.h,ccmapid.c: add ccmaplist(Ccmap_t*) iterator
  option.h,optesc.c: add 3rd arg, 1 => quote '?' too
  misc/magic.c: fix bug that terminated `string
 \0a' at \0
  misc/magic.c: handle vcodex() via decompose()
  misc/magic.tab: add vcodex magic
  features/stdio: handle _LARGEFILE64_SOURCE -- oops
  stdio/(fseek|ftell|fseeko|fsetpos|fgetpos|ftello).c: oops^2
04-10-28 string/swapop.c: size==-4 => size=4 and extend op=3 to op=7
  tm/tmfix.c: fix tm_mon<0 logic
04-10-22 tm/tmdate.c: handle 'final day feb 2004'
  port/astlicense.c: add query=all|id|${...}${...}
  port/astlicense.c: "free" => "mit"
  comp/omitted.c: revert to the open source license
  string/stropt.c: drop siz==0 => tab is hash table
  include/sfio.h: incorporate <sfstr.h>
  include/sfstr.h: drop
  disc/sfstrtmp.c: drop -- use sfstrbuf()
04-10-20 misc/magic.tab: update tar magic
04-10-18 ufc-crypt.h,crypt_util.c: drop GPL code
  crypt.c: add BSD code
  pathpath.c: disable { $0 $_ $PWD } related root search
04-10-01 normalize ident stamps
  port/astlicense.c: add type=cpl -- yeah
04-09-25 string/swapop.c: return op < size -- duh
04-09-23 comp/spawnveg.c: :NOOPTIMIZE: -- volatile
 sometimes ignored
04-09-21 comp/spawnveg.c: exec_errno_ptr is volatile -- duh
04-09-14 tm/tmscan.c: add %| alternation and %& => tmdate()
04-09-08 misc/optget.c: add :!value: omitted optional arg value
  misc/optget.c: fix --noNAME ambiguous option logic
04-08-26 string/strperm.c: add who^mode to propagate least restrictive up
  astmath.c: add { frexpl ldexpl } checks for ast.req
  port/astlicense.c: ignore first option if non-assignment
  include/ast_dir.h: move d_fileno map before struct defs -- duh
04-08-24 vmalloc/vmbest.c: add {VM_region} VMCHECK=+r for region segment checks
  misc/recfmt.c,include/recfmt.h: add

04-08-23 vmalloc/vmbest.c: add {VM_primary VM_secondary} VMCHECK=-s for primary
features/common: punt to <stdarg.h> for unknown va_list
04-08-11 vmalloc: sync _UWIN libposix hooks
04-07-27 features/common,features/limits.c: ULL suffix for unsigned _ast_int8_t
04-07-22 include/ast.h,comp/eaccess.c: add eaccess() for effective access()
04-07-19 comp/open.c,sfio/_sfopen.c:
{ O_RDONLY O_WRONLY O_RDWR } are values
04-06-28 misc/error.c: check level after error_info.auxilliary
04-06-24 string/strmatch.c: strgrpmatch() match[] now variable size array
04-06-17 features/common: change _DLL null define to (the standard ast) 1
04-06-11 misc/optget.c: allow optional [-|+|--|++] optstr() option prefix
misc/optget.c: reset optstr() state on 0 return
misc/optget.c: text()=>textout() linux.ppc symbol hijack workaround
04-05-31 sfio/sfreserve.c: no side buffer if user buffer is large enough
04-05-27 string/fmtbuf.c: handle one concurrent buf > sizeof(buf)
04-05-24 regcomp.c: fix no-advance initialization
04-05-05 conf.tab,conf.sh: update to align with standards
magic.tab: ms suffix update
04-05-04 port/lcgen.c: fix territory initialization
04-04-15 tm/tmdate.c,include/tm.h: fix specific and ordinal days
04-04-08 astconf: retain { HOSTTYPE LIBPATH LIBPREFIX LIBSUFFIX } strict vals
04-04-07 vmalloc/vmbest.c: fix alpha tiny block bug
vmalloc/malloc.c: re-enable
on alpha
04-03-30 tm/tminit.c: GMT => UCT only if tz.daylight not defined
04-03-25 vmalloc/malloc.c: _AST_std_malloc=1 for __alpha
path/pathprobe.c: per-user probe dir => $HOME/.probe/$HOSTTYPE
04-03-23 regex/reglib.h: fix isw*() redefines
04-03-17 features/stdio: no __FILE override for __CYGWIN_ (sys/reent.h clash)
sfio/sfhdr.h,sfio/sfsetbuf.c: lower sfmove() default buf size 4x
04-02-29 comp/omitted.c: move env trace after PATH fixup
comp/omitted.c: cygwin spawn _P_DETACH => _P_NOWAIT+setpgid(pid,0)
misc/optget.c: fix html mailto: match
port/astlicense.c: add type=test for fixed 2001 date
features/float: check local NaNQ first
vmalloc/vmhdr.h: fix _vmextern_ vm_truncate return type
misc/magic.tab: add elf s390 index=22
04-02-26 vmalloc: VMCHECK a:assertions c:arena-check w:warn-instead-of-abort
sfio/sfvscanf.c: fix extf arg selection
04-02-24 features/dirent: set nodefine to avoid ast_std.h _typ_off64_t undef
disc/sfkeyprintf.c: only case pattern must be ()[]
balanced
04-02-14 include/sfio_t.h: add SF_DCDOWN, SFDCNEXT(), SFDCPREV()
04-02-13 string/strmatch.c: fix bug that didn't save one-time sub[] size
vmalloc: -g: export VMCHECK=1 enable malloc/free checks
vmalloc: -g: free(0) to check and disable malloc/free checks
vmalloc: -g: free(1) to check and enable malloc/free checks
04-02-11 Makefile: add :P=A: to conf and lcgen exec for cross-compile

regex: use MBSIZE() instead of mbsize() to grab 1 char on err
vmalloc/vmbest.c: updated to do more comprehensive DEBUG tests
04-02-04 sfio/sfraise.c: add sfraise(0,a,b) to iterate over all streams
04-02-01 vmalloc/vmbest.c: _BLD_DEBUG free(0) checks the arena
04-01-31 features/vmalloc: fix typo that missed _mmap_zero
04-01-23 string/strerror.c: handle real strerror() return value overwrite
04-01-11 path/pathpath.c: fix size vs. sizeof(buf) typo
03-12-22 misc/magic.tab: dos EXE tweaks
03-12-05 vmalloc: sync with kpv, adding exceptf announcements
03-12-04 port/astlicense.c: fix expand() loop
sentinel bug
03-12-02 include/ast.h: mbchar() advances by 1 on mbtowc() error
misc/fts.c: increase MINNAME to 32
03-11-21 vmalloc/vmbest.c: export VMCHECK=1 to enable $(CC.DEBUG) vmcheck()
vmalloc/vmbest.c: export VMCHECK=2 to disable KPVCOMPACT
misc/magic.c: add { cobol copybook pl1 } and suffix preference
03-11-12 features/stdio: drop cuserid,getopt for SUSV3
03-11-11 vmalloc/*: merge kpv update -- this should stomp the compaction bug
03-10-23 comp/iconv.c: fix sfreserve lock fallback
03-10-20 sfio/_sfopen.c: add to allow user sfopen() intercept
03-10-17 regnexec.c: fix exec time REG_LEFT, \x.... => wctomb()
03-10-12 string/strtoi.h: fix strton '.' overconsumption
03-10-12 comp/iconv.c: identity is always (iconv_t)0
03-10-09 string/fmtesc.c: fix FMT_SHELL to check for all shell magic chars
03-10-01 port/astlicense.c: unknown authors copied verbatim (instead of ignored)
03-09-30 string/chresc.c: handle \u..., \x... consumes all trailing hex digits
string/stresc.c: \u...
and \x... > UCHAR_MAX => wctomb()
03-09-29 fnv.h: add
03-09-23 modedata.c: table is for external modes, so no arch specific hacks
optget.c: fix option prefix match translation bug
optget.c: add `<length> <name>=<value>\n' to optstr()
features/lib: add memcmp() test for sgi optimzation bug
03-09-22 regex.h,regcomp.c: add regncomp()
regclass.c: fix for loop dangling ; in regaddclass()
03-09-20 sftable.c,sfvprintf.c: fix SFFMT_CHAR handling to match extf api
03-09-19 sfmode.c: update release to kpv's
03-09-17 regcomp.c: add pedantic backref error checks
03-09-16 regnexec.c: exec time REG_LEFT => don't advance past initial position
regclass.c: add regaddclass() for user defined [:class:]
regexec.h: REG_VERSION_N2X, add redisc_t {re_map} ccode map
regstat.c: add regstat_t
03-09-11 optget.c: --n:=v sets opt_info.assign=':', opt_info.number enabled
03-09-09 disc/sfkeyprintf.c: *pn on lookup is arg separator; lookup "" arg too
03-09-05 optget.c: [f:l*?] preserves user long name
past '*' in opt_info.name[]
03-09-03 sfstr.h: add sfstrpend() for #pending bytes in read buffer
03-08-25 regex: add REG_FIRST, optimize bm

features/lib: _AST_no_spawnveg==1 falls back to fork/exec
03-08-22 features/stdio,stdio/asprintf.c,stdio/vasprintf.c: add
03-08-21 path/pathnative.c,path/pathposix.c: interix updates
features/botched: add cygwin _stat => _stat64
03-08-15 include/ast.h: map out bsd strmode()
features/common: add interix _ast_intmax_t workarounds
misc/fs3d.c: 3d mount test now uses "" instead of NiL (or cygwin dumps)
03-08-11 string/fmtesc.c: fix optional quoting checks
tm/tmdate.c: fix > 1 year of seconds arithmetic
tm/tmfix.c: fix leap year adjustments
03-08-01 features/lib: beef up sock_peek test for interix
03-07-29 features/float: add -lm to frexp... test
Makefile: fix -lm astmath test sense
03-07-26 features/mem.c: favor _mem_sbrk over _mem_mmap_*
03-07-22 vmalloc/vmbest.c: fall back to sbrk() if mmap() fails
features/mem.c: _mem_sbrk means sbrk()
and brk() work
03-07-17 regex/regcomp.c: fix bug that treated KRE X{n,m} like {n,m}(X)
misc/magic.c: check MAGIC_VERBOSE for all load() messages
03-07-14 misc/optget.c: handle [...]{[...]\f...\f...}
03-06-21 misc/sigcrit.c: block SIGCHLD if _lib_sigprocmask || _lib_sigsetmask
comp/spawnveg.c,sfio/sfmode.c: use sigcritical() SIG_REG_* macros
comp/spawnveg.c: drop ENOEXEC logic
vmalloc/*: snarf kpv KPVCOMPACT() fix
vmalloc/vmbest.c: export VMCHECK=2 to disable KPVCOMPACT (just in case)
string/strdup.c: drop __strdup() etc. intercepts -- malloc gets it
features/mem: define _mem_method and _mem_* possible values
vmalloc/malloc.c: _AST_mem_method==_mem_* to force mem get method
sfio/sfputr.c: __ia64 memccpy is bogus -- how many tries do they get?
path/pathshell.c: verify abs path and access(path,X_OK) -- duh
vmalloc/vmhdr.h: add private _Vmessage() for non-sfio ASSERT()
port/astconf.c: fix bug that always returned the minmax value
03-06-11 comp/*.c: reorder macro
hding for mvs.390 and <ast_map.h>
features/vmalloc: add _lib_brk and _lib_sbrk verification
include/ast_std.h,etc.: add _map_malloc for malloc => _ast_malloc
comp/conf.sh: fix SI_* and *_SI_* macro redefs
ast.h: VMDEBUG or _BLD_DEBUG enable <vmalloc.h> and VMFL tracing
vmalloc/vmtrace.c: _PACKAGE_ast __FUNCTION__ is a string
vmalloc/vmtrace.c: set trace file fd FD_CLOEXEC
vmalloc/vmbest.c: set /dev/zero mmap fd FD_CLOEXEC
features/mmap: fix ancient read() vs. mmap() time arithmetic typo
vmalloc/malloc.c: _AST_std_malloc==1 to force standard malloc
03-06-09 comp/omitted.c: add _imp__FUNCTION sybols for __CYGWIN__ static link
vmalloc/vmbest.c: handle systems with sbrk() but no brk()
03-06-04 port/astconf.c: drop non-standard diagnostics
03-06-03 comp/conf.sh: rework symbol collision logic
03-05-30 conf.tab,conf.sh,astconf.c: add <sys/systeminfo.h> sysinfo() SI_*

03-05-29 ccode.h: rework for extensibility, drop obsolete mematoe(), memetoa()
03-05-28 regex/*: recode
 to use isw*() directly when needed, is*() otherwise
03-05-27 features/vmalloc: fix _std_malloc test
03-05-25 misc/optget.c: fix optstr() ???* internal options
03-05-24 misc/optget.c: fix (ancient) argv null dereference
03-05-23 comp/getcwd.c: don't intercept on _WINIX -- unreliable st_ino
03-05-22 sfio/sfsprintf.c: n<0 => don't append '\0'
03-05-18 misc/fts.c: re-stat FTS_DP to update nlink/times
  misc/fts.c: add FTSENT.stack to eliminate getlist() recursion
  regex/ucs_names.h: use "..." catenation to placate some cc's
03-05-11 string/strtoi.h: handle "-" "+" "0x" "11#"
03-05-09 vmalloc/vmbest.c: large memory allocation tweaks
03-05-06 misc/optget.c: fix getopt_long() prefix==1 bug that missed short flags
03-04-27 comp/system.c: handle <ast_map.h>
03-04-24 vmalloc/vmmopen.c: drop dup <unistd.h>
03-04-21 tm/tmdate.c: fix next hour/min logic
03-04-15 vmalloc/malloc.c: intercept __malloc() along with __libc_malloc()
  string/strdup.c: intercept __strdup() along with __libc_strdup()

 features/mmap: consolidate from features/(lib|sfio|vmalloc)
  add _NO_MMAP==1 to disable all mmap()/munmap() calls
  path/pathposix.c: add
03-04-14 comp/setlocale.c: fix debug_mbtowc() return value for *s==0 || n < 1
  comp/iconv.c: fix error return errno values
03-04-11 misc/stk.c: fix stkgrow() realloc bug
03-04-05 string/tok.c: support readonly single token input strings
  disc/sfdcdio.c: fix F_DIOINFO and FDIRECT #ifdef's
  include/ast_std.h: allow _LARGEFILE64_SOURCE on __hppa
  features/common: fix `tst _foo_' => `tst foo_' typo
  features/float: fix `tst _foo_' => `tst foo_' typo
  features/float: add FLTMAX_(UINTMAX_MAX,INTMAX_MAX,INTMAX_MIN)
  comp/omitted.c: fix pathconf => _pathconf => _ast_pathconf loop
03-04-03 features/float: add _ast_no_um2fm: no usinged intmax => floatmax cast
  vmalloc/vmbest.c: add getenv("VMCHECK") to initialize Vmcheck
03-03-28 include/ast_dir.h: add D_TYPE; { D_FILENO D_TYPE } must be #ifdef'd
  misc/fts.c|getcwd.c|glob.c,preroot/getpreroot.c: add
 D_FILENO #ifdef's
  Makefile: make sure _BLD_ast is defined for all compiles
03-03-27 ast_vfork.h: generate from features/vfork to pick up headers/pragmas
03-03-25 comp/omitted.c: drop free() of live environ
  path/pathshell.c: allow trailing .exe -- pox on that
  string/strtoi.h: fix bug leading 3 digits before thousands sep bug
  string/(fmt|str)[gu]id.c: we know root when we see it
03-03-24 misc/optget.c: handle : and ? in := default value
03-03-21 ast_std.h: drop all spawn*() but spawnveg()
  obsolete/spawn.c: add for dropped spawn*()
  features/lib: _use_spawnveg if spawnveg() is a win over fork()/exec()

features/lib: drop NutForkExecve() and _map_spawnve
features/lib: fix memccpy test to clean up /tmp droppings
comp/spawnveg.c: call posix_spawn() if implemented
comp/omitted.c: add spawnve() intercept
comp/getoptl.c: set getopt_long() optind even if no options
tm/tmfmt.c: add %Q<delim>recent<delim>distant<delim>
misc/optget.c: fix trailing '*' for option and option
args
sfio/sfmode.c: getenv("_AST_SFIO_OPTIONS") [,]SF_LINE[,] for fd {0,1,2}
vmalloc/*: kpv sync for uwin build independent of libast
03-03-18 port/astconf.c: switch to dynamic string values (saves 7K data/bss)
string/strmatch.c: switch to dynamic regex cache (saves 3K data/bss)
regex/regcoll.c,ucs_names.h: initialize rw tables from smaller ro data
features/lib: add vfork test for passing SIG_IGN across exec
features/lib: add spawn test for passing SIG_IGN across spawn
03-03-17 comp/omitted.c: unlink() renames to .deleted dir in case file open
sfio/sfpopen.c: handle mode "" for spawn with no pipe
features/float,comp/frexp.c,comp/frexpl.c: add pow2() table alternative
03-03-12 features/lib: fix linux.ia64 memccpy() tests -- now its their turn
features/vmalloc: fix /dev/zero test
features/align: _ast_intmax_t and _ast_fltmax_t join the union
misc/stk.c: fix struct frame size to align data
disc/sfdcdos.c: change sfslen() => sfvalue(f)
03-03-10 misc/optget.c: handle
[f\f:x:lll\f?ddd]
03-03-07 port/astconf.c: uninitialized CONFORMANCE + POSIXLY_CORRECT => standard
03-03-05 comp/omitted.c: make sure at least /bin is in PATH to find cygwin dlls
03-03-02 path/pathshell.c: write access to /bin is effectively root
03-02-28 features/float: add (FLT|DBL|LDBL)_U?(LONG|LONGLONG|INTMAX)_(MIN|MAX)
03-02-25 features/lib: change vfork() test to use _exit() instead of exit()
03-02-23 include/error.h: update ERROR_VERSION for error_info.number space
03-02-22 comp/conf.sh: wrap ksh check in eval to avoid premature exit
03-02-21 misc/fts.c: verify chdir(..) to avoid malicious dir rename()
03-02-19 string/strtoip4.c: isspace() instead of ' '||'\t'
03-02-17 regex/regcomp.c: fix stats.l REX_REP logic that botched REX_BM
03-02-13 string/base64.c: handle catenated encodings
03-02-11 features/libpath.sh: change LIBPATH to <dir>[:<env>[:<pat>]][,...]
03-02-07 path/pathfind.c: allow "/dev/null" to be PATH_REGULAR
03-02-06 include/ast.h,fmtquote.c: add FMT_ALWAYS|FMT_ESCAPED|FMT_SHELL|FMT_WIDE
03-02-05
tm/tmdate.c,tm/tmword.c,string/strelapsed.c: '_' treated like ' '
03-02-01 string/strelapsed.c: handle ps style [day-][hour:]min:sec
03-01-31 port/astlicense.c: fix author=* match
03-01-30 include/tm.h: add tmisleapyear() macro
03-01-29 comp/getopt.h,comp/getoptl.c: add gnu getopt_long(), getopt_long_only()
include/ast_getopt.h: for non-gnu part of comp/getopt.h
include/ast_std.h: include <ast_getopt.h> instead of <getopt.h>
03-01-28 ast.h,string/base64.c: add base64encode() and base64decode()

path/pathfind.c: verify S_ISREG()
03-01-24 path/pathexists.c: fix abs dir bug and deal with case ignorance
03-01-23 path/pathpath.c: honor PATH_ABSOLUTE for the easy case too
03-01-22 path/pathprobe.c: fix search to find both the probe script and command
03-01-17 misc/magic.tab: application/zip => appplication/(gzip|pzip|zip)
03-01-14 misc/optget.c: change href="" to href="."
03-01-10 include/ast_std.h: strtold() import hackery for static __CYGWIN__
03-01-03 include/regex.h,regex/regcomp.h:
add REG_SHELL_GROUP
include/ast.h,string/strmatch.c: add STR_GROUP for REG_SHELL_GROUP
02-12-15 include/error.h: errorcontext => Error_context_s (compatible til 2004)
02-12-06 misc/sigdata.c: add NoF(sigdadata) -- why nmake was uninterruptable!
02-12-03 comp/omitted.c,features/omitted: handle cygwin alarm() return botch
02-11-27 misc/swapop.c: op=3,size=4 => op=7
string/strlcat.c,strlcpy.c: fix uwin decl clash
02-11-26 sfio/sfvprintf.c: fix sfsprintf() '\0' termination bug
02-11-22 misc/glob.c: move static struniq() to libast extern
string/fmtversion.c,include/ast.h: add fmtversion
02-11-18 string/strncopy.c: add
misc/magic.tab: list size for magicid.h magic
02-11-14 sfio/sfvprintf.c: add %#c for C escapes
include/error.h: add ERROR_NOTIFY context flag for builtin commands
02-11-11 string/strtoi.h: add S2I_size for strnto*() size_t 2nd arg
sfio/sfstrtof.h: add S2I_size for strnto*() size_t 2nd arg
comp/putenv.c: add setenv() and unsetenv()
wrappers for setenviron()
02-10-31 path/pathfind.c: add dir of including file to the pathinclude() list
misc/optesc.c: add
02-10-30 string/strtoip4.c: set next char pointer even on error
02-10-29 comp/resolvepath.c: add (size_t version of realpath())
misc/mime.c: fix mimehead() to ignore null content values
02-10-28 misc/glob.c: add GLOB_STARSTAR for /**/ and GLOB_NOTDIR optimization
02-10-27 string/struniq.c: add
02-10-23 features/common: fix off-by-one loop check
02-10-18 include/ast_std.h: avoid off_t,ftruncate,lseek,truncate redefinitions
02-10-17 misc/mime.c: handle type/* match, fix bogus header parse
02-10-04 sfio/sfstrtof.h: S2F_static <0:export =0:private >0:static
02-10-02 features/common: don't define _WIN32; define _WINIX => unix on windows
features/tty: finally stomp the bsd _POSIX_VDISABLE redefinition
misc/fastfind.c: add more specific findwrite() error messages
comp/omitted.c: fix cygwin utime() to update st_ctime
comp/strtol.c,strtoul.c: __CYGWIN__ static link
workaround XXX
string/fmtls.c,fmttime.c: tmform() => tmfmt()
02-09-22 port/astconf.c: return values in fmtbuf() buffer instead of stack
port/mnt.c: don't set MNT_REMOTE for win32 ?:* paths
sfio/sfvscanf.c: _sfdscan() is library global (not static)
02-09-21 path/pathkey.c: add tool arg for mamake compatible hash

features/fcntl.c: handle iffe _hdr_lcl_* => _lcl_* change
02-09-15 comp/conf.sh: fix enum vs. macro test
cdt: kpv sync
02-09-11 ast.h,features/common: move _WIN32 macro init to features/common
features/common: enable __EXTERN__ and __DEFINE__ for _WIN32&!_UWIN
features/float: add -lm to _ast_*_nan_init tests
vmalloc: kpv sync with vmresizef => vmgetmem
features/iconv: must have both <iconv.h> and iconv_open()!
features/vmalloc: alloca test must compile *and* link
sfio/sfvscanf.c,sfstrtof.h: add flag arg to char get, fix NaN loop
02-09-10 vmalloc/vmhdr.h: enable getpagesize() and sbrk() prototypes
features/fcntl.c: enable mmap64() prototype
include/ast_windows.h:
windows.h wrapper with ast namespace workarounds
02-09-07 misc/mime.c: fix quoted value parse bug that ate the whole line
02-09-05 features/vmalloc: add free() to _std_malloc test
include/ast.h: NoF(x) now defines _DATA_x for !_BLD_DLL too
tm/tmlocale.c: { C POSIX en } == unix dadgummit
02-08-29 path/pathfind.c: initialize Dir_t.next=0
02-08-28 uwin/rint.c: update
features/libpath.sh: "bin" is now the default value
02-08-22 vmtrace.h: add for debugging
02-08-20 misc/magic.c: convert to use <cdt.h>
vmalloc/vmresizef.c: add for generic discipline resizef default
string/strelapsed.c: allow long time component names
02-08-19 misc/optget.c: add `.fp 5 CW' to --nroff output
string/(fmtfs|fmtuid|fmtgid|strgid|struid).c: convert to use <cdt.h>
include/dt.h,cdt/dtnew.c: add for dtopen() in specific vm region
02-08-13 comp/omitted.c: fix bzero logic for e.g. unixware.i386
include/ast.h: add fmtbase->fmtbasell; swap in 2003-09-01
02-08-12 regex/regnexec.c: fix REG_MINIMAL
REX_DOT mb bug
02-08-08 features/iconv: <ast_common.h> instead of <sys/types.h> <ast_common.h>
02-08-07 regex/regcomp.c: recognize anchors in BRE subexpressions
02-08-06 comp/iconv.c: handle win32 cpNNNN == windows-NNNN aliases
02-08-05 cdt/*: sync with kpv src
02-08-02 features/iconv: include sys/types.h for ast_types.h
02-08-01 misc/magic.c: magic file "." names the default
misc/magic.c: handle addr type (from irix string)
features/lib: move malloc tests to features/vmalloc
features/vmalloc: snarf tests from features/lib
vmalloc/*: sync with kpv src
comp/libc.c: dropped -- __libc_* intercepts moved to vmalloc/malloc.c
02-07-30 features/lib: handle __libc_malloc() in _std_malloc test
vmalloc/malloc.c: add gnu pvalloc()
features/vmalloc: fix alloca check
02-07-29 features/limits.c: handle netbsd guards
02-07-27 sfio/sfpoll.c: handle rw pipes

02-07-25 features/iconv: include ast_types.h for size_t in ast_iconv.h
02-07-18 apply LARGEFILE64 header prototype clash patches

 misc/optget.c: __EXTERN__ _opt_info_ instead of opt_info
02-07-17 ast_std.h: memzero() now defaults to memset() instead of bzero()
02-07-16 ast_std.h: add ast.env_serial
  misc/setenviron.c: increment ast.env_serial
  include/tm.h: tmset() now calls tminit() directly
  tm/tminit.c: check ast.env_serial for env change
  tm/tmfix.c: speed up for large values of tm_mday
02-07-15 comp/fnmatch.c: fix memory leak caused by missing regfree()
  comp/strstr.c: fix broken interpretation and implementation
  comp/iconv.c: intercept (but no-op) null to and from buffer pointers
02-06-27 ast_std.h: map _sysconf => _ast_sysconf for sun
02-06-26 cdt,sfio,vmalloc: kpv sync -- is this ever easy?
02-06-24 sfio: kpv sync, vfwscanf(),fputw() fix (wcslen(x)*sizeof(wchar_t)!!)
  misc/fts.c: fix symlink chdir() optimzation bug
02-06-11 sfio/sfwrite.c: string to file fix
  Makefile: __OBSOLETE__==20020101
02-06-01 regex/regcomp.c: REG_DELIMITED now consumes the delimiter
02-05-31 regex/reglib.h,regcomp.c,regnexec.c:
 null subexpression fixes
02-05-24 misc/fts.c: disable dir link counts in 3d
  misc/magic.c: fix "*(mkfile)" sh pattern to "*@(mkfile)"
02-05-20 regex.h,regex/regsubcomp.c,regex/regsubexec.c: add
  regex/regsub.c: deprecate
02-05-16 tm/tmfix.c: fix '60+n min/sec ago' bug for n min/sec after the hour
02-05-14 regex/regsub.c: fix (^|x) null match early termination bug
02-05-13 dir/dirlib.h: drop errant extern==__EXPORT__
  features/uwin: add uwin lib tests
  uwin/*.c: check features/uwin for stubs
  features/float: add nan representation generation
  sfio/sftable.h: used _ast_*_nan_init for huge values
02-05-09 misc/fts.c: fix virtual top to force ``child'' stat()
  features/common: define va_copy() only if not in <stdarg.h>
02-05-01 string/strtoip4.c: cisco inverted quad mask must have 4 parts
02-04-30 misc/magic.tab: fix pzip version check
02-04-19 string/strtoip4.c: handle cisco inverted quad mask n.n.n.n/i.i.i.i
02-04-18 misc/fts.c: add chdir() verification stat() optimizations

 path/pathkey.c: check PROBE_ATTRIBUTES for list of vars
02-04-12 port/astlicense.c: type=open tweak, fix author list spacing
02-04-11 regex/regcomp.c: check for pattern number overflow
02-04-05 tm/tmfmt.c: add %u
02-04-04 sfkeyprintf.c: fix %c numeric value
  path/pathpath.c: check plain path first -- duh
02-04-03 misc/fts.c: fix (FTS_PHYSICAL|FTS_NOSTAT) stat optimizations
  ftwalk.c: only clear FTW_DELAY if FTW_CHILDREN

ftwalk.h: add FTW_NSOK for FTW_DELAY
02-03-29 ast.h: drop strerror() prototype -- already in <ast_std.h>
features/stdio: check for _SFIO_H redundant _Sfstd* declarations
02-03-26 misc/glob.c: fix GLOB_LIST gl_flags values
02-03-24 port/mnt.c: update bsd fstype name and mount option logic
02-03-23 Makefile: add ast_wchar.h to the .check.hdr list (for mamake)
02-03-17 features/stdio: hack around g++ 3.* clashes
Makefile: add ast_nl_types.h to the .check.hdr list (for mamake)
string/strtoip4.c: fix validity check bug that only checked last part
02-03-14
misc/optget.c: fix --keys to not expand inline \f...\f
02-03-12 port/astlicense.c: add type=free
path/pathaccess.c: sibling ".." search ignores relative dirs
sfio/sfvscanf.c: sfstrtof get() must return 0 on eof
02-03-11 path/pathexists.c: check path by pairs checking {ENOTDIR,ENOENT}
02-02-14 features/float: copy local min/max macros to avoid printf roundoff
features/wchar: include <ast_common.h>, not <ast_std.h>
misc/magic.c: match[]=>matches[] to fix K&R match() macro conflict
include/vmalloc.h: include <stdlib.h> for !_PACKAGE_ast
uwin/mini.sym: add sprintf (now required by features/common)
regex/regnexec.c: truncate wide chars for <ctype.h> functions
Makefile: fix MAM ast_common.h sequencing bug by making it first
cdt/dthash.c: fix DT_DELETE memory leak (DT_DETACH typo)
cdt/dthash.c: fix DT_DELETE double free (dt->data->here typo)
regex/regcomp.c: fix recomb() to reject RE with backref
features/iffeio: explicitly generate stdio.lcl
stdio: add {fcloseall,f(get|put)s_unlocked,fmemopen,getdelim,getline}

tmmake,tmtime: allow negative time_t if native localtime/gmtime do
tmdate: allow years before 1969
fmtfmt: add
include/ast.h: add { PATH_TOUCH_CREATE PATH_TOUCH_VERBATIM }
Makefile: add std/*.h for std header iffe overrides
comp/iconv.c: fix non-C win32 sfreserve() loop
02-02-11 features/common: separate long long / long double tests
features/common: verify printf handles long long / long double
02-02-02 include/ast_std.h,sfio/sfhdr.h: drop _hdr_locale tests -- always on now
include/ast_std.h: trust _UWIN <unistd.h>
02-01-31 port/mnt.c: add aix options field
02-01-30 comp/strstr.c: add for ancient s5
stdio/_flsbuf.c: only on systems that transfer to native (e.g., uwin)
string/strtoi.h: cat min/max error return values
02-01-28 features/tty: add cf[gs]et[io]speed macros for <termio.h>
comp/rename.c: punt to (ancient) /usr/lib/mv_dir on EISDIR
02-01-24 sigcrit.c: fix SIGCLD!=SIGCHLD interrupt loop
sfvprintf.c: convert fast
io macros to functions for uts.390 cc
string/strtoi.h: drop #pragma prototyped for standalone sfio

sfdcsubstr.c: rename from sfdcsubstream.c for 14 char fs
02-01-22 execlp,execvp,execvpe,spawnlp,spawnvp,spawnvpe: fix __EXPORT__
spawnlp,spawnve,spawnvp,spawnvpe: handle ms mode arg -- barf
sftable.c: ifdef hacks for _WIN32&_ALPHA_ fp exception
_stdfun.c: add _UWIN&_ALPHA_ iob map
02-01-18 sfio/sfstrtof.h: drop #pragma prototyped for standalone sfio
02-01-17 features/hdr: don't include <stddef.h> after it doesn't check out!
02-01-16 misc/magic.c: add version type for YYYYMMDD or [a.][b.]c.d
misc/magic.c: recode mime %s parse -- sensible and no buffer overflow
02-01-15 misc/magic.tab,magicid.h: add generic binary magic number and header
02-01-12 tm/tmlocale.c: override win32 default date for {C,POSIX,en} locales
comp/omitted.c: fix cygwin workaround logic bugs
02-01-09 stdio/fseeko.c,ftello.c: add from UNIX98
02-01-08 comp/conf.sh: use $cc instead of cc
02-01-07 string/strlcat.c,string/strlcpy.c:
add bsd api
01-12-18 comp/conf.tab: fix LFS_CFLAGS default for sun _CS_LFS_CFLAGS botch
features/common: add hdr stdarg test
tm/tmdate.c: handle YYYY/MM/DD
01-12-10 misc/magic.tab: add generic 0x00010203 binary magic
01-12-03 path/pathprobe.c: return HOME relative path if readonly/non-suid fs
01-11-30 misc/optget.c: add simple cache for repeat offenders (like ksh read)
sfio/sfhdr.h: preserve errno across SFMMSEQON-SFMMSEQOFF
01-11-29 magic.tab: fix GIF version number listing
01-11-28 string/fmtbase.c: p!=0 => base always included in output
01-11-26 misc/fts.c: empty path is an error
01-11-14 misc/optget.c: fix --?+SECTION queries to include paragraphs
01-11-20 regex/regnexec.c: fix REG_MINIMAL character class match bug
01-11-19 features/lib: retain _lib_confstr for all solaris releases
01-11-16 comp/setlocale.c: fix !_lib_setlocale typo
01-10-31 regex/ucs_names.h: add string catenation to keep line length low
misc/fastfind.c: handle gnu slocate db read

misc/optget.c: add --?+SECTION queries
comp/fnmatch.h: add FNM_NOSYS
01-10-30 tm/tmdate.c: fix cron specs when both wday and mday are specified
01-10-20 misc/glob.c: fix bug that called \ trim() twice on same path
misc/glob.c: fix \ trim() bug that restored / to wrong position
string/fmtre.c: fix { ^ . $ } translations
misc/optget.c: use original string if translation fails -- duh
sfio/sfhdr.h: assume <errno.h> assigns proper atttibutes to errno
comp/regcmp.c: __ia64 workaround fixed by proper CC.DLL probe
comp/getdate.c: __ia64 workaround fixed by proper CC.DLL probe
features/lib: add lib getdate
01-10-18 features/lib: check for strtod static link collision
features/float: add another signed cast for old bsd cc
features/wchar: add <stdlib.h> <stdio.h> before <wchar.h> for old bsd
01-10-17 sfio/sfcvt.c: limit max precision to { FLT_DIG DBL_DIG LDBL_DIG }

sfio/sfcvt.c: fix %[aA] format to always have leading 0[xX]1.
sfio/sfvprintf.c: handle %C %lc %S %ls for wchar_t
args
sfio/sfvscanf.c: handle %C %lc %S %ls for wchar_t args
string/fmtmode.c: fix bug that omitted trailing '\0'
01-10-12 misc/optget.c: . => \&. for --??nroff
comp/wc.c: fix mbstate_t initialization typo
features/float: fix max integer / float loop termiation
features/float: fix LDBL_UINTMAX_MAX typo that did DBL_UINTMAX_MAX
01-10-11 include/sfio.h: fix _Sfstd* import/export
features/common: fix _UWIN __DYNAMIC__() definition
01-10-06 features/fcntl.c: { O_BINARY O_TEXT } default to 0
features/omitted: add for comp/omitted.c
sfio/sfopen.c: O_BINARY default for _WIN32&&!_UWIN
01-10-05 misc/glob.c: fix `\(x/*' GLOB_NOMATCH bug that returned `(x'
misc/optget.c: fix localization lookup that didn't drop doubled : ?]
01-10-04 comp/setlocale.c: handle sizeof(wchar_t)!=4 in debug locale
comp/conf.sh: handle sytems where _SC_* is both an enum and a macro
01-09-25 astconf: add LIBPREFIX
01-09-20 features/common: add __DYNAMIC__() for dll externs
01-09-19 cdt: kpv update

mb*() macros: update for ksh conversion, extend debug locale
01-09-16 tm/tmlocale.c: add compiled in defaults for C locale
misc/glob.c: add gl_nextdir callback for GLOB_COMPLETE
01-08-14 clarify _WIN32 vs. _UWIN vs. __CYGWIN__
tminit: fix standard & daylight initialization
01-09-11 pathnative.c: add for native fs representation
regex.h: fix regerror_t prototype
01-09-04 regex/regnexec.c: fix REG_ICASE for multi-char collating elements
tm/tmlocale.c: fix old ascii LC_TIME load
locale*: add new LC_* categories
comp/omitted.c: add CYGWIN workarounds
features/lib: add CYGWIN workarounds
01-08-11 features/common: some compilers have long long but no LL constants!
features/lib: add mmap64 implementation test (for linux.s390)
regex/regcomp.c: fix \ in [...] parse
setlocale: retain user locale spelling in setlocale() return value
features/limits.c: don't include ./limits.h -- duh
fmtesc: don't escape multibyte chars
tm/tmlocale.c: fix native C locale default
01-08-08
features/float: some compilers (msdev) forget long long vs. double
01-07-31 misc/optget.c: handle suboptions
01-07-27 cdt.h: add DTDISC()
01-07-17 iffeio.h: move to include for stdio bootstrap iffe workarounds
01-06-25 regex: perl extensions added and tested
01-06-21 misc/error: add ERROR_OPTIONS=prefix=string for message processing

01-06-15 string/chresc: only 2 hex digits max for \xxx
  regex/regsub: handle REG_SHELL ~(nnn) rhs backrefs
01-06-11 regex: handle embedded \0 in pattern and subject string
  regex: add (?nnn) for backrefs > 9
  comp/fnmatch: add FNM_LEADING_DIR for gnu compatibility
  features/float: _ast_flt_unsigned_max_t for bsd.i386 omission
01-06-06 misc/optget.c: add o option for old ps,ar,tar with optional leading -
  regex/regcomp.c: REG_LENIENT|REG_DELIMITED \<newline> => <newline>
  regex/regcomp.c: REG_LENIENT \000 => NUL
01-06-04 features/dirent: replace Makefile hack with iffe semi-hack
  regex/regnexec.c: negation must also check REG_SHELL_DOT
01-06-03
 sprintf.c: change buf size from SF_BUFSIZE to INT_MAX
01-05-31 glob: fix gl_fignore to ignore leading . by default
  features/lib: add botch_d_ino_dirent64 for linux botch
01-05-25 port/lc.tab: add a few missing language_territory's
01-05-23 string/chresc: \C[.collation-element.]
  fmtmatch,fmtre: update for <regex.h> syntax extensions
01-05-21 regex: add perl extensions, unicode names for collation elements
01-05-11 string/chresc: \e == \E == escape, \cX == control X, \x{..} == \x..
01-05-09 path/pathtemp.c: pathtemp(0,0,0,"/private",0) for mode S_IRUSR|S_IWUSR
  port/touch.c: handle utime(2) EPERM to fix bug that truncated
  regex: change REG_MINIMAL to avoid negation -- much faster now
01-05-08 *.h: add some off_t macro guards for suse linux
01-05-03 regcomp.c: optimize ((x)!)* to ((x)!)
  wchar: add <wchar.h> and stdio wchar routines
01-05-02 feaures/wchar: add <wchar.h> intercept, add stdio wchar functions
01-05-01 string/strtoi.h: signed strtoi accepts qualified unsigned constants
01-04-30
 comp/setlocale.c: fix code that relied on 2 simultaneous getenv()'s
  tm/tmlocale.c: check for UTF-8 encoded LC_TIME files
  misc/magic.tab: add utf-8 and utf-16 U+FEFF magic
01-04-26 features/common: some cc's have _ast_int8_t but not LL constants
01-04-24 features/lib: add _std_strtod for mac os X
01-04-23 ccode: add CC_sub for ms embedded EOF char on ebcdic -- no joke
01-04-20 iconv: handle ebcdic<=>utf
  mc.h,mc.c: add mcindex()
  ast_std.h: add AST_MESSAGE_SET
01-04-18 features/libpath.sh: fix mvs probe
  *: sundry mvs fixes
  glob: fix GLOB_NOCHECK to avoid stat() and properly trim patterns
01-04-01 strtod,strtold: add
  strtol,strtoul,strtoll,strtoull,strton,strtonl: handle locale & ERANGE
  sfvprintf,sfvscanf: handle locale decimal_point,thousands_sep
  sfvprintf,sfvscanf: handle %a,%A
  setlocale: add LC_NUMERIC decimal_point,thousands_sep init
  ast_std.h: __OPTIMIZE_SIZE__==1 to disable non-std __GNUC__ inlines
  pathexists: path cache to cut down pathpath() access(2)

calls
features/stdio: __FILE_TAG == _sfio_s for solaris
01-03-23 iconv: fix iconv_move buffer boundary bug that stopped at 1 block
01-03-19 glob: add GLOB_AUGMENTED
regex: REG_SHELL syntax error implies REG_LITERAL match
strto[ln][ll]: add overflow checks
01-03-17 locale: reimplemented to provide canonical locale namespace
locale: add LC_ALL=local for local system user default
tm.h: TM_*_3 => TM_*_ABBREV
tmfmt: handle standard E and O format modifiers
tmlocale: consult nl_langinfo() if defined
fmtquote("\"",1) => shell quote
01-03-08 regex: handle multibyte chars and collation classes
strmatch,strgrpmatch: now a wrapper on regex
ast_std.h: add mb*() multibyte and collation support
sfvscanf: handle locale decimal and thousand
proc*,system: handle ignored SIGCHLD
sfkeyprintf: handle %*C
01-03-06 locale: add locale data cache for efficient multiple locale switching
optget: fix LC_MESSAGES!=C --man bug
01-03-01 Makefile: HEADEROPT is not optional for win32.*

comp/syslog.h: comply with the de factos
optget(): fix \f...\f stack bug that referenced data after pop
01-02-27 *locale*: a batch of fixes for native LC_MESSAGE&LC_TIME hooks
01-02-22 pathprobe: reprobe test now checks probe.ini too
sfio_s.h: advertize public Sfio_t members with _ prefix
sfio.h,features/stdio: add <sfio_s.h> reference
sfhdr.h: map <sfio_s.h> _foo to foo
sfio.h: SF_APPEND=>SF_APPENDWR, SF_CLOSE=>SF_CLOSING
01-02-14 comp/conf.sh: probe <unistd.h> for _(CS|PC|SC)_* getconf symbols
stdio/*: update for uwin stdio.dll binary compatibility
sfread: finally fixed premature pipe read EOF bug
fmtscale: format tenths for number > 0 && number < 10
01-02-09 _sfmode(),_sftype(),_Sfextern: UWIN binary stdio compatibility exports
01-02-08 sfgetm,sfputm,_sfputm: fix max clash with k&r max() macro
setlocale: undef valid for sun4 k&r valid() macro
01-02-07 catopen.c: don't do native catopen for the debug locale
01-02-06 sfraise.c: add SF_FINAL check to avoid (posibly)
freed disciplines
01-01-01 features/common: fix uwin __DEFINE__
sftable: initialize decimal and thousand
magic.tab: add corel wordperfect document
syslog: add LOG_LEVEL, add '\n' only if needed
include/tm.h: #undef daylight for _WIN32
sfio.h: add _SF_APPEND and _SF_CLOSE for native namespace incursion
ast_std.h: add AST_LC_multibyte for MB_CUR_MAX>1
setlocale: set AST_LC_multibyte

strmatch: check AST_LC_multibyte
features/limits.c: add _BITS_POSIX1_LIM_H guard for linux
features/libpath.sh: fix for aix LIBPATH
procopen,procclose: block SIGCHLD if PROC_FOREGROUND (e.g., system(3))
optget.c: add enumerated option argument values
optget.c: add <!--INTERNAL--> for private --html
optget.c: fix memory leak that hit shell builtins hard
sfio: drop sfread small chunk logic
00-12-25 mnt.c: handle " and ' quoting for fstab
sftmp.c: let pathtemp() open the fd O_EXCL
00-12-15 conf.sh: add -v for verbose trace
features/(limits|unistd).c: no FEATURE/types because
of _POSIX_SOURCE
features/time: add default for CLOCKS_PER_SEC
features/lib: std_malloc now handles NeXT
00-12-13 strton: recognize qualifier only if preceded by a digit
features/lib: change return in vfork() test to exit() for linux sparc
fmtquote: fix $'...' quote logic
00-12-11 tmdate: fix cron format bug that mishandled months
00-12-01 optget: handle $Id: ... $ in --?-version
features/fcntl.c: fix _STDPP_ mmap munmap
00-11-27 magic: drop dup sfclose() in load()
optget: handle error_info.id==0
00-11-22 features/stdio: add _FILEDEFED for sol9.sun4
strton,stronll: handle [u|U][l|L][ll|LL] qualifiers
00-10-31 tmdate: add TM_DATESTYLE and mmddHHMM[cc]yy
astlicense.c: #include <hashkey.h> MAM workaround
astlicense.c: check for non-empty CONTRIBUTORS
00-10-26 features/stdio: add _FILE and __FILE for gnu
misc/stk.c: fix stack pointer check off-by-one (dgk does it too!)
00-10-23 syslog.h: sync with bsd values
00-10-18 _STUB_* now functions instead of common symbols
all
extern data declared with definition to eliminate common symbols
fastfind: add mac/bsd /var/db/locate.database
00-10-17 features/lib: add apple osX (darwin.ppc) workarounds
00-10-12 add: fmtbuf(), fmtclock(), fmtip4(), strtoip4()
fmt*() now use fmtbuf() for tmp fmt buf allocation
00-10-05 regex: add REG_DISCIPLINE and regdisc_t for alloc/error disc
00-09-29 features/lib: pipe_rw==0 for sgi: boot rw == bin incompatibility
00-09-21 astlicense: handle \' and \" in license values
00-09-20 sfwrite: fix write() error in sfprintf() loop
00-08-11 hdr,vmhdr.h: check/hide { getpagesize sbrk } prototypes
astlicense: add noncommercial
00-07-31 fflush: don't seek on pipes
sfresize: add
setlocale: fix bad newof() call
00-06-01 strmatch: initialize match.current.beg[0] to avoid dump at line 670

sfio/stdio: a few more errno tweaks
astquery: sfstdin/sfstderr by default
00-05-26 sfmode: errno=EBADF for invalid stream use
00-05-22 rewind: fix for xopen test
00-05-18 mcfind: returns absolute
path
00-05-16 optget: --keys must catch \f...\f too
translate,mc: errno cleanup
00-05-09 magic: add netbsd binary magic
fts: PATH_RESOLVE!=logical => FTS_SEEDOTDIR
ftwflags: call fts_flags()
astconf: astconf(0,0,0) re-syncs with _AST_FEATURES
00-05-08 optget: --usage & --keys for last -catalog group only
00-05-02 iconv.c: add; use codes[] in ccmapid() and ccmapname(); "" for native
00-05-01 pathtmp: copy env values (libshell or putenv may change)
00-04-01 optget: drop bar from [-foo?bar] for --??keys
sfvscanf: add %X -- duh
features/common: fix va_listval() for power pc
findopen: fix FIND_GENERATE codes file search
magic: add ERROR_translate() and msgcat.key
tmlocale: add for LC_TIME locale info
tmlex: check tm_info.format and tm_data.format
tmfix: fix for tm_wday special case (via nl_langinfo on LC_TIME fields)
strftime: fix for nl_langinfo special case
ast_std.h: provide LC_* defauls if not defined
sfnew: check ${_AST_sfio_bufsize} -- don't tell kpv
catopen,nl_types.h:
add intercept to mc* routines
magic.tab: add ast message catalog
strerror: add _ast_strerror intercept with ERROR_translate("errno")
fmtquote: escapes >0177 only if (flags&2)
00-03-17 feof: stdio macro functions only for _UWIN
optget: proper ERROR_translate() calls
astgetconf: add for thread safe error message control
astlicense: fix type=special but with non-null notice
errorx: add for ERROR_translate() support
ERROR_translate: add locale id args for alternate dictionary
option.h: move _OPT_PRIVATE_ to pointer to avoid dll size mismatch
ftwalk: fix FTW_CHILDREN bug that hit top level non-dirs twice
translate.c: default error_info.translate
astconf: fix dup loop thrash that never returns, add _AST_VERSION
00-03-10 ast_std.h: do _LARGEFILE_SOURCE initialization before std headers
fmtquote: handle $'...' quotes
00-03-07 optget: fix numeric option support test
sfkeyprintf: add %q for '...' quoting with ansi escapes
00-03-06 features/stdio: fix
_sfflsbuf prototype (dingold@gte.net)
00-02-14 pathtmp: fix pid cache bug that sometimes repeated after ~10 attempts

optget: "..." attribute quote
pathfind: eliminate *: prefix in lib, not type
proc: PROC_FOREGROUND for system(3) semantics (wait status return)
pathtmp: fix mktemp() logic
fts: fix FTS_NOSEEDOTDIR bug that botched ./* in top list
include/ast/prototyped.h includes include/prototyped.h
pathpath: fix strdup(0) bug
optget: --html <foo@bar> => ...mailto:foo@bar...
sscanf: fix sfsscanf => sfvsscanf typo
magic.tab: strengthen tar recognition
00-02-08 conf.sh: fix ifdef for systems that think sysconf(FOO) is const
00-02-04 glob: fix globlist_t.gl_flags
00-02-02 vm*: add NoF() for data only files
00-01-27 fts: fix top level .==.. statp bug (thanks to dr. ek)
00-01-25 conf.tab: fix LFS*_*LAGS typo
00-01-24 astlicense: handle type=verbose, license.notice, author=*
00-01-11 pathprobe: generate info for first probe script on PATH - duh
ast.h: add NoF(x) for files
that define no functions
tmpfile: fix implementation
global change for string ERROR_translate() dictionary names
optget: fix new way but no long names off by one
optget: handle [--dictionary?name]
99-11-19 comp/conf.sh: `expr length XXX` is not universal
drop sfstdio; stdio via functions everywhere
drop Makefile conditionals (and follow our own advice for once)
sfio: new stream after atexit() bug fix
tm: Tm_zone_t.daylight=0 for standard time within zone
stdio: fopen => _ast_fopen: only way short of binary compatibility
Makefile: atmain.C falls back to atmain.c
optget: add --keys, s<section> option
stdio: _UWIN check for foreign stdio
99-11-11 astlicense: add
99-10-31 glob: fix regexec pattern; add PATH_ATTRIBUTES case check
pathpath: path==0 means malloc space
99-10-22 tmfmt: %C=2-digit-century, %k=date(1), %y=2-digit-year-in-century
99-10-18 fastfind: expanded default db lookup
99-08-11 magic: fix off by one registry malloc
features/fs: add __RENAME checks
for stat familiy (netbsd)
features/fs: major()/minor() fixes for s5
features/libpath.sh: netbsd fix -- ld.so not in std places
misc/fastfind: fix codes path generation bug
optget: beef up --?* description, fix <TR>...</TR> nesting
pathprobe: check for override (writable key file) first
features/time: int tmtimeofday(struct timeval*);
optget: fix opt_info.num, even if opt_info.arg!=0
fts: FTS_PHYSICAL => FTS_SEEDOTDIR, add FTS_CHOP

fastfind: init dir tab with logical and physical name
glob: add gnu GLOB_ALTDIRFUNC
99-07-17 sfio: kpv update and sfhdr.h sync!
99-06-24 stdio: fix fflush() to ignore sfseek(0) return value
99-06-23 magic: '\r' is text not control to placate m$
99-06-08 stdio: fix fseek,ftell semantics
uwin stdio: fflush() => _doflsh() to avoid __cplusplus clash
getopt: call liberror() to avoid error() conflict
tmfmt,tmscan: %N zone type (nation code), %z zone minutes west offset
tmfmt: - no pad _ space pad 0 leading 0 pad
99-05-28 magic: fix 'x'
== '*' for any number, magic.tab tweaks
features/lib: verify that stat64 really works
99-05-21 tm*: add TM_WINDOW==69 for consistent century windowing guard year
99-05-18 tmtime: add century leap year calc anticipating unsigned time_t
99-05-17 sfkeyprintf: handle %o and %x!!
99-05-09 pathprobe: $HOME/.probe if not suid and st_uid!=geteuid()
99-04-28 magic,magic.tab: add registry()
99-04-24 regcomp: fix ksh pattern +! parse
regfatalpat: add
optget: make : ?] double escape consistent in all contexts
99-04-01 features: drop iffeio.h and stdio.h when only printf() used
regex: fix stats() .l and .k count
fmtquote: added; most general fmtesc() form
99-03-22 fmtesc.c,ast.h: add fmtnesq()
optget: --?x works for -x option flag
99-03-17 features/limits.c: workaround solaris __EXTENSIONS__ _timespec bug
workaround limits.h circular prereq with ignore stdio.h
sfvprintf: %04e left-pad zero fixed
99-03-03 fts: uncle already: add FTS_SEEDOTDIR to retain leading ./
regex: REG_MULTIPLE,
BM for fixed string alternation
optget: embedded `-' optional in long options, prefix={0,1,2}
99-02-14 fastfind: fix dir format bug that emitted wrong paths
astconf: fix redef off by one bug
99-02-11 pathcanon(): don't cache astconf("PATH_LEADING_SLASHES", NiL, NiL)
99-01-23 optget: move <old_opt.h> back into <option.h>, no open-close
optget: add "[index:long-name:description]" for --long-name
comp/gross: add weak __libc_attr for irix < 6.5 compatibility
features/limits.c: tweak the guards again
99-01-11 fastfind: handle old format count byte order
magic.tab: fix elf to use real phdr offset
magic.c,magic.tab: fix | to act like switch/case
comp/fross.c,features/hack: for gross hacks
features/stdio: avoid sfio namespace pollution
98-12-25 tmdate: yyyy.mm.dd
pathprobe: fix procrun() cmd path bug
fmtesq: add

features/common: win32.alpha va_list
magic: add pc alpha object
98-11-11 strmatch: add STR_ICASE
pathprobe: punt to $HOME/.probe/<key+HOSTTYPE> if not
S_ISUID
tmzone,tmdate: handle +-minutes, nn/MMM/yyyy
stropt: fix nested quote pop
tmfmt: add %K => %Y-%m-%d/%H:%M:%S
sfio/stdio: fix fseek() SF_PUBLIC omissions
fmtesc: catch '\\' (duh)
vmalloc: vmbest round bug fix
98-11-01 fts.c: no pathcanon() if (fts_flags & FTS_PHYSICAL)
98-10-01 features/stdio prototype fixes
optget: strton() instead of strtol() for #
98-09-22 regcomp: add REG_DELIMITED and REG_ESCAPE delimited re support
98-09-15 fix _LARGEFILE64_SOURCE stuff
ast_std.h: provide mmap() prototype
98-08-11 fix sfpopen() to ignore SIGPIPE by ignoresig() for sfio but not stdio
fix procopen() to ignore SIGPIPE by ignoresig() for PROC_IGNORE
sfio sfpopen/popen update
magic.src: fix ustar entry
98-07-17 fix ftwalk() short by one malloc()
add fts_notify()
98-06-25 sfdcmore,sfdcprefix: add
98-06-19 tokscan: add %f %g
98-06-01 disc/sf*.c: memset(0) after disc malloc()
98-05-11 strelapsed: y==Y
fts: pathcanon() top list
98-04-01 error: error_info.time for all msgs,
just after cmd id
error: no sfsync(sfstdin)
sfio: sfpool, Sffmt_t update
magic.tab: sgi core dumps -- why aren't these elf?
stropt: (v+n) for unknown option is option value if n!=0
procopen: fix setsid() for spawnveg() only
98-03-19 malloc: add realloc foreign region check
sfdisc.h: rename to match kpv disciplines
fastfind: fix strcasecmp/strcmp directory prefix mixup
98-03-17 features/fcntl.c,pathtmp,sftmp: add O_TEMPORARY
98-03-01 pathcanon: fix PATH_LEADING_SLASHES to stat() both slashes
pathcanon: add PATH_VERIFIED
tmdate: add skip[] to expand separator char set
fastfind: FIND_OLD for old 7 bit db, FIND_TYPE for new 8 bit typed db
fastfind: default generates gnu LOCATE02 8 bit db
magic: handle %s in mime description
cdt: kpv update
sfio: kpv update
stdio: fpos64_t fseek64(), ftell64(), fgetpos64(), fsetpos64()

stdio: fseek() => sfseek(SF_PUBLIC) to avoid locking
fts: initialize parent stat[bp] from top level *after* statf done
astmath: add -lm
requirement test
*: Astlong_t => _ast_*_t
regex: simplify regcollate() (from doug)
tmtime: preserve Tm_t*tm when calling tminit()
astconf: add readonly PATH_ATTRIBUTES=[cirw]
98-02-14 fastfind: add FIND_ICASE to ignore case
tmdate,tmgoff: handle (+|-)hh[[:]mm[[:]ss]] absolute timezone
tmdate: `<n> <part>' now assumes `next <n> <part>' instead of `this'
tmfix: fix leap year bug that forgot to add 1900
proc: add PROC_ZOMBIE
98-02-06 strmatch() char class range bug fix
regex char class range bug fix
98-01-23 _WIN32: changed the #if logic again to accomodate _GNUC_
mnt: grab the mount options too
ast_std.h: hide getopt,getsubopt from stdlib.h
features/limits.c: add gnu guard macros to avoid limits.h recursion
features/mode.c: include "limits.h" instead of "FEATURE/limits.lcl"
98-01-11 sfio.h: use Astlong_t, move Sfio_t Sfdisc_t typedef to top for stdio.h
sfhdr.h: #undef SETLOCAL for hpux
sfvprintf,sfvscanf: %I*x for sizeof(int_arg)
handle ftruncate64 and truncate64

dtopen.c: __hppa dll needs Dtset Dtlist Dttree refs here
97-12-18 fmtnum: add
97-12-11 magic: handle sgi 64 bit core dumps
97-12-07 pathtmp: add override for TMPPATH,TMPDIR and cycling
97-11-11 tm: handle 0 return from gmtime(),localtime() (dos negative time_t)
features/stdio: fix fflush() macro to do physical sync
97-10-31 astconf PATH_RESOLVE is logical if 3d&&!std, metaphysical otherwise
magic: fix #! mime bug
tm: tmtime() now calls tmfix() and adjusts tm_isdst too=>mtime() works
97-10-11 dllfind,dlfcn: move to separate -ldll so -last can link static, duh
Makefile,state.c: move forced header generation state.c => Makefile
sfio: update including SF_WHOLE
97-10-01 sfdostext: add \r\n => \n sfio discipline
stropt: NiL table => p=name for all name=value
97-08-11 pathtmp: check pid to note forks
procopen: FD_CLOEXEC rfd && wfd
fts: fts_close() after fts_children() with no fts_read() now works
97-07-17 error: sfsync(sfstdin,sfstdout,sfstderr) instead of sfsync(NiL)

_sfcvinit: add sfio internal interface to base conversion tables
strton: use _Sfcv* base conversion tables instead of sfsscanf()
sfvscanf: use _Sfcv* base conversion tables
mime: x- permutations now matched if exact fails

mime: original- stripped from content-* headers
tmdate: add yyyy-jjj, yyyy-mm-dd
dllfind: add
ccmapid: fix buf copy loop limit
ccmapname,ccmapcpy: add
sfstrtmp: add
97-05-09 streval: fix up casts for pseudo-ansi cc
features/types: use _ast_int_8 vars to verify support
string/modedata: check for mvs.390 S_IFMT
include/ast(_std).h: add #define __FILE_typedef
magic: add ccode text check
include/ftwalk.h: FTW_PATH=>FTS_NOCHDIR to avoid FTS_AGAIN (duh)
fts: clear status for FTS_AGAIN (fixes rm -r bug)
mnt: add mvs openedition w_getmntent()
sfhdr: _hdr_float && <float.h> for correct MAXDOUBLE
vmalloc/vmbest: if _std_malloc then use malloc()/free() not sbrk()
remove: check _std_remove
procopen: handle pio[{0,1}]=={0,1}
setenviron,features/uinstd:
test for mvs.390 dll environ hacks
96-12-25 <sfio_p.h> -> <ast_common.h>
__EXTERN__(type,object)
__DEFINE__(type,object,value)
magic: check strings in !CC_NATIVE code set too
system: cmd==0 means check for shell access (xopen)
sfhdr.h: fix sfrsrv prototype
add __libc_malloc etc for gnu/linux
astconf(NiL,path,name) == astconf(name,path,NiL) + no liberror
fts_open: if toplist() stat fails return 0
ftwalk: handle fts_open()==0 via one phony userf() call
sfmode: S_ISFIFO default is SF_SHARE=0
features/lib: _WIN32 _lib_vfork=1 by default
unsigned<0 comparison and other fixes via sgi.mips4 cc
stk.c: use <align.h> ALIGN_BOUND for stkalloc()
features/lib,vfork: uwin fix
ast_std.h: fix strto[u]ll prototypes with features/types _ast_int_8
getsubopt: add for xopen 4.2 compatibility
drop function __IMPORT__
magic: more magic
change #define FILE from Sfio_t to struct _sfio_s
state.c: add generated includes that may be hit by std for MAM

bytesex: forgot about sizeof(long)=>7; could we fix the name too?
vmalloc.h: fix vmnewof() definition
sfio.h,stdio.h,ast_common.h: pollution cleanup
magic.c: add | op for switch
Makefile: stdio.h was on both HEADERSRC and HEADERGEN -- don't do that
drop pp:notice to get <sfio.h> ... <ast.h> to work

regex: add [[:<:]]==\< and [[:>:]]==\> for bsd compat
mime.c: ignore X-* headers while scanning for Content-*
magic.c: check for negative indirect offsets
magic.tab: fix dos entry that generated negative indirect offsets
vmalloc.h: add vmstrdup() prototype
hash.h: add hashgetbucket() macro
magic.c: MAGIFILE is now a : file list
mnt.c: another 4.4 bsd fix -- users must include <sys/crap.h>
common: fix _WIN32 chicken&egg with va_copy
sfio: forgot to set f->val along with _Sfi in sfexcept()
Makefile: add mini target for uwin libmini.a
sfcvt.c: workaround for flaky long double optimizers
features/common: fix to work with va_list==void*
regexec.c: fix REG_STARTEND
subexpression offsets
strmatch.c: don't forget <wctype.h>
regrexec.c: fix REG_INVERT end boundary bug that missed last record
astconf.c: notify(0,0,"a=b") called for each setenviron("a=b")
pathcanon.c: check astconf(PATH_LEADING_SLASHES) to preserve //*
96-11-28 _LARGEFILE64_SOURCE by default if possible: NOTE: assumes xopen
regerror: fix for xopen
getopt: fix for xopen
magic: add ciao virtual database
astconf: posix/strict/xopen implies "standard" conformance
fs3d.h: hide mount prototype
ast_std.h,mnt.c,features/fs: ncr port tweaks
96-10-31 version 5.0
add strtoll() strtoull()
sfkeyprintf: upgrade to int_max args
ast.h: add ssizeof() to work around unsigned botch
conf.sh: add shell actions to conf.tab
_DLL*: drop for _BLD_<lib> + __EXPORT__ + __IMPORT__
sfio,cdt,vmalloc: kpv update
96-10-11 <ccode.h>: add character code map support
procclose: return shell style exit status
features/fs: pun statvfs.f_basetype to statvfs.f_reserved7 for mvs

uwin: add subdir for uwin additions
ast_std.h: swab() is from <stdlib.h>
sfio.h: <ast_std.h> if _PACKAGE_ast
magic.tab: add mips[1-4], 64-bit
port tweaks for sol.sun4 and sun4
96-09-06 strerror: add
fmterror: uses strerror
str*search: use sfiso646() order
strpsearch: add
magic: add Magic_t.mime mime type return for magictype()
mime.h: add

strton: use sfsscanf()
strperm: factor in umask() if no who
pathtmp: add TMPPATH check
libevent: add
magic: add discipline to magicopen()
mime: add discipline to mimeopen()
96-08-31 regex: fix BM fail table generator
96-08-11 mntread: fix mnt.type for SCO variant
conf.tab: add SCO KERNEL_* sysconf() vars
fastfind: add findwrite(), fix findread() FF_OFF omission
ftwalk: reimplement on top of fts
fnmatch,re_comp,regexp: reimplement on top of regex
basename,dirname,fmtmsg,fts,ftw,getdate,getsubopt,glob: add
hsearch,nftw,realpath,strftime,strptime,swab,tempnam: add
tsearch,wordexp: add
getcwd: cache last path
for easy test
96-07-17 error: sfsync(NiL) ... write ... sfsync(sfstderr)
astconf: handle readonly *(DEV|DIR) vars
96-04-01 swapop: fix stupid return value bug
features/int.c: fix int_swap generation bug
regnexec,regrexec: fix unsigned underflow init error
ls.h: fix iblocks() to be in units of LS_BLOCKSIZE
96-02-29 magic: space before function is definition with no call
hash: drop hash_info from public interface
hash: OBSOLETE hashlast()
hash: add Hash_root_t.Hash_last_t to public interface
add strsearch() and strnsearch() to complement strlook()
add hashkey.h for keyword->long hash
pathpath: pathpath(0,0,"",0) disables $0 $_ $PWD relative search
sfio: sfstrtod+sfhdr update
regex: fix REG_LENIENT to map BRE \[+?|] to ERE [+?|]
change _std_malloc iffe test so it doesn't hang on alpha
sfhdr.h: features/sfio generates _lib_cvt instead of _i386_cvt
ast_hdr.h: add va_copy(a,b) to copy va_list b to a
getopt: fix stupid getopt() -> optget() bug
sfvprintf: %h?
now downcasts
regex: handle strto?l() errno in regcomp()
sfstrtod: _Sfstrtod_already_defined -> _STUB_sfstrtod
ast_std.h: hide valloc() and ignore <strings.h>
sfkeyprintf: pass phony va_list for '2'
regex: change HIT var type from int to size_t in special()
ast.h: add EXIT_STATUS(x) to convert wait() status to sh exit status
96-02-14 regex: add _ to \<...\> isalnum test
regex: fix BM inner loop breakout
features/types: size_t is signed on some systems! => _ast_size_t
sfio: sfrd discipline peek optimization

vmalloc: vmalloc.h malloc family macro upgrade
tokopen: fix newline bug for non-restore open
sfio: no inline for gcc until it emits for -g too
96-02-12 sfio: internal upgrade
96-02-09 regex: Boyer-Moore boundary fix
vmalloc: snarf latest
96-02-06 regex: add regrecord() and regrexec() for Boyer-Moore record filtering
regex: rearrange regnexec() args to match buffer,count arg style
96-01-31 stk: add STK_NULL to stk.h and stk.c
regex: privatize regex.h and
fix min re length computation
workaround lazy strdup() implementations in features/lib _std_malloc
fix stkclose() to free(stream) -- purify missed because of sfio links
unused var cleanup
port/mnt.c must include <ls.h> to get <ast_fs.h>
add SF_FINAL to sfio and stk
sfio reads now on natural block boundaries
add #!!! <level> <message> !!! to tokline()
add REX_BM pre-filter to regcomp/regnexec
96-01-22 add regcomp env.paren overflow checks
96-01-11 add Doug McIlroy's regex (converted to C from C++ by gsf)
AT&T Research now
sfgetr optimization
regex buglets
96-01-05 tweak magic.tab for win32
95-12-25 add !(...) -> (...)! to fmtre()
nt tweaks -- functions with no header proto must be defined extern
95-11-24 version 4.1
add mnt.h mntopen mntread mntclose
convert fmtfs to mnt.h
add RE_LEFTANCHOR and RE_RIGHTANCHOR
gcc inlines must also have global library function instantiation!
add hashview()
fix strtape() internal buffer flow
fix mntread() fs/dir transposition
for uts mnttab
95-10-31 change features/unistd.c includes to break limits-param cycle
add cdt from kpv
sfio snarf from kpv
add [ht]search for _WIN32
95-10-11 clarify PARANOID pathcheck() warning
fix procopen() LIB_SPAWN environ bug with setenviron() cache
fix setenviron() bug that forgot to reset environ if == 0
add %Z '\0' output format to sfkeyprintf()
sfio snarf for sfvprintf fix
allow multiple hashscan() with scope caveat
add comp/fakelink.h to synthesize a few symlink text patterns
add !<xxx> magic to misc/magic.tab

add FTW_TOP to inhibit recursion (for ftw side effects on top level)
add memfatal() common malloc fatal exception message
add dos \r\n test to misc/magic.c/cklang()
sftmp() O_EXCL+random to avoid collisions
pathtemp() uses sftmp() randomizing
features/fs uses SF_APPENDWR
sftmp() uses pathtemp() -- don't worry, its not circular
a few more _WIN32 compatibility additions
realloc fixed to use VM_RSCOPY|VM_RSMOVE instead of obsolete
1
add hashlook(tab, oldname, HASH_RENAME, newname)
a few more tweaks to satisfy port warnings
add _SFIO_INLINE_PRIVATE to provide real function too
fix <dirent.h> installation test
oops object / shared library compat with _sfgetl2 _sfgetu2
95-09-11 add getopt() compatibility
add fstat,lstat,mknod,stat fixes for _x versions in sys/stat.h
add getconf CONFORMANCE - posix for things that aren't ast default
sfio_t.h: #ifndef _SFIO_H #include "sfio.h" #endif
snarf vmalloc from kpv
95-08-11 fix malloc bug in magic
update linux and bsd 386 magic entries
error_info.auxilliary returns new level, |=ERROR_OUTPUT if msg done
drop fnmatch from strmatch for sparc (solaris) until it collates
95-07-17 fix port/astconf universe initialization
fix misc/optget opt_info.nopt initialization
drop tmset() TZ=... because it only worked when TZ=... was ignored
95-05-09 mongo <ast.h> namespace cleanup
drop > 2 year old obsolete interfaces
sfvprintf.c fix for (char:8 short:16
int:32 long:64) architectures
TMP_MAX back into conf.tab
pathbin() and pathshell() now use astconf()
fix pathtemp() to not cache getenv("TMPDIR")
fix ftwalk() metaphysical to handle non-dirs too
initialize *_info = { 0 }; for ancient ld semantics (NeXT)
fix magic() to do vmfree()
astconf(X_OK) must prefix lines with "getconf"
use <wchar.h> and wctype in strmatch() if available
_lib_utime_now checks utime(path,0)
_lib_poll_notimer checks poll(x,0,timeout)
add another _lib_utime_now check to port/touch.c
fix dd_buf cast in dir/opendir.c
split getconf.h into conftab.h and conftab.c for :READONLY:
use mbtowc() only if MB_LEN_MAX>1
sfio char* -> Void_t* cleanup
handle old syntax in misc/magic.c
sigdata.c holds readonly signal strings

pathcheck() does AT&T checks for tools matching PARANOID - yuk
unused var cleanup
deprecate hash_info in favor of hashlast()
fix bad conf.sh ksh integer interactions
dll cleanup
magic.c falls back to malloc for now

