TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following
boilerplate notice, with the fields enclosed by brackets "[]"
replaced with your own identifying information. (Don't include
the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work.
"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses...
granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

public @interface GPL_2_0 {}
i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to
exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.
4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY
CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.
This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the

Open Source Used In Data Center Network Manager 11.5(1) 23942
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable
copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

   (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

   (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright [yyyy] [name of copyright owner]

Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at

http://www.apache.org/licenses/LICENSE-2.0

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

------------------------------------------------------------------------------

These terms are identical to those of the MIT License, also called the X License or the X11 License, which is a simple, permissive non-copyleft free software license. It is deemed compatible with virtually all types of licenses, commercial or otherwise. In particular, the Free Software Foundation has declared it compatible with GNU GPL. It is also known to be approved by the Apache Software Foundation as compatible with Apache Software License.

------------------------------------------------------------------------------
License for the JUnit package
------------------------------------------------------------------------------

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS COMMON PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and

b) in the case of each subsequent Contributor:

i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not
derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS
A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal
actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such
provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against a Contributor with respect to a patent applicable to software (including a cross-claim or counterclaim in a lawsuit), then any patent licenses granted by that Contributor to such Recipient under this Agreement shall terminate as of the date such litigation is filed. In addition, if Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. IBM is the initial Agreement Steward. IBM may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

License for the JCIFS package
------------------------------------------------------------------------------
GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of
this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts
as the successor of the GNU Library Public License, version 2, hence
the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.
We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free
software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library’s complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

   a) The modified work must itself be a software library.

   b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

   c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

   d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

   (For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.
5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and-accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding
machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library
facilities not covered by this License, and distribute such a combined
library, provided that the separate distribution of the work based on
the Library and of the other library facilities is otherwise
permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work
based on the Library, uncombined with any other library
facilities. This must be distributed under the terms of the
Sections above.

b) Give prominent notice with the combined library of the fact
that part of it is a work based on the Library, and explaining
where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute
the Library except as expressly provided under this License. Any
attempt otherwise to copy, modify, sublicense, link with, or
distribute the Library is void, and will automatically terminate your
rights under this License. However, parties who have received copies,
or rights, from you under this License will not have their licenses
terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not
signed it. However, nothing else grants you permission to modify or
distribute the Library or its derivative works. These actions are
prohibited by law if you do not accept this License. Therefore, by
modifying or distributing the Library (or any work based on the
Library), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying
the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the
Library), the recipient automatically receives a license from the
original licensor to copy, distribute, link with or modify the Library
subject to these terms and conditions. You may not impose any further
restrictions on the recipients' exercise of the rights granted herein.
You are not responsible for enforcing compliance by third parties with
this License.

11. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues),
conditions are imposed on you (whether by court order, agreement or
otherwise) that contradict the conditions of this License, they do not
excuse you from the conditions of this License. If you cannot
distribute so as to satisfy simultaneously your obligations under this
License and any other pertinent obligations, then as a consequence you
may not distribute the Library at all. For example, if a patent
license would not permit royalty-free redistribution of the Library by
all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our
decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>  
Copyright (C) <year>  <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either
version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public
License along with this library; if not, write to the Free Software
Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the library, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

1.2183.1 Available under license:

Apache License
Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and
(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

*/
/**
* A {link WebApplicationContext} that can be used to bootstrap itself from a contained
* {link ServletWebServerFactory} bean.
* 
* This context will create, initialize and run an {link WebServer} by searching for a
* single {link ServletWebServerFactory} bean within the {link ApplicationContext}
* itself. The {link ServletWebServerFactory} is free to use standard Spring concepts
* (such as dependency injection, lifecycle callbacks and property placeholder variables).
* 
* In addition, any {link Servlet} or {link Filter} beans defined in the context will be
* automatically registered with the web server. In the case of a single Servlet bean, the
* '/' mapping will be used. If multiple Servlet beans are found then the lowercase bean
* name will be used as a mapping prefix. Any Servlet named 'dispatcherServlet' will
* always be mapped to '/'. Filter beans will be mapped to all URLs (/*).
* 
* For more advanced configuration, the context can instead define beans that implement
* the {link ServletContextInitializer} interface (most often
* {link ServletRegistrationBean}s and/or {link FilterRegistrationBean}s). To prevent
* double registration, the use of {link ServletContextInitializer} beans will disable
* automatic Servlet and Filter bean registration.
* 
* Although this context can be used directly, most developers should consider using the
* {link AnnotationConfigServletWebServerApplicationContext} or
* {link XmlServletWebServerApplicationContext} variants.
* 
* @author Phillip Webb
* @author Dave Syer
* @see AnnotationConfigServletWebServerApplicationContext
* @see XmlServletWebServerApplicationContext
* @see ServletWebServerFactory

1.2187 centos-release 7-7.1908.0.el7.centos
1.2187.1 Available under license :

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your
freedom to share and change it. By contrast, the GNU General Public
License is intended to guarantee your freedom to share and change free
software--to make sure the software is free for all its users. This
General Public License applies to most of the Free Software
Foundation's software and to any other program whose authors commit to
using it. (Some other Free Software Foundation software is covered by
the GNU Lesser General Public License instead.) You can apply it to
your programs, too.

When we speak of free software, we are referring to freedom, not
price. Our General Public Licenses are designed to make sure that you
have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".
Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

   a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

   b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

   c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

   a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

   b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

   c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering
access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients’ exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and “any later version”, you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

CentOS 7 Linux EULA

CentOS 7 Linux comes with no guarantees or warranties of any sorts, either written or implied.

The Distribution is released as GPLv2. Individual packages in the distribution come with their own licences. A copy of the GPLv2 license is included with the distribution media.

The CentOS distribution would not be possible without the hard work and dedication of a large number of talented people. It's only fair that we acknowledge the time and effort that they have put into the distribution.

We are always in need of more volunteers. If you're interested in joining the CentOS Project, please join us on irc.freenode.net in #centos-devel or via the mailing list at http://lists.centos.org/pipermail/centos-devel/
## Special Recognition ##

One of the key reasons we got delayed on the CentOS-6 release was lack of suitable build resources, especially when we had to repeatedly build large chunks of code. Norwood S came forward and worked with me to setup a large build machine, then tune the build process and help improve the overall build, test and validate process we were using. This build machine he donated to the project was about 5 times more capable than the entire buildsystem we had. And he did this out of his own pocket, from his own time, and has since upgraded the machine as well. It's now a 128GB, 48 core machine, with 4 SSD's and 4 sata disks : but the key metric is that it can build from source, the entire CentOS-7 distro in under 22 hrs.

Having this capability was key in our ability to build, test and deliver CentOS-7 as rapidly as we have been able to.

We'd like to dedicate the CentOS-7 Release to Mr Norwood S, of Phoenix, AZ, USA for his continued support for the project.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of Your accepting any such warranty or additional liability.
APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "["] replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

GNU GENERAL PUBLIC LICENSE
Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for
software and other kinds of works.

The licenses for most software and other practical works are designed
to take away your freedom to share and change the works. By contrast,
the GNU General Public License is intended to guarantee your freedom to
share and change all versions of a program--to make sure it remains free
software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could
make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its
content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.
b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user
actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating
where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically
receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a
If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a
covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that oblige you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT
HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively state the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software: you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation, either version 3 of the License, or (at your option) any later version.
This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program. If not, see <http://www.gnu.org/licenses/>.

Also add information on how to contact you by electronic and paper mail.

If the program does terminal interaction, make it output a short notice like this when it starts in an interactive mode:

<program> Copyright (C) <year> <name of author>
This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, your program's commands might be different; for a GUI interface, you would use an "about box".

You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if necessary.
For more information on this, and how to apply and follow the GNU GPL, see <http://www.gnu.org/licenses/>.

The GNU General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. But first, please read <http://www.gnu.org/philosophy/why-not-lgpl.html>.

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
51 Franklin St, Fifth Floor, Boston, MA  02110-1301  USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL.  It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble
The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot
effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.
The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.
You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.
In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file
that is part of the Library, the object code for the work may be a
derivative work of the Library even though the source code is not.
Whether this is true is especially significant if the work can be
linked without the Library, or if the work is itself a library. The
threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data
structure layouts and accessors, and small macros and small inline
functions (ten lines or less in length), then the use of the object
file is unrestricted, regardless of whether it is legally a derivative
work. (Executables containing this object code plus portions of the
Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may
distribute the object code for the work under the terms of Section 6.
Any executables containing that work also fall under Section 6,
whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or
link a "work that uses the Library" with the Library to produce a
work containing portions of the Library, and distribute that work
under terms of your choice, provided that the terms permit
modification of the work for the customer's own use and reverse
engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the
Library is used in it and that the Library and its use are covered by
this License. You must supply a copy of this License. If the work
during execution displays copyright notices, you must include the
copyright notice for the Library among them, as well as a reference
directing the user to the copy of this License. Also, you must do one
of these things:

a) Accompany the work with the complete corresponding
machine-readable source code for the Library including whatever
changes were used in the work (which must be distributed under
Sections 1 and 2 above); and, if the work is an executable linked
with the Library, with the complete machine-readable "work that
uses the Library", as object code and/or source code, so that the
user can modify the Library and then relink to produce a modified
executable containing the modified Library. (It is understood
that the user who changes the contents of definitions files in the
Library will not necessarily be able to recompile the application
to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the
Library. A suitable mechanism is one that (1) uses at run time a
copy of the library already present on the user's computer system,
rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made
generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME
THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY
AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU
FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR
CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE
LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF
SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH
DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest
possible use to the public, we recommend making it free software that
everyone can redistribute and change. You can do so by permitting
redistribution under these terms (or, alternatively, under the terms
of the ordinary General Public License).

To apply these terms, attach the following notices to the library.
It is safest to attach them to the start of each source file to most
effectively convey the exclusion of warranty; and each file should
have at least the "copyright" line and a pointer to where the full
notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year>  <name of author>

This library is free software; you can redistribute it and/or
modify it under the terms of the GNU Lesser General Public
License as published by the Free Software Foundation; either
version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public
License along with this library; if not, write to the Free Software
Foundation, Inc., 51 Franklin St, Fifth Floor, Boston, MA  02110-1301  USA
Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as
indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

You must give any other recipients of the Work or Derivative Works a copy of this License; and
You must cause any modified files to carry prominent notices stating that You changed the files; and
You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
If the Work includes a “NOTICE” text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text
You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of Your accepting any such warranty or additional liability.

* -------------------
* XYItemRenderer.java
* -------------------
* (C) Copyright 2001-2011, by Object Refinery Limited and Contributors.
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Mark Watson (www.markwatson.com);
Changes
-------

* 19-Oct-2001: Version 1, based on code by Mark Watson (DG);
* 22-Oct-2001: Renamed DataSource.java --> Dataset.java etc. (DG);
* 13-Dec-2001: Changed return type of drawItem from void --> Shape. The area
  returned can be used as the tooltip region.
* 23-Jan-2002: Added DrawInfo parameter to drawItem() method (DG);
* 28-Mar-2002: Added a property change listener mechanism. Now renderers do
  * not have to be immutable (DG);
* 04-Apr-2002: Added the initialise() method (DG);
* 09-Apr-2002: Removed the translated zero from the drawItem method, it can
  be calculated inside the initialise method if it is required.
* 13-Dec-2001: Changed return type of drawItem() to void (DG);
* 24-May-2002: Added ChartRenderingInfo the initialise method API (DG);
* 25-Jun-2002: Removed redundant import (DG);
* 20-Aug-2002: Added get/setURLGenerator methods to interface (DG);
* 02-Oct-2002: Fixed errors reported by Checkstyle (DG);
* 18-Nov-2002: Added methods for drawing grid lines (DG);
* 17-Jan-2003: Moved plot classes into a separate package (DG);
* 27-Jan-2003: Added shape lookup table (DG);
* 05-Jun-2003: Added domain and range grid bands (sponsored by Focus Computer
  Services Ltd) (DG);
* 27-Jul-2003: Added getRangeType() to support stacked XY area charts (RA);
* 16-Sep-2003: Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 25-Feb-2004: Replaced CrosshairInfo with CrosshairState. Renamed
  XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 26-Feb-2004: Added lots of new methods (DG);
* 30-Apr-2004: Added getRangeExtent() method (DG);
* 06-May-2004: Added methods for controlling item label visibility (DG);
* 13-May-2004: Removed property change listener mechanism (DG);
* 18-May-2004: Added item label font and paint methods (DG);
* 10-Sep-2004: Removed redundant getRangeType() method (DG);
* 06-Oct-2004: Replaced getRangeExtent() with findRangeBounds() and added
  findDomainBounds (DG);
* 23-Nov-2004: Changed drawRangeGridLine() --> drawRangeLine() (DG);
* 07-Jan-2005: Removed deprecated method (DG);
* 24-Feb-2005: Now extends LegendItemSource (DG);
* 20-Apr-2005: Renamed XYLabelGenerator --> XYItemLabelGenerator (DG);
* --------- JFREECHART 1.0.x ---------------------------------------------
* 19-Apr-2007: Deprecated seriesVisible and seriesVisibleInLegend flags (DG);
* 20-Apr-2007: Deprecated paint, fillPaint, outlinePaint, stroke,
  outlineStroke, shape, itemLabelsVisible, itemLabelFont,
  itemLabelPaint, positiveItemLabelPosition,
negativeItemLabelPosition and createEntities override
fields (DG);

*
* -------------------------
* StackedXYBarRenderer.java
* -------------------------
* (C) Copyright 2004-2014, by Andreas Schroeder and Contributors.
*
* Original Author: Andreas Schroeder;
* Contributor(s): David Gilbert (for Object Refinery Limited);
*
* Changes
* -------
* 01-Apr-2004 : Version 1 (AS);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*                getYValue() (DG);
* 15-Aug-2004 : Added drawBarOutline to control draw/don't-draw bar
*                outlines (BN);
* 10-Sep-2004 : drawBarOutline attribute is now inherited from XYBarRenderer
*                and double primitives are retrieved from the dataset rather
*                than Number objects (DG);
* 07-Jan-2005 : Updated for method name change in DatasetUtilities (DG);
* 25-Jan-2005 : Modified to handle negative values correctly (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 06-Dec-2006 : Added support for GradientPaint (DG);
* 15-Mar-2007 : Added renderAsPercentages option (DG);
* 24-Jun-2008 : Added new barPainter mechanism (DG);
* 23-Sep-2008 : Check shadow visibility before drawing shadow (DG);
* 28-May-2009 : Fixed bar positioning with inverted domain axis (DG);
* 07-Act-2011 : Fix for Bug #3035289: Patch #3035325 (MH);
*/

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): -;

Changes
-------
01-Jun-2004 : Version 1 (DG);
16-Sep-2004 : Fixed bug in equals() method, added clone() method and
               PublicCloneable interface (DG);
25-Nov-2004 : Updates to support major and minor tick marks (DG);
25-Feb-2005 : Fixed some tick mark bugs (DG);
15-Apr-2005 : Fixed some more tick mark bugs (DG);
26-Apr-2005 : Removed LOGGER (DG);
16-Jun-2005 : Fixed zooming (DG);
15-Sep-2005 : Changed configure() method to check autoRange flag,
               and added ticks to state (DG);
--------- JFREECHART 1.0.x ---------------------------------------------
06-Oct-2006 : Updated for deprecations in RegularTimePeriod and
              subclasses (DG);
22-Mar-2007 : Use new defaultAutoRange attribute (DG);
31-Jul-2007 : Fix for inverted axis labelling (see bug 1763413) (DG);
08-Apr-2008 : Notify listeners in setRange(Range, boolean, boolean) - fixes
               bug 1932146 (DG);
16-Jan-2009 : Fixed bug 2490803, a problem in the setRange() method (DG);
02-Mar-2009 : Added locale - see patch 2569670 by Benjamin Bignell (DG);
02-Mar-2009 : Fixed draw() method to check tickMarksVisible and
               tickLabelsVisible (DG);
19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);
02-Jul-2013 : Use ParamChecks (DG);
25-Jul-2013 : Fix for axis timezone and label formatting, bug 1107 (DG);
01-Aug-2013 : Added attributedLabel override to support superscripts,
               subscripts and more (DG);

DefaultKeyedValues2D.java

(C) Copyright 2002-2013, by Object Refinery Limited.

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): Andreas Schroeder;

Changes
-------
28-Oct-2002 : Version 1 (DG);
21-Jan-2003 : Updated Javadocs (DG);
13-Mar-2003 : Implemented Serializable (DG);
18-Aug-2003 : Implemented Cloneable (DG);
31-Mar-2004 : Made the rows optionally sortable by a flag (AS);
01-Apr-2004 : Implemented remove method (AS);
05-Apr-2004 : Added clear() method (DG);
15-Sep-2004 : Fixed clone() method (DG);
12-Jan-2005 : Fixed bug in getValue() method (DG);
23-Mar-2005 : Implemented PublicCloneable (DG);
09-Jun-2005 : Modified getValue() method to throw exception for unknown
keys (DG);
------------------------ JFREECHART 1.0.x -----------------------------
18-Jan-2007 : Fixed bug in getValue() method (DG);
30-Mar-2007 : Fixed bug 1690654, problem with removeValue() (DG);
21-Nov-2007 : Fixed bug (1835955) in removeColumn(Comparable) method (DG);
23-Nov-2007 : Added argument checks to removeRow(Comparable) to make it
consistent with the removeRow(Comparable) method (DG);
03-Jul-2013 : Use ParamChecks (DG);

 * ---------------------
 * HighLowRenderer.java
 * ---------------------
 * (C) Copyright 2001-2014, by Object Refinery Limited.
 * Original Author: David Gilbert (for Object Refinery Limited);
 * Contributor(s): Richard Atkinson;
 * Christian W. Zuckschwerdt;
 * Changes
 * -------
 * 13-Dec-2001 : Version 1 (DG);
 * 23-Jan-2002 : Added DrawInfo parameter to drawItem() method (DG);
 * 28-Mar-2002 : Added a property change listener mechanism so that renderers
* no longer need to be immutable (DG);
* 09-Apr-2002: Removed translatedRangeZero from the drawItem() method, and
  changed the return type of the drawItem method to void,
  reflecting a change in the XYItemRenderer interface. Added
tooltip code to drawItem() method (DG);
* 05-Aug-2002: Small modification to drawItem method to support URLs for
  HTML image maps (RA);
* 25-Mar-2003: Implemented Serializable (DG);
* 01-May-2003: Modified drawItem() method signature (DG);
* 30-Jul-2003: Modified entity constructor (CZ);
* 31-Jul-2003: Deprecated constructor (DG);
* 20-Aug-2003: Implemented Cloneable and PublicCloneable (DG);
* 16-Sep-2003: Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 29-Jan-2004: Fixed bug (882392) when rendering with
  PlotOrientation.HORIZONTAL (DG);
* 25-Feb-2004: Replaced CrosshairInfo with CrosshairState. Renamed
  XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 15-Jul-2004: Switched getX() with getXValue() and getY() with
  getYValue() (DG);
* 01-Nov-2005: Added optional openTickPaint and closeTickPaint settings (DG);
* ----------------- JFREECHART 1.0.0 -----------------------------------------------
* 06-Jul-2006: Replace dataset methods getX() --> getXValue() (DG);
* 08-Apr-2008: Added findRangeBounds() override (DG);
* 29-Apr-2008: Added tickLength field (DG);
* 25-Sep-2008: Check for non-null entity collection (DG);
*

* -----------------------
* LogarithmicAxis.java
* -----------------------
* (C) Copyright 2000-2014, by Object Refinery Limited and Contributors.
*
* Original Author: Michael Duffy / Eric Thomas;
* Contributor(s): David Gilbert (for Object Refinery Limited);
*                David M. O'Donnell;
*                Scott Sams;
*                Sergei Ivanov;
*
* Changes
* -------
* 14-Mar-2002 : Version 1 contributed by Michael Duffy (DG);
* 19-Apr-2002 : drawVerticalString() is now drawRotatedString() in
*                RefineryUtilities (DG);
* 23-Apr-2002 : Added a range property (DG);
* 15-May-2002 : Modified to be able to deal with negative and zero values (via
*                new 'adjustedLog10()' method); occurrences of "Math.log(10)"
*                changed to "LOG10_VALUE"; changed 'intValue()' to
*                'longValue()' in 'refreshTicks()' to fix label-text value
*                out-of-range problem; removed 'draw()' method; added
*                'autoRangeMinimumSize' check; added 'log10TickLabelsFlag'
*                parameter flag and implementation (ET);
* 25-Jun-2002 : Removed redundant import (DG);
* 25-Jul-2002 : Changed order of parameters in ValueAxis constructor (DG);
* 16-Jul-2002 : Implemented support for plotting positive values arbitrarily
*                close to zero (added 'allowNegativesFlag' flag) (ET).
* 05-Sep-2002 : Updated constructor reflecting changes in the Axis class (DG);
* 02-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 22-Nov-2002 : Bug fixes from David M. O'Donnell (DG);
* 14-Jan-2003 : Changed autoRangeMinimumSize from Number --> double (DG);
* 20-Jan-2003 : Removed unnecessary constructors (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 08-May-2003 : Fixed plotting of datasets with lower==upper bounds when
*                'minAutoRange' is very small; added 'strictValuesFlag'
and default functionality of throwing a runtime exception
if 'allowNegativesFlag' is false and any values are less
than or equal to zero; added 'expTickLabelsFlag' and
changed to use "1e#"-style tick labels by default
("10^n"-style tick labels still supported via 'set'
method); improved generation of tick labels when range of
values is small; changed to use 'NumberFormat.getInstance()'
to create 'numberFormatterObj' (ET);
* 14-May-2003 : Merged HorizontalLogarithmicAxis and
  VerticalLogarithmicAxis (DG);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 07-Nov-2003 : Modified to use new NumberTick class (DG);
* 08-Apr-2004 : Use numberFormatOverride if set - see patch 930139 (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for 1.0.0 release (DG);
* 21-Apr-2005 : Added support for upper and lower margins; added
  get/setAutoRangeNextLogFlag() methods and changed
default to 'autoRangeNextLogFlag'==false (ET);
* 22-Apr-2005 : Removed refreshTicks() and fixed names and parameters for
  refreshHorizontalTicks() & refreshVerticalTicks();
* changed javadoc on setExpTickLabelsFlag() to specify
  proper default (ET);
* 22-Apr-2005 : Renamed refreshHorizontalTicks --> refreshTicksHorizontal
  (and likewise the vertical version) for consistency with
  other axis classes (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 02-Mar-2007 : Applied patch 1671069 to fix zooming (DG);
* 22-Mar-2007 : Use new defaultAutoRange attribute (DG);

*                Tin Luu;
*
* Changes
* -------
* 31-Oct-2001 : Version 1 contributed by Serge V. Grachov (DG);
* 23-Nov-2001 : Overhauled auto tick unit code for all axes (DG);
* 12-Dec-2001 : Minor change due to grid lines bug fix (DG);
* 08-Jan-2002 : Added flag allowing the axis to be 'inverted'. That is, run
*               from positive to negative. Added default values to
*               constructors (DG);
* 16-Jan-2002 : Added an optional crosshair, based on the implementation by
*                Jonathan Nash (DG);
* 25-Feb-2002 : Updated constructors for new autoRangeStickyZero flag (DG);
* 19-Apr-2002 : drawVerticalString() is now drawRotatedString() in
*                RefineryUtilities (DG);
* 25-Jun-2002 : Removed redundant import (DG);
* 25-Jul-2002 : Changed order of parameters in ValueAxis constructor (DG);
* 06-Aug-2002 : Modified draw method to not draw axis label if label is empty
*                String (RA);
* 05-Sep-2002 : Updated constructor for changes in the Axis class, and changed
*                draw method to observe tickMarkPaint (DG);
* 22-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 20-Jan-2003 : Removed unnecessary constructors (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 13-May-2003 : Merged HorizontalNumberAxis3D and VerticalNumberAxis3D (DG);
* 21-Aug-2003 : Updated draw() method signature (DG);
* 07-Nov-2003 : Modified refreshTicks method signature (DG);
* -------------- JFREECHART 1.0.x ---------------------------------------------
* 18-Jan-2006 : Fixed bug 1408904 (axis assumes CategoryPlot) (DG);
* 16-Apr-2009 : Changed axis line visibility default (DG);
* 01-Aug-2013 : Added attributedLabel override to support superscripts,
  * subscripts and more (DG); *

 * CategoryAxis.java
 * ----------------
 * (C) Copyright 2000-2014, by Object Refinery Limited and Contributors.
* Original Author: David Gilbert;
* Contributor(s): Pady Srinivasan (patch 1217634);
  Peter Kolb (patches 2497611 and 2603321);
*
* Changes
* -------
* 21-Aug-2001: Added standard header. Fixed DOS encoding problem (DG);
* 18-Sep-2001: Updated header (DG);
* 04-Dec-2001: Changed constructors to protected, and tidied up default values (DG);
* 19-Apr-2002: Updated import statements (DG);
* 05-Sep-2002: Updated constructor for changes in Axis class (DG);
* 06-Nov-2002: Moved margins from the CategoryPlot class (DG);
* 08-Nov-2002: Moved to new package com.jrefinery.chart.axis (DG);
* 22-Jan-2002: Removed monolithic constructor (DG);
* 26-Mar-2003: Implemented Serializable (DG);
* 09-May-2003: Merged HorizontalCategoryAxis and VerticalCategoryAxis into this class (DG);
* 13-Aug-2003: Implemented Cloneable (DG);
* 29-Oct-2003: Added workaround for font alignment in PDF output (DG);
* 05-Nov-2003: Fixed serialization bug (DG);
* 26-Nov-2003: Added category label offset (DG);
* 06-Jan-2004: Moved axis line attributes to Axis class, rationalised category label position attributes (DG);
* 07-Jan-2004: Added new implementation for linewrapping of category labels (DG);
* 17-Feb-2004: Moved deprecated code to bottom of source file (DG);
* 10-Mar-2004: Changed Dimension -> Dimension2D in text classes (DG);
* 16-Mar-2004: Added support for tooltips on category labels (DG);
* 01-Apr-2004: Changed java.awt.geom.Dimension2D to org.jfree.ui.Size2D because of JDK bug 4976448 which persists on JDK 1.3.1 (DG);
* 03-Sep-2004: Added 'maxCategoryLabelLines' attribute (DG);
* 04-Oct-2004: Renamed ShapeUtils --> ShapeUtilities (DG);
* 11-Jan-2005: Removed deprecated methods in preparation for 1.0.0 release (DG);
* 21-Jan-2005: Modified return type for RectangleAnchor.coordinates() method (DG);
* 21-Apr-2005: Replaced Insets with RectangleInsets (DG);
* 26-Apr-2005: Removed LOGGER (DG);
* 08-Jun-2005: Fixed bug in axis layout (DG);
* 22-Nov-2005: Added a method to access the tool tip text for a category label (DG);
* 23-Nov-2005: Added per-category font and paint options - see patch 1217634 (DG);
* 11-Jan-2006: Fixed null pointer exception in drawCategoryLabels - see bug 1403043 (DG);
* 18-Aug-2006 : Fix for bug drawing category labels, thanks to Adriaan Joubert (1277726) (DG);
* 02-Oct-2006 : Updated category label entity (DG);
* 30-Oct-2006 : Updated refreshTicks() method to account for possibility of multiple domain axes (DG);
* 07-Mar-2007 : Fixed bug in axis label positioning (DG);
* 27-Sep-2007 : Added getCategorySeriesMiddle() method (DG);
* 21-Nov-2007 : Fixed performance bug noted by FindBugs in the equalPaintMaps() method (DG);
* 23-Apr-2008 : Fixed bug 1942059, bad use of insets in calculateTextBlockWidth() (DG);
* 26-Jun-2008 : Added new getCategoryMiddle() method (DG);
* 27-Oct-2008 : Set font on Graphics2D when creating category labels (DG);
* 14-Jan-2009 : Added new variant of getCategorySeriesMiddle() to make it simpler for renderers with hidden series (PK);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 16-Apr-2009 : Added tick mark drawing (DG);
* 29-Jun-2009 : Fixed bug where axis entity is hiding label entities (DG);
* 25-Jul-2013 : Added support for URLs on category labels (DG);
* 01-Aug-2013 : Added attributedLabel override to support superscripts, subscripts and more (DG);
* 29-Jul-2014 : Add hint to normalise stroke for tick marks (DG);
*

* (C) Copyright 2002-2014, by Object Refinery Limited.
*
* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s):  Christian W. Zuckschwerdt;
*                  Peter Kolb (patches 2497611, 2791407);
*
* Changes
* -------
* 14-Mar-2002 : Version 1 (DG);
* 23-May-2002 : Added tooltip generator to renderer (DG);
* 29-May-2002 : Moved tooltip generator to abstract super-class (DG);
* 25-Jun-2002 : Changed constructor to protected and removed redundant
*               code (DG);
* 26-Jun-2002 : Added axis to initialise method, and record upper and lower
*               clip values (DG);
* 24-Sep-2002 : Added getLegendItem() method (DG);
* 09-Oct-2002 : Modified constructor to include URL generator (DG);
* 05-Nov-2002 : Base dataset is now TableDataset not CategoryDataset (DG);
* 10-Jan-2003 : Moved get/setItemMargin() method up from subclasses (DG);
* 17-Jan-2003 : Moved plot classes into a separate package (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified clipping to allow for dual axes and datasets (DG);
* 12-May-2003 : Merged horizontal and vertical bar renderers (DG);
* 12-Jun-2003 : Updates for item labels (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 02-Sep-2003 : Changed initialise method to fix bug 790407 (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 27-Oct-2003 : Merged drawHorizontalItem() and drawVerticalItem()
*                methods (DG);
* 28-Oct-2003 : Added support for gradient paint on bars (DG);
* 14-Nov-2003 : Added 'maxBarWidth' attribute (DG);
* 10-Feb-2004 : Small changes inside drawItem() method to ease cut-and-paste
*                overriding (DG);
* 19-Mar-2004 : Fixed bug introduced with separation of tool tip and item
*                label generators. Fixed equals() method (DG);
* 11-May-2004 : Fix for null pointer exception (bug id 951127) (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 26-Jan-2005 : Provided override for getLegendItem() method (DG);
* 20-Apr-2005 : Generate legend labels, tooltips and URLs (DG);
* 18-May-2005 : Added configurable base value (DG);
* 09-Jun-2005 : Use addItemEntity() method from superclass (DG);
* 01-Dec-2005 : Update legend item to use/not use outline (DG);
* ------------: JFreeChart 1.0.x ---------------------------------------------
* 06-Dec-2005 : Fixed bug 1374222 (JDK 1.4 specific code) (DG);
* 11-Jan-2006 : Fixed bug 1401856 (bad rendering for non-zero base) (DG);
* 04-Aug-2006 : Fixed bug 1467706 (missing item labels for zero value bars) (DG);
* 04-Dec-2006 : Fixed bug in rendering to non-primary axis (DG);
* 13-Dec-2006 : Add support for GradientPaint display in legend items (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 11-May-2007 : Check for visibility in getLegendItem() (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and series Key for LegendItem (DG);
* 07-May-2008 : If minimumBarLength is > 0.0, extend the non-base end of the bar (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 24-Jun-2008 : Added barPainter mechanism (DG);
* 26-Jun-2008 : Added crosshair support (DG);
* 13-Aug-2008 : Added shadowPaint attribute (DG);
* 14-Jan-2009 : Added support for seriesVisible flags (PK);
* 03-Feb-2009 : Added defaultShadowsVisible flag - see patch 2511330 (PK);
* 03-Jul-2013 : Use ParamChecks (DG);
*

   *
   * 01-Jul-2003 : Version 1 contributed by Bryan Scott (DG);
   */

27-Apr-2005 : Change XYDataset --> TableXYDataset because the table model
assumes all series share the same x-values, and this is not
enforced by XYDataset. Also fixed bug 1191046, a problem
in the getValueAt() method (DG);
/*

* *
* ---------------------
* WaferMapRenderer.java
* ---------------------
* (C) Copyright 2003-2008, by Robert Redburn and Contributors.
*
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): -;

