Data Privacy
What is Systems Information and how do we protect it?

Systems Information (SI) is a combination of data that Cisco receives directly from our solutions and data collection tools, and information you provide to us about the Cisco devices installed in your network.

Why does Cisco collect SI data?
To deliver and support your Cisco products and services, and to ensure we meet your business objectives today and in the future.

How does Cisco share and protect the SI data we collect?
When it comes to managing your data, we adhere to our Cisco Trust Principles of trustworthiness, transparency, and accountability.

How to learn more
The type of data we collect, and how we use, store, and manage it is unique to each product and service we sell. To learn more, refer to the relevant product Privacy Data Sheet or Data Map in the Cisco Trust Portal.