add environ to <ast.h> -- C library global data syms are *RESERVED*
sfhdr.h memccpy(1,2,3,size_t) prototype
95-04-01 version 4.0
convert to vmalloc
allow sigcritical() nesting mismatch to work around vfork() bug
add strexpr() primitive for streval() with user handle (like ftwalk)
add <magic.h> and magic.c file command magic interface
update magic mail message entry
fix keyprintf() invisible char count nesting bug
add sfstrnew(SF_READ|SF_WRITE) for alternate sfstropen() modes
sfstrnew(SF_READ) but reading requires sfseek(), sfreserve()
add conf.tab and conf.sh to nail C/POSIX limits/unistd macros
add getconf() string interface to *conf*
_DLL_INTERMEDIATE_DATA for systems that require indirect globals
_DLL for building shared libraries with _DLL_INTERMEDIATE_DATA
vecfile() restricted to S_ISREG()
add spawnveg() for job control
convert procopen() PROC_PGRP(id) to spawnveg()
fmterror() returns error text given errno (strerror() does same)
fmtsignal()
returns signal text given errno (strsignal() does same)
{sig_name,sig_text,SIG_MAX} -> sig_info.{name,text,sigmax}
liberror("",...) omits [%s library] prefix
update features/signal.c table
add vmdisc() and change vmnewof() to use vmresize()
fix conf.sh to allow refs to previously defined limits
fix undefined entries in getconf()
magic data in magic.tab
fix stropt() pointer cast
vmalloc() exception handler replaces nomalloc()
merge sigdata.c into fmtsignal.c -- sun link needs function w/ data!
sftmp() bug fix
drop local <unistd.h> even with _POSIX_SOURCE
fix vmstrdup() macro arg miscount
fix conf.sh to handle enum'd symbolic constants in unistd.h
drop malloc() et.al. prototypes from vmalloc.h
fix sfvprintf() %d argument reference
add OSF/1 AES symbol(s) to conf.tab
determine standards prefix from conf.tab
add _CS_SHELL to conf.tab
getpath() default is confstr(_CS_PATH)

getshell() default is confstr(_CS_SHELL)
unify keyprintf user function args
(should have learned by now!)
add quad type to magic
add astfeature() to unify universe style dynamic features
add ftwflags() to determine FTW_* flags from astfeature()
95-03-11 fix stropt() to not modify its *const* arg
handle '"\ quotes and chresc() in stropt() values
, treated like :space: between stropt() options
fix procopen() fd dup to ignore self-dups
add library id[] to misc/state.c
add ftwalk(FTW_METAPHYSICAL) for posix -H
sfvprintf() now handles balanced () in %()
add tmfmt() with buffer size check to replace tmform()
add fmttime() calling tmfmt() to fit fmt*() mold
add <keyprintf.h> and keyprintf() to support %(...)? in commands
add Hash_table_t for size==0 in stropt()
add EXTTYPE extended header to tar.h
95-02-14 sfmove() buffer size overflow fix
add _SFSTDIO_H to sfio.h
rename setenv() to setenviron() -- posix finally decided
rename <option.h> opt_* to opt_info.*
update features/unistd.c for _SC_* and _PC_* posix additions
95-01-19 (char*)uchar
cast in fmtesc()
fix hash bucket memory leak in hashlook() [via John Mocenigo]
update strings/strtape()
fix optget()/optjoin() to handle leading +
add ALIGN_ prefix to <align.h> identifiers
95-01-11 change tm/*.c tmset(0) to tmset(tm_info.zone) to keep user setting
fix tmform() %Z null pointer dereference
95-01-01 add this RELEASE file
fix strperm() to properly handle "644 file"
fix tokline() to return last '\0' terminated line in string
fix tokscan() to properly handle \\n splice
add fmtesc() to complement stresc()
add LS_NUMBER to fmtls()
drop spurious optusage() ' '

```
/*
* original code
*
*   James A. Woods, Informatics General Corporation,
* NASA Ames Research Center, 6/81.
* Usenix ;login:, February/March, 1983, p. 8.
*
* discipline/method interface
*
* Glenn Fowler
* AT&T Research
* modified from the original BSD source
```

```
*
* 'fastfind' scans a file list for the full pathname of a file
* given only a piece of the name.  The list is processed with
* with "front-compression" and bigram coding.  Front compression reduces
* space by a factor of 4-5, bigram coding by a further 20-25%.
*
* there are 4 methods:
*
* FF_old original with 7 bit bigram encoding (no magic)
* FF_gnu 8 bit clean front compression (FF_gnu_magic)
* FF_dir FF_gnu with sfgetl/sfputl and trailing / on dirs (FF_dir_magic)
* FF_typ FF_dir with (mime) types (FF_typ_magic)
*
* the bigram encoding steals the eighth bit (that's why its FF_old)
* maybe one day we'll limit it to readonly:
*
* 0-2*FF_OFF
 likeliest differential counts + offset to make nonnegative
* FF_ESC  4 byte big-endian out-of-range count+FF_OFF follows
* FF_MIN-FF_MAX ascii residue
* >=FF_MAX  bigram codes
*
* a two-tiered string search technique is employed
*
* a metacharacter-free subpattern and partial pathname is matched
* backwards to avoid full expansion of the pathname list
*
* then the actual shell glob-style regular expression (if in this form)
* is matched against the candidate pathnames using the slower regexec()
*

12-07-17 iffe.sh: add C code NOTE("...") to ammend --verbose output
12-06-26 iffe.sh: fix "npt foo" to handle function-like macro foo()
12-06-20 package.sh: use $KSH for rt in "results test"
12-06-15 Makefile: add PLUGIN_LIB to $INSTALLROOT/bin/.paths and BUILTIN_LIB => PLUGIN_LIB
12-06-15 package.sh: add PLUGIN_LIB to $INSTALLROOT/bin/.paths and BUILTIN_LIB => PLUGIN_LIB
12-06-13 package.sh: handle admin.db column output
12-06-08 iffe.sh: fix 12-06-06 typo
12-06-06 iffe.sh: check for -l* in reverse and accumulative order (e.g., for -last & -lm)
12-06-04 package.sh: always check $INSTALLROOT/lib/package/profile
12-05-31 Makefile: ID=ast; $(INSTALLROOT)/prototyped.h => $(INSTALLROOT)/$(ID)/prototyped.h
12-05-28 iffe.sh: api foo YYYYMMDD => FOOAPI(rel) test macro
12-05-24 package.sh: change admin.db comment => owner attributes
12-04-25 ratz.c: add sear -k option to keep installation tmp dir on exit
12-04-17 package.sh:
skip sh version logic for ``use''
12-04-17 cc.ibm.risc*: _LARGEFILE64_SOURCE => _LARGE_FILE_API moved to libast/features
12-04-09 cc.ibm.risc*: speak aixese for _LARGEFILE64_SOURCE
12-02-29 cc.darwin.i386*: handle default cc vs kernel bittedness
12-02-29 C+probe: add __TIMESTAMP__ to the nopredefined list
12-02-29 package.sh: don't assume grep -q or /usr/local/lib in LD_LIBRARY_PATH
12-02-29 package.sh: fix ksh vs -lcmd compatibility checks
12-02-23 iffe.sh: checkcc() before checkread() for sensible diagnostics
12-02-14 package.mk: { --clobber --compare --link=lib*.a* } for --mam=static
12-02-14 package.mk: export LICENSEFILEDEFAULT instead of LICENSEFILE
12-02-14 package.sh: handle @(cc|ld).${HOSTTYPE}* intercepts
12-02-07 package.sh: add { clean clobber } actions
12-02-02 regress.sh: fix ulimit -c defaults for --nokeep
12-01-18 regress.sh: add INPUT|OUTPUT|ERROR -e 'filter' to filter before comparison
12-01-21 package.sh: fix `admin make' bug that created unused $INSTALLROOT/lib
12-01-21
Makefile: :PACKAGE: license=ast -- oops
12-01-20 cc.darwin,cc.mvs.390: tmp=/tmp/cc.${USER:-$LOGNAME}.$$.err
12-01-12 package.sh: add admin make share closure to handle alternate HOSTTYPEs
11-12-13 iffe.sh: add /*<NOSTDIO>*/ test code comment to disable default #include <stdio.h>
11-11-11 C+probe: test for .so before .sl
11-10-26 package.sh: don't forget about *.pkg for admin update
11-10-18 cc.*-icc: update and add more
11-10-11 package.sh: handle package make|view when no source installed
11-09-11 package.sh: count admin '*** termination code' errors
11-08-31 mamake.c: add -e, ignore use recursive prereq timestamps
11-08-29 iffe.sh: add ``set stdio try1.h - try2.h ...''
11-08-29 iffe.sh: trap EXIT => trap 0 for ancient sh
11-08-11 iffe.sh: handle ancient sort that doesn't have -k
11-06-01 make.probe: add more /lib64 logic
11-05-01 package.sh: fix admin ditto to sync LICENSES too
11-03-25 package.sh: initialize { $SED $TR } before first use!

11-03-21 package.sh: fix vpath probes
11-03-17
iffe.sh: fix cleanup to rm $tmp* instead of $tmp*.*
11-02-24 package.sh: change curl usage to "curl -L ..."
11-02-11 package.sh,C+probe,make.probe,mamprobe.sh: add ###.*archiac.*###
11-02-02 Makefile: add :MAPLIB: check for ancient -lw
11-02-02 make.probe: handle -print-multi-directory => 64 => /usr/lib64 /lib64
11-02-02 package.sh: HOSTTYPE=*,*cc*[,-*,...] sets CC [and CCFLAGS]
11-02-02 make.probe: handle gcc $ORIGIN link but exec failure -- gee thanks
11-01-25 cc.hp.ia64: bundled cc is a pile of shaving cream
11-01-07 iffe.sh: check debug==3 for is_hdr() failure
10-11-22 ditto.sh: fix timing problem between |& and exec &p
10-11-10 package.sh: fix cc cross compile check to use checkcc absolute path
10-10-10 package.sh: list main env vars at start of make action
10-10-10 ratz.c: tweak widnows delays
10-09-10 ratz.c: add _SEAR_ARGS for _SEAR_EXEC
10-09-01 package.sh: fix ratz from source logic
10-08-25 package.mk: consolidate license file search in .package.licenses.
10-08-22
ratz.c: run sear bootstrap command detached
10-08-20 C+probe: version_stamp only if version_flags works
10-08-17 package.sh: unset makerules *DIR variables in env
10-08-15 package.sh: "make" action now lists some env values
10-08-11 mktest.sh: add "DO command ..."
10-07-27 rt.sh: handle "rt X=Y ..."
10-06-29 ratz.c: non-option sear args passed to sear_exec()
10-06-25 iffe.sh: "api" op changed to not do "map-libc" type mappings
10-06-25 package.sh: "force admin ditto" => no ditto --update option
10-06-22 C+probe: handle cc that require .[ci] input for version info
10-06-21 ditto.sh: change default remote access to ssh (about time)
10-06-12 regress.sh: DISGNOSTICS [1 | 0 | pattern] and fix EXIT for all
10-06-09 package.sh: add AT&T to usable nmake check
10-06-06 iffe.sh,iffe.tst: add { api ver } ops
10-04-22 package.sh: update "html binary|source" NAME/PASSWORD info
10-04-15 iffe.sh: don't forget candidate headers for hdr|sys!
10-04-11 WWW.mk: disable man page metarule -- now done by
admin-man(1)
10-02-14 package.sh: $CC verification needs $INSTALLROOT/bin in PATH
10-02-11 package.sh: fix package admin make report error count
10-02-02 package.sh: fix write binary bug that did scp on local fs
10-02-02 package.mk: up to date binary targets must still be in PACKAGE.*.lst
10-01-01 package.sh: fix premature $INSTALLROOT/bin during cross compile check
10-01-01 make.probe: handle ['"] in CC.VERSION.STRING
09-12-04 iffe.sh: add "opt name" to check for name in $PACKAGE_OPTIONS
09-11-30 mktest.sh: change RESET to STATE.RESET to make it global
09-11-14 make.probe: use gcc { -print-multi-directory -print-search-dirs }
09-11-11 package.sh: re-order and combine cc checks
09-10-27 C+probe,make.probe,probe.win32: add CC.SUFFIX.DEBUG

09-10-21 iffe.sh,Makefile: test -e is not in ksh88!
09-10-06 iffe.sh: handle cc -E #error with 0 exit status (sgi)
09-10-06 package.sh: stub in ar intercept checks -- not used yet
09-10-06 ar.ibm.risc: add ar intercept because some aix require -Xfoo first!!
09-09-24
regress.sh: fix UMASK logic to create test support files before umask
09-08-28 release.c: change docs to mention stdin if no file operands
09-08-24 package.sh: fix isascii() bug that failed on od(1) trailing space
09-08-20 make.probe: add CC.SHARED.NAME
09-08-20 regress.sh: add { JOB CONTINUE EXITED KILL FIFO }
09-08-11 package.sh: filter lines containing : for package results
09-07-31 make.probe: add CC.AR.ARFLAGS (for aix ar -xany)
09-07-31 package.sh,cc.*: fix -dumpmachine to handle 32/64/* bit options
09-06-24 package.sh: fix admin.db output formatting
09-05-05 package.sh: export dll hackery environment vars
09-05-05 package.sh: handle non-identifier hostnames
09-05-05 mamake.c: pass undefined ${...} identifiers to the shell
09-05-05 mamake.rt: add macro expansion regression tests
09-05-01 iffe.sh: fix output initialization *again*
09-04-28 package.sh: handle admin.db contact field $9
09-04-15 iffe.sh: add implicit "ini" op to initialize io for subsequent ops
09-03-31
regress.sh: EXPORT before test => global ENVIRON[]
09-03-26 package.sh: test fail pattern is 'fail[es]'
09-03-26 UNIT - ... appends (options) to command line
09-03-19 TEST.mk: x.tst => x only if x is command target
09-03-15 regress.sh: add ${MAIN} for base name of main unit
09-03-10 TEST.mk: add .SOURCE:tests if tests is a dir
09-03-03 regress.sh: allow command line unit to override UNIT
09-03-03 mktest.sh: handle IO == $'\n'
09-02-02 package.sh: delay $INSTALLROOT/bin/.paths generation until mamprobe runs
09-01-30 cc.mvs.390: c89 balks at [()] in -Dname="..."!
09-01-27 package.sh: add isascii() to use ratz instead of tar
09-01-20 hurl.sh: add --size=bytes option
09-01-08 TEST.mk: add test.* prereqs, multiple arg lists with :T=*: binding
09-01-03 regress.sh: fix UNIT to allow command line override
09-01-03 mktest.sh: handle TWD
08-12-24 package.sh: fix cross-compile HOSTTYPE logic
08-12-15 package.sh,hurl.sh: handle http codes { 301 302 303 }
08-10-16 make.probe '-fno-stack-protector
-fno-stack-protector-all' to cop out!!
08-09-30 rt.sh: fix ksh93 regression test signal count
08-09-26 regress.sh: ignore SIGPIPE for SET pipe-input
08-09-24 package.sh: package only test foo => make --recurse=only recurse tests foo
08-09-20 make.probe: handle another /usr/bin/file shared lib description
08-09-20 regress.sh: add --pipefail for SET pipe-input ...
08-09-17 Makefile: add gdbm1.c for <gdbm-ndbm.h>
08-09-10 make.probe: add CC.NOPROTECT

08-08-08 mktest.sh: add --width=width
08-08-05 dbm.req: favor sleepycat ndbm compatibility
08-08-04 C+probe: fix stdlib initialization logic
08-06-24 package.sh: fix $INSTALLROOT/bin/cc intercept time stamp file typo
08-06-20 TEST.mk: make the localyunit before *.rt => *.tst -- doh
08-06-20 mktest.sh: prepend $PWD onto PATH for local units -- doh^2
08-06-11 regress.sh: fix bug that skipped the last test
08-05-20 regress.sh: add --local to put *.tmp dir in local fs
08-05-05 regress.sh: add IF command ... ELIF command ... ELSE ... FI
08-05-01
package.sh: package test => ulimit -c 0
08-04-28 regress.sh: fix EXPORT quoting
08-04-28 regress.sh: fix UNIT set check args too
08-04-24 rt.sh: exit code > 256 => signal termination
08-04-10 C+probe: change probe_so order to check .so last (macos ld workaround)
08-04-01 package.sh: handle multiple admin HOSTTYPEs per HOST
08-03-28 C+probe: add C++ #include <iostream> (no extension) dir probes
08-03-17 regress.sh: fix trap on EXIT, add terminated note to final tally
08-02-28 make.probe: fix probe_warn to include ld!
08-02-02 make.probe: add CC.RUNPATH to match default -L order
08-01-31 package.sh: check lib64 for LD_LIBRARY_PATH
08-01-31 iffe.sh: tweak ancient /bin/sh workarounds
08-01-28 make.probe: darwin ld export dynamic is -force_flat_namespace
08-01-28 C+probe: handle sgi cc error message but exit 0 botch(es)
08-01-23 package.sh: fix checksum doc typo
08-01-09 C+probe: add __FUNCTION__ to the undef (don't check) list
07-12-14 iffe.sh: add set nooptimize
07-12-03 package.sh: add
LC_ALL=C
07-11-27 package.sh: fix overaggressive *.md5 cleanup
07-11-20 iffe.sh: treat exit status >= 250 as normal error with no signal
07-11-05 package.sh: fix write op error count pattern
07-11-05 package.mk: fix $(~req) .ver binding
07-08-11 probe.win32: add cl.exe setuid workaround, CC.VERSION[.STRING]
07-08-01 package.sh: handle 'package read lcl|tgz'
07-05-08 regress.sh: execute basename instead of absolute path for short $0
07-04-27 cc.sgi.mips[34]: for #error to exit non-zero -- a no brainer
07-04-20 mktest.sh: defer to systems without 'grep -q' -- sigh
07-04-11 mamprobe.sh: handle $(CC.*) => ${mam_cc_*}, $(...) => ${...}
07-04-11 make.probe: fix CC.PICBIG probe, default { CC.PIC CC.DLL } to BIG
07-04-04 iffe.sh: prepend ${tst}${ext} to each .c probe
07-03-28 package.sh: fix binary tgz architecture type duplication
07-03-28 package.mk: add binary write PACKAGE.$HOSTTYPE.lst
07-03-28 iffe.sh: add -F header to mac test
07-03-23 make.probe: handle file(1) that returns 'archive' for
.so
07-03-22 mamprobe.sh: fix STDED probe for implementations that ignore EOF
07-03-11 package.sh: add nocopyright and tst => nocopyright

07-03-11 package.mk: add copyright=0
07-03-08 C+probe: restore IFS after probe.ini
07-02-26 mamake.c: expand first of ${mam_lib*} for ${AR}
07-01-05 package.sh: fix "admin write binary" logic
07-01-01 iffe.sh: add "cmd" --verbose trace
07-01-01 iffe.sh: sort => LC_ALL=C sort
07-01-01 C+probe: LC_ALL=C
06-12-22 make.probe: lean on gcc -v for stdlib, but preserve /usr/local!
06-11-23 package.sh: *.md5 are not tarballs -- doh
06-11-23 iffe.sh: add -F, --features=feature-test-header
06-11-11 make.probe: favor lib64 over lib for hosttype==*64
06-10-31 make.probe: add "-ignore-source-dir -iquote" test
06-10-31 iffe.sh: add status{...} code block
06-10-11 regress.sh: fix DO to handle {...} (time for regress.tst?)
06-10-11 package.sh: handle already gunzip'd *.tgz
06-10-06 iffe.sh: add reference for header content tests
06-09-27 regress.sh: fix UMASK to do
DO too (duh)
06-09-22 iffe.sh: drop -O for npt tests (for msvc intrinsics)
06-09-14 cc.darwin: drop -O until gcc 4.* gets its act together
06-09-11 package.sh: { cc ld ldd } intercepts check ${HOSTTYPE%.*} too
06-09-08 regress.sh: add PIPE INPUT|OUTPUT for pipe io
06-09-05 C+probe: add { probe_version version_stamp version_string }
06-09-05 make.probe: add version stamp comment, CC.VERSION[.STRING]
06-08-27 regress.sh,mktest.sh: add UMASK
06-08-25 regress.sh: add -b,--ignore-space,IGNORESPACE
06-08-25 mktest.sh: add IGNORESPACE
06-08-24 mktest.sh: handle \000 in data
06-08-24 regress.sh: handle -f* for INPUT|OUTPUT|ERROR
06-08-16 package.sh: fix 'install flat' logic
06-08-11 rt.sh: handle style=shell %K date format
06-07-17 ratz.c: fix __MVS__ FAR definition
06-07-17 iffe.sh: "header x.h" -- deprecate "include x.h" for .SCAN.iffe
06-07-17 package.sh: differentiate urls vs. assignments
06-06-27 rt.sh: add --failed, --heading
06-06-27 C+probe,TEST.mk,make.probe,mktest.sh,regress.sh: 'ulimit
-c 0'
06-06-26 cc.darwin.ppc: handle -lcc_dynamic disappearance
06-06-25 mktest.sh: implement PROG
06-06-11 Makefile: add -ldbm :MAPLIB:, provide public MAPLIB.mk
06-05-06 package.sh: add PACKAGE_admin_tail_timeout
06-05-22 ratz.c: upgrade to zlib-1.2.3
06-05-09 package.sh: fix admin.db docs
06-03-11 package.sh: fix `package use - command ...'
06-03-05 make.probe: work around pedantic bash 3.1 mismatched " in `.`
06-02-14 package.sh: "results failed test" == "results test failed"
cc.sgi.*: add _AST_cc_OPTIONS parameterization, -OPT:Olimit=0
cc.linux.ia64-icc: add for intel cc

06-02-02 package.sh: freebsd stuck with os version for all arch
06-02-01 package.mk: fix locale logic (tw -d requires dir arg)
06-01-31 package.sh: require $CC only for make|test
06-01-30 package.sh,hurl.sh: use the backwards-compatible --http-passwd
  package.sh: add more pdksh => /bin/sh checks
06-01-26 package.sh: wget --http-pass => --http-password
  package.sh: fix wget error logic
  hurl.sh: wget --http-pass
 => --http-password
06-01-11 package.mk: pass package.license.class to make --mam too
  package.mk: variants=pattern => --variants=pattern
  package.sh: darwin rel<=7 => darwin7.ppc
  package.sh: freebsd rel<=4 => freebsd4
  package.sh: freebsd rel<=5 => freebsd5
05-12-07 iffe.sh: don't emit <stdio.h> if <sfio.h>|<ast.h> (XXX)
05-12-05 make.probe: disable readonly.exe core dump via ulimit -c 0
05-09-22 mktest.sh: add EXEC [++NOOUTPUT ++NOERROR ++NOEXIT]
05-09-21 mktest.sh: fix --style=shell compare to ignore \r
05-09-12 TEST.mk: all --force to force %.rt regeneration
05-09-05 TEST.mk: regenerate from %.rt only if newer, :SAVE: %.tst
05-08-25 mktest.sh: add
  TEST.mk: add %.rt=>%.tst for mktest
05-08-18 package.sh: 'package host cpu' now checks $NPROC first
05-07-17 iffe.sh: add { define extern include print } ops
  iffe.sh: accept output{...}end output on success only -- doh
05-07-01 package.sh: add TARPROBE for tar B flag probe
05-06-24 package.sh: fix binary read chmod via
 *.sum
05-06-06 package.sh: fix KEEP_HOSTTYPE logic to handle synthesized types
05-06-01 make.probe: verify that cc_pic works for hosted cc
  cc.lynxos.ppc: make -mshared the default
  package.sh: note $INSTALLROOT/bin/@(cc|ld|ldd) installation
05-05-25 make.probe: add CC.INCLUDE.LOCAL instead of -I- in CC.DIALECT
05-05-24 iffe.sh: really fix grouping logic -- with tests this time
  package.sh: pipe/socket configuration mismatches => use /bin/sh
05-04-28 TEST.mk: add $(TESTS)
05-04-19 package.sh: package results test uses rt if possible
  iffe.sh: fix 'op var - ... - ...' grouping logic
05-04-15 rt.sh: handle autom4ate style
05-04-11 regress.sh: fix unit name when command line unit also specified
  rt.sh: handle all ast package test output formats
  package.sh: fix make docs for options passed to underlying make
05-04-08 package.sh: cp -p makerules.mo to $OK to preserve mtime
  regress.sh: add "TITLE name" to change TEST output title
05-04-01 rt.sh: add pretty make test + regress.sh wrapper
05-03-29
 package.sh: test -e path => test -f path -o -d path
05-03-24 make.probe: fix CC.PICBIG probe to prefer -fPIC over -fpic -- doh

05-03-19 mamake.c: command line name=var also defines name.FORCE=var
05-03-11 regress.sh: unset LC_ALL when LC_* EXPORT'd
  package.sh: old make.out saved in circular make.out.[1-9]
  mamake.c: sync with nmake :W=O:
05-03-01 package.sh: fix flat hierarchy initialization
  package.sh: admin action now properly resets sibling remote logs
  package.mk: relax unknown/unwritten package messages to warnings
  package.sh: handle space in command line name=value
  make.probe: add mvs -Wc,dll,exportall,longname,rent to CC.DLL probe
05-02-24 package.sh: hosttype *.powerpc => *.ppc
  cc.lynxos.ppc,ldd.lynxos.ppc: add
05-02-22 mamake.c: fix { -G --debug-symbols -S --strip-symbols } MAMAKEFLAGS bug
05-02-20 probe.win32: handle /platformsdk mount
05-02-19 package.sh,package.mk: add write tst for tgz in tst subdir
05-02-18 package.sh: accept cc -dumpmachine with
 0 or 1 -
05-02-14 package.sh: handle mutiple architectures per host in admin.db
  Makefile,package.sh: honor $INSTALLROOT/bin/.paths overrides
  package.sh: normalize trailing [-_]bits in host type
  iffe.sh: some ksh-compatible shells don't do *(pattern)
05-02-11 iffe.sh: back out 05-01-11 child process stdin hijack
  cc.lynxos.i386: -dynamic instead of -static default
05-02-10 package.sh: cyg usr/doc => usr/share/doc
05-02-08 package.sh: drop -m with pax -- delta bug fixed 2005-02-08
  iffe.sh: work around old bash 0<... redirection bug
05-02-06 package.mk: source.tgz: update generated files only when they change
05-02-02 *.sh,*probe: IFS may be unset and { ash bsh } don't on startup -- wow
05-01-11 package.sh: update setup docs to include authorize+password
  package.mk: fix .source.cyg final directory edit
  package.mk: notice=1 for conspicuous empty NOTICE file
  WWW.mk: fix *-index.html installation
  filter.sh: retain input file suffix in tmp copy
  mamexec.c: fix non-contiguous
 "exec" bug that skipped lines
  iffe.sh: fix candidate lib test to try grouping subsequent libs
  iffe.sh: fix child process stdin hijack that skipped input lines
  iffe.sh: --shell=osh to force read -r compatibility command
  iffe.sh: chop iffe input leading space before # for KnR compatibility
05-01-05 package.sh: add ${TAR} ${TARFLAGS} and tar B flag for pipes
  mamake.c: fix makefile scan to ignore lib*.[hH]
  iffe.sh: immunize function/symbol tests from aggressive -O
04-12-28 WWW.mk: add :WWWPAGE: faq.*.mm index generator
04-12-21 ratz.c: make sure tmp dir is writable -- doh
04-12-08 iffe.sh: fix dat test for aggressive -O
04-12-01 iffe.sh: add `include file' to pull in #define's for `exp'
04-11-11 package.sh: default MAKESKIP is "*[-.]*"
04-10-22 ratz.c: change docs to note zlib license
  mamake.c: handle --debug-symbols and --strip-symbols

package.sh: make (debug|strip)=1 => --(debug|strip)-symbols
package.mk: add :LICENSE: => package.license.class
mamake.c: fix recursive
order logic
04-10-18 package.mk: add :LICENSE:, :OMIT: to omit package subdirs
04-10-11 package.sh: add 'authorize name' and 'password password'
04-10-01 iffe.sh: double check $static link with ! $static
Makefile: add BUILTIN_LIB to $INSTALLROOT/bin/.paths
make.probe: add CC.DIALECT EXPORT={ALL,REF,EXT,DLL}
package.sh: add BUILTIN_LIB to $INSTALLROOT/bin/.paths
04-09-21 package.mk: $(init)$(name) is now an implicit prereq
04-09-09 package.sh: copy makerules.mo to $INSTALLROOT/bin/ok
04-09-01 package.mk,package.sh: rename *.txt => *.README
package.mk: add the runtime package type (no *.[ah])
iffe.sh: fix key test reports
04-08-26 Makefile: { add m2.c m3.c } -lm tests for { frexp[l] ldexp[l] }
04-08-11 package.mk: handle HOSTTYPE for solaris > 9
package.sh: add `checkaout proto' for { make view }
package.sh: check for { md5sum md5 }
iffe.sh: add {if|elif|else|endif} test ...
iffe.sh: add 'exp - expression' and '(expression)'
iffe.sh: add 'name = test ...' user
defined macros
iffe.sh: add '! test ...' negation
TEST.mk: add implied { .c .sh } generated prereq
cc.darwin.ppc: handle 10.3 -dylib mess
04-08-01 package.mk: let include handle nested requirements -- duh
04-07-31 package.sh: attempt a second ping before admin assumes host down
04-07-26 package.sh: fix hp.ia64 HOSTTYPE
04-07-23 probe.win32: generalize #include dir order search
04-07-17 regress.sh: add INPUT -x for chmod +x
04-07-01 regress.sh: TMP => TWD
04-06-29 regress.sh: put COMMAND in $TWD too
04-06-21 regress.sh: mkdir -p INPUT and OUTPUT intermediate dirs
TEST.mk: add :TEST: -- to disable .c .sh search
04-06-18 TEST.mk: add .SCAN.tst
04-06-17 regress.sh: TEST returns true if active, false otherwise
regress.sh: add CD to change test pwd from $TWD
04-06-16 regress.sh: add TWD for ./unit.tmp override
regress.sh: DO now flushes previous test
regress.sh: INPUT and OUTPUT handle -f for printf instead of print
04-06-11 package.sh: make sure $INSTALLROOT/bin is in front of
$PATH
package.sh: skip nmake if older than 2000-10-31
04-05-20 package.sh: fix arg vs. package parse with - or '' to disambuguate
04-05-11 package.sh: package verbose update lists closure for package setup
package.sh: add src/lib/libardir to nmake proto bootstrap
regress.sh: probe for rm -u vs. chmod -R u+rwx

04-05-01 package.sh: $CC must be C, not C++; allow release command on $PATH
04-04-15 make.probe: check probe_libdir false positives
  package.sh: add lib/package/*.lic src package subdirs
  package.mk: add mamfile=0 to inhibit Mamfile generation
  iffe.sh: config name_DECLARED => HAVE_name_DECL
  iffe.sh: fix mac to handle default value
04-04-11 iffe.sh: normalize sed [\\\/] quoting
04-04-04 package.mk: only checksum generated tarballs
  mamprobe.sh: add STDCHMOD
04-04-01 C+probe: set export LANG=C for uniform error messages
  make.probe: another CC.STDLIB tweak
  package.sh: fix regress core dump pattern, expand [a-z] match ranges
04-03-31 Makefile: add intl :MAPLIB: test

 make.probe: fix CC.STDLIB search; drop CC.* path duplicates
04-03-28 iffe.sh: drop unused exec $stdin<&0 dup
04-03-25 Makefile: add iconv :MAPLIB:
  package.sh: use ${PING:-ping -c 1 -w 4}, allowing admin.db override
04-03-24 package.mk: add *.md5 checksum for each *.(c|exe|tgz)
  package.sh: update base change on md5 sum instead of size
  iffe.sh: adjust case label \ and keyword quoting for ancient /bin/sh
04-03-22 probe.win32: ncc => nld
04-03-19 CONVERT.mk: change the instructions and old source dir default
  package.mk: fix recurse=list check
  package.mk: add *.md5 checksum for each *.(c|exe|tgz)
  package.sh: fix update base/delta/sync existence check
04-03-18 iffe.sh: -d2 does not remove core dumps on exit
04-03-17 package.sh: fix make recurse arg/action order
04-02-29 package.sh: add regress action to compare current and previous tests
  package.sh: fix sgi.mips[23] HOSTTYPE test for old irix cc
  package.sh: add `export variable ...'
  package.sh: admin action now handles host
 name with non-id chars
  package.sh: non-numeric M T W in admin.db disables that action
  package.sh: fix admin write binary local vs. shared clash
  cc.hp.pa: add _AST_CC_hp_pa_DEFAULT=+DAportable
  cc.hp.pa64: sync with cc.hp.pa
  cc.ibm.risc: -bnolibpath => -blibpath:/usr/lib:/lib
  probe.win32: sync with make.probe
  make.probe: fix last chance dynamic test
  make.probe: add hp.pa CC.EXPORT.DYNAMIC -Wl,-E
  make.probe: add ibm.risc CC.EXPORT.DYNAMIC -bexpall
  make.probe: move probe_dll_def to the end of probe_dll
  package.mk: capture subcomponent mamfile recursion
04-02-24 make.probe: strip "..." from cc/ld traces
  iffe.sh: add ``set [no]define" to disable macro #define/#undef
04-02-23 make.probe: rework CC.LD search
04-02-14 make.probe: add CC.EXPORT.DYNAMIC for main dynamic sym export

make.probe: resurrect CC.PIC with separate semantics from CC.DLL
make.probe: add CC.SHARED.LD for CC.SHARED linker
C+probe: clear DISPLAY to stifle interactive windows
04-02-11 iffe.sh:
handle ``siz void*'', add cross{ ... }end
make.probe: add { CC.AR CC.SIZE }, fix cross command search
cc.darwin.ppc: change $cc => $CC for old ksh + libast conf bug
04-02-09 make.probe: drop -nostartfiles from CC.SHARED for C++
04-02-04 package.sh: fix cross compilation bug that mixed binary formats
04-02-02 package.sh: package admin now ditto's bin/package too
04-01-30 cc.sgi.mips3: drop warning 3421
04-01-11 regress.sh: output label#count for tests in loops
04-01-05 regress.sh: fix bug that ignored the first SAME
04-01-04 crossexec.sh: fix typo that did not recognize rcp
03-12-19 mamake.c: add `foolib:foo:libfoo' to recurse()
03-10-11 regress.sh: add EXPORT, export COLUMNS=80 for message consistency
03-09-23 ratz.c: fix tar header number parse bug that skipped to next number
regress.sh: rm cleanup now handles files matching -*
03-09-11 iffe.sh: add unnamed { ... } blocks
regress.sh: add COPY from to, like MOVE but comprison still done
regress.sh: rm -rfu to handle test dirs
w/o u+rwx
03-08-14 Makfile: add hello.c to the manifest
03-08-11 package.sh: fix `html binary' generation
03-06-21 package.sh: fix INITROOT initialization bug
package.sh: make sure admin logs exists before tail'ing
03-06-11 probe.win32: fix $(BINDIR) typo that expanded in sh instead of make
cc.mvs.390: return code 4 yields exit code 3 but its *really* ok
package.sh: fix onpath function global var conflict
make.probe: add CC.DIALECT { GNU -dD }
package.mk: add Mamfile to lcl manifest
03-06-10 package.sh: fix setup action typo that only checked the INIT package
package.sh: *.s390x => *.s390-64
03-06-09 package.mk: add cyg :POSTINSTALL:
03-06-08 make.probe: fix CC.STDLIB logic
hurl.sh: add User-Agent identification
package.sh: tweak source and binary installation instructions
cc.hp.pa,ld.hp.pa: +-Wl,+cdp,${INSTALLROOT}/lib/: drops abs lib paths
ldd.hp.pa: add
03-06-06 package.sh: fix $INSTALLROOT/bin/ldd check
make.probe: add CC.STDLIB verification
03-06-04 make.probe:
add +forceread +noforceread
03-05-11 hurl.sh: handle http://host:port/path
03-05-06 package.sh: fix setup action PACKAGEROOT and INIT logic
03-05-05 package.mk: fix cygwin tarball names
03-04-30 package.sh: move (cc|ld|ldd).$HOSTTYPE updates from Makefile
03-04-27 make.probe: fix mvs CC.PREFIX.SHARED "lib" => ""

make.probe: add CC.DLL.DIR = $(BINDIR) or $(LIBDIR)
make.probe: add { CC.LD.LAZY CC.LD.NOLAZY CC.LD.RECORD CC.LD.NORECORD }
probe.win32: sync with latest CC.*
03-04-25 mamprobe.sh: add args to `. $makeprobe' for ancient sh
03-04-23 package.mk: fix dup "covered by" licenses
03-04-22 probe.win32: CC.DIALECT += "LIBPP -I-" for all cc's
package.sh: fix admin write binary tarball snarf
03-04-21 package.mk: package covered *.@(pkg|lic) too
03-04-15 package.mk: don't generate incremental archives for lcl
package.mk: add incremental=[source:1 binary:0] archive control
package.sh: generate $INSTALLROOT/bin/cc wrapper for CC != cc
package.sh: admin must ditto lib/package/*.@(pkg|lic)
too
mamake.c: ignore time of ignore prereqs
mamake.c: -D2 lists propagated times
03-04-11 package.mk: tidy up cyg tarballs
package.sh: fix old shell clash between get() and $get
03-04-05 package.mk: restore *.inx generation somehow lost during cyg additions
package.sh: add pthread_num_processors_np() last resort for cpu count
package.sh: use `make believe' to accept mamake generated files
package.sh: handle `make [make-flags] [target ...]'
mamake.c: ignore -e
03-03-21 package.mk: fix cyg old make typo
package.sh: switch to `package setup' instructions
03-03-19 package.sh: add registry checks for `host cpu'
package.sh: `results failed' now lists core dump messages
03-03-17 package.sh: on cygwin verify 'ntsec binmode' in $CYGWIN or die
Makefile: install gcc wrapper if no cc
package.mk: add :DETAILS: { :README: :EXPORT: :INSTALL: :TEST: } ops
03-03-12 package.mk: add :DETAILS: for style-specific details
03-03-11 package.sh: add beta setup/update support

TEST.mk: add (TESTCC) prereq for .sh tests
03-03-07 hurl.sh: add
03-03-06 iffe.sh: fix lib win32 test cygwin vs native incompatibility
iffe.sh: change internal stdio.h guard to handle C++ inline vs. macro
03-03-03 package.sh: check for curl or wget for update
package.sh: add setup action == update read make
package.sh: fix packageroot() typo that showed up in non ~user shells
mamake.c: treat name+=value args like name=value
mamake.c: add ${var?*|value?match?no-match?}
mamake.c: fix archive vs. dynamic bind logic
03-02-28 package.sh: add the "cyg" (cygwin) package type
package.mk: add "cyg" stubs, :CATEGORY: for category name(s)
03-02-25 mamake.c: add -D4 system(3) debug trace
03-02-24 package.mk: change --mismatch to --corrupt=accept
03-02-14 ratz.c: add _WIN32 setmode([01],O_BINARY) and fopen "rb"/"wb"
03-02-12 Makefile: handle getconf LIBPATH with host pattern

03-01-31 package.mk: fix .lic search
03-01-30 package.sh: handle { INIT ksh nmake } already installed elsewhere

package.sh: admin handles command outside of $PACKAGEROOT/bin
Makefile: install $(INSTALLROOT)/lib/make/package.mk
03-01-28 package.sh: admin remote commands on one line to please syslog
03-01-23 probe.win32: borland and mingw32 tweaks
03-01-22 package.sh: fix $CC test to ignore set -x trace -- duh
03-01-16 ditto.sh: tw --chop on by default
03-01-14 package.sh: use /bin/cp to copy previous binaries to bin/ok/
package.sh: admin now initiates remote exec and copy from local host
03-01-12 package.sh: handle admin "xxx:" default root
03-01-03 probe.win32: add /usr/include/borland path truncation workaround
02-12-10 iffe.sh: add <&$nullin >&$nullout to checkread() $cc
02-12-06 probe.win32: fix inlcude => include typo, add lcc lib
probe.win32: CC.MAKE.OPTIONS = nativepp=0
02-12-04 mamake.c: fix ${foo-bar} to expand foo if defined
02-11-28 probe.win32: add C++ and -I- CC.DIALECT checks
02-11-26 package.sh: package release now checks for second level files
02-11-22 package.sh:
update action now uses HTTP/1.0
02-11-21 probe.win32: update the vc include dir test
02-11-20 make.probe: fix CC.LD.ORIGIN typo that expanded make var
02-11-13 packahe.mk: fix list.install => list.installed typo
02-11-12 make.probe: add CC.LD.ORIGIN for a.out origin dir relative dll search
make.probe: add CC.LD.STRIP for link time a.out strip
package.sh: fix package_use vs. PACKAGE_USE check
02-10-24 WWW.mk: fix bug that required a :WWWBIN: assertion to post
02-10-23 mamake.c: fix unuinitialized time in make()
ratz.c: fix meter buffer overflow
02-10-20 package.sh: fix lib/probe/C/make/probe update test
02-10-18 probe.win32: update for mingw
make.probe: add bash workaround to SHELLMAGIC test
package.sh: work around yet another cygwin hassle
02-10-17 iffe.sh: short circuit id check for *[-+/\\]*
02-10-08 regress.sh: unset FIGNORE to avoid rm . errors
package.sh: unset FIGNORE to avoid rm . errors
package.sh: $CC must at least compile and executable hello world
02-10-04 package.sh:
$INSTALLROOT/lib/package/tgz=>$PACKAGEROOT/lib/package/tgz
package.mk: $(ED) => $(STDED), $(EDFLAGS) => $(STDEDFLAGS)
iffe.sh: add identifier checks for tests that (implicitly) require them
iffe.sh: disambiguate a few --config macros
02-10-02 iffe.sh: fix shell=bsh `hdr a/b'
02-09-30 package.sh: handle chmod of -* files
package.sh: verify that $SHELL is Bourne compatible
package.sh: tighten PACKAGE_USE logic PATH,LIBPATH,etc. validation
iffe.sh: fix bug that didn't define mac variable on success

02-09-22 package.sh: handle admin_action=ditto
  iffe.sh: --config sizeof(foo) macro is SIZEOF_foo
  iffe.sh: fix long.long test so it doesn't defeat uwin "typ long.long"
  mamprobe.sh: convert $("foo") nmake string constants
02-09-21 mamprobe.sh: "-" info-path writes probe info to stdout
02-09-11 make.probe: move from nmake src to be part of mamprobe.sh
  mamprobe: generate from mamprobe.beg C.probe make.probe mamprobe.end
  mamake.c: pass cc absolute path to mamprobe
  package.sh:
 generate mamprobe -- yuk (at least its confined to INIT)
  iffe.sh: lcl,nxt: drop default sys/ check
  ditto.sh: tw --logical by default; add --physical
02-09-10 package.sh: SHELLMAGIC creeps into package too -- duh and fooey
02-09-09 ditto.sh: test that remote .profile exists before sourcing
02-09-06 package.sh: don't ditto nfs junk
  ditto.sh: --show now lists directory ops instead of enumerating all
02-09-05 ditto.sh: add --remote={rsh|ssh}
  package.sh: add admin [[{rsh|ssh|-}]:]directory
02-09-02 iffe.sh: change 'print -r --' to 'print -r -' for ksh86 compatibility
02-09-01 cc.unix.mc68k: add for ancient 3b1
02-08-22 package.sh: fix component() to test for components -- duh
  Makefile: add LICENSE:.DONTCARE to workaround mam
02-08-11 iffe.sh: provide defaults for LD_* additions
02-08-07 ratz.c: change -m to use * instead of non-portable inverse video
02-07-17 mamprobe.sh: close tmp file in trap before rm for cygwin
  package.sh: fix "type" to handle i1586 (P4)
  package.sh:
 add the view action
02-06-28 package.sh: handle multiple packages for release action
02-06-27 package.sh: catch sol*.sparc=>sol*.sun4 when CC=gcc
02-06-14 package.sh: fix admin_action to not include qualifiers
  package.sh: fix help/html doc typo
02-06-11 package.sh: fix ditto update doc to `PACKAGEROOT field matching *:*'
02-06-07 WWW.mk: change substitute $("\n") to \n
02-06-06 package.sh: clarify output streams for help/html
02-05-22 mamake.c: fix executable file check to use (S_IXUSR|S_IXGRP|S_IXOTH)
02-04-04 package.sh: fix update to differentiate *.sun4 and sun4
02-03-27 package.sh: yacc/bison warning only if both missing
02-03-24 mamake.c: all shell actions wrapped with -c to avoid #! problems
02-03-23 package.sh: recover $PACKAGEROOT/bin/package if not in INIT package
  package.sh: precheck $CC, not `cc'
  package.sh: fix install to use pax -ps to preserve set-uid/gid
  package.sh: fix install to use list.installed for existing files only
02-03-17 package.sh: fix PAX initialization
 that was sometimes omitted for read
  package.sh: fix update delta sync fetch
02-02-14 iffe.sh: fix macro{ }end docs to include "
  iffe.sh: add dfn to extract #define from headers

iffe.sh: handle nxt #include ok but no line sync
iffe.sh: drop local header clash logic
iffe.sh: add -X, --exclude=dir to exclude -I dirs
iffe.sh: lcl,nxt now generate <...> headers instead of "..."
package.sh: admin.db root dir matching -* disables host
package.mk: fix package.src.pat typo -- too many)
package.mk: add { :COVERS: :DESCRIPTION: :REQUIRES: }
package.sh: handle { :COVERS: :DESCRIPTION: :REQUIRES: }
Makefile: move proto.c generation to the proto component dir
02-02-02 execrate.sh: add for .exe challenged win32 systems/commands
mamprobe.sh: add STD* commands/flags
mamake.c: update mamprobe info when older than mamprobe executable
package.sh: move ed/ex workaround to mamprobe.sh
package.sh: fix `host type' bug that incorrectly assumed sun4 for sol
package.sh:
add execrate(1) hooks for challenged systems
package.sh: add check for { cc ar nm yacc/bison } before make
ratz.c: fix "rb" vs. "r" macro tests
iffe.sh: add nxt, similar to lcl but defines _nxt_foo for #include
iffe.sh,package.sh: remove vaibale from sccs,cvs ident strings -- duh
02-01-24 C+probe: check CC.DYNAMIC to handle cc that accept but ignore -B*
iffe.sh: handle 'mem struct.a.b'
02-01-22 iffe.sh: cache (internal) `foo vs. struct foo' test results
package.sh: uts.370 => uts.390
02-01-18 package.sh: fix uts hosttype
02-01-17 package.sh: add 'results failed ...' to list failures only
package.sh: change ARCH internal var to all_types to avoid env conflict
iffe.sh: fix hdr/lib precheck that missed some -- ouch
iffe.sh: fix noexecute test that forgot to check compile first!
02-01-15 ratz.c: fix path[] type typo
02-01-01 package.mk: tighten license search
02-01-08 package.sh: `pwd` => ${PWD:-`pwd`}
package.mk: expand license file pattern match
02-01-04 iffe.sh: fix
`exp name "value"' bug that duped "value"
iffe.sh: fix initial <sys/types.h> check to honor --config
01-12-25 iffe.sh: fix bug where -o file restored old file
01-12-23 package.mk: uniq the closure lists
01-12-07 ratz.c: fix --meter to retain paths containing " -- "
01-11-30 ratz.c: use sear_system() to execute; should work on all windows
01-11-28 ratz.c: fix sear_rm_r() to check SetCurrentDirectory() status
01-11-26 ditto.sh: drop n+=v for ksh compatibility
01-11-21 ditto.sh: add rsync script replacement [hey, it works!]
package.sh: add [ditto]:directory notation to admin.db
01-10-31 package.sh: handle *.sum paths with embedded space
package.sh: change executable() to onpath()
package.sh: executable([!] foo) replaces test [!] -x foo (.exe hack)
package.sh: add os2 fix to `host type'

mamake.c: add .exe hack
iffe.sh: fix intrinsic function lib test
mamprobe.sh: update pic probe to match make.probe for linux.ia64
01-10-30 package.sh: make action skeleton view now checks subdirs
01-10-20
package.sh: don't recurse into leaf dirs matching $MAKESKIP
package.mk: tarball package.notice replaces `license accepted' prompt
package.sh: eliminate `license accepted' prompt
package.sh: add update to download latest from a url
package.sh: use builtin arithmetic when we know its ksh
iffe.sh: unkown -> unknown
01-10-18 package.sh: convert to YYYY-MM-DD delta releases instead of NNNN
package.mk: convert to YYYY-MM-DD delta releases instead of NNNN
ratz.c: fix -m for paths containing \f\n\r\v
01-10-16 ratz.c: _SEA_* => SEAR_*
ratz.c: preserve stdin for sear_exec()
ratz.c: add recursive sear_rm_r() to sear_exec() tmp dir cleanup
01-10-10 mamprobe.sh: add mam_cc_SHELLMAGIC
package.sh: add nfs wakeup call to admin to avoid stale file handles
01-10-04 cc.darwin.ppc: -flat_namespace is not longer the default (huh)
01-10-01 package make: prepend $INSTALLROOT/bin/ok to PATH
package read: save cpy of bin/package when reading the INIT package
mamprobe.sh:
allow cc path with optional arguments
01-09-24 Makefile,package.sh: add $INSTALLROOT/bin/.paths initialization
01-09-19 package.mk: add recurse to list.package.*
package.sh: bootstrap build nmake with _BLD_STATIC for _WIN32
01-09-11 ratz.c: add _SEA_SKIP & _SEA_COMMAND for self extracting archives
01-09-07 package.mk: fix output capture to not generate files names with spaces
01-09-07 package.mk: fix delta release number search
01-08-11 package.mk: handle single gz executable packages (e.g., for ksh)
package.sh: fix package install to require nmake only if no *.sum
iffe.sh: drop ancient menu and prompt actions; check ./hdr.h clash
01-07-17 package: fix use cross compile test to generate files in /tmp
01-06-27 ratz: handle hard and soft links if possible
01-06-07 Makefile: fix :MAPLIB: for sco
01-05-31 crossexec.sh: add
iffe.sh: add -x crosstype to run crossexec
iffe.sh: exp test now handles pass{}end fail{}end yes{}end no{}end
package.sh: add package host canon external-host-type-name

package.sh: fix `use USER' lookup for shells that support ~USER
cc.*: add -dumpmachine to dump target HOSTTYPE
01-05-18 iffe.sh: drop $HOME/tmp/t.sh debug trace -- oops
01-05-01 mamake.c: scan() now handles :PACKAGE: foo:command
01-04-26 *.sh: expand [a-z][A-Z][0-9] for non-contiguous character codes
iffe.sh: fix run *.sh for shells that don't $* across . command
cc.mvs.390: recode for /bin/sh

01-04-25 package.mk: include non cc-g variants by default
  package.sh: *[._]* => *?[_.]* for mvs.390 /bin/sh
01-04-24 TEST.mk: no tests for VARIANT=="DLL"
01-04-22 package.mk,package.sh: tarball text members are ascii encoded
01-04-18 package.mk: allow package name to be the same as one of its components
        cc.mvs.390: handle .C .cpp .cxx
        cc.mvs.390: compensate for -o that does not overwrite
01-04-01 regress: fix SAME that just skipped it -- we should regress regress!
  iffe: fix bug that didn't emit _hdr_foo for internal hdr tests
  iffe: fix lcl bug for cc -E
 that doesn't emit line syncs
  ratz: add ascii=>ebcdic conversion for text archive members
  mamake: fix buffer overlap bug that clobbered the probe file path
01-03-17 iffe: handle : separator as first arg
01-03-15 mamake.c,ratz.c,release.c: add <stdlib.h> and <string.h>
01-02-26 iffe.sh: fix bug that omitted runtime #define for `mac' op
01-02-22 cc.ibm.risc: handle SF_CLOSE clash in <sfio.h>
01-02-14 cc.sgi.mips3,cc.sgi.mips4: handle -mips2 -mips3 -mips4 for cross cc
  C+probe: quote "$cc" when its an argument!
  mamake: execute actions with $SHELL, ignored signals back to default
  package.sh: nmake check error output to /dev/null
  package.sh: fix INIT a.out updates for knr cc
  package.sh: package list now handles large tgz dirs
  package.sh: *-ok executables moved to ok/* for *.dll systems
  iffe.sh: change "exec >&-" to "exec >/dev/null" else linux mkdir fails!
  mamake: handle `bind -lx [dontcare]'
01-02-12 ratz.c: fix _PACKAGE_ast includes
  package.sh: $HOSTTYPE env overrides
 if $PACKAGEROOT/arch/$HOSTTYPE/
  package.sh: $CC ^HOSTTYPE=[A-Za-z_0-9.]*$ overrides HOSTTYPE
  iffe.sh: fix dat code that used previous $tmp.exe
  iffe.sh: fix dat code for _DLL imports
01-02-09 iffe.sh: add copy() for shells with the dissappearing here doc bug
01-02-08 Makefile: guard against null $(CC.HOSTTYPE)
01-02-06 Makefile: separate out cc,ld,ldd workarounds (so they will be packaged)
01-02-02 package.sh: fix package use for $INSTALLROOT != */$HOSTTYPE
  package.sh: create intermediate recursion makefiles when needed
  package.sh: add $SECONDS to the DEBUG trace prompt
01-01-01 ratz.c: #ifdef for uwin ncc
  iffe.sh,package.sh: check PACKAGE_PATH for local installations
  package.sh: add psrinfo for osf.alpha host cpu
  package.sh: change pax --meter probe; some hang on /dev/tty
  package.sh: fix `install flat ARCH'
  mamake: eliminate loops from scan order
  C+probe: add probe_verbose -V for aix cc=xlc
  cc.ibm.risc,ldd.ibm.risc: add
  package.mk: list refs to top-level licenses

only
package.mk: add local link table to change log html
00-12-25 package.sh: `no package archives' is a hard error, duh
package.sh: reorder host type logic for lame shells
mamake.c: getcwd => getwd for NeXT -- how about posix==default guys
iffe.sh: really gross workaround for NeXT -lposix stdout null's
iffe.sh: handle cc -E that insists on compiling
00-12-15 iffe.sh: ancient sh function call blows $*; call only when $# == 0
*.sh: `getopts 2>/dev/null` => `(getopts)2>/dev/null` for ancient sh
package.sh: fix LD_LIBRARY*_PATH initialization
cc.next.m68k: add for _POSIX_SOURCE and linker multiply defined syms
00-12-12 ratz: add --meter
package.sh: a few VPATH fixes
Makefile: don't override *.mips* cc if -version not accepted
00-12-11 package.mk: *.inx now contains name=value
00-12-07 package.sh: handle PC netscape . => _ pathname mangle
WWW.mk: .tar.gz => .tgz
00-11-27 package.sh: add checklicense() to do license checks at read time
package.mk: change component
list from preformat to table
00-10-31 package.mk: *.pkg must assert closure
package.mk: add cc- variants to list.package.binary
package.sh: omit dups from package list
package.sh: invalid arg gives one line Usage
package.sh: relax checkaout checks for non-owners
package.sh: package use sets NPROC if not already set or [01]
proto.c: add $(INSTALLROOT)/include/ast hack
00-10-26 WWW.mk: add .SOURCE rhs to :WWWPAGE:
00-10-25 package: fix install
package.mk: add list.install
00-10-22 regress: fix VIEW to skip empty dirs
00-10-19 package.mk: $(PACKAGEROOT)/bin/nmake => $(PACKAGEROOT)/bin/manmake
iffe: validate #define identifiers
00-10-18 C+probe: mac os10 additions
package: add DYLD_LIBRARY_PATH initialization
add ldd.$(CC.HOSTTYPE)
00-10-01 iffe: handle -I* -L* options
00-09-21 mamake: add libxxx and xxx to makefile ordered prereqs
00-09-19 C+probe: add probe_longlong
00-09-11 package: drop manmake and $PACKAGEROOT/bin/nmake
00-09-08 iffe: verfiy that $cc is a C compiler
00-06-14
mamprobe: fix win32.* probe
mamake: fix bug that used lower view path for generation
package: don't clobber $PACKAGEROOT/bin/nmake
00-06-01 C+probe: fix stdinclude *again*
package: fix write delta source to use default pax format
package: add disambiguating bias for sgi.mips3 over sgi.mips4

package.mk: fix for directory content packages lib ast-locale
00-05-01 iffe: fix invalid _LIB_ macro identifier
00-04-11 C+probe: uniq stdinclude and stdlib, fix usrinclude
00-04-01 regress: fix explicit OUTPUT bug that didn't compare with expected
00-03-17 package: all archives are .tgz for binary download
package: $(PACKAGEROOT)/LICENSES/* in source and binary archives
package: implement install and verify actions
iffe: add exp, pth file dir ..., fix lib - -lfoo, fix lib - - -la -lb
iffe: -L* must affect LD_LIBRARY* hacks for .exe tests -- yuk
package.mk: add *.pkg :INDEX:
00-03-07 package: add admin action
00-03-06 makefile: install optional make probe override
script C+make+probe.lcl
00-02-14 --- release 1.0 ---
ratz: treat "foo/" as a dir, not a regular file
package: clarify source and binary installation instructions
package: fix so binary packages can install without cc
package: "ratz" now a non-archive package (the only one) for bootstrap
package: handle VPATH=a:b arg
package.mk: "ratz" package adjustments
Makefile: use :PACKAGE_INIT: to support binary INIT packages
WWW.mk: add :WWWALL:
C.probe: fix .so check that let .dll slip through
iffe: fix config sh var assignment for HAVE_member_IN_struct
iffe: fix config sh var assignment for symbol_DECLARED
package: delay PATH export until dll hack exports complete
package: don't forget binary package $(INSTALLROOT)/lib(32|64)
package: add delta change log for source packages
00-02-10 mamprobe: add mam_cc_DLLBIG
package: fix spelling typos
package: add html help output
package.mk: beef up source and binary help => html
00-02-08 package: mkdir man/man[138] in the
new arch to cover MAM bug
00-01-28 package,release: add -rcount to release
package: fix linux "host cpu" and "host rating"
package: copy *.lic to $PACKAGEBIN for "make" and "write binary"
package: fix 'release change log' case match
00-01-24 package: add copyright action
mamprobe: add -D_BLD_DLL to mam_cc_DLL
00-01-11 package: tsort for package write
package: early verification that $CC works
package: add non-interactive command arg for use action
proto: fix -C intermediate mkdir()
mamprobe: unixware.i386 ksh workaround
C.probe: move hosttype to C.probe (with unixware.i386 workaround)
WWW.mk: fix mm2html option quoting
WWW.mk: add .SCAN.mm

WWW.mk: don't force static=1; grab dll's instead
*.sh: fix getopts test to handle botched implementations like osf.alpha
iffe.sh: fix read -r test
99-12-25 iffe: tweak verbose messages
iffe: hand code non-optget getopts parse
iffe: fix bash quoting bug again
iffe: do test -w . after option parse
package: fix PACKAGEROOT
search
99-11-19 --- release 0.2 ---
99-11-19 first working package & friends
99-10-31 change from lib0ast to INIT; add MAM and package bootstrap
hostinfo: gobbled by package
99-10-01 iffe: add --config, yes{...}end no{...}end, fix read -r workaround
99-09-27 iffe: add --all --verbose, --* set options
99-09-22 regress: -v disables long line truncation
99-09-11 WWW.mk: WWWDIR and MM2HTMLINFO are now lists searched in $(HOME)
99-08-11 hostinfo: fix type sgi.mips4
99-06-24 WWW.mk: add
99-06-08 hostinfo.sh: ${TMPDIR:-/tmp}
99-06-07 TEST.mk: add
99-06-01 iffe: add `siz type' for _siz_type == sizeof(type)
99-05-11 hostinfo,iffe,regress,use: long options
99-05-01 C.probe: fix over aggressive stdinclude, e.g., /usr/include/machine
99-04-01 hostinfo: sgi.mips? -o32 and -n32 checks
iffe: check that . is writable
99-03-17 hostinfo: fix for cc not found
dl.c,hello.c,m.c: headers in conditionals to force .DONTCARE
C.probe: extra check for include dirs pulled in by <sys/types.h>
99-03-03
regress: add `UNIT - ...' for extra args
Makefile: add (_hosttype_) prereq for cc
99-01-23 hostinfo: tweak rating, use /proc/cpuinfo if there
99-01-11 C.probe: shlib before lib, /usr before /
98-12-25 iffe: work around win32.alpha intrinsic clash with -O
98-11-11 regress: fix UNIT PATH lookup
98-11-01 regress: add PROG
98-10-01 hostinfo: add unixware.*
use: export PACKAGE_*
98-08-11 C.probe: add /usr/include check (for sco CC)
hostinfo: handle uwin uname update
98-05-01 regress: fix bug sometimes didn't list last test
98-04-01 hostinfo: add cc path arg
hostinfo: now works with /bin/sh
Makefile: strengthed -lm probe
98-01-23 Makefile: check for -ldl -lm
C.probe: handle gcc -v -E phony include dirs
iffe: fix lcl by dropping sort -u -- we need the real first

iffe: `mem x' to test if x is a non-opaque struct
98-01-11 $(INSTALLROOT)/lib32 for sgi.mips3
$(INSTALLROOT)/lib64 for sgi.mips4
add cc.hp.pa
98-01-01 cc.sgi.mips*: turn off ld library multiply defined
97-10-11
regress: add VIEW function for locating data
97-10-01 Makefile: -ldl test moved to libdll Makefile
97-08-11 regress: add MOVE
regress: add SAME
regress: use getopts
regress: `EXEC' repeats previous test
97-07-17 use: tweak PATH and LIBPATH bootstrap order
iffe: fix lcl bug that botched pathnames with embedded spaces
97-06-12 iffe: add npt `needs prototype' test
97-05-09 hostinfo: mvs.* => mvs.390
Makefile: cc.$(_hosttype_) workaround installed here
iffe: fix nolink{ ... }end
iffe: add [no]static{ ... }end for static link test
C.probe: _probe_PATH => _probe_export which must be eval'd
97-04-01 use: _RLD_ROOT set too
97-03-17 mm2html: changed inner loop
mm2html: handle .if|.ie|.el, .so
mm2html: handle different man styles
mm2html: differentiate mm/man in some non-obvious cases
hostinfo: r5000 is not mips4
97-02-14 hostinfo: validate type with cc
96-12-25 C.probe: uwin tweaks
iffe: use `...` instead of $(...) for alpha /bin/sh
iffe: fix `typ' divide by 0
iffe:
`lcl' now drops X: prefix
iffe: +l* -> -l*
iffe: eval around ${...#%...} for bsd /bin/sh
use: add sgi.mips LD_LIBRARY<abi>_PATH variants
use: add -e to list exports
iffe: lcl leaves leading [a-zA-Z]: for dos
iffe: fix no{link|output|execute} logic
C.probe: don't automatically add /usr/include for non-hosted compilers
C.probe: don't automatically place /usr/include last
C.probe: check gcc style -v -E for stdinclude usrinclude
96-11-28 iffe: check BASH_VERSION for IFS botch
iffe: typ long.xxx only if sizeof(long xxx) != sizeof(xxx)
hostinfo: fix sgi.mips[234] tests
hostinfo: fix ncr.i386 tests
96-10-31 iffe: work around old bsh here doc bug by running separate sh
96-10-11 iffe: *.iffe and *.iff for iffe src files
hostinfo: tighten sgi.mips cpu type check

96-10-01 C.probe: add probe_libdir to catch alpha /usr/shlib
96-09-17 iffe: fix typ bug that failed for single id types!
96-08-31 hostinfo: handle recent sgi hinv cpu changes
96-07-17 make sure sizeof(long
 xxx)>sizeof(xxx) for typ long.xxx
96-05-09 C.probe: drop multiple / in stdinclude
96-02-29 use: package root must have bin and lib subdir
  mm2html: add
  C.probe: probe_members += -whole-archive for gcc
  iffe: add + fix the blasted `...'...\\...'...`
96-01-31 use: add pkg dir
  hostinfo: add tandem
96-01-01 hostinfo: windows_nt|windows[0-9][0-9] -> win32
95-11-24 hostinfo: linux-aout.* for non-elf linux
95-11-11 use: add aix LIBPATH
95-10-11 hostinfo: no args prints type
95-08-11 use: add
95-05-09 save original PATH in _probe_PATH
  beef up library dir probe
95-04-01 use c source suffix if it still preserves the dialect
  add hostinfo
  add lib/hostinfo/typemap user type map
  add sol.sun4 cpu count
  fix C.probe to properly handle C/C++ combined compiler drivers
  add NeXT to hostinfo
  bummer: mach has /usr/bin/hostinfo
95-03-19 fix dialect executable test
95-03-19 --- release 0.0 ---

This is a list of changes that have been made since the 11/16/88 version
of ksh.

1. New features in 12/28/93
  a. Associative arrays. The new version of ksh supports both
     associate arrays and the older indexed arrays with the same
array syntax. A new -A option of typeset is used to declare
an array to be associative. As with indexed arrays, $name is
equivalent to ${name[0]}. The prefix operator ! was added
to the parameter expansion syntax to expand to the list of
indices. For example, ${!name[@]} expands to the list of array
indices for variable name.

  b. Several additions have been made to shell arithmetic:
1. The shell now performs floating point arithmetic. The
    typeset options -F and -E have been added for floating
    point and scientific notation respectively.
2. The prefix and postfix ++ and -- operators.
3. The comma and ?: operators.
4. The math library functions.
5.
 An arithmetic for statement of the form
 for ((expr1; expr2; expr3))
 do ...
 done
6. Integer arithmetic extended up to base 64.

  c. Some additions to the macro expansion syntax have been made
to specify substrings and sub-arrays:
1. ${name:expr} expands to the substring of ${name} starting at
    the character position defined by arithmetic expression expr.
2. ${name:expr1:expr2} expands to the substring of ${name} starting
    at expr1 and consisting of at most expr2 characters.

3. ${name[@]:expr} expands to the values of ${name[@]} starting at
   the element defined by arithmetic expression expr.
4. ${name[@]:expr1:expr2} expands to at most expr2 values of
   ${name} starting at expr1.
5. ${@:expr} expands the positional parameters starting at expr.
6. ${@:expr1:expr2} expands to at most expr2 positional parameters
   starting at expr1.
7. ${!name} expands to the name of the variable named by name.
   It will expand to name unless name is reference
variable.
8. ${!name[sub]} expands to the name of the subscript of the
   given variable. If sub is @ or * the list of subscripts
   is generated.
9. ${!prefix*} and ${!prefix@} expand to the list of variable
   names beginning with prefix.
10. The substring operators, # and % can be now be applied
    with aggregates (@ or *) and are applied to each.
11. ${name/pattern/string} expands to the value of name with
    the first occurrence of pattern replaced by string.
    With aggregates (@ or *) this operation is applied to each.
12. ${name/#pattern/string} Same as above but the pattern
    to be replaced must match at the beginning.
13. ${name/%pattern/string} Same as above but the pattern
    to be replaced must match at the end.
14. ${name//pattern/string} expands to the value of name with
    the each occurrence of pattern replaced by string.
    With aggregates (@ or *) this operation is applied to each.

d. The name space for variables has been extended.
The character '.'
can be used at the beginning of a name, and to separate identifiers
within a name. However, to create a name of the form, foo.bar,
the variable foo must exist. The namespace starting with .sh
is reserved for shell implementation variables. Exported
variable cannot contain a '.'.

e. Compound assignments. The assignment syntax, varname=value,
has been extended to allow assignments of the form
varname=(assignment_list). As elsewhere in the shell
spaces or tabs are optional around the parentheses, and
no space is permitted between the varname and the =. The
assignment_list can be one of the following:
1. A list of words. In this case each word is expanded as
   in a for list and the resulting items become elements
   of the indexed array varname.
2. A list of subscript assignments in the form
   [subscript]=value. In this, these elements become
   elements of the associative array varname.

3. A list of assignments; simple or
compound. In this
case, each assignment is made to varname.name, where
name is the name of the enclosed assignment.
4. Assignments in the form of readonly or typeset
statements. In this case each assignment is made as
in 3 above, and the attributes are given to the
corresponding variable.
In case 3 and 4 above, the value of "$varname" after
the above assignment is (assignment_list), where the
assignment_list produced would reproduce all of the
variables under varname.*.

f. Function names of the form variable.action (called discipline
functions) can be defined where variable is any valid variable
name and action is get, set, or unset. The function variable.get
is invoked each time the variable is referenced. The set
discipline is invoked each time the variable is assigned to.
The unset discipline is invoked when a variable is unset.
The new variables .sh.name, .sh.subscript, and .sh.value are
defined inside the function body. Other shell
extensions
may have their own set of discipline functions.

g. The compound command !, which negates the return value of the
following pipeline, has been added.

h. On systems that support dynamic loading with dlopen(), it is
now possible to add built-in commands at runtime with the
a builtin command named builtin.

i. The following builtins have been added:
1. command name [...]
2. sleep [decimal-seconds]
3. builtin [-ds] [-f file] [name...]
4. getconf name [pathname]
5. disown [job...]

j. An addition format for literal strings, $'....' can
be used where ever literal strings are valid. The string
inside the single quotes will be converted using the ANSI-C
escape conventions. Additionally, the escape sequence \E
expands to the escape character (default \033) whenever ANSI-C
escape sequences are recognized.

k. A typeset -n option has been added which causes the value of a
variable to be treated as a reference to another variable so that
variables

can be indirectly named. For example, if $1 contains
the name of a variable, then typeset -n foo=$1 causes the variable
foo to be synonymous with the variable whose name is $1. A builtin
alias, nameref='typeset -n' has been added to aid mnemonics.
Reference names cannot contain a '.'. Whenever that portion of
a variable up to the first '.' matches a reference name, the
reference value is substituted. For example, with nameref foo=.top,
then ${foo.bar} is equivalent to ${.top.bar}. When used as the
index of a for or select loop, each assignment causes a
new name reference to occur.

l. The KEYBD trap has been added which is triggered when a key
or escape sequence is typed while reading from the keyboard
in an edit mode. This, combined with some new variables
makes it possible to program your key bindings in ksh.

m. New variables have been added:

1. FIGNORE defines a set of file names to be ignored in each
   directory when performing pathname expansion,
replacing
   the rule that requires that a leading . be matched explicitly.
2. Variable sh.edchar contains the value of the keyboard character
   that has been entered when processing a KEYBD trap. If the value
   is changed as part of the trap action, then the new value replaces
   the key or keys that caused the trap.
3. Variable sh.edcol is set to the character position of the cursor
   within the input buffer during a KEYBD trap.
4. Variable sh.edmode is set to the escape character when in vi
   insert mode.
5. Variable sh.edtext is set to the contents of the input buffer
   during a KEYBD trap.
6. HISTEDIT is checked before FCEDIT. FCEDIT is obsolete.
7. HISTCMD is the number of the current command in the history
   file.
8. Variable .sh.version is set to the version string for
   this shell.
9. Variable .sh.name is set to the name of the variable
   that that was referenced or assigned to when executing a get
   or set discipline function.
10. Variable .sh.subscript is set to the subscript for the variable
   that was referenced or assign to when executing a get or
   set discipline function.
11. Variable .sh.value is set to the new value for the variable
   that was assigned to when executing the set discipline function.

n. New invocation and set -o options have been added:

1. set -o notify (or set -b) causes background completion messages

to be displayed as soon as the job completes.
2. There is a compile time option named KIA which enables
creation of a relational database for commands, variables
and functions defined and referenced by a script. The
option -I <filename>, causes the database to be generated
in <filename>. The database format can be queried via
the cql command.
o. ksh93 can read and evaluate pre-compiled scripts generated by
a separate program called shcomp.
p. More work on internationalization has been added:
1. The decimal point character
is processed per locale
2. A $ can be placed in front of each string to indicate
that the string needs translation but is otherwise ignored.
This means that if a message catalog of all $"..." strings
is generated, then a program such as print $"hello world"
could display "bonjour monde" in the french locale.
q. Backreferences have been added to pattern matching. The sequence
\d, where d is a digit from 1-9, matches the same string as
the d-th previous parenthesis group. Backreferences
can be used within patterns, and within replacement strings
with any of the ${name/...} operators.

2. Changes made in 12/28/93
a. The output format of many commands has changed as follows:
1. System error messages are displayed whenever a failure
is caused by a system call.
2. The exit status has changed in many cases:
a. USAGE messages cause an exit status of 2.
b. Commands not found cause exit - 127.
c. Command found, but not executable
- 126.
d. Terminated because of signal - 256+sig
3. The output of values from built-ins that contain special
characters are quoted in a manner that then can be re-input.
4. The trace output puts quotes around the output so that it
can be reused as input.
5. The output for trap is in a format that can be reinput the
the shell to restore the traps.
6. kill -l lists the signal names without numbers as
required by the POSIX standard.

b. The following changes have been made to shell functions:
1. The semantics of functions declared with name() has changed
to conform with the IEEE-POSIX 1003.2 standard. In particular,
these functions are executed in a dot script environment rather
than a separated function environment so that there are no
local variables and no scoping for traps.

2. Functions declared as function name, preserve the old ksh
semantics can be also used as the first argument to the dot (.)
command to have
them executed in a dot script environment.

c. The command search rules have changed as follows:

1. Special built-ins (those with a dagger in front of them) are
executed first.
2. Functions are executed next.
3. Other built-ins that do not require an executable version
(for example cd and read) come next.
4. If the command name contains a slash, the pathname corresponding
to the command name is executed.
5. If name corresponds to a previously encountered pathname
on the PATH variable, the corresponding command is executed.
6. If the command name does not contain a slash, then the PATH
variable is used to find an executable by that name. If
the directory that the command is found is also contained in
the FPATH variable, then the command treated as a function.
If the shell has a built-in version of the command corresponding
to this command, then the built-in version of this command
is executed. Otherwise, the shell remembers
that pathname
corresponding to this command name and executes this pathname.
7. If the name is not found on PATH, then the directories in
FPATH are searched. If found, then the command is executed
as a function.

d. Built-in commands options now conform to the IEEE-POSIX 1003.2
conventions with some additions. In particular,
name -?
will now print a Usage line for name, except for true, false,
colon, login, newgrp, echo, [, and command.

e. Tilde expansion is now performed as part of the word expansions.
The effect of this is that if word begins with ~ in ${name op word},
it will be expanded unless escaped.

f. Pathname expansion is no longer performed on redirection words
unless the shell is interactive.

g. Changes to shell and options:

1. The -n option has been enhanced to produce more warning and
portability messages.
2. The -C option is equivalent to -o noclobber. Files are
created with O_EXCL when -C is on.

h. The

following changes have been made to [[...]]:
1. A string by itself is equivalent to -n string.
2. -e has been added as equivalent to -a.
3. == has been added as equivalent =.
4. -a and = are now considered obsolete.
5. Arithmetic comparisons are now considered obsolete.

i. kill has been changed as follows:
1. Signal names can be upper case or lower case.
2. Numerical arguments to kill -l cause the given signal names to be displayed.
3. String arguments to kill -l cause the given signal numbers to be displayed.
4. Synopsis changed for getopts conformance.

j. print has a -f format option which is equivalent to the IEEE POSIX printf. Both print -f format, and printf have the following extensions from IEEE POSIX:
1. Floating point formats are supported.
2. Size and precision specifications can be *.
3. The %d option can take an argument after precision to specify the base that the number will be displayed.
4. A %q format can be used to output a string quoted so that it can be re-input to the shell.
5. A %P format can be used to output the shell pattern which corresponds to the give extended regular expression.
6. For numerical fields, the arguments can be arithmetic expressions which will be evaluated.
7. The %n format works as described in ANSI-C.

k. The following changes have been made to fc:
1. It has been renamed hist. fc is now a predefined alias.
2. hist uses ${HISTEDIT:-$FCEDIT}. FCEDIT is obsolete.
3. A new -s option is equivalent to the obsolete -e -.
4. If the first argument refers to a command earlier than the first accessible command, it now implies the first accessible command, so that hist -l 1 lists all accessible history commands.

l. The dot command (.) has changed as follows:
1. The argument can be the name of a function declared as function name. The function will execute without creating a new scope.
2. If there are arguments to the given script or function, the positional parameters are restored to their original value when . completes.

m. The read built-in has been changed as follows:

1. A -A option to read has been added to allow the fields to be read into an indexed array.
2. A -t n option has been added which causes read to timeout after n seconds when reading from a slow device.
3. A -d char option has been added which causes the read to terminate at char rather than at new-line.

n. The trap command has been changed as follows:

1. Trap names can be either upper case or lower case.
2. Trap -p cause only the specified trap values to be displayed.
3. The value of trap in a subshell will be the value in the parent shell until a call to trap which changes the trap settings has been made. Thus, savetraps=$(trap) works as required by the POSIX standard.

o. The exec command has been extended as follows:

1. The -c option clears the environment
first.
2. The -a name option sets argv[0] to name for the program.

p. true and false are built-ins, not aliases to built-ins.

q. test has been modified to conform to the IEEE-POSIX 1003.2 standard when there are three or less arguments.

r. umask -S option displays the mask in a symbolic format.

s. wait now returns the correct exit status of any previous background job that has not been waited for, not just the most recent one.

t. The whence built-in has an option -a which causes all uses for the given command name to be reported.

u. unalias has -a option to clear all the aliases.

v. The times built-in command has been removed. The time reserved word, without a command, gives time cumulative time for the shell and its children. A built-in alias for times should enable scripts using times to continue to run.

w. Command substitution and arithmetic substitution will now be performed for PS1, ENV, and PS4 evaluation in addition
to
parameter expansion.

x. The SECONDS variable now displays elapsed time in floating point seconds with 3 places after the decimal point by default.

y. The getopts built-in now handles the complete libast optget functionality. If any errors have occurred with getopts when it has reached the end of arguments, then the Usage message will be generated from the option string and the exit status from getopts will be 2 rather than 1. The usage message will be stored in the OPTARG variable if the option string contains a leading colon; otherwise it will be printed on standard error automatically.

z. THE ENV file is only processed for interactive shell invocations. In addition, the -x attributes for aliases and functions is ignored.

aa. The built-in edit modes have been changed as follows:

1. The pathname completion and pathname listing options now perform command completion and command listing when applied to a word in the command position.
2. In emacs mode ^N as the first related command after the prompt will move to the next command relative to the last known history position.
3. In emacs mode, successive kill and delete commands will accumulate their data in the kill buffer, by appending or prepending as appropriate. This mode will be reset by any command not adding something to the kill buffer.
4. The control-T of emacs mode has been changed to behave like control-T in gnu-emacs.

bb. The TMOUT variable also sets a limit for select timeouts and default timeouts for read.

4. The source code has undergone significant modification.

a. Much of the code has been rewritten, In many cases this has resulted in significant performance improvement.

b. The code is organized differently. See the README files for more details.

c. Most configuration parameters now get generated using the FEATURE mechanism of nmake. Other options are set in the OPTIONS file.

c. The are several

new compile time options. See the README
file for details. Some of the old ones have been removed.

  d. The install script is a Mamfile that is generated by
nmake and processed by a script that comes with the
distribution.

  e. There are far fewer global names. This should make it
must easier to add built-in commands without worrying
about conflicts.

  f. The code uses the sfio library which makes it possible
to mix with stdio.

  g. The code is written in ANSI C with full prototypes.
The code is based on the IEEE POSIX 1003.1 standard.
The code can be compiled with K&R C and with C++ by
using the ANSI cpp that comes with nmake or running
the code through the proto filter before pre-processing.
This happens automatically with our shipping system.

  h. There is a programming interface for capturing references
and assignment to shell variables. It is also possible
to intercept variable creation and supply the array processing
function for that variable.
 See nval.3 for a description.

No license file was found, but licenses were detected in source scan.

The INIT package is required by all but the standalone and self
extracting archive packages. It contains the package command, support
scripts, and utilities. The package command installs binary packages,
makes source packages, and generates new package tarballs.

Source Package Installation Instructions:

(1) Do not install packages as root/super-user. Although some components may
have setuid executables, few must be owned by root. These are best
changed manually when the security implications are understood.
(2) Choose a package root directory and cd to it. This will be a local work
area for all packages.
(3) These instructions bypass the click to download package links on the
download site. If you already clicked, or if your system does not have
curl(1), hurl(1), lynx(1) or wget(1) then use the alternate instructions
for (3),(4),(5) in plan B below. Plan B installs the hurl(1)
script which works with ksh and modern bash. The top level URL is:
URL=http://www.research.att.com/sw/download
(4) If the bin/package script does not exist then run:
test -d bin || mkdir bin
url=$URL/package