* Changes
* -------
* 11-Oct-2001 : Version 1 (DG);
* 18-Oct-2001 : Added implementation of IntervalXYDataSource so that bar plots
*               (using numerical axes) can be plotted from time series
*               data (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* 15-Nov-2001 : Added getSeries() method. Changed name from TimeSeriesDataset
*               to TimeSeriesCollection (DG);
* 07-Dec-2001 : TimeSeries --> BasicTimeSeries (DG);
* 01-Mar-2002 : Added a time zone offset attribute, to enable fast calculation
*               of the time period start and end values (DG);
* 29-Mar-2002 : The collection now registers itself with all the time series
*               objects as a SeriesChangeListener. Removed redundant
*               calculateZoneOffset method (DG);
* 06-Jun-2002 : Added a setting to control whether the x-value supplied in the
*               getXValue() method comes from the START, MIDDLE, or END of the
*               time period. This is a workaround for JFreeChart, where the
*               current date axis always labels the start of a time
*               period (DG);
* 24-Jun-2002 : Removed unnecessary import (DG);
* 07-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 16-Oct-2002 : Added remove methods (DG);
* 10-Jan-2003 : Changed method names in RegularTimePeriod class (DG);
* 13-Mar-2003 : Moved to com.jrefinery.data.time package and implemented
*               Serializable (DG);
* 04-Sep-2003 : Added getSeries(String) method (DG);
* 15-Sep-2003 : Added a removeAllSeries() method to match
*               XYSeriesCollection (DG);
* 05-May-2004 : Now extends AbstractIntervalXYDataset (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*               getYValue() (DG);
* 06-Oct-2004 : Updated for changed in DomainInfo interface (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
*               release (DG);
* 28-Mar-2005 : Fixed bug in getSeries(int) method (1170825) (DG);
* 13-Dec-2005 : Deprecated the 'domainIsPointsInTime' flag as it is
*               redundant. Fixes bug 1243050 (DG);
* 04-May-2007 : Override getDomainOrder() to indicate that items are sorted
*               by x-value (ascending) (DG);
* 08-May-2007 : Added indexOf(TimeSeries) method (DG);
* 18-Jan-2008 : Changed getSeries(String) to getSeries(Comparable) (DG);
* 19-May-2009 : Implemented XYDomainInfo (DG);
* 26-May-2009 : Implemented XYRangeInfo (DG);
* 09-Jun-2009 : Apply some short-cuts to series value lookups (DG);
* 26-Jun-2009 : Fixed clone() (DG);
* 08-Jan-2012 : Fixed getRangeBounds() method (bug 3445507) (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
*

Martin Hoeller;

Changes (from 28-Jun-2001)
--------------------------
28-Jun-2001 : Integrated buffering code contributed by S??ren Caspersen (DG);
18-Sep-2001 : Updated header and fixed DOS encoding problem (DG);
22-Nov-2001 : Added scaling to improve display of charts in small sizes (DG);
26-Nov-2001 : Added property editing, saving and printing (DG);
11-Dec-2001 : Transferred saveChartAsPNG method to new ChartUtilities class (DG);
13-Dec-2001 : Added tooltips (DG);
16-Jan-2002 : Added an optional crosshair, based on the implementation by
Jonathan Nash. Renamed the tooltips class (DG);
23-Jan-2002 : Implemented zooming based on code by Hans-Jurgen Greiner (DG);
05-Feb-2002 : Improved tooltips setup. Renamed method attemptSaveAs() -->
doSaveAs() and made it public rather than private (DG);
28-Mar-2002 : Added a new constructor (DG);
09-Apr-2002 : Changed initialisation of tooltip generation, as suggested by
Hans-Jurgen Greiner (DG);
Greiner. Renamed JFreeChartPanel --> ChartPanel, moved constants to ChartPanelConstants interface (DG);
31-May-2002 : Fixed a bug with interactive zooming and added a way to
control if the zoom rectangle is filled in or drawn as an outline. A mouse drag gesture towards the top left now causes
an autoRangeBoth() and is a way to undo zooms (AS);
11-Jun-2002 : Reinstated handleClick method call in mouseClicked() to get crosshairs working again (DG);
13-Jun-2002 : Added check for null popup menu in mouseDragged method (DG);
18-Jun-2002 : Added get/set methods for minimum and maximum chart dimensions (DG);
25-Jun-2002 : Removed redundant code (DG);
27-Aug-2002 : Added get/set methods for popup menu (DG);
26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
22-Oct-2002 : Added translation methods for screen <-> Java2D, contributed
by Daniel van Enckevort (DG);
05-Nov-2002 : Added a chart reference to the ChartMouseEvent class (DG);
22-Nov-2002 : Added test in zoom method for inverted axes, supplied by
David M O'Donnell (DG);
14-Jan-2003 : Implemented ChartProgressListener interface (DG);
14-Feb-2003 : Removed deprecated setGenerateTooltips method (DG);
12-Mar-2003 : Added option to enforce filename extension (see bug id 643173) (DG);
08-Sep-2003 : Added internationalization via use of properties
Open Source Used In Data Center Network Manager 11.5(1) 24165

* resourceBundle (RFE 690236) (AL);
* 18-Sep-2003 : Added getScaleX() and getScaleY() methods (protected) as
  * requested by Irv Thomae (DG);
* 12-Nov-2003 : Added zooming support for the FastScatterPlot class (DG);
* 24-Nov-2003 : Minor Javadoc updates (DG);
* 04-Dec-2003 : Added anchor point for crosshair calculation (DG);
* 17-Jan-2004 : Added new methods to set tooltip delays to be used in this
  * chart panel. Refer to patch 877565 (MR);
* 02-Feb-2004 : Fixed bug in zooming trigger and added zoomTriggerDistance
  * attribute (DG);
* 08-Apr-2004 : Changed getScaleX() and getScaleY() from protected to
  * public (DG);
* 15-Apr-2004 : Added zoomOutFactor and zoomInFactor (DG);
* 21-Apr-2004 : Fixed zooming bug in mouseReleased() method (DG);
* 13-Jul-2004 : Added check for null chart (DG);
* 04-Oct-2004 : Renamed ShapeUtils --> ShapeUtilities (DG);
* 11-Nov-2004 : Moved constants back in from ChartPanelConstants (DG);
* 12-Nov-2004 : Modified zooming mechanism to support zooming within
  * subplots (DG);
* 26-Jan-2005 : Fixed mouse zooming for horizontal category plots (DG);
* 11-Apr-2005 : Added getFillZoomRectangle() method, renamed
  * setHorizontalZoom() --> setDomainZoomable(),
  * setVerticalZoom() --> setRangeZoomable(), added
  * isDomainZoomable() and isRangeZoomable(), added
  * getHorizontalAxisTrace() and getVerticalAxisTrace(),
  * renamed autoRangeBoth() --> restoreAutoBounds(),
  * autoRangeHorizontal() --> restoreAutoDomainBounds(),
  * autoRangeVertical() --> restoreAutoRangeBounds() (DG);
* 12-Apr-2005 : Removed working areas, added getAnchorPoint() method,
  * added protected accessors for tracelines (DG);
* 18-Apr-2005 : Made constants final (DG);
* 26-Apr-2005 : Removed LOGGER (DG);
* 01-Jun-2005 : Fixed zooming for combined plots - see bug report
  * 1212039, fix thanks to Onno vd Akker (DG);
* 25-Nov-2005 : Reworked event listener mechanism (DG);
* 11-Aug-2006 : Fixed minor bug in restoreAutoRangeBounds() (DG);
* 04-Sep-2006 : Renamed attemptEditChartProperties() -->
  * doEditChartProperties() and made public (DG);
* 13-Sep-2006 : Don't generate ChartMouseEvents if the panel's chart is null
  * (fixes bug 1556951) (DG);
* 05-Mar-2007 : Applied patch 1672561 by Sergei Ivanov, to fix zoom rectangle
  * drawing for dynamic charts (DG);
* 17-Apr-2007 : Fix NullPointerExceptions in zooming for combined plots (DG);
* 24-May-2007 : When the look-and-feel changes, update the popup menu if there
  * is one (DG);
* 06-Jun-2007 : Fixed coordinates for drawing buffer image (DG);
* 24-Sep-2007 : Added zoomAroundAnchor flag, and handle clearing of chart
buffer (DG);
* 25-Oct-2007 : Added default directory attribute (DG);
* 07-Nov-2007 : Fixed (rare) bug in refreshing off-screen image (DG);
* 07-May-2008 : Fixed bug in zooming that triggered zoom for a rectangle
* outside of the data area (DG);
* 08-May-2008 : Fixed serialization bug (DG);
* 15-Aug-2008 : Increased default maxDrawWidth/Height (DG);
* 18-Sep-2008 : Modified creation of chart buffer (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
* Jess Thrysoee (DG);
* 13-Jan-2009 : Fixed zooming methods to trigger only one plot
* change event (DG);
* 16-Jan-2009 : Use XOR for zoom rectangle only if useBuffer is false (DG);
* 18-Mar-2009 : Added mouse wheel support (DG);
* 19-Mar-2009 : Added panning on mouse drag support - based on Ulrich
  Voigt's patch 2686040 (DG);
* 26-Mar-2009 : Changed fillZoomRectangle default to true, and only change
  cursor for CTRL-mouse-click if panning is enabled (DG);
* 01-Apr-2009 : Fixed panning, and added different mouse event mask for
  MacOSX (DG);
* 08-Apr-2009 : Added copy to clipboard support, based on patch 1460845
  by Alessandro Borges (DG);
* 09-Apr-2009 : Added overlay support (DG);
* 10-Apr-2009 : Set chartBuffer background to match ChartPanel (DG);
* 05-May-2009 : Match scaling (and insets) in doCopy() (DG);
* 01-Jun-2009 : Check for null chart in mousePressed() method (DG);
* 08-Jun-2009 : Fixed bug in setMouseWheelEnabled() (DG);
* 06-Jul-2009 : Clear off-screen buffer to fully transparent (DG);
* 10-Oct-2011 : localization fix: bug #3353913 (MH);
* 05-Jul-2012 : Remove reflection for MouseWheelListener - only needed for
  JRE 1.3.1 (DG);
* 02-Jul-2013 : Use ParamChecks class (DG);
* 12-Sep-2013 : Provide auto-detection for JFreeSVG and OrsonPDF
* libraries (no compile time dependencies) (DG);
*

* 18-Dec-2001: Changed order of parameters in constructor (DG);
* 19-Dec-2001: Added a new constructor as suggested by Paul English (DG);
* 14-Feb-2002: Fixed bug in Hour(Date) constructor (DG);
* 26-Feb-2002: Changed getStart(), getMiddle() and getEnd() methods to
*    evaluate with reference to a particular time zone (DG);
* 15-Mar-2002: Changed API (DG);
* 16-Apr-2002: Fixed small time zone bug in constructor (DG);
* 10-Sep-2002: Added getSerialIndex() method (DG);
* 07-Oct-2002: Fixed errors reported by Checkstyle (DG);
* 10-Jan-2003: Changed base class and method names (DG);
* 13-Mar-2003: Moved to com.jrefinery.data.time package, and implemented
*    Serializable (DG);
*    convenience (DG);
* 30-Sep-2004: Replaced getTime().getTime() with getTimeInMillis() (DG);
* 04-Nov-2004: Reverted change of 30-Sep-2004, because it won't work for
*    JDK 1.3 (DG);
--- JFREECHART 1.0.x ---------------------------------------------
* 05-Oct-2006 : Updated API docs (DG);
* 06-Oct-2006 : Refactored to cache first and last millisecond values (DG);
* 04-Apr-2007 : In Hour(Date, TimeZone), peg milliseconds using specified
time zone (DG);
* 16-Sep-2008 : Deprecated DEFAULT_TIME_ZONE (DG);
* 02-Mar-2009 : Added new constructor with Locale (DG);
* 05-Jul-2012 : Replaced getTime().getTime() with getTimeInMillis() (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
*

 /* Changes:
 /* ------------
* 25-Sep-2002 : Version 1, contributed by Bryan Scott (DG);
* 23-Jan-2003 : Removed one constructor (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 27-Mar-2003 : Changed MeterDataset to ValueDataset (DG);
* 21-Aug-2003 : Implemented Cloneable (DG);
* 08-Sep-2003 : Added internationalization via use of properties
  * resourceBundle (RFE 690236) (AL);
* 09-Sep-2003 : Changed Color --> Paint (DG);
* 15-Sep-2003 : Added null data value check (bug report 805009) (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 16-Mar-2004 : Added support for revolutionDistance to enable support for
  * other units than degrees.
* 11-Jan-2005 : Removed deprecated code in preparation for 1.0.0 release (DG);
* 17-Apr-2005 : Fixed bug in clone() method (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 08-Jun-2005 : Fixed equals() method to handle GradientPaint (DG);
* 16-Jun-2005 : Renamed getData() --> getDatasets() and
  * addData() --> addDataset() (DG);
* 20-Mar-2007 : Fixed serialization (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
  * Jess Thrysoee (DG);
* 10-Oct-2011 : localization fix: bug #3353913 (MH);
* 02-Jul-2013 : Use ParamChecks (DG);
* /

* XYLineAndShapeRenderer.java
* ---------------------------
* (C) Copyright 2004-2014, by Object Refinery Limited.
* *
* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s):   -;
* *
* Changes:
* ------
* 27-Jan-2004 : Version 1 (DG);
* 10-Feb-2004 : Minor change to drawItem() method to make cut-and-paste
*    overriding easier (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 25-Aug-2004 : Added support for chart entities (required for tooltips) (DG);
* 24-Sep-2004 : Added flag to allow whole series to be drawn as a path
*    (necessary when using a dashed stroke with many data
*    items) (DG);
* 04-Oct-2004 : Renamed BooleanUtils -- > BooleanUtilities (DG);
* 11-Nov-2004 : Now uses ShapeUtilities to translate shapes (DG);
* 27-Jan-2005 : The getLegendItem() method now omits hidden series (DG);
* 28-Jan-2005 : Added new constructor (DG);
* 09-Mar-2005 : Added fillPaint settings (DG);
* 20-Apr-2005 : Use generators for legend tooltips and URLs (DG);
* 22-Jul-2005 : Renamed defaultLinesVisible --> baseLinesVisible,
  * defaultShapesVisible --> baseShapesVisible and
  * defaultShapesFilled --> baseShapesFilled (DG);
* 29-Jul-2005 : Added code to draw item labels (DG);
* -------------- JFREECHART 1.0.x ---------------------------------------------
* 20-Jul-2006 : Set dataset and series indices in LegendItem (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 21-Feb-2007 : Fixed bugs in clone() and equals() (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 08-Jun-2007 : Fix for bug 1731912 where entities are created even for data
  * items that are not displayed (DG);
* 26-Oct-2007 : Deprecated override attributes (DG);
* 02-Jun-2008 : Fixed tooltips at lower edges of data area (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 19-Sep-2008 : Fixed bug with drawSeriesLineAsPath - patch by Greg Darke (DG);
* 18-May-2009 : Clip lines in drawPrimaryLine() (DG);
* 05-Jul-2012 : Removed JDK 1.3.1 code (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* /*

*                   Michel Santos;
*                   Ted Schwartz (fix for bug 1955483);
* 
* Changes
* -------
* 15-Nov-2001 : Version 1 (DG);
* 03-Apr-2002 : Added an add(double, double) method (DG);
* 29-Apr-2002 : Added a clear() method (ARM);
* 06-Jun-2002 : Updated Javadoc comments (DG);
* 29-Aug-2002 : Modified to give user control over whether or not duplicate 
*               x-values are allowed (DG);
* 07-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 11-Nov-2002 : Added maximum item count, code contributed by Jonathan 
*               Gabbai (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 04-Aug-2003 : Added getItems() method (DG);
* 15-Aug-2003 : Changed 'data' from private to protected, added new add() 
*               methods with a 'notify' argument (DG);
* 22-Sep-2003 : Added getAllowDuplicateXValues() method (RA);
* 29-Jan-2004 : Added autoSort attribute, based on a contribution by 
*               Michel Santos - see patch 886740 (DG);
* 03-Feb-2004 : Added indexOf() method (DG);
* 16-Feb-2004 : Added remove() method (DG);
* 18-Aug-2004 : Moved from org.jfree.data --> org.jfree.data.xy (DG);
* 21-Feb-2005 : Added update(Number, Number) and addOrUpdate(Number, Number) 
*               methods (DG);
* 03-May-2005 : Added a new constructor, fixed the setMaximumItemCount() 
*               method to remove items (and notify listeners) if necessary,
*               fixed the add() and addOrUpdate() methods to handle unsorted 
*               series (DG);
* ----------- JFreeChart 1.0.x -----------------------------
* 11-Jan-2005 : Renamed update(int, Number) --> updateByIndex() (DG);
* 15-Jan-2007 : Added toArray() method (DG);
* 31-Oct-2007 : Implemented faster hashCode() (DG);
* 22-Nov-2007 : Reimplemented clone() (DG);
* 01-May-2008 : Fixed bug 1955483 in addOrUpdate() method, thanks to
  * Ted Schwartz (DG);
* 24-Nov-2008 : Further fix for 1955483 (DG);
* 06-Mar-2009 : Added minX, maxX, minY and maxY fields (DG);
* 10-Jun-2009 : Make clones to isolate XYDataItem instances used
  * for data storage (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
*

 *
 * Original Author:  David Gilbert (for Object Refinery Limited);
 * Contributor(s):  Pierre-Marie Le Biot;
 *
 * Changes
 * ------
 * 25-Nov-2004 : First working version (DG);
 * 11-Jan-2005 : Removed deprecated code in preparation for 1.0.0 release (DG);
 * 08-Feb-2005 : Updated for changes in RectangleConstraint class (DG);
* 11-Feb-2005 : Implemented PublicCloneable (DG);
* 23-Feb-2005 : Replaced chart reference with LegendItemSource (DG);
* 16-Mar-2005 : Added itemFont attribute (DG);
* 17-Mar-2005 : Fixed missing fillShape setting (DG);
* 20-Apr-2005 : Added new draw() method (DG);
* 03-May-2005 : Modified equals() method to ignore sources (DG);
* 13-May-2005 : Added settings for legend item label and graphic padding (DG);
* 09-Jun-2005 : Fixed serialization bug (DG);
* 01-Sep-2005 : Added itemPaint attribute (PMLB);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 20-Jul-2006 : Use new LegendItemBlockContainer to restore support for
*   LegendItemEntities (DG);
* 06-Oct-2006 : Add tooltip and URL text to legend item (DG);
* 13-Dec-2006 : Added support for GradientPaint in legend items (DG);
* 16-Mar-2007 : Updated border drawing for changes in AbstractBlock (DG);
* 18-May-2007 : Pass seriesKey and dataset to legend item block (DG);
* 15-Aug-2008 : Added getWrapper() method (DG);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 11-Mar-2012 : Added sort-order support - patch 3500621 by Simon Kaczor (MH);
* 03-Jul-2013 : Use ParamChecks (DG);
* /

* ..............................

* StandardXYItemRenderer.java

* ..............................

* (C) Copyright 2001-2013, by Object Refinery Limited and Contributors.

* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s):  Mark Watson (www.markwatson.com);
*                Jonathan Nash;
*                Andreas Schneider;
*                Norbert Kiesel (for TBD Networks);
*                Christian W. Zuckschwerdt;
*                Bill Kelemen;
*                Nicolas Brodu (for Astrium and EADS Corporate Research
*                Center);

* Changes:
*  .........
* 19-Oct-2001 : Version 1, based on code by Mark Watson (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* 21-Dec-2001 : Added working line instance to improve performance (DG);
* 22-Jan-2002 : Added code to lock crosshairs to data points. Based on code
*                by Jonathan Nash (DG);
* 23-Jan-2002 : Added DrawInfo parameter to drawItem() method (DG);
* 28-Mar-2002 : Added a property change listener mechanism so that the
*                renderer no longer needs to be immutable (DG);
* 02-Apr-2002 : Modified to handle null values (DG);
* 09-Apr-2002 : Modified draw method to return void. Removed the translated
*                zero from the drawItem method. Override the initialise()
* method to calculate it (DG);
* 13-May-2002: Added code from Andreas Schneider to allow changing shapes/colors per item (DG);
* 24-May-2002: Incorporated tooltips into chart entities (DG);
* 25-Jun-2002: Removed redundant code (DG);
* 05-Aug-2002: Incorporated URLs for HTML image maps into chart entities (RA);
* 08-Aug-2002: Added discontinuous lines option contributed by Norbert Kiesel (DG);
* 20-Aug-2002: Added user definable default values to be returned by protected methods unless overridden by a subclass (DG);
* 23-Sep-2002: Updated for changes in the XYItemRenderer interface (DG);
* 02-Oct-2002: Fixed errors reported by Checkstyle (DG);
* 25-Mar-2003: Implemented Serializable (DG);
* 01-May-2003: Modified drawItem() method signature (DG);
* 15-May-2003: Modified to take into account the plot orientation (DG);
* 29-Jul-2003: Amended code that doesn't compile with JDK 1.2.2 (DG);
* 30-Jul-2003: Modified entity constructor (CZ);
* 24-Aug-2003: Added null/NaN checks in drawItem (BK);
* 08-Sep-2003: Fixed serialization (NB);
* 16-Sep-2003: Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 21-Jan-2004: Override for getLegendItem() method (DG);
* 27-Jan-2004: Moved working line into state object (DG);
* 10-Feb-2004: Changed drawItem() method to make cut-and-paste overriding easier (DG);
* 25-Feb-2004: Replaced CrosshairInfo with CrosshairState. Renamed XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 08-Jun-2004: Modified to use getX() and getY() methods (DG);
* 15-Jul-2004: Switched getX() with getXValue() and getY() with getYValue() (DG);
* 25-Aug-2004: Created addEntity() method in superclass (DG);
* 08-Oct-2004: Added 'gapThresholdType' as suggested by Mike Watts (DG);
* 11-Nov-2004: Now uses ShapeUtilities to translate shapes (DG);
* 23-Feb-2005: Fixed getLegendItem() method to show lines. Fixed bug 1077108 (shape not visible for first item in series) (DG);
* 10-Apr-2005: Fixed item label positioning with horizontal orientation (DG);
* 20-Apr-2005: Use generators for legend tooltips and URLs (DG);
* 27-Apr-2005: Use generator for series label in legend (DG);

----------- JFREECHART 1.0.x -------------------------------
* 15-Jun-2006: Fixed bug (1380480) for rendering series as path (DG);
* 06-Feb-2007: Fixed bug 1086307, crosshairs with multiple axes (DG);
* 14-Mar-2007: Fixed problems with the equals() and clone() methods (DG);
* 23-Mar-2007: Clean-up of shapesFilled attributes (DG);
* 20-Apr-2007: Updated getLegendItem() and drawItem() for renderer change (DG);
* 17-May-2007: Set datasetIndex and seriesIndex in getLegendItem() method (DG);
* 18-May-2007: Set dataset and seriesKey for LegendItem (DG);
Found in path(s):

 *                 Chris Boek;
 *                 Peter Kolb (patches 1934255 and 2603321);
 *                 Andrew Mickish (patch 1870189);
 *                 Fawad Halim (bug 2201869);
 *
 * Changes (from 23-Jun-2001)
 * --------------------------
 * 23-Jun-2001 : Modified to work with null data source (DG);
 * 18-Sep-2001 : Updated header (DG);
* 27-Nov-2001: Changed constructors from public to protected, updated Javadoc comments (DG);
* 16-Jan-2002: Added an optional crosshair, based on the implementation by Jonathan Nash (DG);
* 26-Feb-2002: Updated import statements (DG);
* 22-Apr-2002: Added a setRange() method (DG);
* 25-Jun-2002: Removed redundant local variable (DG);
* 25-Jul-2002: Changed order of parameters in ValueAxis constructor (DG);
* 21-Aug-2002: The setTickUnit() method now turns off auto-tick unit selection (fix for bug id 528885) (DG);
* 05-Sep-2002: Updated the constructors to reflect changes in the Axis class (DG);
* 18-Sep-2002: Fixed errors reported by Checkstyle (DG);
* 25-Sep-2002: Added new setRange() methods, and deprecated setAxisRange() (DG);
* 04-Oct-2002: Changed auto tick selection to parallel number axis classes (DG);
* 24-Oct-2002: Added a date format override (DG);
* 08-Nov-2002: Moved to new package com.jrefinery.chart.axis (DG);
* 14-Jan-2003: Changed autoRangeMinimumSize from Number --> double, moved crosshair settings to the plot (DG);
* 15-Jan-2003: Removed anchor date (DG);
* 20-Jan-2003: Removed unnecessary constructors (DG);
* 26-Mar-2003: Implemented Serializable (DG);
* 02-May-2003: Added additional units to createDateStandardDateTickUnits() method, as suggested by mhilpert in bug report 723187 (DG);
* 13-May-2003: Merged HorizontalDateAxis and VerticalDateAxis (DG);
* 24-May-2003: Added support for underlying timeline for SegmentedTimeline (BK);
* 16-Jul-2003: Applied patch from Pawel Pabis to fix overlapping dates (DG);
* 22-Jul-2003: Applied patch from Pawel Pabis for monthly ticks (DG);
* 25-Jul-2003: Fixed bug 777561 and 777586 (DG);
* 13-Aug-2003: Implemented Cloneable and added equals() method (DG);
* 02-Sep-2003: Fixes for bug report 790506 (DG);
* 04-Sep-2003: Fixed tick label alignment when axis appears at the top (DG);
* 10-Sep-2003: Fixes for segmented timeline (DG);
* 17-Sep-2003: Fixed a layout bug when multiple domain axes are used (DG);
* 29-Oct-2003: Added workaround for font alignment in PDF output (DG);
* 07-Nov-2003: Modified to use new tick classes (DG);
* 12-Nov-2003: Modified tick labelling to use roll unit from DateTickUnit when a calculated tick value is hidden (which can occur in segmented date axes) (DG);
* 24-Nov-2003: Fixed some problems with the auto tick unit selection, and fixed bug 846277 (labels missing for inverted axis) (DG);
* 30-Dec-2003: Fixed bug in refreshTicksHorizontal() when start of time unit (ex. 1st of month) was hidden, causing infinite loop (BK);
* 13-Jan-2004: Fixed bug in previousStandardDate() method (fix by Richard Wardle) (DG);
* 21-Jan-2004 : Renamed translateJava2DToValue --> java2DToValue, and translateValueToJava2D --> valueToJava2D (DG);
* 12-Mar-2004 : Fixed bug where date format override is ignored for vertical axis (DG);
* 16-Mar-2004 : Added plotState to draw() method (DG);
* 07-Apr-2004 : Changed string width calculation (DG);
* 21-Apr-2004 : Fixed bug in estimateMaximumTickLabelWidth() method (bug id 939148) (DG);
* 11-Jan-2005 : Removed deprecated methods in preparation for 1.0.0 release (DG);
* 13-Jan-2005 : Fixed bug (see http://www.jfree.org/forum/viewtopic.php?t=11330) (DG);
* 21-Apr-2005 : Replaced Insets with RectangleInsets, removed redundant argument from selectAutoTickUnit() (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 10-Feb-2006 : Added some API doc comments in respect of bug 821046 (DG);
* 19-Apr-2006 : Fixed bug 1472942 in equals() method (DG);
* 25-Sep-2006 : Fixed bug 1564977 missing tick labels (DG);
* 15-Jan-2007 : Added get/setTimeZone() suggested by 'skunk' (DG);
* 18-Jan-2007 : Fixed bug 1638678, time zone for calendar in previousStandardDate() (DG);
* 04-Apr-2007 : Use time zone in date calculations (CB);
* 19-Apr-2007 : Fix exceptions in setMinimum/MaximumDate() (DG);
* 03-May-2007 : Fixed minor bugs in previousStandardDate(), with new JUnit tests (DG);
* 21-Nov-2007 : Fixed warnings from FindBugs (DG);
* 01-Sep-2008 : Use new methods from DateRange, added fix for bug 2078057 (DG);
* 18-Sep-2008 : Added locale to go with timezone (DG);
* 25-Sep-2008 : Added minor tick support, see patch 1934255 by Peter Kolb (DG);
* 25-Nov-2008 : Added bug fix 2201869 by Fawad Halim (DG);
* 21-Jan-2009 : Check tickUnit for minor tick count (DG);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 08-Feb-2012 : Bugfix for endless-loop, bug 3484403 by rbrabe (MH);
* 25-Jul-2013 : Update event notification to use fireChangeEvent() (DG);
* 01-Aug-2013 : Added attributedLabel override to support superscripts, subscripts and more (DG);
* 12-Sep-2013 : Prevent exception when zooming in below 1 millisecond (DG);
* 23-Nov-2013 : Deprecated DEFAULT_DATE_TICK_UNIT to fix bug #977 (DG);
* 10-Mar-2014 : Add get/setLocale() methods (DG);
*

 * XYAreaRenderer.java
 * -------------------
 * (C) Copyright 2002-2014, by Hari and Contributors.
 *
 * Original Author:  Hari (ourhari@hotmail.com);
 * Contributor(s):  David Gilbert (for Object Refinery Limited);
 * Richard Atkinson;
 * Christian W. Zuckschwerdt;
 * Martin Krauskopf;
 *
 * Changes:
* 03-Apr-2002 : Version 1, contributed by Hari. This class is based on the
  StandardXYItemRenderer class (DG);
* 09-Apr-2002 : Removed the translated zero from the drawItem method -
  overridden the initialise() method to calculate it (DG);
* 30-May-2002 : Added tool tip generator to constructor to match super
  class (DG);
* 25-Jun-2002 : Removed unnecessary local variable (DG);
* 05-Aug-2002 : Small modification to drawItem method to support URLs for HTML
  image maps (RA);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 07-Nov-2002 : Renamed AreaXYItemRenderer --> XYAreaRenderer (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified drawItem() method signature (DG);
* 27-Jul-2003 : Made line and polygon properties protected rather than
  private (RA);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 08-Dec-2003 : Modified hotspot for chart entity (DG);
* 10-Feb-2004 : Changed the drawItem() method to make cut-and-paste overriding
easier. Also moved state class into this class (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState. Renamed
  XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
gGetYValue() (DG);
* 11-Nov-2004 : Now uses ShapeUtilities to translate shapes (DG);
* 19-Jan-2005 : Now accesses primitives only from dataset (DG);
* 21-Mar-2005 : Override getLegendItem() and equals() methods (DG);
* 20-Apr-2005 : Use generators for legend tooltips and URLs (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 14-Feb-2007 : Fixed bug in clone() (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 04-May-2007 : Set processVisibleItemsOnly flag to false (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 17-Jun-2008 : Apply legend font and paint attributes (DG);
* 31-Dec-2008 : Fix for bug 2471906 - dashed outlines performance issue (DG);
* 11-Jun-2009 : Added a useFillPaint flag and a GradientPaintTransformer for
  the paint under the series (DG);
* 06-Oct-2011 : Avoid GeneralPath methods requiring Java 1.5 (MK);
* 03-Jul-2013 : Use ParamChecks (DG);
*

 *
 (C) Copyright 2002-2009, by Bryan Scott and Contributors.
 *
 * Original Author:  Bryan Scott; Andy
 * Contributor(s):  David Gilbert (for Object Refinery Limited);
 * Thomas Morgner;
 *
 * Changes
 * -------
 * 26-Apr-2002 : Creation based on JdbcXYDataSet, but extending
 * DefaultPieDataset (BS);
 * 24-Jun-2002 : Removed unnecessary import and local variable (DG);
 * 13-Aug-2002 : Updated Javadoc comments and imports, removed default
 * constructor (DG);
 * 18-Sep-2002 : Updated to support BIGINT (BS);
 * 21-Jan-2003 : Renamed JdbcPieDataset --> JDBCPieDataset (DG);
 * 03-Feb-2003 : Added Types.DECIMAL (see bug report 677814) (DG);
* 05-Jun-2003 : Updated to support TIME, optimised executeQuery method (BS);
* 30-Jul-2003 : Added empty constructor and executeQuery(connection,string) method (BS);
* 02-Dec-2003 : Throwing exceptions allows to handle errors, removed default constructor, as without a connection, a query can never be executed (TM);
* 04-Dec-2003 : Added missing Javadocs (DG);
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);

* Contributor(s): Nicolas Brodu;
*
* Changes:
* ---------
* 16-May-2003 : Version 1 (DG);
* 08-Aug-2003 : Adjusted totalWeight in remove() method (DG);
* 19-Aug-2003 : Added equals() method, implemented Cloneable and
  *    Serializable (DG);
* 11-Sep-2003 : Fix cloning support (subplots) (NB);
* 15-Sep-2003 : Implemented PublicCloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 17-Sep-2003 : Updated handling of 'clicks' (DG);
* 04-May-2004 : Added getter/setter methods for 'gap' attribute (DG);
* 12-Nov-2004 : Implemented the Zoomable interface (DG);
* 25-Nov-2004 : Small update to clone() implementation (DG);
* 21-Feb-2005 : The getLegendItems() method now returns the fixed legend
  *    items if set (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 13-Sep-2006 : Updated API docs (DG);
* 30-Oct-2006 : Added new getCategoriesForAxis() override (DG);
* 17-Apr-2007 : Added null argument checks to findSubplot() (DG);
* 14-Nov-2007 : Updated setFixedRangeAxisSpaceForSubplots() method (DG);
* 27-Mar-2008 : Add documentation for getDataRange() method (DG);
* 31-Mar-2008 : Updated getSubplots() to return EMPTY_LIST for null
  *    subplots, as suggested by Richard West (DG);
* 28-Apr-2008 : Fixed zooming problem (see bug 1950037) (DG);
* 26-Jun-2008 : Fixed crosshair support (DG);
* 11-Aug-2008 : Don't store totalWeight of subplots, calculate it as
  *    required (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* */

