Deliver Products and Services

Why does Cisco collect Personal Data?

We may need Personal Data to deliver our solutions, used to provide you with warranty, support, technical support, and other services.

We can better assist you in making buying decisions, renewing products, and doing business with us overall.

How does Cisco share and protect the Personal Data we collect?

We can help you provide better consultations, analysis, and expert insights so you get the most value out of our products and services.

How to learn more

The type of data we collect, and how we store, edit, and manage it is unique to each product and service we sell. To learn more, refer to the relevant product Privacy Data Sheet or Data Map in the Cisco Trust Portal.

You can manage what data we collect:

- View, edit, and set preferences with the Cisco Profile Management Tool.
- Use embedded controls in certain products and services to manage your data.
- Use our Privacy Request Forms to access, change, limit, or delete your data.
- View Privacy Data Sheets and Data Maps to see what we collect, what data we do with it, where the data is, where it flows, and who has access to it.