```
 (wget -O - $url||curl -L $url||hurl $url) > bin/package
 chmod +x bin/package
(5) Determine the list of package names you want from the download site, then
    use the package(1) command to do the actual download:
 bin/package authorize "NAME" password "PASSWORD" \
  setup source $URL PACKAGE ...
    (Refer to the AUTHORIZATION paragraph on the main download page for
    NAME/PASSWORD details.)  This downloads the closure of the latest
    source package(s); covered and up-to-date packages are not downloaded again unless
    package force ... is specified. Package content is verified using md5sum.
    If the package root will contain only one architecture then you can install in bin and
    lib instead of arch/HOSTTYPE/bin and arch/HOSTTYPE/lib
by running this
    instead:
 bin/package authorize "NAME" password "PASSWORD" \
  flat setup source $URL PACKAGE ...
    To update the same packages from the same URL run:
 bin/package setup source
(6) Build and install; all generated files are placed under arch/HOSTTYPE
    ($INSTALLROOT), where HOSTTYPE is the output of bin/package (with no
    arguments.) name=value arguments are supported; CC and debug=1 (compile
    with -g instead of -O) are likely candidates. The output is written to
    the terminal and captured in $INSTALLROOT/lib/package/gen/make.out:
 bin/package make
(7) List make results and interesting errors:
 bin/package results
    Run the regression tests:
 bin/package test
    List test results and errors:
 bin/package results test
(8) The generated binaries are position independent, i.e., they do not
    contain hard-coded paths. However, commands with related files, like
    file(1) and nmake(1), require the path of the bin directory
to be
    exported in PATH.
(9) You can run the binaries directly from the package root, or you can
    install them in a public root after you are satisfied with the make and
    test actions (requires the AT&T nmake(1) command):
 bin/package flat install DIRECTORY PACKAGE
    This will install in DIRECTORY/bin and DIRECTORY/lib. If you want to
    preserve the arch/HOSTTYPE hierarchy under DIRECTORY then omit the
    flat argument. If you don't have nmake(1) then the following will do a
    flat install:
 cd $INSTALLROOT
 cp -p -r bin lib include DIRECTORY
(10) To summarize, after the first time the download, build, and test cycle
    for the latest source release is:
 bin/package setup source
```

bin/package make
bin/package test

Source Package Installation Instructions -- Plan B:

(3) Create the subdirectory lib/package/tgz and download all package archives
into that directory.
(4) If the bin/package script does not exist then manually read
the INIT
source package:
gunzip < lib/package/tgz/INIT.YYYY-MM-DD.tgz | tar xvf -
Note that some browsers automatically unzip downloaded without warning.
If the gunzip fails try:
tar xvf - lib/package/tgz/INIT.YYYY-MM-DD.tgz
If your system does not have tar(1) or gunzip(1) then download the ratz
source package, compile it, and manually read the INIT
source package:
mkdir bin
cp lib/package/tgz/ratz.YYYY-MM-DD.c lib/package/tgz/ratz.c
cc -o bin/ratz lib/package/tgz/ratz.c
bin/ratz -lm < lib/package/tgz/INIT.YYYY-MM-DD.tgz
(5) Read all unread package archive(s):
bin/package read
Both source and binary packages will be read by this step.

All recorded changes follow.

::::::::: INIT :::::::::

12-07-17 iffe.sh: add C code NOTE("...") to ammend --verbose output
12-06-26 iffe.sh: fix "npt foo" to handle function-like macro foo()
12-06-20 package.sh: use $KSH for rt in "results test"
12-06-15 Makefile: add PLUGIN_LIB to $INSTALLROOT/bin/.paths
and BUILTIN_LIB => PLUGIN_LIB
12-06-15 package.sh: add PLUGIN_LIB to $INSTALLROOT/bin/.paths and BUILTIN_LIB => PLUGIN_LIB
12-06-13 package.sh: handle admin.db column output
12-06-08 iffe.sh: fix 12-06-06 typo
12-06-06 iffe.sh: check for -l* in reverse and accumulative order (e.g., for -last & -lm)
12-06-04 package.sh: always check $INSTALLROOT/lib/package/profile
12-05-31 Makefile: ID=ast; $(INSTALLROOT)/prototyped.h => $(INSTALLROOT)/$(ID)/prototyped.h
12-05-28 iffe.sh: api foo YYYYMMDD => FOOAPI(rel) test macro
12-05-24 package.sh: change admin.db comment => owner attributes
12-04-25 ratz.c: add sear -k option to keep installation tmp dir on exit
12-04-17 package.sh: skip sh version logic for ``use''
12-04-17 cc.ibm.risc*: _LARGEFILE64_SOURCE => _LARGE_FILE_API moved to libast/features
12-04-09 cc.ibm.risc*: speak aixese for _LARGEFILE64_SOURCE
12-02-29 cc.darwin.i386*: handle default cc vs kernel bittedness
12-02-29 C+probe: add __TIMESTAMP__ to the nopredefined list

12-02-29
package.sh: don't assume grep -q or /usr/local/lib in LD_LIBRARY_PATH
12-02-29 package.sh: fix ksh vs -lcmd compatibility checks
12-02-23 iffe.sh: checkcc() before checkread() for sensible diagnostics
12-02-14 package.mk: { --clobber --compare --link=lib*.a* } for --mam=static
12-02-14 package.mk: export LICENSEFILEDEFAULT instead of LICENSEFILE
12-02-14 package.sh: handle @(cc|ld).${HOSTTYPE}* intercepts
12-02-07 package.sh: add { clean clobber } actions
12-02-02 regress.sh: fix ulimit -c defaults for --nokeep
12-01-18 regress.sh: add INPUT|OUTPUT|ERROR -e 'filter' to filter before comparison
12-01-21 package.sh: fix `admin make' bug that created unused $INSTALLROOT/lib
12-01-21 Makefile: :PACKAGE: license=ast -- oops
12-01-20 cc.darwin,cc.mvs.390: tmp=/tmp/cc.${USER:-$LOGNAME}.$$.err
12-01-12 package.sh: add admin make share closure to handle alternate HOSTTYPEs
11-12-13 iffe.sh: add /*<NOSTDIO>*/ test code comment to disable default #include <stdio.h>
11-11-11 C+probe: test for .so
before .sl
11-10-26 package.sh: don't forget about *.pkg for admin update
11-10-18 cc.*-icc: update and add more
11-10-11 package.sh: handle package make|view when no source installed
11-09-11 package.sh: count admin '*** termination code' errors
11-08-31 mamake.c: add -e, ignore use recursive prereq timestamps
11-08-29 iffe.sh: add ``set stdio try1.h - try2.h ..."
11-08-29 iffe.sh: trap EXIT => trap 0 for ancient sh
11-08-11 iffe.sh: handle ancient sort that doesn't have -k
11-06-01 make.probe: add more /lib64 logic
11-05-01 package.sh: fix admin ditto to sync LICENSES too
11-03-25 package.sh: initialize { $SED $TR } before first use!
11-03-21 package.sh: fix vpath probes
11-03-17 iffe.sh: fix cleanup to rm $tmp* instead of $tmp*.*
11-02-24 package.sh: change curl usage to "curl -L ..."
11-02-11 package.sh,C+probe,make.probe,mamprobe.sh: add ###.*archiac.*###
11-02-02 Makefile: add :MAPLIB: check for ancient -lw
11-02-02 make.probe: handle -print-multi-directory => 64 => /usr/lib64
/lib64
11-02-02 package.sh: HOSTTYPE=*,*cc*[,-*,...] sets CC [and CCFLAGS]
11-02-02 make.probe: handle gcc $ORIGIN link but exec failure -- gee thanks
11-01-25 cc.hp.ia64: bundled cc is a pile of shaving cream
11-01-07 iffe.sh: check debug==3 for is_hdr() failure
10-11-22 ditto.sh: fix timing problem between |& and exec &p
10-11-10 package.sh: fix cc cross compile check to use checkcc absolute path
10-10-10 package.sh: list main env vars at start of make action
10-10-10 ratz.c: tweak widnows delays
10-09-10 ratz.c: add _SEAR_ARGS for _SEAR_EXEC
10-09-01 package.sh: fix ratz from source logic
10-08-25 package.mk: consolidate license file search in .package.licenses.
10-08-22 ratz.c: run sear bootstrap command detached
10-08-20 C+probe: version_stamp only if version_flags works

10-08-17 package.sh: unset makerules *DIR variables in env
10-08-15 package.sh: "make" action now lists some env values
10-08-11 mktest.sh: add "DO command ..."
10-07-27 rt.sh: handle "rt X=Y ..."
10-06-29 ratz.c:
non-option sear args passed to sear_exec()
10-06-25 iffe.sh: "api" op changed to not do "map-libc" type mappings
10-06-25 package.sh: "force admin ditto" => no ditto --update option
10-06-22 C+probe: handle cc that require .[ci] input for version info
10-06-21 ditto.sh: change default remote access to ssh (about time)
10-06-12 regress.sh: DISGNOSTICS [1 | 0 | pattern] and fix EXIT for all
10-06-09 package.sh: add AT&T to usable nmake check
10-06-06 iffe.sh,iffe.tst: add { api ver } ops
10-04-22 package.sh: update "html binary|source" NAME/PASSWORD info
10-04-15 iffe.sh: don't forget candidate headers for hdr|sys!
10-04-11 WWW.mk: disable man page metarule -- now done by admin-man(1)
10-02-14 package.sh: $CC verification needs $INSTALLROOT/bin in PATH
10-02-11 package.sh: fix package admin make report error count
10-02-02 package.sh: fix write binary bug that did scp on local fs
10-02-02 package.mk: up to date binary targets must still be in PACKAGE.*.lst
10-01-01 package.sh: fix
premature $INSTALLROOT/bin during cross compile check
10-01-01 make.probe: handle ["'] in CC.VERSION.STRING
09-12-04 iffe.sh: add "opt name" to check for name in $PACKAGE_OPTIONS
09-11-30 mktest.sh: change RESET to STATE.RESET to make it global
09-11-14 make.probe: use gcc { -print-multi-directory -print-search-dirs }
09-11-11 package.sh: re-order and combine cc checks
09-10-27 C+probe,make.probe,probe.win32: add CC.SUFFIX.DEBUG
09-10-21 iffe.sh,Makefile: test -e is not in ksh88!
09-10-06 iffe.sh: handle cc -E #error with 0 exit status (sgi)
09-10-06 package.sh: stub in ar intercept checks -- not used yet
09-10-06 ar.ibm.risc: add ar intercept because some aix require -Xfoo first!!
09-09-24 regress.sh: fix UMASK logic to create test support files before umask
09-08-28 release.c: change docs to mention stdin if no file operands
09-08-24 package.sh: fix isascii() bug that failed on od(1) trailing space
09-08-20 make.probe: add CC.SHARED.NAME
09-08-20 regress.sh: add { JOB CONTINUE EXITED
KILL FIFO }
09-08-11 package.sh: filter lines containing : for package results
09-07-31 make.probe: add CC.AR.ARFLAGS (for aix ar -xany)
09-07-31 package.sh,cc.*: fix -dumpmachine to handle 32/64/* bit options
09-06-24 package.sh: fix admin.db output formatting
09-05-05 package.sh: export dll hackery environment vars
09-05-05 package.sh: handle non-identifier hostnames
09-05-05 mamake.c: pass undefined ${...} identifiers to the shell
09-05-05 mamake.rt: add macro expansion regression tests
09-05-01 iffe.sh: fix output initialization *again*
09-04-28 package.sh: handle admin.db contact field $9

09-04-15 iffe.sh: add implicit "ini" op to initialize io for subsequent ops
09-03-31 regress.sh: EXPORT before test => global ENVIRON[]
09-03-26 package.sh: test fail pattern is 'fail[es]'
09-03-26 UNIT - ... appends (options) to command line
09-03-19 TEST.mk: x.tst => x only if x is command target
09-03-15 regress.sh: add ${MAIN} for base name of main unit
09-03-10 TEST.mk: add .SOURCE:tests if
tests is a dir
09-03-03 regress.sh: allow command line unit to override UNIT
09-03-03 mktest.sh: handle IO == $'\n'
09-02-02 package.sh: delay $INSTALLROOT/bin/.paths generation until mamprobe runs
09-01-30 cc.mvs.390: c89 balks at [()] in -Dname="..."!
09-01-27 package.sh: add isascii() to use ratz instead of tar
09-01-20 hurl.sh: add --size=bytes option
09-01-08 TEST.mk: add test.* prereqs, multiple arg lists with :T=*: binding
09-01-03 regress.sh: fix UNIT to allow command line override
09-01-03 mktest.sh: handle TWD
08-12-24 package.sh: fix cross-compile HOSTTYPE logic
08-12-15 package.sh,hurl.sh: handle http codes { 301 302 303 }
08-10-16 make.probe '-fno-stack-protector -fno-stack-protector-all' to cop out!!
08-09-30 rt.sh: fix ksh93 regression test signal count
08-09-26 regress.sh: ignore SIGPIPE for SET pipe-input
08-09-24 package.sh: package only test foo => make --recurse=only recurse tests foo
08-09-20 make.probe: handle another /usr/bin/file shared lib description
08-09-20
regress.sh: add --pipefail for SET pipe-input ...
08-09-17 Makefile: add gdbm1.c for <gdbm-ndbm.h>
08-09-10 make.probe: add CC.NOPROTECT
08-08-08 mktest.sh: add --width=width
08-08-05 dbm.req: favor sleepycat ndbm compatibility
08-08-04 C+probe: fix stdlib initialization logic
08-06-24 package.sh: fix $INSTALLROOT/bin/cc intercept time stamp file typo
08-06-20 TEST.mk: make the localyunit before *.rt => *.tst -- doh
08-06-20 mktest.sh: prepend $PWD onto PATH for local units -- doh^2
08-06-11 regress.sh: fix bug that skipped the last test
08-05-20 regress.sh: add --local to put *.tmp dir in local fs
08-05-05 regress.sh: add IF command ... ELIF command ... ELSE ... FI
08-05-01 package.sh: package test => ulimit -c 0
08-04-28 regress.sh: fix EXPORT quoting
08-04-28 regress.sh: fix UNIT set check args too
08-04-24 rt.sh: exit code > 256 => signal termination
08-04-10 C+probe: change probe_so order to check .so last (macos ld workaround)
08-04-01 package.sh: handle multiple admin HOSTTYPEs
per HOST
08-03-28 C+probe: add C++ #include <iostream> (no extension) dir probes
08-03-17 regress.sh: fix trap on EXIT, add terminated note to final tally
08-02-28 make.probe: fix probe_warn to include ld!
08-02-02 make.probe: add CC.RUNPATH to match default -L order

08-01-31 package.sh: check lib64 for LD_LIBRARY_PATH
08-01-31 iffe.sh: tweak ancient /bin/sh workarounds
08-01-28 make.probe: darwin ld export dynamic is -force_flat_namespace
08-01-28 C+probe: handle sgi cc error message but exit 0 botch(es)
08-01-23 package.sh: fix checksum doc typo
08-01-09 C+probe: add __FUNCTION__ to the undef (don't check) list
07-12-14 iffe.sh: add set nooptimize
07-12-03 package.sh: add LC_ALL=C
07-11-27 package.sh: fix overaggressive *.md5 cleanup
07-11-20 iffe.sh: treat exit status >= 250 as normal error with no signal
07-11-05 package.sh: fix write op error count pattern
07-11-05 package.mk: fix $(~req) .ver binding
07-08-11 probe.win32: add cl.exe setuid workaround, CC.VERSION[.STRING]
07-08-01
package.sh: handle 'package read lcl|tgz'
07-05-08 regress.sh: execute basename instead of absolute path for short $0
07-04-27 cc.sgi.mips[34]: for #error to exit non-zero -- a no brainer
07-04-20 mktest.sh: defer to systems without 'grep -q' -- sigh
07-04-11 mamprobe.sh: handle $(CC.*) => ${mam_cc_*}, $(...) => ${...}
07-04-11 make.probe: fix CC.PICBIG probe, default { CC.PIC CC.DLL } to BIG
07-04-04 iffe.sh: prepend ${tst}${ext} to each .c probe
07-03-28 package.sh: fix binary tgz architecture type duplication
07-03-28 package.mk: add binary write PACKAGE.$HOSTTYPE.lst
07-03-28 iffe.sh: add -F header to mac test
07-03-23 make.probe: handle file(1) that returns 'archive' for .so
07-03-22 mamprobe.sh: fix STDED probe for implementations that ignore EOF
07-03-11 package.sh: add nocopyright and tst => nocopyright
07-03-11 package.mk: add copyright=0
07-03-08 C+probe: restore IFS after probe.ini
07-02-26 mamake.c: expand first of ${mam_lib*} for ${AR}
07-01-05 package.sh: fix "admin write
binary" logic
07-01-01 iffe.sh: add "cmd" --verbose trace
07-01-01 iffe.sh: sort => LC_ALL=C sort
07-01-01 C+probe: LC_ALL=C
06-12-22 make.probe: lean on gcc -v for stdlib, but preserve /usr/local!
06-11-23 package.sh: *.md5 are not tarballs -- doh
06-11-23 iffe.sh: add -F, --features=feature-test-header
06-11-11 make.probe: favor lib64 over lib for hosttype==*64
06-10-31 make.probe: add "-ignore-source-dir -iquote" test
06-10-31 iffe.sh: add status{...} code block
06-10-11 regress.sh: fix DO to handle {...} (time for regress.tst?)
06-10-11 package.sh: handle already gunzip'd *.tgz
06-10-06 iffe.sh: add reference for header content tests
06-09-27 regress.sh: fix UMASK to do DO too (duh)
06-09-22 iffe.sh: drop -O for npt tests (for msvc intrinsics)
06-09-14 cc.darwin: drop -O until gcc 4.* gets its act together
06-09-11 package.sh: { cc ld ldd } intercepts check ${HOSTTYPE%.*} too

06-09-08 regress.sh: add PIPE INPUT|OUTPUT for pipe io
06-09-05 C+probe: add { probe_version version_stamp
version_string }
06-09-05 make.probe: add version stamp comment, CC.VERSION[.STRING]
06-08-27 regress.sh,mktest.sh: add UMASK
06-08-25 regress.sh: add -b,--ignore-space,IGNORESPACE
06-08-25 mktest.sh: add IGNORESPACE
06-08-24 mktest.sh: handle \000 in data
06-08-24 regress.sh: handle -f* for INPUT|OUTPUT|ERROR
06-08-16 package.sh: fix 'install flat' logic
06-08-11 rt.sh: handle style=shell %K date format
06-07-17 ratz.c: fix __MVS__ FAR definition
06-07-17 iffe.sh: "header x.h" -- deprecate "include x.h" for .SCAN.iffe
06-07-17 package.sh: differentiate urls vs. assignments
06-06-27 rt.sh: add --failed, --heading
06-06-27 C+probe,TEST.mk,make.probe,mktest.sh,regress.sh: 'ulimit -c 0'
06-06-26 cc.darwin.ppc: handle -lcc_dynamic disappearance
06-06-25 mktest.sh: implement PROG
06-06-11 Makefile: add -ldbm :MAPLIB:, provide public MAPLIB.mk
06-05-06 package.sh: add PACKAGE_admin_tail_timeout
06-05-22 ratz.c: upgrade to zlib-1.2.3
06-05-09 package.sh: fix admin.db docs
06-03-11 package.sh:
fix `package use - command ...'
06-03-05 make.probe: work around pedantic bash 3.1 mismatched " in `.`
06-02-14 package.sh: "results failed test" == "results test failed"
cc.sgi.*: add _AST_cc_OPTIONS parameterization, -OPT:Olimit=0
cc.linux.ia64-icc: add for intel cc
06-02-02 package.sh: freebsd stuck with os version for all arch
06-02-01 package.mk: fix locale logic (tw -d requires dir arg)
06-01-31 package.sh: require $CC only for make|test
06-01-30 package.sh,hurl.sh: use the backwards-compatible --http-passwd
package.sh: add more pdksh => /bin/sh checks
06-01-26 package.sh: wget --http-pass => --http-password
package.sh: fix wget error logic
hurl.sh: wget --http-pass => --http-password
06-01-11 package.mk: pass package.license.class to make --mam too
package.mk: variants=pattern => --variants=pattern
package.sh: darwin rel<=7 => darwin7.ppc
package.sh: freebsd rel<=4 => freebsd4
package.sh: freebsd rel<=5 => freebsd5
05-12-07 iffe.sh: don't emit <stdio.h> if
<sfio.h>|<ast.h> (XXX)
05-12-05 make.probe: disable readonly.exe core dump via ulimit -c 0
05-09-22 mktest.sh: add EXEC [++NOOUTPUT ++NOERROR ++NOEXIT]
05-09-21 mktest.sh: fix --style=shell compare to ignore \r
05-09-12 TEST.mk: all --force to force %.rt regeneration
05-09-05 TEST.mk: regenerate from %.rt only if newer, :SAVE: %.tst

05-08-25 mktest.sh: add
  TEST.mk: add %.rt=>%.tst for mktest
05-08-18 package.sh: 'package host cpu' now checks $NPROC first
05-07-17 iffe.sh: add { define extern include print } ops
  iffe.sh: accept output{...}end output on success only -- doh
05-07-01 package.sh: add TARPROBE for tar B flag probe
05-06-24 package.sh: fix binary read chmod via *.sum
05-06-06 package.sh: fix KEEP_HOSTTYPE logic to handle synthesized types
05-06-01 make.probe: verify that cc_pic works for hosted cc
  cc.lynxos.ppc: make -mshared the default
  package.sh: note $INSTALLROOT/bin/@(cc|ld|ldd) installation
05-05-25 make.probe: add CC.INCLUDE.LOCAL instead of -I- in CC.DIALECT
05-05-24
 iffe.sh: really fix grouping logic -- with tests this time
  package.sh: pipe/socket configuration mismatches => use /bin/sh
05-04-28 TEST.mk: add $(TESTS)
05-04-19 package.sh: package results test uses rt if possible
  iffe.sh: fix 'op var - ... - ...' grouping logic
05-04-15 rt.sh: handle autom4ate style
05-04-11 regress.sh: fix unit name when command line unit also specified
  rt.sh: handle all ast package test output formats
  package.sh: fix make docs for options passed to underlying make
05-04-08 package.sh: cp -p makerules.mo to $OK to preserve mtime
  regress.sh: add "TITLE name" to change TEST output title
05-04-01 rt.sh: add pretty make test + regress.sh wrapper
05-03-29 package.sh: test -e path => test -f path -o -d path
05-03-24 make.probe: fix CC.PICBIG probe to prefer -fPIC over -fpic -- doh
05-03-19 mamake.c: command line name=var also defines name.FORCE=var
05-03-11 regress.sh: unset LC_ALL when LC_* EXPORT'd
  package.sh: old make.out saved in circular make.out.[1-9]

 mamake.c: sync with nmake :W=O:
05-03-01 package.sh: fix flat hierarchy initialization
  package.sh: admin action now properly resets sibling remote logs
  package.mk: relax unknown/unwritten package messages to warnings
  package.sh: handle space in command line name=value
  make.probe: add mvs -Wc,dll,exportall,longname,rent to CC.DLL probe
05-02-24 package.sh: hosttype *.powerpc => *.ppc
  cc.lynxos.ppc,ldd.lynxos.ppc: add
05-02-22 mamake.c: fix { -G --debug-symbols -S --strip-symbols } MAMAKEFLAGS bug
05-02-20 probe.win32: handle /platformsdk mount
05-02-19 package.sh,package.mk: add write tst for tgz in tst subdir
05-02-18 package.sh: accept cc -dumpmachine with 0 or 1 -
05-02-14 package.sh: handle mutiple architectures per host in admin.db
  Makefile,package.sh: honor $INSTALLROOT/bin/.paths overrides
  package.sh: normalize trailing [-_]bits in host type
  iffe.sh: some ksh-compatible shells don't do *(pattern)
05-02-11 iffe.sh: back out 05-01-11 child process stdin

hijack
cc.lynxos.i386: -dynamic instead of -static default
05-02-10 package.sh: cyg usr/doc => usr/share/doc
05-02-08 package.sh: drop -m with pax -- delta bug fixed 2005-02-08
iffe.sh: work around old bash 0<... redirection bug
05-02-06 package.mk: source.tgz: update generated files only when they change
05-02-02 *.sh,*probe: IFS may be unset and { ash bsh } don't on startup -- wow
05-01-11 package.sh: update setup docs to include authorize+password
package.mk: fix .source.cyg final directory edit
package.mk: notice=1 for conspicuous empty NOTICE file
WWW.mk: fix *-index.html installation
filter.sh: retain input file suffix in tmp copy
mamexec.c: fix non-contiguous "exec" bug that skipped lines
iffe.sh: fix candidate lib test to try grouping subsequent libs
iffe.sh: fix child process stdin hijack that skipped input lines
iffe.sh: --shell=osh to force read -r compatibility command
iffe.sh: chop iffe input leading space before # for KnR compatibility
05-01-05 package.sh:
add ${TAR} ${TARFLAGS} and tar B flag for pipes
mamake.c: fix makefile scan to ignore lib*.[hH]
iffe.sh: immunize function/symbol tests from aggressive -O
04-12-28 WWW.mk: add :WWWPAGE: faq.*.mm index generator
04-12-21 ratz.c: make sure tmp dir is writable -- doh
04-12-08 iffe.sh: fix dat test for aggressive -O
04-12-01 iffe.sh: add `include file' to pull in #define's for `exp'
04-11-11 package.sh: default MAKESKIP is "*[-.]*"
04-10-22 ratz.c: change docs to note zlib license
mamake.c: handle --debug-symbols and --strip-symbols
package.sh: make (debug|strip)=1 => --(debug|strip)-symbols
package.mk: add :LICENSE: => package.license.class
mamake.c: fix recursive order logic
04-10-18 package.mk: add :LICENSE:, :OMIT: to omit package subdirs
04-10-11 package.sh: add 'authorize name' and 'password password'
04-10-01 iffe.sh: double check $static link with ! $static
Makefile: add BUILTIN_LIB to $INSTALLROOT/bin/.paths
make.probe: add CC.DIALECT EXPORT={ALL,REF,EXT,DLL}

package.sh: add BUILTIN_LIB to $INSTALLROOT/bin/.paths
04-09-21 package.mk: $(init)$(name) is now an implicit prereq
04-09-09 package.sh: copy makerules.mo to $INSTALLROOT/bin/ok
04-09-01 package.mk,package.sh: rename *.txt => *.README
package.mk: add the runtime package type (no *.[ah])
iffe.sh: fix key test reports
04-08-26 Makefile: { add m2.c m3.c } -lm tests for { frexp[l] ldexp[l] }
04-08-11 package.mk: handle HOSTTYPE for solaris > 9
package.sh: add `checkaout proto' for { make view }
package.sh: check for { md5sum md5 }
iffe.sh: add {if|elif|else|endif} test ...

iffe.sh: add 'exp - expression' and '(expression)'
iffe.sh: add 'name = test ...' user defined macros
iffe.sh: add '! test ...' negation
TEST.mk: add implied { .c .sh } generated prereq
cc.darwin.ppc: handle 10.3 -dylib mess
04-08-01 package.mk: let include handle nested requirements -- duh
04-07-31 package.sh: attempt a second ping before admin assumes host down
04-07-26 package.sh: fix hp.ia64
HOSTTYPE
04-07-23 probe.win32: generalize #include dir order search
04-07-17 regress.sh: add INPUT -x for chmod +x
04-07-01 regress.sh: TMP => TWD
04-06-29 regress.sh: put COMMAND in $TWD too
04-06-21 regress.sh: mkdir -p INPUT and OUTPUT intermediate dirs
TEST.mk: add :TEST: -- to disable .c .sh search
04-06-18 TEST.mk: add .SCAN.tst
04-06-17 regress.sh: TEST returns true if active, false otherwise
regress.sh: add CD to change test pwd from $TWD
04-06-16 regress.sh: add TWD for ./unit.tmp override
regress.sh: DO now flushes previous test
regress.sh: INPUT and OUTPUT handle -f for printf instead of print
04-06-11 package.sh: make sure $INSTALLROOT/bin is in front of $PATH
package.sh: skip nmake if older than 2000-10-31
04-05-20 package.sh: fix arg vs. package parse with - or '' to disambuguate
04-05-11 package.sh: package verbose update lists closure for package setup
package.sh: add src/lib/libardir to nmake proto bootstrap
regress.sh: probe for rm -u vs. chmod -R u+rwx
04-05-01
package.sh: $CC must be C, not C++; allow release command on $PATH
04-04-15 make.probe: check probe_libdir false positives
package.sh: add lib/package/*.lic src package subdirs
package.mk: add mamfile=0 to inhibit Mamfile generation
iffe.sh: config name_DECLARED => HAVE_name_DECL
iffe.sh: fix mac to handle default value
04-04-11 iffe.sh: normalize sed [\\\\/] quoting
04-04-04 package.mk: only checksum generated tarballs
mamprobe.sh: add STDCHMOD
04-04-01 C+probe: set export LANG=C for uniform error messages
make.probe: another CC.STDLIB tweak
package.sh: fix regress core dump pattern, expand [a-z] match ranges
04-03-31 Makefile: add intl :MAPLIB: test
make.probe: fix CC.STDLIB search; drop CC.* path duplicates
04-03-28 iffe.sh: drop unused exec $stdin<&0 dup
04-03-25 Makefile: add iconv :MAPLIB:
package.sh: use ${PING:-ping -c 1 -w 4}, allowing admin.db override
04-03-24 package.mk: add *.md5 checksum for each *.(c|exe|tgz)
package.sh: update base change

on md5 sum instead of size
iffe.sh: adjust case label \ and keyword quoting for ancient /bin/sh
04-03-22 probe.win32: ncc => nld
04-03-19 CONVERT.mk: change the instructions and old source dir default
package.mk: fix recurse=list check
package.mk: add *.md5 checksum for each *.(c|exe|tgz)
package.sh: fix update base/delta/sync existence check
04-03-18 iffe.sh: -d2 does not remove core dumps on exit
04-03-17 package.sh: fix make recurse arg/action order
04-02-29 package.sh: add regress action to compare current and previous tests
package.sh: fix sgi.mips[23] HOSTTYPE test for old irix cc
package.sh: add `export variable ...'
package.sh: admin action now handles host name with non-id chars
package.sh: non-numeric M T W in admin.db disables that action
package.sh: fix admin write binary local vs. shared clash
cc.hp.pa: add _AST_CC_hp_pa_DEFAULT=+DAportable
cc.hp.pa64: sync with cc.hp.pa
cc.ibm.risc: -bnolibpath => -blibpath:/usr/lib:/lib
probe.win32: sync with
make.probe
make.probe: fix last chance dynamic test
make.probe: add hp.pa CC.EXPORT.DYNAMIC -Wl,-E
make.probe: add ibm.risc CC.EXPORT.DYNAMIC -bexpall
make.probe: move probe_dll_def to the end of probe_dll
package.mk: capture subcomponent mamfile recursion
04-02-24 make.probe: strip "..." from cc/ld traces
iffe.sh: add ``set [no]define" to disable macro #define/#undef
04-02-23 make.probe: rework CC.LD search
04-02-14 make.probe: add CC.EXPORT.DYNAMIC for main dynamic sym export
make.probe: resurrect CC.PIC with separate semantics from CC.DLL
make.probe: add CC.SHARED.LD for CC.SHARED linker
C+probe: clear DISPLAY to stifle interactive windows
04-02-11 iffe.sh: handle ``siz void*", add cross{ ... }end
make.probe: add { CC.AR CC.SIZE }, fix cross command search
cc.darwin.ppc: change $cc => $CC for old ksh + libast conf bug
04-02-09 make.probe: drop -nostartfiles from CC.SHARED for C++
04-02-04 package.sh: fix cross compilation bug that mixed binary formats
04-02-02
package.sh: package admin now ditto's bin/package too
04-01-30 cc.sgi.mips3: drop warning 3421
04-01-11 regress.sh: output label#count for tests in loops
04-01-05 regress.sh: fix bug that ignored the first SAME
04-01-04 crossexec.sh: fix typo that did not recognize rcp
03-12-19 mamake.c: add `foolib:foo:libfoo' to recurse()
03-10-11 regress.sh: add EXPORT, export COLUMNS=80 for message consistency
03-09-23 ratz.c: fix tar header number parse bug that skipped to next number
regress.sh: rm cleanup now handles files matching -*
03-09-11 iffe.sh: add unnamed { ... } blocks

regress.sh: add COPY from to, like MOVE but comprison still done
regress.sh: rm -rfu to handle test dirs w/o u+rwx
03-08-14 Makfile: add hello.c to the manifest
03-08-11 package.sh: fix `html binary' generation
03-06-21 package.sh: fix INITROOT initialization bug
package.sh: make sure admin logs exists before tail'ing
03-06-11 probe.win32: fix $(BINDIR) typo that expanded in sh instead of make
cc.mvs.390: return
code 4 yields exit code 3 but its *really* ok
package.sh: fix onpath function global var conflict
make.probe: add CC.DIALECT { GNU -dD }
package.mk: add Mamfile to lcl manifest
03-06-10 package.sh: fix setup action typo that only checked the INIT package
package.sh: *.s390x => *.s390-64
03-06-09 package.mk: add cyg :POSTINSTALL:
03-06-08 make.probe: fix CC.STDLIB logic
hurl.sh: add User-Agent identification
package.sh: tweak source and binary installation instructions
cc.hp.pa,ld.hp.pa: +-Wl,+cdp,${INSTALLROOT}/lib/: drops abs lib paths
ldd.hp.pa: add
03-06-06 package.sh: fix $INSTALLROOT/bin/ldd check
make.probe: add CC.STDLIB verification
03-06-04 make.probe: add +forceread +noforceread
03-05-11 hurl.sh: handle http://host:port/path
03-05-06 package.sh: fix setup action PACKAGEROOT and INIT logic
03-05-05 package.mk: fix cygwin tarball names
03-04-30 package.sh: move (cc|ld|ldd).$HOSTTYPE updates from Makefile
03-04-27 make.probe: fix mvs CC.PREFIX.SHARED "lib"
=> ""
make.probe: add CC.DLL.DIR = $(BINDIR) or $(LIBDIR)
make.probe: add { CC.LD.LAZY CC.LD.NOLAZY CC.LD.RECORD CC.LD.NORECORD }
probe.win32: sync with latest CC.*
03-04-25 mamprobe.sh: add args to `. $makeprobe' for ancient sh
03-04-23 package.mk: fix dup "covered by" licenses
03-04-22 probe.win32: CC.DIALECT += "LIBPP -I-" for all cc's
package.sh: fix admin write binary tarball snarf
03-04-21 package.mk: package covered *.@(pkg|lic) too
03-04-15 package.mk: don't generate incremental archives for lcl
package.mk: add incremental=[source:1 binary:0] archive control
package.sh: generate $INSTALLROOT/bin/cc wrapper for CC != cc
package.sh: admin must ditto lib/package/*.@(pkg|lic) too
mamake.c: ignore time of ignore prereqs
mamake.c: -D2 lists propagated times
03-04-11 package.mk: tidy up cyg tarballs
package.sh: fix old shell clash between get() and $get
03-04-05 package.mk: restore *.inx generation somehow lost during cyg additions
package.sh: add pthread_num_processors_np()

last resort for cpu count
package.sh: use `make believe' to accept mamake generated files
package.sh: handle `make [make-flags] [target ...]'
mamake.c: ignore -e
03-03-21 package.mk: fix cyg old make typo
package.sh: switch to `package setup' instructions
03-03-19 package.sh: add registry checks for `host cpu'
package.sh: `results failed' now lists core dump messages
03-03-17 package.sh: on cygwin verify 'ntsec binmode' in $CYGWIN or die
Makefile: install gcc wrapper if no cc
package.mk: add :DETAILS: { :README: :EXPORT: :INSTALL: :TEST: } ops
03-03-12 package.mk: add :DETAILS: for style-specific details
03-03-11 package.sh: add beta setup/update support
TEST.mk: add (TESTCC) prereq for .sh tests
03-03-07 hurl.sh: add
03-03-06 iffe.sh: fix lib win32 test cygwin vs native incompatibility
iffe.sh: change internal stdio.h guard to handle C++ inline vs. macro
03-03-03 package.sh: check for curl or wget for update
package.sh: add setup action == update read
make
package.sh: fix packageroot() typo that showed up in non ~user shells
mamake.c: treat name+=value args like name=value
mamake.c: add ${var?*|value?match?no-match?}
mamake.c: fix archive vs. dynamic bind logic
03-02-28 package.sh: add the "cyg" (cygwin) package type
package.mk: add "cyg" stubs, :CATEGORY: for category name(s)
03-02-25 mamake.c: add -D4 system(3) debug trace
03-02-24 package.mk: change --mismatch to --corrupt=accept
03-02-14 ratz.c: add _WIN32 setmode([01],O_BINARY) and fopen "rb"/"wb"
03-02-12 Makefile: handle getconf LIBPATH with host pattern
03-01-31 package.mk: fix .lic search
03-01-30 package.sh: handle { INIT ksh nmake } already installed elsewhere
package.sh: admin handles command outside of $PACKAGEROOT/bin
Makefile: install $(INSTALLROOT)/lib/make/package.mk
03-01-28 package.sh: admin remote commands on one line to please syslog
03-01-23 probe.win32: borland and mingw32 tweaks
03-01-22 package.sh: fix $CC test to ignore set -x trace -- duh
03-01-16
ditto.sh: tw --chop on by default
03-01-14 package.sh: use /bin/cp to copy previous binaries to bin/ok/
package.sh: admin now initiates remote exec and copy from local host
03-01-12 package.sh: handle admin "xxx:" default root
03-01-03 probe.win32: add /usr/include/borland path truncation workaround
02-12-10 iffe.sh: add <&$nullin >&$nullout to checkread() $cc
02-12-06 probe.win32: fix inlcude => include typo, add lcc lib
probe.win32: CC.MAKE.OPTIONS = nativepp=0
02-12-04 mamake.c: fix ${foo-bar} to expand foo if defined
02-11-28 probe.win32: add C++ and -I- CC.DIALECT checks

02-11-26 package.sh: package release now checks for second level files
02-11-22 package.sh: update action now uses HTTP/1.0
02-11-21 probe.win32: update the vc include dir test
02-11-20 make.probe: fix CC.LD.ORIGIN typo that expanded make var
02-11-13 packahe.mk: fix list.install => list.installed typo
02-11-12 make.probe: add CC.LD.ORIGIN for a.out origin dir relative dll search
  make.probe: add CC.LD.STRIP
 for link time a.out strip
  package.sh: fix package_use vs. PACKAGE_USE check
02-10-24 WWW.mk: fix bug that required a :WWWBIN: assertion to post
02-10-23 mamake.c: fix unuinitialized time in make()
  ratz.c: fix meter buffer overflow
02-10-20 package.sh: fix lib/probe/C/make/probe update test
02-10-18 probe.win32: update for mingw
  make.probe: add bash workaround to SHELLMAGIC test
  package.sh: work around yet another cygwin hassle
02-10-17 iffe.sh: short circuit id check for *[-+/\\]*
02-10-08 regress.sh: unset FIGNORE to avoid rm . errors
  package.sh: unset FIGNORE to avoid rm . errors
  package.sh: $CC must at least compile and executable hello world
02-10-04 package.sh: $INSTALLROOT/lib/package/tgz=>$PACKAGEROOT/lib/package/tgz
  package.mk: $(ED) => $(STDED), $(EDFLAGS) => $(STDEDFLAGS)
  iffe.sh: add identifier checks for tests that (implicitly) require them
  iffe.sh: disambiguate a few --config macros
02-10-02 iffe.sh: fix shell=bsh `hdr a/b'
02-09-30 package.sh: handle
 chmod of -* files
  package.sh: verify that $SHELL is Bourne compatible
  package.sh: tighten PACKAGE_USE logic PATH,LIBPATH,etc. validation
  iffe.sh: fix bug that didn't define mac variable on success
02-09-22 package.sh: handle admin_action=ditto
  iffe.sh: --config sizeof(foo) macro is SIZEOF_foo
  iffe.sh: fix long.long test so it doesn't defeat uwin "typ long.long"
  mamprobe.sh: convert $("foo") nmake string constants
02-09-21 mamprobe.sh: "-" info-path writes probe info to stdout
02-09-11 make.probe: move from nmake src to be part of mamprobe.sh
  mamprobe: generate from mamprobe.beg C.probe make.probe mamprobe.end
  mamake.c: pass cc absolute path to mamprobe
  package.sh: generate mamprobe -- yuk (at least its confined to INIT)
  iffe.sh: lcl,nxt: drop default sys/ check
  ditto.sh: tw --logical by default; add --physical
02-09-10 package.sh: SHELLMAGIC creeps into package too -- duh and fooey
02-09-09 ditto.sh: test that remote .profile exists before sourcing
02-09-06 package.sh:
 don't ditto nfs junk
  ditto.sh: --show now lists directory ops instead of enumerating all
02-09-05 ditto.sh: add --remote={rsh|ssh}
  package.sh: add admin [[{rsh|ssh|-}]:]directory

02-09-02 iffe.sh: change 'print -r --' to 'print -r -' for ksh86 compatibility
02-09-01 cc.unix.mc68k: add for ancient 3b1
02-08-22 package.sh: fix component() to test for components -- duh
  Makefile: add LICENSE:.DONTCARE to workaround mam
02-08-11 iffe.sh: provide defaults for LD_* additions
02-08-07 ratz.c: change -m to use * instead of non-portable inverse video
02-07-17 mamprobe.sh: close tmp file in trap before rm for cygwin
  package.sh: fix "type" to handle i1586 (P4)
  package.sh: add the view action
02-06-28 package.sh: handle multiple packages for release action
02-06-27 package.sh: catch sol*.sparc=>sol*.sun4 when CC=gcc
02-06-14 package.sh: fix admin_action to not include qualifiers
  package.sh: fix help/html doc typo
02-06-11 package.sh: fix ditto update doc to `PACKAGEROOT field
 matching *:*'
02-06-07 WWW.mk: change substitute $("\n") to \n
02-06-06 package.sh: clarify output streams for help/html
02-05-22 mamake.c: fix executable file check to use (S_IXUSR|S_IXGRP|S_IXOTH)
02-04-04 package.sh: fix update to differentiate *.sun4 and sun4
02-03-27 package.sh: yacc/bison warning only if both missing
02-03-24 mamake.c: all shell actions wrapped with -c to avoid #! problems
02-03-23 package.sh: recover $PACKAGEROOT/bin/package if not in INIT package
  package.sh: precheck $CC, not `cc'
  package.sh: fix install to use pax -ps to preserve set-uid/gid
  package.sh: fix install to use list.installed for existing files only
02-03-17 package.sh: fix PAX initialization that was sometimes omitted for read
  package.sh: fix update delta sync fetch
02-02-14 iffe.sh: fix macro{ }end docs to include "
  iffe.sh: add dfn to extract #define from headers
  iffe.sh: handle nxt #include ok but no line sync
  iffe.sh: drop local header clash logic
  iffe.sh: add -X, --exclude=dir
 to exclude -I dirs
  iffe.sh: lcl,nxt now generate <...> headers instead of "..."
  package.sh: admin.db root dir matching -* disables host
  package.mk: fix package.src.pat typo -- too many)
  package.mk: add { :COVERS: :DESCRIPTION: :REQUIRES: }
  package.sh: handle { :COVERS: :DESCRIPTION: :REQUIRES: }
  Makefile: move proto.c generation to the proto component dir
02-02-02 execrate.sh: add for .exe challenged win32 systems/commands
  mamprobe.sh: add STD* commands/flags
  mamake.c: update mamprobe info when older than mamprobe executable
  package.sh: move ed/ex workaround to mamprobe.sh
  package.sh: fix `host type' bug that incorrectly assumed sun4 for sol
  package.sh: add execrate(1) hooks for challenged systems
  package.sh: add check for { cc ar nm yacc/bison } before make
  ratz.c: fix "rb" vs. "r" macro tests
  iffe.sh: add nxt, similar to lcl but defines _nxt_foo for #include

iffe.sh,package.sh: remove vaibale from sccs,cvs ident strings -- duh
02-01-24 C+probe: check CC.DYNAMIC
to handle cc that accept but ignore -B*
iffe.sh: handle 'mem struct.a.b'
02-01-22 iffe.sh: cache (internal) `foo vs. struct foo' test results
package.sh: uts.370 => uts.390
02-01-18 package.sh: fix uts hosttype
02-01-17 package.sh: add 'results failed ...' to list failures only
package.sh: change ARCH internal var to all_types to avoid env conflict
iffe.sh: fix hdr/lib precheck that missed some -- ouch
iffe.sh: fix noexecute test that forgot to check compile first!
02-01-15 ratz.c: fix path[] type typo
02-01-01 package.mk: tighten license search
02-01-08 package.sh: `pwd` => ${PWD:-`pwd`}
package.mk: expand license file pattern match
02-01-04 iffe.sh: fix `exp name "value"' bug that duped "value"
iffe.sh: fix initial <sys/types.h> check to honor --config
01-12-25 iffe.sh: fix bug where -o file restored old file
01-12-23 package.mk: uniq the closure lists
01-12-07 ratz.c: fix --meter to retain paths containing " -- "
01-11-30 ratz.c: use sear_system() to execute;
should work on all windows
01-11-28 ratz.c: fix sear_rm_r() to check SetCurrentDirectory() status
01-11-26 ditto.sh: drop n+=v for ksh compatibility
01-11-21 ditto.sh: add rsync script replacement [hey, it works!]
package.sh: add [ditto]:directory notation to admin.db
01-10-31 package.sh: handle *.sum paths with embedded space
package.sh: change executable() to onpath()
package.sh: executable([!] foo) replaces test [!] -x foo (.exe hack)
package.sh: add os2 fix to `host type'
mamake.c: add .exe hack
iffe.sh: fix intrinsic function lib test
mamprobe.sh: update pic probe to match make.probe for linux.ia64
01-10-30 package.sh: make action skeleton view now checks subdirs
01-10-20 package.sh: don't recurse into leaf dirs matching $MAKESKIP
package.mk: tarball package.notice replaces `license accepted' prompt
package.sh: eliminate `license accepted' prompt
package.sh: add update to download latest from a url
package.sh: use builtin arithmetic when we know its ksh
iffe.sh:
unkown -> unknown
01-10-18 package.sh: convert to YYYY-MM-DD delta releases instead of NNNN
package.mk: convert to YYYY-MM-DD delta releases instead of NNNN
ratz.c: fix -m for paths containing \f\n\r\v
01-10-16 ratz.c: _SEA_* => SEAR_*
ratz.c: preserve stdin for sear_exec()
ratz.c: add recursive sear_rm_r() to sear_exec() tmp dir cleanup
01-10-10 mamprobe.sh: add mam_cc_SHELLMAGIC

package.sh: add nfs wakeup call to admin to avoid stale file handles
01-10-04 cc.darwin.ppc: -flat_namespace is not longer the default (huh)
01-10-01 package make: prepend $INSTALLROOT/bin/ok to PATH
package read: save cpy of bin/package when reading the INIT package
mamprobe.sh: allow cc path with optional arguments
01-09-24 Makefile,package.sh: add $INSTALLROOT/bin/.paths initialization
01-09-19 package.mk: add recurse to list.package.*
package.sh: bootstrap build nmake with _BLD_STATIC for _WIN32
01-09-11 ratz.c: add _SEA_SKIP & _SEA_COMMAND for self extracting archives
01-09-07 package.mk:
fix output capture to not generate files names with spaces
01-09-07 package.mk: fix delta release number search
01-08-11 package.mk: handle single gz executable packages (e.g., for ksh)
package.sh: fix package install to require nmake only if no *.sum
iffe.sh: drop ancient menu and prompt actions; check ./hdr.h clash
01-07-17 package: fix use cross compile test to generate files in /tmp
01-06-27 ratz: handle hard and soft links if possible
01-06-07 Makefile: fix :MAPLIB: for sco
01-05-31 crossexec.sh: add
iffe.sh: add -x crosstype to run crossexec
iffe.sh: exp test now handles pass{}end fail{}end yes{}end no{}end
package.sh: add package host canon external-host-type-name
package.sh: fix `use USER' lookup for shells that support ~USER
cc.*: add -dumpmachine to dump target HOSTTYPE
01-05-18 iffe.sh: drop $HOME/tmp/t.sh debug trace -- oops
01-05-01 mamake.c: scan() now handles :PACKAGE: foo:command
01-04-26 *.sh: expand [a-z][A-Z][0-9] for non-contiguous character codes

iffe.sh: fix run *.sh for shells that don't $* across . command
cc.mvs.390: recode for /bin/sh
01-04-25 package.mk: include non cc-g variants by default
package.sh: *[._]* => *?[_.]* for mvs.390 /bin/sh
01-04-24 TEST.mk: no tests for VARIANT=="DLL"
01-04-22 package.mk,package.sh: tarball text members are ascii encoded
01-04-18 package.mk: allow package name to be the same as one of its components
cc.mvs.390: handle .C .cpp .cxx
cc.mvs.390: compensate for -o that does not overwrite
01-04-01 regress: fix SAME that just skipped it -- we should regress regress!
iffe: fix bug that didn't emit _hdr_foo for internal hdr tests
iffe: fix lcl bug for cc -E that doesn't emit line syncs
ratz: add ascii=>ebcdic conversion for text archive members
mamake: fix buffer overlap bug that clobbered the probe file path
01-03-17 iffe: handle : separator as first arg
01-03-15 mamake.c,ratz.c,release.c: add <stdlib.h> and <string.h>
01-02-26 iffe.sh: fix bug that omitted runtime
#define for `mac' op
01-02-22 cc.ibm.risc: handle SF_CLOSE clash in <sfio.h>
01-02-14 cc.sgi.mips3,cc.sgi.mips4: handle -mips2 -mips3 -mips4 for cross cc

C+probe: quote "$cc" when its an argument!
mamake: execute actions with $SHELL, ignored signals back to default
package.sh: nmake check error output to /dev/null
package.sh: fix INIT a.out updates for knr cc
package.sh: package list now handles large tgz dirs
package.sh: *-ok executables moved to ok/* for *.dll systems
iffe.sh: change "exec >&-" to "exec >/dev/null" else linux mkdir fails!
mamake: handle `bind -lx [dontcare]'
01-02-12 ratz.c: fix _PACKAGE_ast includes
package.sh: $HOSTTYPE env overrides if $PACKAGEROOT/arch/$HOSTTYPE/
package.sh: $CC ^HOSTTYPE=[A-Za-z_0-9.]*$ overrides HOSTTYPE
iffe.sh: fix dat code that used previous $tmp.exe
iffe.sh: fix dat code for _DLL imports
01-02-09 iffe.sh: add copy() for shells with the dissappearing here doc bug
01-02-08 Makefile: guard against null $(CC.HOSTTYPE)
01-02-06
Makefile: separate out cc,ld,ldd workarounds (so they will be packaged)
01-02-02 package.sh: fix package use for $INSTALLROOT != */$HOSTTYPE
package.sh: create intermediate recursion makefiles when needed
package.sh: add $SECONDS to the DEBUG trace prompt
01-01-01 ratz.c: #ifdef for uwin ncc
iffe.sh,package.sh: check PACKAGE_PATH for local installations
package.sh: add psrinfo for osf.alpha host cpu
package.sh: change pax --meter probe; some hang on /dev/tty
package.sh: fix `install flat ARCH'
mamake: eliminate loops from scan order
C+probe: add probe_verbose -V for aix cc=xlc
cc.ibm.risc,ldd.ibm.risc: add
package.mk: list refs to top-level licenses only
package.mk: add local link table to change log html
00-12-25 package.sh: `no package archives' is a hard error, duh
package.sh: reorder host type logic for lame shells
mamake.c: getcwd => getwd for NeXT -- how about posix==default guys
iffe.sh: really gross workaround for NeXT -lposix stdout null's

iffe.sh: handle cc -E that insists on compiling
00-12-15 iffe.sh: ancient sh function call blows $*; call only when $# == 0
*.sh: `getopts 2>/dev/null` => `(getopts)2>/dev/null` for ancient sh
package.sh: fix LD_LIBRARY*_PATH initialization
cc.next.m68k: add for _POSIX_SOURCE and linker multiply defined syms
00-12-12 ratz: add --meter
package.sh: a few VPATH fixes
Makefile: don't override *.mips* cc if -version not accepted
00-12-11 package.mk: *.inx now contains name=value
00-12-07 package.sh: handle PC netscape . => _ pathname mangle
WWW.mk: .tar.gz => .tgz
00-11-27 package.sh: add checklicense() to do license checks at read time
package.mk: change component list from preformat to table

00-10-31 package.mk: *.pkg must assert closure
  package.mk: add cc- variants to list.package.binary
  package.sh: omit dups from package list
  package.sh: invalid arg gives one line Usage
  package.sh: relax checkaout checks for non-owners
  package.sh: package use sets NPROC if
 not already set or [01]
  proto.c: add $(INSTALLROOT)/include/ast hack
00-10-26 WWW.mk: add .SOURCE rhs to :WWWPAGE:
00-10-25 package: fix install
  package.mk: add list.install
00-10-22 regress: fix VIEW to skip empty dirs
00-10-19 package.mk: $(PACKAGEROOT)/bin/nmake => $(PACKAGEROOT)/bin/manmake
  iffe: validate #define identifiers
00-10-18 C+probe: mac os10 additions
  package: add DYLD_LIBRARY_PATH initialization
  add ldd.$(CC.HOSTTYPE)
00-10-01 iffe: handle -I* -L* options
00-09-21 mamake: add libxxx and xxx to makefile ordered prereqs
00-09-19 C+probe: add probe_longlong
00-09-11 package: drop manmake and $PACKAGEROOT/bin/nmake
00-09-08 iffe: verfiy that $cc is a C compiler
00-06-14 mamprobe: fix win32.* probe
  mamake: fix bug that used lower view path for generation
  package: don't clobber $PACKAGEROOT/bin/nmake
00-06-01 C+probe: fix stdinclude *again*
  package: fix write delta source to use default pax format
  package: add disambiguating bias for sgi.mips3 over sgi.mips4

 package.mk: fix for directory content packages lib ast-locale
00-05-01 iffe: fix invalid _LIB_ macro identifier
00-04-11 C+probe: uniq stdinclude and stdlib, fix usrinclude
00-04-01 regress: fix explicit OUTPUT bug that didn't compare with expected
00-03-17 package: all archives are .tgz for binary download
  package: $(PACKAGEROOT)/LICENSES/* in source and binary archives
  package: implement install and verify actions
  iffe: add exp, pth file dir ..., fix lib - -lfoo, fix lib - - -la -lb
  iffe: -L* must affect LD_LIBRARY* hacks for .exe tests -- yuk
  package.mk: add *.pkg :INDEX:
00-03-07 package: add admin action
00-03-06 makefile: install optional make probe override script C+make+probe.lcl
00-02-14 --- release 1.0 ---
  ratz: treat "foo/" as a dir, not a regular file
  package: clarify source and binary installation instructions
  package: fix so binary packages can install without cc
  package: "ratz" now a non-archive package (the only one) for bootstrap
  package: handle

VPATH=a:b arg
package.mk: "ratz" package adjustments
Makefile: use :PACKAGE_INIT: to support binary INIT packages
WWW.mk: add :WWWALL:
C.probe: fix .so check that let .dll slip through
iffe: fix config sh var assignment for HAVE_member_IN_struct
iffe: fix config sh var assignment for symbol_DECLARED
package: delay PATH export until dll hack exports complete
package: don't forget binary package $(INSTALLROOT)/lib(32|64)
package: add delta change log for source packages
00-02-10 mamprobe: add mam_cc_DLLBIG
package: fix spelling typos
package: add html help output
package.mk: beef up source and binary help => html
00-02-08 package: mkdir man/man[138] in the new arch to cover MAM bug
00-01-28 package,release: add -rcount to release
package: fix linux "host cpu" and "host rating"
package: copy *.lic to $PACKAGEBIN for "make" and "write binary"
package: fix 'release change log' case match
00-01-24 package: add copyright action
mamprobe: add -D_BLD_DLL to mam_cc_DLL
00-01-11
package: tsort for package write
package: early verification that $CC works
package: add non-interactive command arg for use action
proto: fix -C intermediate mkdir()
mamprobe: unixware.i386 ksh workaround
C.probe: move hosttype to C.probe (with unixware.i386 workaround)
WWW.mk: fix mm2html option quoting
WWW.mk: add .SCAN.mm
WWW.mk: don't force static=1; grab dll's instead
*.sh: fix getopts test to handle botched implementations like osf.alpha
iffe.sh: fix read -r test
99-12-25 iffe: tweak verbose messages
iffe: hand code non-optget getopts parse
iffe: fix bash quoting bug again
iffe: do test -w . after option parse
package: fix PACKAGEROOT search
99-11-19 --- release 0.2 ---
99-11-19 first working package & friends
99-10-31 change from lib0ast to INIT; add MAM and package bootstrap
hostinfo: gobbled by package
99-10-01 iffe: add --config, yes{...}end no{...}end, fix read -r workaround
99-09-27 iffe: add --all --verbose, --* set options
99-09-22
regress: -v disables long line truncation
99-09-11 WWW.mk: WWWDIR and MM2HTMLINFO are now lists searched in $(HOME)
99-08-11 hostinfo: fix type sgi.mips4

99-06-24 WWW.mk: add
99-06-08 hostinfo.sh: ${TMPDIR:-/tmp}
99-06-07 TEST.mk: add
99-06-01 iffe: add `siz type' for _siz_type == sizeof(type)
99-05-11 hostinfo,iffe,regress,use: long options
99-05-01 C.probe: fix over aggressive stdinclude, e.g., /usr/include/machine
99-04-01 hostinfo: sgi.mips? -o32 and -n32 checks
iffe: check that . is writable
99-03-17 hostinfo: fix for cc not found
dl.c,hello.c,m.c: headers in conditionals to force .DONTCARE
C.probe: extra check for include dirs pulled in by <sys/types.h>
99-03-03 regress: add `UNIT - ...' for extra args
Makefile: add (_hosttype_) prereq for cc
99-01-23 hostinfo: tweak rating, use /proc/cpuinfo if there
99-01-11 C.probe: shlib before lib, /usr before /
98-12-25 iffe: work around win32.alpha intrinsic clash with -O
98-11-11 regress: fix UNIT PATH lookup
98-11-01 regress:
add PROG
98-10-01 hostinfo: add unixware.*
use: export PACKAGE_*
98-08-11 C.probe: add /usr/include check (for sco CC)
hostinfo: handle uwin uname update
98-05-01 regress: fix bug sometimes didn't list last test
98-04-01 hostinfo: add cc path arg
hostinfo: now works with /bin/sh
Makefile: strengthed -lm probe
98-01-23 Makefile: check for -ldl -lm
C.probe: handle gcc -v -E phony include dirs
iffe: fix lcl by dropping sort -u -- we need the real first
iffe: `mem x' to test if x is a non-opaque struct
98-01-11 $(INSTALLROOT)/lib32 for sgi.mips3
$(INSTALLROOT)/lib64 for sgi.mips4
add cc.hp.pa
98-01-01 cc.sgi.mips*: turn off ld library multiply defined
97-10-11 regress: add VIEW function for locating data
97-10-01 Makefile: -ldl test moved to libdll Makefile
97-08-11 regress: add MOVE
regress: add SAME
regress: use getopts
regress: `EXEC' repeats previous test
97-07-17 use: tweak PATH and LIBPATH bootstrap order
iffe: fix lcl bug that botched pathnames with embedded
spaces
97-06-12 iffe: add npt `needs prototype' test
97-05-09 hostinfo: mvs.* => mvs.390
Makefile: cc.$(_hosttype_) workaround installed here
iffe: fix nolink{ ... }end

iffe: add [no]static{ ... }end for static link test
C.probe: _probe_PATH => _probe_export which must be eval'd
97-04-01 use: _RLD_ROOT set too
97-03-17 mm2html: changed inner loop
mm2html: handle .if|.ie|.el, .so
mm2html: handle different man styles
mm2html: differentiate mm/man in some non-obvious cases
hostinfo: r5000 is not mips4
97-02-14 hostinfo: validate type with cc
96-12-25 C.probe: uwin tweaks
iffe: use `...` instead of $(...) for alpha /bin/sh
iffe: fix `typ' divide by 0
iffe: `lcl' now drops X: prefix
iffe: +l* -> -l*
iffe: eval around ${...#%...} for bsd /bin/sh
use: add sgi.mips LD_LIBRARY<abi>_PATH variants
use: add -e to list exports
iffe: lcl leaves leading [a-zA-Z]: for dos
iffe: fix no{link|output|execute} logic
C.probe: don't automatically add /usr/include for
non-hosted compilers
C.probe: don't automatically place /usr/include last
C.probe: check gcc style -v -E for stdinclude usrinclude
96-11-28 iffe: check BASH_VERSION for IFS botch
iffe: typ long.xxx only if sizeof(long xxx) != sizeof(xxx)
hostinfo: fix sgi.mips[234] tests
hostinfo: fix ncr.i386 tests
96-10-31 iffe: work around old bsh here doc bug by running separate sh
96-10-11 iffe: *.iffe and *.iff for iffe src files
hostinfo: tighten sgi.mips cpu type check
96-10-01 C.probe: add probe_libdir to catch alpha /usr/shlib
96-09-17 iffe: fix typ bug that failed for single id types!
96-08-31 hostinfo: handle recent sgi hinv cpu changes
96-07-17 make sure sizeof(long xxx)>sizeof(xxx) for typ long.xxx
96-05-09 C.probe: drop multiple / in stdinclude
96-02-29 use: package root must have bin and lib subdir
mm2html: add
C.probe: probe_members += -whole-archive for gcc
iffe: add + fix the blasted `...'...\\...'...`
96-01-31 use: add pkg dir
hostinfo: add tandem
96-01-01 hostinfo:
windows_nt|windows[0-9][0-9] -> win32
95-11-24 hostinfo: linux-aout.* for non-elf linux
95-11-11 use: add aix LIBPATH
95-10-11 hostinfo: no args prints type
95-08-11 use: add
95-05-09 save original PATH in _probe_PATH