 * INTERVALBARRENDER.java
 * ==============================================================
 *
 * (C) Copyright 2002-2014, by Jeremy Bowman.
 *
 * Original Author:  Jeremy Bowman;
 * Contributor(s):  David Gilbert (for Object Refinery Limited);
 *                 Christian W. Zuckschwerdt;
 *                 Peter Kolb (patch 2497611, 2791407);
 *
 * Changes
 * ------
 * 29-Apr-2002 : Version 1, contributed by Jeremy Bowman (DG);
 * 11-May-2002 : Use CategoryPlot.getLabelsVisible() (JB);
 * 29-May-2002 : Added constructors (DG);
 * 26-Jun-2002 : Added axis to initialise method (DG);
 * 20-Sep-2002 : Added basic support for chart entities (DG);
 * 24-Oct-2002 : Amendments for changes in CategoryDataset interface and
 *                 CategoryToolTipGenerator interface (DG);
* 05-Nov-2002 : Base dataset is now TableDataset not CategoryDataset (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 19-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 08-Sep-2003 : Added checks for null values (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 21-Oct-2003 : Bar width moved into renderer state (DG);
* 23-Dec-2003 : Removed the deprecated MultiIntervalCategoryDataset
* interface (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
* --> CategoryItemLabelGenerator (DG);
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 24-Jun-2008 : Added new barPainter mechanism (DG);
* 07-Oct-2008 : Override equals() method to fix minor bug (DG);
* 14-Jan-2009 : Added support for seriesVisible flags (PK);
* 16-May-2009 : The findRangeBounds() method needs to include the dataset
* interval (DG);
* 19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);
* 30-Oct-2011 : Fixed alignment when setMaximumBarWidth is applied (DG);

* StackedXYAreaRenderer2.java
* ---------------------------
* (C) Copyright 2004-2014, by Object Refinery Limited and Contributors.
*
* Original Author:  David Gilbert (for Object Refinery Limited), based on
* the StackedXYAreaRenderer class by Richard Atkinson;
* Contributor(s):  -;
* *
* Changes:
* --------
* 30-Apr-2004 : Version 1 (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*    getYValue() (DG);
* 10-Sep-2004 : Removed getRangeType() method (DG);
* 06-Jan-2004 : Renamed getRangeExtent() --> findRangeBounds (DG);
* 28-Mar-2005 : Use getXValue() and getYValue() from dataset (DG);
* 03-Oct-2005 : Add entity generation to drawItem() method (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 22-Aug-2006 : Handle null and empty datasets correctly in the
*    findRangeBounds() method (DG);
* 22-Sep-2006 : Added a flag to allow rounding of x-coordinates (after
*    translation to Java2D space) in order to avoid the striping
*    that can result from anti-aliasing (thanks to Doug
*    Clayton) (DG);
* 30-Nov-2006 : Added accessor methods for the roundXCoordinates flag (DG);
* 02-Jun-2008 : Fixed bug with PlotOrientation.HORIZONTAL (DG);
* *

* *********************
* ThermometerPlot.java
* *********************
* 
* (C) Copyright 2000-2013, by Bryan Scott and Contributors.
* 
* Original Author:  Bryan Scott (based on MeterPlot by Hari).
* Contributor(s):   David Gilbert (for Object Refinery Limited).
*                   Arnaud Lelievre;
*                   Julien Henry (see patch 1769088) (DG);
* 
* Changes
* -------
* 11-Apr-2002 : Version 1, contributed by Bryan Scott;
* 15-Apr-2002 : Changed to implement VerticalValuePlot;
* 29-Apr-2002 : Added getVerticalValueAxis() method (DG);
* 25-Jun-2002 : Removed redundant imports (DG);
* 17-Sep-2002 : Reviewed with Checkstyle utility (DG);
* 18-Sep-2002 : Extensive changes made to API, to iron out bugs and
*               inconsistencies (DG);
* 13-Oct-2002 : Corrected error datasetChanged which would generate exceptions
*               when value set to null (BRS).
* 23-Jan-2003 : Removed one constructor (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 02-Jun-2003 : Removed test for compatible range axis (DG);
* 01-Jul-2003 : Added additional check in draw method to ensure value not
*               null (BRS);
* 08-Sep-2003 : Added internationalization via use of properties
*               resourceBundle (RFE 690236) (AL);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 29-Sep-2003 : Updated draw to set value of cursor to non-zero and allow
*               painting of axis. An incomplete fix and needs to be set for
*               left or right drawing (BRS);
Open Source Used In Data Center Network Manager 11.5(1)  24312

* 19-Nov-2003 : Added support for value labels to be displayed left of the thermometer
* 19-Nov-2003 : Improved axis drawing (now default axis does not draw axis line and is closer to the bulb). Added support for the positioning of the axis to the left or right of the bulb. (BRS);
* 03-Dec-2003 : Directly mapped deprecated setData()/getData() method to get/setDataset() (TM);
* 21-Jan-2004 : Update for renamed method in ValueAxis (DG);
* 07-Apr-2004 : Changed string width calculation (DG);
* 12-Nov-2004 : Implemented the new Zoomable interface (DG);
* 06-Jan-2004 : Added getOrientation() method (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for 1.0.0 release (DG);
* 29-Mar-2005 : Fixed equals() method (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 09-Jun-2005 : Fixed more bugs in equals() method (DG);
* 10-Jun-2005 : Fixed minor bug in setDisplayRange() method (DG);
* ------------- JFREECHART 1.0.x -------------------------------
* 14-Nov-2006 : Fixed margin when drawing (DG);
* 03-May-2007 : Fixed datasetChanged() to handle null dataset, added null argument check and event notification to setRangeAxis(), added null argument check to setPadding(), setValueFont(), setValuePaint(), setValueFormat() and setMercuryPaint(), deprecated get/setShowValueLines(), deprecated getMinimum/MaximumVerticalDataValue(), and fixed serialization bug (DG);
* 24-Sep-2007 : Implemented new methods in Zoomable interface (DG);
* 08-Oct-2007 : Added attributes for thermometer dimensions - see patch 1769088 by Julien Henry (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by Jess Thrysoee (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* */

-------------------
XYStepRenderer.java
-------------------
(C) Copyright 2002-2014, by Roger Studner and Contributors.

Original Author: Roger Studner;
Contributor(s): David Gilbert (for Object Refinery Limited);
               Matthias Rose;
               Gerald Struck (fix for bug 1569094);
               Ulrich Voigt (patch 1874890);
               Martin Hoeller (contribution to patch 1874890);

Changes
-------
13-May-2002 : Version 1, contributed by Roger Studner (DG);
25-Jun-2002 : Updated import statements (DG);
22-Jul-2002 : Added check for null data items (DG);
25-Mar-2003 : Implemented Serializable (DG);
01-May-2003 : Modified drawItem() method signature (DG);
20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
28-Oct-2003 : Added tooltips, code contributed by Matthias Rose (RFE 824857) (DG);
10-Feb-2004 : Removed working line (use line from state object instead) (DG);
25-Feb-2004 : Replaced CrosshairInfo with CrosshairState. Renamed XYToolTipGenerator --> XYItemLabelGenerator (DG);
19-Jan-2005 : Now accesses only primitives from dataset (DG);
15-Mar-2005 : Fix silly bug in drawItem() method (DG);
19-Sep-2005 : Extend XYLineAndShapeRenderer (fixes legend shapes), added
* support for series visibility, and use getDefaultEntityRadius()
* for entity hotspot size (DG);
* ------------------ JFREECHART 1.0.x ---------------------------------------------
* 15-Jun-2006 : Added basic support for item labels (DG);
* 11-Oct-2006 : Fixed rendering with horizontal orientation (see bug 1569094),
*    thanks to Gerald Struck (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 14-Feb-2008 : Applied patch 1874890 by Ulrich Voigt (with contribution from
*    Martin Hoeller) (DG);
* 14-May-2008 : Call addEntity() in drawItem() (DG);
* 24-Sep-2008 : Fixed bug 2113627 by utilising second pass to draw item
*    labels (DG);
* */

ClusteredXYBarRenderer.java
* ---------------------------
* (C) Copyright 2003-2014, by Paolo Cova and Contributors.
* 
* Original Author: Paolo Cova;
* Contributor(s): David Gilbert (for Object Refinery Limited);
*                  Christian W. Zuckschwerdt;
*                  Matthias Rose;
* 
* Changes 
* -------
* 24-Jan-2003 : Version 1, contributed by Paolo Cova (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified drawItem() method signature (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 03-Nov-2003 : In draw method added state parameter and y==null value handling (MR);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with getYValue() (DG);
* 01-Oct-2004 : Fixed bug where 'drawBarOutline' flag is ignored (DG);
* 16-May-2005 : Fixed to used outline stroke for bar outlines. Removed some redundant code with the result that the renderer now respects the 'base' setting from the super-class. Added an equals() method (DG);
* 19-May-2005 : Added minimal item label implementation - needs improving (DG);
* ----------------- JFREECHART 1.0.x -------------------------------
* 11-Dec-2006 : Added support for GradientPaint (DG);
* 12-Jun-2007 : Added override to findDomainBounds() to handle cluster offset, fixed rendering to handle inverted axes, and simplified entity generation code (DG);
* 24-Jun-2008 : Added new barPainter mechanism (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* */

 *
 * ---------------------
 * NumberAxis.java
 * ---------------------
 * (C) Copyright 2000-2013, by Object Refinery Limited and Contributors.
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Laurence Vanhelsuwe;
  Peter Kolb (patches 1934255 and 2603321);

* Changes
* ------
* 18-Sep-2001 : Added standard header and fixed DOS encoding problem (DG);
* 22-Sep-2001 : Changed setMinimumAxisValue() and setMaximumAxisValue() so
  that they clear the autoRange flag (DG);
* 27-Nov-2001 : Removed old, redundant code (DG);
* 30-Nov-2001 : Added accessor methods for the standard tick units (DG);
* 08-Jan-2002 : Added setAxisRange() method (since renamed setRange()) (DG);
* 16-Jan-2002 : Added setTickUnit() method. Extended ValueAxis to support an
  optional cross-hair (DG);
* 08-Feb-2002 : Fixes bug to ensure the autorange is recalculated if the
  setAutoRangeIncludesZero flag is changed (DG);
* 25-Feb-2002 : Added a new flag autoRangeStickyZero to provide further
  control over margins in the auto-range mechanism. Updated
  constructors. Updated import statements. Moved the
  createStandardTickUnits() method to the TickUnits class (DG);
* 19-Apr-2002 : Updated Javadoc comments (DG);
* 01-May-2002 : Updated for changes to TickUnit class, removed valueToString()
  method (DG);
* 25-Jul-2002 : Moved the lower and upper margin attributes, and the
  auto-range minimum size, up one level to the ValueAxis
  class (DG);
* 05-Sep-2002 : Updated constructor to match changes in Axis class (DG);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 04-Oct-2002 : Moved standardTickUnits from NumberAxis --> ValueAxis (DG);
* 24-Oct-2002 : Added a number format override (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 19-Nov-2002 : Removed grid settings (now controlled by the plot) (DG);
* 14-Jan-2003 : Changed autoRangeMinimumSize from Number --> double, and moved
  crosshair settings to the plot classes (DG);
* 20-Jan-2003 : Removed the monolithic constructor (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 16-Jul-2003 : Reworked to allow for multiple secondary axes (DG);
* 13-Aug-2003 : Implemented Cloneable (DG);
* 07-Oct-2003 : Fixed bug (815028) in the auto range calculation (DG);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 07-Nov-2003 : Modified to use NumberTick class (DG);
* 21-Jan-2004 : Renamed translateJava2DToValue --> java2DToValue, and
  translateValueToJava2D --> valueToJava2D (DG);
* 03-Mar-2004 : Added plotState to draw() method (DG);
* 07-Apr-2004 : Changed string width calculation (DG);
* 11-Jan-2005 : Removed deprecated methods in preparation for 1.0.0
  release (DG);
* 28-Mar-2005: Renamed autoRangeIncludesZero() --> getAutoRangeIncludesZero()
* and autoRangeStickyZero() --> getAutoRangeStickyZero() (DG);
* 21-Apr-2005: Removed redundant argument from selectAutoTickUnit() (DG);
* 22-Apr-2005: Renamed refreshHorizontalTicks --> refreshTicksHorizontal
* (and likewise the vertical version) for consistency with
* other axis classes (DG);
* -------------- JFREECHART 1.0.x ---------------------------------------------
* 10-Feb-2006: Added some API doc comments in respect of bug 821046 (DG);
* 20-Feb-2006: Modified equals() method to check rangeType field (fixes bug
* 1435461) (DG);
* 04-Sep-2006: Fix auto range calculation for the case where all data values
* are constant and large (see bug report 1549218) (DG);
* 11-Dec-2006: Fix bug in auto-tick unit selection with tick format override,
* see bug 1608371 (DG);
* 22-Mar-2007: Use new defaultAutoRange attribute (DG);
* 25-Sep-2008: Added minor tick support, see patch 1934255 by Peter Kolb (DG);
* 21-Jan-2009: Default minor tick counts will now come from the tick unit
* collection (DG);
* 19-Mar-2009: Added entity support - see patch 2603321 by Peter Kolb (DG);
* 02-Jul-2013: Use ParamChecks (DG);
* 01-Aug-2013: Added attributedLabel override to support superscripts,
* subscripts and more (DG);
* */

*
* -------------------
* XYAreaRenderer2.java
* -------------------
* (C) Copyright 2004-2014, by Hari and Contributors.
*
* Original Author: Hari (ourhari@hotmail.com);
* Contributor(s): David Gilbert (for Object Refinery Limited);
*                   Richard Atkinson;
*                   Christian W. Zuckschwerdt;
*                   Martin Krauskopf;
*
* Changes:
* --------
* 03-Apr-2002 : Version 1, contributed by Hari. This class is based on the
*                StandardXYItemRenderer class (DG);
* 09-Apr-2002 : Removed the translated zero from the drawItem method -
*                overridden the initialise() method to calculate it (DG);
* 30-May-2002 : Added tool tip generator to constructor to match super
*                class (DG);
* 25-Jun-2002 : Removed unnecessary local variable (DG);
* 05-Aug-2002 : Small modification to drawItem method to support URLs for
*                HTML image maps (RA);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 07-Nov-2002 : Renamed AreaXYItemRenderer --> XYAreaRenderer (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified drawItem() method signature (DG);
* 27-Jul-2003 : Made line and polygon properties protected rather than
*                private (RA);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 08-Dec-2003 : Modified hotspot for chart entity (DG);
* 10-Feb-2004 : Changed the drawItem() method to make cut-and-paste
*                overriding easier. Also moved state class into this
*                class (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState. Renamed
*                XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*                getYValue() (DG);
* 11-Nov-2004 : Now uses ShapeUtilities to translate shapes (DG);
* 19-Jan-2005 : Now accesses only primitives from the dataset (DG);
* 21-Mar-2005 : Override getLegendItem() (DG);
* 20-Apr-2005 : Use generators for legend tooltips and URLs (DG);
* 30-Nov-2006 : Fixed equals() and clone() implementations (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 20-Apr-2007 : Updated getLegendItem() and drawItem() for renderer change (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 17-Jun-2008 : Apply legend font and paint attributes (DG);
* 06-Oct-2011 : Avoid GeneralPath methods requiring Java 1.5 (MK);
* 03-Jul-2013 : Use ParamChecks (DG);
* /

* WaterfallBarRenderer.java
* -------------------------
* (C) Copyright 2003-2014, by Object Refinery Limited and Contributors.
* 
* Original Author:  Darshan Shah;
* Contributor(s):  David Gilbert (for Object Refinery Limited);
* 
* Changes
* ------
* 20-Oct-2003 : Version 1, contributed by Darshan Shah (DG);
* 06-Nov-2003 : Changed order of parameters in constructor, and added support
*               for GradientPaint (DG);
* 10-Feb-2004 : Updated drawItem() method to make cut-and-paste overriding
*               easier. Also fixed a bug that meant the minimum bar length
*               was being ignored (DG);
* 04-Oct-2004 : Reworked equals() method and renamed PaintUtils
*               --> PaintUtilities (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 07-Jan-2005 : Renamed getRangeExtent() --> findRangeBounds (DG);
* 23-Feb-2005 : Added argument checking (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
*               --> CategoryItemLabelGenerator (DG);
* 09-Jun-2005 : Use addItemEntity() from superclass (DG);
* 27-Mar-2008 : Fixed error in findRangeBounds() method (DG);
* 26-Sep-2008 : Fixed bug with bar alignment when maximumBarWidth is
*               applied (DG);
* 04-Feb-2009 : Updated findRangeBounds to handle null dataset consistently
*               with other renderers (DG);
* 19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* /

* ************
* ValueAxis.java
* ************
* (C) Copyright 2000-2014, by Object Refinery Limited and Contributors.
*
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s):  Jonathan Nash;
* Nicolas Brodu (for Astrium and EADS Corporate Research
* Center);
* Peter Kolb (patch 1934255);
* Andrew Mickish (patch 1870189);

* Changes
* -------
* 18-Sep-2001 : Added standard header and fixed DOS encoding problem (DG);
* 23-Nov-2001 : Overhauled standard tick unit code (DG);
* 04-Dec-2001 : Changed constructors to protected, and tidied up default
* values (DG);
* 12-Dec-2001 : Fixed vertical gridlines bug (DG);
* 16-Jan-2002 : Added an optional crosshair, based on the implementation by
* Jonathan Nash (DG);
* 23-Jan-2002 : Moved the minimum and maximum values to here from NumberAxis,
* and changed the type from Number to double (DG);
* 25-Feb-2002 : Added default value for autoRange. Changed autoAdjustRange
* from public to protected. Updated import statements (DG);
* 23-Apr-2002 : Added setRange() method (DG);
* 29-Apr-2002 : Added range adjustment methods (DG);
* 13-Jun-2002 : Modified setCrosshairValue() to notify listeners only when the
* crosshairs are visible, to avoid unnecessary repaints, as
* suggested by Kees Kuip (DG);
* 25-Jul-2002 : Moved lower and upper margin attributes from the NumberAxis
class (DG);
* 05-Sep-2002 : Updated constructor for changes in Axis class (DG);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 04-Oct-2002 : Moved standardTickUnits from NumberAxis --> ValueAxis (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 19-Nov-2002 : Removed grid settings (now controlled by the plot) (DG);
* 04-Oct-2002 : Moved the 'inverted' attribute from NumberAxis to
*       ValueAxis (DG);
* 03-Jan-2003 : Small fix to ensure auto-range minimum is observed
*               immediately (DG);
* 14-Jan-2003 : Changed autoRangeMinimumSize from Number --> double (DG);
* 20-Jan-2003 : Replaced monolithic constructor (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 09-May-2003 : Added AxisLocation parameter to translation methods (DG);
* 13-Aug-2003 : Implemented Cloneable (DG);
* 01-Sep-2003 : Fixed bug 793167 (setMaximumAxisValue exception) (DG);
* 02-Sep-2003 : Fixed bug 795366 (zooming on inverted axes) (DG);
* 08-Sep-2003 : Completed Serialization support (NB);
* 08-Sep-2003 : Renamed get/setMinimumValue --> get/setLowerBound,
*               and get/setMaximumValue --> get/setUpperBound (DG);
* 27-Oct-2003 : Changed DEFAULT_AUTO_RANGE_MINIMUM_SIZE value - see bug ID
*               829606 (DG);
* 07-Nov-2003 : Changes to tick mechanism (DG);
* 06-Jan-2004 : Moved axis line attributes to Axis class (DG);
* 21-Jan-2004 : Removed redundant axisLineVisible attribute. Renamed
*       translateJava2DToValue --> java2DToValue, and
*       translateValueToJava2D --> valueToJava2D (DG);
* 23-Jan-2004 : Fixed setAxisLinePaint() and setAxisLineStroke() which had no
*       effect (andreas.gawecki@coremedia.com);
* 07-Apr-2004 : Changed text bounds calculation (DG);
* 26-Apr-2004 : Added getter/setter methods for arrow shapes (DG);
* 18-May-2004 : Added methods to set axis range *including* current
*               margins (DG);
* 02-Jun-2004 : Fixed bug in setRangeWithMargins() method (DG);
* 30-Sep-2004 : Moved drawRotatedString() from RefineryUtilities
*               -- TextUtilities (DG);
* 11-Jan-2005 : Removed deprecated methods in preparation for 1.0.0
*               release (DG);
* 21-Apr-2005 : Replaced Insets with RectangleInsets (DG);
* 10-Oct-2006 : Source reformatting (DG);
* 22-Mar-2007 : Added new defaultAutoRange attribute (DG);
* 02-Aug-2007 : Check for major tick when drawing label (DG);
* 25-Sep-2008 : Added minor tick support, see patch 1934255 by Peter Kolb (DG);
* 21-Jan-2009 : Updated default behaviour of minor ticks (DG);
* 18-Mar-2008 : Added resizeRange2() method which provides more natural
*               anchored zooming for mouse wheel support (DG);
* 26-Mar-2009 : In equals(), only check current range if autoRange is
* false (DG);
* 30-Mar-2009 : Added pan(double) method (DG);
* 03-Sep-2012 : Fix reserveSpace() method, bug 3555275 (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 18-Mar-2014 : Updates to support attributed tick labels for LogAxis (DG);
* 29-Jul-2014 : Add hints to normalise axis line and tick marks (DG);
*
*/

* --------------------------
* (C) Copyright 2003-2014, by Richard Atkinson and Contributors.
*
* Original Author: Richard Atkinson;
* Contributor(s): Christian W. Zuckschwerdt;
* David Gilbert (for Object Refinery Limited);
Changes:
-------
27-Jul-2003 : Initial version (RA);
30-Jul-2003 : Modified entity constructor (CZ);
18-Aug-2003 : Now handles null values (RA);
20-Aug-2003 : Implemented Cloneable, PublicCloneable and Serializable (DG);
22-Sep-2003 : Changed to be a two pass renderer with optional shape Paint
              and Stroke (RA);
07-Oct-2003 : Added renderer state (DG);
10-Feb-2004 : Updated state object and changed drawItem() method to make
              overriding easier (DG);
25-Feb-2004 : Replaced CrosshairInfo with CrosshairState. Renamed
              XYSnowtipGenerator --> XYItemLabelGenerator (DG);
15-Jul-2004 : Switched getX() with getXValue() and getY() with
              getYValue() (DG);
10-Sep-2004 : Removed getRangeType() method (DG);
11-Nov-2004 : Now uses ShapeUtilities to translate shapes (DG);
06-Jan-2005 : Override equals() (DG);
07-Jan-2005 : Update for method name changes in DatasetUtilities (DG);
28-Mar-2005 : Use getXValue() and getYValue() from dataset (DG);
06-Jun-2005 : Fixed null pointer exception, plus problems with equals() and
              serialization (DG);
---------- JFREECHART 1.0.x -----------------------------------------------
10-Nov-2006 : Fixed bug 1593156, NullPointerException with line
              plotting (DG);
02-Feb-2007 : Fixed bug 1649686, crosshairs don't stack y-values (DG);
06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
22-Mar-2007 : Fire change events in setShapePaint() and setShapeStroke()
              methods (DG);
20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
*/

XYShapeAnnotation.java

(C) Copyright 2003-2013, by Ondax, Inc. and Contributors.

Original Author:  Greg Steckman (for Ondax, Inc.);
Contributor(s):  David Gilbert (for Object Refinery Limited);
Peter Kolb (patch 2809117);

Changes:

15-Aug-2003 : Version 1, adapted from
org.jfree.chart.annotations.XYLineAnnotation (GS);
21-Jan-2004 : Update for renamed method in ValueAxis (DG);
20-Apr-2004 : Added new constructor and fixed bug 934258 (DG);
29-Sep-2004 : Added 'fillPaint' to allow for colored shapes, now extends
AbstractXYAnnotation to add tool tip and URL support, and
implemented equals() and Cloneable (DG);
21-Jan-2005 : Modified constructor for consistency with other
constructors (DG);
06-Jun-2005 : Fixed equals() method to handle GradientPaint (DG);
------------- JFREECHART 1.0.x ---------------------------------------------
24-Oct-2006 : Calculate AffineTransform on shape's bounding rectangle
rather than sample points (0, 0) and (1, 1) (DG);
06-Mar-2007 : Implemented hashCode() (DG);
02-Jul-2013 : Use ParamChecks (DG);
/

* -----------------------

* StackedBarRenderer.java
* -----------------------

* (C) Copyright 2000-2014, by Object Refinery Limited and Contributors.

* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s): Richard Atkinson;
* Thierry Saura;
* Christian W. Zuckschwerdt;
* Peter Kolb (patch 2511330);

* Changes
* -------
* 19-Oct-2001 : Version 1 (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* 23-Oct-2001 : Changed intro and trail gaps on bar plots to use percentage of
  available space rather than a fixed number of units (DG);
* 15-Nov-2001 : Modified to allow for null data values (DG);
* 22-Nov-2001 : Modified to allow for negative data values (DG);
* 13-Dec-2001 : Added tooltips (DG);
* 16-Jan-2002 : Fixed bug for single category datasets (DG);
* 15-Feb-2002 : Added isStacked() method (DG);
* 14-Mar-2002 : Modified to implement the CategoryItemRenderer interface (DG);
* 24-May-2002 : Incorporated tooltips into chart entities (DG);
* 11-Jun-2002 : Added check for (permitted) null info object, bug and fix
  reported by David Basten. Also updated Javadocs. (DG);
* 25-Jun-2002 : Removed redundant import (DG);
* 26-Jun-2002 : Small change to entity (DG);
* 05-Aug-2002 : Small modification to drawCategoryItem method to support URLs
  for HTML image maps (RA);
* 08-Aug-2002 : Added optional linking lines, contributed by Thierry Saura (DG);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 24-Oct-2002 : Amendments for changes in CategoryDataset interface and
  CategoryToolTipGenerator interface (DG);
* 05-Nov-2002 : Replaced references to CategoryDataset with TableDataset (DG);
* 26-Nov-2002 : Replaced isStacked() method with getRangeType() method (DG);
* 17-Jan-2003 : Moved plot classes to a separate package (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 12-May-2003 : Merged horizontal and vertical stacked bar renderers (DG);
* 30-Jul-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 21-Oct-2003 : Moved bar width into renderer state (DG);
* 26-Nov-2003 : Added code to respect maxBarWidth attribute (DG);
* 05-Nov-2004 : Changed to a two-pass renderer so that item labels are not
  overwritten by other bars (DG);
* 07-Jan-2005 : Renamed getRangeExtent() --> findRangeBounds() (DG);
* 29-Mar-2005 : Modified drawItem() method so that a zero value is handled
  within the code for positive rather than negative values (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
  --> CategoryItemLabelGenerator (DG);
* 17-May-2005 : Added flag to allow rendering values as percentages - inspired
  by patch 1200886 submitted by John Xiao (DG);
* 09-Jun-2005 : Added accessor methods for the renderAsPercentages flag,
  provided equals() method, and use addItemEntity from
  superclass (DG);
* 09-Jun-2005 : Added support for GradientPaint - see bug report 1215670 (DG);
* 22-Sep-2005 : Renamed getMaxBarWidth() --> getMaximumBarWidth() (DG);
* 29-Sep-2005 : Use outline stroke in drawItem method - see bug report
  1304139 (DG);
/* ---------------- JFREECHART 1.0.x ---------------------------------------------
 * 11-Oct-2006 : Source reformatting (DG);
 * 24-Jun-2008 : Added new barPainter mechanism (DG);
 * 04-Feb-2009 : Added support for hidden series (PK);
 * */

Changes

21-Jun-2001: Removed redundant JFreeChart parameter from constructors (DG);
18-Sep-2001: Updated header info and fixed DOS encoding problem (DG);
19-Oct-2001: Moved series paint and stroke methods from JFreeChart
class (DG);
23-Oct-2001: Created renderer for LinePlot class (DG);
07-Nov-2001: Changed type names for ChartChangeEvent (DG);
Tidied up some Javadoc comments (DG);
13-Nov-2001: Changes to allow for null axes on plots such as PiePlot (DG);
Added plot/axis compatibility checks (DG);
12-Dec-2001: Changed constructors to protected, and removed unnecessary
'throws' clauses (DG);
13-Dec-2001: Added tooltips (DG);
22-Jan-2002: Added handleClick() method, as part of implementation for
crosshairs (DG);
Moved tooltips reference into ChartInfo class (DG);
23-Jan-2002: Added test for null axes in chartChanged() method, thanks
to Barry Evans for the bug report (number 506979 on
SourceForge) (DG);
Added a zoom() method (DG);
05-Feb-2002: Updated setBackgroundPaint(), setOutlineStroke() and
setOutlinePaint() to better handle null values, as suggested
by Sylvain Vieujot (DG);
06-Feb-2002: Added background image, plus alpha transparency for background
and foreground (DG);
06-Mar-2002: Added AxisConstants interface (DG);
26-Mar-2002: Changed zoom method from empty to abstract (DG);
23-Apr-2002: Moved dataset from JFreeChart class (DG);
11-May-2002: Added ShapeFactory interface for getShape() methods,
contributed by Jeremy Bowman (DG);
28-May-2002: Fixed bug in setSeriesPaint(int, Paint) for subplots (AS);
25-Jun-2002: Removed redundant imports (DG);
30-Jul-2002: Added 'no data' message for charts with null or empty
datasets (DG);
21-Aug-2002: Added code to extend series array if necessary (refer to
SourceForge bug id 594547 for details) (DG);
17-Sep-2002: Fixed bug in getSeriesOutlineStroke() method, reported by
Andreas Schroeder (DG);
23-Sep-2002: Added getLegendItems() abstract method (DG);
24-Sep-2002: Removed firstSeriesIndex, subplots now use their own paint
settings, there is a new mechanism for the legend to collect
the legend items (DG);
27-Sep-2002: Added dataset group (DG);
14-Oct-2002: Moved listener storage into EventListenerList. Changed some
abstract methods to empty implementations (DG);
* 28-Oct-2002: Added a getBackgroundImage() method (DG);
* 21-Nov-2002: Added a plot index for identifying subplots in combined and overlaid charts (DG);
* 22-Nov-2002: Changed all attributes from 'protected' to 'private'. Added dataAreaRatio attribute from David M O'Donnell's code (DG);
* 09-Jan-2003: Integrated fix for plot border contributed by Gideon Krause (DG);
* 17-Jan-2003: Moved to com.jrefinery.chart.plot (DG);
* 23-Jan-2003: Removed one constructor (DG);
* 26-Mar-2003: Implemented Serializable (DG);
* 14-Jul-2003: Moved the dataset and secondaryDataset attributes to the CategoryPlot and XYPlot classes (DG);
* 21-Jul-2003: Moved DrawingSupplier from CategoryPlot and XYPlot up to this class (DG);
* 20-Aug-2003: Implemented Cloneable (DG);
* 11-Sep-2003: Listeners and clone (NB);
* 29-Oct-2003: Added workaround for font alignment in PDF output (DG);
* 03-Dec-2003: Modified draw method to accept anchor (DG);
* 12-Mar-2004: Fixed clipping bug in drawNoDataMessage() method (DG);
* 07-Apr-2004: Modified string bounds calculation (DG);
* 04-Nov-2004: Added default shapes for legend items (DG);
* 25-Nov-2004: Some changes to the clone() method implementation (DG);
* 23-Feb-2005: Implemented new LegendItemSource interface (and also PublicCloneable) (DG);
* 21-Apr-2005: Replaced Insets with RectangleInsets (DG);
* 05-May-2005: Removed unused draw() method (DG);
* 06-Jun-2005: Fixed bugs in equals() method (DG);
* 01-Sep-2005: Moved dataAreaRatio from here to ContourPlot (DG);
* ---------------- JFREECHART 1.0.x ---------------------------------------------
* 30-Jun-2006: Added background image alpha - see bug report 1514904 (DG);
* 05-Sep-2006: Implemented the MarkerChangeListener interface (DG);
* 11-Jan-2007: Added some argument checks, event notifications, and many API doc updates (DG);
* 03-Apr-2007: Made drawBackgroundImage() public (DG);
* 07-Jun-2007: Added new fillBackground() method to handle GradientPaint taking into account orientation (DG);
* 25-Mar-2008: Added fireChangeEvent() method - see patch 1914411 (DG);
* 15-Aug-2008: Added setDrawingSupplier() method with notify flag (DG);
* 13-Jan-2009: Added notify flag (DG);
* 19-Mar-2009: Added entity support - see patch 2603321 by Peter Kolb (DG);
* 24-Jun-2009: Implemented AnnotationChangeListener (see patch 2809117 by PK) (DG);
* 13-Jul-2009: Plot background image should be clipped if necessary (DG);
* 02-Jul-2013: Use ParamChecks (DG);
* 29-Jul-2014: Add hint to normalise stroke for plot border (DG);
* */

* -------------------------
* XYDifferenceRenderer.java
* -------------------------
* (C) Copyright 2003-2014, by Object Refinery Limited and Contributors.

* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Richard West, Advanced Micro Devices, Inc. (major rewrite of difference drawing algorithm);
* Patrick Schlott
* Christoph Schroeder
* Martin Hoeller

* Changes:
* ________
* 30-Apr-2003 : Version 1 (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 09-Feb-2004 : Updated to support horizontal plot orientation (DG);
* 10-Feb-2004 : Added default constructor, setter methods and updated Javadocs (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 30-Mar-2004 : Fixed bug in getNegativePaint() method (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with getYValue() (DG);
* 25-Aug-2004 : Fixed a bug preventing the use of crosshairs (DG);
* 11-Nov-2004 : Now uses ShapeUtilities to translate shapes (DG);
* 19-Jan-2005 : Now accesses only primitive values from dataset (DG);
* 22-Feb-2005 : Override getLegendItem(int, int) to return "line" items (DG);
* 13-Apr-2005 : Fixed shape positioning bug (id = 1182062) (DG);
* 20-Apr-2005 : Use generators for legend tooltips and URLs (DG);
* 04-May-2005 : Override equals() method, renamed get/setPlotShapes() --> get/setShapesVisible (DG);
* 09-Jun-2005 : Updated equals() to handle GradientPaint (DG);
* 16-Jun-2005 : Fix bug (1221021) affecting stroke used for each series (DG);
* ________ JFREECHART 1.0.x ---------------------------------------------
* 24-Jan-2007 : Added flag to allow rounding of x-coordinates, and fixed bug in clone() (DG);
* 05-Feb-2007 : Added an extra call to updateCrosshairValues() in
drawItemPass1(), to fix bug 1564967 (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 08-Mar-2007 : Fixed entity generation (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 23-Apr-2007 : Rewrite of difference drawing algorithm to allow use of
  * series with disjoint x-values (RW);
* 04-May-2007 : Set processVisibleItemsOnly flag to false (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 05-Nov-2007 : Draw item labels if visible (RW);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 13-Feb-2012 : Applied patch 3450234 for bug 3425881 by Patrick Schlott and
  * Christoph Schroeder (MH);
* 03-Jul-2013 : Use ParamChecks (DG);
*

 *
 * --------------------------
 * OverlayChangeListener.java
 * --------------------------
* Contributor(s): Bill Kelemen;
  * Nicolas Brodu;
  * Peter Kolb (patches 1934255 and 2603321);
  * Andrew Mickish (patch 1870189);

* Changes
* ------
* 21-Aug-2001: Added standard header, fixed DOS encoding problem (DG);
* 18-Sep-2001: Updated header (DG);
* 07-Nov-2001: Allow null axis labels (DG);
  * : Added default font values (DG);
* 13-Nov-2001: Modified the setPlot() method to check compatibility between
  * the axis and the plot (DG);
* 30-Nov-2001: Changed default font from "Arial" --> "SansSerif" (DG);
* 06-Dec-2001: Allow null in setPlot() method (BK);
* 06-Mar-2002: Added AxisConstants interface (DG);
* 23-Apr-2002: Added a visible property. Moved drawVerticalString to
  * RefineryUtilities. Added fixedDimension property for use in
  * combined plots (DG);
* 25-Jun-2002: Removed unnecessary imports (DG);
* 05-Sep-2002: Added attribute for tick mark paint (DG);
* 18-Sep-2002: Fixed errors reported by Checkstyle (DG);
* 07-Nov-2002: Added attributes to control the inside and outside length of
  * the tick marks (DG);
* 08-Nov-2002: Moved to new package com.jrefinery.chart.axis (DG);
* 18-Nov-2002: Added axis location to refreshTicks() parameters (DG);
* 15-Jan-2003: Removed monolithic constructor (DG);
* 17-Jan-2003: Moved plot classes to separate package (DG);
* 26-Mar-2003: Implemented Serializable (DG);
* 03-Jul-2003: Modified reserveSpace method (DG);
* 13-Aug-2003: Implemented Cloneable (DG);
* 11-Sep-2003: Took care of listeners while cloning (NB);
* 29-Oct-2003: Added workaround for font alignment in PDF output (DG);
* 06-Nov-2003: Modified refreshTicks() signature (DG);
* 06-Jan-2004: Added axis line attributes (DG);
* 16-Mar-2004: Added plot state to draw() method (DG);
* 07-Apr-2004: Modified text bounds calculation (DG);
* 18-May-2004: Eliminated AxisConstants.java (DG);
* 30-Sep-2004: Moved drawRotatedString() from RefineryUtilities -->
  * TextUtilities (DG);
* 04-Oct-2004: Modified getLabelEnclosure() method to treat an empty String
  * the same way as a null string - see bug 1026521 (DG);
* 21-Apr-2005: Replaced Insets with RectangleInsets (DG);
* 26-Apr-2005: Removed LOGGER (DG);
* 01-Jun-2005: Added hasListener() method for unit testing (DG);
* 08-Jun-2005: Fixed equals() method to handle GradientPaint (DG);
* ------------ JFREECHART 1.0.x -------------------------------
* 22-Aug-2006: API doc updates (DG);
* 06-Jun-2008 : Added setTickLabelInsets(RectangleInsets, boolean) (DG);
* 25-Sep-2008 : Added minor tick support, see patch 1934255 by Peter Kolb (DG);
* 26-Sep-2008 : Added fireChangeEvent() method (DG);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 01-Aug-2013 : Added attributedLabel override to support superscripts, subscripts and more (DG);
* 29-Jul-2014 : Add hint to normalise stroke for axis line (DG);
* */

* (C) Copyright 2000-2014, by Object Refinery Limited and Contributors.
*
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Andrzej Porebski;
*     David Li;
*     Wolfgang Irler;
* Christian W. Zuckschwerdt;
* Klaus Rheinwald;
* Nicolas Brodu;
* Peter Kolb (patch 2603321);

* NOTE: The above list of contributors lists only the people that have
* contributed to this source file (JFreeChart.java) - for a list of ALL
* contributors to the project, please see the README.txt file.

* Changes (from 20-Jun-2001)
* --------------------------
* 20-Jun-2001 : Modifications submitted by Andrzej Porebski for legend
* placement;
* 21-Jun-2001 : Removed JFreeChart parameter from Plot constructors (DG);
* 22-Jun-2001 : Multiple titles added (original code by David Berry, with
* reworkings by DG);
* 18-Sep-2001 : Updated header (DG);
* 15-Oct-2001 : Moved data source classes into new package
* com.jrefinery.data.* (DG);
* 18-Oct-2001 : New factory method for creating VerticalXYBarChart (DG);
* 19-Oct-2001 : Moved series paint and stroke methods to the Plot class (DG);
* Moved static chart creation methods to new ChartFactory
* class (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* Fixed bug where chart isn't registered with the dataset (DG);
* 07-Nov-2001 : Fixed bug where null title in constructor causes
* exception (DG);
* Tidied up event notification code (DG);
* 17-Nov-2001 : Added getLegendItemCount() method (DG);
* 21-Nov-2001 : Set clipping in draw method to ensure that nothing gets drawn
* outside the chart area (DG);
* 11-Dec-2001 : Added the createBufferedImage() method, taken from the
* JFreeChartServletDemo class (DG);
* 13-Dec-2001 : Added tooltips (DG);
* 16-Jan-2002 : Added handleClick() method (DG);
* 22-Jan-2002 : Fixed bug correlating legend labels with pie data (DG);
* 05-Feb-2002 : Removed redundant tooltips code (DG);
* 19-Feb-2002 : Added accessor methods for the backgroundImage and
* backgroundImageAlpha attributes (DG);
* 21-Feb-2002 : Added static fields for INFO, COPYRIGHT, LICENCE, CONTRIBUTORS
* and LIBRARIES. These can be used to display information about
* JFreeChart (DG);
* 06-Mar-2002 : Moved constants to JFreeChartConstants interface (DG);
* 18-Apr-2002 : PieDataset is no longer sorted (oldman);
* 23-Apr-2002 : Moved dataset to the Plot class (DG);
* 13-Jun-2002 : Added an extra draw() method (DG);
* 25-Jun-2002 : Implemented the Drawable interface and removed redundant
* imports (DG);
* 26-Jun-2002 : Added another createBufferedImage() method (DG);
* 18-Sep-2002 : Fixed issues reported by Checkstyle (DG);
* 23-Sep-2002 : Added new contributor (DG);
* 28-Oct-2002 : Created main title and subtitle list to replace existing title
  * list (DG);
* 08-Jan-2003 : Added contributor (DG);
* 17-Jan-2003 : Added new constructor (DG);
* 22-Jan-2003 : Added ChartColor class by Cameron Riley, and background image
  * alignment code by Christian W. Zuckschwerdt (DG);
* 11-Feb-2003 : Added flag to allow suppression of chart change events, based
  * on a suggestion by Klaus Rheinwald (DG);
* 04-Mar-2003 : Added small fix for suppressed chart change events (see bug id
  * 690865) (DG);
* 10-Mar-2003 : Added Benoit Xhenseval to contributors (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 15-Jul-2003 : Added an optional border for the chart (DG);
* 11-Sep-2003 : Took care of listeners while cloning (NB);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 22-Sep-2003 : Added nullpointer checks.
* 25-Sep-2003 : Added nullpointer checks too (NB).
* 03-Dec-2003 : Legends are now registered by this class instead of using the
  * old constructor way (TM);
* 03-Dec-2003 : Added anchorPoint to draw() method (DG);
* 08-Jan-2004 : Reworked title code, introducing line wrapping (DG);
* 09-Feb-2004 : Created additional createBufferedImage() method (DG);
* 05-Apr-2004 : Added new createBufferedImage() method (DG);
* 27-May-2004 : Moved constants from JFreeChartConstants.java back to this
  * class (DG);
* 25-Nov-2004 : Updates for changes to Title class (DG);
* 06-Jan-2005 : Change lookup for default background color (DG);
* 31-Jan-2005 : Added Don Elliott to contributors (DG);
* 02-Feb-2005 : Added clearSubtitles() method (DG);
* 03-Feb-2005 : Added Mofeed Shahin to contributors (DG);
* 08-Feb-2005 : Updated for RectangleConstraint changes (DG);
* 28-Mar-2005 : Renamed Legend --> OldLegend (DG);
* 12-Apr-2005 : Added methods to access legend(s) in subtitle list (DG);
* 13-Apr-2005 : Added removeLegend() and removeSubtile() methods (DG);
* 20-Apr-2005 : Modified to collect chart entities from titles and
  * subtitles (DG);
* 26-Apr-2005 : Removed LOGGER (DG);
* 06-Jun-2005 : Added addLegend() method and padding attribute, fixed equals()
  * method (DG);
* 24-Nov-2005 : Removed OldLegend and related code - don't want to support
  * this in 1.0.0 final (DG);
* --------------- JFREECHART 1.0.x ---------------------------------------------
* 27-Jan-2006 : Updated version number (DG);
* 07-Dec-2006 : Added some missing credits (DG);
* 17-Jan-2007 : Added Darren Jung to contributor list (DG);
* 05-Mar-2007 : Added Sergei Ivanov to the contributor list (DG);
* 16-Mar-2007 : Modified initial legend border (DG);
* 22-Mar-2007 : New methods for text anti-aliasing (DG);
* 16-May-2007 : Fixed argument check in getSubtitle(), copy list in
get/setSubtitles(), and added new addSubtitle(int, Title)
method (DG);
* 05-Jun-2007 : Add change listener to default legend (DG);
* 04-Dec-2007 : In createBufferedImage() methods, make the default image type
BufferedImage.TYPE_INT_ARGB (thanks to Klaus Rheinwald) (DG);
* 05-Dec-2007 : Fixed bug 1749124 (not registering as listener with
TextTitle) (DG);
* 23-Apr-2008 : Added new contributor (Diego Pierangeli) (DG);
* 16-May-2008 : Added new contributor (Michael Siemer) (DG);
* 19-Sep-2008 : Check for title visibility (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
Jess Thrysoee (DG);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);
* 29-Jun-2009 : Check visibility flag in main title (DG);
* 02-Jul-2013 : Use ParamChecks class (DG);
* 21-Jun-2014 : Set default hint value for stroke control (DG);
*

AbstractRenderer.java

(C) Copyright 2002-2014, by Object Refinery Limited.

Original Author:  David Gilbert (for Object Refinery Limited);
Contributor(s):  Nicolas Brodu;

Changes:

22-Aug-2002 : Version 1, draws code out of AbstractXYItemRenderer to share
with AbstractCategoryItemRenderer (DG);
01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
06-Nov-2002 : Moved to the com.jrefinery.chart.renderer package (DG);
21-Nov-2002 : Added a paint table for the renderer to use (DG);
17-Jan-2003 : Moved plot classes into a separate package (DG);
25-Mar-2003 : Implemented Serializable (DG);
29-Apr-2003 : Added valueLabelFont and valueLabelPaint attributes, based on
code from Arnaud Lelievre (DG);
29-Jul-2003 : Amended code that doesn't compile with JDK 1.2.2 (DG);
13-Aug-2003 : Implemented Cloneable (DG);
15-Sep-2003 : Fixed serialization (NB);
17-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
07-Oct-2003 : Moved PlotRenderingInfo into RendererState to allow for
multiple threads using a single renderer (DG);
20-Oct-2003 : Added missing setOutlinePaint() method (DG);
23-Oct-2003 : Split item label attributes into 'positive' and 'negative'
values (DG);
26-Nov-2003 : Added methods to get the positive and negative item label
positions (DG);
01-Mar-2004 : Modified readObject() method to prevent null pointer exceptions
after deserialization (DG);
19-Jul-2004 : Fixed bug in getItemLabelFont(int, int) method (DG);
04-Oct-2004 : Updated equals() method, eliminated use of NumberUtils,
renamed BooleanUtils --> BooleanUtilities, ShapeUtils -->
ShapeUtilities (DG);
15-Mar-2005 : Fixed serialization of baseFillPaint (DG);
16-May-2005 : Base outline stroke should never be null (DG);
01-Jun-2005 : Added hasListener() method for unit testing (DG);
08-Jun-2005 : Fixed equals() method to handle GradientPaint (DG);
02-Feb-2007 : Minor API doc update (DG);
19-Feb-2007 : Fixes for clone() method (DG);
* 28-Feb-2007 : Use cached event to signal changes (DG);
* 19-Apr-2007 : Deprecated seriesVisible and seriesVisibleInLegend flags (DG);
* 20-Apr-2007 : Deprecated paint, fillPaint, outlinePaint, stroke,
  * outlineStroke, shape, itemLabelsVisible, itemLabelFont,
  * itemLabelPaint, positiveItemLabelPosition,
  * negativeItemLabelPosition and createEntities override
  * fields (DG);
* 13-Jun-2007 : Added new autoPopulate flags for core series attributes (DG);
* 23-Oct-2007 : Updated lookup methods to better handle overridden
  * methods (DG);
* 04-Dec-2007 : Modified hashCode() implementation (DG);
* 29-Apr-2008 : Minor API doc update (DG);
* 17-Jun-2008 : Added legendShape, legendTextFont and legendTextPaint
  * attributes (DG);
* 18-Aug-2008 : Added clearSeriesPaints() and clearSeriesStrokes() (DG);
* 28-Jan-2009 : Equals method doesn't test Shape equality correctly (DG);
* 27-Mar-2009 : Added dataBoundsIncludesVisibleSeriesOnly attribute, and
  * updated renderer events for series visibility changes (DG);
* 01-Apr-2009 : Factored up the defaultEntityRadius field from the
  * AbstractXYItemRenderer class (DG);
* 28-Apr-2009 : Added flag to allow a renderer to treat the legend shape as
  * a line (DG);
* 05-Jul-2012 : No need for BooleanUtilities now that min JDK = 1.4.2 (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* 09-Apr-2014 : Remove use of ObjectList (DG);
* */

*
* --------------------------------
* DynamicTimeSeriesCollection.java
* --------------------------------
* (C) Copyright 2002-2014, by I. H. Thomae and Contributors.
*
* Original Author: I. H. Thomae (ithomae@ists.dartmouth.edu);
* Contributor(s): David Gilbert (for Object Refinery Limited);
* Ricardo JL Rufino (patch #310);
*
* Changes
* -------
* 22-Nov-2002 : Initial version completed
*  Jan 2003 : Optimized advanceTime(), added implemtn' of RangeInfo intfc
*    (using cached values for min, max, and range); also added
*    getOldestIndex() and getNewestIndex() fnns so client classes
*    can use this class as the master "index authority".
* 22-Jan-2003 : Made this class stand on its own, rather than extending
*    class FastTimeSeriesCollection
* 31-Jan-2003 : Changed TimePeriod --> RegularTimePeriod (DG);
* 13-Mar-2003 : Moved to com.jrefinery.data.time package (DG);
* 29-Apr-2003 : Added small change to appendData method, from Irv Thomae (DG);
* 19-Sep-2003 : Added new appendData method, from Irv Thomae (DG);
* 05-May-2004 : Now extends AbstractIntervalXYDataset. This also required a
*    change to the return type of the getY() method - I'm slightly
*    unsure of the implications of this, so it might require some
*    further amendment (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*    getYValue() (DG);
* 11-Jan-2004 : Removed deprecated code in preparation for the 1.0.0
*    release (DG);
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 01-Jul-2014 : Add millisecond time period - see patch #310 by Ricardo JL
*    Rufino (DG);
*

 * DefaultBoxAndWhiskerXYDataset.java
 * ==============================================================
 *
 * (C) Copyright 2003-2008, by David Browning and Contributors.
 *
 * Original Author:  David Browning (for Australian Institute of Marine
 *                   Science);
 * Contributor(s):  David Gilbert (for Object Refinery Limited);
 *
 * Changes
 * ------
 * 05-Aug-2003 : Version 1, contributed by David Browning (DG);
 * 08-Aug-2003 : Minor changes to comments (DB)
 *      Allow average to be null - average is a peculiar AIMS
 *      requirement which probably should be stripped out and overlaid
 *      if required...
 *      Added a number of methods to allow the max and min non-outlier
 *      and non-farout values to be calculated

* 12-Aug-2003 Changed the getYValue to return the highest outlier value
*     Added getters and setters for outlier and farout coefficients
* 27-Aug-2003 : Renamed DefaultBoxAndWhiskerDataset
*     --> DefaultBoxAndWhiskerXYDataset (DG);
* 06-May-2004 : Now extends AbstractXYDataset (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*     getYValue() (DG);
* 18-Nov-2004 : Updated for changes in RangeInfo interface (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
*     release (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 02-Feb-2007 : Removed author tags from all over JFreeChart sources (DG);
* 12-Nov-2007 : Implemented equals() and clone() (DG);
* *

Open Source Used In Data Center Network Manager 11.5(1) 24467
* (C) Copyright 2003-2014, by Object Refinery Limited.

* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Nicolas Brodu;

* Changes:
* 16-May-2003 : Version 1 (DG);
* 08-Aug-2003 : Adjusted totalWeight in remove() method (DG);
* 19-Aug-2003 : Implemented Cloneable (DG);
* 11-Sep-2003 : Fix cloning support (subplots) (NB);
* 15-Sep-2003 : Implemented PublicCloneable. Fixed errors in cloning and
* serialization (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 17-Sep-2003 : Updated handling of 'clicks' (DG);
* 04-May-2004 : Added getter/setter methods for 'gap' attributes (DG);
* 12-Nov-2004 : Implements the new Zoomable interface (DG);
* 25-Nov-2004 : Small update to clone() implementation (DG);
* 21-Feb-2005 : Fixed bug in remove() method (id = 1121172) (DG);
* 21-Feb-2005 : The getLegendItems() method now returns the fixed legend
* items if set (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 14-Nov-2007 : Updated setFixedDomainAxisSpaceForSubplots() method (DG);
* 27-Mar-2008 : Add documentation for getDataRange() method (DG);
* 31-Mar-2008 : Updated getSubplots() to return EMPTY_LIST for null
* subplots, as suggested by Richard West (DG);
* 26-Jun-2008 : Fixed crosshair support (DG);
* 11-Aug-2008 : Don't store totalWeight of subplots, calculate it as
* required (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* */

Changes:
--------
20-Sep-2002: Version 1, contributed by Dan Rivett;
24-Oct-2002: Amendments for changes in CategoryDataset interface and
CategoryToolTipGenerator interface (DG);
01-Nov-2002: Added tooltips (DG);
06-Nov-2002: Renamed drawCategoryItem() --> drawItem() and now using axis
for category spacing. Renamed StackedAreaCategoryItemRenderer
--> StackedAreaRenderer (DG);
26-Nov-2002: Switched CategoryDataset --> TableDataset (DG);
26-Nov-2002: Replaced isStacked() method with getRangeType() method (DG);
17-Jan-2003: Moved plot classes to a separate package (DG);
25-Mar-2003: Implemented Serializable (DG);
13-May-2003: Modified to take into account the plot orientation (DG);
30-Jul-2003: Modified entity constructor (CZ);
07-Oct-2003: Added renderer state (DG);
29-Apr-2004: Added getRangeExtent() override (DG);
05-Nov-2004: Modified drawItem() signature (DG);
07-Jan-2005: Renamed getRangeExtent() --> findRangeBounds() (DG);
---------------- JFREECHART 1.0.x ---------------------------------------------
11-Oct-2006: Added support for rendering data values as percentages,
and added a second pass for drawing item labels (DG);
04-Feb-2009: Fixed support for hidden series, and bug in findRangeBounds()
method for null dataset (PK/DG);
04-Feb-2009: Added item label support, and generate entities only in first
pass (DG);
04-Feb-2009: Fixed bug for renderAsPercentages == true (DG);
*/

SunJPEGEncoderAdapter.java

-------------

* (C) Copyright 2004-2013, by Richard Atkinson and Contributors.
 *
* Original Author: Richard Atkinson;
* Contributor(s): David Gilbert (for Object Refinery Limited);
 *
* Changes
* -------
* 01-Aug-2004 : Initial version (RA);
* 01-Nov-2005 : To remove the dependency on non-supported APIs, use ImageIO
* adapter will only be available on JDK 1.4 or later (DG);
* 20-Jul-2006 : Pass quality setting to ImageIO. Also increased default
* value to 0.95 (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
Open Source Used In Data Center Network Manager 11.5(1) 24480

* Richard West, Advanced Micro Devices, Inc.;
* Ulrich Voigt - patch 2686040;
* Peter Kolb - patches 2603321 and 2809117;
*
* Changes
* 21-Jun-2001 : Removed redundant JFreeChart parameter from constructors (DG);
* 21-Aug-2001 : Added standard header. Fixed DOS encoding problem (DG);
* 18-Sep-2001 : Updated header (DG);
* 15-Oct-2001 : Data source classes moved to com.jrefinery.data.* (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* 23-Oct-2001 : Changed intro and trail gaps on bar plots to use percentage of
* available space rather than a fixed number of units (DG);
* 12-Dec-2001 : Changed constructors to protected (DG);
* 13-Dec-2001 : Added tooltips (DG);
* 16-Jan-2002 : Increased maximum intro and trail gap percents, plus added
* some argument checking code. Thanks to Taoufik Romdhane for
* suggesting this (DG);
* 05-Feb-2002 : Added accessor methods for the tooltip generator, incorporated
* alpha-transparency for Plot and subclasses (DG);
* 06-Mar-2002 : Updated import statements (DG);
* 14-Mar-2002 : Renamed BarPlot.java --> CategoryPlot.java, and changed code
* to use the CategoryItemRenderer interface (DG);
* 22-Mar-2002 : Dropped the getCategories() method (DG);
* 23-Apr-2002 : Moved the dataset from the JFreeChart class to the Plot
* class (DG);
* 29-Apr-2002 : New methods to support printing values at the end of bars,
* contributed by Jeremy Bowman (DG);
* 11-May-2002 : New methods for label visibility and overlaid plot support,
* contributed by Jeremy Bowman (DG);
* 06-Jun-2002 : Removed the tooltip generator, this is now stored with the
* renderer. Moved constants into the CategoryPlotConstants
* interface. Updated Javadoc comments (DG);
* 10-Jun-2002 : Overridden datasetChanged() method to update the upper and
* lower bound on the range axis (if necessary), updated
* Javadocs (DG);
* 25-Jun-2002 : Removed redundant imports (DG);
* 20-Aug-2002 : Changed the constructor for Marker (DG);
* 28-Aug-2002 : Added listener notification to setDomainAxis() and
* setRangeAxis() (DG);
* 23-Sep-2002 : Added getLegendItems() method and fixed errors reported by
* Checkstyle (DG);
* 28-Oct-2002 : Changes to the CategoryDataset interface (DG);
* 05-Nov-2002 : Base dataset is now TableDataset not CategoryDataset (DG);
* 07-Nov-2002 : Renamed labelXXX as valueLabelXXX (DG);
* 18-Nov-2002 : Added grid settings for both domain and range axis (previously
* these were set in the axes) (DG);
* 19-Nov-2002 : Added axis location parameters to constructor (DG);
* 17-Jan-2003 : Moved to com.jrefinery.chart.plot package (DG);
* 14-Feb-2003 : Fixed bug in auto-range calculation for secondary axis (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 02-May-2003 : Moved render() method up from subclasses. Added secondary
* range markers. Added an attribute to control the dataset
rendering order. Added a drawAnnotations() method. Changed
the axis location from an int to an AxisLocation (DG);
* 07-May-2003: Merged HorizontalCategoryPlot and VerticalCategoryPlot into
this class (DG);
* 02-Jun-2003: Removed check for range axis compatibility (DG);
* 04-Jul-2003: Added a domain gridline position attribute (DG);
* 21-Jul-2003: Moved DrawingSupplier to Plot superclass (DG);
* 19-Aug-2003: Added equals() method and implemented Cloneable (DG);
* 01-Sep-2003: Fixed bug 797466 (no change event when secondary dataset
changes) (DG);
* 02-Sep-2003: Fixed bug 795209 (wrong dataset checked in render2 method) and
790407 (initialise method) (DG);
* 08-Sep-2003: Added internationalization via use of properties
resourceBundle (RFE 690236) (AL);
* 08-Sep-2003: Fixed bug (wrong secondary range axis being used). Changed
ValueAxis API (DG);
* 10-Sep-2003: Fixed bug in setRangeAxis() method (DG);
* 15-Sep-2003: Fixed two bugs in serialization, implemented
PublicCloneable (DG);
* 23-Oct-2003: Added event notification for changes to renderer (DG);
* 26-Nov-2003: Fixed bug (849645) in clearRangeMarkers() method (DG);
* 03-Dec-2003: Modified draw method to accept anchor (DG);
* 21-Jan-2004: Update for renamed method in ValueAxis (DG);
* 10-Mar-2004: Fixed bug in axis range calculation when secondary renderer is
stacked (DG);
* 12-May-2004: Added fixed legend items (DG);
* 19-May-2004: Added check for null legend item from renderer (DG);
* 02-Jun-2004: Updated the DatasetRenderingOrder class (DG);
* 05-Nov-2004: Renamed getDatasetsMappedToRangeAxis()
---> datasetsMappedToRangeAxis(), and ensured that returned
list doesn't contain null datasets (DG);
* 12-Nov-2004: Implemented new Zoomable interface (DG);
* 07-Jan-2005: Renamed getRangeExtent() --> findRangeBounds() in
CategoryItemRenderer (DG);
* 04-May-2005: Fixed serialization of range markers (DG);
* 05-May-2005: Updated draw() method parameters (DG);
* 20-May-2005: Added setDomainAxes() and setRangeAxes() methods, as per
RFE 1183100 (DG);
* 01-Jun-2005: Upon deserialization, register plot as a listener with its
axes, dataset(s) and renderer(s) - see patch 1209475 (DG);
* 02-Jun-2005: Added support for domain markers (DG);
* 06-Jun-2005: Fixed equals() method for use with GradientPaint (DG);
* 09-Jun-2005: Added setRenderers(), as per RFE 1183100 (DG);
* 16-Jun-2005: Added getDomainAxisCount() and getRangeAxisCount() methods, to
match XYPlot (see RFE 1220495) (DG);
* ------------ JFREECHART 1.0.x ------------------------------------------
* 27-Jan-2006 : Added various null argument checks (DG);
* 18-Aug-2006 : Added getDatasetCount() method, plus a fix for bug drawing
category labels, thanks to Adriaan Joubert (1277726) (DG);
* 05-Sep-2006 : Added MarkerChangeEvent support (DG);
* 30-Oct-2006 : Added getDomainAxisIndex(), datasetsMappedToDomainAxis() and
getCategoriesForAxis() methods (DG);
* 22-Nov-2006 : Fire PlotChangeEvent from setColumnRenderingOrder() and
setRowRenderingOrder() (DG);
* 29-Nov-2006 : Fix for bug 1605207 (IntervalMarker exceeds bounds of data
area) (DG);
* 26-Feb-2007 : Fix for bug 1669218 (setDomainAxisLocation() notify argument
ignored) (DG);
* 13-Mar-2007 : Added null argument checks for setRangeCrosshairPaint() and
setRangeCrosshairStroke(), fixed clipping for
annotations (DG);
* 07-Jun-2007 : Override drawBackground() for new GradientPaint handling (DG);
* 10-Jul-2007 : Added getRangeAxisIndex(ValueAxis) method (DG);
* 24-Sep-2007 : Implemented new zoom methods (DG);
* 25-Oct-2007 : Added some argument checks (DG);
* 05-Nov-2007 : Applied patch 1823697, by Richard West, for removal of domain
and range markers (DG);
* 14-Nov-2007 : Added missing event notifications (DG);
* 25-Mar-2008 : Added new methods with optional notification - see patch
1913751 (DG);
* 07-Apr-2008 : Fixed NPE in removeDomainMarker() and
removeRangeMarker() (DG);
* 23-Apr-2008 : Fixed equals() and clone() methods (DG);
* 26-Jun-2008 : Fixed crosshair support (DG);
* 10-Jul-2008 : Fixed outline visibility for 3D renderers (DG);
* 12-Aug-2008 : Added rendererCount() method (DG);
* 25-Nov-2008 : Added facility to map datasets to multiples axes (DG);
* 15-Dec-2008 : Cleaned up grid drawing methods (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
Jess Thrysoee (DG);
* 21-Jan-2009 : Added rangeMinorGridlinesVisible flag (DG);
* 18-Mar-2009 : Modified anchored zoom behaviour (DG);
* 19-Mar-2009 : Implemented Pannable interface - see patch 2686040 (DG);
* 19-Mar-2009 : Added entity support - see patch 2603321 by Peter Kolb (DG);
* 24-Jun-2009 : Implemented AnnotationChangeListener (see patch 2809117 by
PK) (DG);
* 06-Jul-2009 : Fix for cloning of renderers - see bug 2817504 (DG)
* 10-Jul-2009 : Added optional drop shadow generator (DG);
* 27-Sep-2011 : Fixed annotation import (DG);
* 18-Oct-2011 : Fixed tooltip offset with shadow generator (DG);
* 20-Nov-2011 : Initialise shadow generator as null (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 12-Sep-2013 : Check for KEY_SUPPRESS_SHADOW_GENERATION rendering hint (DG);
* 10-Mar-2014 : Updated Javadocs for issue #1123 (DG);
09-Apr-2014 : Remove use of ObjectList (DG);

/*

* -------------------------
* LineAndShapeRenderer.java
* -------------------------
* (C) Copyright 2001-2014, by Object Refinery Limited and Contributors.
*
* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s):  Mark Watson (www.markwatson.com);
* Jeremy Bowman;
* Richard Atkinson;
* Christian W. Zuckschwerdt;
* Peter Kolb (patch 2497611);
*
* Changes
* ------
* 23-Oct-2001 : Version 1 (DG);
* 15-Nov-2001 : Modified to allow for null data values (DG);
* 16-Jan-2002 : Renamed HorizontalCategoryItemRenderer.java
* --> CategoryItemRenderer.java (DG);
* 05-Feb-2002 : Changed return type of the drawCategoryItem method from void
* to Shape, as part of the tooltips implementation (DG);
* 11-May-2002 : Support for value label drawing (JB);
* 29-May-2002 : Now extends AbstractCategoryItemRenderer (DG);
* 25-Jun-2002 : Removed redundant import (DG);
* 05-Aug-2002 : Small modification to drawCategoryItem method to support URLs
* for HTML image maps (RA);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 11-Oct-2002 : Added new constructor to incorporate tool tip and URL
* generators (DG);
* 24-Oct-2002 : Amendments for changes in CategoryDataset interface and
* CategoryToolTipGenerator interface (DG);
* 05-Nov-2002 : Base dataset is now TableDataset not CategoryDataset (DG);
* 06-Nov-2002 : Renamed drawCategoryItem() --> drawItem() and now using axis
* for category spacing (DG);
* 17-Jan-2003 : Moved plot classes to a separate package (DG);
* 10-Apr-2003 : Changed CategoryDataset to KeyedValues2DDataset in drawItem()
* method (DG);
* 12-May-2003 : Modified to take into account the plot orientation (DG);
* 29-Jul-2003 : Amended code that doesn't compile with JDK 1.2.2 (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 22-Sep-2003 : Fixed cloning (DG);
* 10-Feb-2004 : Small change to drawItem() method to make cut-and-paste
* override easier (DG);
* 16-Jun-2004 : Fixed bug (id=972454) with label positioning on horizontal
* charts (DG);
* 15-Oct-2004 : Updated equals() method (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 11-Nov-2004 : Now uses ShapeUtilities class to translate shapes (DG);
* 27-Jan-2005 : Changed attribute names, modified constructor and removed
* constants (DG);
* 01-Feb-2005 : Removed unnecessary constants (DG);
* 15-Mar-2005 : Fixed bug 1163897, concerning outlines for shapes (DG);
* 13-Apr-2005 : Check flags that control series visibility (DG);
* 20-Apr-2005 : Use generators for legend labels, tooltips and URLs (DG);
* 09-Jun-2005 : Use addItemEntity() method (DG);
* ----------------- JFREECHART 1.0.x -------------------------------
* 25-May-2006 : Added check to drawItem() to detect when both the line and
* the shape are not visible (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 24-Sep-2007 : Deprecated redundant fields/methods (DG);
* 27-Sep-2007 : Added option to offset series x-position within category (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 26-Jun-2008 : Added crosshair support (DG);
* 14-Jan-2009 : Added support for seriesVisible flags (PK);

* Changes (from 21-Aug-2001)
* --------------------------
* 21-Aug-2001 : Added standard header (DG);
* 18-Sep-2001 : Updated header (DG);
* 14-Nov-2001 : Package com.jrefinery.common.ui.* changed to
*                com.jrefinery.ui.* (DG);
* 07-Feb-2002 : Changed blank space around title from Insets --> Spacer, to
*                allow for relative or absolute spacing (DG);
* 25-Jun-2002 : Removed unnecessary imports (DG);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 14-Oct-2002 : Changed the event listener storage structure (DG);
* 11-Sep-2003 : Took care of listeners while cloning (NB);
* 22-Sep-2003 : Spacer cannot be null. Added nullpointer checks for this (TM);
* 08-Jan-2003 : Renamed AbstractTitle --> Title and moved to separate
*                package (DG);
* 26-Oct-2004 : Refactored to implement Block interface, and removed redundant
*                constants (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
* release (DG);
* 02-Feb-2005 : Changed Spacer --> RectangleInsets for padding (DG);
* 03-May-2005 : Fixed problem in equals() method (DG);
* 19-Sep-2008 : Added visibility flag (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* */

* ------------------------
* CandlestickRenderer.java
* ------------------------
* (C) Copyright 2001-2014, by Object Refinery Limited.
*
* Original Authors:  David Gilbert (for Object Refinery Limited);
*                    Sylvain Vieujot;
* Contributor(s):    Richard Atkinson;
*                    Christian W. Zuckschwerdt;
*                    Jerome Fisher;
*
* Changes
* ------
* 13-Dec-2001 : Version 1. Based on code in the (now redundant)
*            CandlestickPlot class, written by Sylvain Vieujot (DG);
* 23-Jan-2002 : Added DrawInfo parameter to drawItem() method (DG);
* 28-Mar-2002 : Added a property change listener mechanism so that renderers
*            no longer need to be immutable. Added properties for up and
*            down colors (DG);
* 04-Apr-2002 : Updated with new automatic width calculation and optional
*            volume display, contributed by Sylvain Vieujot (DG);
* 09-Apr-2002 : Removed translatedRangeZero from the drawItem() method, and
*            changed the return type of the drawItem method to void,
*            reflecting a change in the XYItemRenderer interface. Added
*            tooltip code to drawItem() method (DG);
* 25-Jun-2002 : Removed redundant code (DG);
* 05-Aug-2002 : Small modification to drawItem method to support URLs for HTML
*            image maps (RA);
* 19-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified drawItem() method signature (DG);
* 30-Jun-2003 : Added support for PlotOrientation (for completeness, this
*            renderer is unlikely to be used with a HORIZONTAL
*            orientation) (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 29-Aug-2003 : Moved maxVolume calculation to initialise method (see bug
*            report 796619) (DG);
* 02-Sep-2003 : Added maxCandleWidthInMilliseconds as workaround for bug
*            796621 (DG);
* 08-Sep-2003 : Changed ValueAxis API (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
*            calculations (DG);
* 23-Dec-2003 : Fixed bug where up and down paint are used incorrectly (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
*            getYValue() (DG);
* JFREECHART 1.0.x ---------------------------------------------
* 06-Jul-2006 : Swapped calls to getX() --> getXValue(), and the same for the

    * FastScatterPlot.java
    * ------------------------
    * (C) Copyright 2002-2014, by Object Refinery Limited.
    * Original Author:  David Gilbert (for Object Refinery Limited);
    * Contributor(s):  Arnaud Lelievre;
    *                 Ulrich Voigt (patch #307);
    * Changes
    * -------
    * 29-Oct-2002 : Added standard header (DG);
    * 07-Nov-2002 : Fixed errors reported by Checkstyle (DG);
    * 26-Mar-2003 : Implemented Serializable (DG);
    ** 19-Aug-2003 : Implemented Cloneable (DG);
* 08-Sep-2003 : Added internationalization via use of properties
  * resourceBundle (RFE 690236) (AL);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 12-Nov-2003 : Implemented zooming (DG);
* 21-Jan-2004 : Update for renamed method in ValueAxis (DG);
* 26-Jan-2004 : Added domain and range grid lines (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 29-Sep-2004 : Removed hard-coded color (DG);
* 04-Oct-2004 : Reworked equals() method and renamed ArrayUtils
  * --> ArrayUtilities (DG);
* 12-Nov-2004 : Implemented the new Zoomable interface (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 16-Jun-2005 : Added get/setData() methods (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 10-Nov-2006 : Fixed bug 1593150, by not allowing null axes, and added
  * setDomainAxis() and setRangeAxis() methods (DG);
* 24-Sep-2007 : Implemented new zooming methods (DG);
* 25-Mar-2008 : Make use of new fireChangeEvent() method (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
  * Jess Thrysoee (DG);
* 26-Mar-2009 : Implemented Pannable, and fixed bug in zooming (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 21-Jul-2014 : Fix panning (patch #307 by Ulrich Voigt) (DG);
* 29-Jul-2014 : Add rendering hint to normalise stroke for gridlines (DG);
* */

Year.java

---------

(C) Copyright 2001-2012, by Object Refinery Limited.

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): -;

Changes

11-Oct-2001 : Version 1 (DG);
14-Nov-2001 : Override for toString() method (DG);
19-Dec-2001 : Added a new constructor as suggested by Paul English (DG);
29-Jan-2002 : Worked on parseYear() method (DG);
14-Feb-2002 : Fixed bug in Year(Date) constructor (DG);
26-Feb-2002 : Changed getStart(), getMiddle() and getEnd() methods to evaluate with reference to a particular time zone (DG);
19-Mar-2002 : Changed API for TimePeriod classes (DG);
10-Sep-2002 : Added getSerialIndex() method (DG);
04-Oct-2002 : Fixed errors reported by Checkstyle (DG);
10-Jan-2003 : Changed base class and method names (DG);
05-Mar-2003 : Fixed bug in getFirstMillisecond() picked up in JUnit tests (DG);
13-Mar-2003 : Moved to com.jrefinery.data.time package, and implemented Serializable (DG);
21-Oct-2003 : Added hashCode() method (DG);

------------- JFREECHART 1.0.x -------------------------------
05-Oct-2006 : Updated API docs (DG);
06-Oct-2006 : Refactored to cache first and last millisecond values (DG);
16-Sep-2008 : Extended range of valid years, and deprecated DEFAULT_TIME_ZONE (DG);
25-Nov-2008 : Added new constructor with Locale (DG);
05-Jul-2012 : Removed JRE 1.3.1 code (DG);

* ------------------
* (C) Copyright 2001-2014, by Serge V. Grachov and Contributors.
*
* Original Author: Serge V. Grachov;
* Contributor(s): David Gilbert (for Object Refinery Limited);
  * Tin Luu;
  * Milo Simpson;
  * Richard Atkinson;
  * Rich Unger;
  * Christian W. Zuckschwerdt;
  * DaveLaw (dave ATT davelaw DOTT de) - patch 3204823;

* Changes
* --------
* 31-Oct-2001 : First version, contributed by Serge V. Grachov (DG);
* 15-Nov-2001 : Modified to allow for null data values (DG);
* 13-Dec-2001 : Added tooltips (DG);
* 16-Jan-2002 : Added fix for single category or single series datasets,
  * pointed out by Taoufik Romdhane (DG);
* 24-May-2002 : Incorporated tooltips into chart entities (DG);
* 11-Jun-2002 : Added check for (permitted) null info object, bug and fix
  * reported by David Basten. Also updated Javadocs. (DG);
* 19-Jun-2002 : Added code to draw labels on bars (TL);
* 26-Jun-2002 : Added bar clipping to avoid PRExceptions (DG);
* 05-Aug-2002 : Small modification to drawCategoryItem method to support URLs
  * for HTML image maps (RA);
* 06-Aug-2002 : Value labels now use number formatter, thanks to Milo
  * Simpson (DG);
* 08-Aug-2002 : Applied fixed in bug id 592218 (DG);
* 20-Sep-2002 : Added fix for categoryPaint by Rich Unger, and fixed errors
  * reported by Checkstyle (DG);
* 24-Oct-2002 : Amendments for changes in CategoryDataset interface and
  * CategoryToolTipGenerator interface (DG);
* 05-Nov-2002 : Replaced references to CategoryDataset with TableDataset (DG);
* 06-Nov-2002 : Moved to the com.jrefinery.chart.renderer package (DG);
* 28-Jan-2003 : Added an attribute to control the shading of the left and
  * bottom walls in the plot background (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 10-Apr-2003 : Removed category paint usage (DG);
* 13-May-2003 : Renamed VerticalBarRenderer3D --> BarRenderer3D and merged with
  * HorizontalBarRenderer3D (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 19-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 08-Oct-2003 : Removed clipping (replaced with flag in CategoryPlot to
  * control order in which the data items are processed) (DG);
* 20-Oct-2003 : Fixed bug (outline stroke not being used for bar
  * outlines) (DG);
* 21-Oct-2003 : Bar width moved into CategoryItemRendererState (DG);
* 24-Nov-2003 : Fixed bug 846324 (item labels not showing) (DG);
* 27-Nov-2003 : Added code to respect maxBarWidth setting (DG);
* 02-Feb-2004 : Fixed bug where 'drawBarOutline' flag is not respected (DG);
* 10-Feb-2004 : Small change to drawItem() method to make cut-and-paste overriding easier (DG);
* 04-Oct-2004 : Fixed bug with item label positioning when plot alignment is horizontal (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
  --> CategoryItemLabelGenerator (DG);
* 25-Apr-2005 : Override initialise() method to fix bug 1189642 (DG);
* 09-Jun-2005 : Use addEntityItem from super class (DG);
* 07-Dec-2006 : Implemented equals() override (DG);
* 17-Jan-2007 : Fixed bug in drawDomainGridline() method (DG);
* 03-Apr-2007 : Fixed bugs in drawBackground() method (DG);
* 16-Oct-2007 : Fixed bug in range marker drawing (DG);
* 19-Mar-2009 : Override for drawRangeLine() method (DG);
* 11-Jun-2012 : Utilise new PaintAlpha class - patch 3204823 from DaveLaw (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* 11-Mar-2014 : Check visible series (DG);

*  
  09-Dec-2001 : Added standard header (DG);  
*  07-Nov-2001 : Separated the JCommon Class Library classes, JFreeChart now  
  requires jcommon.jar (DG);  
*  09-Jan-2002 : Updated Javadoc comments (DG);  
*  07-Feb-2002 : Changed Insets --> Spacer in AbstractTitle.java (DG);  
*  06-Mar-2002 : Updated import statements (DG);  
*  25-Jun-2002 : Removed redundant imports (DG);  
*  18-Sep-2002 : Fixed errors reported by Checkstyle (DG);  
*  28-Oct-2002 : Small modifications while changing JFreeChart class (DG);  
*  13-Mar-2003 : Changed width used for relative spacing to fix bug 703050 (DG);  
*  26-Mar-2003 : Implemented Serializable (DG);  
*  15-Jul-2003 : Fixed null pointer exception (DG);  
*  11-Sep-2003 : Implemented Cloneable (NB)  
*  22-Sep-2003 : Added checks for null values and throw nullpointer  
  exceptions (TM);  
  Background paint was not serialized.  
*  07-Oct-2003 : Added fix for exception caused by empty string in title (DG);  
*  29-Oct-2003 : Added workaround for text alignment in PDF output (DG);  
*  03-Feb-2004 : Fixed bug in getPreferredSize() method (DG);  
*  17-Feb-2004 : Added clone() method and fixed bug in equals() method (DG);  
*  01-Apr-2004 : Changed java.awt.geom.Dimension2D to org.jfree.ui.Size2D  
  because of JDK bug 4976448 which persists on JDK 1.3.1. Also  
  fixed bug in getPreferredSize() method (DG);  
*  29-Apr-2004 : Fixed bug in getPreferredSize() method - see bug id  
  944173 (DG);  
*  11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0  
  release (DG);  
*  08-Feb-2005 : Updated for changes in RectangleConstraint class (DG);  
*  11-Feb-2005 : Implemented PublicCloneable (DG);  
*  20-Apr-2005 : Added support for tooltips (DG);  
*  26-Apr-2005 : Removed LOGGER (DG);  
*  06-Jun-2005 : Modified equals() to handle GradientPaint (DG);  
*  06-Jul-2005 : Added flag to control whether or not the title expands to  

fit the available space (DG);
* 07-Oct-2005 : Added textAlignment attribute (DG);
* -------------- JFREECHART 1.0.x RELEASED -----------------------------
* 13-Dec-2005 : Fixed bug 1379331 - incorrect drawing with LEFT or RIGHT
* title placement (DG);
* 19-Dec-2007 : Implemented some of the missing arrangement options (DG);
* 28-Apr-2008 : Added option for maximum lines, and fixed minor bugs in 
* equals() method (DG);
* 19-Mar-2009 : Changed ChartEntity to TitleEntity - see patch 2603321 by 
* Peter Kolb (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
* */

 * XYBoxAndWhiskerRenderer.java
 * ---------------------------------------------------------------
* (C) Copyright 2003-2014, by David Browning and Contributors.
* 
* Original Author: David Browning (for Australian Institute of Marine Science);
* Contributor(s): David Gilbert (for Object Refinery Limited);
* 
* Changes
* -------
* 05-Aug-2003 : Version 1, contributed by David Browning. Based on code in the CandlestickRenderer class. Additional modifications by David Gilbert to make the code work with 0.9.10 changes (DG);
* 08-Aug-2003 : Updated some of the Javadoc
*   Allowed BoxAndwhiskerDataset Average value to be null - the average value is an AIMS requirement
*   Allow the outlier and farout coefficients to be set - though at the moment this only affects the calculation of farouts.
*   Added artifactPaint variable and setter/getter
* 12-Aug-2003  Rewrote code to sort out and process outliers to take advantage of changes in DefaultBoxAndWhiskerDataset
*   Added a limit of 10% for width of box should no width be specified...maybe this should be setable???
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 08-Sep-2003 : Changed ValueAxis API (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 23-Apr-2004 : Added fillBox attribute, extended equals() method and fixed serialization issue (DG);
* 29-Apr-2004 : Fixed problem with drawing upper and lower shadows - bug id 944011 (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with getYValue() (DG);
* 01-Oct-2004 : Renamed 'paint' --> 'boxPaint' to avoid conflict with inherited attribute (DG);
* 10-Jun-2005 : Updated equals() to handle GradientPaint (DG);
* 06-Oct-2005 : Removed setPaint() call in drawItem(), it is causing a loop (DG);
* -------------- JFREECHART 1.0.x -------------------------------
* 02-Feb-2007 : Removed author tags from all over JFreeChart sources (DG);
* 05-Feb-2007 : Added event notifications and fixed drawing for horizontal plot orientation (DG);
* 13-Jun-2007 : Replaced deprecated method call (DG);
* 03-Jan-2008 : Check visibility of average marker before drawing it (DG);
* 27-Mar-2008 : If boxPaint is null, revert to itemPaint (DG);
* 27-Mar-2009 : Added findRangeBounds() method override (DG);
* 08-Dec-2009 : Fix for bug 2909215, NullPointerException for null outliers (DG);
* */

* ---------------------------
* AbstractXYItemRenderer.java
* ---------------------------
* (C) Copyright 2002-2014, by Object Refinery Limited and Contributors.
*
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Richard Atkinson;
* Focus Computer Services Limited;
* Tim Bardzil;
* Sergei Ivanov;
* Peter Kolb (patch 2809117);
* Martin Krauskopf;
*
* Changes:
* --------
* 15-Mar-2002 : Version 1 (DG);
* 09-Apr-2002 : Added a getToolTipGenerator() method reflecting the change in
* the XYItemRenderer interface (DG);
* 05-Aug-2002 : Added a urlGenerator member variable to support HTML image
* maps (RA);
* 20-Aug-2002 : Added property change events for the tooltip and URL
* generators (DG);
* 22-Aug-2002 : Moved property change support into AbstractRenderer class (DG);
* 23-Sep-2002 : Fixed errors reported by Checkstyle tool (DG);
* 18-Nov-2002 : Added methods for drawing grid lines (DG);
* 17-Jan-2003 : Moved plot classes into a separate package (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified initialise() return type and drawItem() method
* signature (DG);
* 15-May-2003 : Modified to take into account the plot orientation (DG);
* 21-May-2003 : Added labels to markers (DG);
* 05-Jun-2003 : Added domain and range grid bands (sponsored by Focus Computer
* 27-Jul-2003 : Added getRangeType() to support stacked XY area charts (RA);
* 31-Jul-2003 : Deprecated all but the default constructor (DG);
* 13-Aug-2003 : Implemented Cloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 05-Nov-2003 : Fixed marker rendering bug (833623) (DG);
* 11-Feb-2004 : Updated labelling for markers (DG);
* 25-Feb-2004 : Added updateCrosshairValues() method. Moved deprecated code to bottom of source file (DG);
* 16-Apr-2004 : Added support for IntervalMarker in drawRangeMarker() method - thanks to Tim Bardzil (DG);
* 05-May-2004 : Fixed bug (948310) where interval markers extend beyond axis range (DG);
* 03-Jun-2004 : Fixed more bugs in drawing interval markers (DG);
* 26-Aug-2004 : Added the addEntity() method (DG);
* 29-Sep-2004 : Added annotation support (with layers) (DG);
* 30-Sep-2004 : Moved drawRotatedString() from RefineryUtilities --> TextUtilities (DG);
* 06-Oct-2004 : Added findDomainBounds() method and renamed getRangeExtent() --> findRangeBounds() (DG);
* 07-Jan-2005 : Removed deprecated code (DG);
* 27-Jan-2005 : Modified getLegendItem() to omit hidden series (DG);
* 24-Feb-2005 : Added getLegendItems() method (DG);
* 08-Mar-2005 : Fixed positioning of marker labels (DG);
* 20-Apr-2005 : Renamed XYLabelGenerator --> XYItemLabelGenerator and added generators for legend labels, tooltips and URLs (DG);
* 01-Jun-2005 : Handle one dimension of the marker label adjustment automatically (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 20-Jul-2006 : Set dataset and series indices in LegendItem (DG);
* 24-Oct-2006 : Respect alpha setting in markers (see patch 1567843 by Sergei Ivanov) (DG);
* 24-Oct-2006 : Added code to draw outlines for interval markers (DG);
* 24-Nov-2006 : Fixed cloning for legend item generators (DG);
* 06-Feb-2007 : Added new updateCrosshairValues() method that takes into account multiple axis plots (see bug 1086307) (DG);
* 20-Feb-2007 : Fixed equals() method implementation (DG);
* 01-Mar-2007 : Fixed interval marker drawing (patch 1670686 thanks to Sergei Ivanov) (DG);
* 22-Mar-2007 : Modified the tooltip generator look up (DG);
* 23-Mar-2007 : Added drawDomainLine() method (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change, and deprecated itemLabelGenerator and toolTipGenerator override fields (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 12-Nov-2007 : Fixed domain and range band drawing methods (DG);
* 07-Apr-2008 : Minor API doc update (DG);
* 14-May-2008 : Updated addEntity() method to take plot orientation into
account when the incoming area is null (DG);
* 02-Jun-2008 : Added isPointInRect() method (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 09-Mar-2009 : Added getAnnotations() method (DG);
* 27-Mar-2009 : Added new findDomainBounds() and findRangeBounds() methods to
               take account of hidden series (DG);
* 01-Apr-2009 : Moved defaultEntityRadius up to superclass (DG);
* 28-Apr-2009 : Updated getLegendItem() method to observe new 'treatLegendShapeAsLine' flag (DG);
* 24-Jun-2009 : Added support for annotation events - see patch 2809117
               by PK (DG);
* 01-Sep-2009 : Bug 2840132 - set renderer index when drawing
               annotations (DG);
* 06-Oct-2011 : Add utility methods to work with 1.4 API in GeneralPath (MK)
* 03-Jul-2013 : Use ParamChecks (DG);
* 11-Jan-2014 : Fix error in fillDomainGridBand method (DG);
* 07-Apr-2014 : Don't use ObjectList anymore (DG);
* 29-Jul-2014 : Add rendering hint to normalise domain and range lines (DG);
* /

* SpiderWebPlot.java
* ------------------
(C) Copyright 2005-2014, by Heaps of Flavour Pty Ltd and Contributors.
* Company Info: http://www.i4-talent.com
* Original Author: Don Elliott;
* Contributor(s): David Gilbert (for Object Refinery Limited);
* Nina Jeliazkova;
* Changes
* ------
* 28-Jan-2005 : First cut - missing a few features - still to do:
* - needs tooltips/URL/label generator functions
* - ticks on axes / background grid?
* 31-Jan-2005 : Renamed SpiderWebPlot, added label generator support, and
* reformatted for consistency with other source files in
* JFreeChart (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
* --> CategoryItemLabelGenerator (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 10-Jun-2005 : Added equals() method and fixed serialization (DG);
* 16-Jun-2005 : Added default constructor and get/setDataset() method (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 05-Apr-2006 : Fixed bug preventing the display of zero values - see patch
* 1462727 (DG);
* 05-Apr-2006 : Added support for mouse clicks, tool tips and URLs - see patch
* 1463455 (DG);
* 01-Jun-2006 : Fix bug 1493199, NullPointerException when drawing with null
* info (DG);
* 05-Feb-2007 : Added attributes for axis stroke and paint, while fixing
* bug 1651277, and implemented clone() properly (DG);
* 06-Feb-2007 : Changed getPlotValue() to protected, as suggested in bug
* 1605202 (DG);
* 05-Mar-2007 : Restore clip region correctly (see bug 1667750) (DG);
* 18-May-2007 : Set dataset for LegendItem (DG);
* 02-Jun-2008 : Fixed bug with chart entities using TableOrder.BY_COLUMN (DG);
* 02-Jun-2008 : Fixed bug with null dataset (DG);
* 01-Jun-2009 : Set series key in getLegendItems() (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
*/

 * ChartUtilities.java
 * -------------------
 * (C) Copyright 2001-2013, by Object Refinery Limited and Contributors.
 *
 * Original Author:  David Gilbert (for Object Refinery Limited);
 * Contributor(s):  Wolfgang Irler;
 * Richard Atkinson;
 * Xavier Poinsard;
 *
 * Changes
 * ------
 * 11-Dec-2001 : Version 1. The JPEG method comes from Wolfgang Irler's
 * JFreeChartServletDemo class (DG);
 * 23-Jan-2002 : Changed saveChartAsXXX() methods to pass IOExceptions back to
 * caller (DG);
 * 26-Jun-2002 : Added image map methods (DG);
 * 05-Aug-2002 : Added writeBufferedImage methods
* Modified writeImageMap method to support flexible image maps (RA);
* 26-Aug-2002 : Added saveChartAsJPEG and writeChartAsJPEG methods with info objects (RA);
* 05-Sep-2002 : Added writeImageMap() method to support OverLIB - http://www.bosrup.com/web/overlib (RA);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 17-Oct-2002 : Exposed JPEG quality setting and PNG compression level as parameters (DG);
* 25-Oct-2002 : Fixed writeChartAsJPEG() empty method bug (DG);
* 13-Mar-2003 : Updated writeImageMap method as suggested by Xavier Poinsard (see Feature Request 688079) (DG);
* 12-Aug-2003 : Added support for custom image maps using ToolTipTagFragmentGenerator and URLTagFragmentGenerator (RA);
* 02-Sep-2003 : Separated PNG encoding from writing chart to an OutputStream (RA);
* 04-Dec-2003 : Chart draw() method modified to include anchor point (DG);
* 20-Feb-2004 : Edited Javadocs and added argument checking (DG);
* 05-Apr-2004 : Fixed problem with buffered image type (DG);
* 01-Aug-2004 : Modified to use EncoderUtil for all image encoding (RA);
* 02-Aug-2004 : Delegated image map related functionality to ImageMapUtil (RA);
* 13-Jan-2005 : Renamed ImageMapUtil --> ImageMapUtilities, removed method writeImageMap(PrintWriter, String, ChartRenderingInfo) which exists in ImageMapUtilities (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 06-Feb-2006 : API doc update (DG);
* 19-Mar-2007 : Use try-finally to close output stream in saveChartAsXXX() methods (DG);
* 10-Jan-2008 : Fix bug 1868251 - don't create image with transparency when saving to JPEG format (DG);
* 02-Jul-2013 : Use ParamChecks class (DG);
* */

* 18-Sep-2001 : Added standard header (DG);
* 07-Nov-2001 : Separated the JCommon Class Library classes, JFreeChart now
* requires jcommon.jar (DG);
* 09-Jan-2002 : Updated Javadoc comments (DG);
* 07-Feb-2002 : Changed blank space around title from Insets --> Spacer, to
  allow for relative or absolute spacing (DG);
* 25-Jun-2002 : Updated import statements (DG);
* 23-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 26-Nov-2002 : Added method for drawing images at left or right (DG);
* 22-Sep-2003 : Added checks that the Image can never be null (TM).
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
  release (DG);
* 02-Feb-2005 : Changed padding mechanism for all titles (DG);
* 20-Apr-2005 : Added new draw() method (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 11-Apr-2008 : Added arrange() method override to account for margin, border
  and padding (DG);
* 21-Apr-2008 : Added equals() method override (DG);
* */

* PiePlot3D.java
* --------------
* (C) Copyright 2000-2013, by Object Refinery and Contributors.
*
* Original Author: Tomer Peretz;
* Contributor(s): Richard Atkinson;
* David Gilbert (for Object Refinery Limited);
* Xun Kang;
* Christian W. Zuckschwerdt;
* Arnaud Lelievre;
* Dave Crane;
* Martin Hoeller;
* DaveLaw (dave ATT davelaw DOTT de);
*
* Changes
* -------
* 21-Jun-2002 : Version 1;
* 31-Jul-2002 : Modified to use startAngle and direction, drawing modified so
* that charts render with foreground alpha < 1.0 (DG);
* 05-Aug-2002 : Small modification to draw method to support URLs for HTML
* image maps (RA);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 18-Oct-2002 : Added drawing bug fix sent in by Xun Kang, and made a couple
* of other related fixes (DG);
* 30-Oct-2002 : Changed the PieDataset interface. Fixed another drawing
* bug (DG);
* 12-Nov-2002 : Fixed null pointer exception for zero or negative values (DG);
* 07-Mar-2003 : Added workaround for bug id 620031 (DG);
* 08-Sep-2003 : Added internationalization via use of properties
* resourceBundle (RFE 690236) (AL);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 20-Nov-2003 : Fixed bug 845289 (sides not showing) (DG);
* 25-Nov-2003 : Added patch (845095) to fix outline paint issues (DG);
* 10-Mar-2004 : Numerous changes to enhance labelling (DG);
* 31-Mar-2004 : Adjusted plot area when label generator is null (DG);
* 08-Apr-2004 : Added flag to PiePlot class to control the treatment of null
* values (DG);
* Added pieIndex to PieSectionEntity (DG);
* 15-Nov-2004 : Removed creation of default tool tip generator (DG);
* 16-Jun-2005 : Added default constructor (DG);
* Preserve JFREECHART 1.0.x ---------------------------------------------
* 27-Sep-2006 : Updated draw() method for new lookup methods (DG);
* 22-Mar-2007 : Added equals() override (DG);
* --------------------
* (C) Copyright 2002-2014, by Object Refinery Limited.
*
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Richard Atkinson;
* Peter Kolb (patch 2497611);
*
* Changes:
* --------
* 29-May-2002 : Version 1 (DG);
* 06-Jun-2002 : Added accessor methods for the tool tip generator (DG);
* 11-Jun-2002 : Made constructors protected (DG);
* 26-Jun-2002 : Added axis to initialise method (DG);
* 05-Aug-2002 : Added urlGenerator member variable plus accessors (RA);
* 22-Aug-2002 : Added categoriesPaint attribute, based on code submitted by
  Janet Banks. This can be used when there is only one series,
  and you want each category item to have a different color (DG);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 29-Oct-2002 : Fixed bug where background image for plot was not being
  drawn (DG);
* 05-Nov-2002 : Replaced references to CategoryDataset with TableDataset (DG);
* 26-Nov 2002 : Replaced the isStacked() method with getRangeType() (DG);
* 09-Jan-2003 : Renamed grid-line methods (DG);
* 17-Jan-2003 : Moved plot classes into separate package (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 12-May-2003 : Modified to take into account the plot orientation (DG);
* 12-Aug-2003 : Very minor javadoc corrections (DB)
* 13-Aug-2003 : Implemented Cloneable (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 05-Nov-2003 : Fixed marker rendering bug (833623) (DG);
* 21-Jan-2004 : Update for renamed method in ValueAxis (DG);
* 11-Feb-2004 : Modified labelling for markers (DG);
* 12-Feb-2004 : Updated clone() method (DG);
* 15-Apr-2004 : Created a new CategoryToolTipGenerator interface (DG);
* 05-May-2004 : Fixed bug (948310) where interval markers extend outside axis
  range (DG);
* 14-Jun-2004 : Fixed bug in drawRangeMarker() method - now uses 'paint' and
  'stroke' rather than 'outlinePaint' and 'outlineStroke' (DG);
* 15-Jun-2004 : Interval markers can now use GradientPaint (DG);
* 30-Sep-2004 : Moved drawRotatedString() from RefineryUtilities
  --> TextUtilities (DG);
* 01-Oct-2004 : Fixed bug 1029697, problem with label alignment in
  drawRangeMarker() method (DG);
* 07-Jan-2005 : Renamed getRangeExtent() --> findRangeBounds() (DG);
* 21-Jan-2005 : Modified return type of calculateRangeMarkerTextAnchorPoint() method (DG);
* 08-Mar-2005 : Fixed positioning of marker labels (DG);
* 20-Apr-2005 : Added legend label, tooltip and URL generators (DG);
* 01-Jun-2005 : Handle one dimension of the marker label adjustment automatically (DG);
* 09-Jun-2005 : Added utility method for adding an item entity (DG);
* 01-Mar-2006 : Updated getLegendItems() to check seriesVisibleInLegend flags (DG);
* 20-Jul-2006 : Set dataset and series indices in LegendItem (DG);
* 23-Oct-2006 : Draw outlines for interval markers (DG);
* 24-Oct-2006 : Respect alpha setting in markers, as suggested by Sergei Ivanov in patch 1567843 (DG);
* 30-Nov-2006 : Added a check for series visibility in the getLegendItem() method (DG);
* 07-Dec-2006 : Fix for equals() method (DG);
* 22-Feb-2007 : Added createState() method (DG);
* 01-Mar-2007 : Fixed interval marker drawing (patch 1670686 thanks to Sergei Ivanov) (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change, and deprecated itemLabelGenerator, toolTipGenerator and itemURLGenerator override fields (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 26-Jun-2008 : Added crosshair support (DG);
* 25-Nov-2008 : Fixed bug in findRangeBounds() method (DG);
* 14-Jan-2009 : Update initialise() to store visible series indices (PK);
* 21-Jan-2009 : Added drawRangeLine() method (DG);
* 27-Mar-2009 : Added new findRangeBounds() method to account for hidden series (DG);
* 01-Apr-2009 : Added new addEntity() method (DG);
* 09-Feb-2010 : Fixed bug 2947660 (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 08-Apr-2014 : Remove use of ObjectList (DG);
* 29-Jul-2014 : Add rendering hints to normalise range lines (DG);
*

* Month.java
* --------
* (C) Copyright 2001-2012, by Object Refinery Limited and Contributors.
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Chris Boek;
* 
* Changes
* ******
* 11-Oct-2001 : Version 1 (DG);
* 14-Nov-2001 : Added method to get year as primitive (DG);
*       Override for toString() method (DG);
* 18-Dec-2001 : Changed order of parameters in constructor (DG);
* 19-Dec-2001 : Added a new constructor as suggested by Paul English (DG);
* 29-Jan-2002 : Worked on the parseMonth() method (DG);
* 14-Feb-2002 : Fixed bugs in the Month constructors (DG);
* 26-Feb-2002 : Changed getStart(), getMiddle() and getEnd() methods to
*       evaluate with reference to a particular time zone (DG);
* 19-Mar-2002 : Changed API for TimePeriod classes (DG);
* 10-Sep-2002 : Added getSerialIndex() method (DG);
* 04-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 10-Jan-2003 : Changed base class and method names (DG);
* 13-Mar-2003 : Moved to com.jrefinery.data.time package, and implemented
*       Serializable (DG);
* 21-Oct-2003 : Added hashCode() method (DG);
* 01-Nov-2005 : Fixed bug 1345383 (argument check in constructor) (DG);
* -------------- JFREECHART 1.0.x ---------------------------------------------
* 05-Oct-2006 : Updated API docs (DG);
* 06-Oct-2006 : Refactored to cache first and last millisecond values (DG);
* 04-Apr-2007 : Fixed bug in Month(Date, TimeZone) constructor (CB);
* 01-Sep-2008 : Added clarification for previous() and next() methods (DG);
* 16-Sep-2008 : Deprecated DEFAULT_TIME_ZONE, and updated parsing to handle
*       extended range in Year (DG);
* 25-Nov-2008 : Added new constructor with Locale (DG);
* 04-Feb-2009 : Fix for new constructor with Locale - bug 2564636 (DG);
* 05-Jul-2012 : Removed JDK 1.3.1 supporting code (DG);
* */

*
* Changes
* -------
* 31-Oct-2001 : Version 1, contributed by Serge V. Grachov (DG);
* 15-Nov-2001 : Modified to allow for null data values (DG);
* 13-Dec-2001 : Added tooltips (DG);
* 15-Feb-2002 : Added isStacked() method (DG);
* 24-May-2002 : Incorporated tooltips into chart entities (DG);
* 19-Jun-2002 : Added check for null info in drawCategoryItem method (DG);
* 25-Jun-2002 : Removed redundant imports (DG);
* 26-Jun-2002 : Small change to entity (DG);
* 05-Aug-2002 : Small modification to drawCategoryItem method to support URLs
*               for HTML image maps (RA);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 24-Oct-2002 : Amendments for changes in CategoryDataset interface and
*               CategoryToolTipGenerator interface (DG);
* 05-Nov-2002 : Replaced references to CategoryDataset with TableDataset (DG);
* 26-Nov-2002 : Replaced isStacked() method with getRangeType() method (DG);
* 17-Jan-2003 : Moved plot classes to a separate package (DG);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Added default constructor (bug 726235) and fixed bug 726260 (DG);
* 13-May-2003 : Renamed StackedVerticalBarRenderer3D
  --> StackedBarRenderer3D (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 07-Oct-2003 : Added renderer state (DG);
* 21-Nov-2003 : Added a new constructor (DG);
* 27-Nov-2003 : Modified code to respect maxBarWidth setting (DG);
* 11-Aug-2004 : Fixed bug where isDrawBarOutline() was ignored (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 07-Jan-2005 : Renamed getRangeExtent() --> findRangeBounds (DG);
* 18-Mar-2005 : Override for getPassCount() method (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
  --> CategoryItemLabelGenerator (DG);
* 09-Jun-2005 : Use addItemEntity() method from superclass (DG);
* 22-Sep-2005 : Renamed getMaxBarWidth() --> getMaximumBarWidth() (DG);
* ----------- JFREECHART 1.0.x ---------------------------------------------
* 31-Mar-2006 : Added renderAsPercentages option - see patch 1459313 submitted
  by Max Herfort (DG);
* 16-Jan-2007 : Replaced rendering code to draw whole stack at once (DG);
* 18-Jan-2007 : Fixed bug handling null values in createStackedValueList()
  method (DG);
* 18-Jan-2007 : Updated block drawing code to take account of inverted axes,
  see bug report 1599652 (DG);
* 08-May-2007 : Fixed bugs 1713401 (drawBarOutlines flag) and 1713474
  (shading) (DG);
* 15-Aug-2008 : Fixed bug 2031407 - no negative zero for stack encoding (DG);
* 03-Feb-2009 : Fixed regression in findRangeBounds() method for null
  dataset (DG);
* 04-Feb-2009 : Handle seriesVisible flag (DG);
* 07-Jul-2009 : Added flag for handling zero values (DG);
* 11-Jun-2012 : Use new PaintAlpha class (patch 3204823 from DaveLaw) (DG);
*

DefaultTableXYDataset.java

(C) Copyright 2003-2014, by Richard Atkinson and Contributors.