```
  beef up library dir probe
95-04-01 use c source suffix if it still preserves the dialect
  add hostinfo
  add lib/hostinfo/typemap user type map
  add sol.sun4 cpu count
  fix C.probe to properly handle C/C++ combined compiler drivers
  add NeXT to hostinfo
  bummer: mach has /usr/bin/hostinfo
95-03-19 fix dialect executable test
95-03-19 --- release 0.0 ---
```

ksh :PACKAGE:

:LICENSE: *.open

:CATEGORY: shells

:INDEX: standalone AT&T ksh executable

:DESCRIPTION:
The AT&T Software Technology ksh package from AT&T Research
contains the AT&T ksh executable implemented by David Korn.
The download file is a gzipped ksh executable. If you want
to build ksh from the source then download one of the ast-ksh,
ast-base or ast-open packages.

Found in path(s):
* /ksh-20120801-142.el7-1.src.rpm-cosi-expand-archive-DSH2087G/ast-ksh.2012-08-01.tgz-cosi-expand-archive-7ZUpQFhL/lib/package/ksh.pkg
No license file was found, but licenses were detected in source scan.

The AT&T Software Technology ast-ksh package from AT&T Research
contains ksh and support libraries. This is the minimal set of
components needed to build ksh. This package is a superset of the
following package: ksh; you won't need this if you download ast-ksh.

Source Package Installation Instructions:

(1) Do not install packages as root/super-user. Although some components may
have setuid executables, few must be owned by root. These are best
changed manually when the security implications are understood.
(2) Choose a package root directory and cd to it. This will be a local work
area for all packages.
(3) These instructions bypass the click to download package links on the
download site. If you already clicked, or if your system does not have
curl(1), hurl(1), lynx(1) or wget(1) then use the alternate instructions
for (3),(4),(5) in plan B below. Plan B installs the hurl(1)
script which works with ksh and modern bash. The top level URL is:
URL=http://www.research.att.com/sw/download
(4) If the bin/package script does not exist then run:
test -d bin || mkdir bin
url=$URL/package
(wget -O - $url||curl -L $url||hurl $url) > bin/package
chmod +x bin/package
(5) Determine the list of package names you want from the download site, then
use the package(1) command to do the actual download:
bin/package authorize "NAME" password "PASSWORD" \
setup source $URL PACKAGE ...
(Refer to the AUTHORIZATION paragraph on the main download page for
NAME/PASSWORD details.) This downloads the closure of the latest
source package(s); covered and up-to-date packages are not downloaded again unless
package force ... is specified. Package content is verified using md5sum.
If the package root will contain only one architecture then you can install in bin and
lib instead of arch/HOSTTYPE/bin and arch/HOSTTYPE/lib

by running this
instead:
bin/package authorize "NAME" password "PASSWORD" \
flat setup source $URL PACKAGE ...
To update the same packages from the same URL run:
bin/package setup source
(6) Build and install; all generated files are placed under arch/HOSTTYPE
($INSTALLROOT), where HOSTTYPE is the output of bin/package (with no
arguments.) name=value arguments are supported; CC and debug=1 (compile
with -g instead of -O) are likely candidates. The output is written to
the terminal and captured in $INSTALLROOT/lib/package/gen/make.out:
bin/package make
(7) List make results and interesting errors:
bin/package results
Run the regression tests:
bin/package test
List test results and errors:
bin/package results test
(8) The generated binaries are position independent, i.e., they do not
contain hard-coded paths. However, commands with related files, like
file(1) and nmake(1), require the path of the bin directory
to be
exported in PATH.
(9) You can run the binaries directly from the package root, or you can
install them in a public root after you are satisfied with the make and
test actions (requires the AT&T nmake(1) command):
bin/package flat install DIRECTORY PACKAGE
This will install in DIRECTORY/bin and DIRECTORY/lib. If you want to
preserve the arch/HOSTTYPE hierarchy under DIRECTORY then omit the
flat argument. If you don't have nmake(1) then the following will do a
flat install:
cd $INSTALLROOT
cp -p -r bin lib include DIRECTORY
(10) To summarize, after the first time the download, build, and test cycle
for the latest source release is:
bin/package setup source
bin/package make
bin/package test

Source Package Installation Instructions -- Plan B:

(3) Create the subdirectory lib/package/tgz and download all package archives
into that directory.
(4) If the bin/package script does not exist then manually read the
INIT
source package:
gunzip < lib/package/tgz/INIT.YYYY-MM-DD.tgz | tar xvf -
Note that some browsers automatically unzip downloaded without warning.

If the gunzip fails try:
tar xvf - lib/package/tgz/INIT.YYYY-MM-DD.tgz
If your system does not have tar(1) or gunzip(1) then download the ratz
source package, compile it, and manually read the INIT
source package:
mkdir bin
cp lib/package/tgz/ratz.YYYY-MM-DD.c lib/package/tgz/ratz.c
cc -o bin/ratz lib/package/tgz/ratz.c
bin/ratz -lm < lib/package/tgz/INIT.YYYY-MM-DD.tgz
(5) Read all unread package archive(s):
bin/package read
Both source and binary packages will be read by this step.

All recorded changes follow.

::::::::: ksh93 :::::::::

12-08-01 --- Release ksh93u+ ---
12-08-01 A bug that ignored interrupts for some builtins (e.g. cmdtst::grep)
that read from stdin has been fixed.
12-08-01 A bug that interpreted "cd .foo" as "cd foo" has been fixed.
12-07-30 Added automatic
restart for EINTR for ioctl, tcgetattr, and tcsetattr.
12-07-23 A scoping error with namrefs to compound associative arrays has
been fixed.
12-07-20 A bug where builtin -d /path/foo deleted foo has been fixed.
12-07-18 A bug in which /dev/stdout did not work in command substitution on
some systems has been fixed.
12-07-17 A bug in which the restricted option set in a subshell prevented
some variables from getting restored when the subshell completed
has been fixed.
12-07-09 A bug in which the directory is not restored after a subshell changes
the name of the directory for subshells executed in the same process
has been fixed.
12-07-09 A bug in which file descriptors created with {n}< file were not being
closed has been fixed.
12-07-09 The 12-04-04 fix for cd .. was not correct causing cd /etc;cd .. to
remain in /etc. This has been fixed.
12-07-02 A bug in which builtin name did now work for builtins found in a
library added by builtin -f lib has
been fixed.
12-07-02 A bug in the edit modes which <tab> after a directory did not refresh
the input line has been fixed.
12-07-02 A bug in which an exit status > 256 corresponding to a signal was
not returned by a function to indicate a signal exit has been fixed.
12-06-28 Fix ulimit -a to list (Kibytes) instead of (kbytes).
12-06-27 Fix unitialized data reference for <CR> as first char in --vi mode.
12-06-26 The formatting of printf "%q" for multibyte locales has changed to

output using \u[xxx] format for valid wide characters.
12-06-25 The size limit for read -N and read -n has been raised to INT_MAX.
12-06-22 A bug in which an exit trap set in a subshell might not be triggered when the last command was a simple executable has been fixed.
12-06-22 A bug which could cause the shell to hang when a coprocess exits while a command inside a command substitution is reading from it has been fixed.
12-06-21 +ksh new accepts for commands of the form
for i; <nl> do;...;done
12-06-19 Tab completion after a / when there is only one match not completes with that match rather than generating a menu of matches.
12-06-19 A bug in which patterns containing {...} where not processed correctly inside ${var/pattern/string} has been fixed.
12-06-18 Code modified to eliminate fts_notify variable.
12-06-15 Change the .paths plugin/builtin library variable name from BUILTIN_LIB to PLUGIN_LIB to prevent new plugin_version() aware -lcmd from causing older non-plugin_version() aware ksh to dump core.
12-06-14 builtin without argument no longer lists .sh.tilde as a built-in.
12-06-12 For assignments if the form x=(foo bar), foo is only check for an alias if it is float, integer, compound, or nameref.
12-06-12 +The shell supports 64 bit i-nodes even for 32 bit binaries.
12-06-11 A bug wth >; redirection systems for which vfork() was the same a fork() has been fixed.
12-06-11 A bug in path lookup that ignored buffer boundaries
has been fixed.
12-06-08 typeset -a var and typeset -A var, first unset var when var is a compound variable.
12-06-08 A bug in which running shcomp on a program containg namespace could core dump has been fixed.
12-06-06 A bug in which unset of an associative array of compound variables did not completely unset the variable has been fixed.
12-06-06 A bug in which exporting left or right justfied fields could loose the field width has been fixed.
12-06-06 A bug on Solaris11 in which >; did not work for /dev/null was fixed.
12-06-05 A race condition which occured when stopping a builtin command invoked from a subshell has been fixed.
12-06-05 A bug with appending elements to an empty indexed array has been fixed.
12-06-04 A bug in which continuing a stopped builtin could cause it to terminate has been fixed.
12-06-04 By default, builtins added at runtime will restore the current directory if they are killed or stopped.
12-06-04 A bug in handling \\ in
read has been fixed.
12-05-31 Use getrlimit64/setrlimit64 on systems that support it.
12-05-31 Fix 64 bit big-endian arithmentic bug that mishandled nan and inf.
12-05-31 Handle ECONNRESET like EPIPE.
12-05-31 Change .paths parse to use only the last BUILTIN_LIB from the top

and treat BUILTIN_LIB value as a ':' separated list of lib names.
12-05-29 Fix BUILTIN_LIB binding bug that ignored subsequent lookups.
12-05-29 shtests: --nocompile omits the compile test and --compile does only the compile test.
12-05-25 A command subsitution containing a here-document that itself contains a here-document no longer hangs.
12-05-24 When the redirection operatory >; is directed to a symlink, it now overwrites the file named by the link rather than the link.
12-05-21 +Added printf formats %(type)q where type can be html, url, pattern, ere, or csv.
12-05-18 A bug with appending elements to an indexed array has been fixed.
12-05-18 The exit status from getopts --man interactively
was 0 instead of 2
and has been fixed.
12-05-18 Another bug with SHOPT_EDPREDICT which could cause a core dump has been fixed.
12-05-17 A bug with fixed size arrays which could cause a core dump has been fixed.
12-05-17 A bug in which the here-document <<< $(<file) was not processed correctly has been fixed.
12-05-15 The default value for -L, -R, and -Z when the size was not set was incorrectly defaulting to 1 and has been fixed.
12-05-15 A bug in which a subshell of the form (name=value exec ...) could coredump when name is an environment variable and xtrace is on has been fixed.
12-05-15 Fixed a .paths bug in which only the first BUILTIN_LIB assignment worked.
12-05-14 Arithmetic expressions and subexpressions that are not floating point now treat -0 as 0, so that $((-0)) is 0 and $((-0.0)) is -0.
12-05-11 'unset .sh' now fails with readonly message instead of coredump.
12-05-11 A bug which left an associative array arr containing one element
in
the wrong state after expanding with ${arr[@]} has been fixed.
12-05-10 A bug in which typeset -f did not display options that called getopts has been fixed.
12-05-08 Fixed a number of potential bugs uncovered by valgrind.
12-05-08 A bug in which typeset -b -Z10 var did not initialize var to the empty string has been fixed.
12-05-07 A bug in which the exit value of an interactive shell could be affected by the evaluation of the PS1 prompt has been fixed.
12-05-04 A bug in which x=() was not unsetting the old value of x before creating an empty compound variable has been fixed.
12-05-01 A bug in vi edit mode in which after <ESC>^V, the terminal was not restored to insert mode after a character is entered has been fixed.
12-04-27 A bug in which old attributes were not cleared when assigning a value using typeset has been fixed.
12-04-26 +Enabled multiline editing by default. set +o multiline can disable.
12-04-25 The 12-04-17 PATH fix created a new bug

which was fixed.
12-04-25 Fixed a big memory leak problem in which unsetting compound variables
did not free all the space.
12-04-25 A bug in which test ! ! ! was treated as an error has been fixed.
12-04-24 A bug with print -v for a compound variable that contained fixed
arrays which prevented the output from being used again as input
has been fixed.
12-04-23 +kill provides the STKFLT signal on systems that support it.
12-04-23 +The -L option was added to kill. The -L option is the same as -l
except that without arguments the output format is in the form of
a select menu.
12-04-23 A bug in which the exit status for an interactive shell was always
0 has been fixed.
12-04-20 Entering blank lines interactively no longer resets the exit status.
12-04-18 A bug in file completion in which the second tab completion on a file
would list the completion rather than inserting the completion has
been fixed.
12-04-18 A bug in which "${arr[@]:i:j}" and "${@:i:j}"
generated the empty
string when i was a valid subscript and j was <=0 rather than
generating nothing has been fixed.
12-04-17 A bug in which read -d delim from a terminal did not respond to
interrupt and did not termrinate when the delimiter was entered
has been fixed.
12-04-17 A bug in which a directory in PATH containing a .paths file that
contains a line with FPATH=dir, where dir does not exist could
cause the path search to fail has been fixed.
12-04-16 A bug in which $(trap -p) did not display traps such as ERR and
DEBUG that are not associated with signals has been fixed.
12-04-11 A bug in which unsetting a variable did not unset attributes when
the variable did not have a value has been fixed.
12-04-11 A bug in which read -A for an array whose index is an enumeration
type, lost the enumeration type has been fixed.
12-04-10 Shared libraries loaded from a library named by a BUILTIN_LIB= found
in a .paths file found in a directory on PATH now add
builtins that
are associated with the directory in PATH containing the .paths file.
12-04-09 Increased I/O buffer sizes for better performance.
12-04-09 A bug in which the leading 0 was stripped from $x, when $x contained
a heximadecimal constant inside an arithmetic expression inside
a for or while loop.
12-04-06 Modified namespaces to hand variabes FPATH, PATH, and OPTIND that
are defined in name spaces appropriately. This also fixed OPTIND
and OPTARG processing for functions.
12-04-04 A bug in which cd .. fails when the current directory has been
renamed has been fixed.
12-04-02 Made some namespace changes and added a regression test.
12-03-30 A bug with namespaces in which PATH and FPATH set in a namespace was

not restored when leaving the namespace has been fixed.
12-03-29 A bug in which appending an index array onto an array without elements caused the first element to be 1 rather than 0 has been fixed.
12-03-29 A bug which could cause a core dump when copying a large index array has been fixed.
12-03-28 The shell now generates an error message when the sizes with L, Z, and R are > 32767 on 32 bit binaries instead of generating a core dump.
12-03-28 A bug in left and right justification in which the width of invalid characters was not taken as zero has been fixed.
12-03-26 A bug in which typeset -p ref, when ref is a reference to an index array element did not display the subscript has been fixed.
12-03-23 A bug in lowercase and uppercase fields when expanding ${name:=val} when name is the empty string has been fixed.
12-03-22 A namespace bug in which a type t defined in namespace foo could not be referenced outside the namespace as .foo.t has been fixed.
12-03-22 A bug in name reference scoping in which a name function called from another function is pass a name reference to a compound variable instance to be created and the compound variable is in the global scope.
12-03-22 A bug in which ${ref[@]} did not behave like ${arr[i][@]} when ref is a name reference to arr[i] has been fixed.
12-03-21 A bug in which assigning a compound variable into arr[i], where arr[i] is an array variable did not work correctly has been fixed.
12-03-21 A bug with multi-dimenstional index arrays in which ${arr[i][j]} could generate a bogus error message when i was > 9 has been fixed.
12-03-21 A bug in which typeset v=foo, typeset -p v[0] generated a core dump has been fixed.
12-03-20 A bug in vi edit mode in which the sequence bar<ESC>0i<ESC>l left the cursor on the b rather than the a has been fixed.
12-03-20 A bug which caused a core dump when defining a type with a field as ' integer -a data=([0]=0)' has been fixed.
12-03-19 Using typeset -a array when array is an associative arry not generated an error message.
12-03-19 typeset +a, typeset +A, and typeset +C not displays the variables with the attributes a, A, and C respectively instead of an error.
12-03-19
A bug in which typeset -pC, typeset -pa, and typeset -pA output all variables rather than those of type C, a, or A only has been fixed.
12-03-18 A bug in which unset foo where foo is a name reference to a compound variable defined inside a function is not unset has been fixed.
12-03-18 A bug with SHOPT_EDPREDICT which could cause a core dump when the list of matches became empty has been fixed.
12-03-15 The assignment, typeset -C foo=(a b c) now generates a syntax error since a is not an assignment command.
12-03-16 A bug in which an unset discipline from a variable defined in a subshell is not invoked in the subshell has been fixed.

12-03-08 The assignment typeset -a (x=1 y=2) now creates an index array
of two elements rathern than an array of one element which is
a compound variable.
12-03-02 +The vi and emacs edit modes now list all the entries in a directory
when entering a <tab> for completion after a /.
12-03-02 A bug in which a program that exits
with value 12 when called
from a command substitution in which standard output has been
redirected caused the shell to hang has been fixed.
12-03-01 A bug in which the shell could not parse [[']' == ~(E)[]]]]
has been fixed.

12-02-29 --- Release ksh93u+ ---
12-02-29 A bug in which ~user expanded first in a subshell prevented it
from expanding later in a program has been fixed.
12-02-29 A bug which could lead to a core dump when more that four shared
libraries were added with the builtin command has been fixed.
12-02-29 Fixed a few bugs which caused SIGCHLD to be blocked preventing
background jobs from being reaped until a foreground job was run.
12-02-27 A bug in which sh -c for a simple command caused a fork() has been
fixed.
12-02-27 A timing bug on systems such as AIX that doesn't support vfork()
that could cause the exist status to get lost has been fixed.
12-02-22 A private file descriptor that was not close-on-exec for a command
substitution
and has been fixed.
12-02-14 A bug in which ^Z did not stop a pipeline when the last component
was a shell built-in has been fixed.
12-02-14 getconf("PATH") used to initialize ed(1) path.
12-02-13 +In earlier version read from standard input would fail when called
from the KEYBD trap. Now read options -N, -n, and -t should work
when called from a KEYBD trap.
12-02-13 If FCEDIT is not set and fc is invoked without the -e option,
ed will be invoked if found instead of /bin/ed.
12-02-10 Another bug in the saving and restoring of IFS in a subshell
that caused a core dump has been fixed.
12-02-08 A bug in which .sh.fun disciplines could be cleared after a
function completes has been fixed.
12-02-08 A bug in job control in which the foregroup process group was not
set correctly after restarting a stopped pipeline has been fixed.
12-02-07 A bug in which numbers with leading zeros could be treated as
octal constants outside of ((...)) has been fixed.
12-02-06
A bug in arithmetic with compound variables containing multiple
array elements has been fixed.
12-02-02 A bug in the ulimit option table was fixed.
12-01-26 A bug in which a set command that did not change monitor could
effect the behavior of the monitor when monitor mode is on is fixed.

12-01-21 +You can now test whether the shell implements a math function using typeset -f .sh.math.name, where name is the name of the function.
12-01-21 A bug in which typeset -L and typeset -R did not handle multibyte characters correctly has been fixed.
12-01-20 A bug that could cause the shell to hang waiting for an incorrect job pid has been fixed.
12-01-19 A memory leak which occured for a nested command subtiution has been fixed.
12-01-17 A bug in which typeset -u PS1 could enable the uppercase attribute for some other variables, for exampe, HISTFILE has been fixed.
12-01-16 A bug in which .sh.match was not correct after a substring match when the replacement string
contained a substring match has been fixed.
12-01-12 +Files that are sourced from profile files are now read and executed one command at a time so that alias definitions take effect as they do for profile files.
12-01-12 A bug in which whence -p would find a function if one existed and there was no command of that name on PATH.
12-01-11 Change b_* prototype (int, char**, void*) => (int, char**, Shbltin_t*).
12-01-05 A bug in which read was not terminating for a signal that had a trap set has been fixed.
12-01-01 A timing problem with >; has been fixed.
12-01-01 A macro expansion memory leak has been fixed.
11-12-26 A bug in array assignments of the form arr=($arr[i] ...) in which arr was not unset before the assignment has been fixed.
11-12-20 A number of code changes were made based on the results of errors indicated by static code analysis.
11-12-13 In vi edit mode a lteral <TAB> can now be entered by preceding it with a backshash.
11-12-13 When tab
is entered for completion after a ' or '', the ' and ''
characters are no longer deleted.
11-12-07 A bug in which a program in the current direcotry with a . in the name could fail to execute when both PATH and FPATH end with :. has been fixed.
11-12-07 I fixed a bug in which a variable expansion in a large here-document could be expanded to a null string.
11-12-06 An optimization to read was added in the case the the read command was redirected from a file.
11-12-06 Changes were made to make the line limit for read unlimited by default.
11-12-05 A bug in which unsetting an array variable did not completely clear the variable in some cases has been fixed.
11-12-02 +The printf alternative character # when applied to the %q format will quote argument in a form suitable for a field in a .csv format file.
11-12-02 +A -S option was added to read to be able to read .csv format files.
11-11-28 A bug in which redirection of standard error in a function called from

command substitution caused standard error to be lost has ben fixed.
11-11-21 [[(-n foo)]] no longer requires a space before (.
11-11-11 The readonly attribute for a variable now applies to compound assignments to that variable.
11-11-07 Changes were made to reduce the stack size to allow deeper function recursion.
11-10-10 +Added alternate flag to printf %H for encoding of URI's.
11-10-10 A bug which could lead to a core dump when the shell was invoked with more than twenty five open files has been fixed.
11-10-06 A bug in the scoping of name references in functions called by other functions has been fixed.
11-10-05 A bug in which wait on a pid may return the exit status of an earlier background job with that pid instead has been fixed.
11-09-22 A bug in which a read timed out with TMOUT did not always restore the terminal state has been fixed.
11-09-21 An optimization that allowed the last command in a script to use the same process id as the script
has been eliminated.
11-09-21 Added letoctal option that enables the let command to recognize octal constants starting with 0.
11-09-20 A bug in which ${var.} could cause a core dump has been fixed.
11-09-20 A bug with SHOPT_EDPREDICT when neither vi or emacs was enabled for lines beginning with # when in a multibyte locale has been fixed.
11-09-20 A bug in emacs edit mode with SHOPT_EDPREDICT that would cause history searches matching comments lines to generate predictions has been fixed. Only user typed comment lines generate predictions.
11-09-20 A bug in emacs edit mode with a search that matches a comment line that could cause a core dump has been fixed.
11-09-16 A bug in which a command name ending in .. could cause the shell to abort has been fixed.
11-09-16 The characters ! + - % and @ in file names are no longer escaped with file name completion.
11-09-13 The let command no longer treats numbers starting with 0 as octal constants.
11-09-08
A bug in which printf "%R" could cause a core dump for invalid shell patterns has been fixed.
11-08-09 With set -u, ${var#pattern} reported that var was unset for special variables.
11-08-03 A bug in which the shell did not preserve the exit status for a coprocess has been fixed.
11-08-02 A bug in the saving and restoring of IFS in command substitution that caused a core dump has been fixed.
11-07-21 Modified the 10-08-27 bug fix so that background jobs started in for and while loops created interactively generate completion messages.
11-07-20 I fixed a bug in here documents in which multi-byte characters that crossed buffer boundaries were not processed correctly.
11-06-22 The shell compiler now supports process substitution.

11-06-22 +Added code to support process substitution on systems that do not supply the /dev/fd directory.

11-06-21 Fixed extraneous jobs Done messages when builtin is at the end of a pipeline.

11-06-20 Fixed two regression tests.

11-06-20

Fixed a bug introduced on last update.

11-06-14 A bug with pipefail in which the shell would wait for background jobs to complete has been fixed.

11-06-09 A bug which caused the options.sh regression test to fail on OS390 Linux has been fixed. The bug could also have affected other systems.

11-06-07 +A number of changes to support the still undocuments namespace option have been added.

11-06-06 A bug in which command substitution of eval would hang when it had standard error redirected to standard output has been fixed.

11-06-01 A bug in case statement fall through (;&) ignoring set -e was fixed.

11-06-01 A bug in which creating a left or right justified upper or lowercase variable with an empty string has been fixed.

11-06-01 A bug in which the .paths directory wasn't read when a subshell was executed before any other command has been fixed.

11-05-31 The shell now gives an error when a type variable is assigned to an array instance when the
array has been declared a compound variable
array.

11-05-31 A bug in which typeset -m of an array instance did not remove the original instance has been fixed.

11-05-28 A bug in which typeset -m dest=src fails when src and are passed as name references was fixed.

11-05-28 A bug in which typeset -m "c.board[1][i]=el", where el is a compound variable core dumps has been fixed.

11-05-28 Two bugs in the display of arrays of compound variables with print -v have been fixed.

11-05-27 A bug with command substitution with the shift jis locale has been fixed.

11-05-25 A bug in which unset -f foo, called within function foo could cause the shell to core dump has been fixed.

11-05-24 A bug in unsetting arrays of compound variables that could lead to a core dump has been fixed.

11-05-24 A scoping bug in with typeset -m for variables passed as references has been fixed.

11-05-09 A bug in which 'typeset +p array[$i]' in a subshell could cause an exception has
been fixed.

11-05-03 Two more scoping bugs with name references and read -C were fixed.

11-05-03 A potential race condition which occurs when here-documents are processed in asynchronous blocks has been eliminated.

11-05-02 Another scoping bug with name references defined in a function has been fixed.

11-05-02 A bug in which the shell discards saved exit status of a job if it is followed by a subshell execution has been fixed.
11-04-28 The shell now checks for numerical overflows with process ids.
11-04-28 Another scoping bug with compound variables defined by name references inside a function has been fixed.
11-04-28 A bug which caused a core dump on 32 bit systems with the basic.sh regression test has been fixed.
11-04-27 A scope binding error for name references has been fixed.
11-04-27 Assignment of compound variable to compound array element by name is now working.
11-04-26 I fixed a bug with SHOPT_FIXEDARRAY compilation that could cause an a core
dump for not fixed arrays.
11-04-25 A bug in the references to two dimensional compound arrays has been fixed.
11-04-20 A bug in which a name reference to a multidimentional index array index, nameref x=foo[3][4], did not work correctly has been fixed.
11-04-18 Changes were added to allow fixed size arrays of variable sized objects when the SHOPT_FIXEDARRAY compile option defined on 10-09-28.
11-04-18 A bug in which name references to array elements could fail has been fixed.
11-04-15 +A compile option, SHOPT_2DMATCH, has been added which causes .sh.match to be a two dimensional array after ${var//pat/str}
where the first dimension is the pattern number and the second is
the match instance.
11-04-11 A bug in which readonly var, where var is exported could cause var to be unset has been fixed.
11-04-06 A tokenizer bug in which ${x/{3}(\d)/ } would cause in infinite loop has been fixed.
11-04-05 A bug in which ${!x.} could cause a core dump has been fixed.
11-04-04
A bug in which cleaning out the history file could terminate before keeping all the recent history events has been fixed.
11-03-29 A bug in which ${#array[@]} was 1 rather than 0 after issuing typeset array[7] has been fixed.
11-03-29 The subscript out or range message for fixed arrays has been fixed.
11-03-29 A bug in which suspend could cause a core dump has been fixed.
11-03-24 For the showme option added 09-09-09, commands beginning with a ; inside an arithmetic for loop, no longer produce syntax errors.
11-03-18 A bug in _WINIX ~domain/user expansion has been fixed.
11-03-16 A bug in the pipefail option which could cause a script to hang has been fixed.
11-03-12 The shell no longer treats ${##pattern} as a syntax error.
11-03-11 A bug in typeset -u on systems that don't supply the towctrans() function has been fixed.
11-03-11 A bug in which a compound assignment of the form var[sub]=(...) would evaluate sub for each assignment has been fixed.
11-03-07

A bug in which reassigning a compound variable to an associative
array index could incorrectly increase the count of the number
of elements has been fixed.
11-03-04 +The tilde expansion on windows has been modified to handle user
names of the form domain/user so that ~domain/user now expands
to the home directory of that domain user.
11-03-03 A bug in which the width of the prompt was calculated incorectly
which cause the wrong line length for edit commands has been fixed.
11-03-02 A bug in which a global variables set from within a function inside
a subshell can leave side effects in parent shell has been fixed.
11-03-01 A bug in which whence -a could dump core when the first match
was due to : in PATH and the program was in the current directory.
11-02-28 A bug in emacs mode with SHOPT_EDPREDICT (added on 10-05-20) which
disabled prediction on a line starting with # when the cursor was not
at the end of line has been fixed.
11-02-28 The output
format for compound variables with set has been fixed.
11-02-25 A bug which could lead to a core dump occurred when a shell script
without #! is invoked by name from a parent shell that has name
references defined and the script creates name references of the
same name.
11-02-21 The shell now fails with a syntax error when a here-document in a
command substition is not completed before the closing), for
example, $(foobar <<!)
here_doc
!.
11-02-18 A bug in which the value of $0 in a function defined by name()
was changed to name has been fixed.
11-02-17 A bug in which the declaration typeset var[100] did not work
correctly has been fixed.
11-02-15 A bug in which [[-v sh.match]] did not work correctly has been
fixed.

11-02-08 --- Release ksh93u ---
11-02-08 A bug in which opening standard output after it has been closed with
exec 1>&- doesn't work has been fixed.
11-02-07 A bug on some systems for which a command subtitution could hang

has been fixed.
11-01-28 A bug in file name completion for files containing both multibyte
characters shell special characters has been fixed.
11-01-18 The .sh.match variable now shows elements that do not match as
as not set rather than an empty string.
11-01-18 A bug with typeset -m of an array into an element of an indexed
array has been fixed.
11-01-13 A bug in handling of arrays of compound variables inside ((...)) which
reported a syntax error been fixed.
11-01-10 A bug in arithmetic assignment operators of the form op= for array

variables when the same array was referenced on the left and the
right hand side with different indices has been fixed.
11-01-10 A bug in which the output of time was lost when { time...;} 2>&1
occurred inside command substition has been fixed.
11-01-07 [[-v sh.match[i]]] was returning false when sh.match[i] was set.
11-01-05 Added and modified warning messages with sh -n.
11-01-02 Fixed bugs with typeset -l/-u/-M and
arrays.
10-12-28 Fixed a bug with typeset -l/-u/-M values in arithmetic expressions.
10-12-26 Fixed a time parsing bug in sleep and localeconv() initialization.
10-12-23 Prevented the shell from generating a core dump when it sends itself
a termination signal because the last command terminated with that
signal. This prevents a core dump to be overwritten by the shell.
10-12-22 A bug in the expansion of ${A[@]} ${B[@]}, introduced in 10-12-01
when A="" B=B has been fixed.
10-12-21 +Use MS_3D in b_vpath() for setting win32 WoW mount defaults.
10-12-17 A bug in the expansion of ${var:i:j} which caused a core dump when
i > ${#var} has been fixed.
10-12-16 +sleep now treats . as decimal point even in locales that use comma.
10-12-16 +typeset -M mapname was added to generalize on toupper and tolowwer
mapping as provided with wctrans().
10-12-10 A bug in which typeset -l displayed namespaces as well as lower case
variables has been fixed.
10-12-06 A bug in which
a pipeline could terminate prematurely for a pipeline
whose right hand side is a builtin, and whose left hand side ends in
a simple command that has standard output redirected has been fixed.
10-12-06 A bug in hexfloat assignments when the right hand side is a string
variable starting with 0x has been fixed.
10-12-01 A bug in the expansion of ${$1+"$@"} which causes the last positional
parameter to disappear when it is empty has been fixed.
10-12-01 A number of changes were made to reduce the startup time.
10-11-29 When wait is interrupted by a signal that is caught, it now exits
with a non-zero exit status.
10-11-29 When a variable is used directly in an arithmetic expression,
leading zeros no longer cause the value to be treated as an
octal constant. This was true in previous versions for justified
variables.
10-11-29 An incorrect warning message was eliminated with the -n option for
arithmetic expressions with associative arrays.
10-11-29 Some
changes were made to slightly reduces startup time.
10-11-24 A bug in which a name reference is make to arr[0] when arr is not
an array has been fixed.
10-11-23 If a type definition is made without a compound variable assignment it
produces an error message and no longer shows up as a defined type.
10-11-22 The handling of \ inside [...] for for shell and ~(E) patterns has
been fixed.

10-11-22 A patch was made to pfsh to handle an error case.
10-11-22 +Modified types defined in namespace so that they do not clash with types in other namespaces. Types can be referenced using .namespace.typename.
10-11-22 A bug which caused functions addressed as .namespace.funct to not work has been fixed.
10-11-22 A bug in which if nr was a name reference to an unset associative array subscript, then ${!nr} did not output the subscript correctly has been fixed.
10-11-18 A bug in which shcomp -n was not processing double quotes correctly has been fixed.
10-11-18
Fixed a bug in which typeset -T foo; typeset -T could cause a core dump.
10-11-17 Fixed a bug in which the error message for set -u could come out garbelled.
10-11-17 Modified the parser so that typeset -a var=(...) no longer checks the first index for aliases and reserved words.
10-11-17 A bug in which a subshell command consisted of only a for or until command has been fixed.
10-11-16 Fixed a bug in which typeset -u would display namespace variables as well as upper case variables.
10-11-16 A bug which could cause a core dump when unsetting a type variable when there are references to type elements has been fixed.
10-11-15 A bug which could cause a core dump when unsetting a compound array variable when there are references to array subscripts has been fixed.
10-11-15 A bug in which using typeset -m to move an indexed array instance to another array could cause the array to display incorrectly has been fixed.
10-11-12 A bug in which the unset discipline function for a type is called when the type is initialized has been fixed.
10-11-12 The sequences \< and \> are now preserved after patterns containing ~(E) in ${var/pattern/string} expansions.
10-11-11 A bug in typeset -m when the variables were compound arrary instances has been fixed.
10-11-10 A bug in output of a compound variable with types containing types has been fixed.
10-11-10 Fixed ``name=value export [-p]" to list environment.
10-11-09 shtests resets SIGPIPE to SIG_DFL for all tests.
10-11-09 Fixed a bug in expansion of $"..." when used in assignments.
10-11-09 Fixed a getaddrinfo() memory leak that didn't call freeaddrinfo() after an interrupt.
10-11-08 Modified the behavior of set -u so that the shell terminates with error message when when var is unset with ${!var} and ${#var}.
10-11-02 Fix a bug in which a signal received while in a subshell could be ignored.

10-10-26 Fix a bug where terminal interrupt was ignored while in vi/emacs

edit search mode.
10-10-26 Fix $'a\0b'c to expand to 'ac'.
10-10-26 Provide user defined round() if not in <math.h>.
10-10-26 Fix bug where $((undefined_function(1))) dumped core.
10-10-22 Provide user defined iszero() if not in <math.h>.
10-10-22 Fixed a bug with BGX compile option that could cause the shell to
hang.
10-10-22 Fixed a bug with user define math function on systems for which
char is unsigned.
10-10-21 A bug in which function autoloaded in a function leaves a file open
has been fixed.
10-10-20 Modified the behavior of set -u so that the shell terminates when
when var is unset with ${var op string} when op is #, % or /.
10-10-20 Fixed a bug with the AUDIT option in which the audit file was not
not close-on-exec.
10-10-20 +Made a number of changes and fixes for the NAMESPACE compile option
which as added on 10-06-09 but some problems still remain.
10-10-15 Fixed a bug in which arithmetic functions (added on 10-03-24) did
not work when the
function definition was in the same compound
command in which the function was referenced.
10-10-13 A bug in which creating an associative array of compound variables
with no members as an element of a compound variable did not work
has been fixed.
10-10-08 A bug in which killing the last command in a function defined
with function name, terminated the calling script has been fixed.
10-10-08 A bug which could cause a core dump if IFS is unset inside a function
has been fixed.
10-10-07 +To reduce unwanted side effects, invoking typeset without the export
option and without an assignment now causes the variables to be unset
if the variable is inherited from the environment.
10-10-06 The closing brace for ${ command } is now a token no matter what
character follows it.
10-10-04 The change for $'...' expansion on 10-08-09 did not expand parameters
contained in the error message and this has been fixed.
10-10-04 A bug in which a declaration of indexed array
(-a_ in a type
definition would be displayed as a compound indexed array (-C -a)
has been fixed.
10-09-30 The C99 math function ldexp has been added.
10-09-30 A bug with two dimensional arrays with expansion of the form
${ref[0..5]} where ref is a nameref to array[i] has been fixed.
10-09-29 A bug in which an eval with redirections invoked from a dot script
would not restore the file has been fixed.
10-09-29 A bug in which loading a function from FPATH could leave a file
descriptor open has been fixed.

10-09-28 +A new compile option SHOPT_FIXEDARRAY has been added and is being evaluation. It allows fixed sized indexed arrays be to defined using "typeset array[dim1][dim2]...[dimn]". Fixed sized arrays are used the same way indexed arrays are. Currently, only fixed arrays of fixed objects (float, int, and justifies objects) are supported.

10-09-22 A bug which could cause an exception when a function with static variables was redefined has been fixed.

10-09-21

A bug in the processing of (command&) which created a job in the parent process has been fixed.

10-09-21 A for loop optimization bug with arithmetic expression evaluation has been fixed.

10-09-21 A bug in which a recursive function containing a pipeline could lead to an exception fixed after 8 levels of recursion has been fixed.

10-09-18 A bug in which the count of elements in an array was wrong leading to an exception has been fixed.

10-09-13 A bug which occurred when both xtrace and showme options where specified in which the xtrace option disabled showme has been fixed.

10-09-13 A bug in which creating a reference to an array variable with any elements could cause subsequent array elements to be treated as compound variables has been fixed.

10-09-09 A bug which caused ((c.ar[x][y])) to be treated as a syntax error has been fixed.

10-09-08 A bug in the processing of references to multidimensional arrays in arithmetic expressions has

been fixed.

10-09-08 A bug in the handling of multi-dimensional arrays which caused the number of elements in each dimension to be incorrect has been fixed.

10-09-07 The change for messages on 10-08-09 did not handle message in assignments and this has been fixed.

10-09-07 A bug in the indentation of compound variables in arrays when output with print -v has been fixed.

10-09-07 A rare bug with indexed arrays when assigned a null string that could cause a core dump has been fixed.

10-09-03 A number of changes were made for jobs pools.

10-08-31 typeset -p was modified to output name references after other variables so that the output could be used as input.

10-08-31 A bug with typeset -p in which variables with attributes but without attributes were not displayed correctly has been fixed.

10-08-27 +When running a subshell, the current pool is unset.

10-08-27 A bug in which jobs started from within for or while lists in interactive shells could generate

completion messages has been fixed.

10-08-25 Fixed a couple of bugs related to job pools.

10-08-24 +[[-e /dev/xxx/]] can be used to check whether special files of

those names are handled by the shell.
10-08-24 A bug in the running of a compiled dot script in which only the first command was executed has been fixed.
10-08-23 A bug which sometimes caused a core dump with a configure script has been fixed.
10-08-20 A bug in command substitution which caused a configure script to hang has been fixed.
10-08-19 Eliminated unnecessary ; from output of compound variable with typeset -p.
10-08-17 Fixed a bug in command substitution in which under certain circumstances a file whose size is a power of 2 plus one, and the last character was not a new-line, could cause memory corruption.
10-08-13 +Added static discipline functions to type similar to C++ static class functions.
10-08-11 A bug in time when applied to a pipeline in which the shell did not wait for
all elements of the pipeline to complete has been fixed.
10-08-11 Restored sh_fmtq() quoting to not quote NAME= in NAME=VALUE.
10-08-09 +Modified the expansion of message strings, $"...", so that they are expanded each time they are referenced rather than expanding them when the script is compiled or read in.
10-08-06 +The process id for jobs in job pools is now of the form poolname.n where n is the jobid in that pool. Commands that accept job names or numbers now understand names in this format.
10-08-05 A bug in which an assignment from within an arithmetic expression inside a function would create a local variable has been fixed.
10-08-04 A bug in the expanding of variables whose names contain multibyte characters has been fixed.
10-08-04 A bug which caused an exception when processing scripts compiled with shcomp -n has been fixed.
10-08-02 Tests using very small buffer sizes uncovered a number of bug most connected with here documents which have been
fixed.
10-07-27 The format modifier , used for digit grouping with d and f formats has been documented.
10-07-26 cd '' now produces and error rather than changing to the current directory.
10-07-26 A bug in multi-byte locales which the last character of a multi-byte character is a \ or pattern character which could occur when the character was the last character of a command substitution has been fixed.
10-07-23 Another bug in the processing of ${var:offset;len} in multi-byte locales when len is larger than the number of characters has been fixed.
10-07-23 Many coding changes have been made to eliminate most of the uses of global variables in the shell code.
10-07-22 Fixed a bug in which discipline functions were not being invoked when it was invoked as ref.discipline where ref was a name reference

to an array instance.
10-07-22 Fixed a bug in which discipline functions were not being invoked it
was invoked on a two dimensional array, i.e., arr[5][9].discipline.
10-07-19
Fixed a buffering problem which occurred when running a script with
ssh and the parent ssh process is killed.
10-07-14 Modified the parser to treat ((...)) inside [[...]] as ((...)) to
that it is a nested (...).
10-07-09 A bug in the handling of process substitution inside command
substitution as part of a pipeline has been fixed.
10-07-07 A bug in the output for compound variables containing
multi-dimensional arrays has been fixed.
10-07-06 ksh now recovers from changes made by bash to the history file without
loosing history commands.
10-06-25 A bug in which a large here document containing command substitutions
of a dynamically loaded function that contained a here document
could get truncated has been fixed.
10-06-24 If after executing a script found in FPATH, if a function, builtin,
or type name corresponding to that script is not defined, the shell
now outputs an error message and returns value 126.
10-06-23 Floating
point functions that happened to return integer values
were being treated as if the function returned integers so that
integer division could be used instead of floating point division.
10-06-22 Fixed a bug in earlier ksh93u in which an arithmetic assignment to a
variable in the global scope would instead create a local variable if
the variable had an attribute but did not have a value.
10-06-18 Modified trap handling so that if the same signal is received when
executing the handler, it is deferred until the handler completes.
10-06-16 Fixed a bug in which ulimit -v was setting the the cpu limit
on Linux.
10-06-14 +The command 'typeset -T' now generates the list of type definitions
in a format that can be used as input to the shell.
10-06-09 Put in patch from Solaris for output quoting with %q.
10-06-09 +Made changes to the NAMESPACE compile option so that it now seems
to work. With this option, namespace <name> { command;} will
run command in the namespace
.name so that all variables and
functions created by command are accessible outside the name
space via .name.var and .name.fun. Variables and functions that
are not in the namespace are not modified when running command.
10-06-07 Change most internal interfaces to take Sh_t* argument.
10-06-03 +Types can be loaded on first reference by putting definitions in
PFPATH.
10-06-03 +The shell is now able to parse commands which use type statements
before the typeset -T command to define the type executes.
10-06-03 A bug in the quoting for name reference declarations which did
not properly handle [and] in subscripts for associative arrays.

10-06-02 A bug in which a discipline function defined by a type instance to override the default was not being registered has been fixed.
10-06-02 A bug in which read -C of an associative array of compound variables was not working has been fixed.
10-06-02 A bug in which the error message for an unset parameter with set -u

did not contain the name of the variable has been fixed.
10-06-01 A bug in typeset -m for moving an indexed array instance to a variable has been fixed.
10-06-01 A bug in which caused memory to be freed twice when unset was called for an indexed array that had get or set disciplines has been fixed.
10-06-01 A bug in which the %b format of printf was not preserving NUL bytes with \0 has been fixed.
10-06-01 A bug in the handling of name references to array variables in arithmetic expressions has been fixed.
10-05-28 Fixed bugs in changing attributes for two dimensional arrays.
10-05-28 Eliminated a few unreferenced variables and a reference to uninitialized memory.
10-05-27 Rewrote the subshell code to avoid using pipes an many cases.
10-05-24 Fixed a bug which cause an exception when both -l and -s were specified with typeset -i.
10-05-21 Inputting of three dimensional indexed arrays with (((...)...)...) was not working and has been fixed.
10-05-21
A bug in which adding the attributes -Ai to a variable via a name reference could cause the value to display incorrectly has been fixed.
10-05-21 A bug in which using $var inside ((...)) did not work when var was a hex float variable.
10-05-20 +The compile option SHOPT_EDPREDICT has been added. When this option is on, as you type a line beginning with a # the following characters are treated as a shell pattern and cause matching lines from the history file to be displayed as a numbered list as you type. You can scroll up and down this list or you can use <ESC>nTAB to make this the current line (n defaults to 1 of omitted) or <ESC>n<cr> to execute.
10-05-20 A bug which caused an exception when multiple levels of composite functions in arithemtic expressions has been fixed.
10-05-19 <<< with an empty string no longer gives an error.
10-05-19 A bug in arithmetic evaluation when a name reference to an array instance was used has been fixed.
10-05-14
A bug in which the shell treats a valid index array assignment, typeset -a x=(foo (x=3;y=4) bar) as a syntax error has been fixed.
10-05-13 A bug in creating name references to associative array variable after a lookup of one of its elements has been fixed.
10-05-12 Two bugs in the handling of function static type variables in subshells have been fixed. One could cause an exception and the other would leave side effects in the parent shell.

10-05-10 A bug in which static variables in functions were not being saved and restored properly when running subshells has been fixed.
10-05-05 A bug in which print -v did not work correctly when an operand was an indexed array element referring to a compound variable has been fixed.
10-05-05 A change to improve performance by special casing empty string assignments to avoid repeated malloc() and free().
10-05-05 A bug in which creating a name reference to a non-existent associative array element would create the
array element has been fixed.
10-05-04 A bug in which name references to static variables in the static scope were not found has been fixed.
10-04-30 Do not use socketpair() on systems that implement ioctl(I_PEEK) on pipes.
10-04-29 +When the current job pool is set, coprocess are run in a job pool.
10-04-28 A type defined with a member foo that is an associative array without elements followed by an expansion ${bar.foo[a]} and an assignment bar.foo[a]=b, no longer indicates that ${#bar.foo[@]} has 0 members.
10-04-27 Another bug in which a nested command substitution could hang if it generated too much data has been fixed.
10-04-26 A type defined with a member that is an indexed array without elements would behave as if the 0th element of each instance was defined after a non-zero element was specified and this has been fixed.
10-04-26 A bug in which types defined in a subshell were not undefined when the subshell completed has been fixed.
10-04-23 For
file completion in commmand line editing, file names starting with # are now escaped so that they are not treated as comments.
10-04-23 A bug in which ${t.var:=value}, where t is an instance of a type variable, could assign value to the type variable rather than to the type instance has been fixed.
10-04-23 +Added &| which can be used in place of | to have portions of a pipeline executed in the pool.
10-04-22 +The .sh.pool variable was added for use with job pools.
10-04-22 A bug in which a nested command substitution could hang if it generated too much data has been fixed.
10-04-20 A bug which corrupted one byte of memory when read was called with reads that did not use a delimiter has been fixed.
10-04-19 The display of a compound variable with an embedded array with attributes was sometimes not working correctly and has been fixed.
10-04-16 A bug in which attributes were not be propagated to elements in an associative array has been fixed.
10-04-15 A bug
which caused scripts containing user defined math functions to fail to compile with shcomp has been fixed.
10-04-15 +Job pools have been added with the SHOPT_COSHELL compilation option. A job pool allows a collection of background jobs to run either locally or remotely and to be managed as a unit. The command '& name ...' creates or uses a named job pool for subsequent background jobs.

kill, wait, and jobs allow the pool name as operands.
10-04-14 A bug in which a coprocess connection could terminate prematurely when running a nested subshell has been fixed.
10-04-12 +Enumeration constants can be used in arithmetic expressions with the ==, != and = operators when the left hand side is an enum variable and the right hand side is an enumeration constant.
10-04-07 A bug in which setting the trap on CHLD to ignore could cause an incorrect exit status has been fixed.
10-04-06 A bug in which LINENO was not incremented for a here-document when the here-document
word was followed by a comment has been fixed.
10-04-06 The optimization that execs the last process of a script rather than creating a new process has been removed when a trap on interrupt has been set.
10-04-06 Unsetting the 'C', 'A' or 'a' typeset attribute now produces an error message rather than generating an exception.
10-04-06 A bug in which .sh.name contained the subscript and .sh.subscript was empty in some cases with discipline functions on array instances has been fixed.
10-04-05 A bug in the edit modes where preceding the interrupt character with the literal next character did not work has been fixed.
10-04-05 A bug in the creation of type instances of arrays which could cause an exception has been fixed.
10-03-30 A bug in the display of a compound variable containing an indexed array of compound variables has been fixed.
10-03-24 +Arithmetic functions can be defined using the shell function syntax, 'function .sh.math.name x y z{...}'
, where name is the function name invoked within ((...)) and x y z are long double arguments passed as name references. y and z are used for functions with two and three arguments respectively. The value of the function is the value of the long double .sh.value variable when the function returns.
10-03-24 A bug in which integer division was mistakenly used when the numerator was a binary operator with the first operand floating point and the second integer, e.g. (.1**3)/3, has been fixed.
10-03-24 The >; file operator was modified so that the temporary file is created in the same physical directory as file.
10-03-23 A warning message was added to sh -n when $var was used inside ((...)) instead of var.
10-03-19 fmin was added to the list of math function on the man page.
10-03-19 Fixed the return value for unalias when the alias did not exist.
10-03-19 A bug in which the SHLVL variable exported the value it had on input rather than the incremented
value has been fixed.
10-03-19 A bug which causes whence -q to go into an infinite loop has been fixed.
10-03-19 Removed space between Stopped message and (SIGTTIN) and (SIGTTOUT).

10-03-17 Modified profile shell execution so that when builtins that
correspond to executable have extended attributes, they are
executed by pfksh instead of being treated as built-ins.
10-03-16 A bug in whence -a which produced duplicate lines of output has
been fixed.
10-03-16 A bug in the handling of process groups in monitor mode for
command substitutions has been fixed.
10-03-15 Fixed a bug in which read -u[fd] could cause the shell to core
dump when fd was greater than open_max.
10-03-15 +Modified the shell I/O so that the shell will not fail if the
ulimit for open_max is increased as part of the script.
10-03-12 A bug in which a here-document containing command substitutions
that contained here-documents did not process correctly has been
fixed.
10-03-12 A bug in which
the terminal is not restored to canonical mode
after read times out when in a multibyte locale with no edit mode
enabled has been fixed.

10-03-05 --- Release ksh93t+ ---
10-03-05 A variable unset memory leak has been fixed and tests/leaks.sh
has been added to verify the fix.
10-03-04 Documentation, comment, and diagnostic spelling typos corrected.
10-02-14 Fix sh_getenv() initialization to cooperate with the 3d fs.
10-02-12 A bug in which the get discipline function was not invoked for
associative array subscripts for unset array elements has been fixed.
10-02-12 A bug which could occur if the last line of a script was an eval
that executed multiple commands has been fixed.
10-02-02 A buffer overflow in read and another in binary type base64
encoding were fixed.
10-01-20 A bug in the evaluation of arithmetic expression in which the
subscript was evaluated twice for $((foo[x++]++)) has been fixed.
10-01-19 A workaround for a double-free of a trap in both
a subshell and its
parent has been added.
10-01-18 A bug in type handling of typeset -H has been fixed.
10-01-15 The "adding empty subscript" warning now only emitted with -x set.
10-01-01 A bug in the parser in which '$((case i in i):;esac);:))' was not
parsed correctly was fixed.
10-01-01 A bug in the parser in which '$((2 , 3.6))' dumped core for locales
with radix char , and thousands separator . has been fixed.
09-12-28 A bug in the handling of SIGCLD on systems that generated SIGCLD
while blocked waiting for process to complete has been fixed.
09-12-24 ast setlocale() reworked to differentiate env var changes from user
override.
09-12-18 A bug with the SHOPT_BGX option set which disabled traps for signals
< SIGCHLD when a trap for a signal > SIGCHLD was set has been fixed.
09-12-18 A bug where [[-v var]] was incorrect for some variables (including

LC_* vars) has been fixed.
09-12-15 A bug that produced a syntax error when a multibyte character

straddled a buffer boundary has been fixed.
09-12-11 A bug where the subscript of an unset variable was not evaluated has been fixed.
09-12-09 A bug where shcomp dumped core on certain syntax errors has been fixed.
09-12-07 A bug where a parent shell environment var reset in a subshell removed the value in subsequent children of the parent shell has been fixed.
09-12-04 A bug in which in some cases a trap in a function executed in a subshell could trigger twice has been fixed.
09-12-03 A bug in which SHLVL exported with some attributes could cause the shell to abort at startup has been fixed.
09-12-02 A bug with pipefail in which the shell could hang waiting for the writer to complete before the last reader command has been fixed.
09-11-30 A bug in which a trap could be inherited by the first element of a pipeline when the command had more than 63 arguments that did not contain any macro expansions has been fixed.
09-11-19 When read from a terminal was
called from with a while or for loop,
and an edit mode was on, a backspace or erase no longer will overwrite the prompt.
09-11-17 +Change .paths parse to handle BUILTIN_LIB=foo BUILTIN_LIB=foo-1.2.
09-11-17 Inside a function, typeset foo.bar will bind foo to global variable foo if local variable foo does not exist, instead of creating a local variable.
09-11-17 "read -n1" from the terminal has been fixed to read exactly one character.
09-11-11 Job control now works for subshell commands, (...).
09-11-11 If set -e is on for an interactive shell errors in special builtins now cause the shell to exit.
09-11-11 A bug in which an interrupt handler processed during the read builtin when IFS did not contain a new line has been fixed.
09-11-09 A bug in which a variable that has been unset in a subshell and then exported from that subshell does not show up in the environment has been fixed.
09-11-02 ``,2" is now a valid numeric constant for locales with decimal_point=','.
09-11-02
A bug where "return" in .profile did not restore the shell state has been fixed.
09-10-31 A bug that corrupted saved exit status when pids wrapped around has been fixed.
09-10-26 A bug in { LANG LC_ALL LC_category } ordering has been fixed in -last.
09-10-16 A bug where notification to libast that the environment has changed has been fixed.
09-10-12 A bug in which a function loaded in a subshell could leave side effects in the parent shell has been fixed.
09-10-12 A bug in converting a printf %d operand to a number when the operand

contains multiple subscripts for the same variable has been fixed.
09-10-09 A bug in the handling of the escape character \ in directory prefixes in command completion has been fixed.
09-10-09 $PATH processing has been changed to delay dir stat() and .paths lookup until the directory is needed in the path search.
09-09-28 Call the ast setlocale() intercept on unset too.
09-09-24 A bug in which LANG=foo; LC_ALL=foo; unset LC_ALL; did not revert LC_CTYPE etc. to the LANG value has been fixed.
09-09-17 A bug in which unsetting SVLVL could cause a script invoked by name without #! to core dump has been fixed.
09-09-16 A bug in which a pipeline in a here-document could hang when the pipefail option was on has been fixed.
09-09-09 A bug in the processing of line joining in here documents which occurred when a buffer began with <escape><new-line> has been fixed.
09-09-09 +A leading ; with commands in a brace group or parenthesis group no longer causes an error. It now is used for the "showme" option.
09-09-09 A bug in which a subshell containing a background process could block until the background process completed has been fixed.
09-09-04 A bug in handing ${var[sub]}, where var is a nameref has been fixed.
09-09-03 A bug which caused an index array to have the wrong number of elements when it was converted from a compound variable by adding an another

element has been fixed.
09-09-03 Specifying export for a compound variable now generates an error.
09-09-02 $"..." localizations strings are no longer recognized inside `...`.
09-09-01 A bug in the for loop optimizer in the handling of type static variables has been fixed.
09-09-01 An error message is not displayed when * and @ are used as subscripts.
09-09-01 Several bugs in the processing for types that included an associative array of another type has been fixed.
09-09-01 A bug in the tracing of [[a < b]] and [[a > b]] has been fixed.
09-08-26 The .sh.file variable was not being set for a script that was run by name and didn't start with #! and this has been fixed.
09-08-25 A bug in which a function called to deeply from command substitution did not display an error message has been fixed.
09-08-24 +When processing profiles, ksh93 now violates the POSIX standard and treats &> as a redirection operator similar to bash.
09-08-23 A bug in the handling of the trap on SIGPIPE that could lead to a memory fault has been fixed.
09-08-21 A bug in the handling of the comma operator in arithmetic expressions that could cause a core dump on some systems has been fixed.
09-08-20 A bug in which a compound variable containing an array of a type that doesn't have any elements now expands correctly.
09-08-19 A bug which disabled function tracing inside a function after a call to another function has been fixed.
09-08-19 A bug in which initializing a compound variable instance to another

compound variable by name has been fixed.
09-08-18 A bug in which compound variable instances could be lost after an instance that invoked a type method discipline has been fixed.
09-08-18 A bug in which a discipline function for a type applied to an array instance when invoked in a function ignored the subscript has been fixed.
09-08-18 A scoping error with variables in arithmetic expression with type variables when reference with a name reference has been fixed.
09-08-10 Several memory leaks were fixed primarily related to subshells.
09-08-06 A bug in which setting the trap on CHLD to ignore could cause a script to hang has been fixed.
09-07-08 A bug in the processing of name reference assignments when it contained pattern expansions with quoting has been fixed.
09-06-22 +The default width for typeset -X has been changed so that there should be no loss of precision when converting to a string.
09-06-19 A bug in the printing of array elements for binary variables with printf %B has been fixed.
09-06-19 A bug which caused a core dump with trap DEBUG set with an array assignment with no elements has been fixed.
09-06-19 A bug with read with typeset -b -Z<num> has been fixed.
09-06-19 Two bugs related to read -b for array variables has been fixed.
09-06-19 A bug with typeset for compound variables containing arrays of compound variables has been fixed.
09-06-18 A bug in appending a compound variable to a an indexed array of compound variables has been fixed.
09-06-18 A bug which occurs when appending a compound variable to an indexed array element has been fixed.
09-06-18 Setting VISUAL to a value other than one ending in vi or emacs will no longer unset the edit mode.
09-06-17 A bug in typeset -m when moving a local compound variable to a global compound variable via a name reference has been fixed.
09-06-17 A bug in appending to nodes of an array of compound variables when addressing them via nameref has been fixed.
09-06-17 A bug in typeset -p var, when var is an array of compound variables in which the output only contained on array element has been fixed.
09-06-17 The prefix expansion ${!y.@} now works when y is a name reference to an element of an array.
09-06-16 Traps on signals that are ignored when the shell is invoked no longer display. Previously they were ignored as required but would be listed with trap -p.
09-06-12 A bug in vi edit mode in which hitting the up arrow key at the end of a line longer than 40 characters which caused a core dump has been fixed.
09-06-11 A bug in which "eval non-builtin &" would create two processes, one for the & and another for non-builtin has been fixed.

09-06-08 When var is an identifier and is unset, ${var} no longer tries to
run command substitution on the command var.
09-06-08 +Process substitution arguments of the form <(command) can now be
used following the < redirection operator to redirect from command.
09-05-13 A bug in which redirections of the form 2>&1 1>&5 inside command
substitution could cause the command substitution to hang has been
fixed.
09-05-12 To conform with POSIX, the -u option only checks for unset variables
and subscript elements rather than checking for all parameters.
09-05-12 A bug which could cause a core dump when a variable whose name
begins with a . was referenced as part of a name reference inside
a function
has been fixed.
09-05-01 A bug that caused a core dump when SIGWINCH was received and
both vi and emacs mode were off has been fixed.
09-04-22 +Default alias compound='typeset -C' added.
09-04-15 A bug that caused ${...;} to hang for large files has been fixed.
09-04-08 A change was made in the -n option which printed out an incorrect
warning with <>.
09-04-07 The emacs edit command M-_ and M_. and the vi command _ was fixed
to handle the case there there is no history file.
09-04-05 A bug in handling new-lines with read -n has been fixed.
09-04-05 The ENV variable defaults the the file named by $HOME/.kshrc rather
then to the string $HOME/.kshrc.
09-03-31 A bug in which a nested command substitution with redirections could
leave a file descriptor open has been fixed.
09-03-24 +ksh now only uses the value of the _ variable on startup if it can
verify that it was set by the invoking process rather than being
inherited by some other ancestor.
09-03-24 +When
ksh is invoked without -p and ruid!=euid, and the shell is
compiled without SHOPT_P_UID or ruid<SHOPT_P_UID, the shell now
enables the -p option. The previous version instead set the
euid to the ruid as it does for set +p.
09-03-24 +When SHOPT_P_UID is defined at compile time and the shell is started
without -p and ruid!=euid and ruid>=SHOPT_P_UID then euid is set
to ruid. A bug that did the wrong test (ruid<SHOPT_P_UID) was fixed.
09-03-17 +The sleep(1) builtin now accept and ISO 8601 PnYnMnDTnHnMnS
duration or date(1) compatible date/time operand.
09-03-10 If a variable that was left or right justified or zero-filled was
changed with a typeset statement that was left or right justified
or zero-filled, then the original justification no longer affects
the result.
09-03-10 A bug in the handling of traps when the last command in a script
is a subshell grouping command has been fixed.
09-03-03 A bug in which an expansion of the form ${!prefix@} could
generate
an exception after the return from a function has been fixed.

09-02-02 A bug in restricted mode in which the value of ENV could be changed from within a function has been fixed.
09-02-02 A bug in which an erroneous message indicating that a process terminated with a coredump has been fixed.
09-02-02 The exit status when exit was called without an argument from a signal handler was incorrect and has been fixed.
09-02-02 A bug in which a function autoloaded in a subshell could cause a core dump when the subshell completed has been fixed.
09-02-02 A bug in which 2>&1 inside a command substitution wasn't working correctly has been fixed.
09-02-02 A bug in the call stack of arithmetic function with 2 args returning int has been fixed.
09-01-30 A bug in which 'eval print \$0' inside a function was giving the wrong value for $0 has been fixed.
09-01-28 A bug in which a command substitution could return an exit status of 127 when the pipefail option
is enabled has been fixed.
09-01-26 ksh93 now generates an error message if you attempt to create a global name reference to a local variable.
09-01-26 +The [[-v var]] operator was modified to test for array elements.
09-01-23 +The redirection operator <>; was added. It is similar to <> except that if the command it is applied to succeeds, the file is truncated to the offset at the command completion.
09-01-23 The default file descriptor for <> was changed to 1.
09-01-20 A bug in which the exit status specified in an exit trap was not used when a process terminated with a signal has been fixed.
09-01-19 A bug in which a signal whose default action is to terminate a process could be ignored when the process is running a sub-shell has been fixed.
09-01-19 A bug in which sending SIGWINCH to a process that reads from a pipe could cause a memory fault has been fixed.
09-01-16 +The -R unary operator was added to [[...]] and test to check whether a variable is
a name reference.
09-01-16 +The -v unary operator was added to [[...]] and test to check whether a variable is set.
09-01-14 The unset built-in was modified to return 0 exit status when unsetting a variable that was unset to conform with the POSIX standard.
09-01-14 The unset built-in was modified to continue to unset variables after encountering a variable that it could not unset to conform to the POSIX standard.
09-01-14 The parameter expansion ${x+value} no longer expands the value of the variable x when determining whether x is set or not.
09-01-13 A bug in which background jobs and pipelines that were not waited for could, in rare instances, cause the shell to go into an infinite loop or fail has been fixed.
09-01-06 A bug in indexed arrays of compound variables in which referencing

non-existent sub-variable in an arithmetic expression could cause
the sub-variable to be created has been fixed.
09-01-05 A bug in which the \ character did not escape
extended regular
expression pattern characters has been fixed.
08-12-24 A bug in which killing the last element of a pipe did not cause
a write to the pipe to generate a SIGPIPE has been fixed.
08-12-19 A bug which could cause command substitution to hang when the
last element of a pipeline in a command substitution was a built-in
and the output was more that PIPE_BUFF.
08-12-18 A bug which occurs when a here documented marker embedded in a
command substitution occurs on a buffer boundary has been fixed.
08-12-17 A bug in the output of typeset -p for variables that had attributes
but did not have a value has been fixed.
08-12-16 A bug in which a name reference to a name reference variable that
references an array element has been fixed.
08-12-16 A bug in which a variable given both the -A and -C attribute along
with an initial assignment didn't work correctly has been fixed.
08-12-10 The [[-t fd]] test was fixed to handle fd>9.
08-12-10 A bug where
function stack misalignment could cause a bus error
has been fixed.
08-12-09 Command completion was changed to use \ to quote special characters
instead of quoting the argument in single quotes.
08-12-07 A bug in typeset -m which occurred when the target node was an
associative array element has been fixed.
08-12-07 A timing bug on some systems (for example darwin), that could
cause the last process of a pipeline entered interactively to fail
with an "Exec format error" has been fixed.
08-12-04 +SHOPT_BGX enables background job extensions. Noted by "J" in
the version string when enabled. (1) JOBMAX=n limits the number
of concurrent & jobs to n; the n+1 & job will block until a
running background job completes. (2) SIGCHLD traps are queued
so that each completing background job gets its own trap; $! is
set to the job pid and $? is set to the job exit status at the
beginning of the trap. (3) sleep -s added to sleep until the time
expires or until
a signal is delivered.
08-12-04 The sign of floating point zero is preserved across arithmetic
function calls.
08-12-04 A bug that caused print(1) to produce garbled stdout/stderr
output has been fixed.
08-12-04 A bug in which printf "%d\n" "'<euro>'" did not output the
numerical value of the EURO symbol, 8354, has been fixed.
08-11-24 + /dev/fd* and /dev/std* redirections are first attempted with
open() to preserve seek semantics; failing that the corresponding
file descriptors are dup()'d.
08-11-20 A bug which could cause a core dump if a function compiled with

shcomp was found has been fixed.
08-11-20 A bug in which jobs were not cleared from the jobs table for
interactive shells when the pipefail option is on has been fixed.
08-11-11 A bug in which a field that was unset in a type definition and later
set for an instance could appear twice when displaying the variable
has been fixed.
08-11-11 A bug in which running a simple command & inside
a function would
not return the correct process id has been fixed.
08-11-10 A bug in which the exit status of a command could be lost if the pid
was that of the most recent command substitution that had completed
has been fixed.
08-11-10 The maximum depth for subshells has been increased from 256 to 65536.
08-11-06 A bug which could cause a core dump when the _ reference variable was
used as an embedded type with a compound assignment has been fixed.

08-10-31 --- Release ksh93t ---
08-10-31 Variable scoping/initialization bugs that could dump core were fixed.
08-10-24 The lexer now accepts all RE characters for patterns prefixed
with a ksh ~(...) option expression.
08-10-24 +For ${var/pat/sub} \0 in sub expands to the text matched by pat.
08-10-18 A bug in array scoping that could dump core has been fixed.
08-10-10 read -n and -N fixed to count characters in multibyte locales.
08-10-10 A bug that mishandled _.array[] type references has been fixed.
08-10-09
+${.sh.version} now contains a concatenation of the following (after
'Version') denoting compile time features:
A SHOPT_AUDIT
B SHOPT_BASH
L SHOPT_ACCT
M SHOPT_MULTIBYTE
08-10-09 A bug that caused subshell command substitution with redirection
to hang has been fixed.
08-10-08 Output errors, other than to stderr, now result in a diagnostic.
08-10-08 ksh93 now supports types that contain arrays of other types as
members. Earlier versions core dumped in this case.
08-10-05 A bug which caused the shell to emit a syntax error for an arithmetic
statement of the form ((var.name[sub] = value)) has been fixed.
08-10-01 A bug that caused subshell command substitution to hang has
been fixed.
08-09-29 When the -p export option of typeset is used with other options,
only those variables matching the specified options are displayed.
08-09-29 When the shell reads the environment and finds variables that are
not valid shell assignments, it now passes these on
to subsequent
commands rather than deleting them.
08-09-29 A bug in the display of compound variables containing an indexed
array of compound variables has been fixed.

08-09-29 A bug in the display of compound variables containing an associative
array with a subscript containing a . in the name has been fixed.
08-09-26 A core dump in the subshell environment restore has been fixed.
08-09-24 $(...) has been fixed to properly set the exit status in $?.
08-09-23 $(<...) with IFS=$'\n\n' has been fixed to retain all but the last
of multiple trailing newlines.
08-09-23 The -p option to typeset when used with other attributes, restricts
the output to variables with the specified attributes.
08-09-22 A bug that sometimes lost the exit status of a job has been fixed.
08-09-21 A bug that retained trailing command substitution newlines in
cases where the command caused the shell to fork has been fixed.
08-09-19 type, whence -v, and command -v were fixed to comply with
POSIX
by writing 'not found' diagnostics to the standard error.
08-09-18 test and [...] were fixed to comply with POSIX in the case
of test '(' binop ')' where binop is a valid binary test operator.
08-09-16 +If a method discipline named create is specified when defining a
type, this function will be called when an instance is created.
08-09-15 +The variable _ is now set as a reference to the compound variable
when defining a compound variable or a type.
08-09-10 The shell now prints an error message when the type name specified
for an indexed array subscript is not an enumeration type.
08-09-10 A bug in which a subshell that spawned a background process could
loose output that was produced after the foreground completed
has been fixed.
08-09-10 A timing bug on some systems that could cause coprocesses started by a
subshell to not clean up and prevent other coprocesses has been fixed.
08-09-09 The typeset -m option is now able to rename array elements from

the same array.
08-09-09 The exit status of 2 from the DEBUG trap causes the next command
to be skipped. An exit value of 255 from a DEBUG trap called from
a function causes the function to return.
08-09-08 A bug in which a coprocess created in a subshell that did not
complete when the subshell terminated could prevent a coprocess
from being created in the parent shell has been fixed.
08-09-05 An assignment of the form name1=name2 where name1 and name2
are both compound variables causes name1 to get a copy of name2.
name1+=name2 causes name2 sub-variables to be appended to name1.
08-09-05 A bug in which unsetting a compound variable did not unset all
the sub-variables has been fixed.
08-09-01 A bug in the subshell cleanup code that could cause SIGSEGV has
been fixed.
06-08-26 +The SHLVL variable which is an environment variable used by bash
and zsh that gets incremented when the shell starts.
08-08-25 +For an indexed array, a negative subscript
now refers to offsets
from the end so that -1 refers to the last element.

08-08-24 An alignment error for shorts on 64 bit architectures has been fixed.
08-08-22 If oldvar is a compound variable, typeset -C newvar=oldvar creates
newvar as a copy of oldvar.
08-08-19 +The ALRM signal no longer cause the sleep builtin to terminate.
08-08-13 When used in an arithmetic expression, the .sh.version variable
now produces a number that will be increasing for each release.
08-08-11 A bug in which type instantiation with a compound assignment in
a dot script in which the type is defined has been fixed.
08-08-07 +The -m option has been added to typeset to move or rename a
variable. Not documented yet.
08-08-06 A bug in read when used in a loop when a prompt was specified
when reading from a terminal has been fixed.
08-08-01 A bug with the pipefail option in which a nested pipeline could
cause an asynchronous command to block has been fixed.
08-08-01 A for loop
optimizer bug that treats .sh.lineno as an invariant
has been fixed.
08-07-30 A bug in which expanding compound variable that had a get discipline
from with a here document could cause a syntax error has been fixed.
08-07-18 A bug in which a nameref caused a local variable to be created
rather than binding to an existing variable in the global scope
has been fixed.
08-07-17 A bug which occurred when a nameref was created from within a
function that was part of a pipeline has been fixed.
08-07-14 +The compile option SHOPT_STATS was added. With this option the
compound variable .sh.stats keeps usage statistics that could help
with performance tuning.
08-07-10 +The output of set now always uses a single line for each variable.
For array variables, the complete set of values is now displayed.
08-07-09 +The typeset -C option can be used with arrays to indicate that
each element should default to a compound variable.
08-07-08 +The %B format now outputs compound
variables and arrays. The
alternate flag # can be used to cause output into a single line.
08-07-03 When the window change signal, WINCH, is received, the current
edit line is redrawn in place.
08-07-01 A bug in the handling of shared variables when inside an embedded
type has been fixed.
08-06-29 A bug in multiline edit mode which occurred when the prompt length
was three characters or less has been fixed.
08-06-23 A bug in which the SIGCLD was not be triggered when background
jobs completed has been fixed.
08-06-23 _KSH_VERSION added as a name reference to .sh.version.
08-06-20 type now outputs 'special builtin' for special builtins.
08-06-19 A couple of bugs in multi-dimensional arrays have been fixed.
08-06-19 A bug in which a syntax error in a dot script could generated
a syntax error in the next subsequent command has been fixed.
08-06-17 Reduced the maximum function call depth to 2048 to avoid exceptions

on some architectures.
08-06-16 A bug in
which printf "%B" could generate an exception when the
specified variable was not set has been fixed.
08-06-16 +When typeset -p is followed by variable names, it now displays
the attributes names and values for the specific names.
08-06-14 A bug that could effect the drawing of the screen from multiline
emacs or gmacs mode when walking up the history file has been fixed.
08-06-13 A bug in which a compound variable defined in a subshell could
have side effects into the parent shell has been fixed.
08-06-13 A number of bugs related to using .sh.level to set the stack from
for DEBUG traps have been fixed.
08-06-13 +The .sh.lineno variable has been added. When .sh.level is changed
inside a DEBUG trap, the .sh.lineno contains the calling line number
for the specified stack frame.
08-06-13 The .sh.level variable has been documented and now works.
08-06-11 +The -C option has been added to read for reading compound command
definitions from a file.
08-06-11 +The . command
is now permitted inside a compound command definition.
The dot script can contain declaration commands and dot commands.
08-06-09 +Add -C option to typeset so that typeset -C foo, is equivalent
to foo=().
08-06-09 Added -n warning message for typeset option orderings that are valid
with ksh88 but not valid with ksh93, for example Lx5.
08-06-09 A bug in which the return value for an assignment command containing
a command substitution with that failed was zero when the assignment
contained redirections has been fixed.
08-06-09 A bug in the quoting of $ inside a ERE pattern ~(E)(pattern)
has been fixed.
08-06-06 A bug when processing `` command substitution with the character
sequence \$' has been fixed.
08-06-02 +When defining a type, the typeset -r attribute causes this field
to be required to be specified for each instance of the type and
does not allow a default value.
08-06-02 Several bugs in which compound variables were modified by
subshells
have been fixed.
08-05-22 +The ceil function has been added to the math functions.
08-05-21 A bug in which a name reference defined in a function and passed
as an argument to another function could cause an incorrect binding.
08-05-21 A bug in freeing compound variables that are local to functions
has been fixed.
08-05-19 +The array expansions ${array[sub1..sub2]} and ${!array[sub1..sub2]}
to expand to the value (or subscripts) for array between sub1 and
sub2 inclusive. For associative arrays, the range is based on
location in the POSIX locale. The .. must be explicit and cannot
result from an expansion.

08-05-15 The trap on SIGCLD is no longer triggered by the completion of the foreground job as with ksh88.

08-05-14 A bug in the implementation of the editing feature added on 07-09-19 in emacs mode has been fixed.

08-05-12 A bug in processing the test built-in with parenthesis has been fixed.

08-05-12 The unset built-in now returns non-zero when deleting an array subscript that is not set.

08-05-08 +Changing the value of HISTFILE or HISTSIZE will cause the old history file to be close and reopened with the new name or size.

08-05-08 When FPATH is changed functions that were found via a path search will be searched for again.

08-05-08 A parser bug in which reserved words and labels were recognized inside compound indexed array assignment after a new-line has been fixed.

08-05-07 A bug in getopts when handling numerical option arguments has been fixed.

08-05-07 +The typeset -S option was added for variables outside type definitions to provide a storage class similar to C static inside a function defined with function name. When outside type definitions and outside a function, the -S option cause the specified variable so be unset before the assignment and before the remaining attributes are supplied.

08-05-07 A bug that affected the cursor movement in multiline mode when a character was deleted from near the beginning of the any line other than the first.

08-05-01 In multiline edit mode, the refresh operation will now clear the remaining portion of the last line.

08-05-01 A bug in computing prompt widths for the edit modes for prompts with multibyte characters has been fixed.

08-05-01 A bug in the multiline edit mode which could cause the current line to be displayed incorrectly when moving backwards from third or higher line to the previous line has been fixed.

08-05-01 A bug in which options set in functions declared with the function name syntax were carried across into functions invoked by these functions has been fixed.

08-04-30 A bug which could cause a coprocess to hang when the read end is a builtin command has been fixed.

08-04-30 +The emacs and vi editors have been modified to handle window change commands as soon as they happen rather than waiting for the next command.

08-04-28 A bug in which ${!x} did not expand to x when x was unset has been fixed.

08-04-27 A bug in which the assignment x=(typeset -a foo=([0]=abc)) created x.foo as an associative array has been fixed.

08-04-25 A bug in which $# did not report correctly when there were more
than 32K positional parameters has been fixed.
08-04-04 Choose the name _ as the sub-variable that holds type or instance
specific data used by discipline functions.
08-03-27 A bug in which the terminal group was not given back to the parent
shell when the last part of a pipeline was handled by the parent shell
and the other parts of the pipeline complete has been fixed.
The symptom was that the pipeline became uninterruptable.
08-03-25 A bug in restricted mode introduced in ksh93s that caused scripts
that did not use #! to executed in restricted mode has been fixed.
08-03-25 A bug in which the pipefail option did not work for a pipeline
within a pipeline has been fixed.
08-03-24 A bug in which OPTIND was not set correctly in subshells
has
been fixed.
08-03-24 A bug which could cause a memory exception when a compound variable
containing an indexed array with only element 0 defined was expanded.
08-03-20 A bug in which ${!var[sub].*} was treated as an error has been fixed.
08-03-20 Associative array assignments of the form ([name]=value ...)
now allow ; as well as space tab and new line to separate elements.
08-03-18 A buffering problem in which standard error was sometimes
not flushed before sleep has been fixed.
08-03-17 A bug in which a signal sent to $$ while in a subshell would be
sent to the subshell rather than the parent has been fixed.
08-03-17 + A --default option added to set(1) to handle set +o POSIX semantics.
set --state added as a long name alias for set +o.
08-03-14 A bug in which using monitor mode from within a script could
cause the terminal group to change has been fixed.
08-03-10 The new ${...} command substitution will treat the trailing }
as a reserved word even
if it is not at the beginning of a command,
for example, ${ date }.
08-03-10 If the name of the ENV begins with /./ or ././ then the
/etc/ksh.kshrc file will not be executed on systems that support
this interactive initialization file.
08-03-07 A bug in which ksh -i did not run the ENV file has been fixed.
08-03-07 A bug in which ulimit did not always produce the same output as
ulimit -fS has been fixed.
08-03-04 A bug in multiline mode in emacs and vi mode which could cause the
cursor to be on the wrong line when interrupt was hit has been fixed.
08-03-03 The change made in ksh93s+ on 07-06-18 in which braces became
optional for ${a[i]} inside [[...]] was restored in the case
where the argument can be a pattern.
08-03-03 A bug in which creating a name reference to an associative array
instance would fail when the subscript contained characters [or
] has been fixed.
08-02-29 +The redirection operator >; has been added which for non-special
files,

generates the output in a temporary file and writes the
specified file only of the command has completed successfully.
08-02-15 A bug in ${var/pattern/string} for patterns of the form ?(*) and +(*)
has bee fixed.
08-02-07 A bug in which test \(! -e \) produced an error has been fixed.
08-02-14 +The typeset -a option can now optionally be followed by the name
of an enumeration type which allows subscripts to be enumerations.
08-02-14 +The enum builtin which creates enumeration types has been added.
08-02-12 The backoff logic when there are no more processes has been fixed.
08-02-07 The -X option has been added to typeset. The -X option creates
a double precision number that gets displayed using the C99 %a
format. It can be used along with -l for long double.
08-01-31 The -T option to typeset has been added for creating typed
variables. Also the -h and -S options have been added to
typeset that are only applicable when defining a type.
08-01-31 The prefix
expansion operator @ has been added. ${@name}
expands to the type of name or yields the attributes.
07-11-15 A bug in the macro expander for multibyte characters in which
part of the character contains a file pattern byte has been fixed.
07-10-03 A bug in which : was not allowed as part of an alias name has been
fixed.
07-09-26 A bug in which appending a compound variable to a compound variable
or to an index array didn't work has been fixed.
07-09-19 In both emacs and vi edit mode, the escape sequence \E[A (usually
cursor up, when the cursor is at the end of the line will fetch
the most recent line starting with the current line.
07-09-18 The value of ${!var} was correct when var was a reference to an
array instance.
07-09-18 The value of ${!var[sub]} was not expanding to var[sub] and this
was fixed. It also fixed ${name} where name is a name reference
to var[sub].
07-09-18 +It is now legal to create a name reference without an initialization.
It
will be bound to a variable on the first assignment.
07-08-30 +A discipline function can be invoked as ${x.foo} and is equivalent
to ${ x.foo;} and can be invoked as x.foo inside ((...)).
07-07-09 A bug in which typeset -a did not list indexed arrays has been
fixed.
07-07-03 +The command substitution ${ command;} has been added. It behaves
like $(command) except that command is executed in the current
shell environment. The ${ must be followed by a blank or an
operator.

08-04-17 --- Release ksh93s+ ---
08-04-17 A bug in which umask was not being restored correctly after a
subshell has been fixed.
08-04-15 A bug in which sending a STOP signal to a job control shell started

from within a shell function caused cause the invoking shell to terminate has been fixed.

08-04-11 A bug which caused $(exec > /dev/null) to go into an infinite loop has been fixed.

08-03-27 A bug in which typeset -LZ was being treated as -RZ has been fixed.

08-03-06 A bug with ksh -P on systems that support the the profile shell, in which it would exit after running a non-builtin has been fixed.

08-01-31 A bug in which command substitution inside ((...)) could cause syntax errors or lead to core dumps has been fixed.

08-01-17 A bug in which discipline functions could be deleted when invoked from a subshell has been fixed.

08-01-17 A bug in which a command substitution consisting only of assignments was treated as a noop has been fixed.

08-01-17 A bug in which discipline functions invoked from withing a compound assignment could fail has been fixed.

08-01-16 Incomplete arithmetic assignments, for example ((x +=)), now generate an error message.

08-01-16 A bug in which a set discipline defined for a variable before an array assignment could cause a core dump has been fixed.

08-01-03 A bug in on some systems in which exit status 0 is incorrectly returned by a process that catches the SIGCONT signal is stopped and then continued.

07-12-13 A race condition in which a program that has been stopped and then continued could loose the exit status has been fixed.

07-12-12 Code to check for file system out of space write errors for all writes has been added.

07-12-11 A bug in the macro expander for multibyte characters in which part of the character contains a file pattern byte has been fixed.

07-12-06 A bug in the emacs edit mode when multiline was set that output a backspace before the newline to the screen has been fixed.

07-12-04 A bug in which using <n>TAB after a variable name listing expansion in the edit modes would cause the $ to disappear has been fixed.

07-11-28 A bug in which setting IFS to readonly could cause a subsequent command substitution to fail has been fixed.

07-11-27 A work around for a gcc 4.* C99 "feature" that could cause a job control shell to go into an infinite loop by adding the volatile attribute to some auto vars in functions that call setjmp().

07-11-27 A bug in which the shell could read ahead on a pipe causing the standard input to be incorrectly positioned has been fixed.

07-11-27 A bug in which compound variable UTF-8 multibyte values were not expanded or traced properly has been fixed.

07-11-21 A bug where an unbalanced '[' in a command argument was not treated properly has been fixed.

07-11-15 A bug in which compatibility mode (no long option names) getopts(1) incorrectly set the value of OPTARG for flag options has been fixed.

07-11-15 A bug in which "hash -- name" treated "--" as an invalid name operand has been fixed.
07-11-15 typeset now handles "-t -- [-r] [--]" for s5r4 hash(1) compatibility.
07-11-15 A bug in which the umask builtin mis-handled symbolic mode operands has been fixed.
07-11-15 Bugs in which shell arithmetic and the printf builtin mis-handled the signs of { -NaN -Inf -0.0 } have been fixed.
07-11-15 +The full { SIGRTMIN SIGRTMIN+1 ... SIGRTMAX-1 SIGRTMAX } range

of signals, determined at runtime, are now supported.
07-11-15 A bug in which creating an index array with only subscript 0 created only a simple variable has been fixed.
07-11-14 A bug in which appending to an indexed array using the form name+=([sub]=value) could cause the array to become an associative array has been fixed.
07-11-14 A bug in which typeset without arguments could coredump if a variable is declared as in indexed array and has no elements has been fixed.
07-11-14 A bug in which creating a local SECONDS variable with typeset in a function could corrupt memory has been fixed.
07-11-14 A bug which could cause a core dump when a script invoked by name from a function used compound variables has been fixed.
07-11-05 A bug in which printf %d "'AB" did not diagnose unconverted characters has been fixed.
07-11-05 printf %g "'A" support added for all floating point formats.
07-11-01 A bug in which typeset -f fun did not display the function definition
when invoked in a subshell has been fixed.
07-10-29 The sleep builtin was fixed so that all floating point constants are valid operands.
07-10-10 A bug in which the locale was not being restored after LANG=value command has been fixed.
07-09-20 A bug in which a nameref to a compound variable that was local to the calling function would not expand correctly when displaying is value has been fixed.
07-09-19 A bug which cause cause a core dump if .sh.edchar returned 80 characters or more from a keyboard trap has been fixed.
07-09-14 A bug in which could cause a core dump when more than 8 file descriptors were in use has been fixed.
07-09-10 A bug in which creating a name reference to an instance of an array when the array name is itself a reference has been fixed.
07-09-10 The file completion code has been modified so that after an = in any word, each : will be considered a path delimiter.
07-09-06 A bug in which subprocess cleanup could corrupt the malloc() heap
has been fixed.
07-08-26 A bug in which a name reference to an associative array instance could cause the subscript to be evaluated as an arithmetic expression

has been fixed.
07-08-22 A bug in which the value of an array instance was of a compound
variable was not expanded correctly has been fixed.
07-08-14 A bug which could cause a core dump when a compound assignment was
made to a compound variable element with a typeset -a attribute
has been fixed.
07-08-08 A bug in which a trap ignored in a subshell caused it to be
ignored by the parent has been fixed.
07-08-07 A bug in which the set command would generated erroneous output
for a variable with the -RZ attribute if the variable name had been
passed to a function has been fixed.
07-08-02 A bug in which read x[1] could core dump has been fixed.
07-08-02 A second bug in which after read x[sub] into an associative array
of an element that hasn't been assigned
could lead to a core dump
has been fixed.
07-07-31 A bug in which a pipeline that completed correctly could have
an exit status of 127 when pipefail was enabled has been fixed.
07-07-09 +The SHOPT_AUDIT compile option has been added for keyboard logging.
07-06-25 In vi insert mode, ksh no longer emits a backspace character
before the carriage return when the newline is entered.
07-06-25 A bug in which pipefail would cause a command to return 0
when the pipeline was the last command and the failure happened
on a component other than the last has been fixed.
07-06-25 A bug in the expansion of ${var/pattern/rep} when pattern or rep
contained a left parenthesis in single quotes has been fixed.
07-06-18 The braces for a subscripted variable with ${var[sub]} are now
optional when inside [[...]], ((...)) or as a subscript.
07-05-28 A bug in brace expansion in which single and double quotes did
not treat the comma as a literal character has been fixed.
07-05-24
The -p option of whence now disables -v.
07-05-23 Several bug fixes in compound variables and arrays of arrays
have been made.
07-05-15 A bug in which the %B format of printf was affected by the
locale has been fixed.
07-05-14 A bug in which \ was not removed in the replacement pattern with
${var/pattern/rep} when it was not followed by \ or a digit has
been fixed.
07-05-10 A bug in which ksh -R file core dumped if no script was specified
has been fixed. it not displays an error message.
07-05-07 Added additional Solaris signals to signal table.
07-04-30 A bug in which a pipeline with command substitution inside a
function could cause a pipeline that invokes this function to
hang when the pipefail option is on has been fixed.
07-04-30 +Added -q to whence.
07-04-18 A small memory leak with each redirection of a non-builtin has
been fixed.

07-03-08 A bug in which set +o output command line options has been fixed.
07-03-08 A bug in which an error
in read (for example, an invalid variable
name), could leave the terminal in raw mode has been fixed.
07-03-06 A bug in which read could core dump when specified with an array
variable with a subscript that is an arithmetic expression has
been fixed.
07-03-06 Several serious bugs with the restricted shell were reported and
fixed.
07-03-02 If a job is stopped, and subsequently restarted with a CONT
signal and exits normally, ksh93 was incorrectly exiting with
the exit status of the stop signal number.
07-02-26 +M-^L added to emacs mode to clear the screen.