Original Author: Richard Atkinson;
Contributor(s): Jody Brownell;
David Gilbert (for Object Refinery Limited);
Andreas Schroeder;

Changes:
--------
27-Jul-2003 : XYDataset that forces each series to have a value for every
X-point which is essential for stacked XY area charts (RA);
18-Aug-2003 : Fixed event notification when removing and updating
series (RA);
22-Sep-2003 : Functionality moved from TableXYDataset to
DefaultTableXYDataset (RA);
23-Dec-2003 : Added patch for large datasets, submitted by Jody
Brownell (DG);
16-Feb-2004 : Added pruning methods (DG);
31-Mar-2004 : Provisional implementation of IntervalXYDataset (AS);
01-Apr-2004 : Sound implementation of IntervalXYDataset (AS);
05-May-2004 : Now extends AbstractIntervalXYDataset (DG);
15-Jul-2004 : Switched getX() with getXValue() and getY() with
getYValue() (DG);
18-Aug-2004 : Moved from org.jfree.data --> org.jfree.data.xy (DG);
11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
release (DG);
05-Oct-2005 : Made the interval delegate a dataset listener (DG);
* 02-Feb-2007 : Removed author tags all over JFreeChart sources (DG);
* 22-Apr-2008 : Implemented PublicCloneable (DG);
* 10-Jun-2009 : Simplified getX() and getY() (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* */

* Martin Hoeller (patch 3435374);
*
* Changes
* ------
* 15-Oct-2004 : Version 1 (TS);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 11-Nov-2004 : Now uses ShapeUtilities class to translate shapes (DG);
* 26-Jan-2005 : Update for changes in super class (DG);
* 13-Apr-2005 : Check item visibility in drawItem() method (DG);
* 09-Jun-2005 : Use addItemEntity() in drawItem() method (DG);
* 10-Jun-2005 : Fixed capitalisation of setXOffset() and setYOffset() (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 01-Dec-2006 : Fixed equals() and serialization (DG);
* 17-Jan-2007 : Fixed bug in drawDomainGridline() method and added
* argument check to setWallPaint() (DG);
* 03-Apr-2007 : Fixed bugs in drawBackground() method (DG);
* 16-Oct-2007 : Fixed bug in range marker drawing (DG);
* 09-Nov-2011 : Fixed bug 3433405 - wrong item label position (MH);
* 13-Nov-2011 : Fixed item labels overlapped by line - patch 3435374 (MH);
* 03-Jul-2013 : Use ParamChecks (DG);
* *

XYBubbleRenderer.java

(C) Copyright 2003-2014, by Object Refinery Limited.

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): Christian W. Zuckschwerdt;

Changes
-------
28-Jan-2003 : Version 1 (DG);
25-Mar-2003 : Implemented Serializable (DG);
01-May-2003 : Modified drawItem() method signature (DG);
30-Jul-2003 : Modified entity constructor (CZ);
20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
10-Feb-2004 : Small change to drawItem() method to make cut-and-paste
   overriding easier (DG);
15-Jul-2004 : Switched getZ() and getZValue() methods (DG);
19-Jan-2005 : Now accesses only primitives from dataset (DG);
28-Feb-2005 : Modify renderer to use circles in legend (DG);
17-Mar-2005 : Fixed bug in bubble bounds calculation (DG);
20-Apr-2005 : Use generators for legend tooltips and URLs (DG);
------------- JFREECHART 1.0.x ---------------------------------------------
13-Dec-2005 : Added support for item labels (bug 1373371) (DG);
20-Jan-2006 : Check flag for drawing item labels (DG);
21-Sep-2006 : Respect the outline paint and stroke settings (DG);
* 24-Jan-2007 : Added new equals() override (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 13-Jun-2007 : Fixed seriesVisibility bug (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* */

* ---------------
* (C) Copyright 2001-2014, by Object Refinery Limited.
* 
* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s): Bryan Scott;
* Nick Guenther;

* Changes
* -------
* 11-Oct-2001 : Version 1 (DG);
* 14-Nov-2001 : Added listener mechanism (DG);
* 15-Nov-2001 : Updated argument checking and exceptions in add() method (DG);
* 29-Nov-2001 : Added properties to describe the domain and range (DG);
* 07-Dec-2001 : Renamed TimeSeries --> BasicTimeSeries (DG);
* 01-Mar-2002 : Updated import statements (DG);
* 28-Mar-2002 : Added a method add(TimePeriod, double) (DG);
* 27-Aug-2002 : Changed return type of delete method to void (DG);
* 04-Oct-2002 : Added itemCount and historyCount attributes, fixed errors reported by Checkstyle (DG);
* 29-Oct-2002 : Added series change notification to addOrUpdate() method (DG);
* 28-Jan-2003 : Changed name back to TimeSeries (DG);
* 13-Mar-2003 : Moved to com.jrefinery.data.time package and implemented Serializable (DG);
* 01-May-2003 : Updated equals() method (see bug report 727575) (DG);
* 14-Aug-2003 : Added ageHistoryCountItems method (copied existing code for contents) made a method and added to addOrUpdate. Made a public method to enable ageing against a specified time (eg now) as opposed to lastest time in series (BS);
* 15-Oct-2003 : Added fix for setItemCount method - see bug report 804425. Modified exception message in add() method to be more informative (DG);
* 13-Apr-2004 : Added clear() method (DG);
* 21-May-2004 : Added an extra addOrUpdate() method (DG);
* 15-Jun-2004 : Fixed NullPointerException in equals() method (DG);
* 29-Nov-2004 : Fixed bug 1075255 (DG);
* 17-Nov-2005 : Renamed historyCount --> maximumItemAge (DG);
* 28-Nov-2005 : Changed maximumItemAge from int to long (DG);
* 01-Dec-2005 : New add methods accept notify flag (DG);
* JFREECHART 1.0.x ---------------------------------------------
* 24-May-2006 : Improved error handling in createCopy() methods (DG);
* 01-Sep-2006 : Fixed bugs in removeAgedItems() methods - see bug report 1550045 (DG);
* 22-Mar-2007 : Simplified getDataItem(RegularTimePeriod) - see patch 1685500 by Nick Guenther (DG);
* 31-Oct-2007 : Implemented faster hashCode() (DG);
* 21-Nov-2007 : Fixed clone() method (bug 1832432) (DG);
* 10-Jan-2008 : Fixed createCopy(RegularTimePeriod, RegularTimePeriod) (bug 1864222) (DG);
* 13-Jan-2009 : Fixed constructors so that timePeriodClass doesn't need to be specified in advance (DG);
* 26-May-2009 : Added cache for minY and maxY values (DG);
* 09-Jun-2009 : Ensure that TimeSeriesDataItem objects used in underlying
storage are cloned to keep series isolated from external changes (DG);
* 10-Jun-2009 : Added addOrUpdate(TimeSeriesDataItem) method (DG);
* 31-Aug-2009 : Clear minY and maxY cache values in createCopy (DG);
* 03-Dec-2011 : Fixed bug 3446965 which affects the y-range calculation for the series (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
*/

* 19-Apr-2002 : Updated executeQuery, to close cursors and to improve support
* for types.
* 26-Apr-2002 : Renamed JdbcXYDataset to better fit in with the existing data
* source conventions.
* 26-Apr-2002 : Changed to extend AbstractDataset.
* 13-Aug-2002 : Updated Javadoc comments and imports (DG);
* 18-Sep-2002 : Updated to support BIGINT (BS);
* 21-Jan-2003 : Renamed JdbcXYDataset --> JDBCXYDataset (DG);
* 01-Jul-2003 : Added support to query whether a timeseries (BS);
* 30-Jul-2003 : Added empty constructor and executeQuery(connection,string)
* method (BS);
* 24-Sep-2003 : Added a check to ensure at least two valid columns are
* returned by the query in executeQuery as suggest in online
* forum by anonymous (BS);
* 02-Dec-2003 : Throwing exceptions allows to handle errors, removed default
* constructor, as without a connection, a query can never be
* executed.
* 16-Mar-2004 : Added check for null values (EA);
* 05-May-2004 : Now extends AbstractXYDataset (DG);
* 21-May-2004 : Implemented TableXYDataset, added support for SMALLINT and
* fixed bug in code that determines the min and max values (see
* bug id 938138) (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
* getYValue() (DG);
* 18-Nov-2004 : Updated for changes in RangeInfo interface (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
* release (DG);
* 17-Oct-2006 : Deprecated unused methods - see bug 1578293 (DG);
* 19-May-2009 : Fixed FindBugs warnings, patch by Michal Wozniak (DG);
*

* -----------
* PiePlot.java
* -----------
* (C) Copyright 2000-2014, by Andrzej Porebski and Contributors.

* Original Author: Andrzej Porebski;
* Contributor(s): David Gilbert (for Object Refinery Limited);
  * Martin Cordova (percentages in labels);
  * Richard Atkinson (URL support for image maps);
  * Christian W. Zuckscherdt;
  * Arnaud Lelievre;
  * Martin Hilpert (patch 1891849);
  * Andreas Schroeder (very minor);
  * Christoph Beck (bug 2121818);

* Changes
* --------
* 21-Jun-2001 : Removed redundant JFreeChart parameter from constructors (DG);
* 18-Sep-2001 : Updated header (DG);
* 15-Oct-2001 : Data source classes moved to com.jrefinery.data.* (DG);
* 19-Oct-2001 : Moved series paint and stroke methods from JFreeChart.java to
  * Plot.java (DG);
* 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
* 13-Nov-2001 : Modified plot subclasses so that null axes are possible for
  * pie plot (DG);
* 17-Nov-2001 : Added PieDataset interface and amended this class accordingly,
  * and completed removal of BlankAxis class as it is no longer
  * required (DG);
* 19-Nov-2001 : Changed 'drawCircle' property to 'circular' property (DG);
* 21-Nov-2001 : Added options for exploding pie sections and filled out range
  * of properties (DG);
*  13-Dec-2001 : Added tool tips (DG);
* 16-Jan-2002 : Renamed tool tips class (DG);
* 22-Jan-2002 : Fixed bug correlating legend labels with pie data (DG);
* 05-Feb-2002 : Added alpha-transparency to plot class, and updated
  * constructors accordingly (DG);
* 06-Feb-2002 : Added optional background image and alpha-transparency to Plot
  * and subclasses. Clipped drawing within plot area (DG);
* 26-Mar-2002 : Added an empty zoom method (DG);
* 18-Apr-2002 : PieDataset is no longer sorted (oldman);
* 23-Apr-2002 : Moved dataset from JFreeChart to Plot. Added
  * getLegendItemLabels() method (DG);
* 19-Jun-2002 : Added attributes to control starting angle and direction
  * (default is now clockwise) (DG);
* 25-Jun-2002 : Removed redundant imports (DG);
* 02-Jul-2002 : Fixed sign of percentage bug introduced in 0.9.2 (DG);
* 16-Jul-2002 : Added check for null dataset in getLegendItemLabels() (DG);
* 30-Jul-2002 : Moved summation code to DatasetUtilities (DG);
* 05-Aug-2002 : Added URL support for image maps - new member variable for
  *   urlGenerator, modified constructor and minor change to the
  *   draw method (RA);
* 18-Sep-2002 : Modified the percent label creation and added setters for the
  *   formatters (AS);
* 24-Sep-2002 : Added getLegendItems() method (DG);
* 02-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 09-Oct-2002 : Added check for null entity collection (DG);
* 30-Oct-2002 : Changed PieDataset interface (DG);
* 18-Nov-2002 : Changed CategoryDataset to TableDataset (DG);
* 02-Jan-2003 : Fixed "no data" message (DG);
* 23-Jan-2003 : Modified to extract data from rows OR columns in
  *   CategoryDataset (DG);
* 14-Feb-2003 : Fixed label drawing so that foreground alpha does not apply
  *   (bug id 685536) (DG);
* 07-Mar-2003 : Modified to pass pieIndex on to PieSectionEntity and tooltip
  *   and URL generators (DG);
* 21-Mar-2003 : Added a minimum angle for drawing arcs
  *   (see bug id 620031) (DG);
* 24-Apr-2003 : Switched around PieDataset and KeyedValuesDataset (DG);
* 02-Jun-2003 : Fixed bug 721733 (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 19-Aug-2003 : Implemented Cloneable (DG);
* 29-Aug-2003 : Fixed bug 796936 (null pointer on setOutlinePaint()) (DG);
* 08-Sep-2003 : Added internationalization via use of properties
  *   resourceBundle (RFE 690236) (AL);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 05-Nov-2003 : Fixed missing legend bug (DG);
* 10-Nov-2003 : Re-added the DatasetChangeListener to constructors (CZ);
* 29-Jan-2004 : Fixed clipping bug in draw() method (DG);
* 11-Mar-2004 : Major overhaul to improve labelling (DG);
* 31-Mar-2004 : Made an adjustment for the plot area when the label generator
  *   is null. Fixed null pointer exception when the label
  *   generator returns null for a label (DG);
* 06-Apr-2004 : Added getter, setter, serialization and draw support for
  *   labelBackgroundPaint (AS);
* 08-Apr-2004 : Added flag to control whether null values are ignored or
  *   not (DG);
* 15-Apr-2004 : Fixed some minor warnings from Eclipse (DG);
* 26-Apr-2004 : Added attributes for label outline and shadow (DG);
* 04-Oct-2004 : Renamed ShapeUtils --> ShapeUtilities (DG);
* 04-Nov-2004 : Fixed null pointer exception with new LegendTitle class (DG);
* 09-Nov-2004 : Added user definable legend item shape (DG);
* 25-Nov-2004 : Added new legend label generator (DG);
* 20-Apr-2005 : Added a tooltip generator for legend labels (DG);
* 26-Apr-2005 : Removed LOGGER (DG);
* 05-May-2005 : Updated draw() method parameters (DG);
* 10-May-2005 : Added flag to control visibility of label linking lines, plus
  another flag to control the handling of zero values (DG);
* 08-Jun-2005 : Fixed bug in getLegendItems() method (not respecting flags
  for ignoring null and zero values), and fixed equals() method
  to handle GradientPaint (DG);
* 15-Jul-2005 : Added sectionOutlinesVisible attribute (DG);
* 09-Jan-2006 : Fixed bug 1400442, inconsistent treatment of null and zero
  values in dataset (DG);
* 28-Feb-2006 : Fixed bug 1440415, bad distribution of pie section
  labels (DG);
* 27-Sep-2006 : Initialised baseSectionPaint correctly, added lookup methods
  for section paint, outline paint and outline stroke (DG);
* 27-Sep-2006 : Refactored paint and stroke methods to use keys rather than
  section indices (DG);
* 03-Oct-2006 : Replaced call to JRE 1.5 method (DG);
* 23-Nov-2006 : Added support for URLs for the legend items (DG);
* 24-Nov-2006 : Cloning fixes (DG);
* 17-Apr-2007 : Check for null label in legend items (DG);
* 19-Apr-2007 : Deprecated override settings (DG);
* 18-May-2007 : Set dataset for LegendItem (DG);
* 14-Jun-2007 : Added label distributor attribute (DG);
* 18-Jul-2007 : Added simple label option (DG);
* 21-Nov-2007 : Fixed labelling bugs, added debug code, restored default
  white background (DG);
* 19-Mar-2008 : Fixed IllegalArgumentException when drawing with null
  dataset (DG);
* 31-Mar-2008 : Adjust the label area for the interiorGap (DG);
* 31-Mar-2008 : Added quad and cubic curve label link lines - see patch
  1891849 by Martin Hilpert (DG);
* 02-Jul-2008 : Added autoPopulate flags (DG);
* 15-Aug-2008 : Added methods to clear section attributes (DG);
* 15-Aug-2008 : Fixed bug 2051168 - problem with LegendItemEntity
  generation (DG);
* 23-Sep-2008 : Added getLabelLinkDepth() method - see bug 2121818 reported
  by Christoph Beck (DG);
* 18-Dec-2008 : Use ResourceBundleWrapper - see patch 1607918 by
  Jess Thysoe (DG);
* 10-Jul-2009 : Added optional drop shadow generator (DG);
* 03-Sep-2009 : Fixed bug where simpleLabelOffset is ignored (DG);
* 04-Nov-2009 : Add mouse wheel rotation support (DG);
* 18-Oct-2011 : Fixed tooltip offset with shadow generator (DG);
* 20-Nov-2011 : Initialise shadow generator as null (DG);
* 01-Jul-2012 : General label once only in drawSimpleLabels() (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* 12-Sep-2013 : Check for KEY_SUPPRESS_SHADOW_GENERATION rendering hint (DG);

 * Changes:
 * --------
 * 22-Oct-2004 : Version 1 (DG);
 * 02-Feb-2005 : Added accessor methods for margin (DG);
 * 04-Feb-2005 : Added equals() method and implemented Serializable (DG);
 * 03-May-2005 : Added null argument checks (DG);
 * 06-May-2005 : Added convenience methods for setting margin, border and
 *               padding (DG);
 * 16-Mar-2007 : Changed border from BlockBorder to BlockFrame, updated

Open Source Used In Data Center Network Manager 11.5(1) 24657
equals(), and implemented Cloneable (DG);
* 02-Jul-2013 : Use ParamChecks (DG);
* *
* /

* (C) Copyright 2001-2008, by Object Refinery Limited.
* *
* Original Author:  David Gilbert (for Object Refinery Limited);
* Contributor(s):  
* *
* Changes
* -----:
* 23-Nov-2001 : Version 1 (DG);
* 18-Feb-2002 : Fixed bug in getNearestTickUnit (thanks to Mario Inchiosa for
* reporting this, SourceForge bug id 518073) (DG);
* 25-Feb-2002 : Moved createStandardTickUnits() method from NumberAxis, and
  added createIntegerTickUnits() method (DG);
* 01-May-2002 : Updated for changes to the TickUnit class (DG);
* 18-Sep-2002 : Added standardTickUnit methods which take a Locale
  instance (AS);
* 26-Sep-2002 : Fixed errors reported by Checkstyle (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 13-Aug-2003 : Implemented Cloneable (DG);
* 23-Sep-2003 : Implemented TickUnitSource interface (DG);
* 03-Dec-2003 : Adding null values now throws exceptions (TM);
* 11-Jan-2005 : Removed deprecated methods in preparation for 1.0.0
  release (DG);

*(C) Copyright 2003-2014, by David Browning and Contributors.*

* Original Author: David Browning (for the Australian Institute of Marine Science);
* Contributor(s): David Gilbert (for Object Refinery Limited);
  * Tim Bardzil;
  * Rob Van der Sanden (patches 1866446 and 1888422);
  * Peter Becker (patches 2868585 and 2868608);
  * Martin Krauskopf (patch 3421088);
  * Martin Hoeller;

* Changes
* -------
* 21-Aug-2003 : Version 1, contributed by David Browning (for the Australian Institute of Marine Science);
* 01-Sep-2003 : Incorporated outlier and farout symbols for low values also (DG);
* 08-Sep-2003 : Changed ValueAxis API (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 12-Nov-2003 : Fixed casting bug reported by Tim Bardzil (DG);
* 13-Nov-2003 : Added drawHorizontalItem() method contributed by Tim Bardzil (DG);
* 25-Apr-2004 : Added fillBox attribute, equals() method and added serialization code (DG);
* 29-Apr-2004 : Changed drawing of upper and lower shadows - see bug report 944011 (DG);
* 05-Nov-2004 : Modified drawItem() signature (DG);
* 09-Mar-2005 : Override getLegendItem() method so that legend item shapes are shown as blocks (DG);
* 20-Apr-2005 : Generate legend labels, tooltips and URLs (DG);
* 09-Jun-2005 : Updated equals() to handle GradientPaint (DG);
* ------------- JFREECHART 1.0.x ---------------------------------------------
* 12-Oct-2006 : Source reformatting and API doc updates (DG);
* 12-Oct-2006 : Fixed bug 1572478, potential NullPointerException (DG);
* 05-Feb-2006 : Added event notifications to a couple of methods (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 11-May-2007 : Added check for visibility in getLegendItem() (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 03-Jan-2008 : Check visibility of average marker before drawing it (DG);
* 15-Jan-2008 : Add getMaximumBarWidth() and setMaximumBarWidth() methods (RVdS);
* 14-Feb-2008 : Fix bar position for horizontal chart, see patch 1888422 (RVdS);
* 27-Mar-2008 : Boxes should use outlinePaint/Stroke settings (DG);
* 17-Jun-2008 : Apply legend shape, font and paint attributes (DG);
* 02-Oct-2008 : Check item visibility in drawItem() method (DG);
* 21-Jan-2009 : Added flags to control visibility of mean and median indicators (DG);
* 28-Sep-2009 : Added fireChangeEvent() to setMedianVisible (DG);
* 28-Sep-2009 : Added useOutlinePaintForWhiskers flag, see patch 2868585 by Peter Becker (DG);
* 28-Sep-2009 : Added whiskerWidth attribute, see patch 2868608 by Peter Becker (DG);
* 11-Oct-2011 : applied patch #3421088 from Martin Krauskopf to fix bug (MH);
* 03-Jul-2013 : Use ParamChecks (DG);
* /

* SymbolAxis.java
* ---------------
* (C) Copyright 2002-2014, by Anthony Boulestreau and Contributors.
* Original Author: Anthony Boulestreau;
* Contributor(s): David Gilbert (for Object Refinery Limited);

* Changes
* ------
* 29-Mar-2002 : First version (AB);
* 19-Apr-2002 : Updated formatting and import statements (DG);
* 21-Jun-2002 : Make change to use the class TickUnit - remove valueToString()
  method and add SymbolicTickUnit (AB);
* 25-Jun-2002 : Removed redundant code (DG);
* 25-Jul-2002 : Changed order of parameters in ValueAxis constructor (DG);
* 05-Sep-2002 : Updated constructor to reflect changes in the Axis class (DG);
* 08-Nov-2002 : Moved to new package com.jrefinery.chart.axis (DG);
* 14-Feb-2003 : Added back missing constructor code (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 14-May-2003 : Renamed HorizontalSymbolicAxis --> SymbolicAxis and merged in
  VerticalSymbolicAxis (DG);
* 12-Aug-2003 : Fixed bug where refreshTicks() method has different signature
  to super class (DG);
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 02-Nov-2003 : Added code to avoid overlapping labels (MR);
* 07-Nov-2003 : Modified to use new tick classes (DG);
* 18-Nov-2003 : Fixed bug where symbols are not being displayed on the
  axis (DG);
* 24-Nov-2003 : Added fix for gridlines on zooming (bug id 834643) (DG);
* 21-Jan-2004 : Update for renamed method in ValueAxis (DG);
* 11-Mar-2004 : Modified the way the background grid color is being drawn, see
  this thread:
  * http://www.jfree.org/phpBB2/viewtopic.php?p=22973 (DG);
* 16-Mar-2004 : Added plotState to draw() method (DG);
* 07-Apr-2004 : Modified string bounds calculation (DG);
* 28-Mar-2005 : Renamed autoRangeIncludesZero() --> getAutoRangeIncludesZero()
  and autoRangeStickyZero() --> getAutoRangeStickyZero() (DG);
* 05-Jul-2005 : Fixed signature on refreshTicks() method - see bug report
  1232264 (DG);
* 06-Jul-2005 : Renamed SymbolicAxis --> SymbolAxis, added equals() method,
  renamed getSymbolicValue() --> getSymbols(), renamed
  symbolicGridPaint --> gridBandPaint, fixed serialization of
  gridBandPaint, renamed symbolicGridLinesVisible -->
  gridBandsVisible, eliminated symbolicGridLineList (DG);

*
* Changes
* -------
* 19-Oct-2001 : Version 1, most methods transferred from JFreeChart.java (DG);
* 22-Oct-2001 : Added methods to create stacked bar charts (DG);
* Renamed DataSource.java --> Dataset.java etc. (DG);
* 31-Oct-2001 : Added 3D-effect vertical bar and stacked-bar charts, contributed by Serge V. Grachov (DG);
* 07-Nov-2001 : Added a flag to control whether or not a legend is added to the chart (DG);
* 17-Nov-2001 : For pie chart, changed dataset from CategoryDataset to PieDataset (DG);
* 30-Nov-2001 : Removed try/catch handlers from chart creation, as the exception are now RuntimeExceptions, as suggested by Joao Guilherme Del Valle (DG);
* 06-Dec-2001 : Added createCombiable XXXXXCharts methods (BK);
* 12-Dec-2001 : Added createCandlestickChart() method (DG);
* 13-Dec-2001 : Updated methods for charts with new renderers (DG);
* 08-Jan-2002 : Added import for com.jrefinery.chart.combination.CombinedChart (DG);
* 31-Jan-2002 : Changed the createCombiableVerticalXYBarChart() method to use renderer (DG);
* 06-Feb-2002 : Added new method createWindPlot() (DG);
* 23-Apr-2002 : Updates to the chart and plot constructor API (DG);
* 21-May-2002 : Added new method createAreaChart() (JI);
* 06-Jun-2002 : Added new method createGanttChart() (DG);
* 11-Jun-2002 : Renamed createHorizontalStackedBarChart() --> createStackedHorizontalBarChart() for consistency (DG);
* 06-Aug-2002 : Updated Javadoc comments (DG);
* 21-Aug-2002 : Added createPieChart(CategoryDataset) method (DG);
* 02-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 09-Oct-2002 : Added methods including tooltips and URL flags (DG);
* 06-Nov-2002 : Moved renderers into a separate package (DG);
* 18-Nov-2002 : Changed CategoryDataset to TableDataset (DG);
* 21-Mar-2003 : Incorporated HorizontalCategoryAxis3D, see bug id 685501 (DG);
* 13-May-2003 : Merged some horizontal and vertical methods (DG);
* 24-May-2003 : Added support for timeline in createHighLowChart (BK);
* 07-Jul-2003 : Added createHistogram() method contributed by Jelai Wang (DG);
* 27-Jul-2003 : Added createStackedAreaXYChart() method (RA);
* 05-Aug-2003 : added new method createBoxAndWhiskerChart (DB);
* 08-Sep-2003 : Changed ValueAxis API (DG);
* 07-Oct-2003 : Added stepped area XY chart contributed by Matthias Rose (DG);
* 06-Nov-2003 : Added createWaterfallChart() method (DG);
* 20-Nov-2003 : Set rendering order for 3D bar charts to fix overlapping problems (DG);
* 25-Nov-2003 : Added createWaferMapChart() method (DG);
* 23-Dec-2003 : Renamed createPie3DChart() --> createPieChart3D for consistency (DG);
* 20-Jan-2004 : Added createPolarChart() method (DG);
* 28-Jan-2004 : Fixed bug (882890) with axis range in createStackedXYAreaChart() method (DG);
* 25-Feb-2004 : Renamed XYToolTipGenerator --> XYItemLabelGenerator (DG);
* 11-Mar-2004 : Updated for pie chart changes (DG);

* 
* Changes:
* _______
* 06-Dec-2001 : Version 1 (BK);
* 12-Dec-2001 : Removed unnecessary 'throws' clause from constructor (DG);
* 18-Dec-2001 : Added plotArea attribute and get/set methods (BK);
* 22-Dec-2001 : Fixed bug in chartChanged with multiple combinations of
*               CombinedPlots (BK);
* 08-Jan-2002 : Moved to new package com.jrefinery.chart.combination (DG);
* 25-Feb-2002 : Updated import statements (DG);
* 28-Feb-2002 : Readded "this.plotArea = plotArea" that was deleted from
*               draw() method (BK);
* 26-Mar-2002 : Added an empty zoom method (this method needs to be written
*               so that combined plots will support zooming (DG);
* 29-Mar-2002 : Changed the method createCombinedAxis adding the creation of
*               OverlaidSymbolicAxis and CombinedSymbolicAxis(AB);
* 23-Apr-2002 : Renamed CombinedPlot-->MultiXYPlot, and simplified the
*               structure (DG);
* 23-May-2002 : Renamed (again) MultiXYPlot-->CombinedXYPlot (DG);
* 19-Jun-2002 : Added get/setGap() methods suggested by David Basten (DG);
* 25-Jun-2002 : Removed redundant imports (DG);

/* ===========================================================
* JFreeChart : a free chart library for the Java(tm) platform
* JFreeChart : a free chart library for the Java(tm) platform
* 16-Jul-2002 : Draws shared axis after subplots (to fix missing gridlines),
*               added overrides of 'setSeriesPaint()' and 'setXYItemRenderer()
*               that pass changes down to subplots (KF);
* 09-Oct-2002 : Added add(XYPlot) method (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 16-May-2003 : Renamed CombinedXYPlot --> CombinedRangeXYPlot (DG);
* 26-Jun-2003 : Fixed bug 755547 (DG);
* 16-Jul-2003 : Removed getSubPlots() method (duplicate of getSubplots()) (DG);
* 08-Aug-2003 : Adjusted totalWeight in remove() method (DG);
* 21-Aug-2003 : Implemented Cloneable (DG);
* 08-Sep-2003 : Added internationalization via use of properties
*               resourceBundle (RFE 690236) (AL);
* 11-Sep-2003 : Fix cloning support (subplots) (NB);
* 15-Sep-2003 : Fixed error in cloning (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 17-Sep-2003 : Updated handling of 'clicks' (DG);
* 12-Nov-2004 : Implements the new Zoomable interface (DG);
* 25-Nov-2004 : Small update to clone() implementation (DG);
* 21-Feb-2005 : The getLegendItems() method now returns the fixed legend
*               items if set (DG);
* 05-May-2005 : Removed unused draw() method (DG);
* 13-Sep-2006 : Updated API docs (DG);
* 06-Feb-2007 : Fixed bug 1606205, draw shared axis after subplots (DG);
* 23-Mar-2007 : Reverted previous patch (DG);
* 17-Apr-2007 : Added null argument checks to findSubplot() (DG);
* 18-Jul-2007 : Fixed bug in removeSubplot (DG);
* 27-Nov-2007 : Modified setFixedDomainAxisSpaceForSubplots() so as not to
*               trigger change events in subplots (DG);
* 27-Mar-2008 : Add documentation for getDataRange() method (DG);
* 31-Mar-2008 : Updated getSubplots() to return EMPTY_LIST for null
*               subplots, as suggested by Richard West (DG);
* 28-Apr-2008 : Fixed zooming problem (see bug 1950037) (DG);
* 11-Aug-2008 : Don't store totalWeight of subplots, calculate it as
*               required (DG);
* 21-Dec-2011 : Apply patch 3447161 by Ulrich Voigt and Martin Hoeller (MH);
* 21-Jul-2014 : Override isDomainPannable() and setDomainPannable() - motivated
*               by patch #304 by Ulrich Voigt (DG);
*/

DefaultHighLowDataset.java

(C) Copyright 2002-2013, by Object Refinery Limited.

Original Author:  David Gilbert (for Object Refinery Limited);
Contributor(s):  -;

Changes
------
21-Mar-2002 : Version 1 (DG);
07-Oct-2002 : Fixed errors reported by Checkstyle (DG);
06-May-2004 : Now extends AbstractXYDataset and added new methods from
              HighLowDataset (DG);
15-Jul-2004 : Switched getX() with getXValue() and getY() with
              getYValue() (DG);
------------- JFREECHART 1.0.x ---------------------------------------------
28-Nov-2006 : Added equals() method override (DG);
22-Apr-2008 : Implemented PublicCloneable (DG);
03-Jul-2013 : Use ParamChecks (DG);

DefaultIntervalXYDataset.java

(C) Copyright 2006-2009, by Object Refinery Limited and Contributors.

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): -;

Changes
-----
23-Oct-2006 : Version 1 (DG);
02-Nov-2006 : Fixed a problem with adding a new series with the same key
as an existing series (see bug 1589392) (DG);
28-Nov-2006 : New override for clone() (DG);
22-Apr-2008 : Implemented PublicCloneable (DG);
10-Aug-2009 : Fixed typo in Javadocs - see bug 2830419 (DG);

* -------------------------
* CombinedDomainXYPlot.java
* -------------------------
* (C) Copyright 2001-2014, by Bill Kelemen and Contributors.

* Original Author: Bill Kelemen;
* Contributor(s): David Gilbert (for Object Refinery Limited);
  * Anthony Boulestraeau;
  * David Basten;
  * Kevin Frechette (for ISTI);
  * Nicolas Brodu;
  * Petr Kubanek (bug 1606205);

* Changes:
* --------
* 06-Dec-2001: Version 1 (BK);
* 12-Dec-2001: Removed unnecessary ‘throws’ clause from constructor (DG);
* 18-Dec-2001: Added plotArea attribute and get/set methods (BK);
* 22-Dec-2001: Fixed bug in chartChanged with multiple combinations of
  * CombinedPlots (BK);
* 08-Jan-2002: Moved to new package com.jrefinery.chart.combination (DG);
* 25-Feb-2002: Updated import statements (DG);
* 28-Feb-2002: Readded “this.plotArea = plotArea” that was deleted from
  * draw() method (BK);
* 26-Mar-2002: Added an empty zoom method (this method needs to be written so
  * that combined plots will support zooming (DG);
* 29-Mar-2002: Changed the method createCombinedAxis adding the creation of
  * OverlaidSymbolicAxis and CombinedSymbolicAxis(AB);
* 23-Apr-2002: Renamed CombinedPlot-->MultiXYPlot, and simplified the
  * structure (DG);
* 23-May-2002: Renamed (again) MultiXYPlot-->CombinedXYPlot (DG);
* 19-Jun-2002: Added get/setGap() methods suggested by David Basten (DG);
* 25-Jun-2002: Removed redundant imports (DG);
* 16-Jul-2002: Draws shared axis after subplots (to fix missing gridlines),
  * added overrides of ‘setSeriesPaint()’ and ‘setXYItemRenderer()’
  * that pass changes down to subplots (KF);
* 09-Oct-2002: Added add(XYPlot) method (DG);
* 26-Mar-2003: Implemented Serializable (DG);
* 16-May-2003: Renamed CombinedXYPlot --> CombinedDomainXYPlot (DG);
* 04-Aug-2003: Removed leftover code that was causing domain axis drawing
  * problem (DG);
* 08-Aug-2003: Adjusted totalWeight in remove() method (DG);
* 21-Aug-2003: Implemented Cloneable (DG);
* 11-Sep-2003 : Fix cloning support (subplots) (NB);
* 15-Sep-2003 : Fixed error in cloning (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 17-Sep-2003 : Updated handling of 'clicks' (DG);
* 12-Nov-2004 : Implemented the new Zoomable interface (DG);
* 25-Nov-2004 : Small update to clone() implementation (DG);
* 21-Feb-2005 : The getLegendItems() method now returns the fixed legend
  items if set (DG);
* 05-May-2005 : Removed unused draw() method (DG);

* ---------------- JFREECHART 1.0.x ---------------------------------------------
* 23-Aug-2006 : Override setFixedRangeAxisSpace() to update subplots (DG);
* 06-Feb-2007 : Fixed bug 1606205, draw shared axis after subplots (DG);
* 23-Mar-2007 : Reverted previous patch (bug fix 1606205) (DG);
* 17-Apr-2007 : Added null argument checks to findSubplot() (DG);
* 27-Nov-2007 : Modified setFixedRangeAxisSpaceForSubplots() so as not to
  trigger change event in subplots (DG);
* 28-Jan-2008 : Reset fixed range axis space in subplots for each call to
  draw() (DG);
* 27-Mar-2008 : Add documentation for getDataRange() method (DG);
* 31-Mar-2008 : Updated getSubplots() to return EMPTY_LIST for null
  subplots, as suggested by Richard West (DG);
* 28-Apr-2008 : Fixed zooming problem (see bug 1950037) (DG);
* 11-Aug-2008 : Don't store totalWeight of subplots, calculate it as
  required (DG);
* 21-Dec-2011 : Apply patch 3447161 by Ulrich Voigt and Martin Hoeller (MH);
* 21-Jul-2014 : Override isRangePannable() and setRangePannable() - motivated
  by patch #304 by Ulrich Voigt (DG);

* (C) Copyright 2001-2011, by Object Refinery Limited and Contributors.
* *
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Mark Watson (www.markwatson.com);
* *
* Changes
* -------
* 23-Oct-2001 : Version 1 (DG);
* 16-Jan-2002 : Renamed HorizontalCategoryItemRenderer.java
*              --> CategoryItemRenderer.java (DG);
* 05-Feb-2002 : Changed return type of the drawCategoryItem method from void
*              to Shape, as part of the tooltips implementation (DG)
*              NOTE (30-May-2002) : this has subsequently been changed back
*              to void, tooltips are now collected along with entities in
*              ChartRenderingInfo (DG);
* 14-Mar-2002 : Added the initialise method, and changed all bar plots to use
*              this renderer (DG);
* 23-May-2002 : Added ChartRenderingInfo to the initialise method (DG);
* 29-May-2002 : Added the getAxisArea(Rectangle2D) method (DG);
* 06-Jun-2002 : Updated Javadoc comments (DG);
* 26-Jun-2002 : Added range axis to the initialise method (DG);
* 24-Sep-2002 : Added getLegendItem() method (DG);
* 23-Oct-2002 : Added methods to get/setToolTipGenerator (DG);
* 05-Nov-2002 : Replaced references to CategoryDataset with TableDataset (DG);
* 06-Nov-2002 : Added the domain axis to the drawCategoryItem method. Renamed
drawCategoryItem() --> drawItem() (DG);
* 20-Nov-2002 : Changed signature of drawItem() method to reflect use of
*              TableDataset (DG);
* 26-Nov-2002 : Replaced the isStacked() method with the getRangeType()
* method (DG);
* 08-Jan-2003 : Changed getSeriesCount() --> getRowCount() and
  getCategoryCount() --> getColumnCount() (DG);
* 09-Jan-2003 : Changed name of grid-line methods (DG);
* 21-Jan-2003 : Merged TableDataset with CategoryDataset (DG);
* 10-Apr-2003 : Changed CategoryDataset to KeyedValues2DDataset in
  drawItem() method (DG);
* 29-Apr-2003 : Eliminated Renderer interface (DG);
* 02-Sep-2003 : Fix for bug 790407 (DG);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 20-Oct-2003 : Added setOutlinePaint() method (DG);
* 06-Feb-2004 : Added missing methods, and moved deprecated methods (DG);
* 19-Feb-2004 : Added extra setXXXLabelsVisible() methods (DG);
* 29-Apr-2004 : Changed Integer --> int in initialise() method (DG);
* 18-May-2004 : Added methods for item label paint (DG);
* 05-Nov-2004 : Added getPassCount() method and 'pass' parameter to drawItem()
  method (DG);
* 07-Jan-2005 : Renamed getRangeExtent() --> findRangeBounds (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for 1.0.0 release (DG);
* 23-Feb-2005 : Now extends LegendItemSource (DG);
* 20-Apr-2005 : Renamed CategoryLabelGenerator
  --> CategoryItemLabelGenerator (DG);
* 20-May-2005 : Added drawDomainMarker() method (DG);
* --------------- JFREECHART 1.0.x ---------------------------------------------
* 20-Feb-2007 : Updated API docs (DG);
* 19-Apr-2007 : Deprecated seriesVisible and seriesVisibleInLegend flags (DG);
* 20-Apr-2007 : Deprecated paint, fillPaint, outlinePaint, stroke,
  outlineStroke, shape, itemLabelsVisible, itemLabelFont,
  itemLabelPaint, positiveItemLabelPosition,
  negativeItemLabelPosition and createEntities override
  fields (DG);
* 26-Jun-2008 : Added new method required for crosshair support - THIS CHANGES
  THE API as of version 1.0.11 (DG);

* Changes
* ------
* 13-Dec-2001 : Version 1, makes VerticalXYBarPlot class redundant (DG);
* 23-Jan-2002 : Added DrawInfo parameter to drawItem() method (DG);
* 09-Apr-2002 : Removed the translated zero from the drawItem method. Override
the initialise() method to calculate it (DG);
* 24-May-2002 : Incorporated tooltips into chart entities (DG);
* 25-Jun-2002 : Removed redundant import (DG);
* 05-Aug-2002 : Small modification to drawItem method to support URLs for HTML
  * image maps (RA);
* 25-Mar-2003 : Implemented Serializable (DG);
* 01-May-2003 : Modified drawItem() method signature (DG);
* 30-Jul-2003 : Modified entity constructor (CZ);
* 20-Aug-2003 : Implemented Cloneable and PublicCloneable (DG);
* 24-Aug-2003 : Added null checks in drawItem (BK);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 07-Oct-2003 : Added renderer state (DG);
* 05-Dec-2003 : Changed call to obtain outline paint (DG);
* 10-Feb-2004 : Added state class, updated drawItem() method to make
  * cut-and-paste overriding easier, and replaced property change
  * with RendererChangeEvent (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 26-Apr-2004 : Added gradient paint transformer (DG);
* 19-May-2004 : Fixed bug (879709) with bar zero value for secondary axis (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with
  * getYValue() (DG);
* 01-Sep-2004 : Added a flag to control whether or not the bar outlines are
  * drawn (DG);
* 03-Sep-2004 : Added option to use y-interval from dataset to determine the
  * length of the bars (DG);
* 08-Sep-2004 : Added equals() method and updated clone() method (DG);
* 26-Jan-2005 : Added override for getLegendItem() method (DG);
* 20-Apr-2005 : Use generators for label tooltips and URLs (DG);
* 19-May-2005 : Added minimal item label implementation - needs improving (DG);
* 14-Oct-2005 : Fixed rendering problem with inverted axes (DG);
* ------------ JFREECHART 1.0.x ---------------------------------------------
* 21-Jun-2006 : Improved item label handling - see bug 1501768 (DG);
* 24-Aug-2006 : Added crosshair support (DG);
* 13-Dec-2006 : Updated getLegendItems() to return gradient paint
  * transformer (DG);
* 02-Feb-2007 : Changed setUseYInterval() to only notify when the flag
  * changes (DG);
* 06-Feb-2007 : Fixed bug 1086307, crosshairs with multiple axes (DG);
* 09-Feb-2007 : Updated getLegendItem() to observe drawBarOutline flag (DG);
* 05-Mar-2007 : Applied patch 1671126 by Sergei Ivanov, to fix rendering with
  * LogarithmicAxis (DG);
* 20-Apr-2007 : Updated getLegendItem() for renderer change (DG);
* 17-May-2007 : Set datasetIndex and seriesIndex in getLegendItem() (DG);
* 18-May-2007 : Set dataset and seriesKey for LegendItem (DG);
* 15-Jun-2007 : Changed default for drawBarOutline to false (DG);
* 26-Sep-2007 : Fixed bug 1775452, problem with bar margins for inverted
  * axes, thanks to Marc van Glabbeek (DG);
* 12-Nov-2007 : Fixed NPE in drawItemLabel() method, thanks to Richard West
* (see patch 1827829) (DG);
* 17-Jun-2008 : Apply legend font and paint attributes (DG);
* 19-Jun-2008 : Added findRangeBounds() method override to fix bug in default
axis range (DG);
* 24-Jun-2008 : Added new barPainter mechanism (DG);
* 03-Feb-2009 : Added defaultShadowsVisible flag (DG);
* 05-Feb-2009 : Added barAlignmentFactor (DG);
* 10-May-2012 : Fix findDomainBounds() and findRangeBounds() to account for
non-visible series (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
*
*

* Week.java
* -------
* (C) Copyright 2001-2013, by Object Refinery Limited and Contributors.
* Original Author: David Gilbert (for Object Refinery Limited);
* Contributor(s): Aimin Han;
*
* Changes
* -------
* 11-Oct-2001 : Version 1 (DG);
* 18-Dec-2001 : Changed order of parameters in constructor (DG);
* 19-Dec-2001 : Added a new constructor as suggested by Paul English (DG);
* 29-Jan-2002 : Worked on the parseWeek() method (DG);
* 13-Feb-2002 : Fixed bug in Week(Date) constructor (DG);
* 26-Feb-2002 : Changed getStart(), getMiddle() and getEnd() methods to
* evaluate with reference to a particular time zone (DG);
* 05-Apr-2002 : Reinstated this class to the JCommon library (DG);
* 24-Jun-2002 : Removed unnecessary main method (DG);
* 10-Sep-2002 : Added getSerialIndex() method (DG);
* 06-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 18-Oct-2002 : Changed to observe 52 or 53 weeks per year, consistent with
* GregorianCalendar. Thanks to Aimin Han for the code (DG);
* 02-Jan-2003 : Removed debug code (DG);
* 13-Mar-2003 : Moved to com.jrefinery.data.time package, and implemented
* Serializable (DG);
* 21-Oct-2003 : Added hashCode() method (DG);
* 24-May-2004 : Modified getFirstMillisecond() and getLastMillisecond() to
* take account of firstDayOfWeek setting in Java's Calendar
* class (DG);
* 30-Sep-2004 : Replaced getTime().getTime() with getTimeInMillis() (DG);
* 04-Nov-2004 : Reverted change of 30-Sep-2004, because it won't work for
* JDK 1.3 (DG);
* 06-Mar-2006 : Fix for bug 1448828, incorrect calculation of week and year
* for the first few days of some years (DG);
* 05-Oct-2006 : Updated API docs (DG);
* 06-Oct-2006 : Refactored to cache first and last millisecond values (DG);
* 09-Jan-2007 : Fixed bug in next() (DG);
* 28-Aug-2007 : Added new constructor to avoid problem in creating new
* instances (DG);
* 19-Dec-2007 : Fixed bug in deprecated constructor (DG);
* 16-Sep-2008 : Deprecated DEFAULT_TIME_ZONE (DG);
* 19-Jul-2012 : Replaced getTime().getTime() with getTimeInMillis() (DG);
* 03-Jul-2013 : Use ParamChecks (DG);
*

  * Peter Kolb - patches 1934255, 2603321 and 2809117;
  * Andrew Mickish - patch 1868749;

* Changes (from 21-Jun-2001)
  * 21-Jun-2001 : Removed redundant JFreeChart parameter from constructors (DG);
  * 18-Sep-2001 : Updated header and fixed DOS encoding problem (DG);
  * 15-Oct-2001 : Data source classes moved to com.jrefinery.data.* (DG);
  * 19-Oct-2001 : Removed the code for drawing the visual representation of each
    * data point into a separate class StandardXYItemRenderer.
    * This will make it easier to add variations to the way the
    * charts are drawn. Based on code contributed by Mark
    * Watson (DG);
  * 22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
  * 20-Nov-2001 : Fixed clipping bug that shows up when chart is displayed
    * inside JScrollPane (DG);
  * 12-Dec-2001 : Removed unnecessary 'throws' clauses from constructor (DG);
  * 13-Dec-2001 : Added skeleton code for tooltips. Added new constructor. (DG);
  * 16-Jan-2002 : Renamed the tooltips class (DG);
  * 22-Jan-2002 : Added DrawInfo class, incorporating tooltips and crosshairs.
    * Crosshairs based on code by Jonathan Nash (DG);
  * 05-Feb-2002 : Added alpha-transparency setting based on code by Sylvain
    * Vieujot (DG);
  * 26-Feb-2002 : Updated getMinimumXXX() and getMaximumXXX() methods to handle
    * special case when chart is null (DG);
  * 28-Feb-2002 : Renamed Datasets.java --> DatasetUtilities.java (DG);
  * 28-Mar-2002 : The plot now registers with the renderer as a property change
    * listener. Also added a new constructor (DG);
  * 09-Apr-2002 : Removed the transRangeZero from the renderer.drawItem()
    * method. Moved the tooltip generator into the renderer (DG);
  * 23-Apr-2002 : Fixed bug in methods for drawing horizontal and vertical
    * lines (DG);
  * 13-May-2002 : Small change to the draw() method so that it works for
    * OverlaidXYPlot also (DG);
* 25-Jun-2002 : Removed redundant import (DG);
* 20-Aug-2002 : Renamed getItemRenderer() --> getRenderer(), and
  setXYItemRenderer() --> setRenderer() (DG);
* 28-Aug-2002 : Added mechanism for (optional) plot annotations (DG);
* 02-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 18-Nov-2002 : Added grid settings for both domain and range axis (previously
  these were set in the axes) (DG);
* 09-Jan-2003 : Further additions to the grid settings, plus integrated plot
  border bug fix contributed by Gideon Krause (DG);
* 22-Jan-2003 : Removed monolithic constructor (DG);
* 04-Mar-2003 : Added 'no data' message, see bug report 691634. Added
  secondary range markers using code contributed by Klaus
  Rheinwald (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 03-Apr-2003 : Added setDomainAxisLocation() method (DG);
* 30-Apr-2003 : Moved annotation drawing into a separate method (DG);
* 01-May-2003 : Added multi-pass mechanism for renderers (DG);
* 02-May-2003 : Changed axis locations from int to AxisLocation (DG);
* 15-May-2003 : Added an orientation attribute (DG);
* 02-Jun-2003 : Removed range axis compatibility test (DG);
* 05-Jun-2003 : Added domain and range grid bands (sponsored by Focus Computer
  Services Ltd) (DG);
* 26-Jun-2003 : Fixed bug (757303) in getDataRange() method (DG);
* 02-Jul-2003 : Added patch from bug report 698646 (secondary axes for
  overlaid plots) (DG);
* 23-Jul-2003 : Added support for multiple secondary datasets, axes and
  renderers (DG);
* 27-Jul-2003 : Added support for stacked XY area charts (RA);
* 19-Aug-2003 : Implemented Cloneable (DG);
* 01-Sep-2003 : Fixed bug where change to secondary datasets didn't generate
  change event (797466) (DG)
* 08-Sep-2003 : Added internationalization via use of properties
  resourceBundle (RFE 690236) (AL);
* 08-Sep-2003 : Changed ValueAxis API (DG);
* 08-Sep-2003 : Fixes for serialization (NB);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 17-Sep-2003 : Fixed zooming to include secondary domain axes (DG);
* 18-Sep-2003 : Added getSecondaryDomainAxisCount() and
  getSecondaryRangeAxisCount() methods suggested by Eduardo
  Ramalho (RFE 808548) (DG);
* 23-Sep-2003 : Split domain and range markers into foreground and
  background (DG);
* 06-Oct-2003 : Fixed bug in clearDomainMarkers() and clearRangeMarkers()
  methods. Fixed bug (815876) in addSecondaryRangeMarker()
  method. Added new addSecondaryDomainMarker methods (see bug
  id 815869) (DG);
* 10-Nov-2003 : Added getSecondaryDomain/RangeAxisMappedToDataset() methods
  requested by Eduardo Ramalho (DG);
* 24-Nov-2003 : Removed unnecessary notification when updating axis anchor values (DG);
* 21-Jan-2004 : Update for renamed method in ValueAxis (DG);
* 25-Feb-2004 : Replaced CrosshairInfo with CrosshairState (DG);
* 12-Mar-2004 : Fixed bug where primary renderer is always used to determine range type (DG);
* 22-Mar-2004 : Fixed cloning bug (DG);
* 23-Mar-2004 : Fixed more cloning bugs (DG);
* 07-Apr-2004 : Fixed problem with axis range when the secondary renderer is stacked, see this post in the forum:
  * http://www.jfree.org/phpBB2/viewtopic.php?t=8204 (DG);
* 07-Apr-2004 : Added get/setDatasetRenderingOrder() methods (DG);
* 26-Apr-2004 : Added option to fill quadrant areas in the background of the plot (DG);
* 27-Apr-2004 : Removed major distinction between primary and secondary datasets, renderers and axes (DG);
* 30-Apr-2004 : Modified to make use of the new getRangeExtent() method in the renderer interface (DG);
* 13-May-2004 : Added optional fixedLegendItems attribute (DG);
* 19-May-2004 : Added indexOf() method (DG);
* 03-Jun-2004 : Fixed zooming bug (DG);
* 18-Aug-2004 : Added removedAnnotation() method (by tkram01) (DG);
* 05-Oct-2004 : Modified storage type for dataset-to-axis maps (DG);
* 06-Oct-2004 : Modified getDataRange() method to use renderer to determine the x-value range (now matches behaviour for y-values). Added getDomainAxisIndex() method (DG);
* 12-Nov-2004 : Implemented new Zoomable interface (DG);
* 25-Nov-2004 : Small update to clone() implementation (DG);
* 22-Feb-2005 : Changed axis offsets from Spacer --> RectangleInsets (DG);
* 24-Feb-2005 : Added indexOf(XYItemRenderer) method (DG);
* 21-Mar-2005 : Register plot as change listener in setRenderer() method (DG);
* 21-Apr-2005 : Added get/setSeriesRenderingOrder() methods (ET);
* 26-Apr-2005 : Removed LOGGER (DG);
* 04-May-2005 : Fixed serialization of domain and range markers (DG);
* 05-May-2005 : Removed unused draw() method (DG);
* 20-May-2005 : Added setDomainAxes() and setRangeAxes() methods, as per RFE 1183100 (DG);
* 06-Jun-2005 : Fixed equals() method to handle GradientPaint (DG);
* 09-Jun-2005 : Added setRenderers(), as per RFE 1183100 (DG);
* 06-Jul-2005 : Fixed crosshair bug (id = 1233336) (DG);
* ----------- JFREECHART 1.0.x ---------------------------------------------
* 26-Jan-2006 : Added getAnnotations() method (DG);
* 05-Sep-2006 : Added MarkerChangeEvent support (DG);
22-Nov-2006: Fixed equals() and cloning() for quadrant attributes, plus API doc updates (DG);
29-Nov-2006: Added argument checks (DG);
15-Jan-2007: Fixed bug in drawRangeMarkers() (DG);
07-Feb-2007: Fixed bug 1654215, renderer with no dataset (DG);
26-Feb-2007: Added missing setDomainAxisLocation() and setRangeAxisLocation() methods (DG);
02-Mar-2007: Fix for crosshair positioning with horizontal orientation
(see patch 1671648 by Sergei Ivanov) (DG);
13-Mar-2007: Added null argument checks for crosshair attributes (DG);
23-Mar-2007: Added domain zero base line facility (DG);
04-May-2007: Render only visible data items if possible (DG);
24-May-2007: Fixed bug in render method for an empty series (DG);
07-Jun-2007: Modified drawBackground() to pass orientation to
fillBackground() for handling GradientPaint (DG);
24-Sep-2007: Added new zoom methods (DG);
26-Sep-2007: Include index value in IllegalArgumentExceptions (DG);
05-Nov-2007: Applied patch 1823697, by Richard West, for removal of domain
and range markers (DG);
12-Nov-2007: Fixed bug in equals() method for domain and range tick
band paint attributes (DG);
27-Nov-2007: Added new setFixedDomain/RangeAxisSpace() methods (DG);
04-Jan-2008: Fix for quadrant painting error - see patch 1849564 (DG);
25-Mar-2008: Added new methods with optional notification - see patch
1913751 (DG);
07-Apr-2008: Fixed NPE in removeDomainMarker() and
removeRangeMarker() (DG);
22-May-2008: Modified calculateAxisSpace() to process range axes first,
then adjust the plot area before calculating the space
for the domain axes (DG);
09-Jul-2008: Added renderer state notification when series pass begins
and ends - see patch 1997549 by Ulrich Voigt (DG);
25-Jul-2008: Fixed NullPointerException for plots with no axes (DG);
15-Aug-2008: Added getRendererCount() method (DG);
25-Sep-2008: Added minor tick support, see patch 1934255 by Peter Kolb (DG);
25-Nov-2008: Allow datasets to be mapped to multiple axes - based on patch
1868749 by Andrew Mickish (DG);
18-Dec-2008: Use ResourceBundleWrapper - see patch 1607918 by
Jess Thrysoee (DG);
10-Mar-2009: Allow some annotations to contribute to axis autoRange (DG);
18-Mar-2009: Modified anchored zoom behaviour and fixed bug in
"process visible range" rendering (DG);
19-Mar-2009: Added panning support based on patch 2686040 by Ulrich
Voigt (DG);
19-Mar-2009: Added entity support - see patch 2603321 by Peter Kolb (DG);
30-Mar-2009: Delegate panning to axes (DG);
10-May-2009: Added check for fixedLegendItems in equals(), and code to
handle cloning (DG);
* 24-Jun-2009 : Added support for annotation events - see patch 2809117
  by PK (DG);
* 06-Jul-2009 : Fix for cloning of renderers - see bug 2817504 (DG)
* 10-Jul-2009 : Added optional drop shadow generator (DG);
* 18-Oct-2011 : Fix tooltip offset with shadow renderer (DG);
* 12-Sep-2013 : Check for KEY_SUPPRESS_SHADOW_GENERATION rendering hint (DG);
* 10-Mar-2014 : Updated Javadocs for issue #1123 (DG);
* 29-Jul-2014 : Add hints to normalise stroke for crosshairs (DG);
*

* --------------
* MeterPlot.java
* --------------
* (C) Copyright 2000-2014, by Hari and Contributors.
* 
* Original Author: Hari (ourhari@hotmail.com);
* Contributor(s): David Gilbert (for Object Refinery Limited);
* Bob Orchard;
* Arnaud Lelievre;
* Nicolas Brodu;
* David Bastend;
* 
* Changes
* -------
* 01-Apr-2002 : Version 1, contributed by Hari (DG);
* 23-Apr-2002 : Moved dataset from JFreeChart to Plot (DG);
* 22-Aug-2002 : Added changes suggest by Bob Orchard, changed Color to Paint
* for consistency, plus added Javadoc comments (DG);
* 01-Oct-2002 : Fixed errors reported by Checkstyle (DG);
* 23-Jan-2003 : Removed one constructor (DG);
* 26-Mar-2003 : Implemented Serializable (DG);
* 20-Aug-2003 : Changed dataset from MeterDataset --> ValueDataset, added
* equals() method,
* 08-Sep-2003 : Added internationalization via use of properties
* resourceBundle (RFE 690236) (AL);
* implemented Cloneable, and various other changes (DG);
* 08-Sep-2003 : Added serialization methods (NB);
* 11-Sep-2003 : Added cloning support (NB);
* 16-Sep-2003 : Changed ChartRenderingInfo --> PlotRenderingInfo (DG);
* 25-Sep-2003 : Fix useless cloning. Correct dataset listener registration in
* constructor. (NB)
* 29-Oct-2003 : Added workaround for font alignment in PDF output (DG);
* 17-Jan-2004 : Changed to allow dialBackgroundPaint to be set to null - see
* bug 823628 (DG);
* 07-Apr-2004 : Changed string bounds calculation (DG);
* 12-May-2004 : Added tickLabelFormat attribute - see RFE 949566. Also
* updated the equals() method (DG);
* 02-Nov-2004 : Added sanity checks for range, and only draw the needle if the
* value is contained within the overall range - see bug report
* 1056047 (DG);
* 11-Jan-2005 : Removed deprecated code in preparation for the 1.0.0
* release (DG);
* 02-Feb-2005 : Added optional background paint for each region (DG);
22-Mar-2005: Removed 'normal', 'warning' and 'critical' regions and put in facility to define an arbitrary number of MeterIntervals, based on a contribution by David Bastend (DG);
20-Apr-2005: Small update for change to LegendItem constructors (DG);
05-May-2005: Updated draw() method parameters (DG);
08-Jun-2005: Fixed equals() method to handle GradientPaint (DG);
10-Nov-2005: Added tickPaint, tickSize and valuePaint attributes, and put value label drawing code into a separate method (DG);
22-Mar-2005: Removed 'normal', 'warning' and 'critical' regions and put in facility to define an arbitrary number of MeterIntervals, based on a contribution by David Bastend (DG);
20-Apr-2005: Small update for change to LegendItem constructors (DG);
05-May-2005: Updated draw() method parameters (DG);
08-Jun-2005: Fixed equals() method to handle GradientPaint (DG);
10-Nov-2005: Added tickPaint, tickSize and valuePaint attributes, and put value label drawing code into a separate method (DG);
------------- JFREECHART 1.0.x ---------------------------------------------
05-Mar-2007: Restore clip region correctly (see bug 1667750) (DG);
18-May-2007: Set dataset for LegendItem (DG);
29-Nov-2007: Fixed serialization bug with dialOutlinePaint (DG);
18-Dec-2008: Use ResourceBundleWrapper - see patch 1607918 by Jess Thrysoee (DG);
02-Jul-2013: Use ParamChecks (DG);
*/

DatasetUtilities.java

(C) Copyright 2000-2014, by Object Refinery Limited and Contributors.

Original Author: David Gilbert (for Object Refinery Limited);
Contributor(s): Andrzej Porebski (bug fix);
               Jonathan Nash (bug fix);
               Richard Atkinson;
               Andreas Schroeder;
               Rafał Skalny (patch 192536);
               Jerome David (patch 2131001);
               Peter Kolb (patch 2791407);
               Martin Hoeller (patch 2952086);

Changes (from 18-Sep-2001)

18-Sep-2001 : Added standard header and fixed DOS encoding problem (DG);
22-Oct-2001 : Renamed DataSource.java --> Dataset.java etc. (DG);
15-Nov-2001 : Moved to package com.jrefinery.data.* in the JCommon class library (DG);
         Changed to handle null values from datasets (DG);
         Bug fix (thanks to Andrzej Porebski) - initial value now set to positive or negative infinity when iterating (DG);
22-Nov-2001 : Datasets with containing no data now return null for min and max calculations (DG);
13-Dec-2001 : Extended to handle HighLowDataset and IntervalXYDataset (DG);
15-Feb-2002 : Added getMinimumStackedRangeValue() and getMaximumStackedRangeValue() (DG);
28-Feb-2002 : Renamed Datasets.java --> DatasetUtilities.java (DG);
18-Mar-2002 : Fixed bug in min/max domain calculation for datasets that implement the CategoryDataset interface AND the XYDataset interface at the same time. Thanks to Jonathan Nash for the fix (DG);
23-Apr-2002 : Added getDomainExtent() and getRangeExtent() methods (DG);
13-Jun-2002 : Modified range measurements to handle IntervalCategoryDataset (DG);
12-Jul-2002 : Method name change in DomainInfo interface (DG);
30-Jul-2002 : Added pie dataset summation method (DG);
01-Oct-2002 : Added a method for constructing an XYDataset from a Function2D instance (DG);
24-Oct-2002 : Amendments required following changes to the CategoryDataset interface (DG);
18-Nov-2002 : Changed CategoryDataset to TableDataset (DG);
04-Mar-2003 : Added isEmpty(XYDataset) method (DG);
05-Mar-2003 : Added a method for creating a CategoryDataset from a KeyedValues instance (DG);
* 15-May-2003 : Renamed isEmpty --> isEmptyOrNull (DG);
* 25-Jun-2003 : Added limitPieDataset methods (RA);
* 26-Jun-2003 : Modified getDomainExtent() method to accept null datasets (DG);
* 27-Jul-2003 : Added getStackedRangeExtent(TableXYDataset data) (RA);
* 18-Aug-2003 : getStackedRangeExtent(TableXYDataset data) now handles null values (RA);
* 02-Sep-2003 : Added method to check for null or empty PieDataset (DG);
* 18-Sep-2003 : Fix for bug 803660 (getMaximumRangeValue for CategoryDataset) (DG);
* 20-Oct-2003 : Added getCumulativeRangeExtent() method (DG);
* 09-Jan-2004 : Added argument checking code to the createCategoryDataset() method (DG);
* 23-Mar-2004 : Fixed bug in getMaximumStackedRangeValue() method (DG);
* 31-Mar-2004 : Exposed the extent iteration algorithms to use one of them and applied noninstantiation pattern (AS);
* 11-May-2004 : Renamed getPieDatasetTotal --> calculatePieDatasetTotal (DG);
* 15-Jul-2004 : Switched getX() with getXValue() and getY() with getYValue();
* 24-Aug-2004 : Added argument checks to createCategoryDataset() method (DG);
* 04-Oct-2004 : Renamed ArrayUtils --> ArrayUtilities (DG);
* 06-Oct-2004 : Renamed findDomainExtent() --> findDomainBounds(), findRangeExtent() --> findRangeBounds() (DG);
* 07-Jan-2005 : Renamed findStackedRangeExtent() --> findStackedRangeBounds(), findCumulativeRangeExtent() --> findCumulativeRangeBounds(), iterateXYRangeExtent() --> iterateXYRangeBounds(), removed deprecated methods (DG);
* 03-Feb-2005 : The findStackedRangeBounds() methods now return null for empty datasets (DG);
* 03-Mar-2005 : Moved createNumberArray() and createNumberArray2D() methods from DatasetUtilities --> DataUtilities (DG);
* 22-Sep-2005 : Added new findStackedRangeBounds() method that takes base argument (DG);
* ------------ JFREECHART 1.0.x -------------------------------
* 15-Mar-2007 : Added calculateStackTotal() method (DG);
* 27-Mar-2008 : Fixed bug in findCumulativeRangeBounds() method (DG);
* 28-Mar-2008 : Fixed sample count in sampleFunction2D() method, renamed iterateXYRangeBounds() --> iterateRangeBounds(XYDataset), and fixed a bug in findRangeBounds(XYDataset, false) (DG);
* 28-Mar-2008 : Applied a variation of patch 1925366 (from Rafal Skalny) for slightly more efficient iterateRangeBounds() methods (DG);
* 08-Apr-2008 : Fixed typo in iterateRangeBounds() (DG);
* 08-Oct-2008 : Applied patch 2131001 by Jerome David, with some modifications and additions and some new unit tests (DG);
* 12-Feb-2009 : Added sampleFunction2DToSeries() method (DG);
* 27-Mar-2009 : Added new methods to find domain and range bounds taking into account hidden series (DG);
* 01-Apr-2009 : Handle a StatisticalCategoryDataset in iterateToFindRangeBounds() (DG);
* 16-May-2009 : Patch 2791407 - fix iterateToFindRangeBounds for
* MultiValueCategoryDataset (PK);
* 10-Sep-2009 : Fix bug 2849731 for IntervalCategoryDataset (DG);
* 16-Feb-2010 : Patch 2952086 - find z-bounds (MH);
* 02-Jul-2013 : Use ParamChecks (DG);
* /

  jar/org/jfree/data/xy/VectorSeries.java

1.2194 nss-softokn 3.44.0-8.el7_7

1.2194.1 Available under license:

NSS is available under the Mozilla Public License, version 2, a copy of which
is below.