07-02-26 A bug in which setting a variable readonly in a subshell would
cause an unset error when the subshell completed has been fixed.
07-02-19 +The format with printf uses the new = flag to center the output.
07-02-19 A bug in which ksh93 did not allow multibyte characters in
identifier names has been fixed.
07-02-19 A bug introduced in ksh93 that causes global compound variable
definitions inside
functions to exit with "no parent" has been fixed.
07-02-19 A bug in which using compound commands in process redirection
arguments would give syntax errors <(...) and >(...) has been fixed.
07-01-29 A bug which caused the shell to core dump which can occur when a
built-in exits without closing files that it opens has been fixed.
07-01-26 A bug in which ~(E) in patterns containing \ that are not inside ()
has been fixed.

06-12-29 --- Release ksh93s ---
06-12-29 A bug in which the value of IFS could be changed after a command
substitution has been fixed.
06-12-22 +/dev/(tcp|udp|sctp)/HOST/SEVRICE now handles IPv6 addresses on
systems that provide getaddrinfo(3).
06-12-19 +A -v option was added to read. With this option the value of
the first variable name argument will become the default value
when read from a terminal device.
06-11-20 A bug in which "${foo[@]:1}" expands a null argument (instead of
no argument), when foo[0] is not empty has been fixed.

06-11-16 The discipline functions have been modified to allow each subscript
to act independently. Currently the discipline function will not
be called when called from a discipline function of the same variable.
06-11-14 A bug which could cause a core dump if a file descriptor for
an internal file was closed from with a subshell has been fixed.
06-10-30 +The redirections <# pattern, and <## pattern have been added.
Both seek forward to the beginning of the next line that contains
the pattern. The <## form copies the skipped portion to standard
output.

06-10-26 +On systems that support stream control transport, the virtual file
name /dev/sctp/host/port can now be used to establish connections.
06-10-26 +The printf modifier # when used with d produces units in thousands
with a single letter suffix added. The modifier # when used with
the i specification provides units of 1024 with a two letter suffix.
06-10-24 The value of $! is now set to the process
id of a job put
into the background with the bg command as required by POSIX.
06-10-23 A bug in which the value of $! was affected by a background
job started from a subshell has been fixed.
06-10-23 A bug in ${var:offset:len} in multibyte locales has been fixed.
06-10-15 +The remaining math functions from C99 were added for any system
that supports them.
06-10-13 The klockwork.com software detected a few coding errors that
have been fixed.
06-10-12 A bug when skipping over `...` with ${x:=`...`} when x is set
has been fixed.
06-10-11 A bug in process floating constants produced by the %a format
of printf has been fixed.
06-10-06 A bug in which IFS was not being restored correctly in some
cases after a subshell has been fixed.
06-10-06 A bug in which pipefail was not detecting some failures in
pipelines with 3 or more states has been fixed.
06-10-03 A bug in the processing of >(...) with builtins which could
cause the builtin to hang has been fixed.
06-10-03
A bug in the for loop optimizer which causes >(...) process
substitution to be ignored has been fixed.
06-09-17 +The -a option was added to typeset for indexed arrays. This
is only needed when using the ([subscript]=value ...) form.
06-09-06 +The showme option was added. Each simple command not beginning
with a redirection and not occurring with in the while, until, if,
select condition can be preceded by a semi-colon which will
be ignored when showme is off. When showme is on, any command
preceded by a colon will be traced but not executed.
06-08-16 +As a new feature, a leading ~(N) on a pattern has no effect
except when used for file expansion. In this case if not
matches are found, the pattern is replaced by nothing rather
than itself.
06-08-11 A bug in the expansion of ${.sh.match[i]:${#.shmatch[i]}} has
been fixed.
06-08-10 +The read builtin options -n and -N have been modified to treat
the size as characters rather than bytes
unless storing into a
binary (typeset -B) variable.
06-07-27 +When the here document operator << is followed directly by a #
rather than a -, the first line of the here-document determines
how much whitespace is removed for each line.

06-07-26 A bug in the C-shell history (enabled with set -H) in which the history event !$ was not processed has been fixed.
06-07-21 A bug on some systems in which assigning PATH on a command line would not take effect has been fixed.
06-07-20 Add ksh93 and rksh93 as allowable names for ksh binaries.
06-07-20 Removed the SHOPT_OO compilation option which was only partially implemented.
06-07-20 The ability to use egrep, grep, and fgrep expressions within shell patterns has been documented.
06-07-17 A bug with arithmetic command expressions for locales in which the comma is a thousands separator has been fixed.
06-07-13 +The default HISTSIZE was increased from 128 to 512.
06-07-13 A multibyte problem with locales that use shift codes has been fixed.
06-06-23 A number of bug fixes for command, file, and variable completion have been mode.
06-06-20 +Floating point division by zero now yields the constant Inf or -Inf and floating functions with invalid arguments yield NaN.
06-06-20 +The floating point constants Inf and NaN can be used in arithmetic expressions.
06-06-20 +The functions isinf(), isnan(), tanhl() have been added for arithmetic expressions.
06-06-13 Internal change to use ordering for variables instead of hashing to speed up prefix matching.
06-06-13 A window between fork/exec in which a signal could get lost and cause a program to hang has been eliminated
06-06-13 A bug in edit completion with quoted strings has been fixed.
06-06-07 The restricted options can now be enabled by set as well as on the command line. Once set, it can not be disabled.
06-06-04 Modified built-in binding so that for systems for which /bin and /usr/bin are the same, a builtin bound to /bin will get selected when either /bin or /usr/bin is scanned.
06-06-04 +Added literal-next character processing for emacs/gmacs mode. This change is not compatible with earlier versions of ksh93 and ksh88 when the stty lnext is control-v. The sequence escape-control-v will display the shell version.
06-05-31 +Modified emacs and vi mode so that entering a TAB after a partial TAB completion, generates a listing of possible completions. After the second TAB, a number followed by a TAB will perform the completion with the corresponding item.
06-05-19 +Modified arithmetic so that conversions to strings default to the maximum number of precision digits.
06-05-16 Bug fixes for multibyte locales.
06-05-10 The =~ operator was added to [[...]] and [[string ~= ERE]] is equivalent to [[string == ~(E)ERE]].
06-04-25 A bug in the vi edit mode which could cause the shell to core dump when switching from emacs mode.

06-04-17 A bug in which using
LANG or LC_ in assignment lists with builtins
did not restore the localed correctly has been fixed.
06-04-04 A bug in which discipline functions could not be added to variables
whose names started with .sh has been fixed.
06-03-28 +The -s option to typeset was added to modify -i to indicate short
integers.
06-03-28 A bug in which variables assignment lists before functions
defined with function name were not passed on the functions
invoked by this function has been fixed.
06-03-28 A bug in which name references defined within a function defined
with function name could not be used with compound variables has
been fixed.
06-03-27 A bug in which read <&p (print >&p) would cause the coprocess input
(output) pipe to close before reading from (after writing to)
it has been fixed.
06-02-28 A bug in which stopping a job created with the hist builtin command
would create a job that could not be restarted has been fixed.

06-01-24 --- Release ksh93r

06-01-24 A bug in which running commands with standard output closed would
not work as expected has been fixed.
06-01-23 A bug in which print -u<n> could fail when file descriptor <n> was
open for writing has been fixed.
06-01-19 The ?: arithmetic operator fixed to work when the operation after
the colon was an assignment.
05-12-24 A bug which could lead to a core dump when elements of a compound
variable were array elements, i.e. foo=(bar=(1 2)), has been fixed.
05-12-13 An arithmetic bug in which x+=y+=z was not working has been fixed.
05-12-13 An arithmetic bug in which x||y was returning x when x was non-zero
rather than 1 has been fixed.
05-12-07 +The aliases for integer and float have been changed to use attributes
-li and -lE to handle long long and long double types.
05-12-07 +The histexpand (-H) option has been added which allows C-shell
style history expansions using the history character !.
05-12-07 +The multiline option was added which
changes that way the edit
modes handle lines longer than the window width. Instead of
horizontal scrolling, multiple lines on the screen are used.
05-12-05 The whence builtin now returns an absolute pathname when the
command is found in the current directory.
05-11-29 A bug which caused ksh -c '[[! ((' to core dump rather than
report a syntax error has been fixed.
05-11-29 A bug when reading fixed length records into typeset -b variables
which caused a zero byte to terminate the value has been fixed.
05-11-22 +The ability to seek to an offset within a file has been added
with the new I/O redirection operators, <# and >#. Currently,

these redirection operators must be followed by ((expr))
but in a future release, it should be able to used to seek forward
to the specified shell pattern. In addition $(n<#) expands to the
current byte offset for file descriptor n.
05-11-22 +The .sh.match array variable is now set after each [[...]]
pattern
match. Previously it was only set for substring matches.
05-10-17 A bug in which the library path variable could be prefixed
with a directory when a .path file was not encountered in
the directory of the executable has been fixed.
05-09-15 A for/while loop optimizer bug in which $OPTIND was not
correctly expanded has been fixed.
05-09-05 A bug in which a history command that invoked a history
command could go into an infinite loop has been fixed.
05-08-31 +In the case that IFS contains to adjacent new-lines so that
new-line is not treated as a space delimiter, only a single
new-line is deleted at the end of a command substitution.
05-08-19 +When a tilde substitution expands to the / directory and is
followed by a /, it is replaced by the empty string.
05-08-16 A bug in which n<&m did not synchronize m has been fixed.
05-08-16 A bug in which process substitution (<() and >()) was not
working within for and while loops has been fixed.
05-07-24 A
bug in which the pattern ~(E)(foo|bar) was treated as a syntax
error has been fixed.
05-07-24 A bug in completion with <n>=, where n was the one of the
previous selection choices has been fixed.
05-07-21 A bug with multibyte input when no edit mode was specified which
caused the input line to shift left/right has been fixed.
05-06-24 A race condition which could cause the exit status to get lost
on some fast systems has been fixed.
05-06-21 A bug in which nested patterns of the form {m,n}(pat) would cause
syntax errors has been fixed.
05-06-21 A bug in the macro expander has been fixed which could cause a
syntax error for an expansion of the form ${x-$(...)} when
x is set and the command substitution contained certain strings.
05-06-08 +On systems for which echo does not do System V style \ expansions,
the -e option was added to enable these expansion.
05-06-08 A bug in which ${var op pattern} to not work when inside an
arithmetic expression has
been fixed.
05-05-23 +An extension to shell patterns that allows matching of nested
groups while skipping over quoted strings has been added.
05-05-18 A bug in which the line number for errors was not correct for
functions loaded from FPATH has been fixed.
05-04-18 A bug in which the exit status $? is not set when a trap triggered
by the [[...]] command is executed has been fixed.
05-04-08 +Redirection operators can be directly preceded with {varname}

with no intervening space, where varname is a variable name which
allows the shell to select a file descriptor > 10 and store it
into varname.
05-04-08 +SHOPT_CMDLIB_BLTIN=1 now includes <cmdlist.h> generated table.
05-04-07 +[[-o ?option]] is true if "option" is a supported option.
05-04-05 A bug in handling file completion with spaces in the names
has been fixed.
05-03-25 +The SIGWINCH signal is caught by default to keeps the LINES and
COLUMNS variables in sync with the actual window size.
05-03-25
+Building ksh with SHOPT_REMOTE=1 causes ksh to set --rc if stdin is
a socket (presumably part of a remote shell invocation.)
05-03-25 +Building ksh with SHOPT_SYSRC=1 causes interactive ksh to source
/etc/ksh.kshrc (if it exists) before sourcing the $ENV file.
05-03-25 +{first..last[..incr][%fmt]} sequences added to brace expansions
when braceexpand is enabled.
05-03-03 A bug where a SIGCHLD interrupt could cause a fifo open to fail has
been fixed.
05-02-25 A bug in which a builtin command run in the background could
keep a file descriptor open which could cause a foreground
process to hang has been fixed.
05-02-24 A bug where builtin library commands (e.g., date and TZ) failed to
detect environment variable changes has been fixed.
05-02-22 +The read builtin and word splitting are now consistent with respect
to IFS -- both treat IFS as field delimiters.
05-02-22 +The read builtin no longer strips off trailing delimiters that
are not space characters
when there are fewer variables than fields.
05-02-17 A builtin bug on systems where dlsym(libcmd) returns link-time
bindings has been fixed.
05-02-12 A bug in which the lib_init() function for .paths BUILTIN_LIB
libraries was not called has been fixed.
05-02-06 A bug on some systems in which moving the write end of a co-process
to a numbered file descriptor could cause it to close has been fixed.
05-02-06 A bug in the vi-edit mode in which the character under the cursor
was not deleted in some cases with the d% directive has been fixed.
05-02-06 A bug where external builtin stdout/stderr redirection corrupted
stdout has been fixed.
05-02-04 A bug where times formatting assumed CLK_TCK==60 has been fixed.

05-01-11 --- Release ksh93q ---
05-01-11 A bug in the integral divide by zero check has been fixed.
05-01-11 +The -l option has been added to read /etc/profile and
$HOME/.profile, if they exist, before the first command.
05-01-11 An argument parsing
bug that caused `kill -s x -- n' to fail has
been fixed.
05-01-11 +The .paths file, introduced in ksh93m, which can appear in

any directory in PATH, now allows a line of the form 'BUILTIN_LIB=.'
When a command is searched for this directory, and the full path
matches the path of the built-in version of the command (listed
by the 'builtin' command) then the built-in version of the command
is used. When ksh is built with SHOPT_CMDLIB_DIR=1 then all libcmd
functions become builtins with the '/opt/ast/bin/' directory prefix.
05-01-10 A bug in which a nameref to a compound name caused a core dump has
been fixed.
05-01-09 A bug in which some SIGCHLD interrupts (from child processes exiting)
caused a fatal print/echo error diagnostic has been fixed.
04-12-24 A bug in which some SIGCHLD interrupts (from child processes exiting)
corrupted the internal process/job list, sometimes causing the shell
to hang, has been fixed.
04-12-01 A bug in which typeset
-Fn truncated less than n digits for large
numbers has been fixed.
04-11-25 A bug in which standard error could be closed after a redirection
to /dev/stderr has been fixed.
04-11-17 A bug in which an expansion of the form ${array[@]:3} could expand
to ${array[0]} when ${array[3]} was not set has been fixed.
04-10-22 +The -E or -orc command line option reads ${ENV-$HOME/.kshrc} file.
04-10-22 +`-o foo' equivalent to `+o nofoo', `-o nobar' equivalent to `+o bar'.
`--foo' equivalent to `-o foo', `--nofoo' equivalent to `+o foo'
04-10-05 +The .paths file, introduced in ksh93m, which can appear in
any directory in PATH, now allows a line of the form
'BUILTIN_LIB=libname'. When a command is searched for this directory,
the shared library named by libname will first be searched for a
built-in version of the command.
04-09-03 <<< here documents now handle quotes in the word token correctly.
04-08-08 +The maximum size for read -n and and read -N was
increased from
4095 to 32M.
04-08-04 +printf %q was modified so that if an no operand was supplied, no
no output would be generated rather than a quoted empty string.
04-08-01 +The -n and -N options of the read builtin has been modified
when reading variables with the binary attribute so that the
data is stored directly rather than through assignment.
04-08-01 +The shcomp command has been modified to process alias commands
under some conditions.
04-07-31 +The .sh.match variable added in ksh93l, now works like other
indexed arrays.
04-07-08 A loop optimizer bug which occurs when typeset is used in
a for or while loop inside a function has been fixed.
04-06-24 +The number of subexpressions in a pattern was increased to 64
from the current number of 20.
04-06-17 +The -t option to read was modified to allow seconds to be
specified as any arithmetic expression rather than just
an integral number of seconds, for example even -t 'sin(.5)'

is now valid.
04-06-16
Two small memory leak problems were fixed.
04-06-15 A bug in ${var/pattern/"string"} which occurred when string
contained pattern matching characters has been fixed.
04-05-08 printf $'%d\n' produced an erroneous error message and has
been fixed.
04-05-24 A bug in which an associative array without any elements could
cause a core dump when a script with an associative array with
the same name was declared in a script invoked by name has
been fixed.
04-05-11 A bug in which an exec statement could close the script that
is being processed in a script that is run by name causing
a failure has been fixed.
04-04-28 +If the first character of assignment to an integer variable was 0,
the variable had been treated as unsigned. This behavior was
undocumented and has been removed.
04-04-05 A bug in which the positioning of standard input could be incorrect
after reading from standard input from a subshell has been fixed.
04-03-30 A bug in the
for loop optimizer which in rare cases could cause
memory corruption has been fixed.
04-03-29 +The preset alias source='command .' has been added.
04-03-29 A bug introduced in ksh93p on some systems in which invoked by
name with #! on the first line would not get the signals handling
initialized correctly has been fixed.
04-03-29 A bug introduced in ksh93p in which a HUP signal received by
a shell that is a session group leader was not passed down to
its children has been fixed.

04-02-28 --- Release ksh93p ---
04-02-28 +The ability to apply an append discipline to any variable has
been added.
04-02-14 A bug in which the exportall option (set -a) would cause incorrect
results for arrays has been fixed.
04-02-02 A bug in which an exported array would pass more than
the first element to a script invoked by name has been fixed.
04-02-02 A bug on some systems in which name=value pairs preceding a script
invoked by name was not getting passed to the script
has been fixed.
04-01-20 A bug in which an unset discipline function could cause a core
dump on some systems has been fixed.
04-01-12 A bug in which a continue or break called outside a loop from
inside a function defined with name() syntax could affect
the invoking function has been fixed.
04-01-08 If a command name begins with ~, only filename completion will be
attempted rather than pathname completion using the builtin editors.
04-01-08 A bug in the vi edit mode in which the wrong repeat count on

multiple word replacements with the . directive has been fixed.
04-01-06 Backspace characters are now handled correctly in prompt strings.
04-01-06 +The getopts builtin has been modified to accept numerical
arguments of size long long on systems that support this.
04-01-06 A bug in which unsetting all elements of an associative array
would cause it to be treated as an indexed array has been fixed.
03-12-15 A bug in which a quoted string ending with an unescaped
$ would
delete the ending $ in certain cases has been fixed.
03-12-05 A bug in which the shell could hang when set -x tracing a command
when an invalid multibyte character is encountered has been fixed.
03-12-05 On some systems, if the KEYBD trap is set, then commands that use
the meta key were not processed until return was hit. This
has been fixed.
03-12-05 A problem which occurred when the login shell was not a group
leader that could cause it to fail has been fixed.
03-12-05 A problem in which a shell could core dump after receiving a signal
that should cause it to terminate while it was in the process
of acquiring more space has been fixed.
03-12-05 +If ENV is not specified, the shell will default to $HOME/.kshrc
for interactive shells.
03-11-21 A bug introduced in ksh93o in which the DEBUG trap could get
disabled after it triggered has been fixed.
03-11-04 A bug in which using arithmetic prefix operators ++ or -- on a
non-lvalue could cause
a core dump has been fixed.
03-11-04 A bug in which leading zeros were stripped from variable
expansions within arithmetic computation to avoid being treated
as octal constants when they should not have, has been fixed.
03-10-08 A bug introduced in ksh93o in which a large here document inside
a function definition could get corrupted has been fixed.
03-09-22 A bug in which the .get discipline function was not being
called when a string variable was implicitly referenced from
within a numerical expression has been fixed.
03-09-22 A bug in which a script without a leading #! could get executed
by /bin/sh rather than the current shell on some systems has
been fixed.
03-09-12 +To improve conformance with ksh88, leading zeros will be ignored
when getting the numerical value of a string variable so that
they will not be treated as octal constants.
03-09-03 +The builtin kill command now processes obsolete invocations
such as kill -1 -pid.
03-09-02 The restriction
on modifying FPATH in a restricted shell (sh -r)
has been documented.
03-09-02 +The restricted shell (sh -r) has been modified to disallow
executing command -p.
03-08-07 A bug in which the KEYBD trap was not being invoked when

characters with the 8th bit set has been fixed.
03-08-02 A parser bug introduced in ksh93o which caused the character
after () in a Posix function definition to be skipped
when reading from standard input has been fixed.
03-08-01 A bug in which "${foo#pattern}(x)" treated (x) as if it were
part of the pattern has been fixed.
03-08-01 +The command -x option has been modified so that any trailing
arguments that do expand to a single word will be included
on each invocation, so that commands like command -x mv * dir
work as expected.

03-07-20 --- Release ksh93o+ ---
03-07-20 A bug in which could cause memory corruption when a posix
function invoked another one has been fixed.
03-07-15 A bug in which a file descriptor>2
could be closed before
executing a script has been fixed.
03-07-15 A parsing error for <() and >() process substitutions inside
command substitution has been fixed.
03-07-15 A parsing error for patterns of the form {...}(...) when
used inside ${...} has been fixed.
03-07-15 An error in which expanding an indexed array inside a compound
variable could cause a core dump has been fixed.
03-07-15 A bug in which on rare occasions a job completion interrupt
could cause to core dump has been fixed.
03-06-26 A bug in which process substitution embedded within command
substitution would generate a syntax error has been fixed.
03-96-23 A bug in which ${@:offset:len} could core dump when there
were no arguments has been fixed.
03-96-23 A bug in which ${X[@]:offset:len} could core dump when X
was unset has been fixed.
03-06-22 +The -x option was added to the command builtin. If this
option is on, and the number of arguments would exceed ARG_MAX,
the command
will be invoked multiple times with a subset of
the arguments. For example, with alias grep='command -x grep,
any number of arguments can be specified.
03-06-14 A bug in which could cause a core dump on some systems with
vi and emacs editors with the MULTIBYTE option has been fixed.
03-06-06 A bug in which the shell could core dump when a script was
run from its directory, and the script name a symlink to a file
beginning with .., has been fixed.
03-06-05 A bug in which the shell could core dump when a child process
that it is unaware of terminates while it is calling malloc()
has been fixed.
03-06-02 +An option named globstar (set -G) has been added. When enabled,
during pathname expansion, any component that consists only of ** is
matches all files and any number of directory levels.

03-05-30 A bug in which the PATH search could give incorrect results when
run from directory foo and PATH contained .:foo:xxx has been fixed.
03-05-29 +Some changes were
made to the code that displays the prompt in edit
mode to better handle escape sequences in the prompt.
03-05-27 I added = to the list of characters that mark the beginning of
a word for edit completion so that filenames in assignments
can be completed.
03-05-20 A bug in which read -N could hang on some systems when reading
from a terminal or a pipe has been fixed.
03-05-19 A bug in which the output of uname from a command substitution
would go to the standard output of the invoking command when
uname was invoked with a non-standard option has been fixed.
03-05-19 A job control bug which would cause the shell to exit because
it hadn't take back the terminal has been fixed. The bug
could occur when running a function that contained a pipeline
whose last element was a function.
03-05-19 A job control timing bug introduced in ksh93o on some systems
which could cause a pipeline to hang if the first component
completed quickly has been fixed.
03-05-13
+The read builtin has been modified so that the builtin editors
will not overwrite output from a previous incomplete line.
03-05-13 A bug in which the name of an identifier could have the string
.sh. prefixed to it after expanding a variable whose name begins
with .sh. has been fixed.
03-05-13 A bug in the expansion of $var for compound variables in which
some elements would not be output when the name was a prefix
of another name in the compound variable has been fixed.
03-05-08 The last item in the ksh93o release on 03-01-02 has been
altered slightly to preserve the leading 0's when the
preceding character is a digit. Thus, with typeset -LZ3 x=10,
$((1$x)) will be 1010 whereas $(($x) will be 10.
03-04-25 A bug in which if x is a name reference, then nameref y=x.foo
did not follow x has been fixed.

03-03-18 --- Release ksh93o ---
03-03-18 +A -N unary operator was added to test and [[...]] which returns
true if the file exists and the file
has been modified since it
was last read.
03-03-18 +The TIMEFORMAT variable was added to control the format for
the time compound command. The formatting description is
described in the man page.
03-03-06 +A -N n option was added to read which causes exactly n bytes
to be read unlike -n n which causes at most n bytes to be read.
03-03-03 +Three new shell variables were added. The variable .sh.file
stores the full pathname of the file that the current command

was found in. The variable .sh.fun names the current function
that is running. The variable .sh.subshell contains the depth
of the current subshell or command substitution.
03-03-03 +When the DEBUG trap is executed, the current command line after
expansions is placed in the variable .sh.command. The trap
is also now triggered before each iteration of a for, select,
and case command and before each assignment and redirection.
03-02-28 +Function definitions are no longer stored in the history file
so
that set -o nolog no longer has any meaning.
03-02-28 +All function definitions can be displayed with typeset -f not
just those stored in the history file. In addition, typeset +f
displays the function name followed by a comment containing the
line number and the path name for the file that defined this function.
03-02-28 A bug in which the value of $LINENO was not correct when executing
command contained inside mult-line command substitutions has been
fixed.
03-02-19 +Since some existing ksh88 scripts use the undocumented and
unintended ability to insert a : in front of the % and # parameter
expansion operators, ksh93 was modified to accept :% as equivalent
to % and :# as equivalent to # with ${name op word}.
03-02-14 A bug which could cause a core dump when reading from standard
error when standard error was a pty has been fixed.
03-02-14 +The shell arithmetic was modified to use long double on systems
that provide this data type.
03-02-09 A
bug in which a function located in the first directory in FPATH
would not be found when the last component of PATH was . and the
current directory was one of the directories in PATH has been fixed.
03-02-07 +The trap and kill builtin commands now accept a leading SIG prefix
on the signal names as documented.
03-02-05 A bug in the expansion of ${var/$pattern}, when pattern contained
\[has been fixed.
03-02-05 A bug in which .sh.match[n], n>0, was not being set for substring
matches with % and %% has been fixed.
03-01-15 A bug in which getopts did not work for numerical arguments specified
as n#var in the getopts string has been fixed.
03-01-09 A bug in which using ${.sh.match} multiple times could lead to
a memory exception has been fixed.
03-01-06 A bug in the expansion of ${var/pattern/$string} in the case that
$string contains \digit has been fixed.
03-01-02 +A -P option was added for systems such as Solaris 8 that support
profile shell.
03-01-02 For
backward compatibility with ksh88, arithmetic expansion
with ((...)) and let has been modified so that if x is a zero-filled
variable, $x will not be treated as an octal constant.

02-12-05 --- Release ksh93n+ ---
02-11-30 A bug that can show up in evaluating arithmetic statements that are in an autoloaded function when the function is autoload from another function has been fixed.
02-11-30 An optimization bug in which an expansion of the form ${!name.@}, which occurred inside a for or a while loop, when name is a name reference, has been fixed.
02-11-18 A bug in which modifying array variables in a subshell could leave side effects in the parent shell environment has been fixed.
02-11-18 A memory leak when unsetting an associative array has been fixed.
02-11-14 +The code to display compound objects was rewritten to make it easier for runtime extensions to reuse this code.
02-11-14 +A change was made to allow runtime builtins to be notified when a signal
is received so that cleanup can be performed.
02-10-31 +User applications can now trap the ALRM signal. Previously, the ALRM signal was used internally and could not be used by applications.
02-10-31 A bug in which signals received while reading from a coprocess for which traps were set was not handled correctly has been fixed.
02-10-31 A bug in which a file opened with exec inside a subshell could be closed before the subshell completed has been fixed.
02-10-21 A bug in which setting PATH or FPATH inside a function might not take effect has been fixed.
02-10-21 A bug which could cause a core dump when a local SECONDS variable is defined in a function has been fixed.
02-10-15 A bug in which the associate array name operator ${!array[@]} could return the same name multiple times has been fixed.
02-10-15 A bug in which the zero'th element of an associative array was not getting set when an assignment was made without a subscript specified has been
fixed.

02-09-30 --- Release ksh93n ---
02-09-30 +The maximum indexed array size was increased to 16Megs.
02-09-30 A bug which could cause a core dump when changing attributes of associative array has been fixed.
02-09-30 A bug in which exporting an array variable would not export the 0-th element has been fixed.
02-09-30 A bug in which an array assignment of the form a=($a ...) would unset 'a' before the right hand side was evaluated has been fixed.
02-09-27 A bug in which the error message for ${var?message} when var was null or unset did not contain the variable name var has been fixed.
02-09-27 A bug in which closing file descriptors 0 through 2 could cause a subsequent here document to fail has been fixed.
02-09-14 A bug in whence which occurs when the specified name contained a / has been fixed.
02-09-14 A bug in the parser for strings of the form name$((expr))=value

has been fixed.
02-09-14 A for loop optimization bug in which the number of elements
in
an array was treated as an invariant has been fixed.
02-09-09 A bug in which redirection or closing of a file descriptor between
3 and 9 could cause a subsequent here document to fail has been
fixed.
02-09-09 A bug in which a background job was not removed from the job list
when a subshell completed has been fixed, for example (prog&).
02-09-03 A bug in which an assignment of the form name=(integer x=3)
could be interpreted as an array assignment rather than a
compound variable assignment has been fixed.
02-08-19 A command completion bug which occurred on file systems that
are case insensitive has been fixed.
02-08-19 A bug which could lead to an exception on some systems (for
example FREEBSD) which occurred when setting PATH has been fixed.
02-08-11 A bug in arithmetic rounding in which a value input as a decimal
string would output as a rounded version of the string has
been fixed.
02-08-11 A bug in which the last character could be deleted
from shell
traces and from whence when called from a multibyte locale
has been fixed.
02-08-01 A bug which could cause a core dump to occur when a shell script
is executed while a coprocess is running that has closed the
output pipe has been fixed.
02-08-01 A bug in which command completion in multibyte mode could
corrupt memory for long command lines has been fixed.

02-06-17 --- Release ksh93n- ---
02-06-17 A bug in which user defined macros could cause a core dump in
with MULTIBYTE mode has been fixed.
02-06-17 A bug in which printf format specifiers of the form %2$s were causing
a core dump has been fixed.
02-06-17 A bug in which setting stty to noecho mode did not prevent the
echoing of characters by ksh when emacs or viraw mode
was enabled has been fixed.
02-06-17 A bug in which background job completion could cause the sleep
builtin to terminate prematurely has been fixed.
02-06-17 A bug in which the shell could core dump if getopts was called

when the OPTIND variable contained a negative value has been fixed.
02-06-10 +The edit mode prompt has been modified to handle escape sequences.
02-06-10 A bug which occurred for interactive shells in which the builtin
cat command was used in command substitution on a file whose
size was larger than PIPE_BUF has been fixed.
02-06-10 A bug in which the trap on ERR was not being processed when
set inside a function has been fixed.

02-06-07 A bug in which function definitions could cause the history count
to be decremented by one (and even become negative) has been fixed.
02-06-05 A bug in read in which share mode could be enabled has been fixed.
02-05-28 A bug which could occur when the last command of a script was
a case statement and the action selected ended in ;& instead of ;;
has been fixed.
02-05-23 A bug with unary + introduced in ksh93k has been fixed.
02-05-07 A bug in substitutions of the form ${var/pattern/string} in which
a backslash was
inserted in the replacement string when it contained
a special pattern character has been fixed.
02-05-01 A bug in the emacs edit mode which occurred in versions compiled
for multibyte character sets which occurred when a repeated search
was requested after a long line had been returned for the previous
search has been fixed.
02-04-02 +vi and emacs edit modes were modified so that tab completion is
disabled when invoked from the read built-in.

02-03-26 --- Release ksh93m+ ---
02-03-26 A bug in which \ was not handled correctly when used in file
expansion has been fixed.
02-02-18 A bug in which lines beginning with a # were deleted from here
documents when the here-document delimiter was followed by
a comment has been fixed.
02-12-06 An optimization bug in which ${!x[@]) was treated as invariant in
a for loop has been fixed.
02-02-06 A bug in which the ERR trap is not cleared for a script invoked
by name from within a function has been fixed.
02-01-08
A bug in which a shell script executed from within a subshell
could cause this script to have an invalid pointer leading
to a memory fault has been fixed.
02-01-07 +Added here documents of the form <<< word (as per zsh) which
is equivalent to << delim\nword\ndelim.
02-01-07 A bug in which the first word of a compound assignment,
x=(word ...), was treated as a reserved word has been fixed.
02-01-07 A bug in the handling of \ when noglob was enabled and a
substitution of the form ${word op pattern} occurred in the
same word has been fixed.
02-01-07 +A compilation option, CMDLIB_BLTIN in the file OPTION, has
been added. When this options is set, all commands implemented
in libcmd become shell builtin commands by default.
02-01-07 A bug in which builtin foo, where foo is already a builtin
would result in the builtin foo getting removed has been fixed.
02-01-07 A bug which the shell executed a command found in the current
directory when PATH have no
valid directories has been fixed.
01-11-28 The value of $? was not being set when called with exit.

01-11-28 If the last command was of the form (...) and a trap on EXIT or ERR was set, and the command inside () modified the trap, then the original trap wasn't executed.
01-11-26 +The value for 0 is now preceded by the base number when the base was not 10.
01-11-26 +The default has compilation mode has been changes so that viraw mode will always be on.

01-10-31 --- Release ksh93m ---
01-10-31 A for loop optimizer bug for subshells contained withing for loops has been fixed.
01-10-16 typeset without arguments no longer outputs variable names that do not have any attributes that are set.
01-10-16 A bug introduced in ksh93l in which assignments specified with the exec built-in were not being expanded properly has been fixed.
01-10-11 An optimization bug in which ${!x) was treated as invariant in a for loop has been fixed.
01-10-11 Unsigned integer variables
in bases other than 10 are printed now
expand in that base with the base prefix.
01-10-10 A number of typos in the self generating man pages for shell built-ins have been fixed.
01-10-04 The self generated man pages for hist and fc were not working correctly and have been fixed.
01-10-03 Yet another optimizer bug in which shell patterns were treated as invariants has been fixed.
01-09-27 Two bugs relating to multibyte history searches and to find have been fixed.
01-09-27 A bug introduced in ksh93k in which the PATH searching was not restored after running a command with an assignment list has been fixed.
01-09-26 A bug in which a zero filled field was treated as octal when converted to integer has been fixed.
01-09-26 Yet another bug in the optimization of for loops related to recursive functions with break or continue statements has been fixed.
01-09-25 +The exponentiation operator ** was added to the shell arithmetic evaluation. It has higher
precedence than * and is left
associative.
01-09-25 The code was modified to use the ast multibyte macros and functions for handing multibyte locales.
01-09-25 +The expansion ${parameter:offset:length} now handles negative offsets which cause offsets to be measured from the end.
01-09-25 Some spelling errors in the documentation were corrected.
01-09-24 +The /dev/tcp/host/port and /dev/udp/host/port now allow the ports to be specified by service name.
01-09-24 +The change staring with ksh93g in which the the appropriate

library path variable is prepended with a corresponding library directory has been modified. With the new method, only the library path defined in the file named .paths in the directory where the executable is found will be modified. See the man page for more details.

01-09-23 +The .fpath file (see ksh93h) is no longer looked for in each directory on the path to locate function directories. The file named .paths is used instead.

01-09-23

A bug in which IFS was not being restored after being changed in a subshell has been fixed.

01-09-16 +With the vi and emacs edit modes, after a list of command or functions is generated with = or M-= respectively, any element from the list can be pasted on the command line by preceding the = or M-= with a numeric parameter specifying the position on the list.

01-09-16 A bug in ksh93l caused command completion not to find aliases and functions. Command listing from the edit mode was presented in reverse order. This has been fixed.

01-09-13 Another bug in the optimization of for loops related to subshells when traps were set has been fixed.

01-09-07 A change in ksh93l caused brace expansion to stop working and this has been fixed.

01-09-04 A bug introduced in ksh93k in which an arithmetic statement within a function that used name references did not follow the reference has been fixed.

01-09-04 A bug introduced in ksh93l in which export -p did not prefix each export with the word export has been fixed.

01-08-29 A bug in multibyte input which occurred when a partial multibyte character was received has been fixed.

01-08-29 A bug introduced in ksh93l which could cause a core dump when an assignment list containing PATH is specified inside command substitution has been fixed.

01-08-09 Another bug in the optimization of for loops in ksh93l caused errors in recursive functions using local variables that contained for loops has been fixed.

01-07-27 A bug in which IFS would be unset after a command substitution inside a here document has been fixed.

01-07-26 To conform to the POSIX standard, if you invoked ksh name, and name does not contain a /, it will first try to run one in the current directory whether it is executable or not before doing a path search for an executable script. Earlier versions first checked for an executable script using the PATH variable.

01-07-23 A bug in which unset -f invoked in a subshell could unset a function defined in the parent has been fixed.

01-07-16 A bug in the optimization of for loops in ksh93l caused
name references to be treated as invariants has been fixed.
01-07-09 A bug in which a discipline function applied to a local variable
could cause a shell exception has been fixed. Discipline
functions can only be specified for global variables.

01-06-18 --- Release ksh93l ---
01-06-18 A bug in assigning integers larger than can be represented as
long integers to floating point variables has been fixed.
01-06-18 A bug in the handling of unsigned integers (typeset -ui) has
been fixed.
01-06-04 The evaluation of the PS1 prompt no longer effects the value
of the $? variable.
01-06-01 A small memory leak from subshells has been fixed.
01-05-22 A bug in which attributes for variables that did not have
values would be lost after a subshell has been fixed.
01-05-22 +The %R format has been added to
convert a shell pattern into
an extended regular expression.
01-05-22 +The escape sequences \e, \cX, \C[.collating-element.], and
\x{hex} have been added to ASCII-C strings and to printf format
strings.
01-05-20 +Patterns of the form {n}(pattern) and {m,n}(pattern) are now
recognized. The first form matches exactly n of pattern whereas,
the second form matches from m to n instances of pattern.
01-05-20 +The shell allows *-(pattern), +-(pattern), ?-(pattern),
{m,n}-(pattern}, and @-(pattern) to cause the minimal
match of pattern to be selected whenever possible rather
than the maximal (greedy) match.
01-05-20 +The character class [:word:] has been added to patterns.
The word class is the union of [:alnum:] and the character _.
01-05-20 +Inside (...) pattern groups, the \ character is now treated
specially even when in an enclosing character class. The
sequences, \w, \d, \s are equivalent to the character classes
word, digit, and space respectively.
The sequences \W, \D,
and \S are their complement sets.
01-05-20 +The shell now recognizes pattern groups of the form
~(options:pattern) where options or :pattern can be omitted.
Options use the letters + and - to enable and disable options
respectively. The option letters g (greedy), i (ignore case)
are used to cause maximal matching and to cause case
insensitive matching respectively. If :pattern is also
specified, these options are only in effect while this
pattern is being processed. Otherwise, these options remain
in effect until the end of the pattern group that they are contained
in or until another ~(...) is encountered. These pattern groups
are not counted with respect to group numbering.

01-05-14 When edit completion, expansion, or listing occurs in the
middle of a quoted string, the leading quote is ignored when
performing the completion, expansion, or listing.
01-05-14 A small memory leak from subshells has been fixed.
01-05-10
A bug in which open files were not restored after a subshell
that had used exec to replace a file has been fixed.
01-05-10 +Redirection to a null file name now generates an error message.
01-05-09 The shell now rejects some invalid parameter substitutions that
were previously processed in undefined ways.
01-05-09 A bug in which the output of select was not flushed before the
read when input did not come from the terminal has been fixed.
01-05-08 A bug in which job ids would not be freed for interactive shells
when subshells ran built-ins in the background has been fixed.
01-05-08 +The FPATH variable now requires an explicit . to cause the
current directory to be treated as a function directory.
01-05-08 A bug in read -n when echo mode was disabled has been fixed.
01-05-07 A bug in which function definitions could be listed as part
of the history has been fixed.
01-04-30 +This release uses a new and often much faster pattern matcher than
earlier releases.
01-04-30
+An optimizer now eliminates invariant parameter expansions from
for while and until loops.
01-04-30 +The variable .sh.match is set after each pattern match (# % or /)
in a variable substitution. The variable .sh.match is an
indexed array with element 0 being the complete match.
The array is only valid until the next subsequent pattern
match or until the value of the variable changes which ever
comes first.
01-04-30 +A self generating man page has been added to shcomp. Also,
shcomp now stops compiling when it finds an exit or exec
command and copies the remainder so that it can be used
for standard input.
01-04-30 +The shcomp command was modified so that it can work in an
EBCIDIC environment and that binary scripts are portable
across environments.
01-04-30 A bug in the handling of a trailing : in PATH has been fixed.
01-04-30 A bug in which the builtin version of a command would get invoked
even though the full pathname for the command
was specified
has been fixed.
01-04-30 A bug in which read would loose the last character when
reading the last line of a file that did not contain a new-line
character has been fixed.
01-04-23 A bug on some systems in which in vi mode the end of file
character and end of line character could be swapped has
been fixed.

01-04-23 A bug on some systems in which invoking a shell script that
did not have execute permission could set the exit value to
127 rather than 126 has been fixed.
01-04-20 A bug in which read -n from a pipe would block if fewer than
n characters was received has been fixed.
01-04-09 A bug in which invalid patterns, for example,) by itself,
was not treated as a string has been fixed so that if i=')',
then [[$i == $i]] is true.
01-04-09 +The shell arithmetic now interprets C character constants.
01-04-09 A bug in which a non-zero return from a function defined
with the function reserved word did not trigger the ERR
trap
or exit with set -e has been fixed.
01-04-02 A bug on some systems, in which characters above 127 were
not displayed correctly in vi or emacs edit mode has been fixed.
01-04-02 A bug on some systems, introduced in the 'k' point release, in
which the erase character in viraw mode was moving the cursor
to the left without erasing the character has been fixed.
01-04-02 On some systems the wcwith() function was returning a wrong
value for characters and caused characters to be displayed
incorrectly from the shell edit modes. A work around for
this problem has been added.
01-03-26 A bug in which valid scripts could produce syntax errors
when run with locales that considered characters such as """
to be space characters has been fixed.
01-03-20 A bug in which an syntax error in an arithmetic expression
entered interactively could cause the shell to go into
an infinite loop outputting the error message has been fixed.
01-03-10 +ksh93 accepts -l as a synonym
for -L in test on systems for
which /bin/test -l tests for symbolic links.
01-03-10 A bug in parsing scripts in which { and } are used in place of
in and esac in case statements embedded in compound commands
has been fixed. Use of { and } for in and esac is obsolete.
01-03-06 A bug in which an argument of the form foo=bar was not
being passed correctly to a traced function whose name
was foo has been fixed.
01-03-02 Using $(trap -p name) did not print the name of the current
trap setting for trap name.
01-02-26 Exported floating point variables gave incorrect results
when passing them to ksh88. This has been fixed.
01-02-25 A race condition in which a coprocess which completed too quickly
would not allow subsequent coprocesses to start has been fixed.
01-02-25 The 'g' format specifier is now handled by printf. It had
inadvertently been omitted.
01-02-20 The + was not being displayed during an execution trace
with the += assignment operator.
01-02-19

The error message which occurs when the interpreter name
defined on the #! line does not exist is more informative.
01-02-19 A bug in which $0 would not be set correctly when a
script with #! was invoked by full pathname from the
directory of the script has been fixed.
01-02-19 A shell script did not always pick up tty mode changes
made by external commands such as stty which could
effect the behavior of read.
01-02-19 The -u, -g, and -k unary tests did not give the correct
results when used with negation and this has been fixed.

01-02-05 --- Release ksh93k+ ---
01-02-05 The sequence \<newline> inside $'...' was not incrementing
the line count and this has been fixed.
01-02-05 +Modified expansion of "${@-}" so that if no arguments are set
it results in null string rather than nothing.
01-02-02 memory leak problem with local variables in functions fixed.
01-01-25 +allow arithmetic expressions with float%int and treat them
as ((int)float)%int rather
than as an error.
01-01-19 read -n1 was not working and has been fixed.
01-01-17 +ksh now handles the case in which a here document in command
substitution $() is terminated by the trailing). Previously,
a new-line was needed at the end of the delimiter word.
01-01-02 A bug in which a KEYBD trap would cause a multi-line token
to be processed incorrectly has been fixed.
00-12-10 +Arithmetic integer constants can now have L and U suffices.
00-12-10 A bug in the processing of arithmetic expressions with compound
variables when the -n option is on has been fixed.
00-12-08 A bug in M-f and M-b from emacs mode has been fixed. This
bug only occurs when ksh93 is compiled without MULTIBYTE enabled.
00-11-29 A bug in which jobs -p would yield 0 for background
jobs run in a script has been fixed.
00-11-21 A bug in integer arrays in which the number of elements is
incorrect when the ++ operator is applied to a non-existing
element has been fixed. For example,
integer x; ((x[3]++)).
00-11-20 A timing bug in which the shell could reset the terminal
group to the wrong value in the case that the a new process
changes the terminal group during startup has been fixed.

00-10-27 --- Release ksh93k ---
00-10-27 Using tab for completion now works only when applied
after a non-blank character at the end of the current line.
In other case a tab is inserted.
00-10-27 A bug in the emacs edit mode for ^X^E has been fixed.
The ^X^E sequence is supposed to invoke the full editor
on the current command.

00-10-18 A bug in which expansions of the form ${var//pattern/string}
  did not work correctly when pattern was '/' or "/" has
  been fixed.
00-10-18 +The output format for indexed arrays in compound variables
  has been modified so that it can be used as input.
00-10-18 Assignments with name references (typeset -n) will now
  implicitly unreference an existing name reference.
00-10-17 A bug the += append operator when a single
 array element
  is appended to a variable that is not an array has been fixed.
00-10-16 A bug in which the SIGCONT signal was being sent to
  each process will kill -0 or kill -n 0 has been fixed.
00-10-12 +The arithmetic evaluation portion has been rewritten to
  perform a number of optimizations.
00-10-10 A bug in which name prefix matching ${!name.*} was not
  checking name to see if it was a name reference has been fixed.
00-09-26 A bug in the multibyte version in which the width of for
  non-printing characters was not correct has been fixed.
00-09-12 +Made changes to get multibyte editing work on UWIN for windows
00-09-12 A bug in which multibyte characters would be displayed incorrectly
  has been fixed.
00-08-08 Removed build dependency on iswprint() and iswalph().
00-07-20 In some cases the read builtin would read more than a single
  line from a pipe on standard input and therefore leave the seek
  position in the wrong location.
00-07-05 +If the directory /
 is on the path, a / will not be inserted
  between the directory and the file name during path searching
  to avoid searching // for systems that treat this specially.
00-06-26 A bug in which on rare occasions wait could return before all
  jobs have completed has been fixed.
00-06-21 A bug in which backspace did not work correctly during the
  R replace directive in vi-mode has been fixed.
00-06-12 +Added variable name completion/expansion/listing to the set of
  completions. Variable name completions begin with $ or "$ followed
  by a letter.
00-05-09 --- Release ksh93j ---
00-05-09 Modified command substitution to avoid using /tmp files when
       run on read-only file systems.
00-04-17 +Modified printf to handle '%..Xc' and '%..Xs' options where X
  is not an alpha character. Previous versions core dumped with this.
00-04-10 +Changes to multibyte editing code were made to use standard
  ISO C functions rather than methods devised before the standard.
00-04-09
  Add %H options to printf to output strings with <"'&\t> properly
  converted for use in HTML and XML documents.
00-04-07 +Modified getopts builtin to handle \f...\f in usage string
  by invoking specified function.

00-04-04 Added self generating man pages for bg, fc, fg, disown, jobs,
  hist, let, ., and ulimit.
00-03-30 +The append operator += has been added and can be used
  for all assignments, strings, arrays, and compound variables.
00-03-30 +Code was modified in several places to support automatic
  generation of C locale dictionaries.
00-03-28 A bug in which the set and trap commands invoked with --name
  type arguments would terminate the invoking script has
  been fixed.
00-03-27 A bug in which the library path variable was not updated
  correctly on some systems as described in the 'g' point
  release has been fixed.
00-03-07 printf now returns a non-zero exit status when one of
      its arguments cannot be converted to the given type.
00-03-05 The return
 value and error message for a command that
      was found on the path but was not executable was set
      incorrectly.
00-03-05 A prototype for ioctl() was removed from the vi edit mode.

00-01-28 --- Release ksh93i ---
00-01-28 +Most of the built-in commands and ksh itself are now
      self documenting. Running command --man will produce
      screen output. Running command --html produces the
      man page in html format.
00-01-28 +The getopts builtin can process command description
      strings to produce man pages.
00-01-28 A bug in which a script could terminate when getopts
      encountered an error when invoked inside a function
      has been fixed.
00-01-28 When a symbolic link was specified as the name of
      the script to invoke by name, the value of $0 was
      set to the real file name rather than the link name
      in some cases and this has been fixed.
00-01-28 A bug in which the precision given as an argument

  to printf was not working has been fixed.

99-03-31 --- Release ksh93h ---
99-03-31 +The PATH search algorithm has been modified to look
  for a file named .fpath in each bin directory and if
  found, to search for functions in this directory if
  it cannot find the command in that directory.
99-03-31 +When performing pathname expansion, the shell checks
  to see whether each directory it reads is case sensitive
  or not, and performs the matching accordingly.
99-03-31 +The %T format for printing formatted date/time.
99-03-31 +The emacs and vi modes now handle arrow keys when

they use standard ANSI escape sequences.
99-03-31 +The TAB key can be used for completion in emacs and viraw mode.
99-03-31 A bug in setting .sh.editchar during the KEYBD trap
for the MULTIBYTE option was fixed in release ksh93h.
99-03-31 A bug in shcomp for compilation of unary operators with [[...]]
has been fixed.
99-03-31 A bug in which the value of $? was changed when executing

a keyboard trap has been fixed.
99-03-31 The handling of SIGCHLD has been changed so that the
trap is not triggered while executing trap commands
to avoid recursive trap calls.
99-03-31 A bug in which a local variable in a function declared readonly
would generated an error when the function went out of
scope has been fixed.
99-03-31 A bug in which \<new_line> entered from the keyboard
with the KEYBD trap enabled has been fixed.
99-03-31 The error message for a misplaced ((, for example print ((3),
was often garbled and has been fixed.
99-03-31 A bug in the KEYBD trap in which escape sequences of the form
<ESC>[#~ were not being handled as a unit has been fixed.
99-03-31 A bug in which ksh would consider expressions like [[(a)]]
as syntax errors has been fixed.
99-03-31 A function defined as foo() without a function body
was not reported as a syntax error.
99-03-31 A bug in which ksh could run out of file descriptors when
a stream was repeatedly
opened with exec and read from
has been fixed.

98-04-30 --- Release ksh93g ---
98-04-30 +The pipefail option has been added. With pipefail
enabled, a pipeline will not complete until all
commands are complete, and the return value will
be that of the last command to fail, or zero if
all complete successfully.
98-04-30 +The name-value pair library uses the cdt library rather
than the hash library. This change should be transparent
to applications.
98-04-30 +On the U/WIN version for Window 95 and Windows NT,
when a directory beginning with a letter followed by
a colon is given to cd, it is assumed to be an absolute
directory
98-04-30 +When an executable is found on a given path,
the appropriate library path variable is prepended
with a corresponding library directory.
98-04-30 A bug in which a name reference could be created to
itself and later cause the shell to get into an infinite

loop has been fixed.
98-04-30
A bug in shcomp relating to compound variables was fixed.
98-04-30 A bug introduced in ksh93e in which leading 0's in -Z
fields caused the value to be treated as octal for arithmetic
evaluation has been fixed.
98-04-30 A bug when a name reference with a shorter name than
the variable it references was the subject of a compound
assignment has been fixed.
98-04-30 A bug which in which assignment to array variables in
a subshell could effect the parent shell has been
fixed.
98-04-30 read name?prompt was putting a 0 byte at the end of the
prompt on standard error.
98-04-30 A bug in [[string1 > string2]] when ksh was run with -x
has been fixed.
98-04-30 A bug in which the escape character was not processed
correctly inside {...} when brace expansion is enabled
has been fixed, for example {\$foo}.
98-04-30 A bug in line continuation in here-documents has been
fixed.
98-04-30 The default base when not specified with typeset -i is
10 in
accordance with the documentation. Previously,
the value was determined by the first assignment.
98-04-30 A parsing bug in which a # preceded alphanumeric
characters inside a command substitution caused
a syntax error to be reported has been fixed.
98-04-30 A bug in which a decimal constant represented as 10#ddd
where ddd was more than five digits generated a syntax
error has been fixed.
98-04-30 A bug in here document expansion in which ${...} expansions
were split across buffer boundaries has been fixed.
98-04-30 +The sh_fun() function now takes third argument which
is an argument list for the invoked discipline function
or built-in.
98-04-30 +A callback function can be installed which will give
notification of file duplications and file closes.
98-04-30 When ksh is compiled on systems that do not use fork()
current option settings where not propagated to sub-shells.

97-06-30 --- Release ksh93f ---
97-06-30 +Hostnames in addition to host
addresses can be given in
/dev/tcp/host/port virtual file names.
97-06-30 File name completion and expansion now quotes special
characters in file names from both emacs and vi edit modes.
97-06-30 An empty for list behave like a for list with null expansions.

It produces a warning message with sh -n.
97-06-30 +The code has been modified to work with EBCDIC as well as ASCII.
97-06-30 A bug which would cause the secondary prompt to be
displayed when a user entered a literal carriage
return has been fixed.
97-06-30 A bug which caused ksh read -s name to core dump was
fixed.
97-06-30 A bug with the expansion of \} and \] inside double
quoted strings that also contained variable expansions
has been fixed
97-06-30 Changes in the ksh93e point release caused autoload
functions invoked from within command substitution
to fail. This has been fixed.
97-06-30 A bug in the processing of here-documents that could
prevent variable substitution to occur after
$(...) command
substitution for long here documents has been fixed.
97-06-30 A bug caused by a race condition that could cause SIGTERM
to be ignored by a child process has been fixed.
97-06-30 A bug which prevented the startup of a coprocess immediately
after killing a running coprocess has been fixed.
97-06-30 ulimit foobar, where foobar is not an arithmetic
expression, now gives an error message as it did with ksh88
instead of setting the file size limit to 0.
97-06-30 A bug which could cause an interactive shell to terminate when
the last process of a pipeline was a POSIX function was fixed.
97-06-30 A bug which could cause command substitution of a shell script
to core dump has been fixed.
97-06-30 A security hole was fixed in suid_exec.
97-06-30 Arithmetic functions such as pow() that take more than
one argument, did not work if arguments other than the
first contained parenthesized sub-expression.
97-06-30 The error message from a script containing
an incomplete
arithmetic expression has been corrected.
97-06-30 A bug which caused a core dump on some machines when
the value of a name reference contained a positional
parameter and the name reference was not defined inside
a function has been fixed.
97-06-30 Arithmetic expressions now correctly handle hexadecimal
constants.
97-06-30 A bug in which integer variables could be expanded
with a leading 10# when declared with typeset -i
multiple times has been corrected.
97-06-30 A bug in which IFS wasn't correctly restored when
set within command substitution has been fixed.
97-06-30 The _ character is now considered as part of a word
with the M-f and M-b emacs directives as it was in ksh88.

97-06-30 A bug in brace pattern expansions that caused expressions
such as {foo\,bar,bam} to expand incorrectly have been fixed.

96-07-31 --- Release ksh93e ---
96-07-31 +The math functions, atan2, hypot, fmod, and pow were added.
96-07-31 +When a
shared library is loaded, if the function lib_init()
is defined in the library, it is invoked the first time that
the library is loaded with builtin -f library.
96-07-31 The k-shell information abstraction database option, KIA,
has been revamped.
96-07-31 Empty command substitutions of the form $() now work.
whence -v foo now gives the correct result after calling
builtin -d foo.
96-07-31 A bug in right to left arithmetic assignment for which
the arithmetic expression ((y = x = 1.5)) did not
yield 1 for y when x was declared typeset -i was fixed.
96-07-31 printf has been fixed to handle format containing \0
and/or \0145 correctly. In addition, characters following
%b in the format string are no longer displayed when
the operand contains \c.
96-07-31 A bug in printf that could cause the %E format to
produce unnormalized results has been fixed.
96-07-31 A bug which causes some arithmetic expressions to be
incorrectly evaluated as integer
expressions rather
that floating point has been fixed.
96-07-31 Functions defined inside a subshell no longer remain
defined when the subshell completes.
96-07-31 The error message from sh -c ';echo foo' has been
corrected.
96-07-31 The format for umask -S has been changed to agree
with the specification in the POSIX standard.
96-07-31 A bug that caused side effects in subscript evaluation
when tracing was enabled for subscripts using ++ or --
has been fixed.
96-07-31 To conform to the Posix standard getopts has been changed
so that the option char is set to ? when it returns with
a non-zero exit status.
96-07-31 The handling of \} inside ${name...} has been fixed so
that the \ quotes the }.
96-07-31 A bug that caused the read builtin to resume execution
after processing a trap has been fixed.
96-07-31 [[-s file]] has been fixed so that if file is open
by ksh, it is flushed first.
96-07-31 In some cases attributes and sizes for non exported

variables weren't being reset before running a script.
96-07-31 The value of TMOUT was affected by changes make to it in a subshell.
96-07-31 The jobs command did not reflect changes make by sending the CONT signal to a command.
96-07-31 The error message for ksh -o unknown was incorrect.
96-07-31 Functions invoked as name=value name, did not use values from the calling scope when evaluating value.
96-07-31 A bug in which the shell would reexecute previously executed code when a shell script or coprocess was run in the background has been fixed.
96-07-31 A bug in which an empty here-document would leave a file descriptor open has been fixed.
96-07-31 A bug in which $(set -A array ...) would leave a side effect has been fixed.
96-07-31 A discipline function for a global variable defined within a function defined with the function keyword, incorrectly created a local variable of the same name and applied the discipline to it.

95-08-28 --- Release ksh93d ---
95-08-28 The \ character was not handled correctly in replacement patterns with ${x/pattern/replace}.
95-08-28 A bug with read in which the line did not end with a new-line has been fixed.
95-08-28 A bug in file name generation which sometimes appended a . for filenames that ended in / has been fixed.
95-08-28 +If a process is waited for after a status has been returned by a previous wait, wait now returns 127.
95-08-28 A bug with hist (fc) -e which prevented a command to re-executed after it had been edited has been fixed.
95-08-28 A bug which prevented quoting from removing the meaning of unary test operators has been fixed.
95-08-28 A bug with typeahead and KEYBOARD traps with the MULTIBYTE option set has been fixed.
95-08-28 +Builtin functions can take a third argument which is a void*.
95-08-28 The nv_scan() function can restrict the scope of a walk to the top scope.

95-04-31 --- Release ksh93c ---
95-04-31
The expansion of "$@" was incorrect when $1 was the null string.
95-04-31 A bug which could incorrectly report a syntax error in

a backquoted expression when a $ was preceded by \\
has been fixed.
95-04-31 A bug which prevented the shell from exiting after
reporting an error when failing to open a script
has been fixed.
95-04-31 A bug that could lead to memory corruption when a
large here document that required parameter or command
substitution was expanded has been fixed.
95-04-31 A bug that could cause a core dump on some systems
after ksh detected an error when reading a function
has been fixed.
95-04-31 A bug which could cause a coprocess to hang when
reading from a process that has terminated has been fixed.
95-04-31 A bug which caused a script to terminate when set -e
was on and the first command of and && or || list
failed has been fixed.
95-04-31 A bug with here documents inside $(...) when the delimiter
word is an identifier
has been fixed.
95-04-31 A bug which caused $0 to display the wrong value when
a script was invoked as an argument to the . command
and the eval command has been fixed.
95-04-31 A bug that could cause the built-in sleep to hang
has been fixed.
95-04-31 A bug introduces in 12/28/93b which caused the backslash
to be removed when it was followed by digit inside double
quotes in some instances has been fixed.
95-04-31 A bug which could cause a core dump if ksh was invoked with
standard input closed has been fixed.
95-04-31 A bug which could cause a core dump if typeset -A was
specified for an existing variable has been fixed.
95-04-31 Variables that were unset but had attributes such as readonly
and export were not listed with readonly, export and typeset.
95-04-31 Several problems with signals have been fixed.
95-04-31 A bug which prevented ulimit -t from working has been fixed.
Also, a bug in which failed ulimits could cause a core dump
has also been
fixed.
95-04-31 A bug in expansion of the form ${name/#pattern/string} and
${name/%pattern/string} has been fixed.
95-04-31 A bug which caused read -r on a line that contained only
blanks to get a non-null value has been fixed.
95-04-31 A bug introduced in the 'a' point release in which
${x='\\'} expanded to \ when x was unset has been fixed.
95-04-31 A bug which prevented a trap on EXIT from being executed
when the last command in a script was a function invocation
has been fixed.
95-04-31 A bug which caused an interactive shell ignore input when

standard error was redirected to a file with exec,
and then restored with exec 2>&1 has been fixed.
95-04-31 An interactive shell turns on monitor mode even when
standard error has been redirected to a file.
95-04-31 A bug which could cause standard input to be incorrectly
positioned for the last command of a script has been fixed.
95-04-31 A bug in the edit modes which allowed walking back in
the history
file for more than HISTSIZE commands has
been fixed.
95-04-31 A bug which could cause a core dump if variable TMPDIR was
changed between two command substitutions has been fixed.
95-04-31. A bug which prevented a trap on EXIT from being cleared
has been fixed.
95-04-31 A bug fixed for the v directive in vi MULTIBYTE has been
fixed.
95-04-31 Code to for IFS handling of multibyte characters has
been added.
95-04-31 The displaying of multibyte strings in export, readonly,
typeset, and execution traces has been fixed.
95-04-31 Variables inside functions are now statically scoped.
The previous behavior was never documented.
95-04-31 Variables inside functions are now statically scoped.
The previous behavior was never documented.
95-04-31 A few changes have been made to the name-value library
that affect built-ins that use disciplines. The
changes allow disciplines to be shared by variables
and should
make it possible to add new disciplines
without recompilation.
95-04-31 +The name-value library interface has undergone significant
change for this revision. See the new nval.3 man page.

94-12-31 --- Release ksh93b ---
94-12-31 +Variables inside functions are now statically scoped.
The previous behavior was never documented.
94-12-31 +If IFS contains two consecutive identical characters belonging
to the [:space:] class, then this character is treated as
a non-space delimiter so that each instance will delimit
a field. For example, IFS=$'\t\t' will cause two consecutive
tabs to delimit a null field.
94-12-31 +The getopts command has a -a name option that specifies a
name that will be used for usage messages.
94-12-31 A bug which caused unset RANDOM to dump core has been
fixed.
94-12-31 A bug which prevented return for terminating a profile
or ENV file has been fixed.
94-12-31 A bug which prevented standard input from being

directed to /dev/null for background jobs when
monitor mode was turned off has been fixed.
94-12-31 Statements of the form typeset -options var[expr]=value
did not perform substitutions on expr as expected.
94-12-31 A bug which prevented the shell from sending a HUP
signal to some background jobs that were not disowned
has been fixed.
94-12-31 A bug which allowed a script to trap signals that are
ignored at the time that the shell was invoked by exec
has been fixed.
94-12-31 A bug which could cause a core dump when a discipline
function was unset within a discipline was fixed.
94-12-31 The typeset builtin now accepts a first argument of
+ or - for compatibility with ksh88.
94-12-31 For compatibility with ksh88, the results of expansions
of command arguments will treat the extended character
match characters ()|& as ordinary characters.
94-12-31 A bug which caused read to fail on a file that was
open for read/write with <> when the first operation

was print or printf has been fixed.
94-12-31 When a job is suspended, it is put on the top of
the job list as required by the POSIX standard.
94-12-31 The value of OPTARG when an option that required
an argument but didn't have one was incorrect in the
case the the option string began with a :.
94-12-31 A bug which caused the terminal to get into a bad
state with some KEYBD traps in vi-mode has been fixed.
94-12-31 A bug which caused an invalid trap to cause a script
to terminate, rather than just return an error, has
been fixed.
94-12-31 Backreferencing sub-expressions in patterns and replacement
strings now works.
94-12-31 A bug in chmod which caused the -R option to fail has
been fixed.
94-12-31 +More signal names have been added for Solaris

94-06-30 --- Release ksh93a ---
94-06-30 An expansion bug which causes portions of a word after
a $((...)) expansion that contains a nested $var expansion
to be lost has been fixed.
94-06-30 A bug that
caused a core dump when a script that did not
have PWD set and did a cd inside command substitution
has been fixed.
94-06-30 A bug which caused a core dump on some machines when
the LANG variable was assigned to has been fixed.

94-06-30 A bug which incorrectly handled set disciplines that
performed arithmetic evaluation when the discipline
was called from the arithmetic evaluator has been fixed.
94-06-30 A bug caused by an EXIT trap inside a function that
was executed in a subshell was fixed.
94-06-30 If foo is a function, and not a program, then command foo
now reports that foo isn't found rather than invoking foo.
94-06-30 The previous version incorrectly listed -A as an
invocation option. The -A option is only for set.
94-06-30 A bug was fixed which caused ksh to loop when execution trace
was enabled and the PS4 prompt required command substitution.
94-06-30 A bug which could cause the job control switch character
to be disabled when a script
that enabled monitor mode
terminated was fixed.
94-06-30 A bug in the macro expansion global replacement operator //,
when the pattern began with a [or +(has been fixed.
94-06-30 A bug which prevented ~ expansion from occurring when
it was terminated with a colon inside an assignment
has been fixed.
94-06-30 A bug in the dot command which prevented autoload functions
from working has been fixed.
94-06-30 A bug which caused a variable to be unset if the
its value were expanded inside a set discipline has
been fixed.
94-06-30 Whence -a now longer reports that a defined function
is undefined.
94-06-30 A bug on some systems in which $0 would be incorrect
in scripts invoked by name has been fixed.
94-06-30 Here documents with an empty body now work.
94-06-30 A bug which disabled argument passing and resetting
of options for a script invoked by name inside a
function has been fixed.
94-06-30 A bug in which an EXIT trap set the caller of a function

would be executed if a command called inside a function
was not found has been fixed.
94-06-30 A bug which allowed a script to trap signals that are
ignored at the time that the shell was invoked has
been fixed.
94-06-30 A bug which caused 2<&1- when applied to a shell built-in
to leave standard input closed has been fixed.
94-06-30 A bug which caused the shell to incorrectly parse
$() command substitutions with nested case statements
has been fixed.

::::::::: libast :::::::::

12-07-25 pathprobe.c: fix read() loop to handle EINTR
12-06-28 vmalloc/malloc.c: use sbrk() unless VMALLOC_OPTIONS=mmap or asoinit(0,0,0)!=0 (workaround until next malloc update)
12-06-28 aso/aso.c: asoinit(0,0,0): 0: no specific init, 1: app initialized
12-06-27 sfio/sfvprintf.c: allow { L* z* } aliases for I* -- posix will probably pick one
12-06-26 regex/regnexec.c: fix uninitialized variable reference
12-06-26 comp/setlocale.c: utf8_wctomb() now calls (the corrrect) wc2utf8()
12-06-25
string/chresc.c: accept \u[U+<hex>] and \u{U+<hex>}
12-06-24 regex/regcomp.c: mb [^...] must be marked "complicated"
12-06-20 port/astconf.c: increase DEBUG_astconf error debug levels (may leach into rt output)
12-06-18 sfio/_sfopen.c: add 'e' => O_CLOEXEC
12-06-18 features/fcntl.c: add #define O_CLOEXEC 0 if not defined
12-06-13 features/float: handle __mips c99 peculiarities
12-06-13 features/standards: handle __MACH__ posix peculiarities
12-06-08 sfio/sfclose.c,sfmode.c: sfclose() for sfopopen() stream returns sh-compatible $?
12-06-08 comp/strtold.c: fix header botch that missed ldexpl() prototype -- ouch
12-06-06 misc/proclib.h: partially undo <ast_standards.h> for leaked ancient bsd-isms
12-05-31 misc/proclib.h: <ast_standards.h> for linux undefined struct mmsghdr*
12-05-31 error.h: add ERROR_PIPE(errno) to handle EPIPE and ECONNRESET
12-05-31 Makefile: don't install $(INCLUDEDIR)/prototyped.h: src/cmd/INIT does it
12-05-31 regcomp.c: add (?V...) ~(V...) REG_REGEXP switch
12-05-28
regex: regoff_t in => ssize_t via api 20120528
12-05-21 features/asometh: split intrinsic and method tests so code only instantiated in aso.c
12-05-21 comp/strdup.c: use oldof() since mem overwritten by string copy
12-05-18 misc/stk.c: fix access of moved realloc() data
12-05-15 misc/optget.c: #? option with no value should have opt_info.num==0
12-05-11 misc/stk.c: fix memmove() read of 1 uninitialized byte
12-05-11 regex/regcoll.c: avoid memcpy() to self
12-05-01 port/astconf.c: fix astconflist() to list standard minmax value if defined
12-04-26 sfio/sftmp.c: fix memory leak due to inadvertent SF_STATIC copy
12-04-26 sfio/sfwrite.c: fix subtle memory leak (with Vmlast or Vmpool or freeBSD malloc)
12-04-26 vmalloc/vmbest.c: SIGSEGV overcommit check for __linux__ only
12-04-25 vmalloc: add _vmfd() for private close-on-exec fds
12-04-23 sfio_t.h: change getr to 32 bits to prepare for UTF-8 delimiters
12-04-23 features/signal.c: add SIGSTKFLT
12-04-17 regex/regcomp.c: fix (E:...) vs
(E)... scoping
12-04-11 features/sys: add aix's _LARGE_FILE_API to the _LARGEFILE(64)?_SOURCE mix -- anyone else?
12-04-11 include/cmdarg.h,misc/cmdarg.c: (finally!) add a discipline with Cmdrun_f
12-03-28 vmalloc: int vs [s]size_t cleanup
12-03-27 sfio: fix #if logic that caused syntax errors (on 64 bit uwin)
12-03-10 misc/optget.c: HELP_index for "PLUGIN" too
12-02-29 include/shcmd.h: PLUGIN_VERSION 20111111 for cdt disc/meth change
12-02-29 comp/spawnveg.c: fix sigcritical() to include waitpid() for internal child
12-02-29 malloc.c: make __malloc_hook initialization thread safe

12-02-24 comp/iconv.c: fix winix UTF-8 vs UCS-2 over-conversion
12-02-24 astsa/*.h: clean up header guards
12-02-24 astsa/astsa.omk: clean up standalone old make makefile interactions
12-02-21 misc/cmdarg.c: fix bug that set argv[0]
12-02-10 sfvprintf.c: fix 1 byte too long buffer access
12-02-07 malloc.c/features/vmalloc: add gnu __malloc_hook tests
12-02-06 vmmopen.c: fix ALIGN vs sys/param.h macro conflict
12-02-02
astlicense.c: add license.component for component-specific licenses
12-01-31 spawnveg.c: fix transient bug that made invalid setpgid() call
12-01-27 pathpath.c: fix buffer size math when internal allocation requested
12-01-24 malloc.c: fix _vmkeep() bug that did not return previous state
12-01-23 malloc.c: add VMALLOC_OPTIONS=break to try sbrk() block allocator first
12-01-21 astlicense.c: option style only overrides default license.type
12-01-18 malloc.c: disable multiple regions for tracing or !vmbest or ASO_SIGNAL
12-01-12 sfpkrd.c: add __sun I_PEEK+rsh runtime workaround
12-01-10 shcmd.h: void* => Shbltin_t*
12-01-10 tmxdate.c: handle { n>=1000 } TM_PARTS
11-12-21 plug up some memory links -- thanks mhlavink
11-12-21 vmprivate.c: enclose VM_NONMEM exception in CLRLOCK(vm,0) ... SETLOCK(vm,0)
11-12-13 aso: in -lposix for uwin, not -last -- just like vmalloc
11-12-13 sfpoll.c: all streams SF_IOINTR => don't ignore EINTR
11-12-13 sfdcslow.c: set SF_IOINTR
11-12-09 malloc.c:
add _vmkeep() for setlocale() intercept _SYS_setlocale_free_OK
11-12-04 sfio: _Sfmaxr=0 (unlimited) by default; use ulimit -M|-d or SFIO_OPTIONS
11-12-01 aso: sync to new api
11-11-11 optget.c: move .TH to the top for --nroff to get our macros first
11-11-11 aso,cdt,vmalloc: resync with kpv
11-11-11 cdt: preserve bits and Dt_link_t for CDT_VERSION < 20111111
11-10-24 sfvprintf.c: %.-ns truncate from left to n chars
11-10-21 sfvprintf.c: fix %0s (no width) core dump
11-10-10 aso: add _WIN32 support
11-09-26 vmalloc: sync with kpv
11-08-29 features/{dirent,wchar,wctype}: eliminate #include with no header
11-08-25 #pragma prototyped tweaks -- sun4 is dead, long live sun4
11-08-25 ftwalk.c: FTS_SLNONE => FTW_SL
11-08-11 features/wchar: fix #include _nxt_wchar for K&R C
11-08-04 optget.c: tweak --html rendering
11-07-24 mime.c: add %(default)[st] default if arg == ""
11-07-21 setlocale.c: fix debug locale to treat "<<" as two single byte chars
11-06-14 spawnveg.c: pgid -1: new session -2: setpgrp()&&tcsetpgid()
11-06-14
pathprog.c: add darwin _NSGetExecutablePath
11-05-14 features/common,features/align.c: { _X86_ _X64_ } conditionals for generic uwin
11-05-13 tm/tminit.c: tweak tzname[] prototype
11-05-09 astlicense.c: add ". file" parent-relative include and depth 4 input stack
11-05-05 cmdarg: update to cmdopen_20110505 api

11-05-03 sfio/sfclose.c: make sure close() errors propagate to sfclose() return value
11-04-20 port/astlicense.c: add { id name } keys
11-04-15 fmtdev.c: fix to work for non-{blk,chr} special
11-04-12 stk: change size args to size_t and stseek() offset to ssize_t
11-04-12 sfio: sync with kpv to optimize large SF_STRING sfputr() buffer allocation
11-03-28 misc/fts.c: fix FTS_SLNONE logic to set it when it should!
11-03-17 misc/stk.c: fixed bug that could delete an active stack frame
11-03-10 sfio/sfvprintf.c: add %0<width>s to preserve <width> trailing chars in string arg
11-03-09 misc/magic.c: add %d...%s where if %d==1 then %s=="" else %s=="s"
11-03-09
misc/magic.tab: add windows ico
11-02-08 misc/stk.c: change STK_FSIZE to (1024*sizeof(char*)) for 64 bit normalization
11-02-02 sfio/sfmode.c: don't call sfsetbuf() on unbuffered stream to make it unbuffered
11-02-02 features/wchar: handle hp.ia64 va_list interactions
11-02-02 comp/omitted.c: fix mismatch between stat() vs _stat()
11-01-31 std/wctype,features/wctype: add to handle <wchar.h> interactions
11-01-28 add -lw for ancient sunos
11-01-28 include/magic.h,misc/magic.c: add MAGIC_ALL
11-01-27 tm/tmxfmt.c,tmpoff.c: %_z for SHH:MM
11-01-25 features/wchar: change <wctype.h> <wchar.h> ordering
10-12-24 sfstrtof.h: fix thousand grouping bug that did not check last group
10-12-21 pathkey.c: add win32 { /32 /64 } preroot to hash
10-12-09 pathprog.c: handle intermediate path != '* and fix invalid pathpath() call
10-12-01 astconf.c: fix look.standard undefined variable reference
10-12-01 sfset.c: SF_LINE|SF_WCWIDTH => no need for sfsetbuf() to call isatty()
10-12-01 sfsetbuf.c: cache
/dev/null <dev,ino> to cut down /dev/null stat()'s
10-12-01 optget.c: delay dictionary initialization until needed
10-11-30 malloc.c: drop { VMDEBUG VMETHOD VMPROFILE VMTRACE } env checks
10-11-30 port/astconf.c: eliminate esaccess() calls for OP_universe checks
10-11-24 regcomp.c: [[=]=]] must at least match itself in non-C locales
10-11-23 glob.h,glob.c: add GLOB_GROUP => REG_SHELL_GROUP
10-11-20 glob.c: handle mode switches across /
10-11-19 regcomp.c: REG_SHELL => REG_CLASS_ESCAPE
10-11-16 vmalloc.h: add VMFL tracing to vmstrdup()
10-11-16 ast.h: simplify VMDEBUG _BLD_DEBUG and VMFL logic
10-11-12 tm/tmlocale.c: ast TM_* extensions default to C locale
10-11-10 regex/regnexec.c,vmalloc/vmstat.c: eliminate strict-aliasing puns
10-10-20 misc/translate.c: change debug translation to drop " in (a,b,c,"d")
10-10-10 misc/glob.c: drop ancient D_FILENO(d)!=0 test and trust readdir()
10-10-06 misc/translate.c: fix "debug" locale logic
10-10-04 misc/magic.c: fix magic() skip check to honor the
continuation
10-10-04 regex/regcoll.c: add wchar_t* args to regcollate(), drop ucs name lookup
10-09-28 comp/setlocale.c: add utf8_wctomb()
10-09-28 string/chresc.c,regex/regcoll.c: fix \S[.X.] (\C[.X.] never worked!)
10-09-24 string/chresc.c: \Cc for control c, \S[.X.] for collating symbol X
10-09-24 string/chresc.c: { \cc \e } deprecated

10-09-22 regex/regcomp.c: fix off-by-one collation class allocation bug
10-09-20 regex/regclass.c: fix CTYPES off-by-one bug
10-09-14 comp/conf.sh: const int conf_elements, prefix_elements;
10-09-08 add features/sizeof => ast_sizeof.h
10-08-31 comp/getopt[l].c: export functions for dlls
10-08-25 port/lc.c: add features/locale check for canonical UTF-8 spelling
10-08-20 include/ast.h: add export plugin_version() prototype
10-08-20 comp/conf.tab: add SF_BUFSIZE
10-08-11 misc/conformance.c: conformance(0,0) => "standard"
10-08-11 misc/conformance.c: check ast_env_serial for dynamic astconf() changes
10-08-11 port/lcgen.c: remember to fudge Table_t.count
for synthesized entries
10-08-04 include/ast.h,comp/setlocale.c: add { debug C.UTF-8 } mbalpha() mbwidth()
10-08-02 misc/translate.c: add NLSPATH message cache check
10-07-29 string/fmtint.c: fix nasty bug that rendered "1000" as "1"
10-07-27 setlocale,lsgen,localeconv: handle C vs C_EU decimal thousands sep
10-07-26 misc/optget.c: fix interaction with nested plugin/builtin calls
10-06-29 string/strtoi.h: strton() multiplier 1 => power of two suffix
10-06-28 features/wchar: handle systems that require __va_list => va_list
10-06-28 comp/conf.tab: another PID_MAX tweak -- default to 99999 for most
10-06-28 port/astconf.c: lone "CONFORMANCE = standard" => all defaults standard
10-06-25 misc/optget.c: avoid sfprints() call during initialization
10-06-01 features/api, ast_api.h: formalized forwards/backwards api compatibility
10-06-01 _AST_API=20100601: add size_t args for all path*() output buffers
10-06-01 comp/setlocale.c: handle C.UTF-8 test locale
10-06-01 include/mc.h: add size_t
to mcfind() for result buffer (internal api)
10-06-01 use strlcpy() instead of strncpy()
10-05-28 include/ast_version.h: add AST_PLUGIN_VERSION for dllplugin()
10-05-28 include/shcmd.h: add SH_PLUGIN_VERSION for dllplugin()
10-05-28 misc/conformance.c: add conformance(3)
10-05-28 misc/optget.c: add [(id1|id2)...] conformance("id1|id2",0) conditionals
10-05-25 include/sfhdr.h: adjust SF_NMAP according to _ptr_bits
10-05-25 include/shcmd.h: add sh_builtin() macro for lib_init() table initialization
10-05-21 misc/optget.c: --html \bfoo::bar([[:digit:]][[:upper:]]*) => foo-bar.html
10-05-15 include/proc.h,misc/procopen.c: add PROC_ORPHAN
10-05-09 misc/optget.c: add --???MAN[section] --???SECTION
10-05-07 sfio,stdio: fix all snprintf() variants to handle buf==0 and/or n==0
10-05-04 string/fmtesc.c: add mb iswsoace() and iswcntrl() quoting checks
10-05-03 fix LC_MESSAGES catalog lookup bugs, check for $set==3, accept $set==1
10-04-30 string/chresc.c: add chrexp() for FMT_EXP_*
10-04-30 string/stresc.c:
add strexp() for FMT_EXP_*
10-04-30 string/chresc.c: fix \uXXXXY bug that consumed Y
10-04-22 misc/optget.c: check for html entities in <A name="...">
10-04-22 misc/getcwd.c: add features/syscall check for SYSGETCWD() { linux solaris }
10-04-22 string/stresc.c: wide chars absent locale guidance default to UTF-8
10-04-12 port/mnt.c: favor bsd getfsstat() over getmntinfo()

10-04-11 string/strtoi.h: k (1000) and ki (1024) now differentiated
10-04-10 misc/recstr.c: fix 'd[delimiter]' parse
10-04-08 include/vmalloc.h,vmalloc/vmstat.c: add Vmstat_t.mode region mode bits
10-04-05 misc/fts.c: drop 1997-01-07 fts_open()=0 is one file and stat() fails
10-04-05 misc/optget.c,optlib.h: add Optpass_t.release for --nroff .TH
10-04-02 misc/optget.c: fix $'[-n?\n...]' --version bug
10-04-02 regex/regcomp.c: ~(X) => REG_EXTENDED|REG_AUGMENTED, ~(PU) instead of ~(U)
10-03-24 misc/procopen.c: add PROC_FD_CTTY(fd)
10-03-24 path/pathtemp.c: fix pointer => int casts
10-03-15 regex/regcache.c: fix
1 byte buffer overflow (didn't count trailing \0)
10-03-08 features/tvlib: fix utimensat probe to include all macros/structs
10-03-07 features/lib: change stream_peek to test pipes only
10-03-07 string/strelapsed.c: fix next char return overrun
10-03-06 tm/tvtouch.c: use runtime fallback if utimensat() fails with ENOSYS
10-03-05 path/pathtemp.c: add pfx /seed for regression testing
10-03-04 vmalloc/vmwalk.c: add user supplied handle arg
10-03-04 path/pathtemp.c: properly handle mktemp()-style *+(X) templates
10-03-03 include/ast_getopt.h: remove NULL guard - _AST_GETOPT_H now handles it
10-02-24 comp/getopt.h: fix ast_std.h interactions
10-02-24 vmalloc/malloc.c: empty { VMALLOC_OPTION VMDEBUG ... } => no debug!
10-02-02 string/base64.c: fix corner case output buffer overflow
10-02-02 features/fs: sys/mnttab.h requires stdio.h on some systems!!
10-02-01 misc/optget.c: uppercase --html heading -- doh
10-01-29 misc/optget.c: [+NAME?...] overrides error_info.id for >= STYLE_man
10-01-25
vmalloc/vmprivate.c: fix seg ptr initialization bug (24 years old!!)
10-01-20 misc/optget.c: handle nested {...} rendering
10-01-20 misc/state.c: add ast.version for runtime api version
10-01-20 port/astconf.c: "_AST_VERSION" now returns ast.version
10-01-20 include/ast_std.h: add ast.version for runtime api version
10-01-19 astlicense.c: add epl
10-01-01 vmalloc: VMALLOC_OPTIONS env var for all runtime options
10-01-01 include: change some <ast.h> refs to less intrusive <ast_*.h>
10-01-01 setlocale.c,translate.c,fmterror.c: AST_LC_internal retains prev state
10-01-01 comp/setlocale.c: AST_LC_setenv defers to LC_ALL (for sh)
10-01-01 ast_std.h: add { AST_LC_internal AST_LC_setenv }
09-12-24 comp/setlocale.c: fix setlocale(LC_ALL,"") when already initialized
09-12-17 misc/optget.c: handle mixed solaris usage="x:f:(in)yo:(out)"
09-12-11 regex/regcomp.c: posix semantics for [z-a]
09-12-11 regex/regcomp.c: fix BRE/ERE ^^ logic
09-12-11 regex/regcomp.c: fix regcomb() for REG_LEFT|REG_RIGHT
09-12-11
regex/regcomp.c: bm complete=0 if REX_END
09-12-11 comp/sigflag.c: add with npt check in features/sig.sh
09-12-11 tm/tminit.c: fix _tzset_environ logic
09-12-09 tm/tmlocale.c: include "ast_nl_types.h" to pull nl_langinfo in!
09-12-04 features/options: add "opt map-libc" check

09-12-03 tm/tmxdate.c: fix 'next month final day' for dec -> jan
09-11-21 misc/magic.tab: add gimp XCF
09-11-20 vmalloc/vmtrace.c: add pid to assertion disgnostics
09-11-11 regex.h,regcomp.c: add REG_CLASS_ESCAPE, \ inside [...] literal by default
09-11-03 regex/regcache.c: change to variable length pattern strings
09-10-28 include/error.h: fix ERROR_translate() arg parens
09-10-26 port/lcgen.c,comp/setlocale.c: handle LANG init after LC_* already defined
09-10-05 _sfopen.c: add but ignore 'F' flags for stdio compatibility
09-09-28 fts.h,ftwalk.h,fts.c: promote { namelen pathlen level } to (s)size_t
09-09-28 locales: add AST_LC_LANG for $LANG
09-09-28 setlocale.c: fix logic for dynamic { LANG LC_ALL LC_*
} changes
09-09-17 include/sfio.h,sfio/sfwalk.c: add sfwalk()
09-09-09 sfio/sfputr.c: add SIGPIPE hang fix
09-08-24 sfio/sfreserve.c: fix SF_UNBOUND logic with pushed streams
09-08-18 include/ast_std.h,ast.h: add ast.mb_sync to sync mbchar() after error
09-08-17 comp/setlocale.c: add AST_LC_utf8 and { utf8_mbtowc() utf8_mblen() }
09-08-11 comp/setlocale.c: treat "en"/"en_US" AST_LC_MESSAGES as "C"/"POSIX"
09-08-10 vmalloc/vmhdr.h: add user-defined _AST_PAGESIZE and computed VMHEAPINCR
09-08-09 comp/conf.tab: add NPROCESSORS_MAX
09-07-29 astlicense.c: fix first name=value logic error
09-07-22 string/fmtip6.c: don't drop trailing 0 in 44::1:0:0
09-06-30 port/astconf.c: standard PATH_RESOLVE is "physical" (not "metaphysical")
09-06-19 vmalloc: sync with kpv
09-06-19 include/shcmd.h: add sh_context(p) cast
09-06-11 misc/magic.tab: differentiate pc 386 32/64 bit dll/exe/obj
09-06-06 port/astconf.c: fix look->name null pointer reference
09-06-05 port/astconf.c: fix 'UNIVERSE = value' synthesize
logic
09-05-25 tm/tmxduration.c: add
09-05-08 comp/syslog.c: add _UWIN /var/log/syslog preference
09-05-01 comp/setlocale.c: fix _UWIN intercepts to return NiL on unknown locales
09-04-27 sfio/sfpool.c: fix bug that did not return pool on delete
09-04-22 include/regex.h,regex/regcomp.c: add REG_REGEXP <regexp.h> compatibility
09-04-15 tm/tmxdate.c: handle "4th thursday in november"
09-03-31 string/strvcmp.c,string/strnvcmp.c: add version strcmp(3)
09-03-31 string/strpcmp.c,string/strnpcmp.c: add path prefix strcmp(3)
09-03-29 misc/optget.c: clean up num = number casts
09-03-04 tm/tmxmake.c: add tmxtm() with zone override
09-03-03 tm/tmxfmt.c: add %(...)<c>, specifically %(...)z for output zone
09-02-22 tm/tmxdate.c: add iso P... durations
09-02-02 path/pathprog.c: add
09-02-02 misc/opthdr.h,optget.c: fix flags mixup, handle old '-' as option
09-02-02 sfio/sfprints.c: fix sfvaprints() return value to not count trailing '\0'
09-02-02 misc/cmdarg.c: handle !defined(ARG_MAX)
09-02-02
port/astconf.c: fix UNIVERSE overwrite of null[] value!
09-01-31 features/sys: drop header sys/localedef.h

09-01-28 include/fs3d.h,misc/fs3d.c: mount() => fs3d_mount() for diff std prototypes
09-01-14 misc/fts_open.c: delay top list reorder until first fts_read()
09-01-14 include/ls.h: LS_W_INUMBER => 9 to accomodate large st_ino
09-01-14 misc/optget.c: expand STYLE_usage input text
09-01-09 features/uwin,stdio/_stdfun.c: iffe for _p__iob and __p__iob
09-01-09 misc/magic.tab: add ISO filesystem image entries
09-01-07 string/strtoi.c: strtol() etc. do not consume [lLuU] suffix -- thanks jkf
09-01-07 sfio/sfstrtof.h: strtod() etc. do not consume [fFlL] suffix -- thanks jkf
09-01-05 string/strlcat.c: fix logic to match docs (not that easy)
08-12-30 tm/tmxdate.c,include/tm.h: add TM_WORK { "workday" "working" "work" }
08-12-28 sfio/sfcvt.c: fix 'a' format rounding
08-12-21 tm/tmdata.c: add 2008-12-31+23:59:60-0000 leap second event
08-12-19 tm/tmxdate.c: check for dates near the epoch rolling
back to the future
08-12-19 tm/tmxfmt.c: change %s for now==0 to be the epoch
08-12-07 include/ast_std.h,misc/getenv.c: no _ast_getenv for uwin ast54 compatibility
08-12-07 tm/tmxfmt.c: add %[_][EO]K for [space pad] [full|long] iso
08-12-07 sfio/sfvscanf.c: fix ok[] short by one allocation
08-12-07 comp/setlocale.c: fix off by one composite initialition loop test
08-12-07 path/pathkey.c: fix off by one loop test
08-12-04 vmalloc/vmbest.c: catch sbrk() wraparound
08-12-04 comp/spawnveg.c: clean up attrs on failure too
08-11-04 regex/regcomp.c: fix locale [!-...] and [^-...] re-initialization
08-11-04 stdio: add flockfile.c ftrylockfile.c funlockfile.c
08-10-24 port/astconf.c: handle multiple/trailing '/' in universe initialization
08-09-10 misc/magic.c: handle old vcodex() indices
08-09-10 sfio/sfvprintf.c: drop SF_WCWIDTH, use %Lc or %Ls instead
08-09-05 Makefile: ibm.risc joins the :NOOPTIMIZE: crowd
08-09-04 regex/regnexec.c: fix nested delimiter match beyond end of subject
08-08-20
misc/fts.c: fix st_nlink stat() optimization logic
08-08-19 sfio/sfpkrd.c: workaround macosx recv(PEEK) data consumption on non-socket
08-08-19 strn?tol?d: handle long double with smaller exponent range than double
08-08-18 sfio/sfcvt.c: eliminate excessive multiplies and integral overprecision
08-08-11 tm/tmxfmt.c: handle %10N and %010N
08-08-06 include/shcmd.h: add 'int invariant;' for builtin invariant arg count
08-08-05 features/ndbm: favor sleepycat ndbm compatibility
08-07-21 include/glob.h,misc/glob.c: GLOB_STARSTAR only forces lstat on chdir
08-07-17 sfio: sync with kpv
08-07-17 misc/optget.c: call astwinsize() each time terminal width required
08-07-16 sfio/sfvscanf.c: fix %% to skip leading space per posix
08-07-16 vmalloc/vmbest.c: add VMCHECK=m, VM_mmap to favor mmap() alloc
08-07-16 features/stdio,stdio/f(read|write).c: size_t return value!! ouch
08-06-24 tm/tmxfmt.c: fix %z to handle tm_isdst -- doh
08-06-24 misc/astintercept.c,misc/getenv.c: split from misc/setenviron.c
08-06-17
misc/setenviron.c: add { astintercept() getenv() }
08-06-09 tm/tmlocale.c: use _DATE_FMT if defined for TM_DEFAULT

08-06-06 misc/optget.c: handle sub-component about details
08-06-04 misc/optget.c: fix [-n?\n...\n] version parse
08-06-04 include/debug.h,misc/debug.c: merge with kpvdebug.h
08-06-02 features/ndbm: add to tame dbmlib.iffe replication
08-06-01 comp/resolvepath.c,realpath.c: fix resolvepath() return value type
08-05-22 tm/tmxdate.c: fix a few ordinal/last/this/next bugs
08-05-18 string/fmtre.c: fix omitted stack var initialization bug
08-05-14 regex/regcomp.c,regcoll.c: fix UTF-8 collation sequence logic
08-05-11 tm/tmxfmt.c: :NOOPTIMIZE:, otherwise %Q/../../ fails
08-05-01 tm/tmxdate.c: mon 1..12 => mon[13] -- doh
08-04-30 misc/glob.c,reegex/regcomp.c: ~(R) => ~(O) to avoid pcre clash
08-04-24 port/astconf.c: 'name = value' does assignment without system init
08-04-15 port/astconf.c: SC#N treated like 'SC(N)'
08-04-14 misc/optget.c: clean up nroff output
08-04-01
port/astconf.c: add RELEASE => /proc/version fallback
08-03-30 misc/optget.c: [-n]... to enable -number & +number options
08-03-06 misc/optget.c: ---* and +++* are now operands
08-03-06 misc/errorx.c: fix old error_info.translate workaround
08-02-05 regex/regcomp.c: allow REG_SHELL {,n}... => {0,n}...
08-02-27 misc/stk.c: top element during allocation relocated to top
08-02-18 include/ip6.h,string/strtoip6.c,fmtip6.c: add ipv6 addr support
08-02-14 regex/regsubexec.c: fix null match (tricky)
08-02-14 regex/regsubcomp.c: fix SRE to match ksh
08-02-11 comp/spawnveg.c: return proper errno on [v]fork() failure
08-02-11 tm/tmxdate.c,tmdata.c: handle more ISO 8601:2000 forms
08-02-02 regex/reglib.h: add REGMULTIREF to REG_COMP
08-02-02 string/strmatch.c: fix str="" pat="" sub values
08-01-31 comp/conf.sh,conf.tab: handle /bin/sh \ in read data, redir subshell
08-01-18 misc/magic.tab: amd-x68, 64-bit => x86-64
08-01-18 string/strnton.c,strntonll.c: add
07-12-10 string/strelapsed.c: "0"
is a valid elapsed time!
07-12-02 sfio/sfreserve.c: preserve SF_SHARE sfrd() via sfreserve(f,0,0)
07-11-21 comp/setlocale.c: add sjis_mbtowc() to work around [\~] translation
07-11-15 features/signal.c: RT(1) .. RT(MAX-1) => RTMIN+1 .. RTMAX-1
07-11-14 features/float: favor sscanf() due to gnu strto[l]d() nan bugs
07-10-31 regex/regcomp.c: fix REX_COLL_CLASS node allocation size
07-10-31 sfio/sfcvt.c: use signbit() if available
07-10-31 features/isoc99: _ISOC99_SOURCE tests
07-10-31 port/astmath.c: add -DN=8 for signbit()
07-10-31 sfio/sfstrtod.h: don't forget about -0.0
07-10-26 features/map.c: add { optopt optarg optind opterr }
07-10-26 features/stdio: add _filbuf => _ast__filbuf
07-10-26 comp/getsubopt.c: fix #undef that interfered with <ast_map.h>
07-10-26 regex/regcomp.c: fix bug that missed ')' in ~(F)...
07-10-12 port/astconf.c: fix CONF_ALLOC 16 bit overflow
07-10-12 misc/fts.c: fix fts_close() to free the handle -- doh

07-10-11 comp/setlocale.c: second and subsequent setlocale(*,"")
reverts to previous
07-10-11 path/pathprobe.c: add vfs ST_NOSUID check
07-10-10 comp/conf.tab: add a few more xpg6 deferrals
07-09-28 astsa: update to share with mainline src via _PACKAGE_astsa
07-09-25 sfio/sfgetr.c: no limit on string stream line size
07-09-25 sfio/sfextern.c: increase _Sfmaxr to 256*1024
07-09-18 misc/procopen.c: tighten up SIGCHLD logic between parent/child
07-09-18 misc/signal.c: unblock SIG_DFL after setting handler, sig<0 => don't unblock
07-09-13 misc/fs3d.c: no $LD_PRELOAD => no 3d and avoids invalid mount(2) call
07-09-11 vmalloc: vmstat(0,0)==1 => region in use, drop VM_primary|VM_secondary
07-09-05 misc/recstr.c: handle [lL] gobbled by strtol() -- ouch
07-08-17 path/pathprobe.c: handle '\r' in VERSION string
07-07-17 regex/regcache.c: regcache(0,n,0) extends cache to size n (no shrinking)
07-07-16 tm/tmdata.c: add 2005-12-31, drop 1999-12-31 (where did that come from?)
07-05-21 tm/tmxfmt.c,tmxscan.c: %F => %L (TM_DEFAULT); %F => %Y-%m-%d
07-05-15 sfio/sfvprintf.c:
%h? and SFFMT_SHORT => raw bytes
07-05-09 features/signal.c,features/siglist: use kill -l & strsignal()
07-04-25 misc/optctx.c: add for opt_info switching
07-04-24 misc/cmdarg.c,include/cmdarg.h: add CMD_CHECKED, CMD_SILENT
07-04-24 misc/procopen.c,include/proc.h: add PROC_CHECK
07-04-24 misc/procrun.c: add flags arg (current use PROC_ARGMOD)
07-04-24 misc/cmdarg.c,include/cmdarg.h: move from src/cmd/tw
07-04-20 port/(lclang.h|lc.c|mc.c|lclib.h|lcgen.c): separate lctab.c
07-04-20 comp/conf.sh: defer to systems without 'grep -q' -- sigh