Note on GPL Compatibility

______________________________

The MPL 2, section 3.3, permits you to combine NSS with code under the GNU
General Public License (GPL) version 2, or any later version of that
license, to make a Larger Work, and distribute the result under the GPL.
The only condition is that you must also make NSS, and any changes you
have made to it, available to recipients under the terms of the MPL 2 also.

Anyone who receives the combined code from you does not have to continue
to dual licence in this way, and may, if they wish, distribute under the
terms of either of the two licences - either the MPL alone or the GPL
alone. However, we discourage people from distributing copies of NSS under
the GPL alone, because it means that any improvements they make cannot be
reincorporated into the main version of NSS. There is never a need to do
this for license compatibility reasons.

Note on LGPL Compatibility

______________________________

The above also applies to combining MPLed code in a single library with
code under the GNU Lesser General Public License (LGPL) version 2.1, or
any later version of that license. If the LGPLed code and the MPLed code
are not in the same library, then the copyleft coverage of the two
licences does not overlap, so no issues arise.
Mozilla Public License Version 2.0
==================================

1. Definitions
---------------

1.1. "Contributor"
  means each individual or legal entity that creates, contributes to
  the creation of, or owns Covered Software.

1.2. "Contributor Version"
  means the combination of the Contributions of others (if any) used
  by a Contributor and that particular Contributor's Contribution.

1.3. "Contribution"
  means Covered Software of a particular Contributor.

1.4. "Covered Software"
  means Source Code Form to which the initial Contributor has attached
  the notice in Exhibit A, the Executable Form of such Source Code
  Form, and Modifications of such Source Code Form, in each case
  including portions thereof.

1.5. "Incompatible With Secondary Licenses"
  means

  (a) that the initial Contributor has attached the notice described
      in Exhibit B to the Covered Software; or

  (b) that the Covered Software was made available under the terms of
      version 1.1 or earlier of the License, but not also under the
      terms of a Secondary License.

1.6. "Executable Form"
  means any form of the work other than Source Code Form.

1.7. "Larger Work"
  means a work that combines Covered Software with other material, in
  a separate file or files, that is not Covered Software.

1.8. "License"
  means this document.

1.9. "Licensable"
  means having the right to grant, to the maximum extent possible,
  whether at the time of the initial grant or subsequently, any and
  all of the rights conveyed by this License.
1.10. "Modifications"  
means any of the following:

(a) any file in Source Code Form that results from an addition to,  
deletion from, or modification of the contents of Covered  
Software; or  

(b) any new file in Source Code Form that contains any Covered  
Software.

1.11. "Patent Claims" of a Contributor  
means any patent claim(s), including without limitation, method,  
process, and apparatus claims, in any patent Licensable by such  
Contributor that would be infringed, but for the grant of the  
License, by the making, using, selling, offering for sale, having  
made, import, or transfer of either its Contributions or its  
Contributor Version.

1.12. "Secondary License"  
means either the GNU General Public License, Version 2.0, the GNU  
Lesser General Public License, Version 2.1, the GNU Affero General  
Public License, Version 3.0, or any later versions of those  
licenses.

1.13. "Source Code Form"  
means the form of the work preferred for making modifications.

1.14. "You" (or "Your")  
means an individual or a legal entity exercising rights under this  
License. For legal entities, "You" includes any entity that  
controls, is controlled by, or is under common control with You. For  
purposes of this definition, "control" means (a) the power, direct  
or indirect, to cause the direction or management of such entity,  
whether by contract or otherwise, or (b) ownership of more than  
fifty percent (50%) of the outstanding shares or beneficial  
ownership of such entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free,  
non-exclusive license:

(a) under intellectual property rights (other than patent or trademark)  
Licensable by such Contributor to use, reproduce, make available,  
modify, display, perform, distribute, and otherwise exploit its
Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

(a) for any code that a Contributor has removed from Covered Software;

or

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

(c) under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.
2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

(a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software
under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the
non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

************************************************************************
*                                                                      *
*  6. Disclaimer of Warranty                                           *
*  -------------------------                                           *
*                                                                      *

*  7. Limitation of Liability                                          *
*  --------------------------                                          *
*                                                                      *
*  Under no circumstances and under no legal theory, whether tort      *
*  (including negligence), contract, or otherwise, shall any           *
*  Contributor, or anyone who distributes Covered Software as           *
*  permitted above, be liable to You for any direct, indirect,         *
* special, incidental, or consequential damages of any character    *
* including, without limitation, damages for lost profits, loss of *
* goodwill, work stoppage, computer failure or malfunction, or any *
* and all other commercial damages or losses, even if such party    *
* shall have been informed of the possibility of such damages. This *
* limitation of liability shall not apply to liability for death or *
* personal injury resulting from such party's negligence to the    *
* extent applicable law prohibits such limitation. Some          *
* jurisdictions do not allow the exclusion or limitation of    *
* incidental or consequential damages, so this exclusion and    *
* limitation may not apply to You. *                         *
*                                                               *
************************************************************************

8. Litigation
-------------

Any litigation relating to this License may be brought only in the
courts of a jurisdiction where the defendant maintains its principal
place of business and such litigation shall be governed by laws of that
jurisdiction, without reference to its conflict-of-law provisions.
Nothing in this Section shall prevent a party's ability to bring
cross-claims or counter-claims.

9. Miscellaneous
----------------

This License represents the complete agreement concerning the subject
matter hereof. If any provision of this License is held to be
unenforceable, such provision shall be reformed only to the extent
necessary to make it enforceable. Any law or regulation which provides
that the language of a contract shall be construed against the drafter
shall not be used to construe this License against a Contributor.

10. Versions of the License
---------------------------

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section
10.3, no one other than the license steward has the right to modify or
publish new versions of this License. Each version will be given a
distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version
of the License under which You originally received the Covered Software,
or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses

If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

Exhibit A - Source Code Form License Notice

This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at http://mozilla.org/MPL/2.0/.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

Exhibit B - "Incompatible With Secondary Licenses" Notice

This Source Code Form is "Incompatible With Secondary Licenses", as defined by the Mozilla Public License, v. 2.0.

Copyright 2008, Google Inc.

All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

* Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.
* Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer
in the documentation and/or other materials provided with the distribution.

* Neither the name of Google Inc. nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at http://mozilla.org/MPL/2.0/.

Within this directory, each of the file listed below is licensed under the terms given in the file LICENSE-MPL, also in this directory.

The Apache Software Foundation (http://www.apache.org/).

Apache License
Version 2.0, January 2004
http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the
editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement You may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct, indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all
other commercial damages or losses), even if such Contributor
has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
the Work or Derivative Works thereof, You may choose to offer,
and charge a fee for, acceptance of support, warranty, indemnity,
or other liability obligations and/or rights consistent with this
License. However, in accepting such obligations, You may act only
on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability
incurred by, or claims asserted against, such Contributor by reason
of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf
of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the
origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties of or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s)
with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

# This is the official list of people who can contribute
# (and typically have contributed) code to the Snappy-Go repository.
# The AUTHORS file lists the copyright holders; this file
# lists people. For example, Google employees are listed here
# but not in AUTHORS, because Google holds the copyright.
#
# The submission process automatically checks to make sure
# that people submitting code are listed in this file (by email address).
#
# Names should be added to this file only after verifying that
# the individual or the individual's organization has agreed to
# the appropriate Contributor License Agreement, found here:
#
# http://code.google.com/legal/individual-cla-v1.0.html
#
# The agreement for individuals can be filled out on the web.
#
# When adding J Random Contributor's name to this file,
# either J's name or J's organization's name should be
# added to the AUTHORS file, depending on whether the
# individual or corporate CLA was used.

# Names should be added to this file like so:
#     Name <email address>

# Please keep the list sorted.

public class Licences {

/** The GNU General Public Licence. */
public static final String GPL = "GNU GENERAL PUBLIC LICENSE\n" + "Version 2, June 1991\n" + "Copyright (C) 1989, 1991 Free Software Foundation, Inc. 675 Mass Ave, Cambridge, \n" + "MA 02139, USA. Everyone is permitted to copy and distribute verbatim copies of this \n" + "license document, but changing it is not allowed.\n" + "\n" + "The licenses for most software are designed to take away your freedom to share and \n" + "change it. By contrast, the GNU General Public License is intended to guarantee your \n" + "freedom to share and change free software--to make sure the software is free for all \n" + "its users. This General Public License applies to most of the Free Software \n" + "Foundation's software and to any other program whose authors commit to using it. (Some \n" + "other Free Software Foundation software is covered by the GNU Library General Public \n" + "License instead.) You can apply it to your programs, too.\n" + "\n" + "When we speak of free software, we are referring to freedom, not price. Our General \n" + "Public Licenses are designed to make sure that you have the freedom to distribute \n" + "copies of free software (and charge for this service if you wish), that you receive \n" + "source code or can get it if you want it, that you can change the software or use \n" + "pieces of it in new free programs; and that you know you can do these things.\n" + "\n" + "To protect your rights, we need to make restrictions that forbid anyone to deny you \n" + "these rights or to ask you to surrender the rights. These restrictions translate to \n" + "certain responsibilities for you if you distribute copies of the software, or if you \n" + "modify it.\n" + "\n" + "For example, if you distribute copies of such a program, whether gratis or for a fee, \n" + "you must give the recipients all the rights that you have. You must make sure that \n" + "they, too, receive or can get the source code. And you must show them these terms so \n" + "they know their rights.\n" + "\n" + "We protect your rights with two steps: (1) copyright the software, and (2) offer you \n" + "this license which gives you legal permission to copy, distribute and/or modify the \n" + "software.\n" + "\n" + "Also, for each author's protection and ours, we want to make certain that everyone \n" + "understands that there is no warranty for this free software. If the software is \n" + "modified by someone else and passed on, we want its recipients to know that what they \n" + "have is not the original, so that any problems introduced by others will not reflect \n" + "on the original authors' reputations.\n" + "\n" + "Finally, any free program is threatened constantly by software patents. We wish to \n" + "avoid the danger that redistributors of a free program will individually obtain patent \n"
The precise terms and conditions for copying, distribution and modification follow:

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by
the copyright holder saying it may be distributed under the terms of this General
License. The "Program", below, refers to any such program or work, and a
"work based on the Program" means either the Program or any derivative work under
copyright law: that is to say, a work containing the Program or a portion of it,
either verbatim or with modifications and/or translated into another language.
(Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to
"print or display an announcement including an appropriate copyright notice and a "
"notice that there is no warranty (or else, saying that you provide a warranty) and "
"that users may redistribute the program under these conditions, and telling the user "
"how to view a copy of this License. (Exception: if the Program itself is interactive "
"but does not normally print such an announcement, your work based on the Program is "
"not required to print an announcement."
"+ "un"
"+ "These requirements apply to the modified work as a whole. If identifiable sections of "
"that work are not derived from the Program, and can be reasonably considered "
"independent and separate works in themselves, then this License, and its terms, do not "
"apply to those sections when you distribute them as separate works. But when you "
"distribute the same sections as part of a whole which is a work based on the Program, "
"the distribution of the whole must be on the terms of this License, whose permissions "
"for other licensees extend to the entire whole, and thus to each and every part "
"regardless of who wrote it."un"
"+ "un"
"+ "Thus, it is not the intent of this section to claim rights or contest your rights to "
"work written entirely by you; rather, the intent is to exercise the right to control "
"the distribution of derivative or collective works based on the Program."un"
"+ "un"
"+ "In addition, mere aggregation of another work not based on the Program with the "
"Program (or with a work based on the Program) on a volume of a storage or distribution "
"medium does not bring the other work under the scope of this License."un"
"+ "un"
"+ "3. You may copy and distribute the Program (or a work based on the Program) on a volume of a storage or distribution "
"medium does not bring the other work under the scope of this License."un"
"+ "un"
"+ "a) Accompany it with the complete corresponding machine-readable source code, which "
"must be distributed under the terms of Sections 1 and 2 above on a medium customarily "
"used for software interchange; or,"un"
"+ "b) Accompany it with a written offer, valid for at least three years, to give any "
"third party, for a charge no more than your cost of physically performing source "
"distribution, a complete machine-readable copy of the corresponding source code, to be "
"distributed under the terms of Sections 1 and 2 above on a medium customarily used for "
"software interchange; or,"un"
"+ "c) Accompany it with the information you received as to the offer to distribute "
"corresponding source code. (This alternative is allowed only for noncommercial "
"distribution and only if you received the program in object code or executable form "
"with such an offer, in accord with Subsection b above.)"un"
"+ "un"
"+ "The source code for a work means the preferred form of the work for making "
"modifications to it. For an executable work, complete source code means all the source "
"code for all modules it contains, plus any associated interface definition files, plus "
"the scripts used to control compilation and installation of the executable. However, "
"as a special exception, the source code distributed need not include anything that is "
"normally distributed (in either source or binary form) with the major components "
"(compiler, kernel, and so on) of the operating system on which the executable runs,"
Unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

"4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance."

"5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it."

"6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License."

"7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program."

"If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances."

"It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in"
This section is intended to make thoroughly clear what is believed to be a consequence 
of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries 
either by patents or by copyrighted interfaces, the original copyright holder who 
places the Program under this License may add an explicit geographical distribution 
limitation excluding those countries, so that distribution is permitted only in or 
among countries not thus excluded. In such case, this License incorporates the 
"limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General 
Public License from time to time. Such new versions will be similar in spirit to the 
present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a 
version number of this License which applies to it and "any later version", you have 
"the option of following the terms and conditions either of that version or of any 
later version published by the Free Software Foundation. If the Program does not 
specify a version number of this License, you may choose any version ever published by 
the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose 
distribution conditions are different, write to the author to ask for permission. For 
software which is copyrighted by the Free Software Foundation, write to the Free 
Software Foundation; we sometimes make exceptions for this. Our decision will be 
guided by the two goals of preserving the free status of all derivatives of our free 
software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR 
THE "PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE 
STATED IN "

If the program is interactive, make it output a short notice like this when it starts:

```
Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with
"ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it under certain
"conditions; type `show c' for details.
"
"The hypothetical commands `show w' and `show c' should show the appropriate parts of
"the General Public License. Of course, the commands you use may be called something
"other than `show w' and `show c'; they could even be mouse-clicks or menu items"
"--whatever suits your program.
"
"You should also get your employer (if you work as a programmer) or your school, if"
"any, to sign a "copyright disclaimer" for the program, if necessary. Here is a"
"sample; alter the names:
"
"Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision'
"(which makes passes at compilers) written by James Hacker.
"
"<signature of Ty Coon>, 1 April 1989
"Ty Coon, President of Vice
"
"This General Public License does not permit incorporating your program into
"proprietary programs. If your program is a subroutine library, you may consider it
"more useful to permit linking proprietary applications with the library. If this is
"what you want to do, use the GNU Library General Public License instead of this
"License.
```

/** The GNU Lesser General Public Licence. */
public static final String LGPL = "GNU LESSER GENERAL PUBLIC LICENSE

"Version 2.1, February 1999"
"Copyright (C) 1991, 1999 Free Software Foundation, Inc.
"59 Temple Place, Suite 330, Boston, MA 02111-1307 USA"
"Everyone is permitted to copy and distribute verbatim copies of this license document,
"but changing it is not allowed.
"[This is the first released version of the Lesser GPL. It also counts as the "
"successor of the GNU Library Public License, version 2, hence the version number "
"2.1."
"Preamble"
"The licenses for most software are designed to take away your freedom to share and "
"change it. By contrast, the GNU General Public Licenses are intended to guarantee your "
"freedom to share and change free software--to make sure the software is free for all "+ "its users."
"l"
"This license, the Lesser General Public License, applies to some specially designated "+ "software packages--typically libraries--of the Free Software Foundation and other "+ "authors who decide to use it. You can use it too, but we suggest you first think "+ "carefully about whether this license or the ordinary General Public License is the "+ "better strategy to use in any particular case, based on the explanations below."
"l"
"When we speak of free software, we are referring to freedom of use, not price. Our "+ "General Public Licenses are designed to make sure that you have the freedom to "+ "distribute copies of free software (and charge for this service if you wish); that you "+ "receive source code or can get it if you want it; that you can change the software and "+ "use pieces of it in new free programs; and that you are informed that you can do these "+ "things."
"l"
"To protect your rights, we need to make restrictions that forbid distributors to deny "+ "you these rights or to ask you to surrender these rights. These restrictions translate "+ "to certain responsibilities for you if you distribute copies of the library or if you "+ "modify it."
"l"
"For example, if you distribute copies of the library, whether gratis or for a fee, you "+ "must give the recipients all the rights that we gave you. You must make sure that "+ "they, too, receive or can get the source code. If you link other code with the "+ "library, you must provide complete object files to the recipients, so that they can "+ "relink them with the library after making changes to the library and recompiling it. "+ "And you must show them these terms so they know their rights."
"l"
"We protect your rights with a two-step method: (1) we copyright the library, and (2) "+ "we offer you this license, which gives you legal permission to copy, distribute and/or "+ "modify the library."
"l"
"To protect each distributor, we want to make it very clear that there is no warranty "+ "for the free library. Also, if the library is modified by someone else and passed on, "+ "the recipients should know that what they have is not the original version, so that "+ "the original author's reputation will not be affected by problems that might be "+ "introduced by others."
"l"
"Finally, software patents pose a constant threat to the existence of any free program. "+ "We wish to make sure that a company cannot effectively restrict the users of a free "+ "program by obtaining a restrictive license from a patent holder. Therefore, we insist "+ "that any patent license obtained for a version of the library must be consistent with "+ "the full freedom of use specified in this license."
"l"
"Most GNU software, including some libraries, is covered by the ordinary GNU General "+ "License. This license, the GNU Lesser General Public License, applies to "+ "certain designated libraries, and is quite different from the ordinary General Public "+ "License. We use this license for certain libraries in order to permit linking those"
When a program is linked with a library, whether statically or using a shared library, " the combination of the two is legally speaking a combined work, a derivative of the " original library. The ordinary General Public License therefore permits such linking " only if the entire combination fits its criteria of freedom. The Lesser General Public " License permits more lax criteria for linking other code with the library.

"We call this license the "Lesser" General Public License because it does Less to " protect the user's freedom than the ordinary General Public License. It also provides " other free software developers Less of an advantage over competing non-free programs. " These disadvantages are the reason we use the ordinary General Public License for many " libraries. However, the Lesser license provides advantages in certain special " circumstances.

"For example, on rare occasions, there may be a special need to encourage the widest " possible use of a certain library, so that it becomes a de-facto standard. To achieve " this, non-free programs must be allowed to use the library. A more frequent case is " that a free library does the same job as widely used non-free libraries. In this case, " there is little to gain by limiting the free library to free software only, so we use " the Lesser General Public License.

"In other cases, permission to use a particular library in non-free programs enables a " greater number of people to use a large body of free software. For example, permission " to use the GNU C Library in non-free programs enables many more people to use the " whole GNU operating system, as well as its variant, the GNU/Linux operating system.

"Although the Lesser General Public License is Less protective of the users' freedom, " it does ensure that the user of a program that is linked with the Library has the " freedom and the wherewithal to run that program using a modified version of the " Library.

"The precise terms and conditions for copying, distribution and modification follow. " Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, " whereas the latter must be combined with the library in order to run.

"TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION"

0. This License Agreement applies to any software library or other program which " contains a notice placed by the copyright holder or other authorized party saying it " may be distributed under the terms of this Lesser General Public License (also called " this License"). Each licensee is addressed as "you".

"A "library" means a collection of software functions and/or data prepared so as to " be conveniently linked with application programs (which use some of those functions " and data) to form executables.

""
+ "The \"Library\", below, refers to any such software library or work which has been "
+ "distributed under these terms. A \"work based on the Library\" means either the "
+ "Library or any derivative work under copyright law: that is to say, a work containing "
+ "the Library or a portion of it, either verbatim or with modifications and/or "
+ "translated straightforwardly into another language. (Hereinafter, translation is "
+ "included without limitation in the term \"modification\".)\n"
+ "\n"
+ "\"Source code\" for a work means the preferred form of the work for making "
+ "modifications to it. For a library, complete source code means all the source code for "
+ "all modules it contains, plus any associated interface definition files, plus the "
+ "scripts used to control compilation and installation of the library.\n"
+ "\n"
+ "Activities other than copying, distribution and modification are not covered by this "
+ "License; they are outside its scope. The act of running a program using the Library is "
+ "not restricted, and output from such a program is covered only if its contents "
+ "constitute a work based on the Library (independent of the use of the Library in a "
+ "tool for writing it). Whether that is true depends on what the Library does and what "
+ "the program that uses the Library does."
+ "\n"
+ "1. You may copy and distribute verbatim copies of the Library's complete source code "
+ "as you receive it, in any medium, provided that you conspicuously and appropriately "
+ "publish on each copy an appropriate copyright notice and disclaimer of warranty; keep "
+ "intact all the notices that refer to this License and to the absence of any warranty; "
+ "and distribute a copy of this License along with the Library.\n"
+ "\n"
+ "You may charge a fee for the physical act of transferring a copy, and you may at your "
+ "option offer warranty protection in exchange for a fee.\n"
+ "\n"
+ "2. You may modify your copy or copies of the Library or any portion of it, thus "
+ "forming a work based on the Library, and copy and distribute such modifications or "
+ "work under the terms of Section 1 above, provided that you also meet all of these "
+ "conditions:\n"
+ "\n"
+ "* a) The modified work must itself be a software library.\n"
+ "* b) You must cause the files modified to carry prominent notices stating that you "
+ "changed the files and the date of any change.\n"
+ "* c) You must cause the whole of the work to be licensed at no charge to all third "
+ "parties under the terms of this License.\n"
+ "* d) If a facility in the modified Library refers to a function or a table of data "
+ "to be supplied by an application program that uses the facility, other than as an "
+ "argument passed when the facility is invoked, then you must make a good faith effort "
+ "to ensure that, in the event an application does not supply such function or table, "
+ "the facility still operates, and performs whatever part of its purpose remains "
+ "meaningful.\n"
+ "\n"
+ "(For example, a function in a library to compute square roots has a purpose that is "
+ "entirely well-defined independent of the application. Therefore, Subsection 2d "
+ "requires that any application-supplied function or table used by this function must be "
+ "\n"
These requirements apply to the modified work as a whole. If identifiable sections of "that work are not derived from the Library, and can be reasonably considered "independent and separate works in themselves, then this License, and its terms, do not "apply to those sections when you distribute them as separate works. But when you "distribute the same sections as part of a whole which is a work based on the Library, "the distribution of the whole must be on the terms of this License, whose permissions "for other licensees extend to the entire whole, and thus to each and every part "regardless of who wrote it."

"Thus, it is not the intent of this section to claim rights or contest your rights to "work written entirely by you; rather, the intent is to exercise the right to control "the distribution of derivative or collective works based on the Library."

"In addition, mere aggregation of another work not based on the Library with the "Library (or with a work based on the Library) on a volume of a storage or distribution "medium does not bring the other work under the scope of this License."

"3. You may opt to apply the terms of the ordinary GNU General Public License instead "of this License to a given copy of the Library. To do this, you must alter all the "notices that refer to this License, so that they refer to the ordinary GNU General "Public License, version 2, instead of to this License. (If a newer version than "version 2 of the ordinary GNU General Public License has appeared, then you can "specify that version instead if you wish.) Do not make any other change in these "notices."

"Once this change is made in a given copy, it is irreversible for that copy, so the "ordinary GNU General Public License applies to all subsequent copies and derivative "works made from that copy."

"This option is useful when you wish to copy part of the code of the Library into a "program that is not a library."

"4. You may copy and distribute the Library (or a portion or derivative of it, under "Section 2) in object code or executable form under the terms of Sections 1 and 2 above "provided that you accompany it with the complete corresponding machine-readable source "code, which must be distributed under the terms of Sections 1 and 2 above on a medium "customarily used for software interchange."

"If distribution of object code is made by offering access to copy from a designated "place, then offering equivalent access to copy the source code from the same place "satisfies the requirement to distribute the source code, even though third parties are "not compelled to copy the source along with the object code."

"5. A program that contains no derivative of any portion of the Library, but is "designed to work with the Library by being compiled or linked with it, is called a "
+ "\"work that uses the Library\". Such a work, in isolation, is not a derivative work of "
+ "the Library, and therefore falls outside the scope of this License.\n"
+ "\n"
+ "However, linking a \"work that uses the Library\" with the Library creates an "
+ "executable that is a derivative of the Library (because it contains portions of the "
+ "Library), rather than a \"work that uses the library\". The executable is therefore "
+ "covered by this License. Section 6 states terms for distribution of such executables.\n"
+ "\n"
+ "When a \"work that uses the Library\" uses material from a header file that is part of "
+ "the Library, the object code for the work may be a derivative work of the Library even "
+ "though the source code is not. Whether this is true is especially significant if the "
+ "work can be linked without the Library, or if the work is itself a library. The "
+ "threshold for this to be true is not precisely defined by law.\n"
+ "\n"
+ "If such an object file uses only numerical parameters, data structure layouts and "
+ "accessors, and small macros and small inline functions (ten lines or less in length), "
+ "then the use of the object file is unrestricted, regardless of whether it is legally a "
+ "derivative work. (Executables containing this object code plus portions of the Library "
+ "will still fall under Section 6.\n"
+ "\n"
+ "Otherwise, if the work is a derivative of the Library, you may distribute the object "
+ "code for the work under the terms of Section 6. Any executables containing that work "
+ "also fall under Section 6, whether or not they are linked directly with the Library "
+ "itself.\n"
+ "\n"
+ "6. As an exception to the Sections above, you may also combine or link a \"work that "
+ "uses the Library\" with the Library to produce a work containing portions of the "
+ "Library, and distribute that work under terms of your choice, provided that the terms "
+ "permit modification of the work for the customer's own use and reverse engineering for "
+ "debugging such modifications.\n"
+ "\n"
+ "You must give prominent notice with each copy of the work that the Library is used in "
+ "it and that the Library and its use are covered by this License. You must supply a "
+ "copy of this License. If the work during execution displays copyright notices, you "
+ "must include the copyright notice for the Library among them, as well as a reference "
+ "directing the user to the copy of this License. Also, you must do one of these "
+ "things:\n"
+ "\n"
+ "a) Accompany the work with the complete corresponding machine-readable source "
+ "code for the Library including whatever changes were used in the work (which must be "
+ "distributed under Sections 1 and 2 above); and, if the work is an executable linked "
+ "with the Library, with the complete machine-readable \"work that uses the Library\"\", "
+ "as object code and/or source code, so that the user can modify the Library and then "
+ "relink to produce a modified executable containing the modified Library. (It is "
+ "understood that the user who changes the contents of definitions files in the Library "
+ "will not necessarily be able to recompile the application to use the modified "
+ "definitions.\n"
+ "b) Use a suitable shared library mechanism for linking with the Library. A "
suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the work that uses the Library must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its
derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the above.
to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE "LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE) OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
+ "POSSIBILITY OF SUCH DAMAGES."
+ "\n"
+ "END OF TERMS AND CONDITIONS"
+ "\n"
+ "How to Apply These Terms to Your New Libraries"
+ "\n"
+ "If you develop a new library, and you want it to be of the greatest possible use to"
+ "the public, we recommend making it free software that everyone can redistribute and"
+ "change. You can do so by permitting redistribution under these terms (or,"
+ "alternatively, under the terms of the ordinary General Public License)."
+ "\n"
+ "To apply these terms, attach the following notices to the library. It is safest to"
+ "attach them to the start of each source file to most effectively convey the exclusion"
+ "of warranty; and each file should have at least the \"copyright\" line and a pointer"
+ "to where the full notice is found."
+ "\n"
+ "<one line to give the library's name and a brief idea of what it does>"

terms of the Eclipse Public License 2.0 which is available at
http://www.eclipse.org/legal/epl-2.0, or the Apache Software License
2.0 which is available at https://www.apache.org/licenses/LICENSE-2.0.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC
LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM
CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution” means:

a) in the case of the initial Contributor, the initial code and documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
   i) changes to the Program, and
   ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution ‘originates’ from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure
any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:
   i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
   ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
   iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and
   iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such
Contributor (“Commercial Contributor”) hereby agrees to defend and indemnify every other Contributor (“Indemnified Contributor”) against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:

a) promptly notify the Commercial Contributor in writing of such claim, and
b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or
(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

   (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL - Version 1.1)
1. Definitions.
1.1. Contributor means each individual or entity that creates or contributes to the creation of Modifications.

1.2. Contributor Version means the combination of the Original Software, prior Modifications used by a Contributor (if any), and the Modifications made by that particular Contributor.

1.3. Covered Software means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.

1.4. Executable means the Covered Software in any form other than Source Code.

1.5. Initial Developer means the individual or entity that first makes Original Software available under this License.

1.6. Larger Work means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. License means this document.

1.8. Licensable means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. Modifications means the Source Code and Executable form of any of the following:

A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications;

B. Any new file that contains any part of the Original Software or previous Modification; or

C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. Original Software means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. Patent Claims means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. Source Code means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. You (or Your) means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, You includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, control means (a) the power, direct or indirect, to cause
the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant.

Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.
3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications.

The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices.

You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions.

You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipients rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software.
4. Versions of the License.
4.1. New Versions.

Oracle is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN AS IS BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as Participant) alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if
within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

6.3. If You assert a patent infringement claim against Participant alleging that the Participant Software directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

6.4. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY.
UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.
The Covered Software is a commercial item, as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of commercial computer software (as that term is defined at 48 C.F.R. 252.227-7014(a)(1)) and commercial computer software documentation as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

9. MISCELLANEOUS.
This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdictions conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.
10. RESPONSIBILITY FOR CLAIMS.
As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL)

The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

# COMPONENT_NAME: idl.toJava
Open Source Used In Data Center Network Manager 11.5(1) 24950

com.sun.tools.corba.se.idl.toJavaPortable.Compile [options] <idl file>

<idl file>のIDL翻訳を実行する。
[options]で、どのオプションを適用するかを指定します。

<idl file>のdéfinitionを実行する。
[options]で、どのオプションを適用するかを指定します。

このオプションは、Javaでの実装を提案します。
サーバーやクライアントの間での実装を提案します。

server.javaの実装を提案します。
-ip <include path>で、実装に関連するincludeパスを指定します。

-keepで、クラス名を保存します。
-noWarnで、警告を無視します。
-oldImplBaseで、UTF-8のJavaベースを提案します。
-pkgPrefixで、Javaベースの�性を提案します。
-pkgTranslateで、Javaベースの読み方を提案します。

com.sun.tools.corba.se.idl.toJavaPortable.Compile [options] <idl file>

<idl file>のIDL翻訳を実行する。
[options]で、どのオプションを適用するかを指定します。

<idl file>のdéfinitionを実行する。
[options]で、どのオプションを適用するかを指定します。

このオプションは、Javaでの実装を提案します。
サーバーやクライアントの間での実装を提案します。

server.javaの実装を提案します。
-ip <include path>で、実装に関連するincludeパスを指定します。

-keepで、クラス名を保存します。
-noWarnで、警告を無視します。
-oldImplBaseで、UTF-8のJavaベースを提案します。
-pkgPrefixで、Javaベースの属性を提案します。
-pkgTranslateで、Javaベースの読み方を提案します。

com.sun.tools.corba.se.idl.toJavaPortable.Compile [options] <idl file>