07-04-20 comp/conf.sh: probe for LL integer constant initializer suffix
07-04-20 include/syslog.h: <namval.h> => <ast_namval.h> for win32
07-04-20 ast_namval.h: add as copy of include/namval.h for win32
07-04-19 comp/conf.tab: fix SVID SI entries to probe SI_* (not _SI_*)
07-04-13 tm/tmxdate.c,tm/tmzone.c: handle [-+]0000 UTC zone offset
07-04-11 sfio/sfvprintf.c: add %F, propagate SFFMT_UPPER
07-04-11 sfio/sfcvt.c: handle SFFMT_UPPER =>
nan/inf vs. NAN/INF
07-04-02 comp/conf.tab,comp/conf.sh: add C/POSIX <stdint.h> symbols
07-03-28 misc/optget.c: fix l10n --?-
07-03-25 features/common: fix { ast_std.h ast_map.h stdint.h } logic
07-03-21 error.h: move from error_info to (*_error_data_)
07-03-21 misc/error.c: add errorctx() for error_info switching
07-03-21 option.h: move from opt_info to (*_opt_data_)
07-03-19 regex/regdecomp.c: fix REX_ONECHAR escapes and add REX_KMP
07-03-11 tm/tmxscan.c,regex/regnexec.c: fix strict-alias transgressions
07-02-27 comp/conf.sh: handle native getconf invalid numeric values
07-02-21 comp/conf.sh,comp/conf.tab: handle SSIZE_MAX vs _POSIX_SSIZE_MAX
07-02-20 sfio/sfvprintf.c: handle SF_WCWIDTH justification
07-02-14 features/common: cover <stdint.h>, move to int_(bits)_t
07-02-14 include/int.h: drop
07-02-14 include/sfio.h: add SF_WCWIDTH

07-02-12 comp/conf.sh: fix CONF_LIMIT bug that missed ULONG_MAX etc.
07-02-12 comp/conf.tab: *LONGLONG* => *LLONG* to match posix
07-02-12 features/float:
LONGLONG => *LLONG* to match posix
07-02-12 port/astconf.c: handle CONF_LIMITS_DEF with no deferral
07-02-12 stdio/vasprintf.c: add trailing '\0' -- doh
07-02-04 string/fmtelapsed.c: fix naive multi month/year logic
07-02-02 misc/optget.c: add --??posix for getopts(1)/getopt(3)
07-01-26 string/chresc.c: use mbchar()
07-01-26 misc/optget.c: handle "o:-:" usage for old-style long options
07-01-22 sfio/sfdisc.c,sfpool.c: handle push on streams with pending peek
07-01-22 include/sfio.h: mv Sfieee_t to sfio/sfhdr.h
07-01-17 tm/tmxfmt.c: fix terminating nil logic which clobbered size-1
07-01-11 misc/stk.c: a 2 day marathon bug fix (can we release now dr ek?)
07-01-05 comp/spawnveg.c: posix_spawnattr_setflags(POSIX_SPAWN_SETPGROUP)
07-01-05 misc/error.c: fix multibyte vs. printable logic
07-01-01 comp/conf.sh: LC_ALL=C
06-12-26 tm/tmxdate.c: handle nn*.nnnn* == sec.ns
06-12-20 features/libpath.sh: generalize sol.* LIBPATH patterns
06-12-18 comp/setlocale.c: include ast_standards.h and ast_wchar.h
!
06-12-12 string/strperm.c: octal modes are absolute!
06-12-11 comp/conf.tab: always defer ARG_MAX
06-12-07 Makefile: fix conftab.c generation CCFLAGS to match build - doh
06-12-04 sfio/sfcvt.c: fix (int) vs. (long) cast mismatches
06-12-01 comp/conf.tab: add changes to cover solaris { bin xpg4 xpg6 }
06-12-01 regex/reginit.c: adjust { SRE KRE } escaped (){}*? inside [...]
06-12-01 sfio/sfcvt.c: add signbit/copysign tests
06-11-22 comp/spawnveg.c: fix _real_vfork logic to work with 3d
06-11-20 features/common: bias _ast_int8_t "long long" before "__int64"
06-11-20 string/strperm.c: fix X to work with all ops (not just +)
06-11-15 astconf.c,conf.tab: add CONF_DEFER_* for variable constants
06-11-11 port/astconf.c: validate path arg w.r.t. underlying calls
06-11-11 comp/conf.sh: fix S CONF_STANDARD bug, add D to defer to native
06-11-11 comp/conf.tab: add D to defer to native
06-11-01 include/vmalloc.h: avoid VM_FLAGS sys/v*.h clash
06-11-01 include/ast.h: add FMT_PARAM for fmtquote()
06-10-31
disc/sfdcseekable.c: add SFSK_DISCARD for seekable window control
06-10-31 comp/spawnveg.c,features/lib: handle posix_spawn exit status 127
06-10-30 features/lib: fix posix_spawn() fork() prototype conflicts
06-10-30 string/fmtscale.c: fix 1024 rounding bugs
06-10-27 disc/sfkeyprintf.c: handle 'i' (=='d') -- oops
06-10-26 sfio/sfvprintf.c: %#d => fmtscale(1000), %#i => fmtscale(1024)
06-10-26 features/map.c: _map_libc cleanup
06-10-26 features/fcntl: add to the circle of trust
06-10-26 features/sys: add <sys/socket.h> socklen_t
06-10-26 include/regex.h: handle include before <ast_map.h>

06-10-25 astconf "SHELL" => "SH" to avoid _POSIX_SHELL conflict
06-10-25 comp/conf.*: drop no-op duplicate conftab.c entries
06-10-18 string/fmtscale.c: 1000: n[.]n[n](kMGTPE), 1024: n[.]n[n](KMGTPE)i
06-10-11 ast_std.h: now implies <sys/stat.h> (did on most before anyway)
06-10-11 strtoi.h: ignore sign for 0, validate scale shift
06-10-11 strdup.c,vmstrdup.c: handle 0 arg
06-10-11 add sfstruse()/sfstropen()
error checks
06-10-10 misc/procopen.c: envv==environ => don't modify environ
06-10-10 misc/procclose.c: return valid exit(1) status
06-10-06 port/astconf.c,comp/conf.sh,comp/conf.tab: play nice with getconf(1)
06-10-01 comp/conf.tab: SHELL default checks { _CS_PATH } X { ksh ksh93 sh }
06-10-01 comp/conf.sh: export CONF_getconf to shell actions
06-10-01 comp/putenv.c: always enable setenv() for procopen()
06-10-01 misc/procopen.c: use pathshell() or astconf("SHELL",0,0) if PARANOID
06-10-01 path/pathshell.c: localize the shell path patterns and accept ksh93
06-09-28 Makefile: avoid ast <stdio.h> vix iffe -X ast -- doh
06-09-27 regex/regdecomp.c: add
06-09-26 regex/regcomp.c: handle KRE ~(...)<invalid-kre>
06-09-25 reorganize to avoid native header intercepts
06-09-15 uwin/crypt.c: _UWIN only!
06-09-14 Makefile: tweak the ast_common.h bootstrap again (finally?)
06-09-14 misc/optget.c: noncommercial => OPT_proprietary
06-09-12 string/strelapsed.c: fix multi-char qualifier
parse
06-09-12 string/strtoi.h: drop [cClLqQwW] multipliers
06-09-11 misc/optget.c: add numeric arg validity check
06-09-07 misc/optget.c,tm/tmfix.c: fix uninitialzed var refs
06-09-05 path/pathprobe.c: add version header verification
06-08-01 Makefile: handle iffe vs FEATURE/common vs ast_common.h
06-08-31 Makefile: add ast_map.h to the bootstrap list
06-08-30 misc/glob.c: fix ~(E)re bug that stripped ~(E) before regcomp
06-08-30 include/ast.h: add { integralof(x) pointerof(x) }
06-08-27 string/strelapsed.c: fix off-by-one (too little) parse bug
06-08-25 misc/optget.c: 0*<n>.* numeric option args => <n>.*
06-08-22 misc/glob.c: handle ~(...) pattern options
06-08-16 string/strelapsed.c: fix off-by-one (too far) parse bug
06-08-16 regex/regcomp.c: accept but ignore ~(N)
06-08-14 features/libpath.sh: add solaris LD_LIBRARY_PATH_64 check
06-08-05 sfio/sfpool.c: pool SF_READ|SF_WRITE loop fix
06-08-02 misc/fts.c: fix FTS_NOSTAT optimization to check for ..
06-07-28 include/glob.h: add
gl_extra for user globlist_t expansion
06-07-27 features/common: #include "ast_map.h"
06-07-26 comp/fnmatch.[ch]: allow <ast_map.h> to map fnmatch()
06-07-22 cdt: snarf from kpv
06-07-17 string/strperm.c: perm==-1 skips umask(1)
06-07-17 sfio/sfvprintf.c: handle format invalid mb seq

06-07-17 regex/regcomp.c: inline REG_SHELL => anchored, otherwise not
06-07-17 regex/regcomp.c: inline B|G:basic E:REG_EXTENDED F|L:REG_LITERAL
06-07-17 regex/regcomp.c: inline l:REG_LEFT r:REG_RIGHT
06-07-17 regex/regcomp.c: inline a:REG_LEFT|REG_RIGHT p:~REG_LENIENT
06-07-17 string/chresc.c: add \Uxxxxxxxx
06-07-17 sfio/sfstrtof.h: ignore thousands sep after decimal
06-07-17 string/tokline.c: splice() => spliceline() for bsd
06-06-27 features/float,sfio/sfcvt.c: fix Nan logic
06-06-27 port/astmath.c: fix long double isnan() test
06-06-27 features/map.c: _map_libc for std => _ast_std
06-06-25 string/strperm.c: handle posix = w.r.t. umask
06-06-19 port/mnt.c,features/fs: handle netbsd getmntent api change
06-06-18
regex/regstat.c: add REG_LITERAL check
06-06-11 cdt/dtview.c: update from kpv
06-05-31 sfio/sfhdr.h: fix _SFOPEN() typo
06-05-09 comp/conf.sh: add native getconf -a names to the mix
06-04-28 misc/optget.c: add solaris long option name compatibility
06-03-09 string/strmatch.c: add REG_ADVANCE => REG_* flags
06-02-14 comp/iconv.c: fix uwin iconv_list() /reg/ generator
06-02-10 port/astconf.c: relax standard prefix filter
06-02-08 sfrd.c,sfsync.c: lock logic bug fix
06-02-01 port/astlicense.c: add { parent incorporation }
06-01-26 port/astconf.c: fix { LIBPREFIX LIBSUFFIX } length
06-01-06 features/lib: change _UNIV_DEFAULT probe to use cross{...}
06-01-04 misc/stk.c: fix n**2 realloc behavior
06-01-01 include/sfio.h: export { _Sfi _Sfmaxr }
05-12-13 string/chresc.c: handle \C-X => control-X, \M- => ESC
05-11-22 regex/regcache.c: add, convert string/strmatch.c to regcache()
05-10-06 string/ccmap.c: update ebcdic-u to be idempotent
05-09-28 vmalloc: snarf from kpv; fixes large
block brk() thrashing
05-09-26 misc/magic.c,misc/magic.tab: handle latest vcodex header
05-09-12 misc/optget.c: reset opt_info.offset on error
string/strtoi.h: strton() '.' multiplier only if m>1
string/fmtesc.c: add unadvertized FMT_PARM for FMT_SHELL
05-09-09 string/fmtesc.c: fix FMT_SHELL logic w.r.t. [$`]
05-08-11 string/strerror.c: fix { sys_errlist sys_nerr } prototypes
05-08-03 sfio: snarf sfvaprints sfaprints
05-07-21 port/astconf.c: retain most recent synthesized lookup
05-07-20 sfio/sfsetbuf.c: default file io size now 64K on all systems
05-07-17 ccmap*: add microfocus cobol EBCDIC_U
05-06-29 regex/regcomp.c: fix the A & B inline flag logic
05-06-15 include/recfmt.h: add fs format flag to fmtrec()
05-06-14 error.c: add ERROR_OPTIONS { break count match }
05-06-07 features/stdio: drop FEATURE/limits to fix bootstrap circular dep
05-06-02 features/*,Makefile: drop vestigel iffeio.h bootstrap workaround
05-05-31 string/fmtbuf.c: unlock (spin) before each return -- doh

05-05-30
sfio/sfpkrd.c: work around macos 10.4 recv(MSG_PEEK) bug
05-05-27 regex: add REX_NEST (?%[S.][T.][OT])
magic.tab: ammend bsd db magic
05-05-23 regex: REX_NEST (?%[D.][E.][L.][Q.][oc]...)
05-05-21 regex: state.fold[] is now locale specific -- doh
05-05-19 regex: add REX_NEST (?%\\()<>[]""...) %(...) nested match
05-05-15 recfmt.h: add recstr() reclen() fmtrec()
05-05-13 optget.c: allow boolean options to take numeric values
05-05-12 recfmt.c: add to recfmt.h, adjust Recfmt_t encodings
05-04-30 sfio: add sfmaxr(), default 64K
05-04-22 comp/omitted.c: fix magic() logic for files < 512 bytes
05-04-20 cdt: snarf update from kpv; void* Dt_t.user added
misc/error.c: library => ERROR_LIBRARY
05-04-19 regex/regcomp.c: handle REG_SHELL [^...] == [!...]
05-04-11 tm/tmxscan.c: handle yyy.mm.dd[-+.]hh.mm.ss.nnnnnn
05-04-07 regex/regnexec.c: fix out of bounds boundary check -- ouch
features/align.c: add jmp_buf to the alignment mix (ia64)
vmalloc/vmhdr.h: add jmp_buf to the alignment mix
(ia64)
05-03-31 misc/optget.c: fix option { - _ } separator matching
05-03-30 misc/glob.c: eliminate superfluous GLOB_NOMATCH stat() calls
05-03-24 port/astwinsize.c: include <sys/ioctl.h> if possible
05-03-23 string/ccmap.c: add ebcdic-m mvs cobol table
05-03-11 comp/omitted.c: handle utime[s](const,const)
comp/conf.tab: fix linux PID_MAX probe
05-03-10 comp/setlocale.c: LC_* value "" => unset -- doh
misc/optget.c: reorder _PACKAGE_astsa code for msgcc
05-03-08 misc/optget.c: delete leading space in STYLE_nroff output
05-03-07 sfio/sfhdr.h: drop extern _sfdscan -- clashes with sfvscanf.c static
05-03-01 tm/tminit.c: add tmlocaltime() for tzset() getenv() override workaround
05-02-20 features/tvlib: tmsettimeofday only for systems that have settimeofday
features/float: fix mvs.s390 NaN tests
05-02-18 tm/tmxmake.c: fix <0 west of GMT bug that warped to 1800's -- wow
05-02-11 port/mnt.c: handle lynxos MOUNTED=/etc/fstab
05-02-08 features/float,sfio.h,sfcvt.c,sftable.c: add INF and
fix NAN
05-02-04 features/lib: add _std_strtol (for lynxos)
include/ast_std.h: add _std_strtol tests
comp/strtod.c: #define S2F_function strtod
misc/signal.c: fix ancient bsd SV_INTERRUPT vs. SV_ABORT clash
05-01-11 sfio/sfmove.c: try to seek(fr) when fw==0
comp/omitted.c: intercept utimes() too
comp/omitted.c: add DOSPATHVARS env var path value conversions
features/tvlib,tm/tvtouch.c: check for utimets()
misc/optget.c: handle '-' or '_' option word separators
sfio/_sfopen.c: allow stream mode changes after initialization
sfio: sync with kpv: SF_SYNCED fix for ksh input loss bug

05-01-09 tm/tmxfmt.c: fix %6N for n<100000000
05-01-08 regex/regcomp.c: conj() => con() to avoid C99 clash
05-01-05 tm/*: fix { %U %V %W } logic -- my head hurts
04-12-30 tm/tmxtime.c: fix tm_isdst<0 loop
04-12-23 vmalloc/vmbest.c: fix vmresize bug that didn't 0 new data
04-12-19 misc/optget.c: broaden - long option match
04-12-09 string/strtoi.h: fix terabyte 't' suffix math
  string/strmatch.c:
 flush cache on locale change
04-12-01 tm/tmsleep.c: add
  tv.h,tv*.c,tv.3: move from pax
  tmx.h,tmx*.c,tmx.3: add high resolution tm(3) counterparts
  features/lib: add *another* sgi linux.ia64 memccpy bug check
04-10-31 Makefile: __OBSOLETE__ now computed <6 months ago year>0101
  ccode.h,ccmapid.c: add ccmaplist(Ccmap_t*) iterator
  option.h,optesc.c: add 3rd arg, 1 => quote '?' too
  misc/magic.c: fix bug that terminated `string \0a' at \0
  misc/magic.c: handle vcodex() via decompose()
  misc/magic.tab: add vcodex magic
  features/stdio: handle _LARGEFILE64_SOURCE -- oops
  stdio/(fseek|ftell|fseeko|fsetpos|fgetpos|ftello).c: oops^2
04-10-28 string/swapop.c: size==-4 => size=4 and extend op=3 to op=7
  tm/tmfix.c: fix tm_mon<0 logic
04-10-22 tm/tmdate.c: handle 'final day feb 2004'
  port/astlicense.c: add query=all|id|${...}${...}
  port/astlicense.c: "free" => "mit"
  comp/omitted.c: revert to the open source license
  string/stropt.c: drop siz==0 => tab is hash table
  include/sfio.h:
 incorporate <sfstr.h>
  include/sfstr.h: drop
  disc/sfstrtmp.c: drop -- use sfstrbuf()
04-10-20 misc/magic.tab: update tar magic
04-10-18 ufc-crypt.h,crypt_util.c: drop GPL code
  crypt.c: add BSD code
  pathpath.c: disable { $0 $_ $PWD } related root search
04-10-01 normalize ident stamps
  port/astlicense.c: add type=cpl -- yeah
04-09-25 string/swapop.c: return op < size -- duh
04-09-23 comp/spawnveg.c: :NOOPTIMIZE: -- volatile sometimes ignored
04-09-21 comp/spawnveg.c: exec_errno_ptr is volatile -- duh
04-09-14 tm/tmscan.c: add %| alternation and %& => tmdate()
04-09-08 misc/optget.c: add :!value: omitted optional arg value
  misc/optget.c: fix --noNAME ambiguous option logic
04-08-26 string/strperm.c: add who^mode to propagate least restrictive up
  astmath.c: add { frexpl ldexpl } checks for ast.req
  port/astlicense.c: ignore first option if non-assignment
  include/ast_dir.h: move d_fileno map before struct defs -- duh

04-08-24 vmalloc/vmbest.c: add {VM_region} VMCHECK=+r
 for region segment checks
  misc/recfmt.c,include/recfmt.h: add
04-08-23 vmalloc/vmbest.c: add {VM_primary VM_secondary} VMCHECK=-s for primary
  features/common: punt to <stdarg.h> for unknown va_list
04-08-11 vmalloc: sync _UWIN libposix hooks
04-07-27 features/common,features/limits.c: ULL suffix for unsigned _ast_int8_t
04-07-22 include/ast.h,comp/eaccess.c: add eaccess() for effective access()
04-07-19 comp/open.c,sfio/_sfopen.c: { O_RDONLY O_WRONLY O_RDWR } are values
04-06-28 misc/error.c: check level after error_info.auxilliary
04-06-24 string/strmatch.c: strgrpmatch() match[] now variable size array
04-06-17 features/common: change _DLL null define to (the standard ast) 1
04-06-11 misc/optget.c: allow optional [-|+|--|++] optstr() option prefix
  misc/optget.c: reset optstr() state on 0 return
  misc/optget.c: text()=>textout() linux.ppc symbol hijack workaround
04-05-31 sfio/sfreserve.c: no side buffer if user buffer is large enough
04-05-27 string/fmtbuf.c: handle one
 concurrent buf > sizeof(buf)
04-05-24 regcomp.c: fix no-advance initialization
04-05-05 conf.tab,conf.sh: update to align with standards
  magic.tab: ms suffix update
04-05-04 port/lcgen.c: fix territory initialization
04-04-15 tm/tmdate.c,include/tm.h: fix specific and ordinal days
04-04-08 astconf: retain { HOSTTYPE LIBPATH LIBPREFIX LIBSUFFIX } strict vals
04-04-07 vmalloc/vmbest.c: fix alpha tiny block bug
  vmalloc/malloc.c: re-enable on alpha
04-03-30 tm/tminit.c: GMT => UCT only if tz.daylight not defined
04-03-25 vmalloc/malloc.c: _AST_std_malloc=1 for __alpha
  path/pathprobe.c: per-user probe dir => $HOME/.probe/$HOSTTYPE
04-03-23 regex/reglib.h: fix isw*() redefines
04-03-17 features/stdio: no __FILE override for __CYGWIN_ (sys/reent.h clash)
  sfio/sfhdr.h,sfio/sfsetbuf.c: lower sfmove() default buf size 4x
04-02-29 comp/omitted.c: move env trace after PATH fixup
  comp/omitted.c: cygwin spawn _P_DETACH => _P_NOWAIT+setpgid(pid,0)
  misc/optget.c: fix html mailto: match

 port/astlicense.c: add type=test for fixed 2001 date
  features/float: check local NaNQ first
  vmalloc/vmhdr.h: fix _vmextern_ vm_truncate return type
  misc/magic.tab: add elf s390 index=22
04-02-26 vmalloc: VMCHECK a:assertions c:arena-check w:warn-instead-of-abort
  sfio/sfvscanf.c: fix extf arg selection
04-02-24 features/dirent: set nodefine to avoid ast_std.h _typ_off64_t undef
  disc/sfkeyprintf.c: only case pattern must be ()[] balanced
04-02-14 include/sfio_t.h: add SF_DCDOWN, SFDCNEXT(), SFDCPREV()
04-02-13 string/strmatch.c: fix bug that didn't save one-time sub[] size
  vmalloc: -g: export VMCHECK=1 enable malloc/free checks
  vmalloc: -g: free(0) to check and disable malloc/free checks

vmalloc: -g: free(1) to check and enable malloc/free checks
04-02-11 Makefile: add :P=A: to conf and lcgen exec for cross-compile
regex: use MBSIZE() instead of mbsize() to grab 1 char on err
vmalloc/vmbest.c: updated to do more comprehensive DEBUG tests
04-02-04 sfio/sfraise.c: add
sfraise(0,a,b) to iterate over all streams
04-02-01 vmalloc/vmbest.c: _BLD_DEBUG free(0) checks the arena
04-01-31 features/vmalloc: fix typo that missed _mmap_zero
04-01-23 string/strerror.c: handle real strerror() return value overwrite
04-01-11 path/pathpath.c: fix size vs. sizeof(buf) typo
03-12-22 misc/magic.tab: dos EXE tweaks
03-12-05 vmalloc: sync with kpv, adding exceptf announcements
03-12-04 port/astlicense.c: fix expand() loop sentinel bug
03-12-02 include/ast.h: mbchar() advances by 1 on mbtowc() error
misc/fts.c: increase MINNAME to 32
03-11-21 vmalloc/vmbest.c: export VMCHECK=1 to enable $(CC.DEBUG) vmcheck()
vmalloc/vmbest.c: export VMCHECK=2 to disable KPVCOMPACT
misc/magic.c: add { cobol copybook pl1 } and suffix preference
03-11-12 features/stdio: drop cuserid,getopt for SUSV3
03-11-11 vmalloc/*: merge kpv update -- this should stomp the compaction bug
03-10-23 comp/iconv.c: fix sfreserve lock fallback
03-10-20 sfio/_sfopen.c: add to allow user sfopen()
intercept
03-10-17 regnexec.c: fix exec time REG_LEFT, \x.... => wctomb()
03-10-12 string/strtoi.h: fix strton '.' overconsumption
03-10-12 comp/iconv.c: identity is always (iconv_t)0
03-10-09 string/fmtesc.c: fix FMT_SHELL to check for all shell magic chars
03-10-01 port/astlicense.c: unknown authors copied verbatim (instead of ignored)
03-09-30 string/chresc.c: handle \u..., \x... consumes all trailing hex digits
string/stresc.c: \u... and \x... > UCHAR_MAX => wctomb()
03-09-29 fnv.h: add
03-09-23 modedata.c: table is for external modes, so no arch specific hacks
optget.c: fix option prefix match translation bug
optget.c: add `<length> <name>=<value>\n' to optstr()
features/lib: add memcmp() test for sgi optimzation bug
03-09-22 regex.h,regcomp.c: add regncomp()
regclass.c: fix for loop dangling ; in regaddclass()
03-09-20 sftable.c,sfvprintf.c: fix SFFMT_CHAR handling to match extf api
03-09-19 sfmode.c: update release to kpv's
03-09-17 regcomp.c: add pedantic backref error
checks
03-09-16 regnexec.c: exec time REG_LEFT => don't advance past initial position
regclass.c: add regaddclass() for user defined [:class:]
regexec.h: REG_VERSION_N2X, add redisc_t {re_map} ccode map
regstat.c: add regstat_t
03-09-11 optget.c: --n:=v sets opt_info.assign=':', opt_info.number enabled
03-09-09 disc/sfkeyprintf.c: *pn on lookup is arg separator; lookup "" arg too
03-09-05 optget.c: [f:l*?] preserves user long name past '*' in opt_info.name[]

03-09-03 sfstr.h: add sfstrpend() for #pending bytes in read buffer
03-08-25 regex: add REG_FIRST, optimize bm
features/lib: _AST_no_spawnveg==1 falls back to fork/exec
03-08-22 features/stdio,stdio/asprintf.c,stdio/vasprintf.c: add
03-08-21 path/pathnative.c,path/pathposix.c: interix updates
features/botched: add cygwin _stat => _stat64
03-08-15 include/ast.h: map out bsd strmode()
features/common: add interix _ast_intmax_t workarounds
misc/fs3d.c: 3d mount test now uses "" instead of NiL (or cygwin dumps)
03-08-11
string/fmtesc.c: fix optional quoting checks
tm/tmdate.c: fix > 1 year of seconds arithmetic
tm/tmfix.c: fix leap year adjustments
03-08-01 features/lib: beef up sock_peek test for interix
03-07-29 features/float: add -lm to frexp... test
Makefile: fix -lm astmath test sense
03-07-26 features/mem.c: favor _mem_sbrk over _mem_mmap_*
03-07-22 vmalloc/vmbest.c: fall back to sbrk() if mmap() fails
features/mem.c: _mem_sbrk means sbrk() and brk() work
03-07-17 regex/regcomp.c: fix bug that treated KRE X{n,m} like {n,m}(X)
misc/magic.c: check MAGIC_VERBOSE for all load() messages
03-07-14 misc/optget.c: handle [...]{[...]\f...\f...}
03-06-21 misc/sigcrit.c: block SIGCHLD if _lib_sigprocmask || _lib_sigsetmask
comp/spawnveg.c,sfio/sfmode.c: use sigcritical() SIG_REG_* macros
comp/spawnveg.c: drop ENOEXEC logic
vmalloc/*: snarf kpv KPVCOMPACT() fix
vmalloc/vmbest.c: export VMCHECK=2 to disable KPVCOMPACT (just in case)
string/strdup.c: drop __strdup() etc. intercepts -- malloc
gets it
features/mem: define _mem_method and _mem_* possible values
vmalloc/malloc.c: _AST_mem_method==_mem_* to force mem get method
sfio/sfputr.c: __ia64 memccpy is bogus -- how many tries do they get?
path/pathshell.c: verify abs path and access(path,X_OK) -- duh
vmalloc/vmhdr.h: add private _Vmessage() for non-sfio ASSERT()
port/astconf.c: fix bug that always returned the minmax value
03-06-11 comp/*.c: reorder macro hding for mvs.390 and <ast_map.h>
features/vmalloc: add _lib_brk and _lib_sbrk verification
include/ast_std.h,etc.: add _map_malloc for malloc => _ast_malloc
comp/conf.sh: fix SI_* and *_SI_* macro redefs
ast.h: VMDEBUG or _BLD_DEBUG enable <vmalloc.h> and VMFL tracing
vmalloc/vmtrace.c: _PACKAGE_ast __FUNCTION__ is a string
vmalloc/vmtrace.c: set trace file fd FD_CLOEXEC
vmalloc/vmbest.c: set /dev/zero mmap fd FD_CLOEXEC
features/mmap: fix ancient read() vs. mmap() time arithmetic typo
vmalloc/malloc.c: _AST_std_malloc==1 to force
standard malloc
03-06-09 comp/omitted.c: add _imp__FUNCTION sybols for __CYGWIN__ static link
vmalloc/vmbest.c: handle systems with sbrk() but no brk()

03-06-04 port/astconf.c: drop non-standard diagnostics
03-06-03 comp/conf.sh: rework symbol collision logic
03-05-30 conf.tab,conf.sh,astconf.c: add <sys/systeminfo.h> sysinfo() SI_*
03-05-29 ccode.h: rework for extensibility, drop obsolete mematoe(), memetoa()
03-05-28 regex/*: recode to use isw*() directly when needed, is*() otherwise
03-05-27 features/vmalloc: fix _std_malloc test
03-05-25 misc/optget.c: fix optstr() ???* internal options
03-05-24 misc/optget.c: fix (ancient) argv null dereference
03-05-23 comp/getcwd.c: don't intercept on _WINIX -- unreliable st_ino
03-05-22 sfio/sfsprintf.c: n<0 => don't append '\0'
03-05-18 misc/fts.c: re-stat FTS_DP to update nlink/times
  misc/fts.c: add FTSENT.stack to eliminate getlist() recursion
  regex/ucs_names.h: use "..." catenation to placate some cc's
03-05-11 string/strtoi.h: handle
 "-" "+" "0x" "11#"
03-05-09 vmalloc/vmbest.c: large memory allocation tweaks
03-05-06 misc/optget.c: fix getopt_long() prefix==1 bug that missed short flags
03-04-27 comp/system.c: handle <ast_map.h>
03-04-24 vmalloc/vmmopen.c: drop dup <unistd.h>
03-04-21 tm/tmdate.c: fix next hour/min logic
03-04-15 vmalloc/malloc.c: intercept __malloc() along with __libc_malloc()
  string/strdup.c: intercept __strdup() along with __libc_strdup()
  features/mmap: consolidate from features/(lib|sfio|vmalloc)
  add _NO_MMAP==1 to disable all mmap()/munmap() calls
  path/pathposix.c: add
03-04-14 comp/setlocale.c: fix debug_mbtowc() return value for *s==0 || n < 1
  comp/iconv.c: fix error return errno values
03-04-11 misc/stk.c: fix stkgrow() realloc bug
03-04-05 string/tok.c: support readonly single token input strings
  disc/sfdcdio.c: fix F_DIOINFO and FDIRECT #ifdef's
  include/ast_std.h: allow _LARGEFILE64_SOURCE on __hppa
  features/common: fix `tst _foo_' => `tst foo_' typo
  features/float: fix
 `tst _foo_' => `tst foo_' typo
  features/float: add FLTMAX_(UINTMAX_MAX,INTMAX_MAX,INTMAX_MIN)
  comp/omitted.c: fix pathconf => _pathconf => _ast_pathconf loop
03-04-03 features/float: add _ast_no_um2fm: no usinged intmax => floatmax cast
  vmalloc/vmbest.c: add getenv("VMCHECK") to initialize Vmcheck
03-03-28 include/ast_dir.h: add D_TYPE; { D_FILENO D_TYPE } must be #ifdef'd
  misc/fts.c|getcwd.c|glob.c,preroot/getpreroot.c: add D_FILENO #ifdef's
  Makefile: make sure _BLD_ast is defined for all compiles
03-03-27 ast_vfork.h: generate from features/vfork to pick up headers/pragmas
03-03-25 comp/omitted.c: drop free() of live environ
  path/pathshell.c: allow trailing .exe -- pox on that
  string/strtoi.h: fix bug leading 3 digits before thousands sep bug
  string/(fmt|str)[gu]id.c: we know root when we see it
03-03-24 misc/optget.c: handle : and ? in := default value
03-03-21 ast_std.h: drop all spawn*() but spawnveg()

obsolete/spawn.c: add for dropped spawn*()
features/lib:
_use_spawnveg if spawnveg() is a win over fork()/exec()
features/lib: drop NutForkExecve() and _map_spawnve
features/lib: fix memccpy test to clean up /tmp droppings
comp/spawnveg.c: call posix_spawn() if implemented
comp/omitted.c: add spawnve() intercept
comp/getoptl.c: set getopt_long() optind even if no options
tm/tmfmt.c: add %Q<delim>recent<delim>distant<delim>
misc/optget.c: fix trailing '*' for option and option args
sfio/sfmode.c: getenv("_AST_SFIO_OPTIONS") [,]SF_LINE[,] for fd {0,1,2}
vmalloc/*: kpv sync for uwin build independent of libast
03-03-18 port/astconf.c: switch to dynamic string values (saves 7K data/bss)
string/strmatch.c: switch to dynamic regex cache (saves 3K data/bss)
regex/regcoll.c,ucs_names.h: initialize rw tables from smaller ro data
features/lib: add vfork test for passing SIG_IGN across exec
features/lib: add spawn test for passing SIG_IGN across spawn
03-03-17 comp/omitted.c: unlink() renames to .deleted dir in case file open

sfio/sfpopen.c: handle mode "" for spawn with no pipe
features/float,comp/frexp.c,comp/frexpl.c: add pow2() table alternative
03-03-12 features/lib: fix linux.ia64 memccpy() tests -- now its their turn
features/vmalloc: fix /dev/zero test
features/align: _ast_intmax_t and _ast_fltmax_t join the union
misc/stk.c: fix struct frame size to align data
disc/sfdcdos.c: change sfslen() => sfvalue(f)
03-03-10 misc/optget.c: handle [f\f:x:lll\f?ddd]
03-03-07 port/astconf.c: uninitialized CONFORMANCE + POSIXLY_CORRECT => standard
03-03-05 comp/omitted.c: make sure at least /bin is in PATH to find cygwin dlls
03-03-02 path/pathshell.c: write access to /bin is effectively root
03-02-28 features/float: add (FLT|DBL|LDBL)_U?(LONG|LONGLONG|INTMAX)_(MIN|MAX)
03-02-25 features/lib: change vfork() test to use _exit() instead of exit()
03-02-23 include/error.h: update ERROR_VERSION for error_info.number space
03-02-22 comp/conf.sh: wrap ksh check in eval to avoid premature exit
03-02-21 misc/fts.c:
verify chdir(..) to avoid malicious dir rename()
03-02-19 string/strtoip4.c: isspace() instead of ' '||'\t'
03-02-17 regex/regcomp.c: fix stats.l REX_REP logic that botched REX_BM
03-02-13 string/base64.c: handle catenated encodings
03-02-11 features/libpath.sh: change LIBPATH to <dir>[:<env>[:<pat>]][,...]
03-02-07 path/pathfind.c: allow "/dev/null" to be PATH_REGULAR
03-02-06 include/ast.h,fmtquote.c: add FMT_ALWAYS|FMT_ESCAPED|FMT_SHELL|FMT_WIDE
03-02-05 tm/tmdate.c,tm/tmword.c,string/strelapsed.c: '_' treated like ' '
03-02-01 string/strelapsed.c: handle ps style [day-][hour:]min:sec
03-01-31 port/astlicense.c: fix author=* match
03-01-30 include/tm.h: add tmisleapyear() macro
03-01-29 comp/getopt.h,comp/getoptl.c: add gnu getopt_long(), getopt_long_only()
include/ast_getopt.h: for non-gnu part of comp/getopt.h

include/ast_std.h: include <ast_getopt.h> instead of <getopt.h>
03-01-28 ast.h,string/base64.c: add base64encode() and base64decode()
path/pathfind.c: verify S_ISREG()
03-01-24
path/pathexists.c: fix abs dir bug and deal with case ignorance
03-01-23 path/pathpath.c: honor PATH_ABSOLUTE for the easy case too
03-01-22 path/pathprobe.c: fix search to find both the probe script and command
03-01-17 misc/magic.tab: application/zip => appplication/(gzip|pzip|zip)
03-01-14 misc/optget.c: change href="" to href="."
03-01-10 include/ast_std.h: strtold() import hackery for static __CYGWIN__
03-01-03 include/regex.h,regex/regcomp.h: add REG_SHELL_GROUP
include/ast.h,string/strmatch.c: add STR_GROUP for REG_SHELL_GROUP
02-12-15 include/error.h: errorcontext => Error_context_s (compatible til 2004)
02-12-06 misc/sigdata.c: add NoF(sigdadata) -- why nmake was uninterruptable!
02-12-03 comp/omitted.c,features/omitted: handle cygwin alarm() return botch
02-11-27 misc/swapop.c: op=3,size=4 => op=7
string/strlcat.c,strlcpy.c: fix uwin decl clash
02-11-26 sfio/sfvprintf.c: fix sfsprintf() '\0' termination bug
02-11-22 misc/glob.c: move static struniq() to
libast extern
string/fmtversion.c,include/ast.h: add fmtversion
02-11-18 string/strncopy.c: add
misc/magic.tab: list size for magicid.h magic
02-11-14 sfio/sfvprintf.c: add %#c for C escapes
include/error.h: add ERROR_NOTIFY context flag for builtin commands
02-11-11 string/strtoi.h: add S2I_size for strnto*() size_t 2nd arg
sfio/sfstrtof.h: add S2I_size for strnto*() size_t 2nd arg
comp/putenv.c: add setenv() and unsetenv() wrappers for setenviron()
02-10-31 path/pathfind.c: add dir of including file to the pathinclude() list
misc/optesc.c: add
02-10-30 string/strtoip4.c: set next char pointer even on error
02-10-29 comp/resolvepath.c: add (size_t version of realpath())
misc/mime.c: fix mimehead() to ignore null content values
02-10-28 misc/glob.c: add GLOB_STARSTAR for /**/ and GLOB_NOTDIR optimization
02-10-27 string/struniq.c: add
02-10-23 features/common: fix off-by-one loop check
02-10-18 include/ast_std.h: avoid off_t,ftruncate,lseek,truncate redefinitions
02-10-17
misc/mime.c: handle type/* match, fix bogus header parse
02-10-04 sfio/sfstrtof.h: S2F_static <0:export =0:private >0:static
02-10-02 features/common: don't define _WIN32; define _WINIX => unix on windows
features/tty: finally stomp the bsd _POSIX_VDISABLE redefinition
misc/fastfind.c: add more specific findwrite() error messages
comp/omitted.c: fix cygwin utime() to update st_ctime
comp/strtol.c,strtoul.c: __CYGWIN__ static link workaround XXX
string/fmtls.c,fmttime.c: tmform() => tmfmt()
02-09-22 port/astconf.c: return values in fmtbuf() buffer instead of stack
port/mnt.c: don't set MNT_REMOTE for win32 ?:* paths

sfio/sfvscanf.c: _sfdscan() is library global (not static)
02-09-21 path/pathkey.c: add tool arg for mamake compatible hash
features/fcntl.c: handle iffe _hdr_lcl_* => _lcl_* change
02-09-15 comp/conf.sh: fix enum vs. macro test
cdt: kpv sync
02-09-11 ast.h,features/common: move _WIN32 macro init to features/common
features/common: enable __EXTERN__ and
__DEFINE__ for _WIN32&!_UWIN
features/float: add -lm to _ast_*_nan_init tests
vmalloc: kpv sync with vmresizef => vmgetmem
features/iconv: must have both <iconv.h> and iconv_open()!
features/vmalloc: alloca test must compile *and* link
sfio/sfvscanf.c,sfstrtof.h: add flag arg to char get, fix NaN loop
02-09-10 vmalloc/vmhdr.h: enable getpagesize() and sbrk() prototypes
features/fcntl.c: enable mmap64() prototype
include/ast_windows.h: windows.h wrapper with ast namespace workarounds
02-09-07 misc/mime.c: fix quoted value parse bug that ate the whole line
02-09-05 features/vmalloc: add free() to _std_malloc test
include/ast.h: NoF(x) now defines _DATA_x for !_BLD_DLL too
tm/tmlocale.c: { C POSIX en } == unix dadgummit
02-08-29 path/pathfind.c: initialize Dir_t.next=0
02-08-28 uwin/rint.c: update
features/libpath.sh: "bin" is now the default value
02-08-22 vmtrace.h: add for debugging
02-08-20 misc/magic.c: convert to use <cdt.h>
vmalloc/vmresizef.c: add for generic
discipline resizef default
string/strelapsed.c: allow long time component names
02-08-19 misc/optget.c: add `.fp 5 CW' to --nroff output
string/(fmtfs|fmtuid|fmtgid|strgid|struid).c: convert to use <cdt.h>
include/dt.h,cdt/dtnew.c: add for dtopen() in specific vm region
02-08-13 comp/omitted.c: fix bzero logic for e.g. unixware.i386
include/ast.h: add fmtbase->fmtbasell; swap in 2003-09-01
02-08-12 regex/regnexec.c: fix REG_MINIMAL REX_DOT mb bug
02-08-08 features/iconv: <ast_common.h> instead of <sys/types.h> <ast_common.h>
02-08-07 regex/regcomp.c: recognize anchors in BRE subexpressions
02-08-06 comp/iconv.c: handle win32 cpNNNN == windows-NNNN aliases
02-08-05 cdt/*: sync with kpv src
02-08-02 features/iconv: include sys/types.h for ast_types.h
02-08-01 misc/magic.c: magic file "." names the default
misc/magic.c: handle addr type (from irix string)
features/lib: move malloc tests to features/vmalloc
features/vmalloc: snarf tests from features/lib
vmalloc/*: sync with
kpv src
comp/libc.c: dropped -- __libc_* intercepts moved to vmalloc/malloc.c
02-07-30 features/lib: handle __libc_malloc() in _std_malloc test
vmalloc/malloc.c: add gnu pvalloc()

features/vmalloc: fix alloca check
02-07-29 features/limits.c: handle netbsd guards
02-07-27 sfio/sfpoll.c: handle rw pipes
02-07-25 features/iconv: include ast_types.h for size_t in ast_iconv.h
02-07-18 apply LARGEFILE64 header prototype clash patches
misc/optget.c: __EXTERN__ _opt_info_ instead of opt_info
02-07-17 ast_std.h: memzero() now defaults to memset() instead of bzero()
02-07-16 ast_std.h: add ast.env_serial
misc/setenviron.c: increment ast.env_serial
include/tm.h: tmset() now calls tminit() directly
tm/tminit.c: check ast.env_serial for env change
tm/tmfix.c: speed up for large values of tm_mday
02-07-15 comp/fnmatch.c: fix memory leak caused by missing regfree()
comp/strstr.c: fix broken interpretation and implementation
comp/iconv.c: intercept (but no-op) null to and from
buffer pointers
02-06-27 ast_std.h: map _sysconf => _ast_sysconf for sun
02-06-26 cdt,sfio,vmalloc: kpv sync -- is this ever easy?
02-06-24 sfio: kpv sync, vfwscanf(),fputw() fix (wcslen(x)*sizeof(wchar_t)!!)
misc/fts.c: fix symlink chdir() optimzation bug
02-06-11 sfio/sfwrite.c: string to file fix
Makefile: __OBSOLETE__==20020101
02-06-01 regex/regcomp.c: REG_DELIMITED now consumes the delimiter
02-05-31 regex/reglib.h,regcomp.c,regnexec.c: null subexpression fixes
02-05-24 misc/fts.c: disable dir link counts in 3d
misc/magic.c: fix "*(mkfile)" sh pattern to "*@(mkfile)"
02-05-20 regex.h,regex/regsubcomp.c,regex/regsubexec.c: add
regex/regsub.c: deprecate
02-05-16 tm/tmfix.c: fix '60+n min/sec ago' bug for n min/sec after the hour
02-05-14 regex/regsub.c: fix (^|x) null match early termination bug
02-05-13 dir/dirlib.h: drop errant extern==__EXPORT__
features/uwin: add uwin lib tests
uwin/*.c: check features/uwin for stubs
features/float: add nan representation generation

sfio/sftable.h: used _ast_*_nan_init for huge values
02-05-09 misc/fts.c: fix virtual top to force ``child'' stat()
features/common: define va_copy() only if not in <stdarg.h>
02-05-01 string/strtoip4.c: cisco inverted quad mask must have 4 parts
02-04-30 misc/magic.tab: fix pzip version check
02-04-19 string/strtoip4.c: handle cisco inverted quad mask n.n.n.n/i.i.i.i
02-04-18 misc/fts.c: add chdir() verification stat() optimizations
path/pathkey.c: check PROBE_ATTRIBUTES for list of vars
02-04-12 port/astlicense.c: type=open tweak, fix author list spacing
02-04-11 regex/regcomp.c: check for pattern number overflow
02-04-05 tm/tmfmt.c: add %u
02-04-04 sfkeyprintf.c: fix %c numeric value
path/pathpath.c: check plain path first -- duh

02-04-03 misc/fts.c: fix (FTS_PHYSICAL|FTS_NOSTAT) stat optimizations
ftwalk.c: only clear FTW_DELAY if FTW_CHILDREN
ftwalk.h: add FTW_NSOK for FTW_DELAY
02-03-29 ast.h: drop strerror() prototype -- already in <ast_std.h>
features/stdio: check
for _SFIO_H redundant _Sfstd* declarations
02-03-26 misc/glob.c: fix GLOB_LIST gl_flags values
02-03-24 port/mnt.c: update bsd fstype name and mount option logic
02-03-23 Makefile: add ast_wchar.h to the .check.hdr list (for mamake)
02-03-17 features/stdio: hack around g++ 3.* clashes
Makefile: add ast_nl_types.h to the .check.hdr list (for mamake)
string/strtoip4.c: fix validity check bug that only checked last part
02-03-14 misc/optget.c: fix --keys to not expand inline \f...\f
02-03-12 port/astlicense.c: add type=free
path/pathaccess.c: sibling ".." search ignores relative dirs
sfio/sfvscanf.c: sfstrtof get() must return 0 on eof
02-03-11 path/pathexists.c: check path by pairs checking {ENOTDIR,ENOENT}
02-02-14 features/float: copy local min/max macros to avoid printf roundoff
features/wchar: include <ast_common.h>, not <ast_std.h>
misc/magic.c: match[]=>matches[] to fix K&R match() macro conflict
include/vmalloc.h: include <stdlib.h> for !_PACKAGE_ast
uwin/mini.sym:
add sprintf (now required by features/common)
regex/regnexec.c: truncate wide chars for <ctype.h> functions
Makefile: fix MAM ast_common.h sequencing bug by making it first
cdt/dthash.c: fix DT_DELETE memory leak (DT_DETACH typo)
cdt/dthash.c: fix DT_DELETE double free (dt->data->here typo)
regex/regcomp.c: fix recomb() to reject RE with backref
features/iffeio: explicitly generate stdio.lcl
stdio: add {fcloseall,f(get|put)s_unlocked,fmemopen,getdelim,getline}
tmmake,tmtime: allow negative time_t if native localtime/gmtime do
tmdate: allow years before 1969
fmtfmt: add
include/ast.h: add { PATH_TOUCH_CREATE PATH_TOUCH_VERBATIM }
Makefile: add std/*.h for std header iffe overrides
comp/iconv.c: fix non-C win32 sfreserve() loop
02-02-11 features/common: separate long long / long double tests
features/common: verify printf handles long long / long double
02-02-02 include/ast_std.h,sfio/sfhdr.h: drop _hdr_locale tests -- always on now
include/ast_std.h:
trust _UWIN <unistd.h>
02-01-31 port/mnt.c: add aix options field
02-01-30 comp/strstr.c: add for ancient s5
stdio/_flsbuf.c: only on systems that transfer to native (e.g., uwin)
string/strtoi.h: cat min/max error return values
02-01-28 features/tty: add cf[gs]et[io]speed macros for <termio.h>
comp/rename.c: punt to (ancient) /usr/lib/mv_dir on EISDIR
02-01-24 sigcrit.c: fix SIGCLD!=SIGCHLD interrupt loop

sfvprintf.c: convert fast io macros to functions for uts.390 cc
string/strtoi.h: drop #pragma prototyped for standalone sfio
sfdcsubstr.c: rename from sfdcsubstream.c for 14 char fs
02-01-22 execlp,execvp,execvpe,spawnlp,spawnvp,spawnvpe: fix __EXPORT__
spawnlp,spawnve,spawnvp,spawnvpe: handle ms mode arg -- barf
sftable.c: ifdef hacks for _WIN32&_ALPHA_ fp exception
_stdfun.c: add _UWIN&_ALPHA_ iob map
02-01-18 sfio/sfstrtof.h: drop #pragma prototyped for standalone sfio
02-01-17 features/hdr: don't include <stddef.h> after it doesn't check out!
02-01-16 misc/magic.c:
add version type for YYYYMMDD or [a.][b.]c.d
misc/magic.c: recode mime %s parse -- sensible and no buffer overflow
02-01-15 misc/magic.tab,magicid.h: add generic binary magic number and header
02-01-12 tm/tmlocale.c: override win32 default date for {C,POSIX,en} locales
comp/omitted.c: fix cygwin workaround logic bugs
02-01-09 stdio/fseeko.c,ftello.c: add from UNIX98
02-01-08 comp/conf.sh: use $cc instead of cc
02-01-07 string/strlcat.c,string/strlcpy.c: add bsd api
01-12-18 comp/conf.tab: fix LFS_CFLAGS default for sun _CS_LFS_CFLAGS botch
features/common: add hdr stdarg test
tm/tmdate.c: handle YYYY/MM/DD
01-12-10 misc/magic.tab: add generic 0x00010203 binary magic
01-12-03 path/pathprobe.c: return HOME relative path if readonly/non-suid fs
01-11-30 misc/optget.c: add simple cache for repeat offenders (like ksh read)
sfio/sfhdr.h: preserve errno across SFMMSEQON-SFMMSEQOFF
01-11-29 magic.tab: fix GIF version number listing
01-11-28 string/fmtbase.c: p!=0 => base always included
in output
01-11-26 misc/fts.c: empty path is an error
01-11-14 misc/optget.c: fix --?+SECTION queries to include paragraphs
01-11-20 regex/regnexec.c: fix REG_MINIMAL character class match bug
01-11-19 features/lib: retain _lib_confstr for all solaris releases
01-11-16 comp/setlocale.c: fix !_lib_setlocale typo
01-10-31 regex/ucs_names.h: add string catenation to keep line length low
misc/fastfind.c: handle gnu slocate db read
misc/optget.c: add --?+SECTION queries
comp/fnmatch.h: add FNM_NOSYS
01-10-30 tm/tmdate.c: fix cron specs when both wday and mday are specified
01-10-20 misc/glob.c: fix bug that called \ trim() twice on same path
misc/glob.c: fix \ trim() bug that restored / to wrong position
string/fmtre.c: fix { ^ . $ } translations
misc/optget.c: use original string if translation fails -- duh
sfio/sfhdr.h: assume <errno.h> assigns proper atttibutes to errno
comp/regcmp.c: __ia64 workaround fixed by proper CC.DLL probe
comp/getdate.c: __ia64 workaround
fixed by proper CC.DLL probe
features/lib: add lib getdate
01-10-18 features/lib: check for strtod static link collision

features/float: add another signed cast for old bsd cc
features/wchar: add <stdlib.h> <stdio.h> before <wchar.h> for old bsd
01-10-17 sfio/sfcvt.c: limit max precision to { FLT_DIG DBL_DIG LDBL_DIG }
sfio/sfcvt.c: fix %[aA] format to always have leading 0[xX]1.
sfio/sfvprintf.c: handle %C %lc %S %ls for wchar_t args
sfio/sfvscanf.c: handle %C %lc %S %ls for wchar_t args
string/fmtmode.c: fix bug that omitted trailing '\0'
01-10-12 misc/optget.c: . => \&. for --??nroff
comp/wc.c: fix mbstate_t initialization typo
features/float: fix max integer / float loop termiation
features/float: fix LDBL_UINTMAX_MAX typo that did DBL_UINTMAX_MAX
01-10-11 include/sfio.h: fix _Sfstd* import/export
features/common: fix _UWIN __DYNAMIC__() definition
01-10-06 features/fcntl.c: { O_BINARY O_TEXT } default to 0
features/omitted: add for comp/omitted.c
sfio/sfopen.c:
O_BINARY default for _WIN32&&!_UWIN
01-10-05 misc/glob.c: fix `\(x/*' GLOB_NOMATCH bug that returned `(x'
misc/optget.c: fix localization lookup that didn't drop doubled : ?]
01-10-04 comp/setlocale.c: handle sizeof(wchar_t)!=4 in debug locale
comp/conf.sh: handle sytems where _SC_* is both an enum and a macro
01-09-25 astconf: add LIBPREFIX
01-09-20 features/common: add __DYNAMIC__() for dll externs
01-09-19 cdt: kpv update
mb*() macros: update for ksh conversion, extend debug locale
01-09-16 tm/tmlocale.c: add compiled in defaults for C locale
misc/glob.c: add gl_nextdir callback for GLOB_COMPLETE
01-08-14 clarify _WIN32 vs. _UWIN vs. __CYGWIN__
tminit: fix standard & daylight initialization
01-09-11 pathnative.c: add for native fs representation
regex.h: fix regerror_t prototype
01-09-04 regex/regnexec.c: fix REG_ICASE for multi-char collating elements
tm/tmlocale.c: fix old ascii LC_TIME load
locale*: add new LC_* categories
comp/omitted.c: add CYGWIN workarounds

features/lib: add CYGWIN workarounds
01-08-11 features/common: some compilers have long long but no LL constants!
features/lib: add mmap64 implementation test (for linux.s390)
regex/regcomp.c: fix \ in [...] parse
setlocale: retain user locale spelling in setlocale() return value
features/limits.c: don't include ./limits.h -- duh
fmtesc: don't escape multibyte chars
tm/tmlocale.c: fix native C locale default
01-08-08 features/float: some compilers (msdev) forget long long vs. double
01-07-31 misc/optget.c: handle suboptions
01-07-27 cdt.h: add DTDISC()
01-07-17 iffeio.h: move to include for stdio bootstrap iffe workarounds

01-06-25 regex: perl extensions added and tested
01-06-21 misc/error: add ERROR_OPTIONS=prefix=string for message processing
01-06-15 string/chresc: only 2 hex digits max for \xxx
 regex/regsub: handle REG_SHELL ~(nnn) rhs backrefs
01-06-11 regex: handle embedded \0 in pattern and subject string
 regex: add (?nnn) for backrefs > 9
 comp/fnmatch:
add FNM_LEADING_DIR for gnu compatibility
 features/float: _ast_flt_unsigned_max_t for bsd.i386 omission
01-06-06 misc/optget.c: add o option for old ps,ar,tar with optional leading -
 regex/regcomp.c: REG_LENIENT|REG_DELIMITED \<newline> => <newline>
 regex/regcomp.c: REG_LENIENT \000 => NUL
01-06-04 features/dirent: replace Makefile hack with iffe semi-hack
 regex/regnexec.c: negation must also check REG_SHELL_DOT
01-06-03 sprintf.c: change buf size from SF_BUFSIZE to INT_MAX
01-05-31 glob: fix gl_fignore to ignore leading . by default
 features/lib: add botch_d_ino_dirent64 for linux botch
01-05-25 port/lc.tab: add a few missing language_territory's
01-05-23 string/chresc: \C[.collation-element.]
 fmtmatch,fmtre: update for <regex.h> syntax extensions
01-05-21 regex: add perl extensions, unicode names for collation elements
01-05-11 string/chresc: \e == \E == escape, \cX == control X, \x{..} == \x..
01-05-09 path/pathtemp.c: pathtemp(0,0,0,"/private",0) for mode S_IRUSR|S_IWUSR

 port/touch.c: handle utime(2) EPERM to fix bug that truncated
 regex: change REG_MINIMAL to avoid negation -- much faster now
01-05-08 *.h: add some off_t macro guards for suse linux
01-05-03 regcomp.c: optimize ((x)!)* to ((x)!)
 wchar: add <wchar.h> and stdio wchar routines
01-05-02 feaures/wchar: add <wchar.h> intercept, add stdio wchar functions
01-05-01 string/strtoi.h: signed strtoi accepts qualified unsigned constants
01-04-30 comp/setlocale.c: fix code that relied on 2 simultaneous getenv()'s
 tm/tmlocale.c: check for UTF-8 encoded LC_TIME files
 misc/magic.tab: add utf-8 and utf-16 U+FEFF magic
01-04-26 features/common: some cc's have _ast_int8_t but not LL constants
01-04-24 features/lib: add _std_strtod for mac os X
01-04-23 ccode: add CC_sub for ms embedded EOF char on ebcdic -- no joke
01-04-20 iconv: handle ebcdic<=>utf
 mc.h,mc.c: add mcindex()
 ast_std.h: add AST_MESSAGE_SET
01-04-18 features/libpath.sh: fix mvs probe
 *: sundry mvs fixes
 glob: fix GLOB_NOCHECK
to avoid stat() and properly trim patterns
01-04-01 strtod,strtold: add
 strtol,strtoul,strtoll,strtoull,strton,strtonl: handle locale & ERANGE
 sfvprintf,sfvscanf: handle locale decimal_point,thousands_sep
 sfvprintf,sfvscanf: handle %a,%A

setlocale: add LC_NUMERIC decimal_point,thousands_sep init
ast_std.h: __OPTIMIZE_SIZE__==1 to disable non-std __GNUC__ inlines
pathexists: path cache to cut down pathpath() access(2) calls
features/stdio: __FILE_TAG == _sfio_s for solaris
01-03-23 iconv: fix iconv_move buffer boundary bug that stopped at 1 block
01-03-19 glob: add GLOB_AUGMENTED
regex: REG_SHELL syntax error implies REG_LITERAL match
strto[ln][ll]: add overflow checks
01-03-17 locale: reimplemented to provide canonical locale namespace
locale: add LC_ALL=local for local system user default
tm.h: TM_*_3 => TM_*_ABBREV
tmfmt: handle standard E and O format modifiers
tmlocale: consult nl_langinfo() if defined
fmtquote("\"",1) => shell quote
01-03-08
regex: handle multibyte chars and collation classes
strmatch,strgrpmatch: now a wrapper on regex
ast_std.h: add mb*() multibyte and collation support
sfvscanf: handle locale decimal and thousand
proc*,system: handle ignored SIGCHLD
sfkeyprintf: handle %*C
01-03-06 locale: add locale data cache for efficient multiple locale switching
optget: fix LC_MESSAGES!=C --man bug
01-03-01 Makefile: HEADEROPT is not optional for win32.*
comp/syslog.h: comply with the de factos
optget(): fix \f...\f stack bug that referenced data after pop
01-02-27 *locale*: a batch of fixes for native LC_MESSAGE&LC_TIME hooks
01-02-22 pathprobe: reprobe test now checks probe.ini too
sfio_s.h: advertize public Sfio_t members with _ prefix
sfio.h,features/stdio: add <sfio_s.h> reference
sfhdr.h: map <sfio_s.h> _foo to foo
sfio.h: SF_APPEND=>SF_APPENDWR, SF_CLOSE=>SF_CLOSING
01-02-14 comp/conf.sh: probe <unistd.h> for _(CS|PC|SC)_* getconf symbols
stdio/*: update for uwin stdio.dll binary compatibility

sfread: finally fixed premature pipe read EOF bug
fmtscale: format tenths for number > 0 && number < 10
01-02-09 _sfmode(),_sftype(),_Sfextern: UWIN binary stdio compatibility exports
01-02-08 sfgetm,sfputm,_sfputm: fix max clash with k&r max() macro
setlocale: undef valid for sun4 k&r valid() macro
01-02-07 catopen.c: don't do native catopen for the debug locale
01-02-06 sfraise.c: add SF_FINAL check to avoid (posibly) freed disciplines
01-01-01 features/common: fix uwin __DEFINE__
sftable: initialize decimal and thousand
magic.tab: add corel wordperfect document
syslog: add LOG_LEVEL, add '\n' only if needed
include/tm.h: #undef daylight for _WIN32
sfio.h: add _SF_APPEND and _SF_CLOSE for native namespace incursion

ast_std.h: add AST_LC_multibyte for MB_CUR_MAX>1
setlocale: set AST_LC_multibyte
strmatch: check AST_LC_multibyte
features/limits.c: add _BITS_POSIX1_LIM_H guard for linux
features/libpath.sh: fix for aix LIBPATH
procopen,procclose:
block SIGCHLD if PROC_FOREGROUND (e.g., system(3))
optget.c: add enumerated option argument values
optget.c: add <!--INTERNAL--> for private --html
optget.c: fix memory leak that hit shell builtins hard
sfio: drop sfread small chunk logic
00-12-25 mnt.c: handle " and ' quoting for fstab
sftmp.c: let pathtemp() open the fd O_EXCL
00-12-15 conf.sh: add -v for verbose trace
features/(limits|unistd).c: no FEATURE/types because of _POSIX_SOURCE
features/time: add default for CLOCKS_PER_SEC
features/lib: std_malloc now handles NeXT
00-12-13 strton: recognize qualifier only if preceded by a digit
features/lib: change return in vfork() test to exit() for linux sparc
fmtquote: fix $'...' quote logic
00-12-11 tmdate: fix cron format bug that mishandled months
00-12-01 optget: handle $Id: ... $ in --?-version
features/fcntl.c: fix _STDPP_ mmap munmap
00-11-27 magic: drop dup sfclose() in load()
optget: handle error_info.id==0
00-11-22 features/stdio: add _FILEDEFED for sol9.sun4

strton,stronll: handle [u|U][l|L][ll|LL] qualifiers
00-10-31 tmdate: add TM_DATESTYLE and mmddHHMM[cc]yy
astlicense.c: #include <hashkey.h> MAM workaround
astlicense.c: check for non-empty CONTRIBUTORS
00-10-26 features/stdio: add _FILE and __FILE for gnu
misc/stk.c: fix stack pointer check off-by-one (dgk does it too!)
00-10-23 syslog.h: sync with bsd values
00-10-18 _STUB_* now functions instead of common symbols
all extern data declared with definition to eliminate common symbols
fastfind: add mac/bsd /var/db/locate.database
00-10-17 features/lib: add apple osX (darwin.ppc) workarounds
00-10-12 add: fmtbuf(), fmtclock(), fmtip4(), strtoip4()
fmt*() now use fmtbuf() for tmp fmt buf allocation
00-10-05 regex: add REG_DISCIPLINE and regdisc_t for alloc/error disc
00-09-29 features/lib: pipe_rw==0 for sgi: boot rw == bin incompatibility
00-09-21 astlicense: handle \' and \" in license values
00-09-20 sfwrite: fix write() error in sfprintf() loop
00-08-11 hdr,vmhdr.h:
check/hide { getpagesize sbrk } prototypes
astlicense: add noncommercial
00-07-31 fflush: don't seek on pipes

sfresize: add
setlocale: fix bad newof() call
00-06-01 strmatch: initialize match.current.beg[0] to avoid dump at line 670
sfio/stdio: a few more errno tweaks
astquery: sfstdin/sfstderr by default
00-05-26 sfmode: errno=EBADF for invalid stream use
00-05-22 rewind: fix for xopen test
00-05-18 mcfind: returns absolute path
00-05-16 optget: --keys must catch \f...\f too
translate,mc: errno cleanup
00-05-09 magic: add netbsd binary magic
fts: PATH_RESOLVE!=logical => FTS_SEEDOTDIR
ftwflags: call fts_flags()
astconf: astconf(0,0,0) re-syncs with _AST_FEATURES
00-05-08 optget: --usage & --keys for last -catalog group only
00-05-02 iconv.c: add; use codes[] in ccmapid() and ccmapname(); "" for native
00-05-01 pathtmp: copy env values (libshell or putenv may change)
00-04-01 optget: drop bar from [-foo?bar] for --??keys
sfvscanf: add %X -- duh
features/common:
fix va_listval() for power pc
findopen: fix FIND_GENERATE codes file search
magic: add ERROR_translate() and msgcat.key
tmlocale: add for LC_TIME locale info
tmlex: check tm_info.format and tm_data.format
tmfix: fix for tm_wday special case (via nl_langinfo on LC_TIME fields)
strftime: fix for nl_langinfo special case
ast_std.h: provide LC_* defauls if not defined
sfnew: check ${_AST_sfio_bufsize} -- don't tell kpv
catopen,nl_types.h: add intercept to mc* routines
magic.tab: add ast message catalog
strerror: add _ast_strerror intercept with ERROR_translate("errno")
fmtquote: escapes >0177 only if (flags&2)
00-03-17 feof: stdio macro functions only for _UWIN
optget: proper ERROR_translate() calls
astgetconf: add for thread safe error message control
astlicense: fix type=special but with non-null notice
errorx: add for ERROR_translate() support
ERROR_translate: add locale id args for alternate dictionary
option.h: move _OPT_PRIVATE_ to pointer to avoid
dll size mismatch
ftwalk: fix FTW_CHILDREN bug that hit top level non-dirs twice
translate.c: default error_info.translate
astconf: fix dup loop thrash that never returns, add _AST_VERSION
00-03-10 ast_std.h: do _LARGEFILE_SOURCE initialization before std headers
fmtquote: handle $'...' quotes
00-03-07 optget: fix numeric option support test
sfkeyprintf: add %q for '...' quoting with ansi escapes

00-03-06 features/stdio: fix _sfflsbuf prototype (dingold@gte.net)
00-02-14 pathtmp: fix pid cache bug that sometimes repeated after ~10 attempts
  optget: "..." attribute quote
  pathfind: eliminate *: prefix in lib, not type
  proc: PROC_FOREGROUND for system(3) semantics (wait status return)
  pathtmp: fix mktemp() logic
  fts: fix FTS_NOSEEDOTDIR bug that botched ./* in top list
  include/ast/prototyped.h includes include/prototyped.h
  pathpath: fix strdup(0) bug
  optget: --html <foo@bar> => ...mailto:foo@bar...
  sscanf: fix sfsscanf => sfvsscanf typo
  magic.tab: strengthen
 tar recognition
00-02-08 conf.sh: fix ifdef for systems that think sysconf(FOO) is const
00-02-04 glob: fix globlist_t.gl_flags
00-02-02 vm*: add NoF() for data only files
00-01-27 fts: fix top level .==.. statp bug (thanks to dr. ek)
00-01-25 conf.tab: fix LFS*_*LAGS typo
00-01-24 astlicense: handle type=verbose, license.notice, author=*
00-01-11 pathprobe: generate info for first probe script on PATH - duh
  ast.h: add NoF(x) for files that define no functions
  tmpfile: fix implementation
  global change for string ERROR_translate() dictionary names
  optget: fix new way but no long names off by one
  optget: handle [--dictionary?name]
99-11-19 comp/conf.sh: `expr length XXX` is not universal
  drop sfstdio; stdio via functions everywhere
  drop Makefile conditionals (and follow our own advice for once)
  sfio: new stream after atexit() bug fix
  tm: Tm_zone_t.daylight=0 for standard time within zone
  stdio: fopen => _ast_fopen: only way short of binary compatibility
  Makefile: atmain.C
 falls back to atmain.c
  optget: add --keys, s<section> option
  stdio: _UWIN check for foreign stdio
99-11-11 astlicense: add
99-10-31 glob: fix regexec pattern; add PATH_ATTRIBUTES case check
  pathpath: path==0 means malloc space
99-10-22 tmfmt: %C=2-digit-century, %k=date(1), %y=2-digit-year-in-century
99-10-18 fastfind: expanded default db lookup
99-08-11 magic: fix off by one registry malloc
  features/fs: add __RENAME checks for stat familiy (netbsd)
  features/fs: major()/minor() fixes for s5
  features/libpath.sh: netbsd fix -- ld.so not in std places
  misc/fastfind: fix codes path generation bug
  optget: beef up --?* description, fix <TR>...</TR> nesting
  pathprobe: check for override (writable key file) first
  features/time: int tmtimeofday(struct timeval*);

optget: fix opt_info.num, even if opt_info.arg!=0
fts: FTS_PHYSICAL => FTS_SEEDOTDIR, add FTS_CHOP
fastfind: init dir tab with logical and physical name
glob: add gnu GLOB_ALTDIRFUNC
99-07-17 sfio: kpv
update and sfhdr.h sync!
99-06-24 stdio: fix fflush() to ignore sfseek(0) return value
99-06-23 magic: '\r' is text not control to placate m$
99-06-08 stdio: fix fseek,ftell semantics
uwin stdio: fflush() => _doflsh() to avoid __cplusplus clash
getopt: call liberror() to avoid error() conflict
tmfmt,tmscan: %N zone type (nation code), %z zone minutes west offset
tmfmt: - no pad _ space pad 0 leading 0 pad
99-05-28 magic: fix 'x' == '*' for any number, magic.tab tweaks
features/lib: verify that stat64 really works
99-05-21 tm*: add TM_WINDOW==69 for consistent century windowing guard year
99-05-18 tmtime: add century leap year calc anticipating unsigned time_t
99-05-17 sfkeyprintf: handle %o and %x!!
99-05-09 pathprobe: $HOME/.probe if not suid and st_uid!=geteuid()
99-04-28 magic,magic.tab: add registry()
99-04-24 regcomp: fix ksh pattern +! parse
regfatalpat: add
optget: make : ?] double escape consistent in all contexts
99-04-01 features: drop iffeio.h and stdio.h when
only printf() used
regex: fix stats() .l and .k count
fmtquote: added; most general fmtesc() form
99-03-22 fmtesc.c,ast.h: add fmtnesq()
optget: --?x works for -x option flag
99-03-17 features/limits.c: workaround solaris __EXTENSIONS__ _timespec bug
workaround limits.h circular prereq with ignore stdio.h
sfvprintf: %04e left-pad zero fixed
99-03-03 fts: uncle already: add FTS_SEEDOTDIR to retain leading ./
regex: REG_MULTIPLE, BM for fixed string alternation
optget: embedded `-' optional in long options, prefix={0,1,2}
99-02-14 fastfind: fix dir format bug that emitted wrong paths
astconf: fix redef off by one bug
99-02-11 pathcanon(): don't cache astconf("PATH_LEADING_SLASHES", NiL, NiL)
99-01-23 optget: move <old_opt.h> back into <option.h>, no open-close
optget: add "[index:long-name:description]" for --long-name
comp/gross: add weak __libc_attr for irix < 6.5 compatibility
features/limits.c: tweak the guards again
99-01-11 fastfind: handle old format count
byte order
magic.tab: fix elf to use real phdr offset
magic.c,magic.tab: fix | to act like switch/case
comp/fross.c,features/hack: for gross hacks
features/stdio: avoid sfio namespace pollution

98-12-25 tmdate: yyyy.mm.dd
  pathprobe: fix procrun() cmd path bug
  fmtesq: add
  features/common: win32.alpha va_list
  magic: add pc alpha object
98-11-11 strmatch: add STR_ICASE
  pathprobe: punt to $HOME/.probe/<key+HOSTTYPE> if not S_ISUID
  tmzone,tmdate: handle +-minutes, nn/MMM/yyyy
  stropt: fix nested quote pop
  tmfmt: add %K => %Y-%m-%d/%H:%M:%S
  sfio/stdio: fix fseek() SF_PUBLIC omissions
  fmtesc: catch '\\' (duh)
  vmalloc: vmbest round bug fix
98-11-01 fts.c: no pathcanon() if (fts_flags & FTS_PHYSICAL)
98-10-01 features/stdio prototype fixes
  optget: strton() instead of strtol() for #
98-09-22 regcomp: add REG_DELIMITED and REG_ESCAPE delimited re support
98-09-15 fix _LARGEFILE64_SOURCE stuff
  ast_std.h: provide mmap() prototype
98-08-11 fix sfpopen() to ignore SIGPIPE
 by ignoresig() for sfio but not stdio
  fix procopen() to ignore SIGPIPE by ignoresig() for PROC_IGNORE
  sfio sfpopen/popen update
  magic.src: fix ustar entry
98-07-17 fix ftwalk() short by one malloc()
  add fts_notify()
98-06-25 sfdcmore,sfdcprefix: add
98-06-19 tokscan: add %f %g
98-06-01 disc/sf*.c: memset(0) after disc malloc()
98-05-11 strelapsed: y==Y
  fts: pathcanon() top list
98-04-01 error: error_info.time for all msgs, just after cmd id
  error: no sfsync(sfstdin)
  sfio: sfpool, Sffmt_t update
  magic.tab: sgi core dumps -- why aren't these elf?
  stropt: (v+n) for unknown option is option value if n!=0
  procopen: fix setsid() for spawnveg() only
98-03-19 malloc: add realloc foreign region check
  sfdisc.h: rename to match kpv disciplines
  fastfind: fix strcasecmp/strcmp directory prefix mixup
98-03-17 features/fcntl.c,pathtmp,sftmp: add O_TEMPORARY
98-03-01 pathcanon: fix PATH_LEADING_SLASHES to stat() both slashes
  pathcanon: add PATH_VERIFIED
  tmdate: add skip[]
 to expand separator char set
  fastfind: FIND_OLD for old 7 bit db, FIND_TYPE for new 8 bit typed db
  fastfind: default generates gnu LOCATE02 8 bit db
  magic: handle %s in mime description

cdt: kpv update
sfio: kpv update
stdio: fpos64_t fseek64(), ftell64(), fgetpos64(), fsetpos64()
stdio: fseek() => sfseek(SF_PUBLIC) to avoid locking
fts: initialize parent stat[bp] from top level *after* statf done
astmath: add -lm requirement test
*: Astlong_t => _ast_*_t
regex: simplify regcollate() (from doug)
tmtime: preserve Tm_t*tm when calling tminit()
astconf: add readonly PATH_ATTRIBUTES=[cirw]
98-02-14 fastfind: add FIND_ICASE to ignore case
tmdate,tmgoff: handle (+|-)hh[[:]mm[[:]ss]] absolute timezone
tmdate: `<n> <part>' now assumes `next <n> <part>' instead of `this'
tmfix: fix leap year bug that forgot to add 1900
proc: add PROC_ZOMBIE
98-02-06 strmatch() char class range bug fix
regex char class range bug fix
98-01-23 _WIN32: changed the #if logic
again to accomodate _GNUC_
mnt: grab the mount options too
ast_std.h: hide getopt,getsubopt from stdlib.h
features/limits.c: add gnu guard macros to avoid limits.h recursion
features/mode.c: include "limits.h" instead of "FEATURE/limits.lcl"
98-01-11 sfio.h: use Astlong_t, move Sfio_t Sfdisc_t typedef to top for stdio.h
sfhdr.h: #undef SETLOCAL for hpux
sfvprintf,sfvscanf: %I*x for sizeof(int_arg)
handle ftruncate64 and truncate64
dtopen.c: __hppa dll needs Dtset Dtlist Dttree refs here
97-12-18 fmtnum: add
97-12-11 magic: handle sgi 64 bit core dumps
97-12-07 pathtmp: add override for TMPPATH,TMPDIR and cycling
97-11-11 tm: handle 0 return from gmtime(),localtime() (dos negative time_t)
features/stdio: fix fflush() macro to do physical sync
97-10-31 astconf PATH_RESOLVE is logical if 3d&&!std, metaphysical otherwise
magic: fix #! mime bug
tm: tmtime() now calls tmfix() and adjusts tm_isdst too=>mtime() works
97-10-11 dllfind,dlfcn: move to separate -ldll so -last
can link static, duh
Makefile,state.c: move forced header generation state.c => Makefile
sfio: update including SF_WHOLE
97-10-01 sfdostext: add \r\n => \n sfio discipline
stropt: NiL table => p=name for all name=value
97-08-11 pathtmp: check pid to note forks
procopen: FD_CLOEXEC rfd && wfd
fts: fts_close() after fts_children() with no fts_read() now works
97-07-17 error: sfsync(sfstdin,sfstdout,sfstderr) instead of sfsync(NiL)
_sfcvinit: add sfio internal interface to base conversion tables
strton: use _Sfcv* base conversion tables instead of sfsscanf()

sfvscanf: use _Sfcv* base conversion tables
mime: x- permutations now matched if exact fails
mime: original- stripped from content-* headers
tmdate: add yyyy-jjj, yyyy-mm-dd
dllfind: add
ccmapid: fix buf copy loop limit
ccmapname,ccmapcpy: add
sfstrtmp: add
97-05-09 streval: fix up casts for pseudo-ansi cc
features/types: use _ast_int_8 vars to verify support
string/modedata: check for mvs.390 S_IFMT

include/ast(_std).h: add #define __FILE_typedef
magic: add ccode text check
include/ftwalk.h: FTW_PATH=>FTS_NOCHDIR to avoid FTS_AGAIN (duh)
fts: clear status for FTS_AGAIN (fixes rm -r bug)
mnt: add mvs openedition w_getmntent()
sfhdr: _hdr_float && <float.h> for correct MAXDOUBLE
vmalloc/vmbest: if _std_malloc then use malloc()/free() not sbrk()
remove: check _std_remove
procopen: handle pio[{0,1}]=={0,1}
setenviron,features/uinstd: test for mvs.390 dll environ hacks
96-12-25 <sfio_p.h> -> <ast_common.h>
__EXTERN__(type,object)
__DEFINE__(type,object,value)
magic: check strings in !CC_NATIVE code set too
system: cmd==0 means check for shell access (xopen)
sfhdr.h: fix sfrsrv prototype
add __libc_malloc etc for gnu/linux
astconf(NiL,path,name) == astconf(name,path,NiL) + no liberror
fts_open: if toplist() stat fails return 0
ftwalk: handle fts_open()==0 via one phony userf() call
sfmode: S_ISFIFO default is SF_SHARE=0
features/lib: _WIN32 _lib_vfork=1
by default
unsigned<0 comparison and other fixes via sgi.mips4 cc
stk.c: use <align.h> ALIGN_BOUND for stkalloc()
features/lib,vfork: uwin fix
ast_std.h: fix strto[u]ll prototypes with features/types _ast_int_8
getsubopt: add for xopen 4.2 compatibility
drop function __IMPORT__
magic: more magic
change #define FILE from Sfio_t to struct _sfio_s
state.c: add generated includes that may be hit by std for MAM
bytesex: forgot about sizeof(long)=>7; could we fix the name too?
vmalloc.h: fix vmnewof() definition
sfio.h,stdio.h,ast_common.h: pollution cleanup
magic.c: add | op for switch

Makefile: stdio.h was on both HEADERSRC and HEADERGEN -- don't do that
drop pp:notice to get <sfio.h> ... <ast.h> to work
regex: add [[:<:]]==\< and [[:>:]]==\> for bsd compat
mime.c: ignore X-* headers while scanning for Content-*
magic.c: check for negative indirect offsets
magic.tab: fix dos entry that generated negative indirect offsets
vmalloc.h: add vmstrdup()
prototype
hash.h: add hashgetbucket() macro
magic.c: MAGIFILE is now a : file list
mnt.c: another 4.4 bsd fix -- users must include <sys/crap.h>
common: fix _WIN32 chicken&egg with va_copy
sfio: forgot to set f->val along with _Sfi in sfexcept()
Makefile: add mini target for uwin libmini.a
sfcvt.c: workaround for flaky long double optimizers
features/common: fix to work with va_list==void*
regexec.c: fix REG_STARTEND subexpression offsets
strmatch.c: don't forget <wctype.h>
regrexec.c: fix REG_INVERT end boundary bug that missed last record
astconf.c: notify(0,0,"a=b") called for each setenviron("a=b")
pathcanon.c: check astconf(PATH_LEADING_SLASHES) to preserve //*
96-11-28 _LARGEFILE64_SOURCE by default if possible: NOTE: assumes xopen
regerror: fix for xopen
getopt: fix for xopen
magic: add ciao virtual database
astconf: posix/strict/xopen implies "standard" conformance
fs3d.h: hide mount prototype
ast_std.h,mnt.c,features/fs: ncr port
tweaks
96-10-31 version 5.0
add strtoll() strtoull()
sfkeyprintf: upgrade to int_max args
ast.h: add ssizeof() to work around unsigned botch
conf.sh: add shell actions to conf.tab
_DLL*: drop for _BLD_<lib> + __EXPORT__ + __IMPORT__
sfio,cdt,vmalloc: kpv update
96-10-11 <ccode.h>: add character code map support
procclose: return shell style exit status
features/fs: pun statvfs.f_basetype to statvfs.f_reserved7 for mvs
uwin: add subdir for uwin additions
ast_std.h: swab() is from <stdlib.h>
sfio.h: <ast_std.h> if _PACKAGE_ast
magic.tab: add mips[1-4], 64-bit
port tweaks for sol.sun4 and sun4
96-09-06 strerror: add
fmterror: uses strerror
str*search: use sfiso646() order
strpsearch: add

magic: add Magic_t.mime mime type return for magictype()
mime.h: add
strton: use sfsscanf()
strperm: factor in umask() if no who
pathtmp: add TMPPATH check
libevent: add
magic: add discipline to magicopen()
mime: add discipline to mimeopen()
96-08-31 regex:
fix BM fail table generator
96-08-11 mntread: fix mnt.type for SCO variant
conf.tab: add SCO KERNEL_* sysconf() vars
fastfind: add findwrite(), fix findread() FF_OFF omission
ftwalk: reimplement on top of fts
fnmatch,re_comp,regexp: reimplement on top of regex
basename,dirname,fmtmsg,fts,ftw,getdate,getsubopt,glob: add
hsearch,nftw,realpath,strftime,strptime,swab,tempnam: add
tsearch,wordexp: add
getcwd: cache last path for easy test
96-07-17 error: sfsync(NiL) ... write ... sfsync(sfstderr)
astconf: handle readonly *(DEV|DIR) vars
96-04-01 swapop: fix stupid return value bug
features/int.c: fix int_swap generation bug
regnexec,regrexec: fix unsigned underflow init error
ls.h: fix iblocks() to be in units of LS_BLOCKSIZE
96-02-29 magic: space before function is definition with no call
hash: drop hash_info from public interface
hash: OBSOLETE hashlast()
hash: add Hash_root_t.Hash_last_t to public interface
add strsearch() and strnsearch() to complement strlook()

add hashkey.h for keyword->long hash
pathpath: pathpath(0,0,"",0) disables $0 $_ $PWD relative search
sfio: sfstrtod+sfhdr update
regex: fix REG_LENIENT to map BRE \[+?|] to ERE [+?|]
change _std_malloc iffe test so it doesn't hang on alpha
sfhdr.h: features/sfio generates _lib_cvt instead of _i386_cvt
ast_hdr.h: add va_copy(a,b) to copy va_list b to a
getopt: fix stupid getopt() -> optget() bug
sfvprintf: %h? now downcasts
regex: handle strto?l() errno in regcomp()
sfstrtod: _Sfstrtod_already_defined -> _STUB_sfstrtod
ast_std.h: hide valloc() and ignore <strings.h>
sfkeyprintf: pass phony va_list for '2'
regex: change HIT var type from int to size_t in special()
ast.h: add EXIT_STATUS(x) to convert wait() status to sh exit status
96-02-14 regex: add _ to \<...\> isalnum test
regex: fix BM inner loop breakout

features/types: size_t is signed on some systems! => _ast_size_t
sfio: sfrd discipline peek optimization
vmalloc: vmalloc.h malloc family
macro upgrade
tokopen: fix newline bug for non-restore open
sfio: no inline for gcc until it emits for -g too
96-02-12 sfio: internal upgrade
96-02-09 regex: Boyer-Moore boundary fix
vmalloc: snarf latest
96-02-06 regex: add regrecord() and regrexec() for Boyer-Moore record filtering
regex: rearrange regnexec() args to match buffer,count arg style
96-01-31 stk: add STK_NULL to stk.h and stk.c
regex: privatize regex.h and fix min re length computation
workaround lazy strdup() implementations in features/lib _std_malloc
fix stkclose() to free(stream) -- purify missed because of sfio links
unused var cleanup
port/mnt.c must include <ls.h> to get <ast_fs.h>
add SF_FINAL to sfio and stk
sfio reads now on natural block boundaries
add #!!! <level> <message> !!! to tokline()
add REX_BM pre-filter to regcomp/regnexec
96-01-22 add regcomp env.paren overflow checks
96-01-11 add Doug McIlroy's regex (converted to C from C++ by gsf)
AT&T Research now
sfgetr optimization

regex buglets
96-01-05 tweak magic.tab for win32
95-12-25 add !(...) -> (...)! to fmtre()
nt tweaks -- functions with no header proto must be defined extern
95-11-24 version 4.1
add mnt.h mntopen mntread mntclose
convert fmtfs to mnt.h
add RE_LEFTANCHOR and RE_RIGHTANCHOR
gcc inlines must also have global library function instantiation!
add hashview()
fix strtape() internal buffer flow
fix mntread() fs/dir transposition for uts mnttab
95-10-31 change features/unistd.c includes to break limits-param cycle
add cdt from kpv
sfio snarf from kpv
add [ht]search for _WIN32
95-10-11 clarify PARANOID pathcheck() warning
fix procopen() LIB_SPAWN environ bug with setenviron() cache
fix setenviron() bug that forgot to reset environ if == 0
add %Z '\0' output format to sfkeyprintf()
sfio snarf for sfvprintf fix
allow multiple hashscan() with scope caveat

add comp/fakelink.h to synthesize a few symlink text patterns
add !<xxx> magic to misc/magic.tab
add
FTW_TOP to inhibit recursion (for ftw side effects on top level)
add memfatal() common malloc fatal exception message
add dos \r\n test to misc/magic.c/cklang()
sftmp() O_EXCL+random to avoid collisions
pathtemp() uses sftmp() randomizing
features/fs uses SF_APPENDWR
sftmp() uses pathtemp() -- don't worry, its not circular
a few more _WIN32 compatibility additions
realloc fixed to use VM_RSCOPY|VM_RSMOVE instead of obsolete 1
add hashlook(tab, oldname, HASH_RENAME, newname)
a few more tweaks to satisfy port warnings
add _SFIO_INLINE_PRIVATE to provide real function too
fix <dirent.h> installation test
oops object / shared library compat with _sfgetl2 _sfgetu2
95-09-11 add getopt() compatibility
add fstat,lstat,mknod,stat fixes for _x versions in sys/stat.h
add getconf CONFORMANCE - posix for things that aren't ast default
sfio_t.h: #ifndef _SFIO_H #include "sfio.h" #endif
snarf vmalloc from kpv
95-08-11 fix malloc bug in magic
update linux and bsd
386 magic entries
error_info.auxilliary returns new level, |=ERROR_OUTPUT if msg done
drop fnmatch from strmatch for sparc (solaris) until it collates
95-07-17 fix port/astconf universe initialization
fix misc/optget opt_info.nopt initialization
drop tmset() TZ=... because it only worked when TZ=... was ignored
95-05-09 mongo <ast.h> namespace cleanup
drop > 2 year old obsolete interfaces
sfvprintf.c fix for (char:8 short:16 int:32 long:64) architectures
TMP_MAX back into conf.tab
pathbin() and pathshell() now use astconf()
fix pathtemp() to not cache getenv("TMPDIR")
fix ftwalk() metaphysical to handle non-dirs too
initialize *_info = { 0 }; for ancient ld semantics (NeXT)
fix magic() to do vmfree()
astconf(X_OK) must prefix lines with "getconf"
use <wchar.h> and wctype in strmatch() if available
_lib_utime_now checks utime(path,0)
_lib_poll_notimer checks poll(x,0,timeout)
add another _lib_utime_now check to port/touch.c
fix dd_buf cast in dir/opendir.c

split getconf.h into conftab.h and conftab.c for :READONLY:
use mbtowc() only if MB_LEN_MAX>1

sfio char* -> Void_t* cleanup
handle old syntax in misc/magic.c
sigdata.c holds readonly signal strings
pathcheck() does AT&T checks for tools matching PARANOID - yuk
unused var cleanup
deprecate hash_info in favor of hashlast()
fix bad conf.sh ksh integer interactions
dll cleanup
magic.c falls back to malloc for now
add environ to <ast.h> -- C library global data syms are *RESERVED*
sfhdr.h memccpy(1,2,3,size_t) prototype
95-04-01 version 4.0
convert to vmalloc
allow sigcritical() nesting mismatch to work around vfork() bug
add strexpr() primitive for streval() with user handle (like ftwalk)
add <magic.h> and magic.c file command magic interface
update magic mail message entry
fix keyprintf() invisible char count nesting bug
add sfstrnew(SF_READ|SF_WRITE) for alternate sfstropen() modes
sfstrnew(SF_READ) but reading requires sfseek(), sfreserve()

add conf.tab and conf.sh to nail C/POSIX limits/unistd macros
add getconf() string interface to *conf*
_DLL_INTERMEDIATE_DATA for systems that require indirect globals
_DLL for building shared libraries with _DLL_INTERMEDIATE_DATA
vecfile() restricted to S_ISREG()
add spawnveg() for job control
convert procopen() PROC_PGRP(id) to spawnveg()
fmterror() returns error text given errno (strerror() does same)
fmtsignal() returns signal text given errno (strsignal() does same)
{sig_name,sig_text,SIG_MAX} -> sig_info.{name,text,sigmax}
liberror("",...) omits [%s library] prefix
update features/signal.c table
add vmdisc() and change vmnewof() to use vmresize()
fix conf.sh to allow refs to previously defined limits
fix undefined entries in getconf()
magic data in magic.tab
fix stropt() pointer cast
vmalloc() exception handler replaces nomalloc()
merge sigdata.c into fmtsignal.c -- sun link needs function w/ data!
sftmp() bug fix
drop local <unistd.h>
even with _POSIX_SOURCE
fix vmstrdup() macro arg miscount
fix conf.sh to handle enum'd symbolic constants in unistd.h
drop malloc() et.al. prototypes from vmalloc.h
fix sfvprintf() %d argument reference
add OSF/1 AES symbol(s) to conf.tab

determine standards prefix from conf.tab
add _CS_SHELL to conf.tab
getpath() default is confstr(_CS_PATH)
getshell() default is confstr(_CS_SHELL)
unify keyprintf user function args (should have learned by now!)
add quad type to magic
add astfeature() to unify universe style dynamic features
add ftwflags() to determine FTW_* flags from astfeature()
95-03-11 fix stropt() to not modify its *const* arg
handle '"\ quotes and chresc() in stropt() values
, treated like :space: between stropt() options
fix procopen() fd dup to ignore self-dups
add library id[] to misc/state.c
add ftwalk(FTW_METAPHYSICAL) for posix -H
sfvprintf() now handles balanced () in %()
add tmfmt() with buffer size check to replace tmform()
add
fmttime() calling tmfmt() to fit fmt*() mold
add <keyprintf.h> and keyprintf() to support %(...)? in commands
add Hash_table_t for size==0 in stropt()
add EXTTYPE extended header to tar.h
95-02-14 sfmove() buffer size overflow fix
add _SFSTDIO_H to sfio.h
rename setenv() to setenviron() -- posix finally decided
rename <option.h> opt_* to opt_info.*
update features/unistd.c for _SC_* and _PC_* posix additions
95-01-19 (char*)uchar cast in fmtesc()
fix hash bucket memory leak in hashlook() [via John Mocenigo]
update strings/strtape()
fix optget()/optjoin() to handle leading +
add ALIGN_ prefix to <align.h> identifiers
95-01-11 change tm/*.c tmset(0) to tmset(tm_info.zone) to keep user setting
fix tmform() %Z null pointer dereference
95-01-01 add this RELEASE file
fix strperm() to properly handle "644 file"
fix tokline() to return last '\0' terminated line in string
fix tokscan() to properly handle \\n splice
add fmtesc() to complement stresc()
add LS_NUMBER
to fmtls()
drop spurious optusage() ' '

:::::::: libcmd ::::::::

12-06-25 getconf.c: don't defer to native getconf if we are it -- doh
12-06-19 tail.c: be nice and use sh_sigcheck() and tvsleep() to verify interrupts
12-05-31 cat,head,tee: use errno==EPIPE => ERROR_PIPE(errno)
12-05-25 vmstate.c: #include <sfdisc.h> for sfkeyprintf() prototype

12-04-20 chgrp.c,chmod.c,cksum.c,cp.c: default fts_flags()|FTS_META (to disable pure FTS_PHYSICAL)
12-03-26 cp.c: fix --interactive astquery() logic that ignored no&quit!
12-02-14 rm.c: --force ignores no file operands specified
12-01-10 b_* (int, char**, void*) => (int, char**, Shbltin_t*)
11-08-27 pids.c: add getsid() iffe test
10-08-16 chmod.c: add -l alias for { -h --symlink }
11-08-16 chgrp.c: change lchmod() ref to lchown()
11-05-03 cp.c: do not delete src if mv to dest fails -- doh
11-03-28 chmod.c,chgrp.c: fix --symlink logic
11-03-26 rm.c: don't eaccess() check symlinks!
11-01-27 date: add { -R, --rfc-2822, -T, --rfc-3339=type }
11-01-03
chgrp.c: --symlink => --physical
10-12-10 rm.c: fix not-writable logic
10-12-01 tee.c: add iterrupt logic for slow open(1) -- needs to be generalized
10-11-30 chgrp.c: add -N,--numeric to bypass name lookup
10-10-20 cp: add --timestamps (preserv timestamps and permissions)
10-10-20 ln: fix 'cannot replace existing file' logic
10-10-10 cp,mv: add --remove-destination
10-08-11 cp.c,expr.c: use conformance("standard",0) test
10-08-11 cut.c: use mbnsize() instead of mblen() (for ast C.UTF-8)
10-07-28 chgrp.c,chmod.c,cksum.c: fts_path for diagnostics, not fts_accpath!
10-06-14 rm.c: fix -rfu logic
10-06-12 paste.c: repeat after me: do not modify argv[i]
10-06-01 sync with ast api 20100601
10-05-09 tail.c: fix -0f bug that inially listed the entire file
10-05-06 basename.c: add { -a,--all -s,--suffux=suffix } from BSD
10-04-12 cat.c: fix -v bug that dumped core and make consistent with cmp --print-chars
10-04-11 cmp.c: add --print-bytes, --count=n, --differences=n
10-04-08 vmstate.c:
add { method flags } vars for Vmstat_t.mode
10-04-08 mkdir.c: fix check for { S_ISUID S_ISGID S_ISVTX } after successful mkdir(2)
10-04-01 stty.c: add --fd=fd option
10-03-23 tail.c: fix -f large initial offset bug that didn't copy all data
10-03-07 tail.c: sfsync(sfstdout) after all -f done, fix -f partial line
10-03-05 mktemp.c: add --regress=seed for testing
10-03-05 vmstate.c: add
10-01-26 tail.c: -f sleep(1) only if no progress from last round of checks
10-01-20 fts_fix.[ch]: use <fts_fix.h> instead of <fts.h> (see fts_fix.c)
10-01-20 cp.c: free(state) if called from old shell
09-12-10 join.c: <wctype.h> for iswspace()!
09-12-04 cmd.h: fix CMD_DYNAMIC logic
09-12-04 cut.c: handle -d mb
09-12-03 mkdir.c: add --verbose
09-11-30 cat.c,date.c,cksum.c: drop setlocale() call already done by optget()
09-11-30 join.c: handle -t mb
09-11-28 wclib.c: { -w -L } mb independent of -m
09-11-28 paste.c: handle -d mb

09-11-28 uniq.c: handle -s mb
09-11-28 cksum.c: FTS_SEEDOTDIR by default
09-09-09
fds.c: add --unit=fd
09-08-25 tail.c: initialize Tail_t.fifo=0 !!
09-08-15 tail.c: fix fifo logic
09-08-11 wc.c: add setlocale(LC_CTYPE,"C") cleanup, add utf8 optimzations
09-08-10 uniq.c: replace -c 1..9999 sfsprintf() with inline conversion
09-08-01 join.c: fix empty field null pointer deref
09-07-23 pathchk.c: add -P,--path and -a,--all
09-07-02 chgrp.c,chmod.c,cksum.c: fts_flags() default only if not --recursive
09-06-19 cmd.h,cmdinit.c: add ERROR_CALLBACK for ERROR_NOTIFY main() callback
09-06-19 mktemp.c: --unsafe now checks and prints path but does create
09-06-19 tee.c: add ERROR_CALLBACK for tee_cleanup() sfio discipline pop
09-06-18 rm.c: handle interrupts during interactive query
09-06-18 cp.c: handle interrupts during interactive query
09-05-25 tail.c: fix old style option logic to handle --invalid-long-option
09-05-24 tail.c: -r == +1r
09-05-01 mktemp.c: handle foo/prefix, add -p dir and -u
09-03-31 cat.c: handle --no* options
09-03-15 tail.c: fix --timeout termination
logic
09-03-03 tee.c: clean up sfio disciplines on error
09-03-03 cat.c: fix -v|-e|-n|-B interaction bugs
09-02-14 tail.c: fix VSC failures
09-02-14 join.c: fix VSC failure
09-02-02 uniq.c: document -number == -fnumber, +number == -snumber
09-02-02 tail.c: fix usage[] for negative offsets, add sun -b
09-02-02 mktemp.c: add
09-02-02 features/utsname: UWIN _UNAME_os_DEFAULT => UWIN
09-01-31 dirname.c: add experimental { -f -r -x } for pathpath(3)
09-01-05 cmp.c: fix EOF diagnostic to conform to posix
09-01-03 mkfifo.c: fix --mode=mode logic
08-12-07 date.c: add %[_][EO]K for [space pad] [full|long] iso docs
08-11-10 stty.c: check for -t grouping so -tostop != -t -ostop
08-10-15 rm.c: handle 'rm -f x x' => exit 0
08-09-08 stty.c: #ifdef guard TAB[012] -- freebsd: damn the posix, full speed ahead
08-06-17 shcmd.h: move to libast
08-04-24 uniq.c: add optget() 'n' option for -1 => -f1
08-04-24 getconf.c: clarify diffs between "name - value" and "name = value"
08-04-01 cut.c: add write error
check
08-04-01 paste.c: fix --noserial stream vector access bug
08-04-01 pids.c: add ls/ps style --format=format
08-04-01 stty.c: fix off2 unitialized reference
08-03-28 chgrp.c: add --before=file
08-03-14 pids.c: add
08-03-11 chgrp.c: fix -m to use uid:gid as lookup key

08-02-11 Makefile: add -lmd possibly required by sumlib.o -- hack alert
08-01-30 expr.c: fix <=0 type that broke substr * 1 * -- wow
07-12-13 cp.c: fix builtin state reinitialization
07-11-29 rev.c: honor multibyte locales
07-11-27 cp.c: open non-existent destination with O_EXCL
07-11-27 stty.c: add -t,--terminal-group to list tty pgrp
07-11-27 cksum.c: --silent -s => -S, -s == -x sys5 for gnu compatibility
07-11-11 tee.c: drop ancient bsd compatibility "-" operand => SIGINT
07-10-29 cksum.c: add SUM_LEGACY for -r
07-10-12 cp.c: plug usage string memory leak by using per-builtin state
07-09-21 cksum.c: add sumprint() default scale arg, --scale, --bsd for solaris
07-09-10 chmod.c: add --show,-n
07-07-27 wclib.c: bias
<wchar.h> checks for modern unix
07-07-17 cat.c: fix --squeeze-blank to reduce multiple blank lines to *one*
07-05-20 cmd.h: handle msvc's balk at if(0)0=0;
07-05-20 cksum.c: #include <modex.h>
07-05-11 cmd.h: add _CMD_CONTEXT_OK() to verify >= 20070511 context
07-05-09 fds.c: handle ipv6 sockets
07-05-09 cmd.h: <shbltin.h> : cmdquit() => sh_checksig(context)
07-04-25 mkdir.c: force (S_ISVTX|S_ISUID|S_ISGID) after mkdir(2)
07-04-24 procrun.c: add -last intercept => sh_run() and whence -q
07-04-19 uname.c: name operands first checked for CS_NAME, then NAME
07-03-28 date.c: add --unelapsed=scale, -U: fmtelapsed() => strelapsed()
07-03-25 wclib.h: iswspace() requires <wctype.h>!
07-03-11 tty.c: add sysV --line-number, -l
07-02-26 Makefile: sumlib.o: direct extract from +lsum (vcodex someday)
07-02-24 Makefile: tweak cmdext.h action for --mam bootstrap
07-02-09 Makefile: { cmdext.h cmdlist.h } depend on *.c list!
07-02-09 Makefile: +lsum to bring in static -lsum (no dynamic right now)
07-02-07
cksum.c: move from src/cmd/std with ftwalk => fts
07-02-07 getconf.c: handle /bin == /usr/bin in defer logic
07-01-26 chmod.c: don't FTS_FOLLOW if !FTS_PHYSICAL
07-01-23 cut.c: Cut_t variable dimension list[] must be last member
07-01-22 uname.c: fix -h typo that clobbered astconf() state -- ouch
07-01-02 fmt.c: fix buffer splice off by one bug -- what else
06-11-23 cmd.h: because of proto cmdinit cannot be a function like macro
06-11-21 cp.c: fix 06-10-31 const dot[] readonly assignment
06-11-15 cp.c: fix 06-10-31 ln -s enoent bug
06-11-11 getconf.c: let astconf() handle "undefined" vs. ""
06-11-11 getconf.c: fix deferred getconf path search
06-11-11 fmt.c: handle two char { \t \n } in --usage ouput
06-10-31 global edit to eliminate most non-const static data0
06-10-31 use <cmd.h> for all b_*() implementations; drop <cmdlib.h>
06-10-31 cmd.h: add CMD_ prefix to { BUILTIN DYNAMIC STANDALONE }
06-10-31 join.c: tone down /tmp usage vi SFSK_DISCARD
06-10-31 cp.c,rm.c: update to <fts.h>

to accomodate non-static data
06-10-29 date.c: "...%H%..." => "...%H" "%..." to avoid SCCS conflict
06-10-26 fds.c: handle sctp
06-10-18 tail.c: fix invalid suffix infinite loop
06-10-11 chgrp.c,cp.c: add sfstruse() error checks
06-10-10 tee.c: add --linebuffer, -l
06-10-06 getconf.c: preserve native getconf(1) known variable behavior
06-10-04 sync.c: add (thanks to Roland Mainz)
06-10-04 getconf.c: add -v specification => run native getconf(1)
06-09-28 stty.c: static setmode() => set() for darwin.i386
06-09-27 head.c: handle -1c => -c1
06-09-19 pathchk.c: pathconf() => astconf()
06-09-11 tail.c: handle compatibility corner cases
06-09-08 date.c: add output write error diagnostic
06-09-04 tail.c: fix initial position for -n0, no args => no -f
06-08-28 uniq.c: add -D,--all-repeated
06-08-25 wc.c,wclib.c: add -L,--longest-line,WC_LONGEST
06-08-24 wc.c,wclib.c: implement -m and WC_MBYTE
06-08-24 rmdir.c: -sp applies to every message, add gnu -e
06-08-23 rmdir.c: add solaris --suppress,
-s
06-08-23 mkdir.c: don't add 0300 to -p final dir mode
06-07-17 cut.c: handle last line with no newline
06-07-17 cut.c: --output-delimiter == --line-delimiter
06-06-25 chmod.c: mask -c output with S_IPERM
06-05-09 uname.c: add -o; change -a to match linux
06-05-03 date.c: add --last -L to list last of multiple time args
06-02-14 tail.c: fix -f bug that lost fast stream data
06-02-11 getconf.c: exit 1 if name invalid -- duh
06-01-28 cp.c,rm.c: fix astquery() 'q' to return and not exit()
05-08-11 fmt.c: fix -o to handle raw --usage strings
05-05-17 cat.c,head.c: disable EPIPE error messages
05-04-14 chgrp.c: -f means all non-syntax error messages
05-04-11 fds.c: add from old internal open(1)
05-04-09 cmdext.h,cmdlist.h: generate from source -- about time
05-03-24 features/symlink: verify { lchmod lchown } implementations
05-03-07 date.c: add --listzones to list the time zone table
05-02-14 chmod.c: add --reference=file
05-01-11 cat.c: restore output stream to binary mode on exit
04-12-15
cp.c: add --preserve high resolution time support
04-12-08 date.c: add high resolution time support
04-12-01 cmp.c: fix %6I*ld => %6I*d -- doh
fmt.c: handle "\n\n operands \n\n"
head.c: handle -cN -nN, N > 4Gb
04-11-22 cmp.c: handle >2G chars/lines
04-11-18 fold.c: add --prepend=text, --append=text
04-10-31 tail.c: use SF_LOCKR macro

04-10-28 tail.c: use strtol() for old stype [+-]number[suffix] -- doh
04-10-22 cp.c: check rename() errno==ENOENT to retain destination
04-10-11 fmt.c: fix -o,--optget sublist bugs
tail.c: use strton() for number conversion
04-10-08 pathchk.c: add empty path and -p - first component char
04-10-01 fmt.c: add -o,--optget concatenated usage string format
stty.c: context is ERROR_INTERCATIVE
rm.c: restore 3d before exit
04-09-24 pathchk.c: fix docs
04-09-14 date.c: add %| and %& --parse docs
04-08-27 cp.c: add FTW_DC check -- duh
04-08-01 fmt.c: handle last char != '\n'
04-07-22 date.c,uname.c: access() => eaccess()
04-07-01 fmt.c: handle large
input lines -- ouch
04-06-11 id.c: fix -r to output something!
04-05-27 expr.c: fix `:' op subexpression output
04-04-15 chmod.c: follow symlink for relative mode
04-04-12 Makefile: add STDCHMOD (for osf.alpha)
04-03-19 tail.c: handle -f sfreserve() large chunk failure
04-02-29 cp.c: decouple -f and -i for standard CONFORMANCE
cp.c: mv now attempts rename() before remove()+rename()
date.c: -f format or +format disables system clock set
04-02-14 cp.c: add -F --fsync to call fsync(2) for each copied file
04-01-05 head.c: -s now uses opt_info.number for >2Gb skip
03-09-18 tail.c: add --log
03-09-11 rm.c: add --unconditional
03-08-11 fold.c: add --delimiter=c to break at c
03-07-28 features/time: change settimeofday() test to 2nd arg of (void*)0
expr.c: add {match,substr,index,length,quote}
03-07-15 fmt.c: fix trailing space bug
03-06-20 uname.c: fix -p constant string overwrite
03-06-04 stty.c: add undef to control assignment docs
03-05-31 uname.c: add -f and sysinfo()/confstr() compatibility
via astconf()
03-05-27 rm.c: fix inappropriate "/.." append path overflow
cut.c: snarf from dgk
03-05-18 rm.c: check st_nlink to verify progress w.r.t. ftwalk/fts
03-05-15 join.c: fix stealth -v2 bug (thanks ahs)
03-05-04 wc.c: drop trailing space for `wc -l < file'
03-03-21 date.c: add %Q/recent/distant/ docs
03-02-19 date.c: fix %+|!flag docs
02-11-14 update for cmdinit() 4th arg and ERROR_NOTIFY for interrupt cleanup
02-10-02 date.c: tmform() => tmfmt()
02-09-30 date.c,uname.c: change execv() calls to procrun(): exec|exit => bad
02-09-06 wclib.c: fix 1 char-at-a-time miscount bug
02-08-19 chgrp.c: convert to use <cdt.h>
02-07-23 join.c: fix comm snarf typo

02-04-05 date.c: add %u
02-01-24 stty.c: ifdef a few more macros for uts (yes, its still running)
01-12-14 date.c: clarify %z doc
01-10-31 mkdir.c: mkdir() on existing dir could fail with errno!=EEXIST
uname.c: add execve() loop check for unknown options
01-10-29 tail.c: SF_SHARE on only if not reading through EOF
01-10-11
getconf.c: fix usage typos
01-09-11 cp.c,cmd.h: handle . in argv[0]
cp.c: add O_BINARY to all open() calls
01-09-06 tail: input streams must be SF_SHARE -- duh
01-07-16 stty: fix cntl() macro for CC_NATIVE!=CC_ASCII
01-05-31 date: fix /bin/date fallback logic
stty: fix a few mismatched flags, -a and -g option logic
stty: tone down sane to modify current settings rather than from zero
01-05-01 uname: -i => -h, add sol.sun4 -i, add sgi -R, punt to /usr/bin/uname
01-04-17 date,rm: add
01-03-07 cp: fix readonly string mod on "."
01-01-23 cp: `cp foo' => `cp foo .' only for CONFORMANCE!=standard
00-12-01 cut: multibyte support
00-10-31 mkdir: handle races by checking EEXIST
00-09-20 cp: copy argv to stack before modifying in place
00-05-18 add setlocale(LC_ALL,"")
00-04-30 join: drop weird opt_info.argv reference
00-03-17 expr: add == operator -- duh
cp,ln,mv: delay pathcanon() on destination to verify `cp a b/.'
getconf: use astgetconf for proper message control
ERROR_translate:
dictionary update
00-03-08 tail: handle multiple -f files
00-03-07 fmt: add
00-03-07 dirname: handle PATH_LEADING_SLASHES as documented
tail: accept + options
00-02-14 chmod: --ignore-umask to ignore umask(2) in symbolic expressions
chmod,chgrp,cp: use FTS_NOSEEDOTDIR for correct path construction
cat: fix -n (was ignored, wow)
00-01-27 getconf: add "-a" and "-v spec" for sol7.* compatibility
99-09-09 join: fix -j1 vs. -j 1, add --ignorecase
99-06-22 paste: defualt delim in writable string
99-06-16 cat: fix --dos-ouput typo
99-06-11 cp: tighten chown() diagnostics
99-06-08 expr: nothing for NULL string bug fix
99-05-21 paste: fix missing newline columnize bug
99-05-20 mv: do not check for `mv foo foo' since rename() handles it
99-05-01 cmp,comm,cp/mv/ln,expr,fold,getconf,head: long options
join,logname,paste,pathchk,tail,tee: long options
99-04-10 uname: long options, stdize -a
chmod,head,tail,rev: long options

cut: long options, pass regression test 02
99-04-07
cat: long options, fix O_TEXT modes
99-01-11 tail: fix +n
join: another ggs/psm bug
join: all 1 and/or 2 to be unseekable
99-01-01 cp: fix -p
chmod: drop -l option because of clash with l (lock) mode
98-12-25 cat: add -T to sfopen(,,"rt")
98-11-11 chgrp,chmod: cannot open file stream => not found
join: fix another ggs/psm bug; thanks guys
98-10-20 cp: fix cp -rp to update dir times too
98-09-22 join: fix ggs null field bug
98-08-11 join: fix last regression test bug
98-05-29 join: add jp->common to handle boundary conditions
98-03-11 cat,cp,rev,tee: fix sfmove() error checks
98-03-01 join: fix bug that emitted records more than once after eof
cp: fix sfmove() error check
98-02-14 cp: -R physical, -[HLP], -r getconf(PATH_RESOLVE)
98-01-11 cp: check sfclose() return value
98-01-07 chown,chgrp,chmod: use fts for -R
mkdir: fix -p default mode
97-12-07 mkdir: fix umask() reset
97-11-11 chown,chgrp: proper interpretation of -h,-l for lchown()
chown,chgrp: only chown() if uid or
gid change
97-10-31 mkdir: do umask right
97-08-11 cmdinit: clear opt_info.index to allow multiple calls
cp,ln,mv: add
97-07-17 join: fix a few more -a bugs
97-05-31 expr: optget() only if CONFORMANCE==standard
97-04-01 join: fix a few bugs that make it work!
96-12-25 head: sfset(sfstdin,SF_SHARE,1)
Makefile: add -last to cmd lib list
drop function __IMPORT__
96-08-11 tail: check for truncated file and rewind for -f
96-04-08 update <cmd.h>
96-02-29 uname: -a like std, -l for everything
id: add -a (default)
96-02-14 wc: speed up inner loop newline breakout
96-01-30 unused var cleanup
96-01-01 AT&T Research now
pathchk: handle getcwd(0,0) error
expr: switch to <regex.h>
95-11-11 add expr.c
fix cut exit code and -s optimization
95-10-11 add extern b_* to cmd.h
add void* context 3rd arg to b_main()

95-05-09 add getconf
  cat -u avoids mmap
  add chown|chgrp -m uid|gid map file
  add chown|chgrp -P for systems with lchown(2)
  chown|chgrp -P => lstat() too!
  chmod|chown|chgrp
 -HLP
95-04-01 version 1.2
  add rmdir
95-02-14 fix mkdir -p symlink bug
  fix mkdir '/' skip bug that went one too far

::::::::: libcoshell :::::::::

12-02-22 coinit.c: handle non-identifier export var names
11-12-13 cowait.c: handle sfpoll() error return on interrupt
11-11-21 cowait.c: poll before blocking read to weed out killed jobs (no 'x' message)
11-08-30 codata.c,coopen.c: drop macro "..." catenation for old cc
10-08-11 coinit.c: force _BLD_DLL for environ intercept
10-06-01 sync with ast api 20100601
10-05-19 cokill.c: do cowait(co,co,0) to drain pending messages
10-05-15 coshell.h,coopen.c: add CO_ORPHAN for PROC_ORPHAN
10-05-11 coopen.c: add PROC_ORPHAN for CO_SHELL
10-05-10 coopen.c: no atexit() for CO_SHELL
10-04-15 first ksh93u local job pool tests work (service daemon tbd)
10-04-14 cowait.c: add 3rd cowait() arg timeout; 0 Coshell_t* operates on all open coshells
10-04-10 coshell.h: add CO_SHELL for shell using coshell!
09-12-09 coexport.c: add runtime CO_ENV_EXPORT hook
 that avoids changing environ
08-10-28 coopen.c: close write side of parent msgfd -- doh
08-04-28 coexec.c: check for fd 1,2 equivalence before CO_SERIALIZE 2>&1
07-10-29 coshell.h,coexec.c: fix procrun()/system() intercept logic
07-08-15 add CO_SEPARATE,CO_MODE_SEPARATE for separate shell+wait per action
07-04-09 Makefile: $(CC.PIC) to allow archive to be pulled into other dlls
06-08-22 coshell.h: procrun => coprocrun, system => cosystem
06-08-09 coshell.h: export CO_ENV_MSGFD for COSHELL=coshell
06-08-02 coexec.c: Cojob_t.flags&CO_SERVICE for service requests
06-08-02 cokill.c: cokill() signal==0 => kill CO_SERVICE jobs
06-07-27 coexec.c: drop server cowait() that bypassed caller
06-06-21 coexec.c: add non-block cowait() to drain responses
06-06-11 fix service intercept cleanup
06-05-24 add service=name:init lightweight service intercepts
05-04-19 cowait.c: beef up invalid message tests and diagnostics
05-04-11 drop fixed CO_MSGFD for $_coshell_msgfd
05-04-07 coexec.c: fix !_lib_fork&&_map_spawnve
 close-on-exec redirection
04-09-22 cowait.c: remove CO_SERIALIZE temporaries after listing -- duh
04-09-01 co*: add CO_SERIALIZE

04-07-22 system.c: access() => eaccess()
04-02-11 coinit.c: fix CO_CROSS PATH initialization
02-10-30 coclose.c: fix reference-after-free bug in coclose()
02-01-31 codata.c,coopen.c: fix CO_MSGFD parameterization
02-01-24 coopen.c: fix small memory leak
01-10-26 coopen.c: hung sfclose(fp) -> close(sffileno(fp)) -- wow
01-09-11 coinit.c: fix coident[] for ancient bsh that die on `test == 1'
coinit.c: and fix coident[] to weed out buggy ksh88i trap on exit
01-05-31 co*: add CO_CROSS, expose CO_DEVFD
01-04-23 coquote: add state.type to avoid getenv() overwrite on some systems
01-01-01 cokill: killjob => cokilljob, killshell => cokillshell
00-12-18 coinit: CO_OSH ? "${!-$$}" : "${!:-$$}"
00-10-25 codata: $ZSH_VERSION is not ksh
00-02-14 procrun,system: system(3) returns wait() status (not shell status)
99-11-19 co*: add CO_OSH for bsdi lack of
times(1)
coexec: CO_IGNORE for all but real ksh
98-06-22 coinit: quote cd path arg

:::::::: libsum ::::::::

12-02-29 sum-sha2.c: bitcount[] order reversed to allow a single noalias buffer copy
09-09-28 sumlib.c: use simple (faster) method name match function
08-06-05 sum-lmd.c: align context to largest int
08-05-01 sumlib.c: add some -lmd verification checks
08-02-11 sum-lmd.c,features/sum: add wrapper for solaris -lmd
07-10-29 sum.h,sumlib.c: add SUM_LEGACY for legacy output format
07-09-21 sum-sha1.c: reinstate Steve Reid's public domain implementation
07-07-26 sumlib.c: drop GPL sum-sha1.c
05-02-14 sumlib.c: split into sum-*.c
05-02-14 sum-sha2.c: add SHA { 256 384 512 }
04-02-29 Makefile: compile with $(CC.PIC) for codexlib/sum $(CC.DLL)
03-12-16 add { crc prng } generic methods and maps[] to these methods
03-12-16 sum.h,sumlib.c: add sumdata()
03-09-29 sumlib.c: fix FNV to use ^ instead of +
03-04-28 sumlib.c: drop md5 `zeroize' for performance
sumlib.c: add FIPS 180-1 SHA-1

::::::::
libdll ::::::::

12-07-25 add debug diagnostics
11-10-11 dll_lib.c: add { dllnames() dll_lib() }
10-10-20 dllscan.c: version arg "-" => 0
10-10-19 dllplug.c: fix bug that wiped out dlopen() error message
10-10-19 dllplug.c: un-localize lookup names (happens with cut and paste)
10-10-19 dllscan.c: still no code for implicit libs missed by dlopen()
10-08-02 dllplug.c: fix local path dllcheck() call

10-05-28 dllplug.c: add dllplugin() with dllcheck() version check
10-05-28 dllcheck.c: add dllcheck() to do plugin_version() checks
10-05-28 dllerror.c: add dllerror(int retain) for dll*() and dl*() messages
09-11-17 dllscan.c: handle name[-.]version in dlsopen()
09-04-15 dllopen.c: add, use dllopen() internally to wrap dlopen()
08-05-12 dllscan.c: LIBSUFFIX==.dylib => default plugin version match 0.0
06-10-11 dllscan.c: check sfstruse() return values -- doh
06-01-25 dllplug.c: add errorf() library message for dlopen() error
05-02-14 dllscan.c: "" || "-" => NiL
04-10-01 dllfind.c:
drop ksh "builtin" workaround
dllscan.c: directory prefix in name limits search to dir and siblings
04-07-22 dllscan.c: access() => eaccess()
04-01-30 dllfind.c: dllplug(error_info.id) then dllplug(0)
04-01-28 dllscan.c: update for new plugin scheme: lib/foo/bar.xxx
dllplug.c: add dllplug() for plugin dllfind()
03-03-12 dllfind.c: dlopen() with RTLD_GLOBAL|RTLD_PARENT defaults
03-02-11 dllscan.c: change LIBPATH to <dir>[:<env>[:<pat>]][,...]
03-01-08 dllscan.c: hack version logic again -- is consistency rocket science?
03-01-07 dlfcn.c: fix darwin.ppc dlopen/dlsym/dlclose
02-11-18 dllfind.c: add path,size args (with backwards compatibility checks)
02-11-15 dllfind.c: check for ./path if '.' in path but no '/'
02-08-30 dllfind.c: fix a bug that returned uninitialized value on not found
02-08-28 dllscan.c: handle and display bin as a sibling dir
02-07-31 dllscan.c: add dllsopen,dllsread,dllsclose
dllfind.c: use dllsopen,dllsread,dllsclose
02-07-26 dllfind.c: add dllinfo()
02-06-27
dllnext.c: define _GNU_SOURCE to enable RTLD_NEXT
02-03-17 dllfind.c: fix dll prefix search (for cygwin)
02-01-11 features/dll: include <dlfcn.h> only if _hdr_dlfcn&&_lib_dlopen
01-10-31 dlfcn.c: change hp.pa dlopen() prototype (<dlfcn.h> but no -ldl!)
01-09-25 dllfind: add LIBSUFFIX
01-07-17 dllfind: do at least one dlopen() to prime dlerror()
01-05-29 dlopen: fix dlopen(0,0) for HP
01-04-20 dllfind: use getconf HOSTTYPE LIBPATH LIBSUFFIX
01-02-14 features/dll: fix unbalanced ' quote and ancient hostinfo reference
00-01-26 dlllook: add -- dlsym() with `_' weak prefix fallback
99-04-01 features/dll: drop <stdio.h> -- iffe protos printf
99-03-19 static=1 for all but win32.*
98-06-01 dllfind: fix version search
98-03-11 features/dll: probe for _DLL_RLD_SYM
98-03-01 dllnext: fix to work!
98-01-23 -ldl test moved to lib0ast
98-01-11 update for astconf("LIBPATH")
add dllnext(flags) to uncover next layer
dllfind() and dllnext() in separate files (for 3d)
97-10-11 move from libast so libast

can link static

ast-ksh :PACKAGE: ksh93 libast libcmd libcoshell libsum libdll

:COVERS: ksh

:LICENSE: *.open

:CATEGORY: shells

:INDEX: ksh and support libraries

:DESCRIPTION:
The AT&T Software Technology ast-ksh package from AT&T Research
contains ksh and support libraries. This is the minimal set of
components needed to build ksh.

:DETAILS: cyg
:README:
This package installs a standalone ksh93 executable ksh93.exe
and its man page ksh93.1. If /bin/ksh.exe does not exist then
these symlinks
/bin/ksh.exe => ksh93.exe
/usr/share/man/man1/ksh93.1 => ksh.1
are created. This allows alternative ksh impelementations,
e.g., /bin/pdksh.exe, to be selected by changing the ksh.exe
and ksh.1 symbolic links. In addition, ksh and ksh93 paths are
added to /etc/shells if not already present.
$()
Each builtin or special command accepts the --man and --html

options to list the man page on the standard error. The
--???
option describes the self documenting options available to all
builtin and special commands.
$()
The stanadlone ksh is statically linked with the ast libcmd
library which provides several builtin versions of /bin
commands. "builtin | grep /opt/ast/bin" lists the libcmd
builtins on the standard output. /opt/ast/bin/FOO accesses
the FOO builtin, whether the /opt/ast/bin directory exists
or not. "builtin FOO" allows /opt/ast/bin/FOO to be accessed
as FOO, bypassing the $PATH setting. To enable all libcmd
builtins do one of the following:
  (a) create the directory /opt/ast/bin and the file
      /opt/ast/bin/.paths with this line
       BUILTIN_LIB=.
      and place /opt/ast/bin before /bin and /usr/bin in $PATH
      (this will affect all ksh subshells and scripts)
  (b) run "builtin $(builtin | sed -e '/\//!d' -e 's,.*/,,')"
      (this will affect only the current shell)
Some scripts may run significantly faster with libcmd builtins
enabled.
$()
The
ast library checks the DOSPATHVARS environment variable
for variable path values to convert to and from native windows
format when cross-executing between cygwin and non-cygwin
programs. The value is a space separated list of environment
variables to convert. PATH is handled by cygwin so it is not
converted by the ast library.
$()
The astksh cygwin source package provides a bootstrap build
environment that is not suited for an edit/build/debug cycle.
If you want to explore and modify the source then you should
install the (non-cygwinized) ast-base package which includes
AT&T nmake. With ast-base you will also be able to regenerate
the astksh cygwin source and binary packages.
$()
For more information on ksh and other AT&T ast tools see
   http://www.research.att.com/sw/download/

```
* information on the Apache Software Foundation, please see
* <http://www.apache.org/>.
*/
/**
  * Determines if the contents of a PatternMatcherInput, starting from the
  * current offset of the input contains a pattern.
  * If a pattern match is found, a MatchResult
   * instance representing the <b>first</b> such match is made acessible via
  * {@link #getMatch()}.  The current offset of the
  * PatternMatcherInput is set to the offset corresponding to the end
  * of the match, so that a subsequent call to this method will continue
  * searching where the last call left off.  You should remember that the
  * region between the begin and end offsets of the PatternMatcherInput are
  * considered the input to be searched, and that the current offset
  * of the PatternMatcherInput reflects where a search will start from.
  * Matches extending beyond the end offset of the PatternMatcherInput
  * will not be matched.  In other words, a match must occur entirely
  * between the begin and end offsets of the input.  See
  * {@link org.apache.oro.text.regex.PatternMatcherInput PatternMatcherInput}
  * for more details.
  * <p>
  * As a side effect, if a match is found, the PatternMatcherInput match
  * offset information is updated.  See
 the PatternMatcherInput
  * {@link org.apache.oro.text.regex.PatternMatcherInput#setMatchOffsets
  * setMatchOffsets(int, int)} method for more details.
  * <p>
  * The pattern must be an AwkPattern instance, otherwise a
  * ClassCastException will be thrown.  You are not required to, and
  * indeed should NOT try to (for performance reasons), catch a
  * ClassCastException because it will never be thrown as long as you use
  * an AwkPattern as the pattern parameter.
  * <p>
  * This method is usually used in a loop as follows:
  * <blockquote><pre>
  * PatternMatcher matcher;
  * PatternCompiler compiler;
  * Pattern pattern;
  * PatternMatcherInput input;
  * MatchResult result;
  *
  * compiler = new AwkCompiler();
  * matcher  = new AwkMatcher();
  *
  * try {
  *   pattern = compiler.compile(somePatternString);
  * } catch(MalformedPatternException e) {
  *   System.err.println("Bad pattern.");
```

```
 *   System.err.println(e.getMessage());
 *   return;
 * }
 *
 * input   = new PatternMatcherInput(someStringInput);
 *
 * while(matcher.contains(input, pattern)) {
 *   result = matcher.getMatch();
 *   // Perform whatever processing on the result you want.
 * }
 *
 * </pre></blockquote>
 * <p>
 * @param input  The PatternMatcherInput to test for a match.
 * @param pattern  The Pattern to be matched.
 * @return True if the input contains a pattern match, false otherwise.
 * @exception ClassCastException If a Pattern instance other than an
 *         AwkPattern is passed as the pattern parameter.
 */

Apache License

Version 2.0, January 2004

http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not

pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental,
or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted
against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial
revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,

and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work,

excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions

of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. 1.751 http2-server 9.4.48.v20220622

1.751.1 Available under license :

This program and the accompanying materials are made available under the
terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are
distributed by that particular Contributor. A Contribution 'originates'
from a Contributor if it was added to the Program by such
Contributor
itself or anyone acting on such Contributor's behalf. Contributions do not
include additions to the Program which: (i) are separate modules of
software distributed in conjunction with the Program under their own
license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are
necessarily infringed by the use or sale of its Contribution alone or when

combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform,
distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein,
no assurances are provided by any
Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program
in object code form under
its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and
b) its license agreement:
i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and
iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a
medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and
b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial
product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:
a) promptly notify the Commercial Contributor in writing of such claim, and
b) allow the Commercial Contributor to control, and cooperate with the

Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example,
a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining
the appropriateness of using
and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable
law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution
of the Program as soon as
reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after
a new version of the
Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

Apache License
Version 2.0, January 2004

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally

submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously
marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or
Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative
Works; within the Source form or
documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions)
on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct, indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited
to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache
License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

1.753 junit 4.13.2

1.753.1 Available under license :

JUnit

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and
b) in the case of each subsequent Contributor:

i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are
not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free
patent license under
Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the

Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise.
As a condition to
exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied
warranties or conditions of merchantability
and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

1.754 patch 2.7.1-12.el7_7

1.754.1 Available under license :

GNU GENERAL PUBLIC LICENSE
Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to

any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to

avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a

menu, a prominent item in the list meets this criterion.

1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered
by this License only if the output, given its
content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed;
section 10
makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately
publish on each copy an appropriate copyright notice;
keep intact all notices stating that this License and any

non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided,

in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of

it) with contractual assumptions of liability to the recipient, for
any liability that these contractual assumptions directly impose on

those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions;
the above
requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright
holder, and you cure the violation prior to 30 days after
your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights
granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The

work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or
that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will

be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17.

Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively state the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software: you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation, either version 3 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program. If not, see <http://www.gnu.org/licenses/>.

Also add information on how to contact you by electronic and paper mail.

If the program does terminal interaction, make it output a short notice like this when it starts in an interactive mode:

<program> Copyright (C) <year> <name of author>
This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it

under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, your program's commands might be different; for a GUI interface, you would use an "about box".

You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if necessary. For more information on this, and how to apply and follow the GNU GPL, see <http://www.gnu.org/licenses/>.

The GNU General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. But first, please read <http://www.gnu.org/philosophy/why-not-lgpl.html>.

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial content
Distributed under this Agreement, and

b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;
where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.

"Contributor" means any person or
entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that
contains any contents of the Program. Modified
Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free
copyright
license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall

apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands
that although each Contributor grants the
licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant

the copyright license set forth in this Agreement.

e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:
i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including

warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b) a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified

Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing
of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN
THIS AGREEMENT, AND TO THE EXTENT
PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,
SPECIAL,
EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE

EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel

or otherwise. All rights in the Program not expressly granted
under this Agreement are reserved. Nothing in this Agreement is intended
to be enforceable by any entity that is not a Contributor or Recipient.
No third-party beneficiary rights are created under this Agreement.

Exhibit A - Form of Secondary Licenses Notice

"This Source Code may also be made available under the following
Secondary Licenses when the conditions for such availability set forth
in the Eclipse Public License, v. 2.0 are satisfied: {name license(s),
version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A
is not sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular
file, then You may include the notice in a location (such as a LICENSE
file in a relevant directory) where a recipient would be likely
to
look for such a notice.

You may add additional accurate notices of copyright ownership.

The GNU General Public License (GPL) Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor
Boston, MA 02110-1335
USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to
share and change it. By contrast, the GNU General Public License is
intended to guarantee your freedom to share and change free software--to
make sure the software is free for all its users. This General Public
License applies to most of the Free Software Foundation's software and
to any other program whose authors commit to using it. (Some other Free
Software Foundation software is covered by the GNU Library General
Public License instead.)
You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price.

Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you
must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed
at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term

"modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted,
and the output from the Program is
covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications
or work under the terms of Section 1 above, provided
that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how
to view a copy of this License.
(Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and

can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed

need not include anything that is
normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have
their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible
for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you

could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular
circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted
in
certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the

Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF
TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

One line to give the program's name and a brief idea of what it does.
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or

(at your option) any later version.

This program is distributed in the hope that it will be useful, but
WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
General Public License for more details.

You should have received a copy of the GNU General Public License
along with this program; if not, write to the Free Software
Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type
`show w'. This is free software, and you are welcome to redistribute
it under certain conditions; type `show c' for details.

The hypothetical commands `show
w' and `show c' should show the
appropriate parts of the General Public License. Of course, the commands
you use may be called something other than `show w' and `show c'; they
could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
program `Gnomovision' (which makes passes at compilers) written by
James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program
into proprietary programs. If your program is a subroutine library, you
may consider it more useful to permit linking proprietary applications
with the library. If this is what you want to do, use the GNU
Library
General Public License instead of this License.

CLASSPATH EXCEPTION

Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination.

As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If
you do not wish to do so, delete this exception statement from your version.

Apache License
Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation

source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this

License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

Copyright [yyyy] [name of copyright owner]

distributed under the License is distributed on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied.
See the License for the specific language governing permissions and
limitations under the License.
Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE
PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION
OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial content

Distributed under this Agreement, and

b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;
where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.

"Contributor"
means any person or entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity
any new file
in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License,

Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution.
No hardware per se is
licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its
knowledge it has
sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License

(if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b) the Contributor
may Distribute the Program under a license
different than this Agreement, provided that such license:
i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed
as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b) a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations

of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF

TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT
AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward

reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions)
under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.

Exhibit A - Form of Secondary Licenses Notice

"This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license
the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

The GNU General Public License (GPL) Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor
Boston, MA 02110-1335
USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is
free for all its users. This General Public
License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you
if you
distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program
is threatened constantly by software patents.
We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program

proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties

under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must
cause it, when started running for such
interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same
sections as part of a whole which is a work based on
the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do
one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be

distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with
Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled
to copy the source
along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions
for copying, distributing or modifying the
Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the

original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not
distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may

differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER
PARTY WHO MAY MODIFY
AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it

free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

One line to give the program's name and a brief idea of what it does.
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by

James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

CLASSPATH EXCEPTION

Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination.

As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies

of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially
designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you
distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that

there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free

programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of

running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified
work as a whole. If
identifiable sections of that work are not derived from the Library,
and can be reasonably considered independent and separate works in
themselves, then this License, and its terms, do not apply to those
sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based
on the Library, the distribution of the whole must be on the terms of
this License, whose permissions for other licensees extend to the
entire whole, and thus to each and every part regardless of who wrote
it.

Thus, it is not the intent of this section to claim rights or contest
your rights to work written entirely by you; rather, the intent is to
exercise the right to control the distribution of derivative or
collective works based on the Library.

In addition, mere aggregation of another work not based on the Library
with the Library (or with a work based on the Library) on a volume of
a storage or distribution medium does not
bring the other work under
the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public
License instead of this License to a given copy of the Library. To do
this, you must alter all the notices that refer to this License, so
that they refer to the ordinary GNU General Public License, version 2,
instead of to this License. (If a newer version than version 2 of the
ordinary GNU General Public License has appeared, then you can specify
that version instead if you wish.) Do not make any other change in
these notices.

Once this change is made in a given copy, it is irreversible for
that copy, so the ordinary GNU General Public License applies to all
subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of
the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or
derivative of it, under Section 2) in object code or executable
form
under the terms of Sections 1 and 2 above provided that you accompany
it with the complete corresponding machine-readable source code, which
must be distributed under the terms of Sections 1 and 2 above on a
medium customarily used for software interchange.

If distribution of object code is made by offering access to copy

from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that
is a derivative of the Library (because it
contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall
under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work

during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing
the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system,
rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it.
However, as a special exception,
the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with

this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest

possible use to the public, we recommend making it free software that
everyone can redistribute and change. You can do so by permitting
redistribution under these terms (or, alternatively, under the terms of the
ordinary General Public License).

To apply these terms, attach the following notices to the library. It is
safest
to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least the
"copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or
modify it under the terms of the GNU Lesser General Public
License as published by the Free Software Foundation; either
version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public
License along with this library; if not, write to the Free Software

Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the library, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!
There are two licenses, one for the C library software, and one for
the database.

SOFTWARE LICENSE (C library)

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price.

Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which
gives you legal permission to copy,
distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work
are not derived from the Program,
and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to

address new problems or concerns.

Each version is given a distinguishing
version number. If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and conditions
either of that version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of
this License, you may choose any version ever published by the Free Software
Foundation.

10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the author
to ask for permission. For software which is copyrighted by the Free
Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this. Our decision will be guided by the two goals
of preserving the free status of all derivatives of our free software and
of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE,
THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE
PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,

REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED

YOU OR
THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest

possible use to the public, the best way to achieve this is to make it
free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest
to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least
the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify
it under the terms of the GNU
General Public License as published by
the Free Software Foundation; either version 2 of the License, or
(at your option) any later version.

This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.

You should have received a copy of the GNU General Public License along
with this program; if not, write to the Free Software Foundation, Inc.,
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute
it
under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate
parts of the General Public License. Of course, the commands you use may
be called something other than `show w' and `show c'; they could even be
mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program
`Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution

notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor

has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain

separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without

modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts
as the successor of the GNU Library Public License, version 2, hence
the version number 2.1.]

Preamble

The licenses for most software are designed to take away your
freedom to share and change it. By contrast, the GNU General Public
Licenses are intended to guarantee your freedom to share and change
free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some
specially designated software packages--typically libraries--of the
Free Software Foundation and other authors who decide to use it. You
can use it too, but we suggest

you first think carefully about whether
this license or the ordinary General Public License is the better
strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use,
not price. Our General Public Licenses are designed to make sure that
you have the freedom to distribute copies of free software (and charge
for this service if you wish); that you receive source code or can get
it if you want it; that you can change the software and use pieces of
it in new free programs; and that you are informed that you can do
these things.

To protect your rights, we need to make restrictions that forbid
distributors to deny you these rights or to ask you to surrender these
rights. These restrictions translate to certain responsibilities for
you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis
or for a fee, you must give the recipients
all the rights that we gave
you. You must make sure that they, too, receive or can get the source
code. If you link other code with the library, you must provide
complete object files to the recipients, so that they can relink them
with the library after making changes to the library and recompiling
it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the
library, and (2) we offer you this license, which gives you legal
permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that
there is no warranty for the free library. Also, if the library is
modified by someone else and passed on, the recipients should know
that what they have is not the original version, so that the original
author's reputation will not be affected by problems that might be
introduced by others.

Finally, software patents pose a constant threat to the existence
of
any free program. We wish to make sure that a company cannot
effectively restrict the users of a free program by obtaining a
restrictive license from a patent holder. Therefore, we insist that
any patent license obtained for a version of the library must be
consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the
ordinary GNU General Public License. This license, the GNU Lesser
General Public License, applies to certain designated libraries, and

is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits
its criteria of freedom. The Lesser General
Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use
the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library

with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.
Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables
containing that work also fall under Section 6,
whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable
source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user
installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major
components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under

the terms of the
Sections above.

b) Give prominent notice with the combined library of the fact
that part of it is a work based on the Library, and explaining
where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing
the Library (or any work based on the
Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute
so as to satisfy simultaneously your obligations under this
License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any

particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of

all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL
DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Apache License
Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the

direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding

those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
copyright license to reproduce, prepare Derivative Works of,
publicly display, publicly perform, sublicense, and distribute the
Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
this License,
each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
(except as stated in this section) patent license to make, have made,
use, offer to sell, sell, import, and otherwise transfer the Work,
where such license applies only to those patent claims licensable
by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s)
with the Work to which such Contribution(s) was submitted. If You
institute patent litigation against any entity (including a
cross-claim or counterclaim in a lawsuit) alleging that the Work
or a Contribution incorporated within the Work constitutes direct
or contributory patent infringement, then any patent licenses
granted to You under this License for that Work shall terminate
as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without
modifications, and in Source or Object form, provided that You
meet the following conditions:

(a) You must give any other recipients of the Work or
Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices
stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade

names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

1.764 shindig-common 1.1-BETA6-SNAPSHOT

1.764.1 Available under license :

Apache Shindig Common Code is an effort undergoing incubation at the Apache Software Foundation (ASF), sponsored by the Apache Incubator PMC.

Incubation is required of all newly accepted projects until a further review indicates that the infrastructure, communications, and decision making process have stabilized in a manner consistent with other successful ASF projects.

While incubation status is not necessarily a reflection of the completeness or stability of the code, it does indicate that the project has yet to be fully endorsed by the ASF.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial
revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,

and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work,

excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions

of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s)

with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

1.766 http2-common 9.4.48.v20220622

1.766.1 Available under license :

This program and the accompanying materials are made available under the
terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are
distributed by that particular Contributor. A Contribution 'originates'
from a Contributor if it was added to the Program by such
Contributor
itself or anyone acting on such Contributor's behalf. Contributions do not
include additions to the Program which: (i) are separate modules of
software distributed in conjunction with the Program under their own
license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform,
distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein,
no assurances are provided by any
Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program

in object code form under
its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and
b) its license agreement:
i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and
iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a
medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and
b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial
product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property

infringement. In order to qualify, an Indemnified Contributor must:
a) promptly notify the Commercial Contributor in writing of such claim, and
b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example,
a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining
the appropriateness of using
and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under
applicable

law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or
Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices
stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative
Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,

except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions)
on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited
to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache
License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate

as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work

by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price.
Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and

(2) offer you this license which
gives you legal permission to copy,
distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain
that everyone understands that there is no warranty for this free
software. If the software is modified by someone else and passed on, we
want its recipients to know that what they have is not the original, so
that any problems introduced by others will not reflect on the original
authors' reputations.

Finally, any free program is threatened constantly by software
patents. We wish to avoid the danger that redistributors of a free
program will individually obtain patent licenses, in effect making the
program proprietary. To prevent this, we have made it clear that any
patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and
modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains
a notice placed by the copyright holder saying it may be distributed
under the terms of this General Public License. The "Program", below,
refers to any such program or work, and a "work based on the Program"
means either the Program or any derivative work under copyright law:
that is to say, a work containing the Program or a portion of it,
either verbatim or with modifications and/or translated into another
language. (Hereinafter, translation is included without limitation in
the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of
running the Program is not restricted, and the output from the Program
is covered only if its contents constitute a work based on the
Program (independent of having been made by running the Program).
Whether that is true depends on what the
Program does.

1. You may copy and distribute verbatim copies of the Program's
source code as you receive it, in any medium, provided that you
conspicuously and appropriately publish on each copy an appropriate
copyright notice and disclaimer of warranty; keep intact all the
notices that refer to this License and to the absence of any warranty;
and give any other recipients of the Program a copy of this License
along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under

the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such

parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor

to decide if he or she is willing
to distribute software through any other system and a licensee cannot
impose that choice.

This section is intended to make thoroughly clear what is believed to
be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in
certain countries either by patents or by copyrighted interfaces, the
original copyright holder who places the Program under this License
may add an explicit geographical distribution limitation excluding
those countries, so that distribution is permitted only in or among
countries not thus excluded. In such case, this License incorporates
the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions
of the General Public License from time to time. Such new versions will
be similar in spirit to the present version, but may differ in detail to
address new problems or concerns.

Each version is given a distinguishing
version number. If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and conditions
either of that version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of
this License, you may choose any version ever published by the Free Software
Foundation.

10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the author
to ask for permission. For software which is copyrighted by the Free
Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this. Our decision will be guided by the two goals
of preserving the free status of all derivatives of our free software and
of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE,
THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE
PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,

REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU
OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the
GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this

when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute
it
under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program
`Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is
what you want to do, use the GNU Library General
Public License instead of this License.

   Eric S. Raymond
   Mans Rullgard
   Cosmin Truta
   Gilles Vollant
   James Yu
   Mandar Sahastrabuddhe
   Google Inc.
   Vadim Barkov

and with the following additions to the disclaimer:

   There is no warranty against interference with your enjoyment of
   the library or against infringement. There is no warranty that our
   efforts or the library will fulfill any of your particular purposes
   or needs. This library is provided with all faults, and the entire
   risk of satisfactory quality, performance, accuracy, and effort is
   with the user.

Some files in the "contrib" directory and some configure-generated
files that are distributed with libpng have other copyright owners, and
are released under other open source licenses.

libpng versions 0.97, January 1998, through 1.0.6, March 20, 2000, are
Copyright (c) 1998-2000 Glenn Randers-Pehrson,
are derived from
libpng-0.96, and are distributed according to the same disclaimer and
license as libpng-0.96, with the following individuals added to the
list of Contributing Authors:

Tom Lane
Glenn Randers-Pehrson
Willem van Schaik

libpng versions 0.89, June 1996, through 0.96, May 1997, are
Copyright (c) 1996-1997 Andreas Dilger, are derived from libpng-0.88,
and are distributed according to the same disclaimer and license as
libpng-0.88, with the following individuals added to the list of
Contributing Authors:

John Bowler
Kevin Bracey
Sam Bushell
Magnus Holmgren
Greg Roelofs
Tom Tanner

Some files in the "scripts" directory have other copyright owners,
but are released under this license.

libpng versions 0.5, May 1995, through 0.88, January 1996, are
Copyright (c) 1995-1996 Guy Eric Schalnat, Group 42, Inc.

For the purposes of this copyright and license, "Contributing Authors"
is defined as the following set of individuals:

Andreas Dilger
Dave Martindale
Guy Eric Schalnat
Paul Schmidt
Tim Wegner

The PNG Reference Library is supplied "AS IS". The Contributing
Authors and Group 42, Inc. disclaim all warranties, expressed or

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the

outstanding shares, or (iii) beneficial ownership of such
entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source
code control systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed

as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as
required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special,

incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work

(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work

or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or

Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You

institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use,

reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding

those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the

editorial
revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of

this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

Jackson JSON processor

Jackson is a high-performance, Free/Open Source JSON processing library.
It was originally written by Tatu Saloranta (tatu.saloranta@iki.fi), and has
been in development since 2007.
It is currently developed by a community of developers, as well as supported
commercially by FasterXML.com.

Licensing

Jackson core and extension components may licensed under different licenses.
To find the details that apply to this artifact see the accompanying LICENSE file.
For more information, including possible other licensing options, contact
FasterXML.com (http://fasterxml.com).

Credits

A list of contributors may be found from CREDITS file, which is included
in some artifacts (usually source distributions); but is always available
from the source code management (SCM) system project uses.
This copy of Jackson JSON processor streaming parser/generator is licensed under the
Apache (Software) License, version 2.0 ("the License").
See the License for details about distribution rights, and the
specific rights regarding derivate works.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the

direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding

those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

Copyright [yyyy] [name of copyright owner]

==========

To the extent any open source components are licensed under the EPL and/or
other similar licenses that require the source code and/or modifications to
source code to be made available (as would be noted above), you may obtain a
copy of the source code corresponding to the binaries for such open source
components and modifications thereto, if any, (the "Source Files"), by
downloading the Source Files from https://spring.io/projects, Pivotal's website
at https://network.pivotal.io/open-source, or by sending a request, with your
name and address to: Pivotal Software, Inc., 875 Howard Street, 5th floor, San
Francisco, CA 94103, Attention:
General Counsel. All such requests should
clearly specify: OPEN SOURCE FILES REQUEST, Attention General Counsel. Pivotal
can mail a copy of the Source Files to you on a CD or equivalent physical
medium.

This offer to obtain a copy of the Source Files is valid for three years from
the date you acquired this Software product. Alternatively, the Source Files
may accompany the Software.

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed
to make sure that you
have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute
and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third

parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium

customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6.
Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to

these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions

of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest
possible use to the public, the best way to achieve this is to make it
free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest
to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least
the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify
it under the terms of the GNU General Public License as published by
the Free Software Foundation; either version 2 of the
License, or
(at your option) any later version.

This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.

You should have received a copy of the GNU General Public License
along with this program; if not, write to the Free Software
Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.

The hypothetical commands
`show w' and `show c' should show the appropriate
parts of the General Public License. Of course, the commands you use may
be called something other than `show w' and `show c'; they could even be
mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program
`Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may
consider it more useful to permit linking proprietary applications with the
library. If this is what you want to do, use the GNU Library General
Public License instead of this License.

Apache License

Version 2.0, January 2004

http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source"
form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix

below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely
link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean
Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

You must give any other recipients of the Work or Derivative Works a copy of this License; and
You must cause any modified files to carry prominent notices stating that You changed the files; and
You must retain, in the Source form of any Derivative Works that You
distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a

NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an
addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant
permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate
and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and
hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS
APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.1

1. Definitions.

1.1. "Contributor" means each individual or entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Software, prior Modifications used by a Contributor (if any), and the Modifications made by that particular Contributor.

1.3. "Covered Software" means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.

1.4. "Executable" means the Covered Software in any form other than Source Code.

1.5. "Initial Developer" means the individual or entity that first makes Original Software available under this License.

1.6. "Larger Work" means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. "License" means this document.

1.8. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means the Source Code and Executable form of any of the following:

A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications;

B. Any new file that contains any part of the Original Software or previous Modification; or

C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. "Original Software" means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. "Source Code" means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You

delete from the Original Software, or
(2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor
Version (or portions of such
combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software
in the absence of
Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form

and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients' rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient's rights in the Source Code form from

the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any
terms which differ from this License
are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works.

You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions.

Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License

if You: (a) rename the license and
remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED
HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as "Participant") alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the
Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

6.3. If You assert a patent infringement claim against Participant

alleging that the Participant Software directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

6.4. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.

The Covered Software is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" (as that term is defined at 48 C.F.R. § 252.227-7014(a)(1)) and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

9. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of
Goods is expressly excluded. Any law or
regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION
9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL)

The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

The GNU General Public License (GPL) Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor
Boston, MA 02110-1335
USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.
This General Public
License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute
copies of such a program, whether gratis
or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original

authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the

Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the

limitation as if written in the body of this License.

9. The Free Software Foundation
may publish revised and/or new
versions of the General Public License from time to time. Such new
versions will be similar in spirit to the present version, but may
differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and
conditions either of that version or of any later version published by
the Free Software Foundation. If the Program does not specify a version
number of this License, you may choose any version ever published by the
Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the
author to ask for permission. For software which is copyrighted by the
Free Software Foundation, write to the Free Software Foundation; we
sometimes make exceptions for this. Our decision will be
guided by the
two goals of preserving the free status of all derivatives of our free
software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO
WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR
OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,
EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED
WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE
ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH
YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL
NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY
AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR
DAMAGES, INCLUDING ANY
GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL
DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM
(INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF
THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR
OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

One line to give the program's name and a brief idea of what it does.
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your

school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program
into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

#

Certain source files distributed by Oracle America, Inc. and/or its affiliates are subject to the following clarification and special exception to the GPLv2, based on the GNU Project exception for its Classpath libraries, known as the GNU Classpath Exception, but only where Oracle has expressly included in the particular source file's header the words "Oracle designates this particular file as subject to the "Classpath" exception as provided by Oracle in the LICENSE file that accompanied this code."

You should also note that Oracle includes multiple, independent programs in this software package. Some of those programs are provided under licenses deemed incompatible with the GPLv2 by the Free Software Foundation and
others. For example, the package includes programs licensed under the Apache License, Version 2.0. Such programs are licensed to you under their original licenses.

Oracle facilitates your further distribution of this package by adding the Classpath Exception to the necessary parts of its GPLv2 code, which permits you to use that code in combination with other independent modules not licensed under the GPLv2. However, note that this would not permit you to commingle code under an incompatible license with Oracle's GPLv2 licensed code by, for example, cutting and pasting such code into a file also containing Oracle's GPLv2 licensed code and then distributing the result. Additionally, if you were to remove the Classpath Exception from any of the files to which it applies and distribute the result, you would likely be required to license some or all of the other code in that distribution under the GPLv2 as well, and since the GPLv2 is incompatible with the license terms of some items

included
in the distribution by Oracle, removing the Classpath
Exception could therefore effectively compromise your ability to
further distribute the package.

Proceed with caution and we recommend that you obtain the advice of a
lawyer skilled in open source matters before removing the Classpath
Exception or making modifications to this package which may
subsequently be redistributed and/or involve the use of third party
software.

CLASSPATH EXCEPTION
Linking this library statically or dynamically with other modules is
making a combined work based on this library. Thus, the terms and
conditions of the GNU General Public License version 2 cover the whole
combination.

As a special exception, the copyright holders of this library give you
permission to link this library with independent modules to produce an
executable, regardless of the license terms of these independent
modules, and to copy and distribute the resulting executable under
terms of your choice, provided that you also
meet, for each linked
independent module, the terms and conditions of the license of that
module. An independent module is a module which is not derived from or
based on this library. If you modify this library, you may extend this
exception to your version of the library, but you are not obligated to
do so. If you do not wish to do so, delete this exception statement
from your version.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License,
each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its

distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

1.784 jaxb-core 2.0.5

1.784.1 Available under license :

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.1

1. Definitions.

1.1. "Contributor" means each individual or entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Software, prior Modifications used by a Contributor (if any), and the Modifications made by that particular Contributor.

1.3. "Covered Software" means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.

1.4. "Executable" means the Covered Software in any form other than Source Code.

1.5. "Initial Developer" means the individual or entity that first makes Original Software available under this License.

1.6. "Larger Work" means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. "License" means this document.

1.8. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means the Source Code and Executable form of any of the following:

A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications;

B. Any new file that contains any part of the Original Software or previous Modification; or

C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. "Original Software" means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. "Source Code" means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on

the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available
in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You
may not
remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients' rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such
Contributor as a
result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient's rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works.

You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions.

Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it
from being distributed or otherwise made available
under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS,
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as "Participant") alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant

Software against such Participant either unilaterally
or pursuant to
a written agreement with Participant.

6.3. If You assert a patent infringement claim against Participant
alleging that the Participant Software directly or indirectly
infringes any patent where such claim is resolved (such as by
license or settlement) prior to the initiation of patent
infringement litigation, then the reasonable value of the licenses
granted by such Participant under Sections 2.1 or 2.2 shall be taken
into account in determining the amount or value of any payment or
license.

6.4. In the event of termination under Sections 6.1 or 6.2 above,
all end user licenses that have been validly granted by You or any
distributor hereunder prior to termination (excluding licenses
granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT
(INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE
INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR,
OR ANY DISTRIBUTOR OF
COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE
TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR
CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT
LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER
FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR
LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE
POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT
APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH
PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH
LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR
LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION
AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.

The Covered Software is a "commercial item," as that term is defined
in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer
software" (as that term is defined
at 48 C.F.R. §
252.227-7014(a)(1)) and "commercial computer software documentation"
as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent
with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4
(June 1995), all U.S. Government End Users acquire Covered Software
with only those rights set forth herein. This U.S. Government Rights

clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

9. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL)

The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a

copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a

cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with

the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent

to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works

that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS,

WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

1.787 jetty-continuation 9.4.48.v20220622

1.787.1 Available under license :

This program and the accompanying materials are made available under the
terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are
distributed by that particular Contributor. A Contribution 'originates'
from a Contributor if it was added to the Program by such
Contributor
itself or anyone acting on such Contributor's behalf. Contributions do not
include additions to the Program which: (i) are separate modules of
software distributed in conjunction with the Program under their own
license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform,
distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein,
no assurances are provided by any
Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program

in object code form under
its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and
b) its license agreement:
i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and
iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a
medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and
b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial
product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property

infringement. In order to qualify, an Indemnified Contributor must:
a) promptly notify the Commercial Contributor in writing of such claim, and
b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example,
a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining
the appropriateness of using
and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under
applicable

law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

Apache License
Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously
marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
copyright license to reproduce, prepare Derivative Works of,
publicly display, publicly perform, sublicense, and distribute the
Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
(except as stated in this section) patent license to make, have made,
use, offer to sell, sell, import, and otherwise transfer the Work,
where such license applies only to those patent claims licensable
by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s)
with the Work to which such Contribution(s) was submitted. If You
institute patent litigation against any entity (including a
cross-claim or counterclaim in a lawsuit) alleging that the Work
or a Contribution incorporated within the Work constitutes direct
or contributory patent infringement, then any patent licenses
granted to You under this License for that Work shall terminate
as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without
modifications, and in Source or Object form, provided that You
meet the following conditions:

(a) You must give any other recipients of the Work or
Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices
stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative
Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,

except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions)
on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited
to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache
License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

1.791 jetty-alpn-server 9.4.48.v20220622

1.791.1 Available under license :

This program and the accompanying materials are made available under the
terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are
distributed by that particular Contributor. A Contribution 'originates'
from a Contributor if it was added to the Program by such
Contributor
itself or anyone acting on such Contributor's behalf. Contributions do not
include additions to the Program which: (i) are separate modules of
software distributed in conjunction with the Program under their own
license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are
necessarily infringed by the use or sale of its Contribution alone or when
combined with the Program.

"Program" means the Contributions distributed in accordance with this
Agreement.

"Recipient" means anyone who receives the Program under this Agreement,
including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform,
distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein,
no assurances are provided by any
Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program
in object code form under
its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for

damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:

a) promptly notify the Commercial Contributor in writing of such claim, and

b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If

that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining
the appropriateness of using
and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable
law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works
that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,
and issue tracking systems that are managed by, or on behalf of, the

Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of

the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial
revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,

and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work,

excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions

of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this

License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally

submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License,
each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the

content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

*                     http://www.apache.org/licenses/
*
*   TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
*
*   1. Definitions.
*
*      "License" shall mean the terms and conditions for use, reproduction,
*      and distribution as defined by Sections 1 through 9 of this document.
*
```

```
*      "Licensor" shall mean the copyright owner or entity authorized by
*      the copyright owner that is granting the License.
*
*      "Legal Entity" shall mean the union of the acting entity and all
*      other entities that control, are controlled by, or are under common
*      control with that entity. For the purposes of this definition,
*      "control" means (i) the power, direct or indirect, to cause the
*      direction or management of such entity, whether by contract or
*      otherwise, or (ii) ownership of fifty percent (50%) or more of the
*
 outstanding shares, or (iii) beneficial ownership of such entity.
*
*      "You" (or "Your") shall mean an individual or Legal Entity
*      exercising permissions granted by this License.
*
*      "Source" form shall mean the preferred form for making modifications,
*      including but not limited to software source code, documentation
*      source, and configuration files.
*
*      "Object" form shall mean any form resulting from mechanical
*      transformation or translation of a Source form, including but
*      not limited to compiled object code, generated documentation,
*      and conversions to other media types.
*
*      "Work" shall mean the work of authorship, whether in Source or
*      Object form, made available under the License, as indicated by a
*      copyright notice that is included in or attached to the work
*      (an example is provided in the Appendix below).
*
*      "Derivative Works" shall mean any work, whether in Source or Object
*
    form, that is based on (or derived from) the Work and for which the
*      editorial revisions, annotations, elaborations, or other modifications
*      represent, as a whole, an original work of authorship. For the purposes
*      of this License, Derivative Works shall not include works that remain
*      separable from, or merely link (or bind by name) to the interfaces of,
*      the Work and Derivative Works thereof.
*
*      "Contribution" shall mean any work of authorship, including
*      the original version of the Work and any modifications or additions
*      to that Work or Derivative Works thereof, that is intentionally
*      submitted to Licensor for inclusion in the Work by the copyright owner
*      or by an individual or Legal Entity authorized to submit on behalf of
*      the copyright owner. For the purposes of this definition, "submitted"
*      means any form of electronic, verbal, or written communication sent
*      to the Licensor or its representatives,
 including but not limited to
*      communication on electronic mailing lists, source code control systems,
```

```
*      and issue tracking systems that are managed by, or on behalf of, the
*      Licensor for the purpose of discussing and improving the Work, but
*      excluding communication that is conspicuously marked or otherwise
*      designated in writing by the copyright owner as "Not a Contribution."
*
*      "Contributor" shall mean Licensor and any individual or Legal Entity
*      on behalf of whom a Contribution has been received by Licensor and
*      subsequently incorporated within the Work.
*
*   2. Grant of Copyright License. Subject to the terms and conditions of
*      this License, each Contributor hereby grants to You a perpetual,
*      worldwide, non-exclusive, no-charge, royalty-free, irrevocable
*      copyright license to reproduce, prepare Derivative Works of,
*      publicly display, publicly perform, sublicense, and distribute the
*
       Work and such Derivative Works in Source or Object form.
*
*   3. Grant of Patent License. Subject to the terms and conditions of
*      this License, each Contributor hereby grants to You a perpetual,
*      worldwide, non-exclusive, no-charge, royalty-free, irrevocable
*      (except as stated in this section) patent license to make, have made,
*      use, offer to sell, sell, import, and otherwise transfer the Work,
*      where such license applies only to those patent claims licensable
*      by such Contributor that are necessarily infringed by their
*      Contribution(s) alone or by combination of their Contribution(s)
*      with the Work to which such Contribution(s) was submitted. If You
*      institute patent litigation against any entity (including a
*      cross-claim or counterclaim in a lawsuit) alleging that the Work
*      or a Contribution incorporated within the Work constitutes direct
*      or contributory patent infringement, then any patent licenses
*       granted to You under this License for that Work shall terminate
*      as of the date such litigation is filed.
*
*   4. Redistribution. You may reproduce and distribute copies of the
*      Work or Derivative Works thereof in any medium, with or without
*      modifications, and in Source or Object form, provided that You
*      meet the following conditions:
*
*      (a) You must give any other recipients of the Work or
*          Derivative Works a copy of this License; and
*
*      (b) You must cause any modified files to carry prominent notices
*          stating that You changed the files; and
*
*      (c) You must retain, in the Source form of any Derivative Works
*          that You distribute, all copyright, patent, trademark, and
*          attribution notices from the Source form of the Work,
*          excluding those notices that do not pertain to any part of
```

```
*         the Derivative Works; and
*
*      (d) If the Work includes a "NOTICE"
 text file as part of its
*         distribution, then any Derivative Works that You distribute must
*         include a readable copy of the attribution notices contained
*         within such NOTICE file, excluding those notices that do not
*         pertain to any part of the Derivative Works, in at least one
*         of the following places: within a NOTICE text file distributed
*         as part of the Derivative Works; within the Source form or
*         documentation, if provided along with the Derivative Works; or,
*         within a display generated by the Derivative Works, if and
*         wherever such third-party notices normally appear. The contents
*         of the NOTICE file are for informational purposes only and
*         do not modify the License. You may add Your own attribution
*         notices within Derivative Works that You distribute, alongside
*         or as an addendum to the NOTICE text from the Work, provided
*         that
 such additional attribution notices cannot be construed
*         as modifying the License.
*
*      You may add Your own copyright statement to Your modifications and
*      may provide additional or different license terms and conditions
*      for use, reproduction, or distribution of Your modifications, or
*      for any such Derivative Works as a whole, provided Your use,
*      reproduction, and distribution of the Work otherwise complies with
*      the conditions stated in this License.
*
*   5. Submission of Contributions. Unless You explicitly state otherwise,
*      any Contribution intentionally submitted for inclusion in the Work
*      by You to the Licensor shall be under the terms and conditions of
*      this License, without any additional terms or conditions.
*      Notwithstanding the above, nothing herein shall supersede or modify
*      the terms of any separate license agreement you may have executed
*      with Licensor regarding such Contributions.
 *
*   6. Trademarks. This License does not grant permission to use the trade
*      names, trademarks, service marks, or product names of the Licensor,
*      except as required for reasonable and customary use in describing the
*      origin of the Work and reproducing the content of the NOTICE file.
*
*   7. Disclaimer of Warranty. Unless required by applicable law or
*      agreed to in writing, Licensor provides the Work (and each
*      Contributor provides its Contributions) on an "AS IS" BASIS,
*      WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
*      implied, including, without limitation, any warranties or conditions
*      of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
*      PARTICULAR PURPOSE. You are solely responsible for determining the
```

```
*      appropriateness of using or redistributing the Work and assume any
*      risks associated with Your exercise of permissions under this License.
*
*   8. Limitation of Liability.
 In no event and under no legal theory,
*      whether in tort (including negligence), contract, or otherwise,
*      unless required by applicable law (such as deliberate and grossly
*      negligent acts) or agreed to in writing, shall any Contributor be
*      liable to You for damages, including any direct, indirect, special,
*      incidental, or consequential damages of any character arising as a
*      result of this License or out of the use or inability to use the
*      Work (including but not limited to damages for loss of goodwill,
*      work stoppage, computer failure or malfunction, or any and all
*      other commercial damages or losses), even if such Contributor
*      has been advised of the possibility of such damages.
*
*   9. Accepting Warranty or Additional Liability. While redistributing
*      the Work or Derivative Works thereof, You may choose to offer,
*      and charge a fee for, acceptance of support, warranty, indemnity,
*      or other
 liability obligations and/or rights consistent with this
*      License. However, in accepting such obligations, You may act only
*      on Your own behalf and on Your sole responsibility, not on behalf
*      of any other Contributor, and only if You agree to indemnify,
*      defend, and hold each Contributor harmless for any liability
*      incurred by, or claims asserted against, such Contributor by reason
*      of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work,

where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and

may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this

License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

1.796.1 Available under license :

This program and the accompanying materials are made available under the
terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor
itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS
a) Subject to the terms of this Agreement, each Contributor hereby grants
Recipient a non-exclusive, worldwide, royalty-free copyright license to
reproduce, prepare derivative works of, publicly display, publicly
perform,
distribute and sublicense the Contribution of such Contributor,
if any, and such derivative works, in source code and object code form.
b) Subject to the terms of this Agreement, each Contributor hereby grants

Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein,

no assurances are provided by any

Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program

in object code form under

its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a

medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and
b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:
a) promptly notify the Commercial Contributor in writing of such claim, and
b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining
the appropriateness of using
and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable
law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution
of the Program as soon as
reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after
a new version of the
Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or

otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative

Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions)
on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct, indirect, special,
incidental, or consequential damages of any character arising as a

result of this License or out of the use or inability to use the
Work (including but not limited
to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache
License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.0

1. Definitions.

1.1. Contributor means each individual or entity that creates or contributes to
the creation of Modifications.

1.2. Contributor Version means the combination of the Original Software, prior
Modifications used by a Contributor (if any), and the Modifications made by
that particular Contributor.

1.3. Covered Software means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.

1.4. Executable means the Covered Software in any form other than Source Code.

1.5. Initial Developer means the individual or entity that first makes Original Software available under this License.

1.6. Larger Work means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. License means this document.

1.8. Licensable means
having the right to grant, to the maximum extent
possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. Modifications means the Source Code and Executable form of any of the following: A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications; B. Any new file that contains any part of the Original Software or previous Modification; or C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. Original Software means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. Patent Claims means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. Source Code means (a) the common form of computer
software code in which
modifications are made and (b) associated documentation included in or with such code.

1.13. You (or Your) means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, You includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, control means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant. Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable
by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof);

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License;

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant. Conditioned upon
Your compliance with Section 3.1 below
and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or

portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code. Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License.
You must include a copy of this License with every copy
of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications. The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices. You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution
to any Contributor or the Initial Developer.

3.4. Application of Additional Terms. You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions. You may distribute the Executable form of the Covered Software

under the terms of this License or under the terms
of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipients rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works. You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such
a case, You must make sure the
requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions. Sun Microsystems, Inc. is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions. You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally

received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions. When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY. COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN AS IS BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF

DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO
THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH
YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as Participant) alleging that the
Participant Software (meaning the Contributor Version where
the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

6.3. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any
distributor)
shall survive termination.

7. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTYS NEGLIGENCE TO

THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION
MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS. The Covered Software is a commercial item, as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of commercial computer software (as that term is defined at 48 C.F.R. 252.227-7014(a)(1)) and commercial computer software documentation as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

9. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This
License shall be governed by the law of the
jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdictions conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation
of any other countries) when You use, distribute or
otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL): This code is released under the CDDL and shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the

Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership
of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this

License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
   the Work or Derivative Works thereof, You may choose to offer,
   and charge a fee for, acceptance of support, warranty, indemnity,
   or other liability obligations and/or rights consistent with this
   License. However, in accepting such obligations, You may act only
   on Your own behalf and on Your sole responsibility, not on behalf
   of any other Contributor, and only if You agree to indemnify,
   defend, and hold each Contributor harmless for any liability
    incurred by, or claims asserted against, such Contributor by reason
   of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

   To apply the Apache License to your work, attach the following
   boilerplate notice, with the fields enclosed by brackets "[]"
   replaced with your own identifying information. (Don't include
   the brackets!) The text should be enclosed in the appropriate
   comment syntax for the file format. We also recommend that a
   file or class name and description of purpose be included on the
   same "printed page" as the copyright notice for easier
   identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner

or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute
copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices

stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct,
indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial content
Distributed under this Agreement, and

b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;
where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution

"originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.

"Contributor" means any person or entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby

grants Recipient a non-exclusive, worldwide, royalty-free copyright
license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant

the copyright license set forth in this Agreement.

e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:

i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b) a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities

with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate

entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel
or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.

Exhibit A - Form of Secondary Licenses Notice

"This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely
to
look for such a notice.

You may add additional accurate notices of copyright ownership.

The GNU General Public License (GPL) Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor
Boston, MA 02110-1335
USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.)
You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you
must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed
at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted,
and the output from the Program is
covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications
or work under the terms of Section 1 above, provided
that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an

announcement including an appropriate copyright notice and a notice
that there is no warranty (or else, saying that you provide a
warranty) and that users may redistribute the program under these
conditions, and telling the user how
to view a copy of this License.
(Exception: if the Program itself is interactive but does not
normally print such an announcement, your work based on the Program
is not required to print an announcement.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the Program, and
can be reasonably considered independent and separate works in
themselves, then this License, and its terms, do not apply to those
sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based on
the Program, the distribution of the whole must be on the terms of this
License, whose permissions for other licensees extend to the entire
whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest
your rights to work written entirely by you;
rather, the intent is to
exercise the right to control the distribution of derivative or
collective works based on the Program.

In addition, mere aggregation of another work not based on the Program
with the Program (or with a work based on the Program) on a volume of a
storage or distribution medium does not bring the other work under the
scope of this License.

3. You may copy and distribute the Program (or a work based on it,
under Section 2) in object code or executable form under the terms of
Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable
source code, which must be distributed under the terms of Sections 1
and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three
years, to give any third party, for a charge no more than your cost

of physically performing source distribution, a complete
machine-readable copy of the corresponding source code, to be
distributed under the terms of Sections 1 and 2 above on a medium
customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to
distribute corresponding source code. (This alternative is allowed

only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed
need not include anything that is
normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have
their licenses terminated so long as such parties remain in
full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible
for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular
circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted
in
certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any

later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF
TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to

attach them to the start of each source file to most effectively convey
the exclusion of warranty; and each file should have at least the
"copyright" line and a pointer to where the full notice is found.

One line to give the program's name and a brief idea of what it does.
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify
it under the terms of the GNU General Public License as published by
the Free Software Foundation; either version 2 of the License, or
(at your option) any later version.

This program is distributed in the hope that it will be useful, but
WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
General Public License for more details.

You should have received a copy of the GNU General Public License
along with this program; if not, write to the Free Software
Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type
`show w'. This is free software, and you are welcome to redistribute
it under certain conditions; type `show c' for details.

The hypothetical commands `show
w' and `show c' should show the
appropriate parts of the General Public License. Of course, the commands
you use may be called something other than `show w' and `show c'; they
could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
program `Gnomovision' (which makes passes at compilers) written by
James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library
General Public License instead of this License.

CLASSPATH EXCEPTION

Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination.

As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If
you do not wish to do so, delete this exception statement from your version.

MOZILLA PUBLIC LICENSE
Version 1.1

---

1. Definitions.

1.0.1. "Commercial Use" means distribution or otherwise making the
Covered Code available to a third party.

1.1. "Contributor" means each entity that creates or contributes to
the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original
Code, prior Modifications used by a Contributor, and the Modifications
made by that particular Contributor.

1.3. "Covered Code" means the Original Code or Modifications or the
combination of the Original Code and Modifications, in each case
including portions thereof.

1.4. "Electronic Distribution Mechanism" means a mechanism generally
accepted in the software development community for the electronic
transfer of data.

1.5. "Executable" means Covered Code in any form other than Source Code.

1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.

1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.

1.8. "License" means this document.

1.8.1. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:

A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.

B. Any new file that contains any part of the Original Code or previous Modifications.

1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.

1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or
archival form, provided the
appropriate decompression or de-archiving software is widely available for no charge.

1.12. "You" (or "Your") means an individual or a legal entity

exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. Source Code License.

2.1. The Initial Developer Grant.
The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property

claims:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the Original Code; 2) separate from the Original Code; or 3) for infringements caused

by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices.

2.2. Contributor Grant.
Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code

and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: 1) Modifications made by that Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version; 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Application of License.
The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.

3.2. Availability of Source Code.
Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic

Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.

3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.

(b) Contributor APIs.

If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.

(c) Representations.

Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and

distribute the Larger
Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.

4. Inability to Comply Due to Statute or Regulation.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Application of this License.

This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code.

6. Versions of the License.

6.1. New Versions.
Netscape Communications Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.

6.2. Effect of New Versions.
Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.

6.3. Derivative Works.
If You create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), You must (a) rename
Your license so that
the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape", "MPL", "NPL" or any confusingly similar phrase do not appear in your license (except to note that your license differs from this License) and (b) otherwise make it clear that Your version of the license contains terms which differ from the Mozilla Public License and Netscape Public License. (Filling in the name of the Initial

Developer, Original Code or Contributor in the notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.)

7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8. TERMINATION.

8.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

8.2. If You initiate litigation by asserting a patent infringement claim (excluding declatory judgment actions) against Initial Developer or
a Contributor (the Initial Developer or Contributor against whom You file such action is referred to as "Participant") alleging that:

(a) such Participant's Contributor Version directly or indirectly infringes any patent, then any and all rights granted by such Participant to You under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively, unless if within 60 days after receipt of notice You either: (i) agree in writing to pay Participant a mutually agreeable reasonable royalty for Your past and future use of Modifications made by such Participant, or (ii) withdraw Your litigation claim with respect to the Contributor Version against such Participant. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above.

(b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant.

8.3. If You assert a patent infringement claim against Participant alleging that such Participant's Contributor Version directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

8.4. In the event of termination under Sections 8.1 or 8.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or any distributor hereunder prior to termination shall survive termination.

9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those

rights set forth herein.

11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable,
such provision shall be reformed only to the extent
necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be
construed against the drafter shall not apply to this
License.

12. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

13. MULTIPLE-LICENSED CODE.

Initial Developer may designate portions of the Covered Code as "Multiple-Licensed". "Multiple-Licensed" means that the Initial Developer permits you to utilize portions of the Covered Code under Your choice of the NPL or the alternative licenses, if any, specified by the Initial Developer in the file described in Exhibit A.

EXHIBIT A -Mozilla Public License.
